## PREFACE: BACKGROUND TO THE NAVIGATORY EXPOSITION

I came to the United Kingdom as a 15 year old boy with my parents an elder brother and a younger sister all of whom returned soon after the period of deputation of his father ended in 1975, but I remained and strove hard to make it to prosperity in the United Kingdom so as to have liberty and freedom and also not be a financial burden on his family back in India. I completed my secondary education at Kingston College of Further Education in Surrey, England and then graduated from Chelsea College, University of London in 1978. After a brief spell of research in the pharmacological science at Hatfield Polytechnic which I dropped as of little use when the restrictions on my visas on my Indian passport were lifted, the author returned to London and took up menial jobs until he found a position in the Scientific Civil Service at what is now the Natural Resources Institute of the University of Greenwich. An 18 year career ended in 1998 acrimoniously so he undertook legal proceedings that continue unresolved to this day. I married my wife in Indian in 1985 as an arranged marriage to family traditions and customs and brought her to live with me in the United Kingdom where we were blessed with a daughter in 1990.

This autobiographical book condenses my experiences from August 2019 when my Blog <https://shantanup.wordpress.com> was archived and suspended by Wordpress for violations of the Terms of Use and alignment with Company Policy. A subsequent effort to resume the work that I had conducted still under the Title of 'Towards Knowledge for World Conservation in the website <https://towardsknowledgeforworldconservation.com> was also similarly archived and suspended. The author resumed his work as a truth-seeking and only secondarily as a philanthropic quest to assist the development of humanity in a Wix.com website recently at the website <https://knowledgeforworldconservation.com>. The internet publications were necessitated by the total lack of legal support from the authorities of the United Kingdom to challenge the medical and defamatory judgments that were passed over my conduct in society during the past 23 years as tget served to place correspondence being ignored into the public domain from which the perpetrators of injustices would have no escape. This also the function of the books that I started working on in 20004 when I was released from the mental hospital after a spell of 3 months of incarceration for my activism that my protestation of Brahminism as a political activity were overruled and I was diagnosed to be a mental patient indefinitely discarded into the dustbin of society. Still I was not going to bow before the oppression and continued my activism once more to try and improve my reputation and standard of living in creating the Union of Petrol Station Workers where I worked and taking the Indian government to the Supreme Court of India for conspiring with the government of the United Kingdom to endorse the Defamation and deny me my birthright Indian citizenship and passport. For this I was locked up again for another month in a mental hospital in 2008. The quest for truth and dharma was however ingrained my mind and this work that I described as dharmayudha continued and will continue in whatever capacity that I am able to do within the restrictions that are imposed upon me on a daily basis for as long as I survive and for it is part of his *raison d'être* and determined to be what Hindus call *sanatan dharma*, the principle that through karma alone one can serve God who for me is known by Sri Krishna.

After this incident I used internet facilities extensively to undertake freelance research in the humanities specifically and developed my conception of Reality, that is published in a book entitled 'A Conception of Reality' by inkylittlefingers, Printing Company with ISBN code: 978-1-914288-19-7. To this day I am regarded by the Mental Health Institutions of the State of the United Kingdom as paranoid schizophrenically disturbed mentally after initially being diagnosed with persistent delusional disorder, and in January 2020 with indications of autism spectrum condition. He is therefore kept by the State under anti-psychotic *risperidone*, anti-depressant *sertraline* and mood-stabilising *depakote* medications, but still living in the Community as a recluse away from interactions with wider society and those in authority. His material fate is unclear as he begins this book on the 12<sup>th</sup> of June 2021, as he has been examined for forensic conduct by a Consultant

Forensic Psychiatrist a year ago and also currently being reviewed for a Pre-Trial Hearing on 21 June 2021 at 11.40 am by the Central London County Court for anticipated criminal conduct in his activities during the past 23 years. The United Kingdom State is caught between these two options on how to deal with me.

For fairness and so as not to misrepresent anyone living or dead this publication is based on two internet websites that I created, one at SimpleSite in the website <https://shanpanigrahi.co.cu>, and the other as articles and posts in my LinkedIn Account <https://linkedin.com/in/shantanu-panigrahi-a120b267/>.

No commentary on the State of the Nation at the turn of the 21<sup>st</sup> Century follows at the end of these two website reproductions, as I have become totally non-judgemental on all issues that affect humanity having lost or relinquished all of my attachments to the body's material associations. It is just a narration of how I navigated myself through the nuances of the State in what I describe as the manifestation of a particular construction of Brahma-Nature that focuses on consumerism and the regulation of society to optimise this economic pathway. Through truth alone one can continue to live thriving in liberty by perfecting ones truth path to safety and security still living in the Community to discuss ones beliefs and publishing them unchallenged as to their rationale and justification; and survival is the basic instinct of life which one tests even when one's innermost convictions digress on factual Science itself that the State enacts and doing so discarding the spiritual dimension altogether as irrelevant. If one has truth will that surmount all the challenges that the State throws at one. It needs to be put to the test, for the attainment of truth itself tests the hypothesis that truth prevails (Satyameva Jayate) and Jatha Dharma Tatha Jaya because Dharma Rakshati Rakshita that one assesses at the spiritual level. This will be determined on 22 June 2021 when the Book will be ready for release.

अहिंसा परमो धर्मः

dharmo rakshati rakshitah

[http://www.hindupedia.com/en/Ahimsa\\_Paramo\\_Dharma](http://www.hindupedia.com/en/Ahimsa_Paramo_Dharma) explains succinctly:

"Ahimsa Paramo Dharma" is a Sanskrit phrase that was popularized by Mahatma Gandhi and is often repeated by many leaders today to demonstrate the universality of Ahimsa. Loosely translated, Ahimsa means Non-violence, paramo means topmost, ultimate, or supreme, and dharma means duty. Thus, the entire phrase means that non-violence is the topmost duty to the extent that it supersedes all other duties. For someone who holds this true, it means that there is no selective application of ahimsa...it must be applied in every case and in all matters. This universal sense leads to an unconditional and unilateral abandonment of violent resistance, under any and all circumstances (as in the philosophy of Buddhists and Jains). Sanatana Dharma does not impose total non-violence on its followers except in the case of ascetics. Ahimsa is a general dharma that is superseded with himsa (violence) in order to protect dharma.[1]. Ahimsa is only loosely translated as non-violence. Unlike the English word 'non-violence' (which is absolute in its meaning), ahimsa means non-violence in a relative sense. There are times when violence can also be considered ahimsa if that violence is used to stop greater violence. For example, a king should always raise his rod of chastisement to keep peace and order in his country. He will fail in the discharge of his duty if he does not punish the wicked, and his country will be in a state of utter chaos. To hang a murderer is Ahimsa for a king. To kill a man who is taking away the lives of many is Ahimsa. A real Sannyasin, however, should not defend himself even when his life is in danger. A Sannyasin is one who doesn't

associate with his body, instead identifying himself with the Atman. [2]. The statement, taken in full context and meaning within Sanatana Dharma as is applicable to most people.”

To this I would add, actions to protect dharma is *sarvouttam dharma*, above the parmo dharma of *ahimsa*. When this is done, one has sanatan dharma and dharmo rakshati rakshita. In the rajasic mould of Vishista-advaita Vedanta, one does not identify oneself with the atman but balances the material and spiritual realms to conduct oneself in society so as to fulfil sanatan dharma at all times. So in Hindi language it is said that whilst non-violence (ahimsa) is param (highest) dharma, '*dharm ki raksha ke liye yudha karna sarvouttam hai*', (to fight a dharmayudha battle to protect dharma as ahimsa in its various manifestations is the supreme dharma). This is the essence of dharmayudha in Hinduism.

Dear Sir

1. I wish to issue fresh new proceedings against the University of Greenwich in view of the lack of cooperation from the State authorities as summarised in the attached correspondence: CorrespondencewithPhillipJohnstoneonFacebook13Sep2019.docx. This follows the lack of reply to my application for the post of Lecturer in Biological Sciences at the University of Greenwich the closing date for which was 3 September 2019, and the appointment with Dr Odesanya this morning at Canada House where I was given a further prescription for Aripipazole as an antipsychotic medication.
2. This submission follows the lack of judgment from the Central London County Court on an Appeal of the attached Court Order E35YM660.pdf even though the Defendant had exhausted his 14 days for a response from 27 August 2019 intimation that I received from the Court that the Appellants Notice submitted to the Court for which £120 Court Fee was paid was duly served.
3. Please indicate whether you are willing to issue fresh proceedings or progress the existing Appeal.

Yours sincerely

Dear Jo

Thanks for being there for me. It is very reassuring to know that someone cares, and does not label me as mentally ill or disorderly person. I use cigarettes and alcohol now to combat boredom, and this is also the reason that I engage in what might appear to be repeated purposeless activity which can then be construed as a symptom of some description of mental disorder whether genetic or psychological.

The activities I engage in are spontaneous adjustments to the reality that I face. What is reality you may ask. The reality is what one perceives. Different people perceive reality differently. Whether I succeed in my target of restoring my reputation on this Earth through my activities remains to be seen. This is why I disagreed with my sister and asked her 'So you think I am wrong and she (my wife, Rashmi) is right? She did not answer. We are both right in what we do. That is the realisation. And so are you and everyone else in the planet. They are all fulfilling their genetic potentials in life through their actions (karma). So I may say something bad or even vile to someone spontaneously when I detect a threat to my survival with dignity but I do not tell them what to do if they do not wish to do so. I merely blog about these communications in my websites so that there is real data on Humanology for the Psychiatrists of this world to consider when examining the causes of symptoms in 'patients'.

This means that no one deserves to be subjected to mental health treatment centres like mental hospitals and it is a crime to enforce medications upon them for they are born to be part of Nature as created by God. If people have committed felonies and crimes as perceived by the State they should be fined through other means like financial penalties and prison terms.

My beliefs are fundamental to what I do in life and they cannot be challenged by anyone without receiving my right to reply. So it is good that the Samaritans are there to judge the people who come to them from the Mental Health connection. You may not be able to communicate this to Dr Odesanya, but I will.

I will never divorce my wife Rashmi and will never break apart the family having seen what she is like in bringing me further advice after I wrote to her yesterday 'Fuck off You Ignorant Creep' in text messages. She is a devoted wife who takes her duties very seriously and deserves an award from Her Majesty the Queen for the Carer of the Century.

Yours sincerely

Dear Kate

Did you receive this message: Toindeed21Oct2020b.docx, from the Supreme Court of the United Kingdom?

Please let me know because the KMPT have still not obtained the advice of the Consultant Psychiatrist Dr Odesanya as yet on my release back to primary care in respect of the below email and I need to see Dr Mawanche on Monday as I made clear. In the meantime I am continuing to take my 74 mg lurasidone anti-psychotic and 150 mg sertraline anti-depressant although I feel like doubling the dose of lurasidone again in light of the lack of a Vocational Advisor or Care Coordinator for me to advise me on in this latest job opportunities that neuvoco of Canada has kindly sent me:

FrNeuvoco24Oct2020.docx; FrNeuvoco24Oct2020b.docx; Frneuvoc24Oct2020c.docx; and

FrNeuvoc24Oct2020.docx. The Royal Main has confirmed my Christmas Casual appointment for which the induction is on 18 November 2020 but that will only last till Christmas unless the Service transfers me to Angard subsequently. So I do need another and regular source of additional income next year until I start getting my State Pension, which I believe would be at the age of 68 or 70. I do not know if Tesco at Rainham Kent Supermarket Branch is a possible option still. I do not ever wish to go back to Sainsburys.plc, but my speciality lies in Customer Service and I had passed the Tesco questionnaire-assessment at least three times over the past 15 years. My wife thinks that I could

also be useful and productive at Aldi in Gillingham Business Park and I am soon going to be in a position to re-apply for a position there after the last failure they said.

I shall thank you for letting me know whether I can see you today so that we can discuss this at your office; if you send me your full postal address and Mobile Phone telephone number now.

I believe that my National Insurance Number and British Passport are still valid so can I call Aldi Supermarket from its Candidate Portal to check on the progress of my Store Assistant job application at my Candidate Portal this morning and continue with taking up my Christmas Casual job at Royal Mail starting on 18 November Induction until these volunteering opportunities materialise bearing in mind that nothing is likely to be resolved until the 2nd of December 2020 in relation to the coronavirus lockdown?

## BREXIT AND BRITISH

The British spirit of independent development aroused the feeling of going it alone in a complex world where opportunities could no longer be exploited to generate prosperity and welfare by being tied to the apron strings of the European Union. This spirit culminated in a national referendum in 2016 whereby the population were given a chance to voice their opinion on whether it was in the best interests of the nation to withdraw from this superstate arrangement that seemed to many to have outlived its usefulness in a globalised environment.

The recalcitrants of the Liberal Party with its subservience to European camaraderie and the divergent views of the Labour Party were stunned when the nation voted 52% to 48% for the United Kingdom to leave the European Union. The constitution of the United Kingdom was not fully apparent to the politicians and judges so that the disagreements in Parliament on the procedures that should be adopted to effect the withdrawal by invoking Article 50 of the Treaty of the European Union were tested and are still being tested to their utmost limits.

The pressure to do something drastic to reignite national pride came to the fore with the development and support steadily acquired by the United Kingdom Independence Party (UKIP) which was formed by disgruntled Conservatives unhappy that the country should take dictations from the European Union on such fundamental matters as immigration and free movement, payment of large sums of money to the European Union, exploitation of sea resources in terms of fisheries, and being subject to the laws and regulations that would be administered by the European Court of Justice. The offshoot of UKIP under Nigel Farage is the Brexit Party that puts considerable pressure on the Conservatives to progress the strive to exiting the European Union.

David Cameron the Conservative Prime Minister had not foreseen the strength of feeling within the nation until voters compelled the Party to rethink his Remain predisposition. He resigned and Mrs Theresa May became the next Prime Minister. She believed that under the royal prerogative she had the power to not consult Parliament in drafting the withdrawal agreement with the European Union. This was challenged in the Courts and the Courts ruled that she would have to legislate through Parliamentary processes to invoke Article 50 and that her withdrawal agreement would itself have to be ratified by a vote of Members of Parliament and the House of Lords.

A date was set for United Kingdom leaving the European Union on 31 March 2019, but despite several attempts by Theresa May no single draft withdrawal agreement received ratification by Parliament. There was considerable soul searching among individual parliamentarians concerned that the withdrawal would damage economic prosperity, with the Liberal Party reinforcing its policy to campaign strongly to remain in the European Union. A substantial number of Labour Members of Parliament left the Party and formed the Change UK group that campaigned for a fresh new referendum to re-establish the voice of the people instead of honouring the 2016 referendum result.

Agreement could not be reached by 31 March 2019 and the United Kingdom had to seek an extension of time for the withdrawal from the European Union to be made effective. This date was set for 31 October 2019. Prime Minister Theresa May resigned as Leader of the Conservative Party when there was massive revolt against her detailed proposals and her failure to get it through Parliamentary procedures within the original deadline. There was a substantial number of Conservative Members of Parliament who wished to leave the European Union without a deal so that the country would be free to engage in trade deals on world trade terms instead of taking directives from arrangements agreed with the European Union.

The Conservative and Unionist Party elected Boris Johnson as its new leader and he became Prime Minister with a mission to take the United Kingdom out of the European Union, do or die, by 31

October 2019 with a deal if possible but also without a deal if no agreement could be reached by this date. The Liberal Party and the Labour Party passed the Benn Act that would effectively force the Prime Minister to seeking a further extension on the date by which the United Kingdom would leave the European Union. There was considerable tussle in Parliament and Boris Johnson attempted to prorogue Parliament for a period of 5 weeks during which he said that a new Queens Speech would take place. The decision ot prorogue Parliament was challenged in the High Court which said that under the consitutional separation of powers it had no business to intervene. This was appealed by Gina Miller's team in the the Supreme Court, whose 11 Justices judged that the governments proroguing of Parliament was unlawful and never took place. This was because no reasonable justification was given to the Court for the proroguing of Parliament and the procedure prevented Parliament from performing its constituional functions of scrutinising the Prime Minister on his actions so that it stifled debate. The Parliament resumed amid chaotic scenes of accusations and recriminations. Boris Johnson did not resign on the verdict delivered by the Supreme Court and said that the decision was not right. He challenged the opposition to implement a vote of no confidence in him or to let there be a general election to sort out the crisis. The opposition parties would not do that because they were of the view that this was a ploy by the government to crash out of the European Union on 31 October 2019 without a deal that would be supported by the majority of MPs, and Labour and Liberals were hell bent on not supporting any deal negotiated by the Conservative Party. These opposition politicians also denied Boris Johnson an immediate general election that would have had the effect of securing a mandate from the electorate to govern to their manifestos and refused to call a motion of no confidence in the Prime Minister that would have lead to it. Further the oppositon would not agree to a recess to allow the Conservative Party to have their annual conference in order to seek an extension of the Brexit exit deadline beyond 31 October 2019, possibly to the end of January 2020 in order that they would argue that the Conservatives failed to deliver Brexit in an orderly manner with a deal that the majority in Parliament supported. This was a manifestation of opposition for opposition sake and mired in party politics rather than having a government of national unity that would produce the will of the people currently.

That is the background as it stands on this day, the 27th of September 2019.

#### FURTHER DEVELOPMENTS ON BREXIT

The Prime Minister's negotiations with European Union continue to see if a deal can be struck by 18 October 2019.

31 October 2019 Update:

The new Prime Minister Boris Johson negotiated another deal with the European Union that required ratification by Parliament in the United Kingdom. He chose to go for a general election instead to obtain a fresh mandate from the population to see how Parliamentary democracy which has proven to be the lawful process in the constitution of the country plays out.

This general election will take place on 12 December 2019, and required an amendment to the Fixed Term Parliament Act that would have required a two-thirds majority for the Bill to hold a mid-term general election. This is because with Parliamentary democracy the Prime Minister would not risk his attainment of the withdrawal agreement that was approved through amendments being tabled by opposition Members of Parliament to the Withdrawal Agreement Bill because all parties are sick and tired of these Parliamentary machinations in the United Kingdom. The European Union has extended the deadline for the decision until 31 January 2019 to see what happens in the general election and determine the future association with the United Kingdom.

13 December 2019 Update:

The Conservative Party has secured a landslide majority in the general election and the Prime Minister Boris Johnson has a fresh mandate for effective government over the next 5 years to get Brexit done as the new government sees fit. The dithering Labour Party secured only 203 seats in the new parliament with Conservatives gaining 363 seats. The Liberal Democrats with their pro-Remain agenda failed miserably with the Leader Jo Swinson losing her seat in her constituency to the ever stronger Scottish National Party. The near final state of Parliament is as follows:

UK GENERAL ELECTION 2019 LIVE RESULTS 650 / 650 PARTY SEATS WON CONSERVATIVE 365 LABOUR 203 LIBERAL DEMOCRAT 11 SCOTTISH NATIONAL PARTY 48 GREEN PARTY 1 BREXIT PARTY 0 PLAID CYMRU 4 OTHERS 18

It therefore now looks certain that the deal negotiated by Boris Johnson for UK's withdrawal from the European Union by 31 January 2019 will be implemented as the Prime Minister sees fit. The State of the Union of United Kingdom therefore appears secure if Westminster does not yield to the demand of the Scottish National Party to administer a second referendum for Scottish independence from the United Kingdom.

Thank You Yahoo/Inbox Richard Tice To:shanpanigrahi@yahoo.co.uk 16 Dec at 14:02 View this email in your browser Dear Supporter, Just under a year, and what a year it has been. With your support, the Brexit Party has been able to shape the political agenda of our country. We ensured that Brexit will happen by removing the Theresa May led government and then we forced the Tories' shift, in recent months, towards a proper clean break Brexit. Now we helped them get a big Brexit majority win in this election. Our decision to stand down in incumbent Tory seats allowed us to focus our efforts on Labour and others who are committed to a second referendum and remain. It was essential for us to ensure that we did not enable a remain win. Our decision has been vindicated. In seat after seat, particularly in the North, our share of the vote corresponds to the fall in support for Labour. Whether the constituency you live in is one we stood in for this General Election or not, you and your support have been a hugely important part of the Brexit Party team. Many of you have put in incredible efforts, helping build local support and gathering pledges. For this we are hugely grateful, and even if you didn't have a Brexit Party candidate to vote for in your constituency, we did everything we could to ensure a national leave majority to deliver on the mandate you gave the government. Making change, ensuring the government serves its people, is all about participation; each person playing their part in determining their future. Nigel and I, and the whole Brexit Party team, thank you for your continued support and commitment to the party. We must continue to ensure a proper Brexit will be delivered, and one thing's for sure — we know we can make change and we know there is more to make. We need reform. Once again this election demonstrates that we have a broken political system; when you consider that the SNP got under 4% of the vote and now have 48 MPs, but the hundreds of thousands of people who voted for for the Brexit Party have no representation in Westminster. This simply isn't right — it is not real Democracy. Hopefully, our mission to put Brexit back on track is now complete, for that we should all feel immensely proud. May I take this opportunity to wish you all a very festive season. ### LIBERATION

I was trapped by circumstances for 63 years and now I am truly retired. Free and liberated. I have no worries or stress any more for I have learnt through bitter lesson that attachments to circumstances lead one to an active life, and one needs freedom from active life. This means not to respond to beliefs, ideas, ambitions, plans. One just needs to go with the flow promptly and instinctively.

All my essential correspondence is completed: I have no outstanding issues to deal with. There is no one on Earth now who will bother me with needs as I have abandoned my past and am dealing with my mind in the present here and now.

So I wish to talk about Liberation.

Why does one need freedom from active life: the simple answer is so that the mind does not suffer mental anxieties. For dealing with issues that crop up requires an understanding of the subject matter. This generates thoughts of complexity that requires analysis so that the correct decision is made. What is the correct decision in each case? There is no correct decision in each case for the State or religion will tell you what it needs to implement as the correct decisions and actions resulting but this leads one to question whether what the State or religion is doing is right or wrong morally. What is moral? There is no answer to that for in my intense search for God to tell me that, I found no Personal God that could or would answer that question. The result is that the mind of the idealist is stricken by what the Psychiatrist describe as persistent delusional disorder.

So the correct way of dealing with it is to withdraw from active life as far as possible. Fortunately for me I have a divine wife who takes care of all our needs and I do receive an employment-related pension to supplement her income. So we have no financial worries. Hence I am fortunate enough to be liberated to the extent that I take my anti-psychotic and anti-depressant and high cholesterol medications as my wife insists I need to do.

Am I 100 per cent liberated? It is all in the mind. Some would argue that to listen to my wife's needs from me in cooperating with the State Mental Health Authorities in implementing the Care Plan outlined for me means that I am not. But I do so willingly because I know that my wife has to be happy with me if we wish to live as a husband and wife (plus daughter) so pleasing her is essential as she pleases me with all her care and goodness towards all whom we come in contact with.

When I do chores for my wife and daughter, my mind undergoes stress no doubt but if my actions are conducive to their happiness, I am happy with myself. I feel liberated as a result.

Had I been working I would have been under tremendous work-related stress to add to my home-maintenance stress, and this stress was so enormous that on two occasions (2004 and 2008) I as forced by the State to go into mental hospital under sectioning (The Mental Health Act). The periods in hospital relieved me considerably of my stress and I came out revitalised to take on my role in the family. I had jobs that I coped with, but I nearly came to a third nervous breakdown a few weeks ago until I decided to do something about my true retirement from active life.

I asked my wife this morning whether she has seen any changes in me and she said yes. So we are living happily together. If there are any future stresses within the family that we both could not cope with, that will be a time for separation, a point that we had both reached on a few occasions until our marriage vows and thoughts for the welfare of our daughter prompted us to stay together.

I smoke cigarettes which my wife thoroughly disapproves of and we nearly ended up with domestic violence on that score before I could convince her that I needed the cigarettes to cope with stress

that are associated with my ideals. Now she lets me smoke reluctantly. But if it was the case that she stopped me from smoking I would give up smoking for I love my wife and daughter considerably. It is for this reason alone that I take my anti-psychotic medication of risperidone (4 mg daily) and aripipazole (5 mg daily) and anti-depressant medication of sertraline (100 mg daily) prescribed to me by the National Health Service who consider these to be necessary to control me enough so that I might be able to live in the community instead of being sent to the mental hospital again. So far it has worked as I adhere also to the Care Plan that she has written out for me of do's and don'ts. It is my intention, whether that is associated with my marriage vow or my personal drive for sanity in not letting down another human being to whom I made promises, to live with her in comfort and joy for the rest of my life.

I do not therefore wish to become a monk like Buddha did to get away from the stresses of living a modern life, and wish to enjoy all that life has in store for me with contentment. Liberation or moksha is therefore not something worthwhile to aim for if one has responsibilities to the family and society while still at work in order to earn one's livelihood. Above all I do not wish to be recluse but engage in family and society as a member of humanity.

So I have attachments and am not fully liberated, because I am not selfish. This is what the Hindu religious thought focuses on in order to ascertain whether there is God, Truth Consciousness, or Brahman-generated construction of the universe. I have travelled through those paths of learning about dharma (duties and righteous actions) and decided that they are not for me. I act spontaneously with everyone that I come across.

### VOWS AND PROMISES

I have heard time and again that people have to make vows and promises in order to live a happy and stress-free life. For example, if one believes in following the Eightfold path as outlined by the Buddha, one has to take a vow to become a Buddhist and adhere to the tenets of that religion. If one takes marriage vows one has to fulfill the requirements of that vow to live together in joyous harmony until death does the couple apart. If one is brought in front of a judge in a court of law one has to hold the individual persons holy book like the Bible or Gita or Koran to give truthful evidence and testimony to the State.

I have taken marriage vows but our vows have come under tremendous strain from the third month of our marriage as incompatibility surfaced. One has to compromise one's needs in order to keep the marriage together. The only reason for me for keeping the marriage together was that together we were stronger. This was an assessed and calculated decision and it produced our progeny to give us a meaningful family life.

When reality hits a person all vows are meaningless, as survival instinct kicks in. I therefore do not believe in vows and promises or religions and beliefs for I wish to lead a stress-free life with peace of mind. This means that Buddhism is wrong. The State's enforcement in courts for vows to speak the truth come what may or perjury charges would be levied is wrong. The individual should be allowed to do whatever he or she feels is necessary in order to protect his or her interests. These interests are biologically-driven. Since there is no God we are animals whose primary motivation is to do ones best to ensure that one survives to a grand old age and fulfills all ones biological needs.

States and Religions are infringements on a person's liberty to go as he or she pleases. No one has the right to get another person to do as he or she is told, as biological facts point to the survival of the fittest.

To make oneself fit to survive to a grand old age, one has to understand reality with pin-point accuracy. The only truth that is to be relied upon moment by moment is that which preserves the individual and generates the path to a successful life.

So today I have broken my marriage vows and my wife too never refers to them. We live the best we can to keep a roof over our heads, transport, incomes that we need to keep the household together, and engagements that create a better future for us individually.

I operate unrestricted whether or not there is a God for Creation and Preservation and I have already written in this website that there is no God to restrict me. I do not vow to speak the truth and not to lie. It depends on who I am dealing with, as evil people need to be lied to and deceived in one's quest for survival. One uses tactics that come naturally to an individual born with the genes that promotes survival, no matter what the odds against it are. That is why I am alive today at the age of 63 and living comfortably without be harassed by anyone. I take considerable precautions and pains to enable me to survive on. It comes naturally to me because I was born with the right genes. There are no Gods for me to protect me having tested that in considerable detail over the past 22 years.

In other words the adage that promises and vows are made to be broken is correctly conceived. One cannot take any chances or one will fall victim to outside forces pitted against one.

Marriage is therefore a State-induced institution that locks one into the processes of the State and is the States means to regulate society. It runs counter to the individual's objective of leading the best life that one can to fulfill his or her true potential for personal development, unless one has been

able to discuss these issues with one's partner and come to a mutual understanding of how the couple respect each other's needs as my wife and I have done over 34 years together and still going strong: stronger than ever in the past through the years of learning how best to adjust to each other. It has nothing to do with marriage vows but the dire need to survive and prosper individually under which we found that our resources are more productive when pooled together. Marriage is not a sacred institution given to us by God, for there is no God as personal or common entity who establishes norms of behaviour upon Nature. We are free of that baggage of burden.

So the swearing of an oath in a court of law that 'I swear by Almighty God that the evidence that I shall give shall be the truth, the whole truth and nothing but the truth, so help me God' is a gross infringement on the liberty of a person because it forces him to lie because there is no God to help him or her, and the process deprives him or her of the wherewithal to protect himself or herself from evil forces in Nature. This then generates stress upon the individual.

Do I therefore not believe in the existence of nation States? No I do not for the impact it has on personal development. States are essential. The smaller the State the easier it is for its society to manage its resources. The easiest way to manage is the family structure. But one cannot produce all the goods and services that one needs within one family. So we need a society. But large societies are not conducive to individual happiness and development. People need to immigrate to those States that hold out better opportunities for them to fulfill their potentials. Laggards will remain in under developed States. That is why I believe in Boris Johnson the Prime Minister of the United Kingdom in his against the odds attempts to for us to leave the European Union.

Having said that I wish to see improvements in the State of the United Kingdom to ensure the welfare of all its population. If Scotland thinks it can become independent of the United Kingdom we should allow that to take place. If Northern Ireland wishes to have ever closer ties to the Republic of Ireland, the backstop on the Brexit deal should be negotiated accordingly.

With regard to the United Kingdom as it stands the changes I wish to see are constitutional. I was an accomplished scientist in the biological field whose career was dismantled by the United Kingdom State thereby rendering me without any justification whatsoever from riches to rags and into a life of relative poverty because I believed in speaking the truth and dealing with evil forces in Nature effectively to protect my reputation as a par excellence human being that I strove for all my life with my high ideals. The State then dismantled my Blog entitled 'Towards Knowledge for World Conservation' at <https://shantanup.wordpress.com> under which I had reestablished a decade long career as a journalist that I then chose to become as an alternative adventure to make my life more meaningful and productive. My response to these injustices was to break my vow to be loyal to Her Majesty the Queen of the United Kingdom that I had taken during my naturalisation ceremony in 1984 when I relinquished my birthright of Indian citizenship to become a Britisher. I was especially justified in doing so because there is no God to save the Queen as is required to be sung in the United Kingdom's national anthem. I do not sing that national anthem. I am a Republican now unless the changes that I have asked for are granted to me.

5 March 2020 Update:

I have changed my mind about vows taken in the sight of God this evening for my mental peace of mind as follows:

Shantanu's list of things to do for physical and emotional well-being: Vows

1. Try and take a walk every day; it should be for 30 mins or more
2. Try to look up and be aware of your surroundings
3. Look after yourself
4. Drink 6 glasses of water a day
5. Brush teeth twice a day, first thing in the morning and last thing at night: use Corsodyl mouth wash periodically for good dental hygiene
6. Cut out sugars and reduce carbohydrates in diet to control your prediabetes condition
7. When you are stressful, chew some gum: chewing action relieves stress.
8. Keep yourself well groomed; look good to feel good
9. Eat well
10. Stay in the kitchen when cooking
11. Read books and newspaper (Rashmi will bring in Metro and Evening Standard)
12. Watch TV
13. Sit in the conservatory and watch the wildlife in the garden
14. Sleep well
15. Stop printing rubbish; they are all safe in your email account
16. Do not see the world as your enemy; 90% of people you know are good
17. Stop smoking
18. Savings in Bank Accounts are good for a rainy day or drought depending on where one is in the world; do not waste money unnecessarily
19. Police and Courts do nothing about criminal anonymous emails or the Wordpress Blog restoration so do not contact the Police, Courts, solicitors and advocates again
20. Jobs are good to supplement income so go for the job interviews even if it is a part-time job; keep applying for more jobs
21. Do not buy a new car until you have secured a part-time or full-time job and completed the probation period so that the job becomes permanent
22. Do not contact the Samaritans or anyone else but Rashmi and Rupa as I do not need externally-applied emotional and spiritual support because my Realisation is complete.
23. Accept that I am mentally ill and take all prescribed medications for physical and mental health
24. Do not send any emails to anyone except for jobs and family-related matters and block all unwelcome emails
25. Do not sign petitions or contribute to society in any way
26. Go on the internet for news to tweet; restrict posting to Facebook, SimpleSite and Twitter for mental peace of mind

Care Plan Updated: 4 March 2020 7.00 pm

7 March 2020 Update:

That did not last long, as reality hit me with silence from the State authorities so I had to take vow-breaking persecution-avoidance measures this morning to survive in this Police State country.

I was right in the first place: There is no God to make vows to for the entire focus must be on survival. This means there is no such thing as Sanatan Dharma and the Vows one makes is to oneself taken for self gratification and therefore delusional. One just acts spontaneously along the truth

path which is constructed in Brahman-Nature, where survival is guaranteed to those who have perfected the truth realisation of Brahma, Vishnu and Shiva entities and understood that Brahma is sattvic which protects through one's truth accommdational yoga, that is satyaadvaita or oneness with truth. That is the only Sanatana Dharma and it is self defined. It remains to be seen whether I am right or wrong as this is a brand new conception of Reality.

### SURVIVAL INSTINCT

I am fortunate enough to have survived amid terrific struggles with elements of humanity which could not cope with my search for the truth. When I first came out of hospital in 2004 where I had been sectioned under the Mental Health Act for my wife had reported me to Dr Sudhir Patel of Wigmore Medical Centre, I knew instinctively that I had to survive this onslaught from the United Kingdom State. My wife had reported me to the Mental Health authorities because I had spent £20000 of our savings in fighting the University of Greenwich in the Courts of the United Kingdom and the European Court of Human Rights, as I felt that I was unjustifiably dismissed from service without being given an adequate opportunity to explain my conduct at the University that led to the charge of gross misconduct which was such a big stain on my reputation following the assessment of the Livestock Production Manager Mr Richard Mathewman that I had sought project fund extension under false pretences that I had to do something about it. I could not get a Hearing to my satisfaction in any of the venues that I tried. This was followed by a second instance of being dismissed from service by Shell UK when I established the foundations of the Union of Petrol Service Workers to fight the inhumane treatment received by workers by this company through its Franchisee Ian Gordon. Again I could not get a Hearing of my complaints by the Employment Tribunal and the subsequent courts to which both these complaints were duly taken over the years that followed. Instead on the recommendation of my wife I was incarcerated for a second time when I ran up £500 per month telephone bill with no income coming in from me to run the household with.

He that fights and runs away lives to fight another day is an English proverb that I am enormously in agreement with for the onslaught from the State had to be resisted through my personal survival in this country because on the first dismissal and the adjudication by Medway County Court that I had abused the process of Court in bringing an employment matter to a County Court I applied for asylum in India and numerous other countries all of which received short shrift. So I was compelled to stay in the United Kingdom as I did not wish to return to India with my tail between my legs as an immigrant who could not make it in life as he was unable to fit into the systems of his adopted country into which he had naturalised citizenship.

I rebelled against any perversion of the truth in my life and dealt with my adversaries with cutting words and reported them to the Police and the Courts or to bodies like Amnesty International, Refugee Council, and foreign embassies. This the UK State could not tolerate and not only was I incarcerated in mental hospitals as stated above, I was placed on a life time of anti-psychotic and anti-depressant medications even when allowed to live in the community with my family because the mental hospitals could not find any reason to keep me locked up due to the fact that I adjusted to life in these institutions by playing scrabble and pool to pass my time.

My wife was not wrong in recommending me for psychiatric treatment and initially it was me as an act of defiance from me when I was suspended from work by the University of Greenwich in 1998. I had been diagnosed by Dr Rao of BUPA as suffering from Severe Depression with Psychotic Features for which I was prescribed the medications. This was not enough for the crooks of the University of Greenwich to place me on medical retirement let alone accepting that I was not to be blamed for the misconduct that I was accused of in view of the fact that I had suffered a nervous breakdown in coping with the stresses of withstanding workplace harassment from colleagues and senior management at the Natural Resources Institute. I was dismissed from service summarily and lost the £55,000 redundancy payment that would have been paid to me as I was to be dismissed as part of restructuring at the Institute. The University had agreed with my Solicitor to have an amicable settlement of payment of £20,000 and a Reference, but I chose to request reinstatement and after a period of obtaining the necessary evidence to mount a productive industrial tribunal case at Ashford Employment Service, I did not receive this payment either. The Employment Tribunal did not accept

my written submissions and I would not attend the Tribunal Hearing because the perpetrators of the work place harassment were not invited to submit their evidence under oath. The Tribunal dismissed my Case. I appealed to the Employment Appeal Tribunal and sought advice from the Court of Appeal but to no avail. I therefore decided to mount a County Court challenge to force the truth of my harassment at the University of Greenwich to come out in Court proceedings but again the procedures of the Court were manipulated against me and I was fined and found to have abused the process of Court.

I was very dissatisfied with the outcome and it shattered my faith in the British system of justice and fair play, especially when I was sectioned under the Mental Health Act for my struggle to hold to account the University of Greenwich and the State that sustained this and the Shell Tribunal criminality that had met with the same fate at the Employment Tribunal at Ashford in 2008.

On the first occasion I had been a firm believer in the existence of God but with such an outcome of my struggle my faith was also shattered. I was thoroughly depressed but the Wigmore Medical Centre would not prescribe me with anti-depressants. I struggled by working as Cleaner in Total Britannia Petrol Station for a measly £50 per week and did manual work for an Employment Agency at a Warehouse where heavy lifting of produce had to be undertaken and work went on till midnight hours.

The State was watching all this as I wrote to Tony Blair concerning appropriate jobs that my qualifications deserved. I did not get a reply. Following the decision of the Medway County Court that I had abused the process of Court in bringing the University of Greenwich to face justice I submitted a petition to the Queen of the United Kingdom but it got me nowhere.

So I had lost all hope and was totally aggrieved by my plight. I could not face my relatives in India as I was regarded as inheriting a genetic disorder which had led to my mother having committed suicide at the age of 34 and had also tried to take my younger sisters life in the process. With my brother too being a psychiatric patient in India after he was thrown out by the UK State for work place misconduct in 1976, the mental health authorities of the United Kingdom were convinced that my mental condition that they termed persistent delusional disorder was an inherited trait. I was made to think that I would also be a life long psychiatric patient. Kent Police would not let me take up job opportunity as Public Service Officer that I had passed the interview for because that judged from the Psychiatric Report on me that I would not be able to cope with the stresses of this menial job.

This was a State that required to be bashed I decided. I therefore started a Blog with Wordpress entitled 'Towards Knowledge for World Conservation in which I discussed all the facets of the United Kingdom Society that I had experienced. I took Kent Police to Court on 12 charges of failure to deal with criminals of the State. It was thrown out by Master Eastmen even though Kent Police had failed to even acknowledge the service of proceedings without a Hearing. I appealed and called Master Eastman a criminal and invited the charge of contempt of court in the process so that the details of the Case would surface in official court proceedings. No action was taken on me except a re-referral to the Mental Health authorities whom I described as Pig-shit criminals for such an intrusion into my privacy for which no justification was offered. I took Wigmore Medical Centre to the Mental Health Tribunal which refused to consider the application.

I was blogging all my correspondence in the Wordpress Blog: <https://shantanup.wordpress.com>, and attempting to publicise my book 'The Allurement of Reality' describing my experiences with Authorhouse UK, Greenberry Publishing and Austin Macauley, but these attempts were thwarted.

In September 2017, the State through its agents calling themselves Victims of Panigrahi Association launched the first of its attacks on me through someone called Dr Shivaji Panesar from the Ministry of Home Affairs rejecting my application for a Person of Indian Origin Status and tried to force me to return to India for all my asylum applications made to India and the United Nations High Commission for Refugees had been blogged as was the referral of Her Majesty the Queen of United Kingdom to the International Criminal Court. Attempts were made through nearly 200 criminal anonymous emails to bring charges against me in the courts and by the Police. I was facing incessant harassment from the authorities of the State which I blogged in Wordpress. I took the Prime Minister Mrs Theresa May to the County Court Money Claims Centre to a civil case for failure to reign in the State criminals at the Mental Health authorities and Victims of Panigrahi Association. The case was transferred on request from the Prime Minister's lawvere to the County Court in Central London where I was demanding millions of pounds in damages and compensation for State-organised persecution. I blogged the deceitful letters from this Court and other Courts.

The Psychiatrist Dr Masoud produced a Report to stop my Blogging and also subsequently referred me to a Forensic Psychiatrist. The pressure from the State caused Wordpress to disable first three blog posts including the ones of Correspondence from the County Court in Central London, and the Referral of Crimes to Kent Police. I protested this to be part of the criminality of Wordpress that was a manifestation of State organised persecution, and blogged the correspondence. Wordpress promptly archived and suspended my blog citing privacy violations from me. I responded by asking the Court to increase my damages and compensation Claim to £15 million against UK Treasury.

The Consultant Psychiatrist Dr Odesanya examined me again on 13 September 2019, and indicated that if the current medication was not working over the next 8 weeks I should consider a change to Clozapine under which I would require daily monitoring of my immunity to disease by examination of white blood cells as this was a much more powerful anti-psychotic medication than risperidone.

The County Court at Central London has kept silent as has the Financial Ombudsman because I asked for Wordpress to be approached to release the contents of all my Blog archived and suspended by the Firm for the consideration of both the Cases. I had specifically asked the Central London County Court for a direct Order to Wordpress to restore my Blog fully as I was merely fulfilling my journalism in publishing all the information that I had collected over the 22 years of suffering in the United Kingdom.

There is now total silence from all parties, which is fine by me for my survival instincts were still in tact. I do not have any kind of mental illness inherited or otherwise. I had just been coping with the stresses of having faced 22 years of UK State-organised persecution for my attempts to raise the truth that UK government is to be condemned for an utterly discreditable constitutional establishment.

### FRAME OF MIND

The frame of mind required to withstand oppression effectively is very special. Over the past 22 years through self analysis I have determined that it is possible to develop a technique to administer this so that one prospers in life against considerable odds. I worked out how to be mentally strong in coping with the reality that one faces. I call it satya-advaita or truth accommodation. Having assessed through experimentation with checking out whether there is God that administers Nature I have realised that truth accommodation is not a religion or philosophy. It is a Frame of Mind, a method for determining reality and being successful in ones operations by terrific adaptation to the imminent reality.

Where does oppression come from. It comes from Nature. Say naught the struggle not availeth is a English saying. Humans need to struggle against Nature just as all plants and animals struggle against Nature. It is how we have evolved as human beings to get as far as we have done to adjust and adapt to the environment. The environment is a challenge to struggle through so that one attains one's goal of survival of the species. Those born with the brains to ascertain truth work out this reality and prosper. They make a mark in life and leave behind a legacy that is admired for generations.

Truth Consciousness is wonderful thing. It acts automatically to those born with the right genes. These people are awakened to appropriate thoughts and actions that chart a truth path for them individually to guide them through their lives. The greater this aspect of the mind has developed the more successful they are in terms of reaching a grand old age with sufficient wealth and to produce their offspring for the next generation. That is evolution. It is how the entirety of evolution works in the natural world.

So how does Truth Consciousness work. We are in the best place to study and assess this because we have a mind that is highly developed to enable studies of our thoughts and resulting actions. The mind will sense dangers and take immediate steps to avert those dangers to the physical and mental states if one is intelligent. Truth Consciousness works instinctively in that it works out spontaneously what to say and what not to say, what to write, whom to write to, what tools one needs to stave off dangers to the self. It is the process of adaptation to the environment.

The only wisdom one requires is the realisation of Truth Consciousness and to submit to it having tested its reliability over years by a study of human beings through interactions - that is humanology.

Why have I put Truth Consciousness with capital T and capital C? It is because I believe that I have been blessed with whatever I have experienced as boon to myself for my considerable faith in God that had its ups and downs as I struggled through Nature over the past 22 years in the doldrums of a career-less individual. I cannot believe how I have survived to tell this tale. Until proven otherwise, I would say that God administers Truth Consciousness through Evolution of the Species. - Charles Darwin, eat your heart out!

Thus Evolution is not a Theory: it is a fact. We humans are still evolving just like all other species. But there are no Gods for me as Personal God. This is proven. The decision to relinquish a perceived God from my life was taken by me because I had evidence that it would retard my progress in this life into a successful future. I found it to be a total waste of time and resources that could be put to more productive uses.

### ADAPTATION

They say that the idle mind is the devil's workshop. What does this mean? Does it mean that these people commit crimes and indulge in inhumane activities or activities that dismantle the very environment that sustains us? Or is this a statement from the State that we need to work and keep ourselves occupied? Or we would do things that the State does not like and so does not approve, such that the 'perpetrators' of 'evil' deeds are then carted off to the prison or the mental hospital? Is this therefore just a State-slogan that has been dreamt of as a means to regulate society?

Life is a matter of Evolution of the Species. In the process of living one can either fight or take flight. Flight is the means to adapt to the surroundings so that one survives. That is why in the wild herbivores have adapted to run from their carnivorous preys. They survive and live for another day. Carnivores are fewer in number and if the herbivores that they prey on have adapted features that help them avoid their predators they thrive to feed on the abundance of plants that are naturally available to them. This is the reason that birds have existed on the planet for millions of years and are still going strong. Carnivores can only survive if they adapt to run faster than the herbivores. Mammals have only been around for lesser time on the Earth than birds. So the lesson from Nature is that the successful species are those that adapt to thrive on the food for which there is an abundance and have evolved means of flight so that they can avoid being caught by predators. For humans the same is true, asylum seekers, refugees and immigrants thrive because they run from their human predators and food shortages that would not sustain the burgeoning population of humans at a particular locality. This is the reason for man's travels from their origins in Africa a million years ago. This is the reason that I settled in the United Kingdom from my opportunity to do so when the restrictions on my Indian passport were lifted in 1978.

Vegetarians will survive longer because vegetarian foods will be the last to disappear and only a climatic disaster such as the asteroid that wiped out the dinosaurs would be the danger. So humans must learn to develop their dietary habits to vegetarianism and veganism to avert dangers to themselves in the long term and take all steps necessary to deal with impending asteroid strikes on Earth. No God is going to be able to protect us humans, just as no God could protect the dinosaurs. And if there was a God why would He create the dinosaurs only to see them wiped off. What about the 5-6 other mass extinctions where millions of species were wiped off. Were these species not dear to a God? What is so special about our humanity that we would be protected by that Creator God? We are destroying the planet with human activities. We have not learnt to live in accordance with our environment and Nature, the biosphere.

That is why I am a climate change activist who proposes a new way forward for humanity: adaptation to the environment. We need to do away with our activities that threaten the fabric of humanity worldwide and protect our environment if not biodiversity. We must preserve natural resources and the best way to do so is to have a global strategy to discontinue the use of military weapons. America must start first by the lifting of its Amendment of the Constitution for individual to bear arms. All export of arms must be stopped, and learn to regard all humanity as colleagues in Nature as members of the same species.

We must then reconsider global macroeconomics but retain our faith in microeconomics as the efficient use of resources. We must clean up our environment by releasing those funds and reduce wastage of all natural resources and protect the natural world from man-made pollution of the environment. Macroeconomic policies should be designed to provide the population with full employment and minimum incomes because not providing that scope is tantamount to oppression on the people under which they will consider flight or fight responses leading to crime or emigration to greener pastures. This should be aimed for not through socialism or command economies but

capitalism utilising human entrepreneurship that takes care of the human needs of all the people of a State.

These then are the essential features of what I have described as Green Socialism previously in my Wordpress Blog that has been archived and suspended by Wordpress. In discussing these issues, I am not being moderate or extreme in my analytical view but propounding the theory of Green Socialism in ways that has not yet been conceptualised and described fully to take account of detailed understanding of the place of humans in this universe. There is currently too much emphasis on following religions and human rights, morality and other such subjective impositions and not enough on fundamental survival of humanity in Nature. Following religions is like a drowning man clutching at a straw. Pursing humanism is considering humans in isolation from the environment.

In my view for those who value plant and animal life and have great attachment for these creatures Green Socialism is the only adaptive means for preserving biodiversity for the conservation of the biosphere.

## INTERNET CRIMES

As modern technology develops the scope and nature of crimes change. The Courts and Police are not equipped to investigate and judge these crimes. And because of nation boundaries, jurisdiction on crimes committed by international global institutions is uncertain. This is what I found out about Wordpress who archived and suspended my Account <http://www.shantanup.wordpress.com>.

My lawyer friend is attempting to retrieve the contents of that Blog that was an accumulation of a decade-long journalism of international affairs. Now I cannot even get access to the material that I published as I have no written records of what I wrote.

Where do we take these criminals to as Action Fraud pretends that it did not receive my complaint of a Fraud totalling up to £15 million pounds in damages and compensation against Wordpress for disabling my Blog. I have tried the Courts of the United Kingdom to no avail. The deadline for the Central London County Court to listen to my lawsuit by granting a Hearing before a Circuit Judge that was promised in an Order of the Court dated 30 September 2019 has effectively been withdrawn.

This is what my anonymous-friend has written to me:

Dear Shan, I must strongly caution you NOT to use LinkedIn. The prohibition is even stronger than for FaceBook. You will lose your account there very quickly due to guerilla action by VOPA, just like you did with WP, and these will have major repercussions on any web-based recovery.

Instead, you must use SIMPESITE to propagate your profile and only say in LI and FB that your views can be found at <http://shanpanigrahi.simpesite.com/443658800> etc

I cannot find the Doomsday blog you mention. Do you have a web address for it? No such subject title was on your principal website, shantanup.w.

You must apologise to Dr Sudhindra Patel, who I am convinced is one and the same as this Panesar. Or did not Panesar's Indianness appear genuine to you? You are a better judge than me.

I send this email to them. This other "SP" put in an appearance around September 2017 when your disputes with WMC were at their height. Kelly Mills would know -- phone and ask her direct about her colleague's double life.

Dear Dr Satan-u,

The Speakers are accountable only to God, to whom you must direct all further queries. The email address of god@nightingalechambers.co.uk for communications should do.

We have entertained you as a maniac and lunatic for far too long. Now you are raving about sending "enemies" bombs or chemical poisons, for which threats we had your ten-year blog at <http://shantanup.wordpress.com> shut down permanently.

Our wider concerns are at present frustrated by the extreme, to the point of unbelievability, stupidity of the police in your area. We have been given sight of the log showing three WPCs visited Number 3 Hoath Lane in December, who you managed to deceive with your forgeries and your pretended victimhood.

You have a proven record of sending out fake nonamoos emails that threaten yourself, and then complaining about them, to confuse those who are investigating the threats you made to 1,000 to 1,500 people or organizations since 2013, one of the latest of whom were young Mrs Karina Chetwynd. Hope you have settled in your office now to process my complaints concerning the Speakers of the House of Commons: please let me know who the Speaker is accountable to, the High Court, the Supreme Court, or Her Majesty the Queen through the Privy Council?

I have just spoken to Canada House receptionist over the telephone concerning the subnormal attitudes of Fucken Aderibole and the repugnant Dr Odesanya with regard to the Care Plan points that I am finding very difficult to cope with because the Care Coordinator Fucken Aderibole is not cooperating with me to assist me in following the Care Plan which on the one hand seems to ban me from communicating with the Samaritans; yet the 14 November 2019 letter of another appointment for 22 November 2019 10.30 am this time with my Care Coordinator states that I can call them if I needed to.

I am also sorry to note that Gill Turner Tucker Solicitors are not acting for me in this regard which is consistent with the attitudes of nearly 280 other Law Firms that I have tried to access to get justice in the United Kingdom during the past 22 years of suffering inhumane persecution from the UK State for my sexual inclinations. ## MEDICATIONS

With the development post industrial United Kingdom health services have developed in the country that has been copied throughout the world and replaced traditional medications such as Ayurvedic medicine practised for centuries if not millenia in India.

So the question arises are modern medications dispensed into the population doing the people any good. Do the doctors know what is being treated and how. Or is it all hit and miss experimentation with synthetics as opposed to natural cures for ailments.

I can speak a bit from personal experience that has cast considerable doubt on modern medicine. Vaccinations aside because the theory of vaccines rely on enhancing the immunity of the body to fight infectious diseases, I am not convinced that we need any or all the medications prescribed currently in the United Kingdom.

The following email summarises my concerns particularly as it relates to mental health because the adage that a healthy mind resides in a healthy body is questionable. The Hindu thought that I subscribe to is that a healthy body resides in a healthy mind so that through yoga the Hindus have developed a highly sustainable mental faculties that give them longevity and continuous peace of mind. Dear Jo

I am now chewing nicorette chewing gums that I purchased at Tesco this afternoon. The leaflet in the packet states is a medicine in order to reduce the amount of cigarettes I am smoking from the current 20 a day. If this works and helps me cope with stress and thoughts on how to deal with criminals on the internet and in public life, I will ask Dr Mawanche who confirmed to me at the appointment this morning is willing to be my long term GP even though he is a locum because he said he will be available to me for a very long time. My worries about the medical profession has been the constant changing of my GP and Consultant Psychiatrist at Canada House so that I have never been able to establish a rapport with a 'family GP' that was the case in a previous generation in order that the GP and patient could learn about each other and the medical conditions being assessed and treated which would then be done confidently and not haphazardly as if the patient is an experimental guinea pig. Changes to GP and Consultant Psychiatrist has made my life intolerable and unbearable so that I have been suicidal at times with the lack of clarity on my diagnoses and treatment. This uncertainty on my medical status persists.

Accordingly, I am copying this to the GP Surgery and Julie Palmer so that appointments are made both with the GP Dr Mawanche and with the Consultant Psychiatrist Dr Odesanya immediately to see if this nicorrette is prescribed to me on the NHS because it costs £10 to £15 per packet that I can ill afford on my £1000 per month pension. The employment opportunity with Royal Mail is not guaranteed because the letter I received was a provisional offer subject to employment and security checks. I have still not received the email confirmation from Royal Mail that was mentioned to tell me if and when to arrive for the start of the work on 25 November although I understand that it would be at Medway Mail Centre in Knight Road Strood at 3.30pm provisionally. I need a full time permanent job with Royal Mail of a minimum of 30 hours a week so that I can make ends meet with the commitments I have.

Thank you for your understanding: at present I am also smoking with the nicorette but it is early days as it were in the trial as I know from Pharmacology that I studied at the University that addiction to mind bending medications require titration before switching to alternative therapy: so I do not know for certain whether nicorette chewing gums will work for me. Dr Mawanche and Dr Odesanya may be able to confirm to me if it can replace aripipazole and risperidone simultaneously so that all I would have to take as medicine in the future is nicorette chewing gums like Indians are used to beetle with tobacco to cope with stress that Nature/Brahman poses to humans and through which we need to identify our individual truth pass to liberation (moksha). There is still no appointment with Medway NO Smoking NHS Helpline for me which Dr Mawanche will have to assist me to make an official referral in view of the complex nature of the medications that I am under (risperidone, aripipazole, sertraline (increased today to 150 mg by Dr Mawanche), atrovastatin, and tobacco (nicotine).

I have not received a Proforma that is appropriate for my Prolactin blood test that is due on 8 weeks since I started taking aripipazole with risperidone and I need clarity on the alternative I have at the hospital appointment of 28 October 2019 for an MR Scan of my Pituitary Gland as I have a phobia to enter into that rounded machine again which adds to my stress and depression.

Yours sincerely

Dear Jo

My wife is at the moment simply tolerating my smoking but she has said to me that I should live in the garage if I smoke.I am not sure if she means it.

My MP Rehman Chishti is not a good person. I have had dealings with him with my complaints against the High and Mighty State of the United Kingdom since he became our MP and before that Paul Clarke of the Labour Party. These MPs are just experts at moving paperwork. Even direct access to the Parliamentary Health Ombudsman came to nothing. Dr Mawanche has now said that I should give the Surgery a phone call on 15 November 2019 so that these proceedings can take place and my Wordpress Blog is restored to its full glory so that I can further my career as a journalist.

Of course, a high and mighty State also exists in Israel who are prolonging the suffering of the Palestinians and denying them their rights to a decent life. I cannot help but suffer with them in their plight. Israel has equally High and Mighty friends and allies against whom the United Nations is paralysed from being able to bring them to book through the International Criminal Court or the International Court of Justice. All the while China with its communistic regime destroys the environment through rampant exploitation of natural resources.

These considerations basically drive me mad that I cannot do anything but lodge petitions with my real Carer the 38Degrees who help me highlight my concerns on the suffering that I am going through. I must have my nicotine that the National Health Service continues to deny me because nicorrette chewing gums do not work for me and I have stopped chewing them. It seems to me that unless an alternative therapy is found I will die of lung cancer or heart disease from the effects of tobacco.

But I will never give up my journalism at Facebook, Twitter, LinkedIn and SimpleSite, and 38Degrees come what may.

I hope you now understand my predicament.

Yours sincerely

## ECONOMICS

The Theory of Economics begins at home from first principles. Who are the successful people and nations. That is the question.

I focus on the debate between Austerity and Consumerism. Economic Theory should be based on an analysis of this fundamental question. It is not about Socialism versus Capitalism. They are just the political applications of various economic theories.

When I was given £2500 by my father to conduct my BSc education with I saved as much of the money for a rainy day as possible, and worked in the Chelsea College bar serving alcohol and other drinks to students and visitors to earn money to supplement this boon. I also applied for Tuition Fee Remission successfully to the College authorities. When I graduated I took up a position with Hatfield Polytechnic as a Research Assistant, a superannuated employment with pension but quickly gave that up when visa restrictions on my Indian passport was lifted by the Home Office. This is because I saw that I did not wish to return to India and my father had always admired the British have studied under Professor Manton of Leeds University between 1952-1954 as a plant geneticist to complete his PhD from the United Kingdom, so he always wished me to settle in the United Kingdom once the opportunity came about when he was appointed as the Indian Liaison Officer at Kew Gardens under deputation by the Government of India. The United Kingdom was a land of hope and glory indeed.

My father taught me the proverb pennywise, pound foolish. It is worthwhile considering how this impacts on the home economics of a person and a family, and the macroeconomics of a nation.

Save like a miser and spend like a king is the motto. One saves every penny one can, but when there is an investment to be made, one spends like a king, for investment brings returns. The wiser the investment the greater the wealth accumulation for an individual, the family or the nation. For this one does cost-benefit analysis.

What are wise investments for a person, the family or the nation? A political party intending to govern must outline its principles in accordance with this consideration and develop its manifesto to

Dissemination of information should be free of regulatory controls as it concerns the welfare of humanity which must have access to anything and everything published in books, journals and over the internet in Blogs and Forums. Frequently terms of usage of these dissemination facilities by Publishing Companies for purely commercial reasons mean that an author is prevented from publishing his or her ideas that he considers to be in the public interest.

Such means of suppressing the truth from being exposed and disseminated should to be considered to represent blasphemy in law, and so amenable to civil action against the Publishers if no reasons are given in writing for the imposed blockade on information dissemination to the public as a service to humanity. be voted on by the people.

Do we therefore consider the environmental implications of economic theories? Is capitalism wrong, is socialism wrong? is austerity right? Do we need to consider the world economy if there is any possibility of conducting such a enormous analysis. Do we need to adapt to the environment in relation to the provisions of Nature that we exploit?

I am not at all sure that we need to consider the environmental dimension and the needs of the future generations. If we have the right economic policies for the individual living within a State as individual peoples who deserve full employment giving them the minimum that they need to survive on and make their lives productive and harmonious so that the people are happy with the ruler of the country, that is all we should aspire to.

Is there any political party subscribing to this philosophy? No there is not in the United Kingdom. Parties are nationalistic or socialistic or capitalistic without the focus on individual liberty to develop its population into happy existence. This is the reason that there is mounting pressure on the National Health Service of the United Kingdom from physical illnesses and mental illness that are both stress-generated.

#### STATE SERVICES

The State organises services that people can live with to accommodate themselves to the requirements of the State.

Essential to a well developed and well endowed state are two crucial needs.

These are personal solicitors if one is single for all intents and purposes and family solicitors if one is married.

Similarly, one needs personal doctors if one is single for all intents and purposes and family doctors if one is married.

25 October 2019 Update:

One also needs a personal psychiatrist as I have asked the Samaritans, as follows:

Dear Jo

1. I do not know for certain if the rules under which the Samaritans operate allows you to make my concerns known to the Consultant Psychiatrist Dr Odesanya but I would recommend this change because patients are led to believe that you are associated with the Care Plan that is handed out by the Mental Health authorities as it says contact the Samaritans for emotional support. This may be because the Psychiatrist do not have time to listen to the day to day developments in the patients lives. This is what I recommend to the Charity Commission investigating the Samaritans. You should have contact with the Mental Health authorities on a daily basis because they do not entertain email correspondence in this modern age. So the Psychiatrist is informed as a personal friend of the patient to sit on his couch whenever it is required. I am willing to pay the National Health Service for this arrangement as I do not feel that Dr Odesanya is looking after me like that due to the fact that his hands are tied by the rules under which he operates.

2. As far as my deluded mind is able to fathom, people may have been duplicitous towards me; see this shameful saga with the Indian government:

Independence etc5

Dear Prakash Bajpai guruji

I hope you are ok and I am sorry to pressurise you into an early decision from the Government of India on my Person of Indian Origin Application or better still the Indian Passport to be issued again

from the High Commission of India as discussed. I have received this email from a Professor Ray Coker (former Natural Resources Institute colleague) with advice and setting out the situation from the United Kingdom's point of view. My own complaints against the United Kingdom State are attached: see ToManagedDivorceccShahRashmiCLCountyCourtDenisRoss24Oct2019.docx.

Happy Diwali

Thanks

Shantanu Panigrahi

3. After another evening of thoughts exchanged with Rashmi and in view of the intransigence of the Indian government, I feel that I am cooked up in the United Kingdom because Royal Mail are now making excuses that my YZ330724D National Insurance Number is not acceptable to them with the documents that were scrutinised on 8 October interview by two interviewees and considered acceptable. I have said to our daughter Shantirupa Panigrahi that I did not wish to disrupt her life with Rashmi through a divorce and so will go to a bedsit or to the mental hospital preferably than suffer without sight of any improvement in medications dispensed upon me for my illness.

4. So I do suffer from an incurable disorder so the only question is whether I can continue to live in the Community and be managed by my Carer through Dos and Dents. Rashmi's has been supportive overnight but I am still smoking and am concerned about my physical health as part of my delusions. I regard all people as my enemies unless they prove otherwise. Ray Coker has yet to prove himself that he is genuinely supportive of my attempts to rehabilitate myself in the Community through a job or even a career in Natural Resources Management.

5. As things stand the only way I can make my mental deluded mind's workings clear to Dr Odesanya is through the KMPTPALS as a 'complaint'. Hence I am copying this email to Julie Palmer as I do not believe that we are adhering to the 20 September 2019 Care Plan as set out by this good man.

6. Please stay in touch with me: I need to speak to you over the telephone as well so if you are agreeable to this suggestion and your rules allow you to phone me I have given my Mobile Phone number here.

7. There must be an end to my personal suffering as there is no God for me to give me happiness and bliss as the Hindus delude themselves with.

Yours sincerely

Dear Jo

The thought occurred to me momentarily that it was better that I die, then I thought that God Sri Krishna has created Brahman Nature, and it is assumed by me to be a perfect creation in that one does not need to seek the Almighty's guidance and support to withstand all the perceived persecution that I have endured. So I continue on with my life until its natural end. But there is far too much evil in Brahman-Nature right now on Earth that is not only destroying the world through man-made disasters on the environment and in the mental dispositions of sattvic and rajasic truth-led persons with no one to punish and disable the tamasic truth led criminals who dominate the world.

I am powerless to do anything more than to highlight these criminalities in mankind that is detrimental to biodiversity and peace of mind of human beings except to Blog my knowledge in the hope that someone will know that it is us who are the dinosaurs now destroying the planet and Sri Krishna is perturbed by it. Brahma can only guide peacefully which means non-violently guiding the adherents into individual choices that educates. I do not believe in protesting in the streets or getting the support of more powerful people than myself to aid my struggle for justice. I have a Hearing that I will attend on 3 April 2020 at 2.00 pm to see if I get a Judge who will finally listen to me and direct the Prime Minister Boris Johnson to mend his ways such that if he does not comply, he would be thrown out of Parliament.

If the Queen is above the law and is the overall dictator of the United Kingdom, that will emerge from the Judgment of the Court, and she be persuaded to abdicate in favour of Prince Charles who appears more level headed on environmental matters than she is.

From my Wordpress Blog that the State disabled the details would have been known to the Judge that I had asked for the Queen to be dethroned for her intransigence in dealing with the culprits and parasites of society, and that issue will be raised at the Hearing by me, if the law permits the issue to be recorded in Court proceedings and judged upon.

So I may be depressed but I am still determined that if I survive another day, I will make my voice count in so far as this can be done peacefully. I am not a Republican if the Monarch is simply a figure-head signing on the dotted Assent line to all the actions of the Parliamentary Executive, but the monarch should not be above the law in that he or she cannot face impeachment by Parliament or dethronement through the Court of Law.

As things stand, the Police are taking no action to following through the promise of the following letter that I would get appropriate compensation financially and/or see that the overall Ruler of the Country faces justice 22 years after I wrote a petition to her in Buckingham Palace which she passed on to the Lord Chancellor instead of the then Prime Minister to deal with. She is simply not fit for

purpose in a democracy. We do not have to put up with her judgments and decisions especially on how the other members of the Royal Family should abandon their individual independent preferences (Prince Andrew and Prince Harry come to mind) just so that her reign is preserved unendingly as she approaches a century of incompetence in looking after the State's affairs.

## HATE AND DEFAMATION

The Anti-Defamation League is a well known organisation with whom I have had correspondence as it campaigns against Hate and pressurises as a lobby group to influence leaders primarily in the developed western nations.

Yet it does not have the inclination or instinct to do anything about reported hate through internet trolling by culprits or that which is State-organised. So after failing in my attempts to restore my reputation in the Courts of the United Kingdom, I plead with them to take out appropriate legal actions against Wordpress in the United States to which I cannot go and do myself.

The context to this blogpost is the attached application that I made to the Anti-Defamation League: (Contact Point Email)

## DIVORCES

As we human beings start of in life we enter into partnerships with the opposite sex and start our family life together to have children and leave inheritences for them. But unless one is very fortunate on may face incompatibility between husband and wife. This is also the case with States and their allies in the international arena as seen in the United Kingdom's Brexit divorce proceedings with the European Union.

So we evaluate whether marriage is such a sacred institution: Here is my situation.

Dear Jo

1. Thank you for informing me that Gill is my Case Worker at the Samaritans who has harassed me throughout my communications with you concerning the 20 September 2019-dated letter outlining a Care Plan for me by Dr Odesanya of Canada House. She has totally misconstrued my suffering instead of showing understanding and care by accepting my deposition of the history of my suffering at the hands of the State of the United Kingdom over the past 22 years since the criminals of the University of Greenwich destroyed by well established and superb scientific and agricultural specialist career, as shown in my Curriculum Vitae that no employer would consider accepting me for employment from on the 30 odd job applications that I have entered in the past two weeks.
2. Please therefore let me know Gill's surname so that she can be a witness for me in the divorce proceedings being implemented by Quick Divorce today as my wife will still not allow me to use the spare room and I am unable to give up smoking. I am therefore cancelling my appointment with Christopher Ford on the 22 October 2019 on the grounds that the Wikipedia leaflet that she gave me clearly stated that so called patients benefit from smoking to ameliorate the negative effects of anti-psychotic medication on their thought processes in the brain. This I want to continue with for I have assessed that the hyperprolactinaemia is not a price I am prepared to pay any longer together with erectile dysfunction, high cholesterol, prediabetes, prostate cancer, fine tremors, and blood pressure fluctuations which are side effects of the medications enforced upon me by Canada House. I am also cancelling the need for me to contact Dr Mawanche on 15 November 2019 and the appointment with Medway Hospital on 28 October 2019. I will only accept communications from Benenden Care with regard to my Membership No 011293713, in view of the fact that Dr Mawanche of Shah Surgery has still not sent me the Proforma on the continuing monitoring of my blood for prolactin levels.
3. I will have nothing to do with the National Health Service in view of its disgraceful neglect and incompetent services towards my needs any more until the Judge evaluating the divorce settlement that I have asked for organises a Hearing to consider this terrible suffering mounted on me by the State as exemplified by the decision of Wordpress to archive and suspend my Blog <https://shantanup.wordpress.com> wherein I had detailed the persecution mounted on me by the State of the United Kingdom over these years for the world to judge the criminals of the UK Establishment. Wordpress will be required to provide written evidence to that Hearing.
4. Accordingly, I look forward to receiving the telephone call from Quick Divorce on Monday 21 October 2019 at 10.30 am that I am restoring herewith.

Yours sincerely

Dear Managed Divorce

(a) Thank you for your two emails of 1 November 2019.

(b) I have examined the documents and would like to make changes to the petition which is set out currently as follows:

THE PETITIONER AND THE RESPONDENT SEPARATED ON 01-10-2019 DUE TO THE UNREASONABLE BEHAVIOUR OF THE RESPONDENT.

1. FROM 01-09-2019 AND ONGOING UNTIL SEPARATION THE RESPONDENT DISPLAYED A LACK OF INTIMACY TOWARDS THE PETITIONER. THE PETITIONER TRIED TO ENCOURAGE MORE OF AN INTIMATE AND PHYSICAL RELATIONSHIP BUT TO NO AVAIL. THIS LACK OF INTIMACY MADE THE PETITIONER FEEL UNWANTED AND REJECTED.

2. FROM 01-09-2019 HE RESPONDENT WAS LOUD AND AGGRESSIVE OFTEN FOR NO REASON AT ALL. THIS WAS AN ONGOING BEHAVIOUR THROUGHOUT THE RELATIONSHIP. FOR EXAMPLE, IF THE RESPONDENT WANTED TO SMOKE THEY WOULD SHOUT AND SWEAR IN THE PETITIONER'S FACE, OFTEN WITH VIOLENT OUTBURSTS, IN ORDER TO ENSURE THE RESPONDENT GOT THEIR OWN WAY. THIS LEFT THE PETITIONER FEELING INTIMIDATED, OUT OF CONTROL, GUILTY AND SOMETIMES SCARED FOR THEMSELVES.

3. FROM JULY 2018 AND ONGOING UNTIL SEPARATION THE RESPONDENT SHOWED A LACK OF TRUST TOWARDS THE PETITIONER, SHE WOULD CONSTANTLY ACCUSE THE PETITIONER OF BEING 'UP TO SOMETHING' WHICH WAS TOTALLY UNTRUE. THE RESPONDENT WOULD BE CONSTANTLY

CHECKING THE PETITIONERS PHONE AND CHECKING UP ON HIM. WHEN THE PETITIONER CONFRONTED THE RESPONDENT ABOUT THIS (see attached)

(c) Please see the following addendum to my declaration to the Judge:

Amendment Attachment:

The respondent was loud and aggressive towards the petitioner not the other way round because the petitioner was fighting to save his reputation as a normal human being that had been irretrievably tarnished by Dr Masoud and Dr Odesanya of Canada House by wrongful and unlawful, even criminal activities against the petitioner with the complicity of court officials, especially at the Central London County Court where his Claim E35YM660 was shelved instead of the Circuit Judge issuing the two Court Orders applied for summarily, namely for Wordpress to restore the petitioner's Blog <https://shantanup.wordpress.com> as a freelance journalist after his scientific career was dismantled by the University of Greenwich in 1998 under false pretences; and award of £15 million pounds of damages and compensation from the UK Treasury for 22 years of failure in assessing and legitimising the petitioner's material and spiritual needs amounting to religious persecution on the petitioner. Instead, in judging the petitioner to have a mental condition called by the Mental Health authorities as 'persistent delusional disorder' that is vehemently disputed by the petitioner it is contented that the respondent was not singularly responsible for reporting the petitioner to State Psychiatrists but was manipulated by the GPs and other parties to doing so. Accordingly the petitioner is demanding that the respondent be ordered to leave the premises that they currently occupy at 3 Hoath Lane, Wigmore, Gillingham, Kent ME8 0SL and relinquish all their assets and savings in joint accounts and single accounts to the petitioner as damages and compensation. This includes the land resources at Rashmi Niwas in Bhubaneswar Odisha India where the petitioner wishes to build a house for his retirement.

The respondent is a non-smoker, the petitioner is undergoing treatment at Public Health Directorate with Christopher Ford to help him give up smoking with alternative medications and therapy because this habit of smoking cigarettes is brought on by the horrendous medical side effects of hyperprolactinaemia that the antipsychotic risperidone, aripipazole and anti-depressant medication sertraline over the past 22 years of criminal enforcement by the State authorities has caused in him. Tobacco is the only way for him to withstand his suffering at the hands of the United Kingdom State. The respondent did not check the petitioners phone contents. All the written communications were conducted through Mobile Phone text messaging and emails. These provide evidence of his assertions.

## INDEPENDENCE

Independence is a wonderful concept. It begins with the independence of single human being; then the independence of the family if one has married, then the independence of parties and societies within the State be it religious or secular; then independence of the country that one is part of, then independence of outsiders in humanity in coalitions, thence independence of the entire humanity in the world as a whole, and finally independence of an unseen Super Entity called God; all in that order.

Self reliance absolves one of responsibility towards others. That is the point of independent free-thought and actions.

Independent thinking derives from personal knowledge of the self and ones surroundings.

In reality the only people who are truly independent are bachelors and spinsters. They can do as they please. If they break the laws of the State that they live under, they have to be prepared to pay the price of being fined, incarcerated in a prison for varying degrees of time dependent on the severity of their felony, or if the State thinks that they were mentally ill to be placed on antipsychotic medications or put inside a mental hospital; as the appropriate jurisdiction is applied. For violations of international law they may be tried in an institution governed by the United Nations for such crimes as crimes against humanity or war crimes.

Thus patriotism to other entities but to the self must be resisted in order to satisfy ones mind that one is doing the right thing for oneself as a human being. Service to others comes next again in the order listed because the ultimate focus must be on personal survival. That is the basis of survival of the fittest in evolution in the plant and animal kingdoms.

So one must not have a global outlook at the sacrifice of personal objectives. States must not have a global outlook but address the needs of their own citizens, and so on. The global integration of humanity must be left to democratic imperatives that are the considerations of the United Nations through its institutions. All States must strive for representation at that Union of all Nations. Finally there is God who needs to be served or one might not get to the afterlife if one has sinned as perceived by the individual. For me the only sin there is in the sight of God is the suppression of truth. This may not be important to many but it is highly important to me personally.

If one is serving truth all else falls into place, the service to the self, to the religious or political party or pressure group, to the State, to the United Nations, and to the Creator God. This is why there is a saying truth prevails, and in Hindu India, *satyameva jayate*, which effectively means the same.

So on a review: the adaptation to reality requires all these adaptations: to the family, to the State, to the conglomerate superstate that one's state is federated to, to the United Nations, and to the universe, and to God, each having different considerations for adaptation purposes.

Vows, promises, treaties, agreements, whether written and signed or conducted through word of mouth at a personal self level, to family level, to wider party level, to the State level, to superstate level, to the United Nations level, to the universe without a governing body so to Gaia rule, prevent one from being able to serve the Creator God through the pursuit of truth. So these allegiances cause nothing but suffering to the individual unable to adapt to the Ultimate Reality.

And because truth prevails Truth Consciousness enables one to adapt perfectly to each of these levels of realities that the person faces thereby assisting the process of survival with dignity.

## LITIGATION

Litigation is a complicated affair; one needs to ascertain jurisdiction first. What are the full particulars of the Claim? Which court will consider the application? What are the costs for the applicant? What chances does one have to put forward a reasonable case to a Judge that would not only result in a favourable judgment for the Plaintiff but have the costs of launching the Claim awarded against the Defendant. What about international litigation against multinationals.

One has to test jurisdiction through trials in the home country and in the country that the Defendant cannot escape the court proceedings as the Defendant will always try and get away with his or her misdemeanours without facing a judge.

This is the Case with my attempts over the past 6 months to progress proceedings against Wordpress. The Case needs to be developed for arguing in front of the judge in simple terms that the Judge will not have grounds to dismiss or postpone indefinitely whereby the applicant's costs will mount.

How does one do all of these things cheaply so that Law enforcement is available to the common man: one needs to be very careful indeed or one may lose the roof above ones head if undertaken flippantly.

The first task is to find out if a lawyer will accept the processing of the litigation. For this one has to go through due process and identify who is going to be the correct Defendant to launch the case against in order to get a Hearing of the complaint that one is lodging.

The following proceedings are an example:

Dear Sir

A number of queries exist at this point in time, as follows:

(a) I requested Wordpress to allow me to upgrade my account as is routine under the terms and conditions of Usage, after the free trial period that I tested the facility, but it will not allow me to upgrade. No justification has been proffered as to why this restoration of my journalistic career through my Blog with this Firm: <https://shantanup.wordpress.com> is not forthcoming. I have exhausted all legal processes of the United Kingdom and the United States of America.

(b) I require an immediate refund of £347 from Managed Divorce for its failure to tell me when I need to pay the Court Fee, as shown in the attached: ToManagedDivorce1Nov2019.docx. I refuse to deal with this Firm and will pursue the separation of family assets and finances through my solicitor Bassets.

(c) Toqa Reada has yet to refund me the \$50 obtained through extortion and false pretences and PAYPAL is not taking any action to recover this sum for me. This must be rectified immediately. See ToToqaReada(GazaVisit)18Oct.docx.

(d) HMCTS has yet to refund me the roughly £1000 paid in Court Fees for its failure to consider my application to appear before the Circuit Judge to have my permission to appeal the Court Order from the Central London County Court approved in order to progress the appeal without delay for the 13 week delay in its consideration from the telephone discussion that I had with Carlynne of the Court yesterday is unacceptable. I must have some or all the Court Fees refunded immediately. See ToHoldenandCoLLPccCentrallondonCountyCourt31Oct2019.docx.

(e) Liverpool Victoria must pay me the salvage value for vehicle KF53JWD of £800 pounds in view of the fact that following the accident of 15 November 2018, the vehicle was deemed a write off. Please let me know the time scale for your resolution of these complaints that I have brought to your attention.

## DEMOCRACY

People are all important. They need to have their voices heard and acted upon. This is best accomplished through democracy. What are the ideal requirements of a democracy. These are general elections, party politics, referendums, selection of candidates, petitions, etc.

This is what I wish to discuss in this post, in light of the following communications I have had today:

Dear Carly

This is really got to be supported, I know but right now my personal finances are in limbo pending a divorce settlement that is under progress. I am not allowed to spend any more money on charity until I hear what I will get of my Santander Accounts to do my computing work and donate to my favourite charity 38 Degrees. My wife complains of my constant printing of documents that I need to do in order to build up my information for my book 'The Allurement of Reality' which is a lifetime project, that is nearing completion.

So I will keep your email on the pending list and will let you know how much I can donate. As you know I only donated a gestural £3 earlier this month but my hands are tied now even if I secure the Christmas Casual job that is not yet confirmed to me. I hope you understand.

Having clarified that, I am in complete favour of Fixed Term Parliaments of 5 years for the United Kingdom so will not be voting in the General Election if it is called earlier. The electorate must have its democratic decision to have a Parliament for 5 years respected by the politicians. The only correct path in a true democracy is to have another referendum that will guide the Executive. Do you agree, so that we can draft the appropriate petition like this today?

Dear Sir

In recent times I have been a strong supporter of the Conservative Party (and the Brexit alliance to be honest) to help us deliver Brexit by the agreed extension of the deadline imposed on the country by the European Union. You can follow my Twitter tweets to show this at @ShanPanigrahi.

However, I have asked my MP Rehman Chishti this morning by email for information on how to join the Conservative and Unionist Party ahead of the forthcoming general election that is being proposed by Boris Johnson so that I can campaign locally for the Conservative Party. He has been less than forthcoming on this matter due to personal grudges on me for the manner in which I have exposed him as not being a good selection as our local MP to represent the Party in addressing the needs of all sections of our community. Mr Chishti has therefore not responded to my numerous emails.

Please let me know the procedure to have him deselected to represent the Party by allowing me membership directly and immediately of the Conservative and Unionist Party. I believe that we must have a good candidate to fight Labour in Gillingham and Rainham constituency that I am resident in. But I wish to follow Party rules on this deselection so that my arguments are processed according to the appropriate Party rules and regulations for the deselection of an MP.

Please realise that If I am not selected for membership of the Conservative and Unionist Party on any grounds related to this complaint against Mr Chishti, I will have no option but to take recourse to the

law. This decision has been brewing for several months now and is being monitored by my lawyers @CornwallLawLtd.

I do hope that you will see to it that such legal proceedings are in no one's interest and speed up my application for membership of the Conservative and Unionist Party.

With sincere regards, I remain

## PETITIONS

One has to lodge ones concerns at the things that are wrong in society and the State in the proper manner. This has to be peaceful in nature. One must be heard and one must have the right to reply to ongoing developments in order that faults in society and the State are subjected to the process of reform through rectification. That is why I believe in petitions.

Petitions take various forms. These are representations through the courts and parliamentary facilities. One can take to social media such as Twitter and Facebook to garner support for ones ideas. Or one can join up with an officially-approved institution such as 38 Degrees that one tries and attract private supporters to the cause then present the petition with mass support to Parliament.

I have been through these processes, and failed to get my viewpoints registered. So I resort to the final manner in which a Petition can be made. This is through generating open debate in the internet, which is why I have a website here at SimpleSite, after my Wordpress Blog <https://shantanup.wordpress.com> was archived and suspended by the Firm to silence me from voicing my opinions on world affairs under the pretext that I had violated its terms of usage and privacy settings.

Above all the direct concerns I have, the one closest to my heart is the dispensation of justice to the common man faced with silence from the authorities or even worse that one has become a pariah of the State for his complaints against issues that affect human beings not just within the State, but world wide. Without justice there is no society.

SP

Contact Campaign Creator Campaign created by Shantanu Panigrahi

1. I have read about a lot of activities by 38 Degrees and in the early days had started a petition or two myself but found that it did not have any impact. This is because the issue for petition must have the full force of 38 Degrees Team to make any impact. However, I am trying again.
2. I wish to draw your attention to my experiences of the Law Enforcement System incorporating the Judicial processes. You can read an extensive account of it in my website here:  
<http://shanpanigrahi.simplesite.com>
3. The Justice system needs to be made amenable to the ordinary working people of this country. I have evidence that the common man is marginalised out of the judicial process to cover up racism by the law enforcement authorities.
4. This is a summary update:

Dear Mike Matters

You will be aware of my Petition 'Making Law Enforcement Accessible to Ordinary Citizens' that I stated required the full backing of the 38 Degrees Team. The ID Card Issue is associated with the maintenance of a Police State, that puts all the powers into the hands of the Law Enforcement and Judicial institutions thereby ensuring that the common man gets no justice whatsoever through the complicity of the organised legal profession that incorporates barristers and solicitors as well as the Legal Ombudsman and the Solicitors Regulation Authority. In this regard, my first encounter with a solicitor was Mr Sorrell of Gillingham High Street who was asked to negotiate a return to work for me at the Natural Resources Institute, University of Greenwich and after nearly 30 other solicitors

and barristers that I approached and blogged in <http://shantanup.wordpress.com>; my last solicitors Winch and Winch could only keep silent today to witness the United Kingdom Police State's organised persecution on me. This Blog was archived and suspended because Wordpress was manipulated by this Police State to silence me and so I set up another Blog <http://shanpanigrahi.simplesite.com> and have modified the petition accordingly.

I am surprised that you have not responded to my enquiries to advise me on how to attract petitioners to sign the petition as yet and consequently the Petition has made no impact from 38Degrees members and the public. Kindly attend to this email before 9.00 am tomorrow morning as I have an appointment with Dr Mawanche of Shah Surgery to discuss Dr Odesanya's letter to the Surgery where this petition will be discussed with a view to determining whether I am mad in trying to salvage what is left of my beleaguered reputation in this country damaged by assertions that I am somehow mentally ill for pursuing this agenda over the past 22 years.

The State covers up this lack of clarity by insisting that I suffer from persistent delusional disorder when I am simply a satya-advaitist par excellence, as my latest blog website makes clear.

Yours sincerely

5. Would you please examine my Blog and support this petition?

Why is this important? It is important because the common man must be able to live in a safe environment where he can get justice if he has been wronged. The UK has a Police system which caters for the State and not the individual citizen. The Police Force is above the law as my Blog would reveal, so that it can perpetrate inhumanity on people without any fear of having to pay damages and compensation.

This petition was not approved by 38 Degrees who suggested a watered down petition that I complied with as follows:

Please do not let Courts, Lawyers, Legal establishments such as Legal Ombudsman and Solicitors Regulation Authority and Police bodies ignore ordinary citizens' written representations without emailed, letters or telephone call acknowledgments received by applicants and enquirers within 24 hours.

The petition and its variant need to make impact. I urge Humanity to consider them very carefully, in light of a lack of replies to the following communication:

For some unfathomable reason, this man has referred to YOU (or your employer) abusively on his web-blogs. Here is the list of those who, in the hope the State will pay him a bribe of about 20 million dollars to stop, he is targeting :->

<https://groups.google.com/forum/#!topic/uk.legal/pQAB7XJEDiA> You should find your name, and maybe a brief outline of your "crime", listed there. Much more is to be found in his web-blogs, often including your home address, phone number, email address or other personal details. After years of complaints, his original insulting and defamatory web-blog :-> <http://shantanup.wordpress.com> was, while thousands of his victims cheered, permanently closed down by Wordpress, "without adequate

reason, notice or warning" as he claimed. Unfortunately, he soon created a replacement web-blog at :-> <http://shanpanigrahi.simplesite.com> where he is again up to his old tricks, with his harassment mainly directed at the NHS and mental health service, doctors, nurses and administrators, the legal profession, ombudsmen, complaints organizations, the judiciary, any private company which has the bad luck to encounter him and also the police, who are terrified of him. Oddly enough, he works for Medway Council, Kent, as a temporary helper - maybe they do not understand the need to run checks on staff? Even more unfortunately, someone retrieved much of the original web-blog's contents, and placed them at a mirror site :-> <https://tinyurl.com/shanpanigrahi-co-uk> but I do not think most people would want to see it. If you wish to reply to the person responsible, email [shanpanigrahi@yahoo.co.uk](mailto:shanpanigrahi@yahoo.co.uk). You will find he himself has advertised his personal details (including phone numbers and street address) at the websites above. We are an informal group of a few hundreds of those Shan Panigrahi has victimised. If you feel he has broken the law, which he has, and repeatedly, please report him to the police. It is possible that they will eventually wake up and lock him up, though I doubt it. - VICTIMS OF PANIGRAHI ASSOCIATION copied to: [shanpanigrahi@yahoo.co.uk](mailto:shanpanigrahi@yahoo.co.uk), [shanpanigrahi@yahoo.co.uk](mailto:shanpanigrahi@yahoo.co.uk), [panesar@gmail.com](mailto:panesar@gmail.com)

3. The United Nations through the reform of Interpol and the International Criminal Court must establish an international police force to detect and bring to justice such crimes against humanity. \* Why is this important? In the modern era, decent and law abiding citizens cannot live without the internet. Criminals reported to the Police, the Courts and Parliament are free to perpetrate their crimes that subdue the lawful activities of the individuals leading peaceful lives in security. These crimes are not investigated by Police Forces so that the perpetrators harass, intimidate and terrorise people unchecked.

## POLICE STATES

Published on October 27, 2019 The Conservative Libertarian Society Consultancy Services:

Police States come in various forms: explicit and implicit. Dictatorships can be Military-Presidential or Monarchical through an organised Establishment that maintains the facade of liberal democracy. This is the case with the wealthier countries that belong to the G7 and incorporates the silencing of protestors against the authorities through stringent law enforcement processes coupled with the provisions to incarcerate dissenting voices through imprisonment in jails or the mental health sector of mental hospitals contained in State services.

Have I got evidence for this assertion. Seemingly so, as I face the wrath of the United Kingdom State to my journalistic career as set out in my archived and suspended Blog and current website:

Dear Scott

Please find the forwarded email from the Samaritans for the attention of Dr Muhsen immediately.

The State Consultant Psychiatrist Dr Odesanya is enforcing the decision of Canada House to implement an appointment to examine me on 30 October 2019 at 1.00 pm.

I will attend this appointment and see if my medications are to be intensified as my wife is saying that she will say to Dr Odesanya at this appointment to increase my risperidone from 4 mg daily to perhaps 6 mg daily until she sees how I cope with my Royal Mail Christmas Casual job that could start on 25 November 2019 3.30 pm (Induction process) if they have by then accepted the evidence of my National Insurance Number (YZ330724D); and from then for me to be started on clozapine because she is of the opinion that risperidone has outlived its usefulness to shape me into her requirements for a husband. I will resist these changes of medications because I do not accept that I suffer from persistent delusional disorder as these State Psychiatrists contend and I vehemently dispute that I need any antipsychotic and antidepressant medications at all and the enforcement of these medications have been the cause of all my health problems over the past 22 years through horrendous side effects, including hyperprolactinaemia, erectile dysfunction, prostate specific antigen enhancement, fine tremors, high cholesterol, prediabetes state, and fluctuating blood pressures.

But as I said to you over the telephone this afternoon this is the State Consultant Psychiatrist with legal powers to examine me to protect the interests of the Police State and further with the powers vested in him to recommend me for Sectioning according to the Mental Health Act into a mental hospital so I have no choice but to go to this appointment, or the Police will come knocking on my door as has happened in the past.

Please ensure that Dr Muhsen is aware of these developments. If you agree I will telephone Dr Andrew Rodin at Spire Hospital tomorrow and see if my appointment with him can be delayed until

after 14 November 2019 as discussed with you over the telephone or whether he might recommend that this should take place sooner for a private Consultant Psychiatrist at this hospital to examine my mental state and recommend any treatments if necessary through medications because there is urgency in view of the continuing manipulations of my medications and incarcerations by the National Health Service. I have been sent to the mental hospital twice, in 2004 and 2008, for short periods, from which their doctors could not find anything wrong in me and I was released but Canada House have continued to treat me as a patient since for persistent delusional disorder. For Dr Andrew Rodin's information, persistent delusions is the State's way of preventing citizens from criticising the State establishment in the manner that I have done here  
<https://shanpanigrahi.simplesite.com>.

Having set the record straight, from the documents you have sent me the Shah (Long Catlis Road) Surgery have been singularly responsible for disrupting my medical care in the private health care sector of the United Kingdom and therefore I shall not accept any further NHS treatment from this Surgery until Benenden can take over my medical care fully from 14 November 2019, which would be free of charge from then onwards.

This would mean that the Consultant Psychiatrist at Spire Hospital would have the option to overrule the State Consultant Psychiatrist for any assessment and treatment of my mental state.

With my highest regards for private health provisions that you have organised for me.

Yours sincerely

Dr Shantanu Panigrahi

Hello Dr. Shantanu,

We sincerely hope that discontinuing the medication which has now proved to have been the cause of some of your emotional difficulties, will enable you to return to a more stable and comfortable state of mind.

Looking forward, it is to be hoped that the forthcoming appointments with various medical bodies will, in time, lead to a resolution of your medical problems and enable you to progress in your personal and professional life.

Please remember we will always try to support you when you need us.

Dear Jo

1. I would like to stick with the tried and tested risperidone that has not prevented me from continuing with my journalistic career, but my wife says that the doctors will not allow me to be on 6 mg of risperidone for too long in view of the hyperprolactinaemia. She thinks I should be placed on clozapine. Dr Odesanya said that he did not wish to disrupt my forthcoming job with Royal Mail so was unwilling to change my medication so drastically at this point in time.

2. I shook hands with Dr Odesanya that I would not engage in Social Media any longer, but this has yet to be confirmed in the Care Plan. It is a compulsion of mine to socialise with friends and enemies alike in order that I can learn from them so I have already broken the agreement with Dr Odesanya in posting the following in Facebook under my Page Searching for Mental Health Services:

WHO NEEDS MENTAL HEALTH SERVICES

When one understands Nature including the way humans behave the way they do, one has comprehended reality. That reality is a personal perception. It is wrong for any Psychiatrist or theological or religious person to diagnose that perception according to their own perceptions of reality for the discussion then focuses on who has the right perception of reality. Who will judge whom?

There is no God who judges human beings according to my beliefs and I refuse to allow myself to accept any other human being's perceptions to guide the way I live and the way I act. This is because psychological means of diagnosis relies on scientific theories which could all be wrong but it is the best that we know from our current state of analysis and evidence.

Why should I subject myself to anti-psychotic and anti-depressant medications for the perceived notion that I suffer from a mental illness when in fact I am simply going through the process of reacting and adjusting myself to the reality that I am confronted with. That is the only form of blasphemy that there is when the Psychiatrists do not have the inclination to accept that they are wrong in their assessments and worse for the person they are 'treating' they impose therapies upon them that intrudes upon their privacy and lands them with worse physical illnesses and deformities of the mind than they started off with when lack of information from the State prevented them from living a fruitful and productive life in society.

When one feels oneself to be truly ill one sees the doctor for a cure. When the doctor does not have the ability to provide you with a cure it sends in the Mental Health Services if they perceive you to have behaved in a manner that is not conducive to the functioning of a stable State.

I do not feel that I am ill in any shape or form as I accept the reality that I find myself in. This is that no one on Earth can diagnose a satya-advaitist (truth accommodationist) without examining his theory or perception of the reality that he must live to. When have the United Kingdom psychiatrists done that. What they say about me is that I suffer from persistent delusional disorder. In my own assessment this condition has been cured from truths being determined by me alone through interrogation of the State and its services in my adulthood. The present state of scientific or religious knowledge available in the literature has no mention of this form of living. I am therefore unique and refuse to be dictated to by such a level of ignorance in society. I have attained perfection in the

comprehension of reality over the past 22 years of experience and experimentation that I have engaged in. I know it all now.

So I reflect on the advice of a former guru Aupmanyav whom I took advice from at Freethought and Rationalism Discussion Board and later in Religious Forums; which was that be your own guru. Be self-reliant. Practice science to include swadhyaya of self examination. For that is the only path to determining truths and truth alone cures one of mental afflictions. Do not rely on others let alone trust them with your welfare. They are all ignorant and uphold the State's values as opposed to assessing and guiding you into the reality about yourself and your environment.

3. So perhaps to stop me completely I would have to try clopazine as my wife recommends. I am willing to have a go at it if Dr Odesanya considers that it should be implemented.

4. I will speak to Funkhi about it on Monday at Canada House to see the way forward as my delusions are in no way controlled by the additional 2 mg of risperidone that I have taken since the appointment. This is from the remnants of the orodispersible ones that Dr Masoud prescribed but it was then overruled by Dr Odesanya and I was placed on normal risperidone tablets. The orodispersible ones work faster to control the psychoses in me so perhaps I can get Funkhi to speak to Dr Odesanya to change it back for the entire 6 mg of risperidone that I am trying now. There is no way I can stay alive in the United Kingdom without the State enforced medications upon myself. I realise that now, and am fine with that.

5. Incidentally, I received a letter that was mislaid somehow (I don't know what happened) for MRI Scan Pituitary with contrast on Saturday 9 November 2019 at 12.50 am in Medway Maritime Hospital. So finally my hyperprolactinaemia will be assessed by the National Health Service. I am very pleased about that after recent endeavours to get it done. It is just like the Conservatives and Brexit, is it not.

6. I am no longer pursuing the divorce because I cannot be bothered going through the long and arduous process of convincing the UK legal establishment of my human rights.

7. Incidentally, did I explain what satya-advaita or truth accommodation is clearly enough for you?

Yours sincerely

Dear Jo

My wife is out of the house now for the rest of the day (gone to Greenwich with our daughter for her interview for a new job) so I do not have to listen to her continuous banter and harassing orders upon my independence of thoughts and action. We are going through a divorce and that is final because she thinks and acts as though I am mentally ill and has forced the doctors and psychiatrists

to enforce unlawful assessments and medications on me since 2004, resulting in my incarceration in mental hospitals and semi-detention at home.

I am not ending my life except for what tobacco does to me which I now will not give up, regardless of what my wife thinks, so that I am cancelling my appointment with Christopher Ford on 21 October 2019, and the appointment with Ms Funke Aderibole at Canada House on 22 November 2019. I repeat: I reject the Care Plans of Dr Masoud and Dr Odesanya as null and void legally because they were issued with the collusion of my self-centered wife, Rashmi Panigrahi, who is a control freak more than a Carer but with whom I necessarily have to share this residential address currently until separation is finalised by the Judge.

So I am continuing with the divorce proceedings and await advice from Patrick Lawrence Partnership's Andrew Humphries when the appointment for me to complete my consultation with this Law Firm comes into effect in March/April 2020; so that the divorce petition is drafted by this Firm to take into the attached request that has failed to attain my objectives of smashing the State's evil perpetrators of persecution through State-organisation: ToOutsetLegalLLP16Nov2019.docx.

What do you mean by having suicidal thoughts? You should note that ever since my scientific career was ended by the criminals of the University of Greenwich I embarked on a journey that was suicidal in the sense that I would not attain justice in this Police State that treats its citizens as morons in the guise of describing it as liberal democracy. I am still living and will continue to fight till my death if I cannot get a Hearing in front of a Judge whether it is at the Central London County Court with the Circuit Judge who is so far avoiding his responsibility or by a Judge in the Bury St Edmonds Regional Divorce Centre.

You are therefore grossly mistaken that this is all over for the UK State bar the shout. I fought hard to get the Christmas Casual Royal Mail job to be able to meet the solicitors expenses to continue the struggle.

Here I am discussing the operation of successful States in the economic field and drawing a parallel between economic progress and the existence of a Police State that run roughshod over human rights of its own citizens in order to progress to a superpower status and be rich enough to cater for the consumerist needs of all its people through capitalism that encourages the existence of billionaires galore who get richer by the day and invest in projects that degrade the environment through rampant exploitation of natural resources nationally and globally with no concern for the future generations.

#### DISSEMINATION

I disseminate my information and knowledge through websites: such as <https://shantanup.wordpress.com> .

Frequently, victims of crime and those who have been unjustly defamed seek recourse to the Media to air their grievances as the final level of justice to the injustices suffered by them. Publishers are vested interests that suppress this final level of justice, so when this quest for justice is denied by the Publishers intransigence, society is deemed to have totally failed in its primary duty to its citizens and this therefore constitutes gross violation of the aggrieved person's human right to protest his innocence and salvage his reputation as a sane and composed human being if he feels disenched with the judicial system under which he suffered injustices.

For these reasons governments must ensure that the Courts address this issue by banning Publishers in book format or as Blogs and Forum submissions from operating within their country in this era of globalisation where the internet connects the world and does not recognise national borders for commercial firms to implement globalisation of home countries laws and norms worldwide. This ban can be made very effective through regulating the commercial activities of the globalised publishing companies to operate within the country according to nation's laws and norms so that citizens can then approach national Publishers only to get their materials published or viable civil laws ensues.

This is what I would be arguing to the Judge in my Claim E35YM660 at my Hearing on 3 April 2020 at the Central London County Court against the Prime Minister of the United Kingdom.

### JOURNALISM

I practice investigative journalism as a way of living. This includes intensive discussions with humanity through all the means available to me in this modern day and age.

The internet facilitates this to a considerable extent. This is because there are email communications, smartphones, social media, and private letters that can be exchanged with all important people holding pivotal positions in society.

It has served me well to protect myself from evil components of Nature that seek to disrupt my way of life as a human being.

## CONSTITUTIONAL LAW

The unwritten constitution that is the hallmark of the society of the United Kingdom requires the citizen to undertake appropriate judgements on the what is lawful and what is unlawful.

One explores the provisions of the law through appropriate civil and criminal proceedings and ends up when exasperated to question if one has understood the laws of the country without which one is unable to function correctly in society and within the State as a loyal member fulfilling all one's duties in accordance with the rules and regulations that govern the population.

The following proceedings is an example:

Dear Ms Benamaisia

Yes you are quite right that emailing is my preferred method of contact and telephone conversations get cut off suddenly don't they?

Nevertheless, you seem to have clarified during the calls that did take place that you now accept that this matter has been cut off by the Central London County, my Member of Parliament, Mr Rehman Chishti and the Parliamentary and Health Service Ombudsman in accordance with the attached email document ToSamaritansccPHSOREhmanChishti1Nov2019.docx so that you can at last attend to it without implicit hindrance from the Police or the Courts concerned. I am pleased about that. Thank you.

You also seem to have clarified during our two telephone conversations yesterday and today that you are not only unable to communicate with Wordpress concerning the illegal suspension and archiving of my Blog <https://shantanup.wordpress.com> which contains vital information concerning this dispute with Liverpool Victoria so that this Blogging Firm is now proven to be totally unaccountable to the law processes in the United Kingdom for the way they harass and criminally destroy people's careers (in my case as a freelance journalist) you are also unable to communicate with Managed Divorce concerning the equally unlawful management of my application for a divorce settlement from my wife, nor accede to my demand for the refund of the £347 paid to the Firm for its services: see ToManagedDivorceCentLonCtyCrtRashmiSamaritans.docx.

Further you seem to be indicating that I am not only not entitled to the approximately £1000 paid to HMCTS by way of Court Fees for which I have never appeared before a Judge in 22 years of struggling to survive persecution in the United Kingdom let alone having the case summarily judged to be a legitimate claim against State-sponsored harassment and persecution by the UK State for which I sought £15 million in damages and compensation from the UK Treasury; even if I was entitled to this refund of Court Fees paid I would need to see a solicitor and process it through the normal HMCTS procedures as my member of Parliament Rehman Chishti now insists. This would then be left at the hands of a fresh new solicitor to do so on my behalf because all the roughly 30 solicitors that I have asked to assist me so far have been reticent of doing so, not readily forthcoming, and I have no idea whether there is a due process for anyone to undertake this lawfully. That would be an issue of constitutional law. In this regard my approach to the Law Society to find me a lawyer who would specifically deal with my Defamation at the hands of the UK State have also not been addressed as shown in the attached ToKirstyBloomfield(Defamation)1November2019c.docx.

Notwithstanding I still believe that the £5 given to me after the excess of policy was considered by Liverpool Victoria does not satisfy me and I await your final decision on this specific point. As I indicated to you I will settle for another £800 now.

I am copying this to Bassets solicitors in order that it would clarify its present position concerning my request for legal services so that if I do not receive an email from Bassets by 5.00 pm today, I will once again look for a new solicitor from the Law Society website to progress this matter for me under the heading of libel and defamation.

I trust you will find that my assessment of the facts surrounding this case justifies the two petitions that I have lodged through 38 Degrees which you need to take into account for your reply.

Yours sincerely

I was explaining what we are able to look into in relation to your complaint and I thought it may be useful to email you as I can see this is your preferred method of contact as per your complaint form. Yesterday when we were speaking you confirmed that you are unhappy with the way Liverpool Victoria (LV) handled your claim. I will be looking into this for you and I am in the process of reviewing the information you provided and the information LV has provided regarding this. I have to look at whether LV acted fairly and reasonably in respect of your claim.

## DISPUTE RESOLUTION

There are various ways of resolving disputes. The one I favour is correspondence unendingly until truth finally surfaces. This is because truth has power and is sacrosanct, in that Truth Prevails.

This could take ages, like in my case 22 years of struggle with the elements of Nature as manifested within the State of the United Kingdom. But truth charts the way for dharma and karma is the result which when disseminated generates liberation from the shackles of injustice that one has been victimised with.

Hence, the following proceedings:

Dear Mr Weston

1. Thank you for clarifying what can or cannot be investigated by the Financial Ombudsman.
2. I will not be appealing to the independent assessor on the purely Liverpool Victoria decision and her lack of acknowledgment concerning the 200 odd criminal anonymous emails that my wife and I have received since September 2017 from VOPA (so called Victims of Panigrahi Association) including the 6 November 2019 email that is supposed to have been issued to me by Stefanie Benamasia is read by me as evidence that this too is a fraudulent matter not for the independent assessor but to be investigated by Action Fraud with reference to the proceedings against Wordpress that it is associated with. I now understand therefore that the HMCTS matter is also a fraud perpetrated upon me by the Central London County Court that Action Fraud will confirm investigation of as part of the same complaint against the State of the United Kingdom through its institutions such as the National Health Service and others as reflected in the attached email that I have just received from the Samaritans: FrSamaritans3Dec2019b.docx

Thank you for your email last week and for those you've sent to my colleagues today, it's unlikely we'll be able to respond to every email you send us but they'll be attached to the file for the ombudsman to read.. I'm just coming back to you now though to clarify that we're not looking into your concerns about Wordpress, HMCTS, Toqa Raeda or Managed Divorce. Our remit is limited to the consideration of concerns about financially regulated businesses, like banks and insurance companies. That's why we can look at what you've said about Liverpool Victoria, but it's also why we

can't look at the others you've mentioned in your email. Stefanie explained this to you over the phone.

I'm sorry if my saying each case is looked at separately led you to believe we were looking into the others. What I meant by that was that our service looks at individual cases, and that concerns about Wordpress etc. wouldn't have a bearing on the outcome of your case about Liverpool Victoria.

I don't wish to sound discourteous but I intend this to be my final word on the matter of your complaint about our service. The Liverpool Victoria case will be looked at afresh by an ombudsman who will explain to you what their decision is on the matter.

And if you've contacted the independent assessor they'll reply to you accordingly - about the service we've provided to you..

Dear Mr Weston

1. Thank you for this information and I look forward to the assessment by the Ombudsman of the case against Liverpool Victoria and the other cases of alleged gross misconduct by Wordpress, HMCTS, Toqa Raeda, and Managed Divorce.

2. I would hope that these continuing complaints against the Financial Ombudsman will be dealt with before the expiry of the 3 month period within which I am required to contact the independent assessor, Ms Amerdeep Somal.

3. I am taking the matter of the email dated 6 November 2019 to the independent assessor in the meantime as Kent Police has done nothing about 200 such criminal anonymous emails that my wife and I have received from VOPA since September 2017 to scupper the proceedings at the Central London County Court as attached - see ToCentralLondonCountyCourt29Nov2019.docx and in view of the lack of an immediate judgement from the Court as required so that the damages against HMCTS would be increased to £15 million by Ms Somal should you fail to deliver on your promises within the three month period that applies.

Your ref

Dear Dr Panigrahi

Your complaint about our service I've now looked into your complaint about our service. I'm a manager at the Financial Ombudsman Service and I'm responding to the concerns you recently raised.

First of all I'd like to say how sorry I am you felt the need to raise these. I can see you disagreed with Stefanie Benamaisia's assessment of your case against Liverpool Victoria (LV).

I won't be able to comment on her findings, but I have looked into the level of service we've provided you.

You've said Stefanie didn't take into account a number of your concerns. I've looked at what she's investigated, listened to the calls you had with her and the communication sent between you. Having done so, I'm satisfied Stefanie hasn't omitted anything in her consideration of your case. And where she's been unable to include some of your points – because they don't relate to the case against LV – she explained this to you in the call you had on 5 November 2019.

I also want to explain that as you've referred this case to us about your claim with LV, it wouldn't be appropriate for Stefanie to investigate the cases you have about other organisations as part of this one. Each one is looked at separately. Nevertheless, because you disagreed with her assessment your case will now be looked at afresh by an ombudsman. They'll consider everything again, including the comments you provided in response to Stefanie's view – although they may not be able to comment on issues outside of those relating to your insurance claim with LV. You should hear more from us about this shortly.

I can see you've also said you think Stefanie has an attitude problem. But having listened to her calls with you and read her emails, I think she treated you courteously and professionally at all times. You also provided a copy of an email you said you received from Stefanie on 6 November 2019. I want to assure you that we take such matters very seriously. And due to the contents of the email I've checked with our IT department what we've sent you. They've confirmed that no such email was sent from Stefanie from a Financial Ombudsman Service email account.

Lastly, I can see that you're unhappy with the time it's taken us to investigate your case. You initially brought the matter to us on 31 July 2019. Unfortunately, it did take us some time to get your case moving, due to the high level of enquiries we were receiving over the summer months. I'm sorry you had to wait, but I'm pleased we updated you to let you know it might take some time to get back to you. And once we were able to look at things I think Stefanie investigated what happened in a timely manner.

The independent assessor

If you're still unhappy with the service we've given you, you can contact the independent assessor, Ms Amerdeep Somal. You have three months from today to get in touch with her. You'll need to contact her directly, as we can't refer a complaint for you.

The independent assessor has her own terms of reference – more details can be found on her website at [www.independent-assessor.org.uk](http://www.independent-assessor.org.uk). She can investigate the level of service we've provided. But she can't comment on – or change – the outcome of your complaint about Liverpool Victoria.

You can email Ms Somal at [independent.assessor@financial-ombudsman.org.uk](mailto:independent.assessor@financial-ombudsman.org.uk) or write to The Independent Assessor, PO Box 35738, London, E14 9YU.

Dear Sir

I wished to have a summary of the findings of the following complaint today because it was unacceptable to me that after years of representation to the Parliamentary and Health Service Ombudsman, I received the following email stating that it could be a further 8 weeks before the Ombudsman is even able to even consider whether my complaint could go to the next stage of being assigned a Case Worker by the PHSO and if not the complaint was to be considered resolved or uninvestigable by the Ombudsman.

In either event it would have been proof that the Consultant Psychiatrists operating within the National Health Service do their duties unsupervised and unaccountable to a higher authority whether that is the courts through legal process or through assessment by the Parliamentary and Health Service Ombudsman.

In regard to this I am still imposed upon by the National Health Service into my privacy and well being in that the NHS is not clarifying to me whether the anti-psychotic and anti-depressant medications upon me was merely a recommendation or an enforcement that is to do with the maintenance of a stable State rather than the well-being of the patient in terms of his medical afflictions. What Dr Mawanche said to my request to have a second opinion on my diagnosis and treatment was that it would be difficult to organise this. This has proven to be the case as I have still not heard from Benenden Health as to whether an endocrinologist would be assigned to me on my full membership of Benenden Health (Membership Number 011293713) that comes into effect today.

If I do not receive a response, I will refer this matter to the Speaker of the House of Commons with immediate effect so that a private member's bill may be read out in the House concerning the issue through my member of Parliament in Gillingham and Rainham after the general election of 12 December 2019.

Your immediate attention would be greatly appreciated.

Dear Dr Panigrahi

Thank you for sending us your complaint about Kent and Medway NHS and Social Care Partnership Trust This is to let you know that we have received your complaint and to give you some important information about our service.

We will now pass your case to a caseworker to decide whether we should carry out an investigation. At the moment there will be a wait of around 8 weeks before this happens as we are working on a higher number of cases.

Once a caseworker is available they will contact you to discuss your complaint. Why we need to decide whether to investigate your complaint We investigate complaints where we can unless there is a good reason not to. This could be because we see that the organisation you complain about acted correctly, or because they have already acknowledged and put right any mistakes they made.

We also have to check if we can investigate in line with our legal powers. We also look to resolve complaints quickly without the need for an investigation wherever we can. If we decide not to investigate, we will clearly explain why and offer help and advice where needed.

If we decide to investigate, we will let you know and give you more information about what will happen next.

How we use your information

We often need to get more information to help with our consideration of your complaint and we may share details about you and your complaint with Kent and Medway NHS and Social Care Partnership Trust. We may also ask for advice about your complaint from someone with specialist knowledge (for example, a health professional).

If you do not want us to share the information you have given us with others, please tell us straight away.

We carry out our work in private, which means we do not discuss or publish details of your complaint with anyone other than those involved. Sometimes we share our reports with other bodies responsible for regulating public services, such as the Care Quality Commission, in order to share learning from our work.

We publish short, anonymised summaries of completed cases on our website and publicise these.

If you do not want us to publish your case in this way, or have any questions, please let us know. You can find out more at [www.ombudsman.org.uk/about-our-case-summaries](http://www.ombudsman.org.uk/about-our-case-summaries).

Only our staff or people acting on our behalf have access to the records we hold about your complaint.

We want to check that we are providing a good service, so we might use your complaint for training and monitoring purposes.

Help us improve our service

Our independent research company may invite you to take part in a survey to help us improve our services.

We survey people at different points throughout our process. Any feedback you give within these surveys will remain completely confidential, and your responses would only be shared in an anonymous format, unless you tell us otherwise.

If you would prefer not to take part please call us on 0300 061 4222, or email [customersurvey@ombudsman.org.uk](mailto:customersurvey@ombudsman.org.uk).

## LONESOME COMPLAINTS

## CARE PLAN

Yahoo/Sent

Shan Panigrahi

To:Sheffield Road

15 Nov at 14:22

Dear Jo

I have just spoken to Canada House receptionist over the telephone concerning the subnormal attitudes of Funke Aderibole and Dr Odesanya with regard to the following Care plan points that I am finding very difficult to cope with because the Care Coordinator Funke Aderibole is not cooperating with me to assist me in following the Care Plan which on the one hand seems to ban me from communicating with the Samaritans; yet the 14 November 2019 letter of another appointment for 22 November 2019 10.30 am this time with my Care Coordinator states that I can call the Samaritans if I needed to.

Care plan:

- 1.. We agreed to increase dose of Risperidone to stabilise his mental state, to help him cope with stress to upcoming contract work at the Royal Mail
  2. To continue sertraline 150mg daily in the morning and Aripipazole 5 mg prescribed for hyperprolactinaemia.
  3. Both Mr Panigrahi and his wife consent to trial of Clozapine to replace Risperidone due to side effect of hyperprolactinaemia. Also there is only partial response to Risperidone. This would be considered after his job contract with the Royal Mail comes to an end. At the appropriate time we would arrange to register him with ZTAS and carry out relevant investigations.
  4. Mr Panigrahi agreed to suggestion that he stays off the internet and stop seeking advice from strangers on the internet.
  5. I complained to Mr Panigrahi that I am not happy with publishing my name and work address on the internet and he promised to stop.
  - 6.He also promised to discontinue his frequent contact with PALS and the Samaritans, sending frequent emails to them.
  7. Mr Panigrahi says he would discontinue with his plan of divorcing his wife.
  8. Funke Aderibole is the allocated care coordinator. She stated that she would call Mr Panigrahi on Monday to arrange appointment with him to talk about his care plan.
  9. Mr Panigrahi was advised to contact his care coordinator through reception at Canada House.
  10. Care coordinator to refer to vocational Advisor for support with job search.
  11. GP to please arrange annual cardio-metabolic risks monitoring of; Weight, Blood Pressure, Blood glucose and lipids in line with national guidelines for antipsychotic prescribing.
- You can I hope understand why I feel so depressed and so chain smoking to try and calm down especially since no Dopamine agonists are prescribed so tobacco taking will need medications for replacement therapy.

I never consented to any of the above: when I shook hands with Dr Odesanya it was in good faith that he had understood my complaints against the workplace harassments that I had suffered when colleagues at the University of Greenwich and at Shell UK conspired with management to get rid of me as a member of staff. The faith in Dr Odesanya was unfounded as his true colours have now come shining through.

I am also sorry to note that Gill Turner Tucker Solicitors are not acting for me in this regard which is consistent with the attitudes of nearly 30 other Law Firms that I have tried to access to get justice in the United Kingdom during the past 22 years of suffering inhumane persecution from the UK State for my religious inclinations.

I only publish lawful truths in the internet so if this source of venting my frustrations at the bastards is taken away from me with such misleading stipulations and double dutch talk from Dr Odesanya when I am feeling so down I do not know how long I can stand living this continuing nightmare.

You do care don't you?

Dear Sir

1. I wish to challenge the decision of Wordpress in the High Court for its actions to suspend and archive my Blog <https://shantanup.wordpress.com> on spurious grounds.
2. The action from Wordpress was supposed to have been taken after pressure from the Canada House Mental Health Services and my wife Rashmi Panigrahi who reported it to them that the contents of the Blog posed a risk to my mental health for unknown reasons. I am fine and have no mental afflictions or worries. It would appear that my wife colluded with the Consultant Psychiatrists Dr Masoud and Dr Odesanya at Canada House to punish me for my religious inclinations of truth accommodation. The Samaritans on the other hand have been supportive and seemingly confirmed that there are no grounds that I should not continue with my journalism in the internet in the manner that I have done as shown in the attached ToSamaritansccWordpress16Nov2019.docx.
3. This matter went to the Circuit Judge at the Court of Central London but I did not ever get a Hearing and am still awaiting the judgment of the court to the attached application: ToCentralLondonCountyCourt8Nov2019.docx.
4. Please let me know if there is anything you can do for me to get my cherished Blog restored legally.

Yours sincerely

Dr Shantanu Panigrahi

Dear Alice Barwell

The Solicitors Regulation Authority should be aware that I have issued proceedings against several of your officials for not incorporating the issue of Sorrell solicitors who destroyed my communications with the University of Greenwich during 1998 and stood by while the University manipulated the Employment Tribunal proceedings at Ashford Tribunal Service and which has to this day not resolved my complaint that the University suspended me from work because it did not wish me to obtain the evidence that I needed to clear my name of being blameworthy of gross misconduct in my dealings with colleagues and senior management. I paid Mr Sorrell £2000 to type out a letter that I had drafted to obtain that evidence and this was suppressed. The British Society of Animal Science was

treated entirely fairly by me when it siphoned out money from my Barclays Bank account under false pretences. Neither this institution nor the World Poultry Science UK Branch were called upon by the Tribunal to give evidence under oath with the consequence that I could not attend what was quite apparently a kangaroo court, akin to the kangaroo court of disciplinary hearing instituted by the University of Greenwich while I was suspended from work and had to seek Psychiatric assistance from Dr Rao of BUPA for which I was diagnosed as having had a nervous breakdown (severe depression with psychotic features) due to work place harassment and racial discrimination. You have most dubiously used a 2019 Case Number under false pretences that would not cover the 40 odd solicitors and Law Firms that I have used unsuccessfully due to the total collapse in the judicial processes and law enforcement processes of the United Kingdom. This is not the kind of acknowledgement I was looking for because it is an attempt to coverup the allegation of mine of concerted criminal harassment through conspiracy between the various institutions of the State which inflicted intense persecution on me through the creation of an organisation called Victims of Panigrahi Association. It not only sent me and my wife criminal anonymous emails totalling nearly 280 such materials since 2017 to wreak havoc with my peaceful life in the United Kingdom, it tried to manipulate the court procedures to protect the criminal officials in the Central London County Court, CCMCC, and Queens Bench Division to the point that the Supreme Court through the Privy Council persecuted me.

The single-most outstanding agency of persecution has been Canada House and Dr Sudhir Patel of Wigmore Medical Centre which was the subject of criminal activity by the CCMCC as shown in the attached 'court' order: Dr S. Panigrahi.pdf.

Whilst this goes on unabated I have no confidence in the Solicitor's Regulation Authority to investigate these complaints. The above narration summarises continuous persecution most notably by Wordpress who disabled my Blog <https://shantanup.wordpress.com>.

Before you therefore start I must have an apology from Mr Gurpreet Virk who was singled out to Conventgate Solicitors (attached) for legal proceedings that he covered up with regard to Jonathon Hadlow and Wordpress. I absolutely must have my Blog restored through any action taken by the State no matter how long this takes. Any judgement that does not deal with this loss of journalistic career that I had carved out carefully over 10 years and which contains a mountain of evidence as well as factual reports and religious as well as scientific content will not be tolerated by me.

Yours sincerely

Dr Shantanu Panigrahi

Dear Dr Panigrahi

Thank you for getting in touch and please accept my apologies for taking longer to get back to you.

At the moment, due to the large number of people needing our help, we haven't been able to respond as quickly as we'd like.

I'm also sorry to hear that you are having these problems. Here at the Financial Ombudsman Service we deal with complaints about financial businesses like banks and insurance companies, however we are unable to investigate complaints which are about legal companies.

I'd like to direct you to The Legal Ombudsman as they deal with problems against about legal services and may be able to help. Their contact details are listed below. Telephone: 0300 555 0333 (8.30am to 5.30pm Mon-Fri) Email: [enquiries@legalombudsman.org.uk](mailto:enquiries@legalombudsman.org.uk) Website:

<http://www.legalombudsman.org.uk/>

Another option you could try is to contact the Solicitors Regulation Authority (SRA) to see if they can offer any assistance. You can find more information on how to complain by visiting the following link <http://www.sra.org.uk/home/home.page>.

We can only look at a complaint about misrepresentation/breach of contract against a finance provider under section 75. There may also be a chargeback option as the product/service was paid for by debit card. You might find helpful getting in touch with your card provider. If you are unhappy with their response then you can get back to us.

Finally you've also mentioned Liverpool Victoria if you hold an insurance with them and you have any concerns about how they dealt with your claim, please get back to us.

I'm sorry I couldn't help further but I wish you the best in resolving this issue.

Kind regards

Dear Mr Weston

1. Thank you for this information and I look forward to the assessment by the Ombudsman of the case against Liverpool Victoria and the other cases of alleged gross misconduct by Wordpress, HMCTS, Toqa Raeda, and Managed Divorce.
2. I would hope that these continuing complaints against the Financial Ombudsman will be dealt with before the expiry of the 3 month period within which I am required to contact the independent assessor, Ms Amerdeep Somal.
3. I am taking the matter of the email dated 6 November 2019 to the independent assessor in the meantime as Kent Police has done nothing about 200 such criminal anonymous emails that my wife and I have received from VOPA since September 2017 to scupper the proceedings at the Central London County Court as attached - see ToCentralLondonCountyCourt29Nov2019.docx and in view of the lack of an immediate judgement from the Court as required so that the damages against HMCTS would be increased to £15 million by Ms Somal should you fail to deliver on your promises within the three month period that applies.

Dear Dr Panigrahi

Your complaint about our service I've now looked into your complaint about our service. I'm a manager at the Financial Ombudsman Service and I'm responding to the concerns you recently raised.

First of all I'd like to say how sorry I am you felt the need to raise these. I can see you disagreed with Stefanie Benamaisia's assessment of your case against Liverpool Victoria (LV). I won't be able to comment on her findings, but I have looked into the level of service we've provided you.

You've said Stefanie didn't take into account a number of your concerns. I've looked at what she's investigated, listened to the calls you had with her and the communication sent between you.

Having done so, I'm satisfied Stefanie hasn't omitted anything in her consideration of your case. And where she's been unable to include some of your points – because they don't relate to the case against LV – she explained this to you in the call you had on 5 November 2019.

I also want to explain that as you've referred this case to us about your claim with LV, it wouldn't be appropriate for Stefanie to investigate the cases you have about other organisations as part of this one. Each one is looked at separately.

Nevertheless, because you disagreed with her assessment your case will now be looked at afresh by an ombudsman. They'll consider everything again, including the comments you provided in response to Stefanie's view – although they may not be able to comment on issues outside of those relating to your insurance claim with LV. You should hear more from us about this shortly.

I can see you've also said you think Stefanie has an attitude problem. But having listened to her calls with you and read her emails, I think she treated you courteously and professionally at all times. You also provided a copy of an email you said you received from Stefanie on 6 November 2019. I want to assure you that we take such matters very seriously. And due to the contents of the email I've checked with our IT department what we've sent you. They've confirmed that no such email was sent from Stefanie from a Financial Ombudsman Service email account.

Lastly, I can see that you're unhappy with the time it's taken us to investigate your case. You initially brought the matter to us on 31 July 2019. Unfortunately, it did take us some time to get your case moving, due to the high level of enquiries we were receiving over the summer months. I'm sorry you had to wait, but I'm pleased we updated you to let you know it might take some time to get back to you. And once we were able to look at things I think Stefanie investigated what happened in a timely manner.

The independent assessor

If you're still unhappy with the service we've given you, you can contact the independent assessor, Ms Amerdeep Somal.

You have three months from today to get in touch with her. You'll need to contact her directly, as we can't refer a complaint for you. The independent assessor has her own terms of reference – more details can be found on her website at [www.independent-assessor.org.uk](http://www.independent-assessor.org.uk). She can investigate the level of service we've provided. But she can't comment on – or change – the outcome of your complaint about Liverpool Victoria. You can email Ms Somal at [independent.assessor@financial-ombudsman.org.uk](mailto:independent.assessor@financial-ombudsman.org.uk) or write to The Independent Assessor, PO Box 35738, London, E14 9YU.

Subject: Re: Re Mental Health lawyer

Dear Wolten&Co;

When I was in the mental hospitals under Sectioning, I believe from memory that a lady by the name of Ms Turnbull Walker (I may be wrong on this) pleaded my case to the Mental Health Tribunal in 2004 in the hospital, and Natasha Spreadborough did so in 2008 at a different hospital. I was released on both occasions but kept under watch by mental health professionals visiting me for a few months at home since 2008 but this had not been the case following the sectioning in 2004. These visits stopped and I was told that I needed to continue taking my antipsychotic medication risperidone for the foreseeable future implicitly. I emailed the Mental Health Tribunal to complain and it would not respond to my appeals against this enforcement of medications asking me only if I was still under sectioning and the name of the hospital. These proceedings did not amount to anything. Wordpress in my Blog <https://shantanup.wordpress.com> has all the details of this engagement but on the say-so of the mental health authorities Wordpress archived and suspended this Blog. You would need to obtain this evidence from Wordpress as my memory is not going to help me to provide any further information concerning all those proceedings which I had blogged instead over a decade.

During the past 12 months or so I received letters from Canada House that stated 'Please be advised that an appointment has been made for you to see Consultant Psychiatrists at Canada House'. I attended on each occasion and was issued with Care Plans that stated that I suffered from persistent delusional disorder. If I indeed suffered from persistent delusional disorder, I have had it all my life and have lived up to the age of 63 and with a job with Royal Mail now that is 30 hours a week. I am doing extremely well in this new found means of keeping myself busy away from distractions that affect my mental well being. You should also take into account that it was on my own insistence that Dr Sudhir Patel had referred to to see a Consultant Psychiatrist at a private hospital BUPA in 1997 when I complained of workplace harassment and I was only diagnosed with severe depression with psychotic features and not persistent delusional disorder. The State could not find any evidence of schizophrenia in me during the time that I was in hospital so it was an excuse or a ploy used by the State to keep me under detention in the Community.

At no point since the introduction of Mental Health diagnosis and treatment was I told verbally or in writing that I was subject to a Community Treatment Order. The proceedings of the Mental Health Tribunal at the hospitals were withheld from me so I do not have any documentary evidence to guide me on that score.

I asked KMPT information service (copied) to accordingly provide me with information on this matter under the Freedom of Information Act, which it continues to withhold from me.

Such is the secrecy through which I have been victimised over the past 22 years.

Please let me know your Fees and if I am entitled to legal aid as on the previous two occasions that solicitors represented me at the Mental Health Tribunal because Katie Hall of CartwrightKing has said that it will only represent me after a further round of sectioning and not against the Community Treatment Order that you suggest has been defacto implemented without the lawful provisions having being made for me to facilitate my appeal to the Mental Health Tribunal since 2008.

In other words my rights were not read to me of how to withstand this State-organised terror on me through secrecy in implementing its Police State.

## UNION OF STATES

Independence is a state of mind that applies to the individual as well as to the State: it is the starting point for the organisation of the self and the State and is the basis for all ones activities to channel a future free of the legal constraints that are found unacceptable for survival with dignity.

Given the complexities of the Union of the United Kingdom in particular the movements in Scotland, Northern Ireland, Wales, if any part of the United Kingdom now wishes to hold a referendum to determine the democratic basis for their independence or for nationalism or even republicanism, these proceedings should be done without the legal approval of the mother country of United Kingdom effectively (which is England for all intents and purposes) and if those democratic results are then on the affirmative to isolate that part from the Union the people should be left to create a nation peacefully and then to see how well they do independently. It is the reverse of forming coalitions in the superstate, and Brexit has been the correct procedure for disengagement with the European Union except that the United Kingdom must now review if the UK should leave without a deal, or whether there will not be full disengagement as the Boris Johnson deal implicitly prescribes. It would be interesting to see whether the Brexit Party survives the implementation of this deal to reinvigorate the process of full independence for the United Kingdom from the European Union.

Scotland is particularly important for a study of so called Scottish nationalism. They have an utter hatred for the Conservative and Unionist Party of the United Kingdom as seen from persistent pronouncements. They have camaraderie with the Labour Party through history although this element is now disenfranchised in the past two decades. They want to be part of the European Union when the rest of the United Kingdom is withdrawing from this super-state. They want immigration into Scotland from the European Union. So what is their prime motivation for calling themselves Nationalists? They speak English and have not said that they are republicans who do not wish to subject themselves to a monarchical regime as represented by the Queen of the United Kingdom. Is it therefore a hatred of capitalism in that they are essentially international socialists? Certainly, formerly Labour Members of Parliament from Scotland have dominated the political arena out of Scotland. It would therefore appear that the leaders are using nationalism incorrectly for its soundbites. Further uptodate analysis can be read here: <https://uk.yahoo.com/news/nicola-sturgeon-demand-powers-scottish-022610687.html>

The process of forming communities that take the form of racial groups and eventually of modern States is part of human evolution that has determined that man is a social animal and cannot survive to optimality by living in Nature singularly or he will perish like the dinosaurs and countless other species. Birds of a feather flock together is a famous saying in this regard. Cooperation strengthens the species, and this is achieved through social cohesion.

This brings one to the question of what is the optimal geographical size of State and society? The answer to this must be that it depends on the natural resource and human endowments of peoples living in close proximity of each other and whether they have common values that they wish to live to, such as religion or economics or philosophical attributes. It therefore is a suitable topic for discussion under Humanology that this website focuses on.

The concept of Union of States applies throughout the world and depending on what level of force is used to quell independence appropriate solutions are found. Civil unrest results in states such as Kashmir and Myanmar as two prime examples in recent news bulletins. In some cases the conflicts between communities generate refugees who flee to other countries that are willing and able to accept them as asylum seekers, for example Germany. The United Nations High Commission for Refugees assists in the resettlement when the persecuted and marginalised human communities are unable to live within a given geographical setting. So formation of Union of States colonisation,

immigration and emigration are part of human development and evolution that has brought humanity out of Africa for resettlement elsewhere. It is nothing new that human spirit will continue to seek independence and liberty, and these movements should be facilitated by all peace loving people.

Dear Sir/Madam

I have had correspondence with numerous solicitors/Law Firms to initiate proceedings against Wordpress for the unlawful archiving and suspending of my Blog <https://shantanup.wordpress.com> but to no avail as the attached correspondence shows:

FrKimberleyBradfield(JeffriesLaw)5Dec2019.docx. I am steadily working my way through all the Law Firms in the Law Society website until I find a solicitor who is willing and able to take these instructions from me. The relevant Court Order for Appeal is attached:

CentralLondonCourtOrderE35YM66030September2019.docx. Please note that without this Appeal I am restricted by another Court Order from being able to initiate any proceedings directly to CCMCC, so need a legal representative to do so for me: see Dr S Panigrahi.PDF. It is a question of Human Rights for a citizen to be able to initiate court proceedings to protect himself or herself from criminals.

I am therefore seeking damages and compensation from Wordpress of at least £15 million should it not restore my Blog. I have a fighting fund to initiate court proceedings for defamation and harm done to my reputation as a Social Media journalist as a result.

Please let me know if you are able to deal with this litigation, and let me know your fees.

Dear Sir

Thank you for this information which is very useful.

I cannot give you my permission at this stage to contact the NHS Kent and Medway NHS and Social Care Partnership Trust at this stage on my behalf as you have not given me the email address of the local Mental Health Act Administrator and neither has Robert Gregory of Cartwright King and because this matter is currently logged in as a PALS Complaints with Julie Palmer as Complaint Administrator, so that pending the resolution of this Complaint as attached (see KMPTPALS9Dec2019.docx), no further action is warranted by me.

In the meantime I will now comply with all the provisions of the 12 November 2019 dated Care Plan from Dr Odesanya that you have a copy of and will get in touch with you if no resolution is forthcoming. This is because Canada House should have made it clear to me that its continuing assessment and treatment on me is legitimate and lawful in the absence of Community Treatment Order. I have therefore once again suspended all my Social Media Journalism. I will also attend the appointment made for me at Canada House if this is confirmed to me with regards to the date and time. I am copying this email to Ms Ruth Brown who needs to take over the management of the litigation that I have started against Canada House for Personal Injury and Clinical Negligence over the decades since I was first hospitalised in 2004, quite unjustifiably as I have mentioned to you. For my compliance with the Care Plan, I am going to have my full blood tests done this morning at Shah Surgery.

I trust you will find this analysis and proposed plan of action satisfactory, but should this not be the case I look forward to hearing from any of the parties involved in this dispute that only the Mental Health Act Administrator can resolve as the Court Proceedings at the Central London County Court that I initiated for £15 million in damages and compensation have stalled for reasons not known to me.

Please acknowledge receipt of this email this morning by 10.00 am in case I do not need to go for my blood tests at Shah Surgery relating to this Care Plan.

1. Please refer to the following communication summarising complaints to the Surgery on Canada House that I sent for your immediate attention.

2. I have been advised by a former Line Manager at the Natural Resources Institute of the University of Greenwich to make an urgent appointment with you on Monday 30 December 2019 as reflected in the attached Correspondence with Ray Coker on LinkedIn on 4 October 2019.docx that you will find relevant and self explanatory. This advice is seemingly addressed on behalf of the Circuit Judge at the Central London County Court with regard to the processing of Claim E35YM660 (Dr Shantanu Panigrahi vs Mrs Theresa May).

3. The complaint must be resolved by PALS before 8 January 2019 12.15 pm in view of the attached letter that I have received this morning from Canada House FrCanadaHouse28Dec2019.docx.

Subject: Agenda for the Meeting with my Medical Team

To Professor Raymond Coker Central London County Court (for the responsible Circuit Judge)

Dear Sirs

1. With regard to your email at 20.50 hours, please find attached the agenda for the meeting with my medical team in the coming week - see FrDrOdesanya(CanadaHouse)6Dec2019.docx, with the referred to Care Plan FrDrOdesanya(CAREPLAN)12Nov2019.docx. Accordingly, I have now terminated my Social Media journalism pending the resolution of this dispute.

2. If you have any suggestions/advice please let me have these before 12.00 noon tomorrow (27 December 2019) so that I can discuss it with Dr Agbede at my Shah GP Surgery so that he can advise me further on whether I need to make a separate appointment with Canada House in view of its hitherto uncooperative officials.

Yours sincerely

Dear Shan

Thank you for your email and update.

With the greatest respect, I should like to strongly encourage you to visit your GP and Canada House as planned.

However you feel about the treatment you have received, I strongly believe that you have everything to gain and nothing to lose by meeting your medical team.

If you believe that they haven't met your expectations, your planned appointments will provide you with an ideal opportunity to express your opinion and, hopefully, to improve your relationship with them.

The ongoing situation will remained unresolved if you don't meet them. which is most certainly not in your long term interest.

As a friend and colleague, I sincerely hope that you will decide to go ahead with both your appointments.

Kind regards

Ray

## CLIMATE CHANGE

The single most important issue facing mankind is the future of the planet Earth even in the next 100 years or less. We are facing environmental catastrophe and the powers that be are ignoring all the representations being made by knowledgeable scientists. Instead, there is renewed focus on solving mankind's problems through wars and conflict instead of adopting peaceful means to resolving issues.

Wars damage the environment directly as well as indirectly over the long term through useless spending which is the cause of the environmental degradation, as I have argued here:

Dear Yvonne

I have been thinking about this very hard, because I treasure the amenities that burning fossil fuels has brought to the quality of my life and the needs of my family so I am not against the exploitation of coal, gas, oil etc for that would be laggardly in economic terms. Besides, the climate change agenda can only be addressed through Green Socialism of which austerity is a major part in order to curtail spending and consequent demand on natural resources and alteration of the natural environment through the greenhouse gases generated. So whilst the demand factor continues to pushes for the search for new sources of energy, the fossil fuel companies have to continue looking and harvesting these natural resources. So tax breaks are a legitimate tool for the government. I therefore belong to the school of thought that one cannot do anything about the Climate Change issue until we learn to live austere lives which minimises spending. The Conservative Government needs to return to this not just to control National Debt but to leave natural resources for future generations as much as possible by controlling demand.

In this regard, you may be aware that I wrote about the 'Impending Economic Doomsday Scenario for the World' that Wordpress by archiving and suspending my Blog

<https://shantanup.wordpress.com> is suppressing from the world. In this Blog titled 'Towards Knowledge for World Conservation I discussed Green Socialism too in considerable detail.

With this in mind I would rather spend time progressing my four Petitions at 38 Degrees as far as I am able to in relation to the attached litigation:

Dear Shantanu,

Dirty oil company Shell made millions of pounds of profit in the UK in 2018 - but paid zero pounds in tax. [1]

And it's all because the government is giving huge tax breaks to fossil fuel companies, money that could be spent on improving our schools and funding our NHS. [2]

Prime Minister Boris Johnson has said he wants our country to be "the cleanest, greenest on earth". [3]

To put these words into action he needs to stop giving fossil fuel companies like Shell billions of pounds in tax breaks. Together, we can make Boris Johnson commit to scrapping these handouts. It's just common sense - we shouldn't be giving money to dirty fossil fuel companies at the same time as we urgently need to be cutting carbon emissions. A huge petition signed by thousands of people would show we are watching and wanting him to take action now.

So, Shantanu, if you think that we shouldn't give fossil fuel companies huge tax breaks, add your name: SIGN THE PETITION Fossil fuel giants such as Shell and BP are behind a third of all carbon emissions. [4]

We can see the real effects of their pollution right now, contributing to climate catastrophes like Australia's bushfires and Indonesia's floods. [5]

But rather than forcing dirty fossil fuel companies to take responsibility over the climate crisis, the government is giving them billions of pounds in tax breaks. [6]

That's money we could spend on schools, hospitals - or decarbonising the UK. The climate crisis couldn't be more urgent. It's one of the biggest problems the planet has ever faced. And if we want a livable world for future generations, we need to act now.

The first step is to stop huge handouts to the fossil fuel companies at the heart of the crisis.

So, can you sign the petition now? It will only take 2 minutes:

Dear Mr Vekaria

I have discussed not only with Luke Snoad, but also with Stefanie Benamassia, Will Weston, the Samaritans, my Carer who is in contact with Dr Odesanya (Consultant Psychiatrist) of Canada House and on others on whether my Social media journalism should be terminated for reasons that they contend will be beneficial to my mental health, but I fear that this was an excuse to deny the public's right to information. Further, I have found that without the journalism that I have done over the past decade, my life is barren and incomplete. So I have challenged that Wordpress as a financial institution should be made accountable to UK law enforcement processes if not through the Civil Courts and Parliament as I have tried but by the Financial Ombudsman Service on the grounds of public interest that dictatorial enforcement of procedures by companies in flagrant violation of human beings' right to freely express oneself to the world should not be tolerated by a well developed nation such as ours. I cherish freedom.

I have also therefore queried that the law should be clarified to me with regard to whether the courts are truly ill-equipped to deal with this matter or whether it should be dealt with the Financial Ombudsman or by the Police as fraudulent activity by Wordpress.

Dear Mr Vekaria

1. This matter cannot await Luke Snoad's return to the office on 9 December 2019 as there are legal and medical issues involved that are being addressed by Kimberley Bradfield of Jeffries Law as far as I am aware.

2. I need to know what medications are to be taken by me today, so kindly deal with this complaint and let me know your final decision on whether it is investigable by the Financial Ombudsman or the independent assessor with regard to the restoration of my archived and suspended Blog:

<https://shantanup.wordpress.com> that is unlawfully disabled so that I need to know whether to continue with my journalism in the Social Media also. This information is required immediately.

3. I await confirmation by email or telephone call now.

## GREEN SOCIALISM

### GREEN SOCIALISM

Published on January 12, 2020 The Conservative Libertarian Society Consultancy Services:

The first question to address is what is democracy.

Democracy is socialism: it is government by the people of the people and for the people.

That is the ideal way for humans to live. It means no forms of dictatorship is allowed to creep into the functioning of society, so that there should be no Ruler as an individual person directing the affairs of mankind. So Presidential Rule and Monarchial Rule in any form that does not enable the Ruler to be judged and removed from power mid-term for crimes and misdemeanours are to be prevented in the Constitution that exists. The reason that no single person should be the Ruler of a nation or the world is that Creation is not administered like that. God created the universe and God stays aloof from human developments and functions. So no human being should be permitted to take that role. This means that organisations be they religious or secular need to be organised such that they are democratic to their followers and adherents too. So the Pope, Archbishops, Dalai Lamas days are undemocratic and not socialism. The Pope is not the representative of God on Earth in other words. In the secular field, the ideal democratic systems also does away with Presidents and Monarchs with any powers. They need to be abolished and Parliamentary democracy established that is governed according to a Constitution that is monitored by Law Courts where decisions of the executive can be challenged as to their constitutionality, and returned to Parliament for Review.

In the United Kingdom therefore, the House of Lords should be abolished as undemocratic.

Issues relating to wars and conflicts with other States must be put back to the people in referenda, and these should be implemented accordingly.

Federal States with people of different languages and cultures should be abolished, for example the system of union of states as in the United States of America, the European Union and India. This is because cultures should be allowed to develop naturally according to the laws of nature, and not militarily imposed upon the populations. Thus globally societies should be allowed to evolve naturally from communities that are self sustaining and self governing. Birds of a feather flock together. Colonialism is wrong as it goes against Nature.

This means that human beings are just like all other animals but with a highly developed brain that is intelligent enough to adapt to the changing needs of the environment in which these communities live.

Globalisation is definitely wrong because each community must live in accordance with its own natural resource and human endowments so that it is in tune with its own environment. It is a form of colonialism and should be made a crime against humanity.

Nani very good news: I have been granted a Court Hearing to hear my permission to Appeal a previous Court Order by the Central London County Court against the Prime Minister for failure to regulate Kent Police and Wordpress for which I am asking for £15 million in damages and compensation. The particulars of claim are that Kent Police failed over the years to investigate reports of crimes committed against me by up to 200 people and institutions national (such as the National Health Service) and foreign through internet perpetrated activities. It was the Prime Ministers duty to ensure that the criminals referred to were managed to enable a citizen to go about his lawful activities in a democracy as a law abiding citizen myself.

If Wordpress in its final analysis did not wish to host my Blog: <https://shantanup.wordpress.com> it should have allowed me to transfer the Blog to a personal domain or sent me the full extracts of contents so that I could do so myself. Shantanu Panigrahi's Blog Towards Knowledge For World Conservation <https://shantanup.wordpress.com>.

Further Kent Police had to by law investigate the complaints against the Mental Health authorities as well as those reported to the Police for obstruction of justice and perverting the course of justice, or given me its written reasons for not doing so with the consequence that I suffered mentally and financially over the past 22 years.

This would in essence be my arguments to the Judge at the Hearing. If you have any comments or suggestions taken from people who know the law better than I do please let me know urgently.

Too long for Facebook.

I read your new web garbage with growing horror. Is Rashmi asleep?

I was overjoyed when they shredded your Wordpress web garbage.

From where did these new abomination come?

Shan sit upright pay attention and listen.

You call your excellent wife a kutia, I would take off my chappals and beat your ugly face into a pulp, and that would only be the beginning. The very fact that you are trying to appeal this decision for the Prime Minister indicates you are mad. Totally mad.

You say they have faked all this evidence against you. Who knows what the judges will believe when even your sisters believe you to be hundred per cent guilty of fraud, lying, intimidation, blackmail, sexual misconduct and much more. In your London Court there is a good chance they, whoever they may be, may be setting a trap for you (good). You go there, they arrest you, lock you up and this time throw away the key. I cannot even say I would be unhappy. Rupa, not Shantirupa, would cry out to Lord Ganesa in thanks. Only poor, foolish Rashmi might shed a tear.

Your madness is partly responsible already for two deaths in our family, plus papa's broken heart in disappointment. Now you chootia bhai, shut up, close down your web garbage, to call it a site is a mistake, hold your ears, crouch in the corner for twenty years maintaining silence. I will even send this to your VOPA, wish them luck and send them a donation so they can beat you better. Rakshasa Shan, you are not even worth spitting at. Rashmi, divorce this gaanchodh as soon as you can, and deny him all access to Rupa and, more important to him, further money.

at the County Court at Central London, R.C.J, Thomas More Building, Royal Courts Of Justice, Strand, London, WC2A 2 LL

When you should attend

30 minutes has been allowed for the Hearing

Please Note: This case may be released to another Judge, possibly at a different Court

LISTING POLICY: The court's listing policy is determined by the senior judge and implemented by staff in accordance with his directions. Your case may not be allocated to a judge until the day of the hearing, and may have to wait in the unassigned list until a judge becomes available to hear it. Every effort will be made to ensure that your case is heard at this or another convenient court. If it is not possible to provide a judge to hear your case the court and Her Majesty's Court and Tribunal Service will not be responsible for any costs incurred in the absence of any departure from listing policy due to maladministration. This may mean that your case will not be called immediately at the time scheduled, but may be heard later in the day. We will try to ensure that if your case is listed in the morning it is heard by 1 pm and if your case is listed in the afternoon it is heard by 4 pm. In some circumstances it is possible that your hearing could overrun. You and any witnesses should therefore be available until the end of these periods or even later. If there are special reasons why this is inconvenient you may make a short notice application to a circuit judge to adjourn. Ordinary inconveniences arising from the fact of being in the unassigned list will not be sufficient reason for an adjournment, nor will the fact that both parties agree to the an adjournment. ACCESSIBILITY: Please inform us as soon as possible if you, your witnesses or legal representatives have a physical disability that may affect your attendance at this court. We can make alternative arrangements for the case to be heard in a suitable court room by calling the Customer Service Team on 0300 123 5577.

#### PREPARATION FOR THE HEARING:

N1 Claim Form

Brief details of Claim

This Claim is brought for compensation and damages suffered by me as the Claimant against the Prime Minister of the United Kingdom Mrs Theresa May for her failure in her duties to consider my defence against a vitriolic attack launched at me to her by an organisation calling itself Victims of Panigrahi Association (VOPA) but which in reality was set up to harass and intimidate me to make my life near impossible in the United Kingdom through state-sponsored criminal anonymous emails to me; and by her overseeing the state-persecution of me through the National Health Service. This failure in conducting the Prime Minister's official government business through due diligence was indicative of her negligence, incompetence or downright malicious prejudice against me as the Claimant. She did not even acknowledge the representation that I made through an open letter at my website: <https://shantanup.wordpress.com/2018/08/26/an-open-letter-in-my-defence-to-prime-minister-of-the-united-kingdom-mrs-theresa-may/#comments>.

### Particulars of Claim

VOPA is a persecutory organisation that sent me criminal anonymous emails over the past 11 months and made a representation directly to the Prime Minister at the Administrative Office of 10 Downing Street and through Ms Christine Worsley of Her Majesty's Court and Tribunal Service which represented vitriolic attacks on my character and mental disposition as a perfectly sane human being. It's actions were intended to destroy my reputation and make living in the United Kingdom a nightmare for me. This organisation's activities were state-sponsored as evidenced by the lack of Police action to my repeated appeals for the criminals to be identified and prosecuted for criminal harassment.

It is hereby alleged that the Prime Minister failed in her duties through negligence, incompetence or deliberately malicious intent (consistent to her responses to my representation to her while she was Home Secretary) to get her to outlaw VOPA as a terrorist organisation and get the Police to prosecute its secretive personnel. Further, she ignored my plea for defence consideration against these scurrilous attacks to be taken from my website <https://shantanup.wordpress.com/diary-2/> that I brought to her attention and failed to ask the Lord Chancellor to whom I had complained about the Courts not administering a lawful Hearing to hear my Case to take appropriate action on my behalf. The Prime Minister thereby obstructed justice and caused me further suffering to what I had endured over the past 19 years in the United Kingdom through the UK State's manipulation of the National Health Service to enforce mental health treatment on me when I am a simple satya-advaitist Hindu practicing truth accommodation; which is not a medical disorder requiring the anti-psychotic and anti-depressant medication that was forced upon me by the UK State. This plea she ignored because she had overseen the state-persecution as the Home Secretary once and as the Prime Minister who was now in charge.

I am therefore seeking substantial damages from Mrs Theresa May for her dismal attitude towards me. Whilst I consider that the financial reparations that I am demanding should be in the millions of pounds, I cannot afford the Court Fee for such a Claim amount and am consequently forced to apply for only £3,000 in the hope that the Judge presiding would use his or her discretion to award me the higher amount of damages and compensation. Completing a Fee Remission Form is not appropriate because I do not have any access to my wife's financial resources and other assets.

### Appellants Notice

State why the Judge who made the order you are appealing against was wrong

The Judge did not give me the opportunity to question the perpetrators of dastardly criminality who manipulated the Legal Ombudsman and the Solicitors Regulations Authority into obstructing justice as evidenced by the fact that my Blog [shantanup.wordpress.com](https://shantanup.wordpress.com) was archived and suspended to prevent people around the world reading my journalism of how the UK State persecuted me over 20 years through the use of agents overseas and at home, including the Mental Health Authorities who are singled out for punishment because of its misdiagnosis of my mental health condition that was explained on numerous occasions as being the religion of satya-advaita or truth accommodation.

What are you asking the Court to do?

It is ordered that the UK Treasury pay the Claimant £15 million in damages and compensation for the destruction of a promising human life over 20 years of failures in the Law Enforcement processes.

State the evidence you wish to rely on.

The Mental Health authorities and the wider National Health Service in complicity persecuted me over 20 years with pointless interrogations and enforced incarcerations in mental hospital and in the Community through implicit semidetention by drug enforcement despite numerous protests that I

had been victimised by the UK State by criminal anonymous emails that were then used to refer me to a Forensic Psychiatrist as shown in the document submitted to the Court by email on 15 August 2019. These issues were discussed with the Surgery of Dr Shah at Long Catlis Road on 15 August 2019 during a specific appointment to discuss the preliminary Appellants Notice of 7 August 2019 that was returned to me by the Civil Appeals Office for directing to the County Court at Central London with a cheque for £240 that was enclosed. The correct fee that the Civil Appeals Office should have advised me was £120. This shows that Mr D Jenkins of Queens Bench Appeal Court had given me the wrong directions akin to the prevarications on my Claim to the Queens Bench of the High Court for the appeal of Master Eastman's striking out of the Claim against Kent Police and co-conspirators during 2017.

The Solicitors Regulation Authority has refused to provide a reply to the complaint against the Legal Ombudsman and numerous lawyers and law firms, the latest evidence for which was submitted to the Court by email on 15 August 2019.

The Appellants Notice referred to the Central London County Court was copied to the Prime Ministers Office and Wordpress with regard to its misdemeanour in acting on the direct instructions of the Mental Health authorities to disable my Blog <http://shantanup.wordpress.com>. to prevent my journalism and lifetimes achievements in science and religion from being accessed by the population of the world after I had maintained my work over several years without any complaints from Wordpress. It is alleged that the sole purpose of this act was the wanton destruction of a human beings life from intense State-organised persecution.

### COURT INTERFERENCES

In civil proceedings where the criminals are cornered they continue to try and disrupt the litigation through manipulations of interactions between the Claimant and the Defendant. These need to be ignored and the mind focussed on the Hearing itself by identifying the essential task that needs to be accomplished.

I look forward to my day in Court in front of a Judge on 3 April 2020 at 2.00 pm as I have nothing to be ashamed of. I have sought the truth with the actions that I have taken always. From failure to secure justice, I resorted to exposing the corruption of the policing and judicial processes over the past 22 years in my Wordpress Blog. This was disabled unlawfully. The Prime Minister has a duty to ensure that free speech is maintained through appropriate legislation and my five petitions at 38 degrees ([you.38degrees.org.uk/my-campaigns](https://you.38degrees.org.uk/my-campaigns)) should have been considered.

It will then be for the Court to decide if my Wordpress Blog should be restored or further Hearings held given that the Prime Minister and Wordpress have not replied to the following tweets:

Dear Sirs

I have had a further reconsideration of my application for Reconsideration of Permission to Appeal in Claim in Claim E35YM660 with reference to the attached communication with the Samaritans:

ToSamaritans25Jan2020.docx.

I consider that having due regard to the available evidence for the non-existent jurisdiction of the UK court system to consider the issue of the restoration of my Blog <https://shantanu.wordpress.com> that I do not wish to incur any more costs in pursuing the Claim, especially since the organisation Victims of Panigrahi Association (VOPA) could not be identified by me despite considerable efforts of employing lawyers and Kent Police.

I have now therefore decided not to proceed with my Claim any further and am therefore withdrawing my 8 November 2019 application attached

(ToCentralLondonCountyCourt8Nov2019.docx) accordingly as opposed to abandoning it.

I sincerely hope this does not cause an inconvenience to the Court and the Parties concerned. My decision has not been taken lightly and I am particularly concerned about its toll on my mental state with my next treatment objectives for mental disorder to be clarified for which clozapine administration has been recommended by the Consultant Psychiatrist Dr Odesanya and the ensuing referral to Maudsley Hospital London for autism diagnostic services. I accept these decisions of Canada House to pursue the medical avenue as a priority.

I apologise unreservedly for having wasted your court's time and for any misapprehensions that I might have insinuated in the past against Her Majesty's Court and Tribunal Service and its officials through my emails or publications in various means.

Please acknowledge receipt of this email without undue delay, preferably by email so that I can inform the other parties of your decision on whether to accept this representation or to administer the Appeal as you have planned.

Hello Shantanu

Would it be possible for you to limit the content of your emails to us to only focus on how you're feeling about your current situation, without copies of emails to or from others?

Our purpose is to give you emotional support while you're going through so many difficulties. We have no need to see any other emails than the ones where you're expressing the toll things are taking on you.

Could you tell us how you're feeling about your appointment on the 3rd of February & what your hopes are for the meeting?

You've mentioned that the stresses you're facing are non-conductive to your mental welfare. You clearly care very much about any affect this may have on your wife & daughter. How is your relationship with them at this time?

Please keep talking to us for as long as you find it helpful

Jo

To Central London County Court

Dear Sirs

1. With regard to the attached application (ToCentralLondonCountyCourt8Nov2019.docx) please note that the Hearing announced by the Court to be held on 3 April 2020 at 2.00 pm at the Central London County Court (in Thomas More building, R.C.J.) will now solely consider the as yet unresolved issue of the Court Order that I applied for against Wordpress.com to restore my full Blog (<https://shantanup.wordpress.com>) with its associated websites or pay me £15 million in damages and compensation, as all other matters have now been resolved amicably with the various respondents concerned. This is in view of the intransigence of Wordpress as shown below following intense negotiations over the past few months through email correspondence; see FrWordpressAccountInformationQuery20Jan2020.docx.

2. Please confirm receipt of this email and confirm my appointment with the Circuit Judge as required in the Notice of Appeal: Notice of Hearing: <https://www.shanpanigrahi.co.uk/444817051>

Please, we do not understand what means "process of making". No remittance is showing for restore@wordpress.com with reference SHANTANUP. Make remittance, then write, thank you. We made it clear as the crystal that it is a reconsideration fee and does not guarantee restoration. Communicating with junior staff unaware of a fast-track process for restoration has not assisted but harmed your chances of success. You write of suing Wordpress, Inc. "under E35YM660", which we do not understand either, apparently because we removed you for multiple breaches of our Terms of Service.

Why are you copying in two UK Courts into this correspondence? We remove them. You paid nothing for our service. You have no grounds to sue the corporation. Any claim by you will be robustly defended and a full order for costs sought.

If Wordpress, Inc. finds that you have made derogatory statements about our company, we will recommend you be sued for slander of goods.

Finally, "Zara" is the name we use for automated and semi-automated responses. My surname is not Broadley-Johns and I am not a solicitor. Further correspondence with you does not serve any further process. Either make the remittance to restore@wordpress.com, or cease communication.

Unsolicited correspondence except as above from you that is received by us will attract a non-refundable charge of \$200 per item of correspondence.

My Lord

Updated Particulars of Claim:

1. I wished to do something positive for World Conservation in order to improve society and initiated the following petitions. Some were approved for hosting whereas others were inexplicably turned down and disabled by 38 Degrees and Liberty. This is what my Appeal is all about. Please refer to the following links in administering your decision on whether I am justified in voicing these concerns or not. If I am not, you may turn down my reconsideration of permission to Appeal the 14 January 2019 dated Order of the Court on E35YM660 (Dr Shantanu Panigrahi vs Mrs Theresa May; nay the present Prime Minister of the United Kingdom). The petitions in question were:

<https://you.38degrees.org.uk/petitions/preserving-and-nurturing-nature-s-biodiversity-globally>

2. Further evidence for my petitions may be examined at the following websites which have stood the test of time in that they were beyond criticisms from the general public because they are factual representations of the investigations that I have conducted in arriving at the petitions:

Personal websites:

(a) <https://www.shanpanigrahi.co.uk/>

(b) <https://shantanu.wordpress.com>

(c) <https://facebook.com/shantanu.panigrahi.10>

(d) <https://linkedin.com/in/shantanu-panigrahi-a120b267/>

(e) <https://twitter.com/ShanPanigrahi>

3. The evidence in these websites support the Particulars of Claim in the Claim Form and the Appellants Notice of a concerted national and international conspiracy against me to obstruct justice and pervert the course of justice by the States concerned. The government is therefore obliged to take these petitions seriously or give its reasons for not considering them through the normal processes of Parliamentary scrutiny. As you are aware, I have only asked for a nominal £3000 in damages and compensation for what I have suffered over 22 years and which have led me to these petitions because am only progressing the Appeal proceedings because I believe it to be in the public interest nationally and globally.

4. I am happy to answer any questions that you may have for me in relation to these Particulars of Claim and the attached application for extension of time for the formal Appeal proceedings.

**Application for extension of time of up to 6 months for E35YM660 Appeal proceedings: submission at an oral hearing to the Circuit Judge on 3 April 2020 at 2.00 pm at the Central London County Court**

Court's Reference: Notice of Hearing dated 14 January 2020 on Claim Number E35YM660

Background: The Court Hearing on 3 April 2020, 2.00 pm is for a reconsideration of the Order of the Court dated 24 September 2019 by His Honour Judge Letham for his refusal of permission to Appeal the Order of Deputy District Judge (DDJ) Smith made on 14 January 2019; upon submission within 7 days of receipt of the Order for a reconsideration of permission to appeal, this application being executed on 3 October 2019, 09:21am with a progress report sought on 8 November 2019, 19.59 hours; and leave to submit orally against the Order dated 24 September 2019 at a Hearing for the reconsideration of permission to Appeal being granted by the Court on 14 January 2020.

Justification: The justification for an extension of time of 12-18 months for Appeal proceedings was submitted through an application dated 11 March 2020, 12.26 pm by email and reinforced by email on 16 March 2020 16.33 hours. Claimant's arguments for the granting an indefinite extension of time submitted then were as follows:

1. His Honour DDJ Smith erred in law in three respects in the Court Order dated 14 January 2019:

(a) by not giving the Claimant the opportunity to seek an estimated extension of time implicit in his delays for the filing of amended Particulars of Claim. The 14 days allowed by DDJ Smith in the 14 January 2019 Order was woefully inadequate for the task of assembling the evidence in this civil litigation in such a manner that the perpetrators of criminal misdemeanours would not be able to defend against the particulars of Claim. It has taken the Claimant over one year from the date of the Order to prove beyond any doubt whatsoever that the National Health Service was grossly negligent or criminally-motivated with the correct diagnosis and treatment of his mental condition over the past 22 years as shown in the 9 January 2020 dated Care Plan from Dr Odesanya of Canada House

where the Claimant has now been referred to the Autism Spectrum Diagnostic Services of Maudsley Hospital from initially being diagnosed as having persistent delusional disorder. Notwithstanding this continuing referral, the Claimant submits that he is autistic of a special kind that he describes as satya-advaitic or truth-accommodating behaviour which is not a mental disorder requiring medications of any kind whether of anti-psychotic or anti-depressant types that he hopes the final examination at Maudsley Hospital will reveal in due course. His contention is that satya-advaita condition of Autism Spectrum is a highly desirable behavioural trait that the Claimant has inherited as it aids survival of the human species in the most hostile environment that he has faced in the United Kingdom through the persecution organised intrinsically by Nature as defined under his conception of Brahman-Nature In the vyvaharika level of reality. This remains to be seen.

(b) the Particulars of Claim in the Claim Form were outlined in sufficient detail to begin the process of identifying the responsible respondents who were party to the Claim given that over 30 (close to 40) law firms, solicitors and advocates were approached by the Claimant but were manipulated by the State of Brahman-Nature associated humanity not to cooperate with him in providing legal advice and legal representation by an organisation naming itself 'Victims of Panigrahi Association' (VOPA) under the protective umbrella of the Police, the Legal Ombudsman, the Solicitors Regulation Authority and the Financial Ombudsman Service of the United Kingdom; and hence his allegation that the Claimant has made of state-organised persecution by a secretive Big Brother Police State in the United Kingdom. The latest example of this lack of cooperation is the non-acknowledgment of these proceedings by Daker Marriot and Dugdale solicitors which has left me exposed to VOPA's manipulations of justice. So I am without any form of legal representation today.

(c ) his failure to take account that the principle issue in the Claim was not that past and present Prime Ministers failed in his/her duties to the State (this they discharged) but that the Defendants obstructed justice in office against the Claimant and then repeated this by filing a pointless and malicious defence by stating that the Claim Form's Particulars of Claim did not show a cause of action against the Defendant who abused his and her position of power to effectively manipulate the respondent institutions and VOPA to perpetrate persecution upon the Claimant and then disable his Blog at Wordpress.com which he had used as the final and ultimate level of justice attained by publicising the persecution that he had suffered. It is further argued that the Prime Minister abused his position of power as the Executive of the nation by not instructing the Lord Chancellor to examine the allegation reported to Her Majesty the Queen under petition that a lawful Hearing had never been implemented by the Ministry of Justice to hear the Claimant's original complaint 20 years ago against the National Health Service that caused the dismantlement of his scientific career at the University of Greenwich as well as the loss of redundancy payment of around £55,000 or £10,000 per annum as medical retirement from a trumped up charge by the University that the Claimant had been blameworthy of gross misconduct at the workplace and therefore should be dismissed from service summarily without consideration of defence to his actions and conduct; an issue that also led unfairly to his loss of Shell Cashier's job in the subsequent years following this employment.

(d) in the absence of an appointment from South London and Maudsley NHS Foundation Trust with reference to the email submission of 16 March 2020 16.33 hours copied to the Court to reconsider its rejection of a second-opinion outpatient's appointment for its Autism Spectrum Diagnostic Services and the simultaneous arrangement made for the Claimant to have an appointment with Canada House on 15 April 2020 at 10.00 for continued assessments of this diagnosis and treatment, it is necessary for Appeal proceedings to be extended for an estimated 6 months pending the receipt of a report (Care Plan) from Canada House.

2. His Honour Judge Letham erred in law on four counts in the Court Order dated 24 September 2019:

(a) by not granting a Hearing there and then when DDJ Smith had also failed to do so considering that the Defendant had continued to keep silent to the repeated emails that the Claimant submitted

to the Defendant as his evidence surfaced and permitted him to develop the updated Particulars of Claim that his single-handed investigations continued to generate and the state-persecution was unravelled and uncovered by him;

(b) in being presumptuous that the Appeal had no real prospect of success when the Claimant was still in the process of assembling the evidence of state-organised persecution;

(c) in failing to take account of the fact that the Appellant's Notice was assembled at a time when the Claimant was being persecuted by VOPA and which continued right up to mid-March 2020;

(d) stating that the Claimant failed to plead a coherent case; this could not be correct if the Claim Form is revisited with these present updated Particulars of Case that the Court received timely and countless emailed documents on as evidence since the Order was issued and which should all now be on the Court File;

(e) the Order of 24 September 2019 was based upon consideration of the Claimants Appellant's Notice dated the 27 August 2019 and the file of papers. The Claimant has not received full written reasons for the judgment and has yet seen the Court File for contents; and

(f) since no Defence to this updated Particulars of Claim has been filed by the Defendant the correct decision would have been to summarily issue the Orders that the Claimant requested, namely that:

(i) damages and compensation of £15 million to be paid to the Claimant by the UK Treasury; and

(ii) full restoration to be effected of the Claimant's Wordpress Blog

<https://shantanup.wordpress.com>.

Summary: In United Kingdom's unwritten Constitution, civil proceedings are fluid and need to be continually updated with Particulars of Claim with one's imminent circumstances; which I have done. The justification for now granting a 6-month extension of time for the Appeal proceedings to be heard and implemented with a Defence is based upon the aforementioned arguments of a total failure and collapse in Case Management by the above cited Judges concerned with the disposal of Claimant's Claim; and the continuing appointment made upon the Claimant for another review of the diagnosis and treatment of his mental health by Canada House. Consequently, the appropriate decision would now be for the Circuit Judge to grant the Claimant's permission to Appeal His Honour Judge Letham's Order dated 24 September 2019 pending the full Appeal proceedings to come in which the above cited Orders will need to be considered.

## AVATARS OF HINDUISM

Sri Krishna is the Creator God, whose representative in Nature is Lord Brahma as the Creator. Together Brahman-Nature was constructed and exists. Sri Krishna does not incarnate as a human being because as Creator He is indestructible and permanent so cannot perish.

Brahman-Nature comprises of sattvic, rajasic and tamasic gunas in Consciousness that humans relate to through advaita. Lord Brahma is the god of sattvic guna, Lord Vishnu is the god of rajasic guna and Lord Shiva is the god of tamasic guna. These are the male versions of Creator, Preserver and Destroyer in the Trimurti. Sri Krishna is attributed in Numerology with the number 7, while in the Trimurti the Number 7 comprises of Brahma with 6, Vishnu with 8 and Shiva with 7; (using the Chaldean Hebrew System of Numerology). Thus Brahman Nature also averages 7. The Numerology of BRAHMAN NATURE is  $20-23=7$ .

The consorts of Lord Brahma, Lord Vishnu and Lord Shiva in the female are Saraswati, Lakshmi and Parvati respectively as goddesses.

These three gods create their own avatars in human beings and are worshipped by Hindus accordingly as God as their sadhgurus respectively by those with genetic endowments that make them prone to sattvic, rajasic or tamasic gunas or characteristics and properties. The characteristics of sattvic guna is creativity and knowledge, the characteristics of rajasic guna is routinal accommodation or preservation, while the characteristics of tamasic guna is evil, destructive and criminal conduct. We humans therefore follow our genetic endowments and select the god that we are close to and so worship those gods in our daily lives. So we become bhaktas of these gods and goddesses.

The gods Lord Brahma, Lord Vishnu and Lord Shiva are real and direct the affairs of human beings on Earth that is the reality of Brahman-Nature. These are held in balance all the time, so that everything that happens in humanity is manifest as Sri Krishna's lila.

So in contending with this reality, the individual can carry out their karmas and dharmas to their satisfaction and societies are created with a mixture of such human beings. When human beings are successfully living their lives according to the gunas that they relate to they survive and prosper in their material outlooks and objectives accordingly. The same applies to animals and plants, and in fact all living forms.

But since humanity is a part of Brahman Nature there are conflicts between human beings all the time during interactions and this creates wars on Earth of different kinds within the family, within the State and within global humanity.

Those humans that reach the perfection of their gunas through worship of either Lord Brahma, Lord Vishnu or Lord Shiva and live long lives with attainments of appropriate objectives such as Knowledge for sattvic guna, normal family live and wealth to preserve for rajasic gunas and murderous destructive tendencies for tamasic gunas, are to be known as avatars of these gods respectively. These adherents to their religions are known by their 'isms', namely Brahmanism for followers of Lord Brahma, Vaishnavism for followers of Lord Vishnu and Saivism for followers of Lord Shiva.

People acquire their names according to the Numerology attributed to these three gods in the Trimurti. My name is SHANTANU PANIGRAHI, so the Numerology is  $3+9=12=3$ . 3, 6, and 9 are the related numbers for Lord Brahma. My parents gave me this name and it was supposed to have significance for the type of person I was to be according to them. I practiced Brahmanism and

became a good scientist seeking knowledge, and excelling in it to the level that I created the new science of Humanology which has stood the test of time. I am therefore an avatar of Lord Brahma.

28 January 2020 Update:

People can surrender to the Reality of Brahman Nature and Sri Krishna and be considered avatars of Sri Krishna whether knowingly or through surrender to Creator God. They have birth names in this case with the numerology 7 and are of rajasic gunas that preserves.

Lord Brahma consults with Sri Krishna for Almighty God's intervention in human affairs when the world is going through immensely difficult and perilous state. This is why Sri Krishna intervened through me and we had intensive conversations on my dharma on this Earth through my digital clock checking for messages given to me for approval or disapproval of my actions using firstly the numbers on the digital clock of 3, 6 and 9, and latterly to confirm my interactions with Him using the Number 7 solely.

But I now remain an avatar of Lord Brahma as my finally realised *raison d'etre*.

## ENVIRONMENTAL SUSTAINABILITY

Published on October 5, 2019 The Conservative Libertarian Society Consultancy Services:  
Environmental sustainability relates to human activities that impinge on the environment from which goods and services are derived.

It is no wonder that the economies of the world are starting to go into recession. That is the response of the environment to over-exploitation through rampant capitalism that comprises waste and pollution that degrade the environment. Economic recession has nothing to do with the mismanagement of global economies and their interrelationships as the result of being subjected to incompetence by economic gurus going about government by centuries old processes of capitalism. Natural resources are finite and need to be managed with care to promote environmental sustainability, not rampant macro-economically driven growth targets.

There is no time like the present. Let the bygones be bygones. Let us review all the information and begin to chart a new way forward for humanity on this planet. No recriminations or criticisms. Just positivity to do the right thing for a sustainable environment to live in and the attitude that we would leave a better way of life for future generations. Let us be comrades in effecting climate change for social and environmental protection.

That is not all environmental sustainability is. It also has to take account of the human dimension because human beings are part of the environment as an animal living in Nature. These beings that we have needs which should be considered in the formulation of a rational policies that is sustainable and progress is made in that sustainable manner that is attuned to Nature. This is difficult as human beings are moderated by the States that they live in, which have laws to coerce human beings in the direction of the authorities. There are nearly 200 nations on the planet Earth and each has its own culture that their populations abide by. These nation states govern themselves within their own natural resource and climatic endowments so that there is no one solution that would fit all the nations of the world.

This raises the question of whether there should be One World and a global government that monitors each State to determine whether it operates optimally to its particular resources. At present there is such a need because knowledge of the environment is sparse in many countries of the world so that they need aid in terms of expertise to help them live to their particular environment. But ultimately the evolution of mankind would drift to the idea that there should be one global government from the United Nations that determine how people are managing their affairs in different countries. Patriotism to individual States would be a thing of the past in the days when man thrived on competition between nation states to further their own interest at the cost of depriving the people of other nations the resources that they need to survive and manage their lives and interrelationships with other nations who they need to become allies with to survive. Independence of nation states should therefore be abandoned now in favour of camaraderie between nation States. The Brexit movement of the United Kingdom and Scotlands perennial attempts to move to independence from the formation of the Scottish National Party is therefore wrong in principle if one wishes to examine the global implications of such a movement for it will fuel capitalism that leads to the economic doomsday scenario that I wrote about in my Blog <https://shantanup.wordpress.com> and its associated Twitter Account: <https://twitter.com/ShanPanigrahi>.

We then come to Nature and the adaptation of humans to animals and plants. Horses, like all other animals and plants should be treated with love and care and used as human companions on this planet Earth. Bringing horses to meet our needs as human beings is an ancient attribute of the human mind that persists to this day. Horses, camels, elephants, cats, dogs, dolphins, birds of

numerous descriptions, bees, silkworms, cattle, and possibly others are our friends and allies in Nature with whom we have a symbiotic relationship as humans. We need to nurture this care and instill it in our children so that they also grow to realise how valuable these animals are. The same applies to plants. So we need to conserve biodiversity in the consideration of any policy for environmental sustainability.

Finally, we need to consider unbridled capitalism. Big Business and National and International charities, governmental institutions, law enforcement, politicians and NGOs are totally unaccountable to the law authorities of the United Kingdom and the United States of America, and therefore to Humanity. So environmental sustainability needs to address how these bodies who are a law to themselves need to be reigned in to make them conscious of their activities which degrade the natural environment and control the behaviour of the people who depend on their livelihoods on them. This requires the formation of political parties that propound Green Socialism as I have discussed in my suspended and archived Blog <https://shantanup.wordpress.com>.

So, what is environmental sustainability is a pertinent question.

Environmental sustainability relates to the activities of humanity on the biosphere that sustains us in generating goods and services. In other words the environment is regulated by us humans. At an individual level it puts the onus on each individual to conduct themselves by adapting their needs and desires to be at one with the environment.

The environment comprises of the biosphere: the natural world. It needs to be interfered with in such a manner that it would sustain humanity not just today but for generations until the planet Earth is habitable from the processes of the Solar system.

## RURAL DEVELOPMENT IN DEVELOPING COUNTRIES

Published on October 21, 2019 The Conservative Libertarian Society Consultancy Services:

To consider environmental sustainability the best strategy is to encourage integrated farming in relation to the wider economic systems that encourage small holdings in mixed farming systems. There is a place for larger commercial agricultural businesses to meet the urban demand with mechanised farming in association with national and multinational governmental and business institutions but what they provide and recommend are harmful to the interests of poor village populations in developing nations leading to suicide rates in countries as we know happens in India. Nations need to revert to less globalised and instead focus on national development that draw on the natural resource endowments of individual countries.

Small-scale farmers should only address the food requirements of their families and local markets, and not to national urban populations so that they derive incomes to meet those needs that they cannot meet themselves in production. Ambition to generate wealth for themselves is a capitalistic outlook that is not suitable for sustenance of these poor people. These farming populations need to stay in their villages not get digressed into formal education so that they do not get confused with support that is guided and imposed upon their agriculture by non-governmental organisations and government specialists drawing upon knowledge gained in universities and colleges suited to commercial farming and which bear no relation to the needs of the poorest rural populations. The decades-long trend for these farmers to move to cities and get hooked on commercialism instead of learning sustainable farming within the rural environment must be reversed. What happens is that small-scale farmers confused with such advice try and mimic what commercial farmers do which fuels their drive to move to large cities depriving rural farmers of labour and making these farmers dependent for their livelihood to the demands of the urban markets. The support such small scale resource-poor rural farmers need is different to that required to cater to export markets of the western developed nations for which commercial farming systems need to be relied upon in national policies.

Consumerism is a symptom of capitalism and destroys both the natural environment and the traditional cultures of peoples. These cultures evolved over thousands of years in India especially so that the knowledge of how to manage ones surroundings in a sustainable manner is obliterated. The attitude of the ruling classes these days is to regard national development through urbanisation and concomitant education of the urban populations leads to despair for the rural poor as they cannot compete with the commercial farmers leading therefore to the suicides that has been reported in farming resource poor rural populations. This trend is the result of national development to mimic the western developed world and leads to environmental catastrophe when millions of farmers want to get rich rather than lead austere lives. I know it is hard to accept this reality check by the urban rich who are dependant for their survival on adequate food produced by farmers. So they try and force farmers to adopt modern techniques which are not all suitable to the land and water endowments that the rural poor live under. It would lead to soil degradation and shortage of water in underground aquifers.

Need I go on?

I am writing about the future direction of agriculture in developing countries before the world faces environmental catastrophe from globalisation that has an impact on the conditions of resource-poor farmers.

## INDEPENDENCE AS IT RELATES TO SUSTAINABILITY

Published on October 22, 2019 The Conservative Libertarian Society Consultancy Services:

Have any of you read my article on <https://shanpanigrahi.simplesite.com> on Independence as a concept? One cannot have independence even if one is single and does not live like a hermit or a recluse with lots of money to buy what he or she needs. If one is a married under marital vows one has to listen to one's spouse and accommodate her cherished values I feel, so I gave in and kept my marriage under an agreement of dos and don'ts imposed on me to curtail my freedom. If one is part of a State, likewise one has to accept the fundamental bases of that State even if one does not like what it discharges upon oneself. This is also what Boris Johnson is finding out for himself. He cannot have it all his own way and neither can I. It goes beyond that too. If one is part of a superstate, again one is confined to the fundamentals of that superstate, in this case the European Union for the United Kingdom or should I say England. So is the Union with the rest of the United Kingdom including Scotland and Northern Ireland important to Her Majesty the Queen who I feel sure does have a voice in all of this but does not disclose the means through which she makes it count, perhaps through the Supreme Court Privy Council arrangement from my experience.

It goes even further than that. If one is a global player concerned about poverty and war in other nations, one can only do so much and leave it alone. That is why I have rested my case on the Gaza Humanitarian Crisis.

Further, if one is concerned about climate change and the planet Earth, one follows the Gaia rule of accommodation which will run counter to State and family commitments.

And finally, if one believes in God, one has to be concerned about morality and not sinning or the afterlife that is desired will not happen for the individual unless one follows the path outlined by God and there are thousands of these holy paths to choose from.

My impression is that if one serves God through the appropriate path that is self-determined because there is no agreement on which Holy Book one should follow, one survives with ones dignity intact. It means that if one serves God's commandments for humanity implicit or otherwise imparted through Holy Books and Messengers, one would have adapted perfectly to one's environment and achieved all that one is capable of doing as determined by ones genetic potentials.

In my experience the commandment of God that one should test is the sanctity of truth in all that one does in order to test whether indeed truth in one's thoughts and actions prevails.

For the attention of the Judge.

CC: 1st Claimant and 1st Defendant, also Medway County Court which the Claimant No. 1 regularly harasses.

WHAT YOU WOULD LIKE THE COURT TO DO

1. Grant the sister Miss Meera Panigrahi of the Claimant No. 1 her wishes, namely "arrest [Claimant No. 1], lock [Claimant No. 1] up and this time throw away the key. In practice, this means have him sectioned and moved to a lunatic asylum for a 6-month observation period.

2.. Recommend that Mr Shantanu Panigrahi, of 3 Hoath Lane, Wigmore, Gillingham, Kent, ME8 0SL is declared a Vexatious Litigant and therefore prevented from harassing more individuals. According to this schedule the number of victims of Claimant No. 1 already exceeds ONE THOUSAND (identified) persons:

Subject: Shan you had better listen.... or not

Too long for Facebook.

I read your new web garbage with growing horror. Is Rashmi [WIFE OF CLAIMANT No. 1] asleep?

I was overjoyed when they shredded your Wordpress web garbage. From where did these new abomination come?

Shan sit upright pay attention and listen. You call your excellent wife a kutia [BITCH], I would take off my chappals

[SANDALS] and beat your ugly face into a pulp, and that would only be the beginning. The very fact that you are trying to appeal this decision for the Prime Minister indicates you are mad. Totally mad. You say they have faked all this evidence against you. Who knows what the judges will believe when even your sisters believe you to be hundred per cent guilty of fraud, lying, intimidation, blackmail, sexual misconduct and much more. In your London Court there is a good chance they, whoever they may be, may be setting a trap for you (good). You go there, they arrest you, lock you up and this time throw away the key. I cannot even say I would be unhappy.

Rupa, not Shantirupa, [DAUGHTER OF CLAIMANT No. 1] would cry out to Lord Ganesa [GOD] in thanks. Only poor, foolish Rashmi might shed a tear. Your madness is partly responsible already for two deaths in our family, plus papa's broken heart in disappointment. Now you chootia [OBSCENITY] bhai [BROTHER], shut up, close down your web garbage, to call it a site is a mistake, hold your ears, crouch in the corner for twenty years maintaining silence. I will even send this to your VOPA, wish them luck and send them a donation so they can beat you better. Rakshasa [DEVIL] Shan, you are not even worth spitting at. Rashmi, divorce this gaanchodh [OBSCENITY] as soon as you can, and deny him all access to Rupa and, more important to him, further money.

LINK 2 - FORM N1 OF CLAIMANT No. 1

Brief details of Claim

This Claim is brought for compensation and damages suffered by me as the Claimant against the Prime Minister of the United Kingdom Mrs Theresa May for her failure in her duties to consider my defence against a vitriolic attack launched at me to her by an organisation calling itself Victims of Panigrahi Association (VOPA) but which in reality was set up to harass and intimidate me to make my life near impossible in the United Kingdom through state-sponsored criminal anonymous emails to me; and by her overseeing the state-persecution of me through the National Health Service. This failure in conducting the Prime Minister's official government business through due diligence was indicative of her negligence, incompetence or downright malicious prejudice against me as the

Claimant. She did not even acknowledge the representation that I made through an open letter at my website: <https://shantanup.wordpress.com/2018/08/26/an-open-letter-in-my-defence-to-prime-minister-of-the-united-kingdom-mrs-theresa-may/#comments>.

#### Particulars of Claim

VOPA is a persecutory organisation that sent me criminal anonymous emails over the past 11 months and made a representation directly to the Prime Minister at the Administrative Office of 10 Downing Street and through Ms Christine Worsley of Her Majesty's Court and Tribunal Service which represented vitriolic attacks on my character and mental disposition as a perfectly sane human being. Its actions were intended to destroy my reputation and make living in the United Kingdom a nightmare for me. This organisation's activities were state-sponsored as evidenced by the lack of Police action to my repeated appeals for the criminals to be identified and prosecuted for criminal harassment.

It is hereby alleged that the Prime Minister failed in her duties through negligence, incompetence or deliberately malicious intent (consistent to her responses to my representation to her while she was Home Secretary) to get her to outlaw VOPA as a terrorist organisation and get the Police to prosecute its secretive personnel. Further, she ignored my plea for defence consideration against these scurrilous attacks to be taken from my website <https://shantanup.wordpress.com/diary-2/> that I brought to her attention and failed to ask the Lord Chancellor to whom I had complained about the Courts not administering a lawful Hearing to hear my Case to take appropriate action on my behalf. The Prime Minister thereby obstructed justice and caused me further suffering to what I had endured over the past 19 years in the United Kingdom through the UK State's manipulation of the National Health Service to enforce mental health treatment on me when I am a simple satya-advaitist Hindu practicing truth accommodation; which is not a medical disorder requiring the anti-psychotic and anti-depressant medication that was forced upon me by the UK State. This plea she ignored because she had overseen the state-persecution as the Home Secretary once and as the Prime Minister who was now in charge.

I am therefore seeking substantial damages from Mrs Theresa May for her dismal attitude towards me. Whilst I consider that the financial reparations that I am demanding should be in the millions of pounds, I cannot afford the Court Fee for such a Claim amount and am consequently forced to apply for only £3,000 in the hope that the Judge presiding would use his or her discretion to award me the higher amount of damages and compensation. Completing a Fee Remission Form is not appropriate because I do not have any access to my wife's financial resources and other assets, and my only other surviving relatives, two sisters living in India, Soumya (Pandya) and Meera, have turned against me.

#### Appellants Notice

State why the Judge who made the order you are appealing against was wrong

The Judge did not give me the opportunity to question the perpetrators of dastardly criminality who manipulated the Legal Ombudsman and the Solicitors Regulations Authority into obstructing justice as evidenced by the fact that my Blog [shantanup.wordpress.com](https://shantanup.wordpress.com) was archived and suspended to prevent people around the world reading my journalism of how the UK State persecuted me over 20 years through the use of agents overseas and at home, including the Mental Health Authorities who are singled out for punishment because of its misdiagnosis of my mental health condition that was explained on numerous occasions as being the religion of satya-advaita or truth accommodation.

What are you asking the Court to do?

It is ordered that the UK Treasury pay the Claimant £15 million in damages and compensation for the destruction of a promising human life over 20 years of failures in the Law Enforcement processes.

State the evidence you wish to rely on.

The Mental Health authorities and the wider National Health Service in complicity persecuted me over 20 years with pointless interrogations and enforced incarcerations in mental hospital and in the Community through implicit semidetention by drug enforcement despite numerous protests that I had been victimised by the UK State by criminal anonymous emails that were then used to refer me

to a Forensic Psychiatrist as shown in the document submitted to the Court by email on 15 August 2019. These issues were discussed with the Surgery of Dr Shah at Long Catlis Road on 15 August 2019 during a specific appointment to discuss the preliminary Appellants Notice of 7 August 2019 that was returned to me by the Civil Appeals Office for directing to the County Court at Central London with a cheque for £240 that was enclosed. The correct fee that the Civil Appeals Office should have advised me was £120. This shows that Mr D Jenkins of Queens Bench Appeal Court had given me the wrong directions akin to the prevarications on my Claim to the Queens Bench of the High Court for the appeal of Master Eastman's striking out of the Claim against Kent Police and co-conspirators during 2017.

The Solicitors Regulation Authority has refused to provide a reply to the complaint against the Legal Ombudsman and numerous lawyers and law firms, the latest evidence for which was submitted to the Court by email on 15 August 2019.

The Appellants Notice referred to the Central London County Court was copied to the Prime Ministers Office and Wordpress with regard to its misdemeanour in acting on the direct instructions of the Mental Health authorities to disable my Blog <http://shantanup.wordpress.com>. to prevent my journalism and lifetimes achievements in science and religion from being accessed by the population of the world after I had maintained my work over several years without any complaints from Wordpress. It is alleged that the sole purpose of this act was the wanton destruction of a human beings life from intense State-organised persecution.

Hello Jo

Just thought I should say that the present uncertainties are still very discomfoting for me and I am in a terrible state not knowing if my medications will be changed and by when. In the meantime, I am being harassed again by Wordpress as shown below. Not satisfied with disabling my journalistic Blog <https://shantanup.wordpress.com>, they are complicating matters for me by these demands for \$200 for reconsideration of its decision to suspend my work on World Conservation.

I have not received any confirmation from the Central London County Court on whether Wordpress is liable to civil litigation in this country, and so will not be attending the Hearing on 3 April 2020 at 2.00 pm at the Court. This is because I decided on the balance of probability that I would rather forego my entitlements of £15 million from State-organised persecution to be met from the UK Treasury to continue to live in the Community with mental health medications that are anti-psychotic and anti-depressant in nature than travel to London to a Court that has no inclination to consider the merits of my Claim, because the Court itself is State-organised to persecute me. The Judge may direct me to another Court that could be a Magistrates Court for contempt of court or classify me as a vexatious litigant. I am highly paranoid that the Courts will do this because of what I have blogged and tweeted about the Judges engaged in my persecution over 22 years.

I am still awaiting a telephone call from Dr Odesanya or Chris Easton in this regard as I have just spoken to both Dr Mawanche at the GP Surgery and Canada House. No letters have come after I fully complied with the latest Care Plan that is attached [FrDrOdesanya(CAREPLAN)14Jan2020.docx] and no referral to Maudsley Hospital for autism care has been made.

Who can I now turn to I do not know, as I refuse to turn to God. He created the world and I live in it not outside in his arms.

Please help me with emotional and psychological words to soothe and calm my nerves.

Yours faithfully

Shantanu (Panigrahi)

SHANTANUP. Make remittance, then write, thank you.

We made it clear as the crystal that it is a reconsideration fee and does not guarantee restoration.

Communicating with junior staff unaware of a fast-track process for restoration has not assisted but harmed your chances of success.

You write of suing Wordpress, Inc. "under E35YM660", which we do not understand either, apparently because we removed you for multiple breaches of our Terms of Service. Why are you copying in two UK Courts into this correspondence? We remove them.

You paid nothing for our service. You have no grounds to sue the corporation. Any claim by you will be robustly defended and a full order for costs sought. If Wordpress, Inc. finds that you have made derogatory statements about our company, we will recommend you be sued for slander of goods.

Finally, "Zara" is the name we use for automated and semi-automated responses. My surname is not Broadley-Johns and I am not a solicitor.

Further correspondence with you does not serve any further process. Either make the remittance to restore@wordpress.com, or cease communication. Unsolicited correspondence except as above from you that is received by us will attract a non-refundable charge of \$200 per item of correspondence.

SUMMARY - Dr SHANTANU PANIGRAHI must be declared a VEXATIOUS LITIGANT NOW.

Pass this email on as needed.

Sirs,

IN THE MATTER OF Case E35YM660 on 3 April 2pm 2020 at Central London County Court (SHANTANU PANIGRAHI once again abusing the justice system and using it to harass and intimidate) Our monitoring organization VOPA has been forwarded by one of the staff at the Government Legal Department an electronic communication (see lower down) re the the insane "Doctor" Shantanu Panigrahi trying to sue a, or the, Prime Minister of the country. Like most matters concerned with Panigrahi, it is not clear.

Shantanu Panigrahi apparently believes it is acceptable to offer bribes to government lawyers to throw the government side of his inmeritorious action E35YM660, a 30 minute oral appeal disposal hearing on 3 April 2020 2pm at the County Court of Central London, in his favor, and from this crime net about \$20,000,000. Whether or not he intends it as a joke, and doubtless he uses cloaking to afford him deniability, this cannot be permitted.

I take due note that in addition to VOPA, the madman refers to David Jenkins in his statement of claim. Jenkins is an innocent clerk serving at the RCJ, his misfortune some years ago was encountering Panigrahi.

I am a citizen of India holding a minor administrative position in its Ministry of Home Affairs, and I travel to London for liaison, with staff at the High Commission, in relation to NRIs. I became aware of the operations of this Panigrahi when he made an asylum application to Pakistan, surrendered his UK citizenship and attempted to threaten and then litigate with the High Commissioner for India on spurious grounds and ignoring that he enjoys immunity due to his status as an accredited diplomat. Thereafter, an association (VOPA, Victims of Panigrahi Association) was formed which identified more than one thousand of his victims since 2003

> <https://groups.google.com/forum/#!topic/alt.true-crime/fDWnQDwRboQ>

as Panigrahi himself acknowledges proudly.

In our country, a twice-institutionalised madman like Panigrahi would not be permitted to still run amok disturbing the peaceful, lawful operation of innocents. How long do you tolerate him with your lackadaisical attitude?

Panigrahi is a "person of interest" to Bhubaneswar and Cuttack Police in India due to his activities when visiting there. But please keep him in UK as part of reparations for colonial rule, India has sufficient madmen already.

Preferably, given his asylum status in all senses of asylum, deport him to Pakistan.

VOPA intends to be represented by counsel amicus curiae at the April 3 hearing, for which it has applied for permission craving an exception as, though lacking standing, the claimant repeatedly mentions VOPA in his filings.

I advise this hearing is also used as a pretext for apprehending Panigrahi. He is unlikely to turn up, as my correspondent noted Panigrahi intends to attend the RCJ in London EC1 not London WC2A.....

Why has he not yet been declared a Vexatious Litigant? In India since 2016, bringers, like Panigrahi, of frivolous and vexatious litigation now face punishment and a form of judicial castration. You have had this provision for decades, but have not used it. Why?

To contact me formally, please do it via <https://shrutidesai.in> quoting reference "SIVAJI".

Yours respectfully,

Sivaji Panesar (Dr.)

Before HHJ Skelton, striking out the erroneous decision on January 14, 2019 by DDJ Smith

SEE underneath this email for the NOTICE OF HEARING and most importantly MY N1 CLAIM FORM. I am self-representing ie, a L.I.P.

While on reading it you can see I am definitely winning this case, I am only eighty per cent confident I will get near the full amount of Fifteen Million Pounds I am claiming from HMG / HMQ.

But with your cunning assistance, guided by me, I can make that near certainty. I can get you assigned to the case, your colleague Bartlett (T) is an idiot.

Please contact me privately by telephone re this delicate matter, in the strictest confidence. Later you can come to Gillingham (Kent) for a meeting. In return for you doing as I direct, I will pay you Seven Hundred and Fifty Thousand Pounds from my winnings, discreetly of course to an off-shore bankacc

I will set up for you in Nassau or Douglas.

Delete this email after you read it and you note down and keep the case number, phone number, my web address <https://www.shanpanigrahi.co.uk> and here is a scheduling of my current legal victories against my oppressors:

at the County Court at Central London, R.C.J, Thomas More Building, Royal Courts Of Justice, Strand, London, WC2A 2 LL

N1 Claim Form

Brief details of Claim

This Claim is brought for compensation and damages suffered by me as the Claimant against the Prime Minister of the United Kingdom Mrs Theresa May for her failure in her duties to consider my defence against a vitriolic attack launched at me to her by an organisation calling itself Victims of Panigrahi Association (VOPA) but which in reality was set up to harass and intimidate me to make my life near impossible in the United Kingdom through state-sponsored criminal anonymous emails to me; and by her overseeing the state-persecution of me through the National Health Service. This failure in conducting the Prime Minister's official government business through due diligence was indicative of her negligence, incompetence or downright malicious prejudice against me as the Claimant. She did not even acknowledge the representation that I made through an open letter at my website: <https://shantanup.wordpress.com/2018/08/26/an-open-letter-in-my-defence-to-prime-minister-of-the-united-kingdom-mrs-theresa-may/#comments>.

Particulars of Claim

VOPA is a persecutory organisation that sent me criminal anonymous emails over the past 11 months and made a representation directly to the Prime Minister at the Administrative Office of 10 Downing Street and through Ms Christine Worsley of Her Majesty's Court and Tribunal Service which represented vitriolic attacks on my character and mental disposition as a perfectly sane human being. It's actions were intended to destroy my reputation and make living in the United Kingdom a nightmare for me. This organisation's activities were state-sponsored as evidenced by the lack of Police action to my repeated appeals for the criminals to be identified and prosecuted for criminal harassment.

It is hereby alleged that the Prime Minister failed in her duties through negligence, incompetence or deliberately malicious intent (consistent to her responses to my representation to her while she was

Home Secretary) to get her to outlaw VOPA as a terrorist organisation and get the Police to prosecute its secretive personnel. Further, she ignored my plea for defence consideration against these scurrilous attacks to be taken from my website <https://shantanup.wordpress.com/diary-2/> that I brought to her attention and failed to ask the Lord Chancellor to whom I had complained about the Courts not administering a lawful Hearing to hear my Case to take appropriate action on my behalf. The Prime Minister thereby obstructed justice and caused me further suffering to what I had endured over the past 19 years in the United Kingdom through the UK State's manipulation of the National Health Service to enforce mental health treatment on me when I am a simple satya-advaitist Hindu practicing truth accommodation; which is not a medical disorder requiring the anti-psychotic and anti-depressant medication that was forced upon me by the UK State. This plea she ignored because she had overseen the state-persecution as the Home Secretary once and as the Prime Minister who was now in charge.

I am therefore seeking substantial damages from Mrs Theresa May for her dismal attitude towards me. Whilst I consider that the financial reparations that I am demanding should be in the millions of pounds, I cannot afford the Court Fee for such a Claim amount and am consequently forced to apply for only £3,000 in the hope that the Judge presiding would use his or her discretion to award me the higher amount of damages and compensation. Completing a Fee Remission Form is not appropriate because I do not have any access to my wife's financial resources and other assets.

#### Appellant's Notice

State why the Judge who made the order you are appealing against was wrong

The Judge did not give me the opportunity to question the perpetrators of dastardly criminality who manipulated the Legal Ombudsman and the Solicitors Regulations Authority into obstructing justice as evidenced by the fact that my Blog <https://shantanup.wordpress.com> was archived and suspended to prevent people around the world reading my journalism of how the UK State persecuted me over 20 years through the use of agents overseas and at home, including the Mental Health Authorities who are singled out for punishment because of its misdiagnosis of my mental health condition that was explained on numerous occasions as being the religion of satya-advaita or truth accommodation.

What are you asking the Court to do?

It is ordered that:

- (a) the UK Treasury pay the Claimant £15 million in damages and compensation for the destruction of a promising human life over 20 years of failures in the Law Enforcement processes.
- (b) Justices Eady and Eastman must be flogged on their privates, and all of the following are prosecuted:

State the evidence you wish to rely upon

All at my blog <https://shantanup.wordpress.com> (disabled).

The Mental Health authorities and the wider National Health Service in complicity persecuted me over 20 years with pointless interrogations and enforced incarcerations in mental hospital and in the Community through implicit semidetention by drug enforcement despite numerous protests that I had been victimised by the UK State by criminal anonymous emails that were then used to refer me to a Forensic Psychiatrist as shown in the document submitted to the Court by email on 15 August 2019. These issues were discussed with the Surgery of Dr Shah at Long Catlis Road on 15 August 2019 during a specific appointment to discuss the preliminary Appellants Notice of 7 August 2019 that was returned to me by the Civil Appeals Office for directing to the County Court at Central London with a cheque for £240 that was enclosed. The correct fee that the Civil Appeals Office should have advised me was £120.

This shows that Mr D Jenkins of Queens Bench Appeal Court had given me the wrong directions akin to the prevarications on my Claim to the Queens Bench of the High Court for the appeal of Master Eastman's striking out of the Claim against Kent Police and co-conspirators during 2017.

The Solicitors Regulation Authority has refused to provide a reply to the complaint against the Legal Ombudsman and numerous lawyers and law firms, the latest evidence for which was submitted to the Court by email on 15 August 2019.

The Appellants Notice referred to the Central London County Court was copied to the Prime Ministers Office and Wordpress with regard to its misdemeanour in acting on the direct instructions of the Mental Health authorities to disable my Blog <http://shantanup.wordpress.com>. to prevent my journalism and lifetimes achievements in science and religion from being accessed by the population of the world after I had maintained my work over several years without any complaints from Wordpress. It is alleged that the sole purpose of this act was the wanton destruction of a human beings life from intense State-organised persecution.

Dear Dr Odesanya,

Re: Patient Shantanu Panigrahi (dob 15/01/1957 nhs 6284771487)

Hereafter referred to as Mr P.

Further to the February 3 consultation with Mr P, it is unfortunate that the secure detention unit planned for 2-4 Hunter's Way West, Chatham, ME5 7HL failed planning permission, for this could have been an ideal habitat for him during the extended and foreseeable 24/7/52/20 observation period, and close to his family's residences (W,D).

For Mr P, treatment can only be palliative. Rehabilitation is infeasible, very unlikely and uneconomic. Paranoid schizophrenia is generally not curable. Mr P's antisocial and vocal misconduct over 20 years means a unit such as the Darland one would have been ideal. Noise, disturbance and a perception of fear within the community, thus resulting in a significant adverse impact on the quality of life and loss of amenities of those surrounding the site and wider residents of the semi-neighbouring community. Tall boundary fence (3m electrified and secondary 4m boundary enclosure), manned gates, CCTV and airlock systems to prevent escape via ventilation systems and any insecure non-

oragory roof are needed. The presence of Mr P would trigger community questions like-If it is a secure institution are the occupants capable of breaking out? Would they try to break in to our houses? Bearing in mind that Chatham Grammar for girls is close by, would children feel safe to go out to play?

My colleague Mr Harvey Gordon, from SLAM (South London and Maudsley NHS Trust) who like me has worked at Broadmoor Hospital, would probably benefit from an opportunity to observe Mr P over an extended period of years. He is an honorary lecturer in forensic psychiatry at the Institute of Psychiatry, and Mr P would no doubt make a wonderful "guinea pig", a term he used himself. From the initial assessment, Mr P's morbid, delusional and irrational jealousy, the 'Othello syndrome', is a major component of his mental illness. It is an amalgam of separate psychopathologies each with its individual diagnosis (Shepherd, 1961). Because Mr P secretly views almost everyone as being superior to him, and more successful and happier than him (he is a D- on the Horsefelder index), and his modest PSC (perceived social class) in the UK, the resentment triggered is correspondingly pronounced. See 'Social Class and the Prevalence of Handicapping Conditions' (1990), by Bob Heyman, Brian Bell, Liz Handyside and myself.

The onset of psychosis is at least 10 years ago. Once sectioning, securing and preliminary observation of Mr P are complete, Mr Gordon and I will report to you with our prognosis. Deprivation of internet access will also deprive Mr P of his ability to forge "criminal anonymous" emails and create defamatory websites, two of his attack methods. Forging his own identity, while bizarre, indicates the depth of his psychoses.

I had dismissed the people sending us information about Mr P as trolls, but when I looked further into what this Prof. Nitin Bhardwaj (evidently a clinician, but using a false name) contributed, I realised that their material is valid. The so-called Victims Of Panigrahi Authority (VOPA) sent me an archive of his former website and I am amazed Mr P has not been arrested long ago.

His recent material is little different - this is extracted by me just last week, and merits careful study. It is fair that I have hitherto never encountered the likes of Mr P.

<https://www.shanpanigrahi.co.uk/444939440> etc (26 January 2020) (begins)(title)Court Hearing on Claim E35YM660 on 3 April 2020 at 3 pm(/title) I am sorry that my email to Dee@samaritans was not delivered, whoever dee is, whether she is part of the Samaritans or if that was indeed another one of the criminal anonymous email that I have been plagued with ever since I appealed against the striking out of High Court Claim No. HQ17X01773 at the Queens Bench Division against Kent Police by Master Eastman for which I was seeking £0 million in damages and compensation from Kent Police. The State of United Kingdom should come and get me with proceedings now as I am neither going to attend these meetings, nor attend Court on 3 April 2020 at 2.00 pm because of the lack of clarifications provided to me by the authorities on both proceedings. The timing of the start of this persecution from State authorities coincided with that Appeal and I have since received around 2,600 criminal anonymous emails that are designed to obstruct justice and pervert the course of justice besides being terroristic activities. In civil proceedings where the criminals are cornered they continue to try and disrupt the litigation through manipulations of interactions between the Claimant and the Defendant. These need to be ignored and the mind focussed on the Hearing itself by identifying the essential task that needs to be accomplished. I look forward to my day in Court in front of a Judge on 3 April 2020 at 2.00 pm as I have nothing to be ashamed of. I have sought the truth with the actions that I have taken always. From failure to secure justice, I resorted to exposing the corruption of the policing and judicial processes over the past 22 years in my Wordpress Blog. This was disabled unlawfully. The Prime Minister has a duty to ensure that free speech is maintained through appropriate legislation and my 180 petitions at 38 degrees should have been considered. It will then be for the Court to decide if my Wordpress Blog should be restored or further Hearings held given that the Prime Minister and Wordpress have not replied to my juridical tweets. I have had a further reconsideration of my application for Reconsideration of Permission to Appeal in Claim in Claim E35YM660 with reference to previous communication with the Samaritans. I consider that having due regard to the available evidence for the non-existent jurisdiction of the UK court system

to consider the issue of the restoration of my Blog shantanup.wordpress.com that I do not wish to incur any more costs in pursuing the Claim, especially since the organisation Victims of Panigrahi Association (VOPA) could not be identified by me despite considerable efforts of employing lawyers and Kent Police. I have now therefore decided not to proceed with my Claim any further and am therefore withdrawing my 8 November 2019 application. I sincerely hope this does not cause an inconvenience to the Court and the Parties concerned. My decision has not been taken lightly and I am particularly concerned about its toll on my mental state with my next treatment objectives for mental disorder to be clarified for which strychnine and clozapine administration has been recommended by the Consultant Psychiatrist Dr Odesanya and the ensuing referral to the dirty torturers at Maudsley Hospital London for autism diagnostic services. I accept these decisions of Canada House to pursue the medical avenue as a priority. I apologise unreservedly for having wasted your court's time and for any misapprehensions that I might have insinuated in the past against Her Majesty's Court and Tribunal Service and its rapist officials through my emails or publications in various means. So please acknowledge receipt of this email without undue delay, preferably by email so that I can inform the other parties of your decision on whether to accept this representation or to administer the Appeal as you have planned. The Judge will no doubt take that into account when I see him or her on 3 April 2020 at 2 pm at the Central London County Court, Thomas More Building, Royal Courts of Justice, London. It would be my contention that these terroristic emails were organised by the security services of the United Kingdom and the Police is now covering up by pretending that it cannot trace the senders of these emails. So Kent Police will be forced to appear in Court no matter how long this takes, this much I am at the present time determined to pursue. The Claim is now £0 million under E35YM660 that I had to initiate because David Jenkins of High Court Appeals thwarted my Appeal of that Order from Master Eastman and the criminal anonymous started to smash that process with Mr Sivaji Panesar of the Indian Ministry of Home Affairs through which I was persecuted about my citizenship status and subjected to the preliminaries of being classified as vexatious litigant through the Attorney General. Further the Court of Appeal prevaricated on my Appeal under Our ref: 2018/PI/11721. The matter went to the Supreme Court who sought guidance from the Privy Council before dismissing the Appeal without full written reasons. These matters were brought to the attention of several Prime Ministers, especially Mr David Cameron through his cabinet office and later to Mrs Theresa May both of whom were guilty of dismal attitudes to my suffering that started 22 years ago with legal proceedings at the Industrial Tribunal at Ashford against the University of Greenwich which was followed up with Claims for reputational damage under ME010463 at Medway County Court. Under Mrs Theresa May and Mr Boris Johnson the security services were asked to terrorise me through continued criminal anonymous emails for which a fictitious organisation was created calling themselves Victims of Panigrahi Association because I had blogged the entirety of my persecution from the secretive establishment of the United Kingdom in my Wordpress Blog shantanup.wordpress.com. The Blog was disabled and archived and suspended under the orders of COBRA manipulating Wordpress, not by Canada House Psychiatrists who are evil monsters deserving only of slaughter and torture (David Gauke). In accordance with my discussion with Colin in the Family and Civil Service Line based in Leicestershire at 10.35 am this morning and his Mobile phone text below following his verbal clarification that a judge will only be appointed on the day of the hearing by the Court, I am hereby making a short notice application to a circuit judge, as allowed for in the Notice of Hearing Listing Policy that I have received in the post, for adjournment of the oral Hearing because 30 minutes is not sufficient to consider and cover the full extent of the submission for reconsideration of the application to seek permission to appeal in view of the national and international dimensions to the case; and further to transfer the full Hearing to Medway County Court as I am coming from Gillingham in Kent for the Hearing and I am disabled on anti-psychotic and anti-depressant medications that need to be taken according to the doctors advice and stipulations at the Canada House Crisis Team for my mental condition of persistent delusion disorder combined with tentative suggestions of autism. I am not represented at this Hearing and there are no witnesses who have

agreed to attend the Hearing on my behalf as Claimant, they all said I was mad. These are the reasons for requesting adjournment of the Hearing and the simultaneous transfer of Case to a court near my home in Medway Kent. Colin assured me that there are no reasons that my Hearing will not start on time at 2 pm, and I am satisfied with that so will attend unless the Hearing is postponed in the meantime and transferred to Medway County Court for my convenience. Your consideration of this application without undue delay will be greatly appreciated and please let me know if I need to pay a court fee for this short notice application on the day of the Hearing. For 22 years the State-persecutors denied me a fair Hearing that I could attend for these were set up as kangaroo courts to rubber-stamp the decision of the Prime Ministers concerned through the Parliamentary process of consulting Her Majesty the Queen through the Privy Council. So I feel depressed with this realisation for it has fractured my marriage to Rashmi who would not believe my allegations and still thinks that I should have apologised to the University of Greenwich and attended their whorelike kangaroo court to plead insanity in being judged to have been blameworthy of gross misconduct by the University. The countries that I sought asylum in were likewise manipulated through the Commonwealth and the European Union to deny my refugee status and the State deliberately incarcerated me in mental hospitals for two periods of time. I took the matter of my Indian passport to the Supreme Court of India under Public Interest Litigation and the Prime Ministers of that country thwarted the proceedings and prevented me lawfully absconding to France via Pakistan. Similarly, the United Nations under Kofi Annan as Secretary General, and the Security Council would not listen to my pleas for justice to be dispensed towards my suffering of State-organised persecution. I truly think that this would be a good way forward. We can then do away with all the thousands of parasitic Law Firms that prey on the lives of ordinary people through false promises of legal redress that not only waste the litigants time but cause them mental anxieties as well as time and money wastage. The Solicitors Regulation Authority and the Legal and six other Ombudsmen also needs to be done away with as they are not only useless but waste of time that saw these lawyers to whom I have copied this email from escaping the charge of obstruction of justice that led to the University of Greenwich and National Health system destroy my career and my reputation. So I am sorry to myself for being such a person whose ideals could not be accommodated within humanity world-wide, through the discontinuation of the above mentioned Blog. Such is the supranational and galactic dimension to the conspiracy to render me a person with no prospects whatsoever when I have applied for 350 jobs during only the past two months nor have I had Funke Aderibole for sexual gratification as promised by M.I.5, and made no progress whatsoever that gives me the impression that the conspiracy to punish me for voicing my ideals is State-organised. All approximately 419 solicitors and law firms that I approached were manipulated against me and I was forced into semi-detention to take medications of increasing potency just to be allowed to live in the Community. I am and have been a political prisoner as I mentioned to the State Psychiatrists when I was detained in hospital by Judge Hildebrand acting under a false name, for the sixth time in 2004.

I relapsed into my struggle for justice as I acquired more knowledge of the environment and was promptly incarcerated for a second time in a mental hospital in 2008. I have known for years that I am autistic and not persistently delusional as reported in the Application for Specialist Care, as you will note from the attached Care Plan from Dr Odesanya of Canada House. I am being treated on false diagnosis of persistent delusional disorder and being prescribed an obscene list of medications and threatened with thorazine. These medications over 22 years that I have had administered in me by enforcement of recommendation of the Mental Health authorities have caused in me severe side-effects that can broadly be termed as hypoprolactinaemia. As such I need immediate referral to Maudsley Hospital so that my medications are reviewed accordingly. Therefore, please expedite this funding application without undue delay and pay me compensation for years of misdiagnosis and treatment of £million, Justice Eadey will agree. Now, on the verge of entering the Maudsley Hospital for the third and final time, as events since the 9 January 2020 Care Plan from Dr Odesanya of Canada House indicates, I do not need any emotional support from the Samaritans or Labour, only

support to voice my grievances against a State and Country that is a blight on humanity and should be nuked. That is how I feel now, and I have the equipment to do it.

Yours sincerely Dr Shantanu Panigrahi 3 Hoath Lane Wigmore Gillingham, Kent ME8 0SL Tel: 07967789619 (ends)

## EXPOSURE OF A SECRETIVE POLICE STATE

Published on February 7, 2020: The Conservative Libertarian Society Consultancy Services:

Disclaimer:

I have been asked at an appointment on 19 February 2020 with Dr Odesanya and Dr Kingham at Canada House to state that the following Report that I received did not originate from Dr Kingham and that I should either delete all references to Dr Kingham or state categorically that this publication infringes on his reputation as a respectable member of Her Majesty's State Mental Health provisions. I am happy to make this clear on this Disclaimer and apologise to Dr Kingham publicly for any inconvenience and damages to him that he has suffered as a result of this publication.

I have had a discussion with Dr Kingham that the State Police should investigate this matter and take the appropriate actions against the perpetrators of this criminal act in sending me this Psychiatric Report. I have considerable respect for Dr Kingham as a Forensic Consultant Psychiatrist following this Meeting.

Dr Shantanu Panigrahi 20 February 2020

There is a Court Hearing planned to hear my Appeal [<https://www.shanpanigrahi.co.uk/444817051>] against the striking out of my litigation against the United Kingdom State with a demand for £15 million in damages and compensation for 22 years of State-organised persecution that I endured without any kind of Hearing in front of a Judge over this period. Finally, when the State acceded to my continual exposure of this injustice through blogging in <https://shantanup.wordpress.com> initially and when the State archived and suspended this Blog to disable me and the contents so as to prevent humanity reading the details of how it operates and I set up other channels of publishing the continuing persecution it had no choice but to grant me a Hearing before a Judge thinking that the Judge would again dismiss the Claim and award costs and other decisions against me. But I collected evidence during this period and was ready to face the Judge on 3 April 2020 as I had enough time to consult and prepare for the Hearing. To scupper the judicial process, the State inserted a ludicrous appointment for me to see a Consultant Psychiatrist (against whom I complained and litigated for the Claim) with a new Forensic Consultant Psychiatrist to give the Court the circumstantially-legal legitimacy to dismiss my Claim as being delusional by virtue of the Psychiatric Report of its own criminals operating as Judges of the quasi-criminal court that is Canada House. If this 'Court of State-Policing' decides that I am to be incarcerated in a mental hospital for a third time over these 22 years for bringing the States criminals to courts and judicial establishments I would then be finally denied my day in court to enforce a judicial reasoning for striking out the Cases that I had brought to industrial tribunals and courts since I was unceremoniously ejected from my great scientific career at the University of Greenwich. That is what the State authorities are planning for me.

This is proven by the following communication that I received and probed this morning:

Dear Dr Panesar

I would dispute the findings of this Psychiatric Report as I am a perfectly sane human being going about my life with dedication to truth discovery as a scientist. I excel in this work which is a full time occupation from morning to late evening. Please consider signing this Petition as the result of all my hard work at finding out what the needs of society are as we enter a new phase in the development of the nation and of mankind on this planet.

Thank you, 00000.

Some one needs to officially inform CLCC that case E35YM660 will not be going anywhere, and can, to Master Eastman's chagrin, stay in the coffin, because the appellant claimant is going to be safe and secure elsewhere else in April, learning how to pee through his \*\*\*\*.

MedCC need to be told that no transfer is going to occur, so they too can rest easy. One should be grateful that clever Shan has fallen directly into our trap. This is working even better than I had hoped!

Please give me the contact detail for Kerry Pritchard.

Dear 00000,

Mr Kingham, who has done a marvellous job in understanding so much so quickly, is inadvertently in error. The A in VOPA we understood stands for Association not Authority.

If you misunderstand, Mr Kingham has not yet met Mr S.Panigrahi face-to-face but carried out the assessment/consultation using the links he quotes in his letter, the listing at <https://groups.google.com/forum/#!topic/alt.true-crime/fDWnQDwRboQ> and the former "word-press" blogs of the patient, accessed via <http://archive.is>. The meeting on Wed 19 should lead to the patient being invited to stay overnight for "observation". If he declines, which is likely, a Section 3 order will be issued on the spot. Dr O and Dr M will be the doctors and Mr Kingham the AMHP (Approved Mental Health Professional).

It is likely that Mr Panigrahi is aware of Section 117 and its implications, so it is possible he and even his wife might physically resist. Please make plans accordingly.

Cordially,

00000

Relevant authorities have a record of mild/medium threats published by 'Dr' Shantanu Panigrahi (ME8 OSL, 15/1/1957, NHS 6284771487) against Mr Andrew Ling. Search on an engine for SHAN PANIGRAHI ANDREW LING to locate and identify them. Ling was replaced as Chairperson last summer by Mrs Julie Nerney, who is now being referred to by the deranged Panigrahi eg at <https://www.shanpanigrahi.co.uk/445042325> as a source of the trouble he gets himself into by "declaring war on Kent MHS". Publication of the home addresses of Mr Badu, Mr Saroy and Ms Learmond on his linkedin blog cannot be viewed except as a serious provocation. Kent Police (Criminal Justice Liaison and Diversion Service) previously advised that the Northfleet Custody Suite in Gravesend may be inadequate, given the degree of neurological malfunction. Often, it is not available due to demand or frequent refurbishment necessitated by patient misconduct. Medway and Swale MHLTD team pre-assessed Panigrahi's severe longterm mental health needs to be so severe that the medium security provided at Gibbens, never mind Greenacre/Tarentfort, will not meet the patient's or staff (security) needs. Care in the community is seen in this case to be woefully insufficient and must be recorded as having failed.

Panigrahi's mental health and offending/reoffending criminal behaviors put others at a significant risk. Given Mrs Panigrahi's inadequacies in operating in loco parentis, we have little alternative to taking the next steps with a forensic dimension. His dementia is such that he can offer little in the course of a consultation/examination. I therefore counsel that when he attends on the 19th instant, he is robustly apprehended once he enters the facility and the notice served on him. An officer from the CJLDS should be on the premises, should he be needed. If he fails to attend, there is much precedent as to what we must do.

Yours

# BRAHMO-ADVAITA VEDANTA

Published on February 16, 2020: The Conservative Libertarian Society Consultancy Services:

When one seeks truth intensively and constantly one loses all one's attachments and attains freedom/liberty (moksha).

Gods, ambitions, beliefs, wishes, plans, strategies, tactics, missions, objectives, vows, promises, desires, needs, faith, hopes, anticipations, expectations, dharma (duties and righteous actions) and life itself (that is survival) are attachments that generate turmoil in the mind to makes one stressed so that one loses one's peace of mind, calmness equanimity; which are all erased when one attains truth. Only by relinquishing these attachments does one become liberated within this lifetime. And this is desirable because one is no longer concerned about one's fate and destiny either in this life or the imagined afterlife. So moksha is not something that one tries to aspire to, but is a consequence of seeking truth and accommodating oneself in the imminent and prevailing reality through non-attachment. That is the perfect state of the attainment of advaita.

It comes with the abandonment of intelligence to guide one's actions (karma) and going by truth alone as it descends into the mind for one's moment by moment thoughts that determine one's chores.

Being your own guru is a very long-term project but it ensures the solid and doubt-free realisation of the nature of the universe.

In Hinduism we revere gurus who have spent a life time investigating the nature of Reality and are there as beacons to guide humanity into a state of mind that is free of ignorance. Ignorance may be bliss to those wishing to live solely materially by the use of their intellect to deal with the uncertainties of Nature but they leave the person suffering stress (dukha in Buddhism).

Advaita is non-dual existence. Advaita can be learnt from gurus but there is nothing more informative to the mind than experiencing advaita through the process of individual investigation and thereby from 'being one's own guru'. It requires a mind that gives up all one's mundane objectives and if one is then lucky enough to have survived until the day that one's quest for liberation is fulfilled, it generates total satisfaction for one's endeavours leading up to the realisation of advaita or non-duality. The final position is Brahman, one is Brahman there is no other. Tat tvam asi. You are that if one gives up one's attachments altogether so there is nothing but Brahman. What is Brahman. It is not God, it is the totality of the universe, the Reality.

I am, however, an brahmoadvaita vedantist (qualified non-dual) practicing Brahmanism who arrived at this position through the investigative process of satya-advaita (truth accommodation) as an administrative tool. The process discovered Brahman-Nature and its wherewithals. My religious philosophy is one of non-attachment to all material and spiritual concepts: only truth is the guide. How does one attain truth: by total non-attachment even to truth. Whatever fate one ends up with is the truth, a self-fulfilling prophecy. That is the state of mind of a brahmoadvaita vedantist.

Brahmanism is a religious philosophy because it has Creator God Sri Krishna as the Creator of Brahman-Nature in which three gods exist as Brahma, Vishnu and Shiva (with their consorts Saraswati, Lakshmi and Parvati respectively); denoting sattvic, rajasic and tamasic gunas in Nature. Being sattvic (divine) I identify with Brahma and hence Brahmanism is the religious philosophy.

Brahmanism means doing whatever one needs to do to seek knowledge through truth as perfected by developing awareness. It is achieved by focussing the mind in nothing and allowing thoughts to come in for action. This is the meaning of Truth Prevails where one sacrifices one's intellect and relies

on truth-awareness as the guide on the basis that truth comes from Brahma; and that truth wins as in Satyamev Jayate.

A Brahmoadvaita vedantist is in contrast to Vishistaadvaita vendantist and I believe that evil people of animals and plants exist who could be described as being Shaivaadvaita vedantists. The latter two are attached to dharma as variously defined. This needs study.

On the other hand Advaitists (non-dual) are strong atheists and are at one with Brahman-Nature discounting a Creator altogether and are attached to Brahman-Nature in their contemplation that there is nothing other than Brahman-Nature.

WHO CAN BE A BRAHMOADVAITIST? Anyone can be a brahmoadvaitist. All one must do is to pursue truth at all costs, then one will find God through Brahma, who protects all who seek truth and knowledge and assists the person in all his truth discovery work such as giving him or her knowledge of Nature and how to cope with its complexities as one navigates one's path to one's fate and destiny which are always unknown. The process of satya-advaita generates peace of mind and determines one's karma as one's only dharma that is enacted. All you need to do is be pure-hearted and honest with all your dealings and have no attachments to anything.

KARMA AND DHARMA TO A BRAHMOADVAITIST For a brahmoadvaitist who is not attached to concepts like karma and dharma as actions to perpetrate duties and righteous objectives, dharma is what results from one's actions (karma) when one pursues truth. What is truth? Truth is that which descends on the mind when one is totally still in thoughts and therefore not attached to anything whatsoever. The accomplishments that are the result of this process is the product of brahmoadvaitic oneness with Reality. Nothing matters to a brahmoadvaitist. One is aloof. There is no joy, no tears with the turn of events. One may appear hard-hearted to others. That is the only way the brahmoadvaitist knows to learn the truth. It results in perfect actions (karma) and defines dharma.

A brahmoadvaitist can survive against all odds by the process of truth accommodation: that is the perfection of Creation by God Sri Krishna in the construction of Brahman-Nature. A brahmoadvaitist is without fear as nothing fazes him or is important to him. He just has the right tools of truth-acquired karma to guide his moment by moment activities as he navigates Brahman-Nature and survives another moment until his life is snuffed out of him through living the extent to which his genes permit.

Accordingly, I do not take any credit as I do not exist, only Brahma exists in me. I am Brahma and we live in Brahma-Nature that we accommodate into our thoughts and intellect when we discuss Brahmoadvaita. The brahmoadvaitist therefore does not use his or her intellect to guide his actions (karma) but truth alone. It charts the living conditions that is then experienced. Stillness of the mind is bliss and the experience is satchitananda.

Notwithstanding, the transcendental state relinquishes all attachments to concepts that are based on intellectual analyses and lives to truth, which is satya except that the word truth also implies intellectual truths and that is not transcendental. The transcendental truth is Om. For even being a brahmoadvaitist is attachment to a concept that does not identify the truth path. Even consideration of truth paths as a thought or practice is attachment to a concept. So it is also rejected by the transcendentalist.

I am transcendental existence arrived at through the truth process of satya-advaita (truth accommodation) as the yoga employed in the attainment of Realisation.

## THE UNDERLYING CAUSE OF WARS AND CONFLICTS

Published on February 16, 2020: The Conservative Libertarian Society Consultancy Services:

### WHAT IS OR ARE THE UNDERLYING CAUSES OF WARS AND CONFLICTS?

Examination of the history of mankind leads one to the conclusion that wars and conflicts are not caused by religious differences but by the need for man of certain persuasion to dominate others on the basis of their belief 'survival of the fittest'. They take fittest to mean physically and mentally that is intellectually strong and that we are just like all other animals having to survive in competition with other human beings and animals that live on this planet so that the means for military power is acquired through economic development and that leads to more colonisation to gather in more resources in a continuous spiralling cycle of greed and domination. When underdeveloped countries see the facts that they are relatively poor in material wealth they abandon their traditional beliefs and emulate the richer countries of the world by changing their education systems to mimic western educational methods and standard. Large numbers of young people leave their countries to do further studies in countries of the developed nations and take back this western education to further guide the governments of their indigenous nations.

So globalisation has taken place in this manner and nations are all competing with each other in the economic arena of warfare with trade being a central part of the strategy for world domination and colonisation as people of the developing nations get wiser to being exploited by the economic superpowers. They have joined the rat race of nations for continuous economic development of their own States achieved through low paid abundant labour that they possess which the west no longer has. They also develop their own military forces to defend their territories from foreign invasions which the developed countries are then unable to do anything about. And since the developed western powers are acutely short of natural resources in their present generation they find other ways of continuing to exploit these from developing nations through capitalistic globalisation of money markets because they are endowed with stored capital from hundreds of years of colonisation that brought in riches to develop their towns and cities.

The Middle East is a case that needs to be understood in this regard. The colonialists created the State of Israel to dominate the oil-rich region for continued supplies of oil to fund their prosperity at home. Puppet regimes in Saudi Arabia and Kuwait as well as other Emirates have been kept as allies of the west for purely economic reasons to do with their oil wealth as the western powers run dry of coal and oil reserves. The people living in those countries are not permitted to be free to choose their own futures as a result of having these puppet regimes.

So global economic development continues without any understanding that the Earth's resources are finite and will not last long if this continues. But who cares so long as mans greed is satisfied today. There is no emphasis on austerity.

Wars have always resulted between different colonialists in Europe for economic reasons so as to be stronger than their adversaries who they competed with in their colonisation of the Third World since time immemorial, especially since the 15th Century Ad but not limited to this relatively recent history. It has been going on for a thousand years especially in the Indian subcontinent. It has always been for economic prosperity through domination of man over man.

The underlying cause of wars and conflicts in humanity is therefore economic exploitation from greed.

## THE CLIMATE CHANGE PHENOMENON

Published on February 16, 2020: The Conservative Libertarian Society Consultancy Services:

### The Realisation

I have learnt through the years of my life that one needs to live in absolute harmony with the environment. This alone generates peace of mind that one has done nothing wrong in ones actions because one has done the least damage to others and the very thing that sustains us. It helps develop the correct strategy in the further evolution of the human species as the highest level of animal life that ever came about.

So the question is what is the environment that I see and how does one fit into it. In this Page I hope to generate food for thought and engagement with those also concerned that the human species may be heading in the wrong direction in so far as the future of the planet is concerned. I will explore ways in which we can modify our behaviour and implement policies that brings in what we need for survival of the present generation and also ensures a future on this planet for our children and grandchildren who will inherit what we leave behind.

So what is the Climate Change Phenomenon that I have realised is to be addressed first.

We have been brainwashed by standard education from our schooling and secondary and tertiary education that everything we need can be derived from science as we know it. It is true that science has made us knowledgeable on Nature and has given us unimaginable prosperity during the past 60 years through our dependence on Issac Newton, Charles Darwin and Albert Einstien just to name a few. But in that process generated from our material prosperity we have suffered mental illnesses in coping with life in the rat race that increasing economic perfection has generated for efficiency and we have had to compete with other nations thereby causing untold conflicts within humanity that culminated in wars that destroy human life and destroy built infrastructure for people to then have to start creating housing, roads and bridges and all other facilities and amenities that people need or have got accustomed to and taken for granted. We have generated waste and pollution through greater emphasis on new products to make our lives more and more convenient so that we can devote more time to our work that generates our incomes. We have also been utilising the finite natural resources that the Earth contains at an unprecedented rate as if there is no tomorrow and allowing future generations to fend for themselves if ever they survive the climate change that burning fossil fuels contribute to the greenhouse effect with adverse temperature rises , the thawing of the polar ice caps and concerns on the future of rising sea levels. The economic prosperity has futher been achieved by considerable pollution of land and the oceans thereby destroying biodiversity which is also seen as a source of wealth to exploit as if there is no tomorrow. Consequently species of wild life in all forms have been made extinct or are nearing extinction from economic development of the whole world through globalisation. Nuclear waste is growing in an unprecedented rate and the Chernobyl and Japanese nuclear plant blowouts are but the start of what is in store as the entire world goes nuclear to continue with economic prosperity. Consequently vast sums of money is spent on medical care through both the physical side and mental health institutions as people find all the materialism that they live with do not provide them with peace of mind.

So what has gone wrong, is something that should concern all of us.

I believe that we have in our haste at economic prosperity ignored that man always fell back on religion to guide us and give us mental stability from eradication of the desire for material

prosperity. From our reliance on modern science it is considered that religion is for the ignorant who want to live in the past and think that the Earth is flat and the sun revolves round the Earth and not the other way round. Science has shown that astronomy shows us that astrology is superstitious and has no place in modern life.

My belief today is whether or not astrology, numerology and the position of the stars and the galaxies have been scientifically proven to be something that is something that we have greater knowledge of, what difference does it make to the ordinary peasant to continue to believe in those inherited beliefs of their importance so long as they yield peace of mind to cope with the struggle for existence on a tough planet with unreliable climate and geological processes. So we are losing something of value in our quest to survive on this planet by our overreliance on science. What difference does it make if there is a God or gods or not as long as belief in such Entities generates what is perceived as God-given boons and it assists the people in living and prospering within Nature with peace of mind.

I have been a patient of mental health authorities in the United Kingdom over 20 years and classified over this period with schizophrenia, persistent delusional disorder, and now autism. From this experience which are narrated in Searching for Mental Health Services Page of my Account, I have realised that Consultant Psychiatrists are just papering over the cracks of humanity born of suffering from the intensities of coping with the material existence brought about through economic development from science and technology. These Psychiatrists have attempted to take the place of religious clergy in assisting the people into well being without the philosophical tools that religion provides.

There is therefore a need to blend science with religion not just for the purposes of knowing the truth, but so that we learn to live and prosper within the limits of the environment that is part of the universe.

### Claimant's submission at Court Hearing on 3 April 2020, 2.00 pm, on E35YM660 at the Central London County Court

To

The Circuit Judge

My Lord

Updated Particulars of Claim:

1. I wished to do something positive for World Conservation in order to improve society and initiated the following petitions. Some were approved for hosting whereas others were inexplicably turned down and disabled by 38 Degrees and Liberty. This is what my Appeal is all about. Please refer to the following links in administering your decision on whether I am justified in voicing these concerns or not. If I am not, you may turn down my reconsideration of permission to Appeal the 14 January 2019

dated Order of the Court on E35YM660 (Dr Shantanu Panigrahi vs Mrs Theresa May; nay the present Prime Minister of the United Kingdom, Mr Boris Johnson). The petitions in question were:

2. Further evidence for my petitions may be examined at the following websites which have stood the test of time in that they were beyond criticisms from the general public because they are factual representations of the investigations that I have conducted in arriving at the petitions:

Personal websites:

(a) <https://www.shanpanigrahi.co.uk/>

(b) <https://shantanup.wordpress.com>

(c) <https://facebook.com/shantanu.panigrahi.10>

(e) <https://twitter.com/ShanPanigrahi>

3. The evidence in these websites support the Particulars of Claim in the Claim Form and the Appellants Notice of a concerted national and international conspiracy against me to obstruct justice and pervert the course of justice by the States concerned. The government is therefore obliged to take these petitions seriously or give its reasons for not considering them through the normal processes of Parliamentary scrutiny.

As you are aware, I have only asked for a nominal £3000 in damages and compensation for what I have suffered over 22 years and which have led me to these petitions since I am only progressing the Appeal proceedings because I believe it to be in the public interest nationally and globally.

4. I am happy to answer any questions that you may have for me in relation to these Particulars of Claim and the attached application for extension of time for the formal Appeal proceedings to be instituted.

**Application for extension of time of an indefinite period for E35YM660 Appeal proceedings: submission at an oral hearing to the Circuit Judge on 3 April 2020 at 2.00 pm at the Central London County Court**

Court's Reference: Notice of Hearing dated 14 January 2020 on Claim Number E35YM660

## 1. Background

1.1. The Court Hearing on 2 April 2020, 2.00 pm is for a reconsideration of the Order of the Court dated 24 September 2019 by His Honour Judge (HH-J) Letham for his refusal of permission to Appeal the Order of His Honour Deputy District Judge (HH-DDJ) Smith made on 14 January 2019; upon submission within 7 days of receipt of the Order for a reconsideration of permission to appeal, this application being executed on 3 October 2019, 09:21am with a progress report sought on 8

November 2019, 19.59 hours; and leave to submit orally against the Order dated 24 September 2019 at a Hearing for the reconsideration of permission to Appeal being granted by the Court on 14 January 2020.

## 2. Justification

2.1. The justification for an extension of time of 12-18 months for Appeal proceedings was submitted through an application dated 11 March 2020, 12.26 pm by email and reinforced by email on 16 March 2020 16.33 hours.

2.2. Claimant's arguments for now requesting the granting an extension of time for an indefinite period now are as follows:

### 2.2.1. Court Order dated 14 January 2019

#### 2.2.1.1. HH-DDJ Smith erred in law in three respects:

(a) by not giving the Claimant the opportunity to seek an estimated extension of time implicit in his delays for the filing of amended Particulars of Claim. The 14 days allowed by HH-DDJ Smith in the 14 January 2019 Order was woefully inadequate for the task of assembling the evidence in this civil litigation in such a manner that the perpetrators of criminal misdemeanours would not be able to defend against the particulars of Claim. It has taken the Claimant over one year from the date of the Order to prove beyond any doubt whatsoever that the National Health Service was grossly negligent or criminally-motivated with the correct diagnosis and treatment of his mental condition over the past 22 years as shown in the 9 January 2020 dated Care Plan from Dr Odesanya of Canada House where the Claimant has now been referred to the Autism Spectrum Diagnostic Services of Maudsley Hospital from initially being diagnosed as having persistent delusional disorder. Notwithstanding this continuing referral, the Claimant submits that he is autistic of a special kind that he describes as satya-advaitic or truth-accommodating behaviour which is not a mental disorder requiring medications of any kind whether of anti-psychotic or anti-depressant types that he hopes the final examination at Maudsley Hospital will reveal in due course. His contention is that satya-advaita condition of Autism Spectrum is a highly desirable behavioural trait that the Claimant has inherited as it aids survival of the human species in the most hostile environment that he has faced in the United Kingdom through the persecution organised intrinsically by Nature as defined under his conception of Brahman-Nature in the vyvaharika level of reality. This remains to be seen.

(b) the Particulars of Claim in the Claim Form were outlined in sufficient detail to begin the process of identifying the responsible respondents who were party to the Claim given that over 30 (close to 40) law firms, solicitors and advocates were approached by the Claimant but were manipulated by the State of Brahman-Nature associated humanity not to cooperate with him in providing legal advice and legal representation by an organisation naming itself 'Victims of Panigrahi Association' (VOPA) under the protective umbrella of the Police, the Legal Ombudsman, the Solicitors Regulation Authority and the Financial Ombudsman Service of the United Kingdom; and hence his allegation that the Claimant has made of state-organised persecution by a secretive Big Brother Police State in the United Kingdom. The latest example of this lack of cooperation is the non-acknowledgment of these proceedings by inaction by Outsetuk, Bassets, Emb, Coplands, Medway and Swale Advocacy Partnership and Liberty which has left me exposed to VOPA's manipulations of justice and accompanied persecution. So, I am without any legal representation now.

(c) his failure to take account that the principle issue in the Claim was not that past and present Prime Ministers failed in his/her duties to the State (this they discharged) but that the Defendants obstructed justice in office against the Claimant and then repeated this by filing a pointless and malicious defence by stating that the Claim Form's Particulars of Claim did not show a cause of action against the Defendant who abused his and her position of power to effectively manipulate the respondent institutions and VOPA to perpetrate persecution upon the Claimant and then disable his Blog at Wordpress.com which he had used as the final and ultimate level of justice attained by publicising the persecution that he had suffered. It is further argued that the Prime Minister abused his position of power as the Executive of the nation by not instructing the Lord Chancellor to examine the allegation reported to Her Majesty the Queen under petition that a lawful Hearing was

never implemented by the Ministry of Justice to hear the Claimant's original complaint 20 years ago against the National Health Service that caused the dismantlement of his scientific career at the University of Greenwich as well as the loss of redundancy payment of around £55,000 or £10,000 per annum as medical retirement from a trumped up charge by the University that the Claimant had been blameworthy of gross misconduct at the workplace and therefore should be dismissed from service summarily without consideration of defence to his actions and conduct; an issue that also led unfairly to his loss of Shell Cashier's job in the subsequent years following this employment.

(d) in the absence of an appointment from South London and Maudsley NHS Foundation Trust with reference to the email submission of 16 March 2020 16.33 hours copied to the Court to reconsider its rejection of a second-opinion outpatient's appointment for its Autism Spectrum Diagnostic Services and the simultaneous arrangement made for the Claimant to have an appointment with Canada House on 15 April 2020 at 10.00 for continued assessments of this diagnosis and treatment, it is necessary for Appeal proceedings to be extended for an estimated 6 months pending the receipt of a report (Care Plan) from Canada House.

#### 2.2.2. Court Order dated 24 September 2019:

2.2.2.1. In turn, HH-J Letham erred in law on a further four counts in the:

(a) by not granting a Hearing there and then when HH-DDJ Smith had also failed to do so considering that the Defendant had continued to keep silent to the repeated emails that the Claimant submitted to the Defendant as his evidence surfaced and permitted him to develop the updated Particulars of Claim that his single-handed investigations continued to generate and the state-persecution was unravelled and uncovered by him;

(b) in being presumptuous that the Appeal had no real prospect of success when the Claimant was still in the process of assembling the evidence of state-organised persecution;

(c) in failing to take account of the fact that the Appellant's Notice was assembled at a time when the Claimant was being persecuted by VOPA and which continued right up to mid-March 2020;

(d) stating that the Claimant failed to plead a coherent case; this could not be correct if the Claim Form is revisited with these present updated Particulars of Claim that the Court received timely and countless emailed documents on as evidence since the Order was issued and which should all now be on the Court File;

(e) the Order of 24 September 2019 was based upon consideration of the Claimants Appellant's Notice dated the 27 August 2019 and the file of papers. The Claimant has not received full written reasons for the judgment and has not yet seen the Court File for contents;

(f) both Judges failed to seek the Court File relating to High Court Claim No: HQ17X01773 in which Kent Police was litigated for failure to address a dozen complaints against individuals and institutions, such as the Labour Party (under my membership No L1545992) for gross obstruction of justice as is clear from the Party's decisions not to consider the Claimants Motions to the Annual General Meetings to implement 'Green Socialism' nor voice this petition to the Prime Ministers in Prime Minister's Question Time in Parliament;

(g) failure to incorporate the evidence of the deliberate perversion of justice by Denise Ross of Stampa Global in conjunction with Authorhouse UK in the prevention of the publications of the Claimant's book, 'The Allurement of Reality' in 7 volumes;

(h) failure to seek the international respondents including the Indian, Israeli, Pakistani and Chinese governments as well as the United Nations, the European Court of Human Rights, the International Criminal Court and the European Court of Justice in their perpetration of persecution upon the Claimant; and

(i) since no Defence to this updated Particulars of Claim has been filed by the Defendant the correct decision would have been to summarily issue the Orders that the Claimant requested, namely that:

(j) damages and compensation of £15 million to be paid to the Claimant by the UK Treasury; and

(ii) full restoration to be effected of the Claimant's Wordpress Blog

### 2.2.3. Coronavirus isolation impact upon proceedings

2.2.3.1. This national and global pandemic is also an extenuating emergency circumstance that impinges of the Appeal proceedings as MSAP have now said that it cannot decide whether to represent me to the Mental Health authorities for the next 2 weeks before a meeting can be arranged concerning the clozapine administration recommended by Dr Odesanya in his Care Plan dated 9 January 2020, that I am currently resisting the imposition of. The Central London County Court was requested to hold a telephone Hearing or pass judgement on the Oral submission made to the Circuit Judge on 18 March, 7.12 am by copy of an emails sent to Maudsley Hospital with reference to an hastily arranged appointment for me to see its diagnostic services on 3 April 2020 at 12.20 pm, which the Hospital subsequently withdrew. Further there has been no written confirmation of the appointment with Canada House's Consultant Psychiatrist that was scheduled to take place on 15 April 2020 at 10.00 am.

### 2.2.4. Claimants Rebuttal of State's Charge of his Mental illness

2.2.4.1. The Claimants objective in bringing these proceedings to the Court is to restore my name as a sane human being whose reputation has been tarnished from misdiagnosis and treatment of my mental states by Mental Health Authorities over a period of 22 years. He has been grossly misjudged by the State since running into difficulties with colleagues and senior management at the University of Greenwich in 1997, which continued since through his interactions with individuals and institutions who could not put up with his truth seeking spiritual practice of yoga as a Jnana yogi. The Claimant developed and practiced his yoga as a religion to attain an understanding of the meaning of life in relation to the Reality that exists both in the material and spiritual spheres. The State could not tolerate this idealism and persecuted him.

2.2.4.2. The Claimant contends that he is an advaitist which is an ethereal and spiritual Hindu practice. He as acquired his disposition of Advaita through the yoga that he describes as Satya-advaita or truth accommodation. His guiding principle are:

*Satyameva Jayate Naanartam  
Satyena pantha vittato devayana  
Yena aakramanstasya hyptakama  
Yatra tat satasya paramam nidhanam  
Mundaka Upanisad III.i.6*

The above shloka is translated by Advaita Ashrama (Kolkata, India) as: Truth alone wins, and not untruth. By truth is maintained for ever the path called Devayana, by which the desireless seers ascend to where exists the supreme treasure attainable through truth. The shloka has various individual interpretations and exposure but is not allowed to be forgotten in India because the national emblem contains the phrase Sayameva Jayate as the essence of Hinduism. I believe in one version; namely that let truth stay alive and continue your path to ascertaining the truth and accommodating it. But whose truth is one to pursue? There are sattvic truths, rajasic truths and tamasic truths guiding humanity and all living creatures. It can only be what is pure, honest and sincere; that is to say the frame of mind that it totally unattached to material and spiritual beliefs concepts that distract one from truth fathoming. I feel that sattvic guna must be defined in these terms because there is a group of people living very pious lives, a group that is rajasic which may be routinal work oriented and a nasty group that is tamasic or evil minded in consciousness. So according to my perception truth is not something that always prevails; and there is no such thing as Sanatan Dharma. It has to be only sattvic truth that prevails and it is only sattvic truth that devas pursue to attain the supreme treasure of liberation and moksha when the mind has attained total peace (shanti).

2.2.4.3. Advaita is the conception of Reality. For him, the realisation that he is an advaitist has been the result of considerable soul-searching through the practice of yoga that he describes as satya-advaita or truth accommodation. It was reached without significant references to the Vedantic scriptures and traditions of Hinduism. He now feels that at long last he has realised the true meaning of advaita.

So what is Reality? It is as follows:

We are jivas composed of a body and mind as a unit of being individually. But essentially we are atman (soul energy consciousness) that is embodied and trapped in a living entity to is to be known as jivatman. The way to realise this is to let go one's desires and attachments to all material and spiritual beliefs and ideas so that we lose our ego, the I. The I is the body and mind and is known as the self. When the self disappears through the practice of yoga gradually during life, all one is left with is the atman. The purpose of existence is to seek one's atman because atman is Brahman, the imperishable Entity of the universe. This is because pristine atman-led thoughts attain perfection of actions (karma). When atman is Brahman, one is totally non-dual in one's existence and one is then an advaitin. One can therefore be known as a mahatman like Mahatma Gandhi is known to us. For such advaitins, the doer is the atman, not the jiva, nor is the doer the paramatman present in Brahman (physical energy of the universe). The paramatman exists as Creator God in Brahman only as the Spirit of Truth (Om). When Brahman takes the form of Nature including all living beings and inanimate matter it is embodying itself.

What is self and atman? My discovery is that when one talks to oneself and receives conscience-led advice, there are two things, the self as in myself, yourself himself itself, and the atman that guides one. When all traces of attachments and ego vanishes there is no self and only that atman remains as the doer. This is when atman is Brahman.

Whether the self transcends the material gunas (properties and characteristics of the individual) or an indwelling Spirit drives the self are one and the same thing in advaita. However, the indwelling Spirit does not act, is not the doer. The actor/doer is the jivatman, which may be just the jiva with atman totally dormant, or when the atman is pronounced and clarified of worldly attachments it is the sole doer. The jiva is left behind to vegetate.

Thus In reality, there is no divine override over Brahman-Nature, the paramatman being just the Spirit of Truth (Om/Aum ओॐ) contained in Brahman. Brahman embodies itself as Brahman-Nature which is my conception of the vyvaharika reality composed of living and non-living matter. It is self-contained with full description of sattvic, rajasic and tamasic gunas in the consciousness.

Brahman-Nature is the illusionary vyvaharika (the perceived, visible and experiential reality) whereas Brahman is paramarthika, the absolute reality. An advaitist transcends vyavaharika to paramarthika existence where Existence is regarded as illusionary and so there nothing exists. Nothing matters to an advaitist. Psychiatrists in the western mould would describe this as belonging to the Autism Spectrum Disorder, but they live in vyvaharika where there is matter.

Sattvic guna leads to total detachment from reality in a spiritual-ethereal existence, and those who follow this path attain the highest level of truth in their Realisations such that this method is to be described as the sattvic truth path that sets out what unattached karma they have accumulated by the time they die. This is only this path that leads to liberation (moksha) within this lifetime, if one is steadfast in one's yoga; and it comprehends Reality as advaita. Rajasic truth path leads to routinal dharmic existence as realised by Vishistadvaitists, whereas tamasic truth is absolute evil thoughts and actions that humans and animals, microorganisms and plants engage in.

In transcending the gunas and its manifestations in the material sphere I do what comes naturally from a position of total unattachment to the vyvaharika reality. I am in paramarthika mode of existence. In paramarthika the perceived and experiential reality is an illusion: hence for an advaitist the reality is subscribing to the philosophy of nothingness so that there is no attachment to the universe or its component and conceptual parts: nothingness means nothing matters. There is no matter. Life and death are non-existent.

The Claimant no longer uses his intelligence to guide his thoughts and actions any more as calculation, analysis and use of brains proved futile when reality hits the individual. The only solution to uncertainty was to give up one's attachments all together and attain the atman which is the conscience that guides the individual through truth awareness. He stopped thinking it is all God's lila. He believed that one's fate is in one's own hands. This is what experience of life taught him as he withstood persecution by the UK State to stave off a third round of incarceration in mental hospital by reacting spontaneously for atman-led truth to guide him. When he was using his intelligence to guide him in trying to access justice in my life when my employers dismissed me from service and denied me my redundancy money and tried every means possible to get the judicial process turned in their favour the Claimant found that 22 years later he was twice incarcerated in mental hospitals and was still in the doldrums unable to secure a good life for myself for being rejected by an employer after an 18 year career in science. Atman saved his court case and staved off the mental health authorities off his back finally as the Court Hearing neared. The Claimant's upbringing had led me to have certain ideas about religion and who God and gods are, and this reliance prolonged my suffering until the day that I discovered that God only helps those who help themselves, for which the Spirit of Truth is what was available to the human being.

So do not seek God to find your way forwards in life. He will never oblige. Why not is a good question. He believes through the digital clock checking that he did in his bid to obtain messages from God with some success initially but which disappeared that God does not wish to be known to humans and is therefore known to numerous people as unknowable even when they believe that He exists. This is also the reason that there are atheists in this world who do not accept the existence of God in the first place. The Claimant came to the opinion that He has judged his invisibility or even unaccessibility to be in the best interests of mankind. For example, He would have to favour some individuals and discriminate against others if He became accessible in a clear scientifically provable manner. So in his search of reality the Claimant had to over the years increasingly come to self-dependence and not dependent on any Gods. That is still the bottom line because the Claimant cherishes his freedom to think and act for himself as the situation warrants it in his daily life.

Fortunately, he stresses that the magic of Creation was that God has created Brahman-Nature within which there is scope for the sattvic minded to benefit from God-guidance in a way that one only believes that He is guiding whereas there is no proof of that for the individual in charting his life. Thus the lesson is forget God and Brahma, Vishnu and Shiva, depending on which of these Entities one subscribes to but use your intelligence, your brains as given to you by your genetics to take actions for survival, and if your dignity is important to you for survival with dignity. Your Fate is therefore in your own hands, and it is wrong to say that what happens on Earth in humanity is the play of Sri Krishna or some other God as Creator, Preserver and Destroyer. We accordingly have a Free Will. The Claimant uses his Free Will to acknowledge Sri Krishna through Brahma.

The concept of dharmayudha is intrinsic to Satya-advaita. It emanates from the lessons of the epics the Mahabharata and the Ramayana. This means that one has to always struggle in life to make the best of the circumstances that one finds oneself in. This is because Brahman-Nature created by Sri Krishna as the Creator comprises of sattvic, rajasic and tamasic guna gods in our consciousness. To be sattvic, one must stand up and be truthful and honest in all one's dealings. When one does this one creates enemies from the rajasic and tamasic vested interests in humanity. So there is a struggle to retain one's sattvic nature through appropriate responses to the persecution that is mounted upon one from the tamasic elements of society. That struggle is known as dharmayudha.

The Claimant found that self-examination through yogic that assuages the mind works a treat in combating mental illnesses brought about by stresses of living in the modern day and age and would recommend it to anyone. The form of yoga he has found helpful is to release the tensions of the mind through writing one's thoughts in a personal diary that one can reflect on as one goes through the normal day to day activities. He has been doing this for the past 22 years and found that writing such a diary registers one's analytical thoughts in a concrete manner so that one has a memory of what one is going through in one's life. Such a yoga is swadhyaya or self-examination that

determines the truth of how one is coping with one's imminent reality and determining what the ultimate reality is.

This takes time in terms of years but it is the manner by which mental anxieties and stresses are alleviated through truth. Of course each person has to find his or her truths as he or she is able to and so the Claimant does not prescribe any truths to anyone except to say that one must not give up hope that truth is there for anyone who wishes to learn about oneself and one's interactions with Nature and the Universe.

Yoga knows no bounds and the thing that worked for me was never to have objectives or plans or strategies or tactics in life, that is to say, have no attachments. Attachments to life, to knowledge (gyana), to beliefs, to desires, to actions (karma), to my Diary, to God, to justice for oneself, to saving one's reputation', to oneself (one's life), to one's family, to one's State, to the world, to one's websites that have been created to spread the word, in fact to anything including the satya-advaita gospel that I have lived by, to leave one's legacy for posterity, etc. gives one the mental anxieties that there then is no solution to one's afflictions that destroy peace of mind.

In the yoga the Claimant practice stillness of the mind is the result and one is then happy. Get plenty of sleep. That helps in yoga. In fact there should be no attachment to yoga as a practice either. That is total yoga. Be free.

Numerous times over the recent past the Claimant started a resolve to fine tune his yoga and towards this objective refrain from smoking tobacco (cigarettes) that he have been hooked on for the past six months. Surely he thought that he could control his mind through yoga alone and not need anti-psychotic and anti-depressant medications and other external sources of recreational drugs and talking therapy reliefs to cope with the tensions and stresses that he suffered in determining the truth about himself and the universe including all of humanity and Nature at large. He is trying out a new theory hence by stop being a scientist determining truths as he has been doing and focus on his well being so that he can lead a happy life of what is left of it.

The Claimant has been practicing yoga for the past 22 years and have experimented on my mind continually and have not yet found the solution to mental anxieties. This is because he has been attached to science and determining truths. He had been attached to his resolutions. He tried out mind control but by establishing a perceived set of dos and donts on myself as being Sanatan Dharma but it did not last. He continued to lose the remnants of my attachments. So he does not control my mind. He does not do meditation, transcendental or otherwise. My mind needs to be totally free and atman-guided not imposed upon by the jiva-motivated restrictions.

The Claimant reviewed his vows made with the agreement of my wife and daughter but could not stick to it after 4 days. He wishes to be free of all attachments and just live out my life as created by God Sri Krishna who he worships through Brahma the sattvic Lord who seemingly supervises my life and my path in life. He of course have no proof that the Gods exist at all but he hopes that they do exist for he knows that he would have failed miserably as a human being left to my own devices and conducting my life to material and spiritual attachments.

The Claimant has been able to lead a family life in this manner with two occupations in employment with considerable difficulty for the past 22 years since he lost his scientific career in agricultural development and the State here in the UK diagnosed me as suffering from persistent delusional disorder for which I have to take anti-psychotic and anti-depressant medications. He takes these willingly as his wife also thinks that he should not have married and had a family because these lack of attachments mean that I cannot lead a productive life in humanity without specific rules and regulations that require me to lose my freedom and this hurts my conscience.

The family unit is not important for an advaitist nor is it ruled out in favour of living in a monastery or ashrama. Sanatan Dharma which is the eternal religion for paramatman plays no part in influencing how humans conduct their lives. There is no karma or dharma: all one does is to truth accommodate: if one is married one must take care of all one's family members as a joint responsibility. The parents look after the children and then when the parents get old and frail and have health issues the children devote all their energies and equipment to the welfare of the parent.

The same between husband and wife, the wife takes Care of the husband and the husband takes care of the wife. There is to be no organisation of family or society according to rules and regulations because one is part of Brahman-Nature which needs to be navigated safely and securely by all individuals, male or female. The individual is not married in the sight of God as a vow for God does not exist only the Spirit of Truth exists (Om) in Brahman-Nature. In the old days the family structure was extensive but this has been eroded in recent times due to the influence of western values. The community develops from the focus on family values that then extend into the neighbouring community and society is attained. Such thoughts do not enter the mind of an advaitist. Organisation is shunned.

2.2.4.4. Satya-advaita or truth accommodation is a religious practice that takes on a truth seeking journey. Hinduism focuses on truth from Scriptures such as Satyameva Jayate. In practice it is a very difficult to achieve without a guru-guidance in human form. This is because when one pursues truth intensively and persistently as one's own guru one finds that there is no divine help for assuaging the mind and helping one to chart his or her own truth path to the destination of attaining peace of mind. Satya-advaita charts a truth path for the individual through which delusions are slowly and steadily erased with truth that leads to existence as atman which is Brahman.

Peace of mind is the only liberation from worldly matters that a person can strive to as a householder and dare I say the same to the advaitist or other spiritual person spending his or her time in isolation from society in temples or ashrams. Without a guru to guide a person on how he or she should think in order to conduct himself properly in society, there is another way to determine the above truth, namely that peace of mind is the only objective of man (Om Shanti Shanti Shanti). From experimentation one finds that the reliable manner in which one can go through the journey of jnana yoga is through the process of truth accommodation, which means having no attachments to any beliefs, theories, ambitions, plans, and in fact to no human concepts whatsoever, and continually accept the new realities that become evident from one's actions. When one does that one experiments on the purpose of life and through the process of discrimination (neti neti) one rejects one's raison detre's continually until one arrives at a destination that satisfies the mind and gives it peace of mind. Truth accommodation (he used the word in Hindu parlance as satya-advaita) meant oneness with the truth that one finds oneself in every moment of the day to assess the imminent reality as well as the durable and ultimate permanent realities.

Through this religious practice, one may encounter God or gods and see for oneself if God is of any use to one in charting one's future. If there is such a God for one, he or she will be a bhakta. If he or she experiences no God or gods, he will be an advaitist. If he or she experiences God as Brahma, Shiva or Vishnu, he will be a brahmoadvaitist, a Shaivadvaitist or a Vishistadvaitist. If he or she transcends the gunas further, he may enter the transcendental existence, whom we as Hindus revere well beyond their time on Earth has gone.

This was the Claimant's experience of employing truth accommodation to determine the role that he is now as someone who does not believe in Sanatan Dharma finally. Sanatan Dharma is a way of life and so it describes my Hinduism that he learnt through satyadvaita process of truth-accommodation. The Claimant has been searching the meaning of Advaita gradually through the practical (yogic) processes of satyaadvaita (truth accommodation) and came through various stages such as Brahmanism, Brahmoadvaita, and then Transcendentalism, none of which satisfied me. Through the process that he examined and experimented on reality from which one thing was clear: he was losing all his attachments to everything gradually. Being a transcendentalist was also an attachment because one is practicing something from the focus on 'I' or ego.

The yogic practice of satyaadvaita was to take action by judging the imminent reality and accommodating it continuously to establish one's personal path in life, thereby navigating the prevailing reality by creating one's own reality towards one's destination of liberation from the nuances of Brahman-Nature. For me Brahman-Nature consisted of sattvic, rajasic and tamasic guna consciousness but on reflection relating to Brahman-Nature that is a material-cum-spiritual concept and an attachment and therefore not the Ultimate Reality. When there is union of the Self with

Reality, that is when atman=Brahman, and nothing other than Brahman exists., that is the Ultimate Reality.

2.2.4.5. This brought the Claimant to question whether suffering was unavoidable. In the periods or moments when he lost control of himself he acted as though here was a God for me (Brahma as a representative of Creator God Sri Krishna in the Trimurti) but he quickly got over it by stepping into the realm of my paramarthika mode of realisation wherein he detached himself from the experiential reality of vyvaharika. For the experiential reality is mundane and pointless existence that is biologically driven in Nature in which Brahman-Nature directs affairs in a pre-ordained fashion while giving us poor humans the impression that we have free will to chart our futures when we are all fated to our destinies. Hence there is no rhyme or reason to subscribe to worldly existence that I regard as an illusion of reality that only generates the cunning feeling that we are in control of our lives. The manifestation of coronavirus just goes to show how helpless we are in the perceived reality of vyvaharika in which we therefore suffer mentally and physically unnecessarily and try and find means to alleviate the suffering from medical solutions or religious theological beliefs and philosophical ideas such as Buddhism.

The advaitist is opposed to dharma so that the philosophy of nothingness is necessary to the advaitist who pursues the truth path to liberation within this life time as total peace of mind. So what then is Brahman? It is not Consciousness for that is a material concept. Brahman (physical energy) contains soul force and life force (Self) but all living creatures have atman which is not the same thing as soul. Atman is the essence of living creatures and connects to the soul force through the Spirit of Truth (OM). When this connection is pristine clear atman=Brahman and the self (jiva) disappears. Soul is not a Hindu word nor is there any equivalent Hindu idea. is the Hindu word for Self which describes the life force and soul force of physical energy which is all that exists in vyvaharika. What is liberation? It is detached existence. All that exists is Brahman. Liberty and freedom and liberation are all material and a spiritual concepts that are negated in Advaita. The Claimant came to understand that the seeker should not rest until this goal is attained, of total detachment from life. That is liberation/moksha as peace of mind represents the supreme treasure in existence. The Claimant believes that we need to grasp the fact that nothing we believe and act in accordance with by imposing rules and regulations on ourselves will generate peace of mind individually or collectively for which the only answer is total detachment from the vyvaharika reality by abolishing our attachments to all concepts inherent or considered as factual in our comprehension of what is going on.

This led him to the philosophy of nothingness. Brahman is not nothing, it is something. The Self. Tat Tavam Asi. Thou art That. But only in vyvaharika. In paramarthika vyvaharika is an illusion and there is nothing in existence. Therefore, the answer to mental suffering that are definitely borne of delusions of reality is to lose one's attachments to the processes of living and gain spirituality to guide us nonchalantly and spontaneously as we enter another day in time. I look upon Existence as illusionary and consider its manifestation as nothingness.

2.2.4.6. Brahman Nature is all that one sees and experiences in vyvaharika. It is highly transient. What makes it transient is the actions of living beings from their thought processes and we are all interrelated reacting to those actions that changes the imminent reality so one is always having to review one's objectives moment by moment so that one is on the right track to live a peaceful and contented life. That is the functioning of Brahman-Nature. Understanding Brahman-Nature is the key to a productive and secure future. This is because we have freewill at the same time as everything in the experiential reality is pre-ordained so that we are fated to our individual destinies. That is the miracle of Creation created such that we feel that we have control over our lives while at the same time as being helpless to influence the future. Brahman-Nature incorporates Sri Krishna the Creator as Brahma that guides the seeker as a Spirit of Truth (Om). The Claimant's suggestion is that 'OM' is the Spirit of Truth because he reflects and feel now that he am atman and the doer. Brahma in Brahman-Nature or paramatman is impartial to all living beings and so is not the Doer: it does not preserve. it is just the Spirit of Truth that I as atman can tap into for spiritual guidance to preserve

perhaps? But ओं (OM) is a composite of a vowel and a consonant. The pronunciation of ओं is of great importance for correct understanding.

The Claimant was learning every day and every moment of the day to clear up his understanding of Brahman-Nature. It was very important for him to know this by self-discovery for he had not studied literature or the Hindu or other shastras in any detail. He believed that as long as he continued to try and learn all the time, the truth will come to him. This was done by not having any preconceived notions and beliefs. It was all prearranged for me from self-prophecy. He was forced to abandon my scientific career to move on to the quest for the ultimate knowledge. It did not come immediately but slowly through the passage of time in his adult life and by adopting the unattached quest for knowledge through truth accommodation. He never discounted any source of instruction from real gurus or published materials and ordinary people with whom he always interacted to the principle that he should always have the last word in conversations. He was sure there were people who knew more than me and I would learn. This is why he interacted extensively in humanity. Give oneself the chance to get to know, that was his motto.

He found that all gurus were only stepping stones to one's own personal Realisation. Whilst he respected all of them that came into my path he only trusted his own self with his own material and spiritual welfare through gaining knowledge from my own satya-advaitic efforts as life passed on. He used to believe in the receipt of visions of awakening from a paramatman that he took very seriously over 20 years but came to realise that they were only atman-generated visions dreams and imaginations so that he used them to prophecy his own future realities and following those self-imposed tests on his true nature, by setting his mind to questioning whether those realities were being attained. He could not be restricted by anyone whether they were Consultant Psychiatrists in the medical profession, holy books, or personal gurus such as parents and acharyas/clergy. He was totally free and spontaneous. It was just an afterthought that he was periodically attaining peace of mind after taking the actions to dispel the evil components of Brahman Nature. So he did not strive for liberation/moksha or total peace of mind by attained these through the truth path of an advaitist. By the end gods, ambitions, beliefs, wishes, plans, resolutions, meditations, yoga, freedom, liberty, strategies, tactics, missions, objectives, justice-quest, vows, promises, desires, needs, faith, hopes, anticipations, expectations, rules, regulations, dharma (duties and righteous actions), actions (karma) and life itself (that is survival) were attachments that generated turmoil in the mind to make one stressed so that one loses one's peace of mind, calmness and equanimity; which are all erased when one attains truth. That is how the Claimant overcame schizophrenia and persistent delusional behaviour in his life, and learnt to take it very easy. This way only truth flows through this mind.

2.2.4.7. Advaita therefore gave him total peace of mind from having realised the true nature of the self and its relationship to the Creator and becoming one with It. He believes that it is something that anyone can do by losing all one's attachments and harmonising appropriately. Advaita is Truth and the Ultimate Reality: atman=Brahman.

2.2.4.8. In summary and conclusion, the Claimant believes that he connected with an indwelling and all pervading Spirit of Truth (OM) that charted his actions nonchalantly and spontaneously in the pursuit of truth and justice and that this was preordained. Thus, He worships the Creator God Sri Krishna who is represented in Brahman-Nature by the sattvic god Brahma that channels the Spirit of Truth in Nature.

2.2.4.9. In the above submission the Claimant has discussed his religious-cum-philosophy of what is truth. He maintains that the suppression of truth by the State authorities concerned with his mental and legal disposition over the past 22 years of struggle to reach where he is today nothing other than the exhibition of religious persecution. To denounce advaitic-spirituality as belonging to persistent delusional disorder or forensic psychiatry or a form of Autism Spectrum Disorder with enforced medication of clozapine or other antipsychotics and antidepressants (let alone incarceration in mental hospitals as an outpatient or inpatient) amounts to that religious persecution.

2.2.4.10. The Claimant therefore beseeches upon the Circuit Judge to seek expert opinion from religious and philosophical institutions on this submission on his mental condition before passing judgment on my application for permission to Appeal Deputy District Judge Smith's Court Order of the Central London County Court dated 14 January 2020.

### 3. Summary

3.1. In United Kingdom's unwritten Constitution, civil proceedings are fluid and need to be continually updated with Particulars of Claim with one's imminent circumstances; which he have done.

3.1.1. The justification for now granting an indefinite extension of time for the Appeal proceedings to be heard and implemented with a Defence is based upon the aforementioned arguments of a total failure and collapse in Case Management by the above cited Judges concerned with the disposal of Claimant's Claim; and the continuing appointment made upon the Claimant for another review of the diagnosis and treatment of his mental health by Canada House. This together with the coronavirus emergency measures of the government means that the requested delay in proceedings is unavoidable.

3.2. Since an extension of time for formal Appeal proceedings can only be granted if there is an Appeal in progress, the appropriate decision would now be for the Circuit Judge to grant the Claimant's permission to Appeal HH-J Letham's Order dated 24 September 2019 pending the full Appeal proceedings to come in which the above cited Orders will need to be considered.

### 4. Appeal Plea submitted in person by the Claimant:

4.1 Delivery of this appeal will be made in person in view of the fact none of the lawyers or law firms, or advocacy charities could deal with the required legal advice and legal representation.

4.2. In view of a total collapse in the legal establishment for the Claimant's attempts to access legal advice and representation, the Claimant Dr Shantanu Panigrahi of 3 Hoath Lane, Wigmore, Gillingham, Kent ME8 0SL; Tel: 07967789619; will present this application submission directly to the Court prior to the Hearing on 3 April 2020 at 2.00 pm by his personal appearance before the Circuit Judge.

Dear Sir

Thank you for your email and I have now located the relevant Court documentation in which I sought the counter-prosecution of Kent Police: Panigrahi - extract(NorthKentMagistratesCourt).pdf. In light of the further harassment on me as shown in the two emails that I received this morning (seeFrAnonymous(Blow)2020.docx; and FrAnonymous(Blow)3Jun2020b.docx, I have no alternative but to proceed with the Appeal that rejected my plea for the private prosecution of Kent Police. I am told by Charlie of Sainsburys (Tonbridge, Maidstone) that I am required to attend work in the normal manner at 1.00 pm today for another Meeting to be held during the shift with persons unknown, and with no clarifications of the remaining shifts of my 12 week probation that ends on 7 June 2020. An immediate acknowledgment of this Appeal will be greatly appreciated.

1. Further to my representation to you against Kent Police (see FrPrivateProsecutionService3May2020.docx); please find attached the following responses of the concerned third parties and as attached: ToKentPolice(ArrestHCJAmandaTipples)4May2020.docx; FrCarolineKempster4May2020b.docx; ToNorthKentMagistratesCourt(PrivateProsecutionofKentPolice)2May2020.docx.
2. The Magistrate at North Kent Magistrates Court has yet to respond to the tentative bid made this weekend for renewed summons to be issued now in order to compel the Chief Constable of Kent Police for a written defence followed by appearance in Court.
3. Please advise me if this was not the correct procedure or is there a separate process for this issue of proceedings. The prosecution was issued initially as a counter prosecution under Appeal at Maidstone Crown Court in a Appeal Mention to Fix A20170027 46TY0039517 Hearing.
4. I am copying this email to District Judge Malcolm Dodds (now based in Buckinghamshire) for a response again bearing in mind that the criminals of Wordpress have archived and suspended the evidence from emerging into the proceedings that was blogged in <https://shantanup.wordpress.com> by myself so that the bench warrants issued must include an extradition Order against the Chief Executive of Wordpress.com for contempt of court.

Dear DAS

This matter has been percolating for the past 3-4 years in a private prosecution that I started as a counter prosecution that was extended as shown in the attached:

ToNorthKentMagistratesCourt(PrivateProsecutionofKent Police)2May 2020.docx. Aside from the private prosecution Kent Police was sued in a civil litigation at the Queens Bench Division of the High Court under Claim Number HQ17X01773 because it refused to take action against Consultant Psychiatrists and Canada House who continue to harass me with changing and incorrect diagnosis of my mental health as shown in the attached:

FrDrOdesanyaCanadaHouse(CAREPLAN)28Apr2020.docx. I am now supposed be having a mental condition named Paranoid Schizophrenia according to this stipulation, from earlier diagnosis of Persistent Delusional Disorder and indications of Autism according to the same doctor who rubberstamped the earlier referral by Dr Masoud to a Forensic Psychiatrist and I was examined for the forensic content of my conduct by Dr Kingham, Forensic Consultant Psychiatrist.

So the persecution that I have complained about is being covered up by the State under the false and unjustified defamatory charge that I have been and remain a mental patient to suffer medications enforced upon me to save the State's blushes that they have been proven as guilty of religious persecution. My definition of religious persecution is when truth is suppressed, and this is what the United Kingdom State and it's overseas allies have persistently done because I took the criminals of the University of Greenwich to the Employment Tribunals and the Court.

Your role under our agreement is to contact the London Employment Tribunal or the Employment Appeal Tribunal and get my job at the University of Greenwich restored so that I do not have to do menial jobs when I am a fully qualified and experienced Environmental Sustainability Specialist. Please note that I have received lies from Malcolm Dodds that he does not know anything about my case when I corresponded with him through emails that you were blogged in <https://shantanup.wordpress.com>, that was wantonly disabled by the State through the manipulation of Wordpress.

Dear Sirs

1. Following my investigations of solicitors and Law Firms of the United Kingdom including charities engaged in advocacy services, it has come to my attention that I must be a Litigant in Person and so do not require any of your services to progress my Employment-Associated Claim for medical retirement (payments of £10,000 per annum) at the LondonSouth Employment Tribunal against the University of Greenwich (agricultural research scientist) and Shell(UK)-SherlodgeGarage-SkodaMotorline-Sainsburys Hempstead Valley Shopping Centre (as petrol station attendant that did not started yet). You may further note that in my current role as Trading Assistant for Sainsbury's employment at Tonbridge near Maidstone (Store Manager Yaw Gyekye Aboagye) my Training for the job was improperly handled and curtailed (protest was lodged) and I was forced into overtime from my 12 hour contract without the proper training so the probation period of 12 weeks needs to be reassessed and extended in accordance with the latest medical certificate from Dr Odesanya for which the Consent Form must be sent by Sainsbury's to Canada House immediately.

2. This termination of association with all nearly 40 Law Firms has been forced upon me because you all have proved useless and moronic in your assessments and in coming to my legal assistance.

3. By copy of this email to Managed Divorce, I am demanding an immediate refund of my £347 paid to advance the divorce arrangements now that I am reconciled to my fate and having to live with my wife with all the medications prescribed to me regardless of the impact of such medications on my mental and physical health. I insist on having the Tribunal decide on my medical retirement from the University of Greenwich in consequence. It must give its evidence to the Tribunal in due course if it cannot immediately arrange the Court Hearing that I paid good money for.

Yours sincerely

## PEOPLE REPRESENTATION

There are two extreme means by which the population can be represented in society to carry out State functions. These are first past the post (FPTP) representation or Proportional Representation (PR). The arguments for Reform of the system in the United Kingdom from FPTP to PR is substantial, as the following correspondence suggests:

Dear Megan

It would appear that you may have been pressurised into issuing this apology to me and seemingly to all 38 Degrees Members. I will tell you my own experiences of dealing with my Members of Parliament, from Paul Clarke of Labour under Tony Blair's government to the uptodate assessment of Mr Rehman Chishti of the Conservative Party. The attached refers:

ToConservativeParty26Oct2019.docx.

These Members of Parliament have been useless to me as my constituency Members of Parliament, in fact they have been pathetic. So pathetic that I have changed my mind about the First Past the Post (FPTP) system of elections for Westminster and judging my how Labour Members of Medway Council have behaved with me when I was a member of the Labour Party, for Council Elections too. These elected individuals through the FPTP were supposed to represent the interests of the constituents that elected them in Parliament and they do no such thing. The Case of Rehman Chishti requires special study and I am keen to furnish you with the details so that this person is named and shamed under my Petition that I wish to modify since it has still not overcome the hurdle of being accepted for hosting by 38 Degrees: To remove the criminal charge of contempt of court from judicial proceedings | 38 Degrees <https://you.38degrees.org.uk/petitions/to-remove-the-criminal-charge-of-contempt-of-court-from-judicial-proceedings> To remove the criminal charge of contempt of court from judicial proceed...

I will alter the title to Contempt of Parliament as well under the right to reply which is a basic human right as it is biologically-driven depending on our genetics.

Now Mr Rehman Chishti was given full details over half a decade or more of the persecution that I have suffered which had led me into all my Petitions. He wrote letters to cover himself that he is acknowledging the facts but when it came to introduce a Private Members Bill given the intransigence of the Prime Minister Boris Johnson to consider my skeleton argument for the Judge in Claim E35YM660 at the Central London County Court, Mr Chishti remained silent. The government legal department was ordered to return my emails to the several lawyers in the government legal department without consideration see attached ToSamaritans26Jan2020.docx.

So what is the point of having constituency MPs if it means that democracy suffers without proportional representation so that each Party has the number of MPs that is based on the actual number of votes cast in a constituency for the various parties standing. I am now inclined to accept Nigel Farage's Reform Party manifesto when it is drafted as he indicated now that Brexit is done by 31 January 2020. I am also in favour of doing away with the House of Lords, so am looking forward to playing my bit for the Brexit Party with reference to the attached thanks that I received from Richard Tice FrBrexitParty(RichardTice)16Dec2019.docx.

In other words, your apology is not in my view required and you should make this known to all 38 Degrees members as my response.

I am copying this email to Julie Palmer and KMPT PALS so that it can confirm my attendance at Canada House for my appointment with Chris Easton, my Care Coordinator to discuss the attached: ToSpecialistAssessmentandPlacementTeamNHS27Jan2020.docx.

Dear Shantanu,

I wanted to say sorry.

Recently I sent you an email about upgrading 38 Degrees technology to make sure we're as powerful and persuasive as possible when we get in touch with our MPs. But in the email, I wrote some things that aren't fair to all MPs - I said that MPs were trying to cut constituents out and ignore you. While some of you might not receive replies from your MP, I know that lots of you do.

This time, we fell short of the standards we try and hold ourselves to. That isn't fair on MPs, or constituents like you. Right now, we're looking at ways to make sure it doesn't happen again.

I'm sorry again - and thank you for everything you do.

**Re: [filtered] Re: [filtered] Court Hearing on Claim E35YM660 on 3 April 2020 at3**

Yahoo/Sent Shan Panigrahi To:jo@samaritans.org 26 Jan at 18:39 Dear Jo I am sorry that my email to Dee@samaritans was not delivered, whoever dee is, whether she is part of the Samaritans or if that was indeed another one of the criminal anonymous email that I have been plagued with ever since I appealed against the striking out of High Court Claim No. HQ17X01773 at the Queens Bench Division against Kent Police by Master Eastman for which I was seeking £5 million in damages and compensation from Kent Police. The timing of the start of this persecution from State authorities coincided with that Appeal and I have since received around 260 criminal anonymous emails that are designed to obstruct justice and pervert the course of justice besides being terroristic activities. The Judge will no doubt take that into account when I see him or her on 3 April 2020 at 2.00 pm at the Central London County Court, Thomas More Building, Royal Courts of Justice, London. It would be my contention that these terroristic emails were organised by the security services of the United Kingdom and the Police is now covering up by pretending that it cannot trace the senders of these

emails. So Kent Police will be forced to appear in Court no matter how long this takes, this much I am at the present time determined to pursue. The Claim is now £15 million under E35YM660 that I had to initiate because David Jenkins of High Court Appeals thwarted my Appeal of that Order from Master Eastman and the criminal anonymous started to smash that process with Mr Sivaji Panesar of the Indian Ministry of Home Affairs through which I was persecuted about my citizenship status and subjected to the preliminaries of being classified as vexatious litigant through the Attorney General. Further the Court of Appeal prevaricated on my Appeal under Our ref: 2018/PI/11721. The matter went to the Supreme Court who sought guidance from the Privy Council before dismissing the Appeal without full written reasons. These matters were brought to the attention of several Prime Ministers, especially Mr David Cameron through his cabinet office and later to Mrs Theresa May both of whom were guilty of dismal attitudes to my suffering that started 22 years ago with legal proceedings at the Industrial Tribunal at Ashford against the University of Greenwich which was followed up with Claims for reputational damage under ME010463 at Medway County Court. Under Mrs Theresa May and Mr Boris Johnson the security services were asked to terrorise me through continued criminal anonymous emails for which a fictitious organisation was created calling themselves Victims of Panigrahi Association because I had blogged the entirety of my persecution from the secretive establishment of the United Kingdom in my Wordpress Blog <https://shantanup.wordpress.com>. The Blog was disabled and archived and suspended under the orders of COBRA manipulating Wordpress, not by Canada House Psychiatrists. For 22 years the State-persecutors denied me a fair Hearing that I could attend for these were set up as kangaroo courts to rubber-stamp the decision of the Prime Ministers concerned through the Parliamentary process of consulting Her Majesty the Queen through the Privy Council. So I feel depressed with this realisation for it has fractured my marriage to Rashmi who would not believe my allegations and still thinks that I should have apologised to the University of Greenwich and attended their kangaroo court to plead insanity in being judged to have been blameworthy of gross misconduct by the University. The countries that I sought asylum in were likewise manipulated through the Commonwealth and the European Union to deny my refugee status and the State deliberately incarcerated me in mental hospitals for two periods of time. I took the matter of my Indian passport to the Supreme Court of India under Public Interest Litigation and the Prime Ministers of that country thwarted the proceedings. Similarly, the United Nations under Kofi Annan as Secretary General, and the Security Council would not listen to my pleas for justice to be dispensed towards my suffering of State-organised persecution. So I am sorry to myself for being such a person whose ideals could not be accommodated within humanity world-wide, through the discontinuation of the above mentioned Blog. Such is the international dimension to the conspiracy to render me a person with no prospects whatsoever when I have applied for 50 jobs during only the past two months and made no progress whatsoever that gives me the impression that the conspiracy to punish me for voicing my ideals is State-organised. All approximately 40 solicitors and law firms that I approached were manipulated against me and I was forced into semi-detention to take medications of increasing potency just to be allowed to live in the Community. I am and have been a political prisoner as I mentioned to the State Psychiatrists when I was detained in hospital for the first time in 2004. I relapsed into my struggle for justice as I acquired more knowledge of the environment and was promptly incarcerated for a second time in a mental hospital in 2008. And I am now on the verge of entering the Maudsley Hospital for the third and final time, as events since the 9 January 2020 Care Plan from Dr Odesanya of Canada House indicates. I do not need any emotional support from the Samaritans, only support to voice my grievances against a State that is a blight on humanity. That is how I feel now. ## CHARITIES

In my conception of Green Socialism, there is a role for Charities because such institutions are effectively funded by the wishes of the population and not government directed so that they are not prone to political posturing and oversight. Hence I am formulating a new direction in the combining of the Charities of Samaritans and the Citizens Advice Bureau in the United Kingdom, as follows:

Dear Jo

Thank you for your good wishes and letting me know that you wish to understand the issues that concern me. We have Brexited as my wife has just celebrated with a post.

It is the dawn of a new chapter in Britain. I am looking forward to the next few years if I last that long with my smoking habit that I still intend to give up. I would like to think that I have made a small contribution to welfare in the United Kingdom with my truth seeking through truth accommodation scientific determinations. With that in mind I am pleased that 38 Degrees to which I donate and

gladly so after some friction with them over not hosting two of my petitions has restored the following: Samaritans and the Citizens Advice Bureau should be combined under single unitary authority <https://you.38degrees.org.uk/petitions/reform-of-the-citizens-advice-bureau-to-provide-comprehensive-legal-and-medical-services> Samaritans and the Citizens Advice Bureau should be combined under singl... This is important not only for law and order in the United Kingdom, but also to ensure that ordinary people with...

I truly think that this would be a good way forward. We can then do away with all the thousands of parasitic Law Firms that prey on the lives of ordinary people through false promises of legal redress that not only waste the litigants time but cause them mental anxieties as well as time and money wastage.

The Solicitors Regulation Authority and the Legal Ombudsman also needs to be done away with as they are not only useless but waste of time that saw these lawyers to whom I have copied this email from escaping the charge of obstruction of justice that led to the University of Greenwich and National Health system destroy my career and my reputation.

No doubt all those who are receiving this email as well as Terence Channer and Mr N Sorrell whose email address I lack will have their objections to this petition.

## MEETING AGENDAS

In pursuing justice whenever there is an appointment that is initiated by oneself or which is imposed on one one needs to be prepared in order to safeguard ones interests. I have done this consistently and vouch for its practicality and efficiency in getting ones uncertainties removed both before and following the meetings.

Here is one that I have just drafted:

TO WHOM IT MAY CONCERN

### **PREPARATION FOR THE MEETING WITH CARE COORDINATOR CHRIS EASTON AT CANADA HOUSE ON 3 FEBRUARY 2020 AT 11.30 AM**

[This agenda has been jointly prepared by Carer Mrs Rashmi Panigrahi and the patient Dr Shantanu Panigrahi]

1. What my wife needs to know is what is happening about my 'clozapine' medication treatment
2. My wife needs to know is why a Consultant Forensic Psychiatrist is now employed on my Case
3. My wife needs to know what is happening about my vocational advisor contact
4. My wife needs to know is whether she can come to the appointment of 19 February 2.00 pm and what will be the restrictions placed on her participation in the proceedings and procedures to be implemented. She has further said that if she is not allowed to accompany me I will not be attending the appointment with Consultant Psychiatrists at Canada House or elsewhere in the National Health Service.
5. We have agreed that no chaperone is needed by her or me for any appointments at Canada House.
6. We have both agreed that we will not agree now to autism referral to Maudsley Hospital.
7. When will we agree and sign the Plan of Action between Chris Easton and the patient?
8. I have asked in my letter to Chris Easton posted on 1 February 2020 that Dr Odesanya be recused from further assessment and treatment of my mental condition in view of the litigation E35YM660 at the Central London County Court. What is the decision on this from Canada House?
9. Is a Community Treatment Order going to be issued and served on me before or after the appointment of 19 February 2020 2.00 pm so that I can consult a solicitor for any future mental health treatment in the Community or in the mental hospital subsequently if I am incarcerated following this appointment?
10. Why has Canada House not contacted back Kent Police on the two or more criminal anonymous emails received by Ms Funke Aderibole and Dr Odesanya from Victims of Panigrahi Association (VOPA). When is the Police Report on these emails going to be issued?

Dear Jo

1. Before your email came: I was thinking to myself, what is the point of another Meeting, and tweeted as follows:

Shantanu Panigrahi @ShanPanigrahi

1h

The State of United Kingdom should come and get me with proceedings now as I am neither going to attend these meetings, nor attend Court on 3 April 2020 at 2.00 pm because of the lack of clarifications provided to me by the authorities on both proceedings:

Quote Tweet Shantanu Panigrahi @ShanPanigrahi ·

4h

An important meeting will take place tomorrow between myself and 'my' Care Coordinator at Canada House for which hopefully the resolution of the following questions will be ascertained for both parties concerning mental health welfare for patient and State

<https://shanpanigrahi.co.uk/445004215>

2. Your email has encouraged me to go and see what Canada House wants of me and for me. I have to also determine the reality of whether truth and intelligence are two alternatives upon which to make decisions. I am not fully clear on this. I worked out that truth was important for me and that it is a leader as I mentioned to you in my last post. Truth leads and intelligence leads to practical decisions for our living conditions. If one is sattvic oriented through genetics, one follows truth as leader; if one is tamasic oriented through genetics one follows intelligence as leader, while rajasic oriented people/animals are in the middle of truth and intelligence. That is the theory that I am currently mulling over and I need to discuss this with Chris Easton and others to see what they make of it. With sattvic truth leads so that there is no attachment to material objectives and if one has perfected the truth path, one is totally spiritual by definition I would say. It is not that one wants to be spiritual in this sense it just is: the reality of existence under Brahman-Nature created by God.

3. So tomorrow is another day in which truth will lead me to my fate and destiny. I would like to have money and all the good things in life, but now am giving up smoking cigarettes as the right thing to do at this point in time so as to maintain a happy home environment and have Rashmi by my side if things turn sour at the appointment of 19 February 2020 with Dr Odesanya and Dr Kingham if both are going to examine me simultaneously at 2.00 pm despite my reservations that you know about.

4. However, I have all but ruled out the appearance before the Judge unless I get a letter to my application on the short notice application to the circuit judge (see attached:

ToCentralLondonCountyCourtccMedwayCountyCourtThomasBartlett29Jan2020.docx; if you can get your IT Section to retrieve it for you) to adjourn even before the formal Hearing starts and gets going before the other parties put forward their arguments and evidence; to transfer the proceedings to Medway County Court which is more convenient for me. If the Judge refuses to adjourn and transfer the Claim proceedings to Medway County Court on or before 3 April 2020 at 2.00 pm on this basis, I will seek Leave to appeal the judge's decision for a formal Appeal.

Have I missed anything Jo? - I try and answer all questions the best I can.

Dear Sirs

1. In accordance with my discussion with Colin in the Family and Civil Service Line based in Leicestershire at 10.35 am this morning and his Mobile phone text below following his verbal clarification that a judge will only be appointed on the day of the hearing by the Court, I am hereby making a short notice application to a circuit judge, as allowed for in the Notice of Hearing Listing Policy that I have received in the post, for adjournment of the oral Hearing because 30 minutes is not sufficient to consider and cover the full extent of the submission for reconsideration of the application to seek permission to appeal in view of the national and international dimensions to the case; and further to transfer the full Hearing to Medway County Court as I am coming from Gillingham in Kent for the Hearing and I am disabled on anti-psychotic and anti-depressant medications that need to be taken according to the doctors advice and stipulations at the Canada House Crisis Team for my mental condition of persistent delusion disorder combined with tentative suggestions of autism.

2. I am not represented at the Hearing and there are no witnesses who have agreed to attend the Hearing on my behalf as Claimant.

3. These are the reasons for requesting adjournment of the Hearing and the simultaneous transfer of Case to a court near my home in Medway Kent. Colin assured me that there are no reasons that my Hearing will not start on time at 2.00 pm, and I am satisfied with that so will attend unless the Hearing is postponed in the meantime and transferred to Medway County Court for my convenience.

4. Your consideration of this application without undue delay will be greatly appreciated and please let me know if I need to pay a court fee for this short notice application on the day of the Hearing.

Further to the February 3 consultation with Mr P, it is unfortunate that the secure detention unit planned for 2-4 Hunter's Way West, Chatham, ME5 7HL failed planning permission, for this could have been an ideal habitat for him during the extended and foreseeable 24/7/52/20 observation period, and close to his family's residences (W,D). For Mr P, treatment can only be palliative. Rehabilitation is infeasible, very unlikely and uneconomic. Paranoid schizophrenia is generally not curable. Mr P's antisocial and vocal misconduct over 20 years means a unit such as the Darland one would have been ideal. Noise, disturbance and a perception of fear within the community, thus resulting in a significant adverse impact on the quality of life and loss of amenities of those surrounding the site and wider residents of the semi- neighbouring community. Dear Sir

1. Only the Court of Central London County Court, under the provisions of the Hearing of 3 April 2020 at 2.00 pm in Claim E35YM660 with the Judge has the legal authority to pass judgment on whether these two Consultant Psychiatrists named by you, and in turn, Canada House as an institution for that matter (whose judicial functions are not elaborated by Ms Nerney the Chairman of the Trust) has the legal powers or authority to continue to examine me medically as I have now withdrawn my voluntary acquiescence to Canada House's jurisdiction for any kind of assessment and treatment of my mental state.

2. I will, accordingly, not attend the appointment of 19 February 2020 at 2.00 pm until the Court prior to or at the Hearing decides that I must do so.

Dear Sirs

1.. I did not receive your reply to the attached communication

(ToDavidMallinson(GirlingsSolicitors)7Feb2020.docx), and so conclude that none of the law firms in the United Kingdom (including Liberty as a not-for-profit organisation) have any idea of what the Constitution says with reference to mental health assessments and associated tribunal and courts with reference to this representation: <https://www.shanpanigrahi.co.uk/445069053>

To Liberty (National Council for Civil Liberties) Contact point submission of 8 February 2020 at 12 To Liberty (National Council for Civil Liberties) Contact point submiss... To Liberty (National Council for Civil Liberties) Contact point submission of 8 February 2020 at 12.58 pm Dear...

2. Unless I receive a reply from any one of you to clarify this matter, I should have to test the Constitution myself by not appearing in the scheduled appointment with Dr Odesanya and Dr Kingham at Canada House on 19 February 2020 at 2.00 pm.

3. If the Mental Health institution then takes any kind of action against me by any means including carrying out its procedures for sectioning me following my non-attendance at this Meeting, we will all know then that Canada House is a quasi-criminal court that it has decided to put me on trial for unknown charges as yet.

4. When these charges are read out to me subsequently by Canada House in written or verbal form with or without a Community Treatment Order being served on me, I should surrender to the Mental Health authorities and seek the provisions of a Mental Health Tribunal in the mental hospital to clear my name as a totally sane person who has done considerable good work for mankind and that I have never done anything wrong that requires me to be examined forensically by this Court of State-Policing.

5. I have taken this step because I do not wish to live like a moron in this a nation of morons in a Police State where Parliamentary democracy is subservient to the wishes of a secretive monarchy under the Queen as the Head of State.

Yours sincerely

9 July 2020 Update:

The struggle for liberty is an ancient Hindu aim and theories have been put forward for its attainment since time immemorial because it alone alleviates suffering one is led to believe. The Buddha had physical, mind-coercive prescription for alleviation of dukha, through repeat reincarnation if a layman or through monkhood seclusion. That may work eventually through right thoughts and actions to wipe out ignorance. But as a layman and a family to look after, I am exploring whether suffering can be overcome within this lifetime through the struggle for liberty which in Hinduism is termed moksha without cutting oneself off from the sansar, that is by participating fully in one's chosen dharma as genetically-endowed and subsequently cultured through education through the gyana-yoga path to the truth.

The gyana yoga path requires no attachments even to freedom. That may be the outcome of the path during this life through one's karma or through subsequent lives as I do believe that when we die we are not finished but have a choice of re-entering the Earth at a future date to carry out better karma and attain moksha. That is also a Hindu thought.

What I am assuming hence from my gyana-yoga is that everyone has a preordained and predestined truth path to moksha (material and spiritual) that they have the free will to follow, whether or not one believes in pre-ordination and pre-destination of individual lives and pre-orchestration of the evolution of the living beings on Earth.

Being an unattached gyano-yogi I do not discount any theories that people have and live by. Whether I attain moksha through the perfection of karma within this life for total liberty or if I need to be born again for a subsequent chance, remains to be seen.

## INDIA TODAY

What is history is a bygone thing. People took decisions with their knowledge and circumstances at that time of history. A different generation now lives. We must allow Kashmiris the right to hold a referendum in that State to question whether now wish to join up with Pakistan or India or become an independent nation in their own right. We must take care of the present generation and let the future generations chart their own futures. What happens in the future should be none of our concerns. What is important is to see that the present Kashmiris can live in peace and happiness and form peaceful relationship with India and the rest of the world.

The problems that India faces today cannot be addressed with a Constitution that has outlived its usefulness to the population. Constitutions should not be a once and for all rules and regulations for people to adhere to. When this is done it causes strife and conflicts within the nation. India should have a flexible Constitution that is unwritten as in the United Kingdom so that each generation can draft their own laws and regulations that pertain to the new circumstances prevailing.

12 February Entry:

India is amending its Constitution by passing a Bill to make it possible to give tax and other incentives to couples limiting their families to two children and depriving others of those incentives in order to control the population. This is a good bill to amend the Constitution for the Environment and the pressure on natural resources.

If the nation's Constitutions can be that easily amended then there is no reason to have a nation with an unwritten Constitution as in the United Kingdom that has caused me 22 years of suffering in a struggle to determine the laws and processes of the State and its services in order to seek justice for myself. Unwritten Constitutions enables the perpetration of a secretive Police State because no one knows who is pulling the strings of the nation.

I wish to return to India as soon as possible because I cannot face life in the United Kingdom anymore, but the Indian High Commission is not issuing me with a Person of Indian Origin Card and I am being persecuted by the United Kingdom and United States of America as shown here: They may withdraw my British Passport from me at any time, even today, because I am not cooperating with their Mental Health authorities who say that I am mentally ill with paranoid schizophrenia and persistent delusional disorder not Hindutva-autism. I cannot help preserving my religion at any cost, so the choice is to be incarcerated in a mental hospital again or go to India. I have never been charged with any crimes, under civil or criminal jurisdictions, so they are concocting the mental state as a 'disorder' excuse to cover-up the fact that the United Kingdom and the United States of America are joined together as Fully Totalitarian States, and I wish to have my liberty (moksha) as a Hindu which I cannot have within the restrictions imposed on me by these western countries because I refuse to be a slave to any human being, even to my wife, on the belief that God wanted all human beings to be individually-free in Brahma-Nature as the overriding law of the universe. Dear Jo

1. I am indeed spending all waking hours on medical and legal issues and take account of the apparent bluff and bluster, as narrated here: Exposure of a Secretive Police State:

<https://www.linkedin.com/pulse/exposure-secretive-police-state-shantanu-panigrahi/> Exposure of a Secretive Police State There is a Court Hearing planned to hear my Appeal  
[<https://www.shanpanigrahi.com>].

2. It remains to be seen whether the powers that be in the State are prepared to risk the entire destruction of the Judicial System by the false pretences that I am a Psychiatric patient of the State rather than a political prisoner under semi-detention in the Community, by going ahead with the appointment of 19 February 2019 at 2.00 pm whoever they chose to install now as their interim or scheduled Consultant Psychiatrist(s) to assess and evaluate me as human being. My Plea to the Judge on 3 April 2020 2.00 pm (attached Plea to the Judge in E35YM660.docx stands unaltered in this regard.

3. Yes it is to the credit of the UK Establishment to have kept this Samaritan's channel of my communications with the State through its surveillance procedures open and since I am an open person I will spell out clearly what my attitude is right now. This is to put on record that the UK State by ignoring the above Plea has clearly established its Constitution that Mental Health institutions are an intrinsic part of the State's policing network designed to prevent the dispossessed access to due process of the Civil law for their establishing personal human rights under the Human Rights Act of Parliament through the manipulation of the entire state-machinery, both governmental and non-governmental, of policing out undesirables who have never violated the civil and criminal law nor committed any offences for which they have received a written warning from its Police Constabulary in any way shape or form.

4. I refuse to leave this home and country until I have had a judicial hearing for which I am seeking an immediate injunction from the High Court to deny Canada House the right to implement the appointment of 19 February 2020; and as such. I am copying this email to the Queen's Bench Division for the immediate attention of the Duty Judge on this Sunday to grant this injunction. I await the decision of this Judge.

5. To put it on record I have always regarded the Samaritans as a mere conduit in the absence of lawyers to assist me to seek out the truth on the British State of functioning and report it to the world.

Dear Sirs

With regard to the above Hearing that I shall attend please note that the Samaritans with the collusion of Girlings Solicitors and especially PoHWER have cheated me as attached (Fradvocacy@msaporguk(daemonfailure)11Feb2020.docx) to deny me legal and medical advocacy and legal and medical representation at a suggested appointment made for me to see the criminals of Canada House on 19 February 2020 at 2.00 pm that I requested postponement of until after the Court Hearing to hear my application for reconsideration of permission to Appeal with a short notice application as

attached:ToCentralLondonCountyCourtccMedwayCountyCourtThomasBartlett29Jan2020.docx.

With the failure of my bid to have a High Court injunction issued against Canada House to prevent Canada House from implementing enforced clozapine administration into me and assess me forensically in contempt of the Central London County Court under the provisions of the Claim

E35YM660 proceedings that are under way, I have no choice but to defy completely the requirements of Canada House in its appointment letter attached: FrCanadaHouse1Feb2020.docx. This is the final nail in the coffin of the British State that I prophesied to Kent Police against the existence of the Royal Constabulary perpetrating State-organised persecution upon me that has intensified unimaginably since the striking out of the Claim E35YM660 on 14 January 2020 by the Central London County Court.

As such I am suspending all cooperation with the National Health Service and its allied agents that unlawfully prevented me from disseminating at <https://shantanup.wordpress.com> and with Book Publishers and linked literary agents against this persecution over the past 22 years; and will not be going to Canada House again come what may until after the Hearing of my Appeal.

## ADVAITA ASHRAM

When one seeks truth intensively and constantly one loses all one's attachments and attains freedom/liberty (moksha).

Gods, ambitions, beliefs, wishes, plans, resolutions, meditations, yoga, freedom, liberty, strategies, tactics, missions, objectives, justice-quest, vows, promises, desires, needs, faith, hopes, anticipations, expectations, rules, regulations, dharma (duties and righteous actions), actions (karma) and life itself (that is survival) are attachments that generate turmoil in the mind to make one stressed so that one loses one's peace of mind, calmness and equanimity; which are all erased when one attains truth. Only by relinquishing these attachments does one become liberated within this lifetime. And this is desirable because one is no longer concerned about one's fate and destiny either in this life or the imagined afterlife. So moksha is not something that one tries to aspire to, but is a consequence of seeking truth and accommodating oneself in the imminent and prevailing reality through non-attachment. One therefore needs to go by the flow of developments. That is the perfect state of the attainment of advaita.

It comes with the abandonment of intelligence to guide one's actions (karma) and going by truth alone as it descends into the mind for one's moment by moment thoughts that determine one's chores.

Being your own guru is a very long-term project but it ensures the solid and doubt-free realisation of the nature of the universe.

In Hinduism we revere gurus who have spent a life time investigating the nature of Reality and are there as beacons to guide humanity into a state of mind that is free of ignorance. Ignorance may be bliss to those wishing to live solely materially by the use of their intellect to deal with the uncertainties of Nature but they leave the person suffering stress (dukha in Buddhism).

Advaita is non-dual existence. Advaita can be learnt from gurus but there is nothing more informative to the mind than experiencing advaita through the process of individual investigation and thereby from 'being one's own guru'. It requires a mind that gives up all one's mundane objectives and if one is then lucky enough to have survived until the day that one's quest for liberation is fulfilled, it generates total satisfaction for one's endeavours leading up to the realisation of advaita or non-duality. The final position is Brahman, one is Brahman there is no other. Tat tvam asi. You are that if one gives up one's attachments altogether so there is nothing but Brahman. What is Brahman. It is not God, it is the totality of the universe, the Reality.

I am, however, an brahmoadvaita vedantist (qualified non-dual) practicing Brahmanism who arrived at this position through the investigative process of satya-advaita (truth accommodation) as an administrative tool. The process discovered Brahman-Nature and its wherewithals. My religious philosophy is one of non-attachment to all material and spiritual concepts: only truth is the guide. How does one attain truth: by total non-attachment even to truth. Whatever fate one ends up with is the truth, a self-fulfilling prophecy. That is the state of mind of a brahmoadvaita vedantist.

Brahmanism is a religious philosophy because it has Creator God Sri Krishna as the Creator of Brahman-Nature in which three gods exist as Brahma, Vishnu and Shiva (with their consorts Saraswati, Lakshmi and Parvati respectively); denoting sattvic, rajasic and tamasic gunas in Nature. Being sattvic (divine) I identify with Brahma and hence Brahmanism is the religious philosophy.

Brahmanism means doing whatever one needs to do to seek knowledge through truth as perfected by developing awareness. It is achieved by focussing the mind in nothing and allowing thoughts to

come in for action. This is the meaning of Truth Prevails where one sacrifices ones intellect and relies on truth-awareness as the guide on the basis that truth comes from Brahma; and that truth wins as in Satyamev Jayate.

A Brahmoadvaita vedantist is in contrast to Vishistaadvaita vendantist and I believe that evil people of animals and plants exist who could be described as being Shaivaadvaita vedantists. The latter two are attached to dharma as variously defined. This needs study.

On the other hand Advaitists (non-dual) are strong atheists and are at one ith Brahman-Nature discounting a Creator altogether and are attached to Brahman-Nature in their contemplation that there is nothing other than Brahman-Nature.

WHO CAN BE A BRAHMOADVAITIST? Anyone can be a brahmoadvaitist. All one must do is to pursue truth at all costs, then one will find God through Brahma, who protects all who seek truth and knowledge and assists the person in all his truth discovery work such as giving him or her knowledge of Nature and how to cope with its complexities as one navigates ones path to ones fate and destiny which are always unknown. The process of satya-advaita generates peace of mind and determines one's karma as ones only dharma that is enacted. All you need to do is be pure-hearted and honest with all your dealings and have no attachments to anything.

KARMA AND DHARMA TO A BRAHMOADVAITIST For a brahmoadvaitist who is not attached to concepts like karma and dharma as actions to perpetrate duties and righteous objectives, dharma is what results from ones actions (karma) when one pursues truth. What is truth? Truth is that which descends on the mind when one is totally still in thoughts and therefore not attached to anything whatsoever. The accomplishments that are the result of this process is the product of brahmoadvaitic oneness with Reality. Nothing matters to a brahmoadvaitist. One is aloof. There is no joy, no tears with the turn of events. One may appear hard-hearted to others. That is the only way the brahmoadvaitist knows to learn the truth. It results in perfect actions (karma) and defines dharma.

A brahmoadvaitist can survive against all odds by the process of truth accommodation: that is the perfection of Creation by God Sri Krishna in the construction of Brahman-Nature. A brahmoadvaitist is without fear as nothing fazes him or is important to him. He just has the right tools of truth-acquired karma to guide his moment by moment activities as he navigates Brahman-Nature and survives another moment until his life is snuffed out of him through living the extent to which his genes permit.

Accordingly, I do not take any credit as I do not exist, only Brahma exists in me. I am Brahma and we live in Brahma-Nature that we accommodate into our thoughts and intellect when we discuss Brahmoadvaita. The brahmoadvaitist therefore does not use his or her intellect to guide his actions (karma) but truth alone. It charts the living conditions that is then experienced. Stillness of the mind is bliss and the experience is satchitananda.

Notwithstanding, the transcendental state relinquishes all attachments to concepts that are based on intellectual analyses and lives to truth, which is satya except that the word truth also implies intellectual truths and that is not transcendental. The transcendental truth is Om. For even being a brahmoadvaitist is attachment to a concept that does not identify the truth path. Even consideration of truth paths as a thought or practice is attachment to a concept. So it is also rejected by the transcendentalist.

I am transcendental existence arrived at through the truth process of satya-advaita (truth accommodation) as the yoga employed in the attainment of Realisation.

22 February 2020:

The truth is there is no God or gods for a householder with responsibilities towards himself and his family: all one needs to do is work out what these responsibilities are. To start with one must have as much income as it is possible to get to run the family and deal with needs. I am a 63 year old family man and a householder Hindu who practices the religion of satya-advaita or truth accommodation to survive on this planet Earth.

28 February 2020:

Seek the truth to know the Reality and the truth will set you free. What does freedom mean in this saying: it means simply that the mind is free, not that one is free of one's material commitments that one depends on to continue with life another moment. The mind is consequently still and therefore peaceful: Om Shanti Shanti Shanti. That is the Hindu moksha when one has mastered advaita.

29 February 2020:

In detached advaita one lives in paramarthika level of Realisation in which one takes no actions unless one receives a prompt implicit or explicit. There is no life in vyavaharika for this advaitist to perform actions as karma or dharma, as they live in paramarthika level of Realisation in which one takes no actions unless one receives a prompt implicit or explicit.

But that is not how I live my life. There is life for me in vyavaharika for the advaitist to perform actions as karma or dharma. I therefore live in vyavaharika and paramarthika at the same time fulfilling my status as an fully realised advaitist. So I act and acknowledge God and gods accordingly. But as a paramarthika advaitist I keep my contacts with humanity to a minimum necessary for keeping the body healthy and the mind at peace by detached karma.

What is detached karma? It is clear that I cannot terminate my life as that would be against Brahman-Nature created by God for us to live in so that suicidal behaviour is a crime. Further I have a certain minimum dharma towards my family and society that nurtures my existence so must communicate with them and interact in a way that will enable me to live to my full genetic potential in life. So paramarthika existence does not mean that one hastens death. Life has to end naturally to be an advaitist.

7 March 2020 Update:

I am a Transcendentalist who knows that there is nothing in existence. All perceptions and experiences in vyavaharika level of reality are an illusion. In paramarthika there is nothing to be attached to or attached by: In vyavaharika therefore I act as though there are no attachments to any material or spiritual entities or concepts in which therefore even survival or living is not a consideration. One just exists in life or in death (mind is attached to neither) as part of the Universal Being or Consciousness. Nothing matters because there is nothing in existence, really.

11 March 2020:

Being a transcendentalist is also an attachment because one is practicing something from the focus on 'I' or ego.

The philosophy of satyaadvaita is to take action by judging the imminent reality and accommodating it continuously to establish one's personal path in life, thereby navigating the prevailing reality by creating one's own reality towards one's destination of liberation from the nuances of Brahman-Nature. Brahman-Nature is a material cum spiritual concept and an attachment and therefore not the Ultimate Reality. When there is union of the Self with Reality, that is when atman=Brahman, and nothing other than Brahman exists. That is the Ultimate Reality.

So what is Brahman? It is not Consciousness for that is a material concept. Brahman is the Hindu word for Self.

What is liberation? It is detached existence. All that exists is Brahman. Liberty and freedom and liberation are all material and a spiritual concepts that are negated in Advaita. Do not rest until this goal is attained, of total detachment from life.

This is not the philosophy of nothingness. Brahman is not nothing, it is something. The Self. Tat Tavam Asi. Thou art That.

There are no truths to explore as I am an advaitist. I do not exist. All that exists is Brahman as physical energy; atman is that: itself, yourself, myself, herself, himself are all Self as physical energy. Vyavaharika is an illusion: I am detached from this reality by ignoring it's significance while navigating Brahman-Nature continuously to chart my truth path to retain my freedom for liberation in vyavaharika. That is swadharma.

So in vyavaharika we are not free and liberated until Brahman-Nature is conquered. Then there is liberation or moksha. This is when truth prevails as in Satyameva Jayate. It comes from the process of satyaadvaita of truth accommodation which requires hypersensitivity to one's environment for complete awareness.

13 March 2020:

We are jivas composed of a body and mind as a unit of being individually. But essentially we are atman embodied in a living entity to be known as jivatman. The way to realise this is to let go ones desires and attachments to all material and spiritual beliefs and ideas so that we lose our ego, the I. The I is the body and mind and is known as the self. When the self disappears through the practice of yoga gradually during life, all one is left with is the atman. The purpose of existence is to seek one's atman because atman is Brahman, the imperishable Entity of the universe. When atman is Brahman, one is totally non-dual in one's existence and one is then an Advaitin. One can therefore be known as a mahatman (a jivatman) like Mahatma Gandhi is known to us. For such Advaitin, the Doer is the atman, not the jiva. So essentially when Brahman takes the form of a living being, it is embodying itself in living creatures.

14 March 2020:

For an advaitin, atman=Brahman; but in the final analysis one should not be attached to the life of an advaitin with this realisation either. So who am I? I am Om (Hindu terminology). What is Om? Om is Truth, that is to say, one becomes totally and utterly detached from reality.

Spirit is something Real: it appears to me that Hindus call this Om and It manifests Itself in truth-accommodation (satya-advaita). I accept everything that the ethers throw at me. I am ethereal: spiritual. Period.

18 March 2020:

Whether the self transcends the material gunas (properties and characteristics of the individual) or an indwelling Spirit acts upon the self are one and the same thing in advaita.

24 April 2020:

"आत्मा तु सततं प्राप्तोऽप्यप्राप्तवदविद्यया Atman is an ever-present Reality. Yet, because of ignorance it is not realized." by Saroj Kanta Das. I agree with this statement: Atman is the source of all wisdom and knowledge for it carves out one's truth path in life. Saroj Kanta Das: On the destruction of ignorance ( Avidya ) Atman is realized. Shantanu Panigrahi: Yes, atman destroys ignorance steadily and purposefully to enable a person to live in peace and contentment (bliss) because when atman=Brahma it generates full harmony in Brahman-Nature (Prakriti). I now use the term atman=Brahma because the Creator God Sri Krishna resides in Brahman-Nature as Brahma. This is Brahmoadvaita vedanta.

The Central London County Court

Thomas More Building

Strand London

Dear Sir

1. This evening, following the developments of the day, and having discussed with my wife, Mrs Rashmi Panigrahi, I have decided to abandon (that is, withdraw) my application for reconsideration of permission to Appeal with reference to the following Notice of Hearing

<https://www.shanpanigrahi.co.uk/444817051> Notice of Hearing The following Hearing has been announced:In the County Court at Central LondonClaim Number E35YM660Date 14 Janua...

2. This decision has been taken by me because today I have voluntarily submitted myself to the rigors of Mental Health Assessment and Treatment by Canada House, Balmoral Road, Gilligham, Kent for which an appointment to review my mental state has been fixed for 19 February 2020 at 2.00 pm. I fully accept now that the UK State has the consitutional arrangement in law to examine all its citizens for mental health and disorders and to take appropriate measures to treat or manage these conditions for the welfare of both the patient and society. This was unclear to me until this evening when the outstanding medical proceedings were realised.

3. Furthermore, I fully accept that the State through the organisation calling itself Victims of Panigrahi Association or VOPA acted correctly to what I perceived as being criminal anonymous emails to harass and persecute me since September 2017 from its surveillance and policing methods that were not apparent to anyone but which surfaced due to my determination to have my concerns scrutinised through the due process of the law. This has been clarified to me as being within the jurisdiction of the Mental Health authorities rather than a civil court or for policing by Kent Police.

4. Accordingly, on the Claim against Mrs Theresa May/Mr Boris Johnson the present Prime Minister as the Defendant, I see now that the State does not have a case to answer against the Claim.

5. I am sorry if I have wasted Court time in this regard but this has been caused by a total failure in the State for services of suitable lawyers in the private, governmental and non-governmental sectors to advise me on the law as laid down by the Constitution of the United Kingdom. I have consequently had to conduct the investigation myself over the past 22 years of failure to have a fair Hearing of the Case against the University of Greenwich on the employment matter, and that is now out-of-date so my understanding is that it will continue to be struck out by the Court.

6. As regards Wordpress.com and the restoration of my Blog <https://shantanup.wordpress.com> by Wordpress, I have realised that this legal matter will take enormous amount of time and effort to argue and resolve the case for its revival which I no longer wish to pursue in view of the replacement websites that I have created since the Blog was disabled for apparent violation of Wordpress' Terms of Usage. I will leave it with Wordpress to decide whether it will send me my choicest blog posts from this website, and especially the ones where I wrote about Economics, Abiogenesis Review and evolution under Science so that I can seek alternate means for publishing these materials of which I have not kept any records.

7. I have made these inferences above as a total layman petitioner without legal knowledge or experience so that should the Court find that my analyses and decisions here are faulty in any way

shape or form, please let me know so that I can consult a lawyer with the Court's next directions in view of this emailed submission.

Dear Sir

I was waiting to see if I would get an immediate reply to the following representation before considering copying this correspondence to the Court. The response has not come.

Accordingly, I wish to submit to the Court that it is a pointless task for me to attend the appointment of 19 February 2020 at 2.00 pm at Canada House as that will only result in a cover up and further obstruction of justice against my Claim of state-organised persecution. As you will note I shall be unrepresented in Court.

I hope in light of the unwritten constitution and failure to secure legal opinion that I have understood the law in declining the appointment with Dr Odesanya and Dr Kingham unless the comprehensive report that I requested from Canada House comes to me by the morning of the 19 February 2020 for my consideration.

Subject: Re: Kent Police Incident Reference 113/2020 of 23 January 2020

Dear Mr Molson

1. Please forward me the Kent Police incident report incorporating the attached elaboration of my complaints to Canada House: ToJuliePalmer(PalsComplaintsKMPT)14Feb2020b.docx.

2. As to your insinuation that I developed or ever have developed biological weapons, this is absolutely untrue. I was a nutritional toxicologist who studied Nature in purely scientific terms during my work for the Natural Resources Institute of the University of Greenwich, and subsequently used my knowledge therein to study Creation through which I discovered Brahman-Nature.

3. I can explain everything to Dr Odesanya and Dr Kingham at our appointment on 19 February 2020 to which my wife may also accompany me given that I have failed to secure advocacy services, let

alone a law firm to argue my case to the doctors whoever is appointment and no matter what further procedures I have to go through.

4. Kindly reply immediately because I have a Court Hearing on 3 April 2020 at 2.00 pm with a Judge at the Central London County Court to assess my Appeal for £15 million in damages and compensation from the UK Treasury and the restoration of my Blog <https://shantanup.wordpress.com> which has been unlawfully suspended. The Claim No is E35YM660, and I am updating the Judge by copy of this email accordingly. The issue of my Wordpress Blog can never be wished away and I am determined to fight its restoration no matter how long that takes.

5. I consider it of being of utmost importance to my raison d'etre that I cooperate fully with the law as laid down by the constitution that I need to examine and learn about on account of the fact that it is an unwritten Constitution that we citizens have to contend with. I am fine by that because I follow truth in whatever I do and rely upon my satya-advaita (truth accommodation) science to get to the appropriate justice that I deserve.

Yours sincerely

Dear Mr Marks

1. Thank you for your letter dated 12 February 2020 sent in the post with the attachments from Kent and Medway NHS CEO's Office dated 7 Feb 2020.
2. In my complaint to Chairman Julie Nerney I had written: I am most disappointed with the services of Canada House as shown in the attached documents and wish to lodge a complaint of State-organised persecution on me for my religious beliefs and actions thereon.
3. Over the past 22 years I have made numerous ups and downs on my mental state that were to be classified as nervous breakdown.
4. It started when I was very naive and came into conflict with my employers at the University of Greenwich which was making hundreds of staff redundant. I sought project funds that were all useful in objectives and justifications but the senior management were racist and envious of my scientific prowess and achievements and wished to terminate the work on poultry nutrition for the disadvantaged and resource-poor farmers of developing countries whose valuable agricultural by products were exported to feed relatively inefficient food converters in ruminant animals such as dairy and beef cattle. They wanted through conspiracy with vested interests to put a stop to the work - please refer to my PhD Thesis The use of cottonseed meal in laying hen diets at the University of Reading in 1988 as an example. So without any justification I was targeted as undesirable even though I had got three promotions whilst I was a civil servant working for the Natural Resources Institute. They manipulated my projects and applications for funding to deprive me of work so that I could be made redundant. Because I was dedicated to my work and science I suffered my first nervous breakdown and was diagnosed with severe depression with psychotic features by BUPA Consultant Psychiatrist Dr Rao. I agreed with his diagnosis and was prescribed risperidal and laustral medications which got me through and I did not require them for very long, only a few months while I recovered from the shock of having been dismissed from my cherished career as a animal nutritionist with agricultural development speciality.
5. I sought legal remedies through the Employment Tribunals at Ashford and London but it came to nothing because the authorities would not countenance the requirements of my Claim by bringing the people who had harassed me out of job to give evidence under oath.
6. I was still of pleasant disposition in my mental state until the County Court at Medway County Court issued me a Court order that stated that I had abused the process of court in bringing the University for examination under civil proceedings for damages to my reputation by classifying me as being blameworthy of gross misconduct and dismissing me from service as defamatory. This Court

Order gave me my second nervous breakdown as I sought asylum in numerous countries to escape from the Court authorities in the United Kingdom. It was during 2004 when I was traveling to France on a letter of invitation to seek asylum in France that the Dover Police apprehended me and consigned me in a mental hospital for my psychoses relating to the breakdown.

7. I was detained in the mental hospital for 3 months some of it in a secure ward but the Mental Health Tribunal released me as I recovered my poise in the hospital. I was placed on risperidone medication under an implicit Community Treatment Order (no documentary evidence exists of this) and I lived happily but still pursued my Appeals against the University of Greenwich and the abuse of process of court Order.

8. Between 2006-2008 I worked in a petrol station at Shell UK and got into incidents with colleagues there for very harsh conditions of service that the Franchisee was implementing and formed the Union of Petrol Station Workers except that this avenue for the restoration of a new career as a trade unionist was denied to me by the government. I was deprived of my shifts of work and took the matter again to the Employment Tribunals. It met with the same fate. I reinstated my quest for justice with the Supreme Court of India at that time because it would not return my Indian passport to enable me to return to India from this wilderness of the United Kingdom. This was denied and I was spending a lot of money so my wife reported me to the GP Surgery that I needed to be sectioned effectively. So I was sectioned for a second time (I believe) and was taken to another mental hospital where I was detained for one month.

9. On my return from hospital I decided to try and increase my knowledge as a journalist and started a Blog at Wordpress in 2010 <http://shantanup.wordpress.com> to try and carve out a new career as an Internet Journalist whilst visiting Forums such as Advaita List, Freethought and Rationalism Discussion Board, Secular Cafe, Religious Forums, etc. I was very satisfied with life at this moment in time and only took my risperidone because I was under a Community Treatment Order that required me to do so.

10. The work I did to accumulate my knowledge and exposing the true nature of the universe was seized upon by vested interests and these were brought to the attention of Canada House where my appointments were resumed by the State authorities. This led to my Blog being disabled and archived under pressure that the company faced in 2019, a full 10 years since I had started my internet journalism.

11. I have never been charged with any crimes or misdemeanours by the State or individuals or organisations that should have terminated my Social Media Journalism. The Consultant Psychiatrist ordered me to terminate it and I refused by starting alternative websites to continue with my social media journalism. This work was the only thing that would preserve my sanity after so many ups and downs.

12. So the Canada House officials continue to harass me with repeated appointments to assess my mental state when I am simply trying to find a career for myself in order to live a fulfilling and productive life, whatever is left of that at the age of 63. I am in no need of medications and do not deserve to be incarcerated in mental hospitals for doing what any normal human being does: getting on with life with no harm done to anyone else or the State.

13. So I wish to get Canada House off my back for its unwarranted and unlawful surveillance of my mental health and enforcement of treatments to subdue my normal biological functions as a sattvic (pure-hearted) human being just intent on survival for another moment for as long as my genes permit.

14. I hope that this clarifies my complaints clearly and unambiguously as the Court of Central London decides my Fate as acknowledged in the attached:

## REVIEW OF RELIGIONS

Religion if perfected has to guide one along a truth path that produces goods and services that are needed for one to survive on this planet and not for ulterior imagined prospects such as the attainment of moksha here on Earth or in the so-called after life. The most important thing is to do one's duties that will sustain us materially, and if spiritual guidance is proven to be necessary one has to explicitly explain how that is manifest and proven to the world. This should be done peacefully without violence through the utterance of words that will persuade and convince people of their ideals. We must strive and fight for one's ideals otherwise the hopes of humanity for a better future for all of us at an individual level as well as for society does not materialise for the betterment of the planet and all its inhabitants, human, animal or plants. We live so we must think and take actions for a better world than we have inherited.

Knowledge has always developed to higher and higher levels of understanding through history. We need to bear in mind that we cannot live in the past to past dictations of how the universe is and the position of humans within that universe. We must learn from science and update ourselves with knowledge factual. So I believe that we must not be attached to anything, be that established religions that we have inherited from past generations or even the beliefs we individually learn from year to year and in fact moment by moment. The mind must be free of clutter in order to understand the environment and that includes the human environment as well as the wider Nature. So every generation needs a new fresh religion to live by. This is evident from the fact that religions developed in specific regions of the world when people could not travel to other places to learn about how life was in other areas of the world. Every religion, like Islam, Buddhism, Christianity, Jainism were location specific that were needed according to the socio-economic and geographic-ecological-geological conditions of the people that a specific religion served. In other words today we have a global humanity where travel is easy so we need a global outlook that reflects that humanity is now one especially through the internet. So States must accept that their inherited religions are out of date. This is no disrespect to the Bible or Koran or Gita or Torah, it is just a matter of fact that we need a fresh examination of what religion is and develop one in the present circumstances of individuals in a globalised world that brings in different sets of influences upon our lives.

I have learnt through the years of my life that one needs to live in absolute harmony with the environment. This alone generates peace of mind that one has done nothing wrong in one's actions because one has done the least damage to others and the very thing that sustains us. It helps develop the correct strategy in the further evolution of the human species as the highest level of animal life that ever came about. So the question is what is the environment that I see and how does one fit into it. In this Page I hope to generate food for thought and engagement with those also concerned that the human species may be heading in the wrong direction in so far as the future of the planet is concerned. I will explore ways in which we can modify our behaviour and implement policies that brings in what we need for survival of the present generation and also ensures a future on this planet for our children and grandchildren who will inherit what we leave behind.

So what is the Climate Change Phenomenon that I have realised is to be addressed first.

We have been brainwashed by standard education from our schooling and secondary and tertiary education that everything we need can be derived from science as we know it. It is true that science has made us knowledgeable on Nature and has given us unimaginable prosperity during the past 60 years through our dependence on Issac Newton, Charles Darwin and Albert Einstein just to name a few. But in that process generated from our material prosperity we have suffered mental illnesses in coping with life in the rat race that increasing economic perfection has generated for efficiency and we have had to compete with other nations thereby causing untold conflicts within humanity that

culminated in wars that destroy human life and destroy built infrastructure for people to then have to start creating housing, roads and bridges and all other facilities and amenities that people need or have got accustomed to and taken for granted. We have generated waste and pollution through greater emphasis on new products to make our lives more and more convenient so that we can devote more time to our work that generates our incomes. We have also been utilising the finite natural resources that the Earth contains at an unprecedented rate as if there is no tomorrow and allowing future generations to fend for themselves if ever, they survive the climate change that burning fossil fuels contribute to the greenhouse effect with adverse temperature rises, the thawing of the polar ice caps and concerns on the future of rising sea levels. The economic prosperity has further been achieved by considerable pollution of land and the oceans thereby destroying biodiversity which is also seen as a source of wealth to exploit as if there is no tomorrow. Consequently species of wild life in all forms have been made extinct or are nearing extinction from economic development of the whole world through globalisation. Nuclear waste is growing in an unprecedented rate and the Chernobyl and Japanese nuclear plant blowouts are but the start of what is in store as the entire world goes nuclear to continue with economic prosperity.

Consequently, vast sums of money is spent on medical care through both the physical side and mental health institutions as people find all the materialism that they live with do not provide them with peace of mind. So what has gone wrong, is something that should concern all of us. I believe that we have in our haste at economic prosperity ignored that man always fell back on religion to guide us and give us mental stability from eradication of the desire for material prosperity. From our reliance on modern science it is considered that religion is for the ignorant who want to live in the past and think that the Earth is flat and the sun revolves round the Earth and not the other way round. Science has shown that astronomy shows us that astrology is superstitious and has not place in modern life.

My belief today is whether or not astrology, numerology and the position of the stars and the galaxies have been scientifically proven to be something that is something that we have greater knowledge of, what difference does it make to the ordinary peasant to continue to believe in those inherited beliefs of their importance so long as they yield peace of mind to cope with the struggle for existence on a tough planet with unreliable climate and geological processes.

So we are losing something of value in our quest to survive on this planet by our overreliance on science. What difference does it make if there is a God or gods or not as long as belief in such Entities generates what is perceived as God-given boons and it assists the people in living and prospering within Nature with peace of mind. I have been a patient of mental health authorities in the United Kingdom over 20 years and classified over this period with schizophrenia, persistent delusional disorder, and now autism. From this experience which are narrated in Searching for Mental Health Services Page of my Account, I have realised that Consultant Psychiatrists are just papering over the cracks of humanity born of suffering from the intensities of coping with the material existence brought about through economic development from science and technology. These Psychiatrists have attempted to take the place of religious clergy in assisting the people into well being without the philosophical tools that religion provides.

There is therefore a need to blend science with religion not just for the purposes of knowing the truth, but so that we learn to live and prosper within the limits of the environment that is part of the universe.

## THE MEANING OF LIFE

The meaning of life is survival to live up to the age that one is destined to by one's genes, using all one's faculties. One needs to be able to surmount all obstacles and hurdles in order to survive and experience the fullness of the life that one is born with. That should be the only focus for one's existence.

And it is possible by the use of one's intellect. What is the intellect? It is having the intelligence to secure the tools with which to survive up to the age that one wishes to. So the question one should ask is do you want to live or die? The choice is one's own and no one else's. There is no God or god who supervises one's destiny or provides the tools to attain that end. It is all inborn genetically.

If one has objectives and missions to fulfill one needs time to accomplish those objectives so must do whatever is necessary to attain the age by which those objectives are met.

We all survive up to the age that we are genetically predisposed to. Some people take risks and do not see dangers which can come and hit them hard thereby terminate their lives. Others plan out their lives to meet all the objectives they set out for themselves and use all the tools that are naturally available to them to do so.

25 February 2020 Update:

The visible and experienced reality is an illusion. In the ultimate reality nothing exists. These two levels of reality are known to Hindus as vyavaharika and paramarthika respectively.

The vyavaharika being the experienced reality has to be lived to the fullest degree in which one acts according to one's beliefs. These beliefs are personal to the individual who seeks knowledge from his surroundings and from his experiences. I have gone through that phase and do not require any more truths on how to live in vyavaharika where I perform my dharma (duties and righteous actions) in society.

In my vyavaharika experience there are Gods and I have explicitly stated what they are in Advaita Ashram: <https://www.shanpanigrahi.co.uk/445103482>. One must therefore revere God Sri Krishna as the Creator of Brahman-Nature in which we correspond with our lesser gods and take our day to day guidance from them in fulfilling our tasks.

But I live in the realisation of paramarthika level of reality too so am not attached to whatever I do or do not do at the lower level that is vyavaharika as my dharma. In paramarthika there are no Gods or gods for me and there is nothing in existence. No dharma exists as I do not exist. It is ignorance to think that I do exist. There is no birth, no death as nothing exists.

29 February 2020:

Notwithstanding life goes on and so in vyavaharika while I do not worship any God or gods, one acts every moment on something or the other. These actions must attain perfection in order to live to Reality as Brahman-Nature. So I live both in vyavaharika and paramarthika at the same time switching between the two when all actions are completed for the present. The search to truth accommodate is continuous in my strand of Advaita.

And having achieved all that I set out to as my mission in vyavaharika I have now retired permanently to paramarthika mode. That is the meaning of my life now.

1 March 2020 Update:

There is no such thing as evil, there are only sattvic, rajasic and tamasic guna gods in existence so these gods are immortal. There is a Creator God who created Nature with these gunas that give us our thoughts on which we act. We act according to our individual conscience. So if one is sattvic minded it is OK to tackle the tamasic component of humanity in conflict and there are no rules spiritual or secular preventing us from engaging with other elements of Nature.

Advaita was not the final destination for me in my search for truth. I have turned my attention to focus on Sanatan Dharma because non-attachment is not sustainable as we are all attached to life genetically. We cannot help it unless we commit suicide. So we live and develop our dharma accordingly. I will elaborate more on this in a new Page introducing Sanatan Dharma:  
<https://www.shanpanigrahi.co.uk/445273580>.

### PERSISTENT DELUSIONS

It has dawned on me this evening that persistent delusional disorder is a genuine condition that humans suffer from, and I am one of those mentally ill persons. I deluded myself that I was seeking the truth better than any scientist had ever done before me to unravel hitherto hidden secrets of the universe. I suffered from delusions of grandeur in the process of determining the promised land for myself.

Nothing that I have published in my websites should be taken as a true representation of the universe that we live in. I speculated and published as if they were a blessed boon that I was destined for glory in mankind.

I state this today so that those who are mentally ill are not frowned upon by society as it is a part of the human condition. We think all kinds of things. We read and formulate beliefs to guide us in our lives. I have been doing this all my adult life as if I was under a self-imposed or God-inspired mission to eradicate ignorance. I am through with my endeavours and admit that I am not the wise person that I seemed to believe that I was. I am deluded in thinking that I was persecuted for my actions to secure justice for myself and the rest of humanity in the process.

Fortunately, I have compiled my thoughts in my diaries that I maintained diligently thinking I was on to something great. These diaries and the correspondence files that I created narrate my passage during the past 22 years and are there for anyone who might be interested in learning how mental illness afflicts people and affects the way they act in society.

This is a confession that I have failed miserably as a human being after 63 years of existence on this planet. Everything that I wrote in my websites should therefore be taken with a pinch of salt as to their relevance to humanity. I have no proof of the speculative theories that I spelt out, most notably on the Creation of Brahman-Nature.

I am also lucky that I lived in such a tolerant country and people as the British are, to whom I have apologised profusely for having been such a burden to accommodate when I generated mayhem for the people and institutions with whom I have corresponded.

I have not found any divine entity that blessed me with the means that I used to discover reality for I only have theories that cannot be proven by me no matter how hard I tried in my search for the truth. There never was any God or god for me and whatever I did was born of ignorance of the only reality that we do know, that is that we have life. What we make of it is entirely up to us and no one else can guide one on truths.

I say this because I could not get answers to the questions that I have suffered, either through consultations with humanity or from within. I remain as deluded as ever before on what reality comprises of.

I hope this confession is helpful to others who may also suffer from mental illness so that they can be helped appropriately through counselling.

I intend to maintain all my websites as my contribution to humanity and Humanology.

27 February 2020

6 March 2020 Update:

I imagined that I had mental 'connections' with an Entity that was within me and external to me and it was active in my mind to give me all kinds of experiences that involved changing perceptions and changing realities that caused me mental health issues like schizophrenia, persistent delusional disorder, and paranoid behaviour but I have no proof of a God playing tricks on me through mind games for his own purposes whatever these may have been. I was twice incarcerated in a mental hospital and have been on anti-psychotic and anti-depressant medications to control my mind although the Psychiatrists have now also referred me for Autism Assessment and Treatment. I thought for a long time that there may have been a Being who was helping me to understand the laws of Nature and so I called it Brahman-Nature but this could be totally delusional. I have no proof of anything that I have ever considered as possible explanations of Reality.

So the mind was wandering wildly over 22 years and I asked the Psychiatrists for a list of Do's and Don'ts for me to live by, but they would not give out such 'Orders'. In the end I decided that it was enough suffering and I needed a religion which requires vows and beliefs to control and restrict my erratic and haphazard conduct in society that had everyone confused. I then came across Sanatana Dharma believing it to be the eternal religion (it is the only religion that answered all my delusional thoughts that generated peace of mind at last as I am now totally calm and without cigarettes and my family is now happy with me for adhering to those Vows. I have taken these vows (26 points of order) believing it to be in the sight of God as Sri Krishna who is represented in Brahman-Nature by Brahma.

7 March 2020 Update:

That there is a God or gods that one can relate to and develop a Sanatana Dharma with Vows and beliefs as if there is organised Nature as Brahman-Nature with Brahma, Vishnu and Shive as gods that one needs to abide by may be the greatest self-delusion of them all. One must therefore lose all attachments including adherence to this theory in order to survive on one's own genetic endowments. If one is lucky enough to have been born with the right genes that imparts one the intelligence to live in this world of obstacles and hurdles to one's well being one is destined to survive to a grand old age, which is the objective of living: to extend one's life for as long as possible using one's mental faculties of truth discernment. That self development comes from shedding all one's attachments including what might be perceived as Sanatana Dharma.

#### GENETICS AND CULTURE

Genetics determines culture on an individual level. Birds of a feather flock together and thereby determine their collective group culture. When individual genes erupt that causes divisions within culture then people migrate or seek asylum to countries that would accommodate that culture. This need can be overcome through education and training of the mind to accept the group culture but there will always be dissensions which cause within culture conflicts. Conflicts are part of the evolutionary process in Brahman-Nature where genes that are better adapted to the environment acquire the status of fitness to the environment and therefore dominate the cultural development within the national group.

## SATYAADVAITA

The Power of Satya-advaita Yoga: selfadvice for Sanatan Dharma being the eternal law is worth considering.

Attachment to theories and beliefs leads to downfall. Avoid all forms of internetting communications. Do not seek truth. Abandon satya-advaita or advaita in any of its forms discussed (<https://www.shanpanigrahi.co.uk/445103482>). Get to grips with your life with your wife and daughter. Keep all documents created alive to protect your life and the ability to live long to keep your family intact. Defend your reputation as a sane human being not deserving of incarceration in a mental hospital or in prison as a criminal. Life is not for the spiritual minded person. That is the ultimate truth. Look at your wife emphatically going about her business of existing. Do not defend any of your speculations in the future. Let it give their generations to come a good stuffing of knowledge. Do not cut off 38 Degrees and Liberty because membership is good and legitimises your claim to sanity. That includes the Labour Party membership. No one has replied to your post on the preservation of biodiversity, so do not be attached to it. They are all stuffed into their moronic lives of attachments to worldly things. Stop writing this Diary and read this final post-script over and over again to remind you that your life and your future is in danger and at stake for the sake of going down as the most knowledgeable person on Earth. That is what I feel I have achieved.

### Justification:

Do you think that a person without attachments can live. It is proven that he cannot live as I determined today, especially not as a householder. So advaita has to go too. That is the ultimate realisation. So we need freedom from life but we cannot go down as martyrs to the cause of spirituality as Islamic people who commit suicide bombing to resist the persecution by the ugly elements of humanity do. The ultimate truth therefore is that one cannot be an advaitist. The true advaitist cannot live a human life being so. They belong in ashrams, temples and monasteries. That is how they are protected by society as survivors extraordinary in the game of Realisation. One cannot be an advaitist if one is attached to life, which is the greatest attachment of them all. I am not attached to life as I smoke incessantly, but for how long. I have one cigarette left and my family continue to hound me to give it up for their sake. I have to give it up for their sake as they need me to be around. My daughter has health problems. I need to be able to look after her.

So what is the meaning of life again? It is dharma. That is the only answer. Sanatan dharma as Hindus call it, not advaita. Even Hindus in ashrams and as gurus are performing sanatan dharma. It is through satyaadvaita that I have discovered and realised this. Advaitists attain moksha that is release from life through non-attachment. A person who calls himself an advaitist is not worth associating with for they do not know this truth. Advaita is a passing phase to the realisation of Sanatan Dharma. Why call it Sanatan dharma? Because it is eternal religion of Nature, that is Brahman-Nature.

I have arrived at this destination through the process of satyadvaita or truth accommodation which is a phenomenon that is worthy of appreciation. It was through neti neti (not this, not that) that I finally understood the meaning of life.

1 March 2020:

So today is the start of a new family life for me:

**Shantanu's list of things to do for physical and emotional well-being**

1. Go for a walk every day; it should be for 30 mins or more
2. Try to look up and be aware of your surroundings
3. Look after yourself
4. Drink 6 glasses of water a day
5. Brush teeth twice a day, first thing in the morning and last thing at night
6. When you are stressful, chew some gum: chewing action relieves stress.
7. Keep yourself well groomed; look good to feel good
8. Eat well
9. Stay in the kitchen when cooking
10. Read books and newspaper (Rashmi will bring in Metro and Evening Standard)
11. Watch TV
12. Sit in the conservatory and watch the wildlife in the garden
13. Sleep well
14. Stop printing rubbish; they are all safe in your email account
15. Do not see the world as your enemy; 90% of people you know are good
16. Stop smoking
17. Savings in Bank Accounts are good for a rainy day or drought depending on where one is in the world; do not waste money unnecessarily
18. Police and Courts do nothing about criminal anonymous emails or the Wordpress Blog restoration so do not contact the Police, Courts, solicitors and advocates again
19. Jobs are good to supplement income so go for the job interviews even if it is a part-time job. Keep applying for more jobs
20. Do not buy a new car until you have secured a part-time or full-time job and completed the probation period so that the job becomes permanent
21. Do not contact the Samaritans or anyone else but Rashmi and Rupa as I do not need externally-applied emotional and spiritual support because my Realisation is complete.
22. Develop the New Care Plan further as conditions change with Care Coordinator at Canada House as it is better to be under mental health observation and treatment than suffer delusions
23. Accept that I am mentally ill and take all prescribed medications for physical and mental health
24. Do not send any emails to anyone except for jobs and family-related matters and block all unwelcome emails
25. Do not sign petitions
26. Go on the internet for news, blogging, tweeting and posting as you feel daily for mental peace of mind

Plan Updated: 1 March 2020

Sanatan Dharma is not a religion but a way of life because whilst a Creator God exists eternally it has nothing to say to humans on Brahman-Nature and so is unknowable.

2 March 2020 Update:

I am a satyaadvaitist and this is what Sanatan Dharma entails: to live at oneness with truth as one finds it.

4 March 2020 Update:

The satyaadvaitic principle to always reply to chart my path forwards predominates all other considerations. I need to keep my contacts in tact for they are options that open up the path to survival. Optionisation and optimisation takes place. The contacts are avenues for personal development. I cannot be attached to the Care Plan and will modify it daily as I see my future opening up.

This is satyaadvaita that has no attachments, not any of the other forms of advaita that I have discussed. It charts a truth path for oneself to get through life unscathed. It is called truth accommodation and it generates its truth path automatically without any attachments on a daily and moment by moment basis to take account of circumstances in the imminent and durable realities as well as the permanent reality. That is what I am.

TOTAL YOGA: I call my brand of yoga satyaadvaita, or the oneness with truth that one finds oneself in in life during the course of one's nonchalant actions (karma) that are totally unpremeditated. The outcome of ones actions thereby performed is Sanatan Dharma, the eternal religion because it sets one free.

5 March Update:

The concept of dharmayudha is intrinsic to Sanatan Dharma . It emanates from the lessons of the epics the Mahabharatta and the Ramayana. This means that one has to always struggle in life to make the best of the circumstances that one finds oneself in. This is because Brahman-Nature created by Sri Krishna as the Creator comprises of sattvic, rajasic and tamasic guna gods in our consciousness. To be sattvic, one must stand up and be truthful and honest in all one's dealings. When one does this one creates enemies from the rajasic and tamasic vested interests in humanity. So there is a struggle to retain one's sattvic nature through appropriate responses to the persecution that is mounted upon one from the tamasic elements of society. That struggle is known as dharmayudha.

7 March 2020 Update:

The dharmayudha is to realise the truth and define one's 'Sanatana Dharma' as envisaged because it has explored the Reality tooth and nail and seen that there is no God or gods that one can or needs to relate to. This will lead to the basic question: what does one do in life: The answer is live. How does one live? By using one's intelligence to fight for one's survival. Where does intelligence come from? From something called truth, or the sense of perception of reality that requires a psychic attribute. If this attribute is at its peak one has a good life that is long and prosperous. That is all one needs to know.

8 November 2020 Update:

The power of Satya-advaita yoga

Do not try to establish any kind of dharma (duties and righteous actions) if you believe that God exists: it is not your job. Your role is only constant truth-search through the process of truth-accommodation. If you believe that a God exists as a personally-benevolent God your path is already charted out possibly as pre-ordinated in a pre-orchestrated universe so that on that Sri Krishna's leela belief (my personal understanding now rightly or wrongly) you need only to act subconsciously and never in a premeditated and calculated manner that is steeped In human analyses of a very complex reality as it changes moment by moment and so is so-highly transient that it is beyond the scope of the human mind to work out from the employment of pure intelligence of mind-

deliberations within the time needed for one to be able to react to material stimuli. And spontaneously we must react as time and tide waits for no one in one's conscientious commitment to honesty as being the best policy, for he who dithers is not sure of his facts and is still attached to hidden agendas which is neither good for one's own peace of mind it raises suspicions in others that one is up to some mischief towards others, and that is reprehensible as well as dangerous in the quest for self-preservation in liberty as the fundamental target moment by moment because otherwise others will attack-back in ways that threaten your material survival in liberty, comfort and spiritual prosperity from the elements of Nature who have vested interests in the intense competition that exists as a matter of fact for the natural resources of Earth in the natural course of life with their own means and resources of struggle for existence in asserting the law of the survival of the fittest in the evolution of the species in all its forms. This assessment of mine is basic common-sense and not a psychiatric disorder of paranoid-schizophrenia that I have been charged with but a highly evolved mechanism of survival-instinct based on the understanding of Brahma-Nature as the Ultimate Reality. I am a master-escapologist as I know the nooks and crannies of all man-made laws and therefore can survive the most totalitarian and horrendous of all evil-States in Brahma-Nature that can unleash its persecution on me to try and enslave me to deprive me of my dignity of independence and liberty to continue with my freethought and freedom of expression from the safety and security of my own home here in the United Kingdom by silencing the persecutors into their cubby holes. Such is the power of knowledge supreme-based satya-advaita yogic practices. So be realistic and truth-accommodating to test this theory of whether satya-advaita yoga generates material and spiritual prosperity and therefore continuous peace of mind in total security of liberty and liberty of security for the freedom to assess and rationalise the resulting direction of your life and as it influences Nature.

On Shanti Om Shanti Om Shanti.

### FATE AND DESTINY

Is fate preordained or is it in one's own hands? I say: calculate, analyse and use your brains, and stop thinking it is all pre-ordained as God's leela. Your Fate is in your own hands.

This is what experience of life has taught me in trying to access justice in my life when my employers dismissed me from service and denied me my redundancy money and tried every means possible to get the judicial process turned in their favour so that 22 years later I am still in the doldrums unable to secure a good life for myself for being rejected by an employer after an 18 year career in science.

My upbringing led me to have certain ideas about religion and who God and gods are, and this reliance prolonged my suffering until the day that I discovered that God only helps those who help themselves. So do not seek God to find your way forwards in life. He will never oblige. Why not is a good question.

I hasten to offer my assessment. He does not wish to be known to humans and is therefore known to numerous people as unknowable even when they believe that He exists. This is also the reason that there are atheists in this world who do not accept the existence of God in the first place. I seem to have come to the opinion that He has judged his invisibility or even unaccessibility to be in the best interests of mankind. For example, He would have to favour some individuals and discriminate against others if He became accessible in a clear scientifically provable manner.

So in my search of reality I have had to over the years increasingly come to self-dependence and not dependent on any Gods. That is the bottom line.

Fortunately the magic of Creation is that God has created Brahman-Nature within which there is scope for the sattvic minded to benefit from God-guidance in a way that one only believes that He is guiding whereas there is no proof of that for the individual in charting his life. Thus the lesson is forget God and Brahma, Vishnu and Shiva, depending on which of these Entities one subscribes to but use your intelligence, your brains as given to you by your genetics to take actions for survival, and if your dignity is important to you for survival with dignity.

Your Fate is therefore in your own hands, and it is wrong to say that what happens on Earth in humanity is the play of Sri Krishna or some other God as Creator, Preserver and Destroyer.

You make your own luck.

We accordingly have a Free Will.

7 March 2020:

As a person sows, so he or she reaps. It is all a personal struggle for truth and realisation. When people do not have the idea that conforms to the eternal laws of Nature, they suffer mentally and this gives them physical discomfort and associated ailments. I have determined over the years not to have any attachment whatsoever, so I am not attached to any preconceived ideas of what Sanatana Dharma is. All I know for certain is that God exists as a benevolent Entity and He cares for all life forms. From this knowledge I chart my personal journey as I go forwards from moment to moment and day to day living in harmony with all whom I respect and mean well towards.

We are all human and we make mistakes in our ways of dealing with the situations that we face: by continual truth accommodation, we travel a path that takes us to a life of meaning and fruitfulness. Those who are lucky arrive at the destination and live up to a grand old age having fulfilled all the

actions that shows that one has lead a meaningful life with no harm done to Nature in any of its components. To have lived like that means that one has found the Sanatana Dharma that is assumed then to have been God-approved. That is all that one can hope for in our persistence to become perfect in the way that we think and act. And better late than never in ones life. As long as we get to the ideal dharma before we die we have attained the highest level of realisation.

8 March 2020:

The greatest enemy of wisdom is the ego. It can only be suppressed with the right philosophy and outlook. I have been dealing with this at a personal level for 22 years since I terminated my work as a scientist to move on to higher things from that noddly work. I wrote that to my employers 22 years ago. But I had no idea of what it meant when I said it. I was to embark on a journey or self discovery. That was pre-ordained and so today as I reflect upon my realisation that I am a transcendentalist I questioned whether I found the ultimate reality and answers to all my questions. I am free of all attachments now and simply go through the motions of existence. When I said that I wanted to terminate my scientific work to move to higher things: who was putting words in my pen when I wrote that. That must have been a higher power on Earth who was guiding me into realising that I was wasting my valuable and precious time on Earth doing agricultural science when there were spiritual matters to be unravelled for myself. Do not get me wrong. I enjoyed what I did for the previous 18 years but it was replete with egotistical attachments to mundane matters like having a career, a house, holidays, family, making a name for myself in society by questioning the State's provisions of goods and services an law and order. Finally it dawned on me gradually that I was learning about life and its meaning for myself. So the evidence shows that it was pre-ordained and if enough people show such an analyses in their own lives, one might come to the view that everything that happens to everyone is preordained, for it is the exception that makes the rule.

## CONSCIOUSNESS

Can one's ability to know and realise the truth be genes-dependent? Or is it the case that there is an indescribable Entity called Consciousness that imparts the ability to fathom truth; the truth that generates the intelligence to survive?

### TRANSCENDENTALISM

I subscribe to transcendentalism that was realized by me through the yogic introspection of satyaadvaita or truth-accommodation and unattached even to this Realisation: Nothing exists. There is nothing to be attached to.

One just goes through the motions of actions prompted upon oneself as if nothing matters from unattached actions, for the consequences of one's actions are not considered. The actions and their consequences just chart one's path in life to one's destiny or Fate, whatever that is.

Of course one is selective in one's actions as these have to be orientated towards some objective for one is prompted into actions and the prompts cannot be ignored if one is to complete one's chores of living with dignity. For example, in society one is required to vote in elections for which one has to select between political parties. The process of selection requires one to determine which policies are going to be good for oneself in terms of one's conscience of right and wrong. So one has to have Sanatana Dharma the eternal religion as previously described. The essential point being that one must not be proactive in attaining changes but address the issues that one is confronted with. This requires knowledge of Brahman-Nature and a focus on preservation of this Entity that sustains us as humanity so one only acts in an advisory capacity when one is required to do so.

Another example of actions that need to be taken is when one needs to earn an income to feed oneself and have all the other basic necessities. It requires an approach that one has to satisfy one's employer and so one has to be selective on the choice of employer that one works for that is consistent with one's Sanatana Dharma. Bad employers should be advised to change their terms and conditions and if that fails one should leave employment at the earliest convenience to oneself in relation to one's need for income and survival because one should live as long as one's genetic predisposition allows.

Similarly, one's relationship with other members of one's family require careful consideration that one has conducted oneself such as to enable a peaceful existence. Other relationships such as friendships also require consideration in terms of one's selection such as to meet one's living needs and actions should therefore be entered into to promote harmony.

Thus all ones actions for survival need to be carefully thought out and only those that one's conscience permits should be engaged in.

So being a transcendentalist does not mean one has cut oneself off society altogether. It means that one is carefully fulfilling one's Sanatan Dharma while living in a totally unattached manner.

Unattached transcendental existence makes sense because everything is preordained as an illusion so that we humans have no Free Will in terms of our ability to influence anything that is already pre-programmed to take place. We are deluding ourselves that we are in control of events.

## SANATAN DHARMA

**Shantanu's list of things to do for physical and emotional well-being: Vows for Sanatana Dharma**

To The Central London County Court

Claim E35YM660: Hearing on 3 April 2020 at 2.00 pm for permission to Appeal.

Dear Sirs

Please note the following emailed message from the Mental Health authorities which implies that there will be a delay of up to 18 months or longer depending on the outcome of the assessment on my history and present state of mental health. This request for a delay in proceedings through adjournment is unavoidable for I am protesting against my diagnosis and treatment by the National Health Service over 22 years as the primary issue in my Appeal.

In the absence of clarification, I will continue to take my prescribed medications until that time that I am advised to do differently.

I trust this will be acceptable to the Court; if not kindly let me know immediately through my solicitor Mr Samuel Bancroft of Copland (presumed) or directly.

Yours sincerely

Hi Dr Shantanu

I can confirm we have received your referral dated 21/2/20 unfortunately our current waiting list is still approximately 12-18 months from the referral date. Your referral is still well within this current timeframe, though funding has been agreed, due to the volume of referrals we receive, patients are unlikely to be seen earlier than the 12-18 month period. However I do understand that this may not be very helpful at this time, I can confirm that you will be contacted in due course.

Kind regards

Iwen Okeh

To Administrator Maudsley Hospital

Dear Sir 1. I have this morning received a letter from Medway Clinical Commissioning Group (MCCG) as shown in the attached:

FrMedwayClinicalCommissioningGroup(AutismReferralFundingApproved)5Mar2020.docx.

2. I must take an early opportunity to stress emphatically that I am not autistic; I am a satyaadvaitist in Hindu terminology. Translated into English this term means that I am a truth accommodationist.

Kindly read about this here: Selfadvice for Sanatan Dharma being the eternal law:

Attachment to theories and beliefs leads to downfall. Avoid all forms of internetting communications. Do not see...

3. I believe in the existence of a Creator God, Sri Krishna, who is represented in the Trimurti by Brahma, the sattvic god who guides me in my search for truth by identifying my truth path in life.

4. I should be grateful for an early appointment at Maudsley as I have a Court Hearing at the Central London County Court on 3 April 2020 at 2.00 pm where the Judge will hear my long-standing complaint against the National Health Service of misdiagnosis and mistreatment verging on negligence if not criminally-motivated and which is the subject of substantial damages and compensation (of £1 million or more) as I have previously made clear to the MCCG.

Yours sincerely

13 March 2020 Update:

There are still 20 days to go before the Hearing in the Central London County Court with a Circuit Judge: if no letters come from Canada House in that time, I will not go to this Hearing. If some letter of appointment comes from Canada House in the meantime it will have to respond to what I have Blogged or a Mental Health Tribunal will do so through the passage of time. One way or the other this matter will be resolved by 3 April 2020 through Court Judgment on the reconsideration of permission to Appeal E35YM660 in my absence from the Hearing of course. For that I will go to the 19 March 2020 11.00 am appointment with Charles Stigant at Medway and Swale Advocacy Partnership so that the preliminary investigation takes place and is completed before Mental Health Tribunal is asked to consider the Case while I stay on in the Community or get incarcerated a third time by the authorities. My Diary Files have not seen the light of day and these are vital evidence to clear my name as a sane human being who has merely navigated Brahman-Nature through all his activities and endeavours from the isolation of my home.

15 March 2020 Update:

Application for extension of time of 12-18 months at an oral hearing to the Circuit Judge on 3 April 2020 at 2.00 pm at the Central London County Court

Reference: Notice of Hearing dated 14 January 2020 on Claim Number E35YM660

The Court Hearing on 3 April 2020, 2.00 pm is for a reconsideration of Order of the Court dated 24 September 2019 by His Honour Judge Letham for his refusal of permission to Appeal the Order of Deputy District Judge Smith made on 14 January 2019; and upon submission within 7 days of receipt of the Order for a reconsideration of that application for permission to appeal, this request being executed on Thursday, 3 October 2019, 09:21:03 BST with a progress report being sought on 8

November 2019, 19.59 hours; and leave to submit orally against the Order dated 24 September 2019 at a Hearing for the reconsideration of permission to Appeal being granted by the Court on 14 January 2020.

Justification: The justification for an extension of time for the oral submission was initially made through an application to the Court dated 11 March 2020, 12.26 pm by email.

The Claimant's arguments for granting an extension of time are as follows:

The Order of 24 September 2019 was based upon consideration of the Claimants Appellant's Notice dated the 27 August 2019 and the file of papers. It is submitted that:

1. His Honour Deputy District Judge (DDJ) Smith erred in law in three respects in the Court Order dated 14 January 2019:

(a) by not giving the Claimant the opportunity to seek an estimated extension of time implicit in his delays for the filing of amended Particulars of Claim. The 14 days allowed by DDJ Smith in the 14 January 2019 Order was woefully inadequate for the task of assembling the evidence in this civil litigation in such a manner that the perpetrators of criminal misdemeanours would not be able to defend against the particulars of Claim. It has taken the Claimant over one year from the date of the Order to prove beyond any doubt whatsoever that the National Health Service was grossly negligent or criminally-motivated with the correct diagnosis and treatment of his mental condition over the past 22 years as shown in the 9 January 2020 dated Care Plan from Dr Odesanya of Canada House where the Claimant has now been referred to the Autism Spectrum Diagnostic Services of Maudsley Hospital from initially being diagnosed as having persistent delusional disorder. Notwithstanding this continuing referral, the Claimant submits that he is autistic of a special kind that he describes as satyaadvaita or truth accommodating behaviour which is not a mental disorder requiring medications of any kind whether of anti-psychotic or anti-depressant types that he hopes the final examination at Maudsley Hospital will reveal in due course. His contention is that satyaadvaita condition of Autism Spectrum is a highly desirable behavioural trait that the Claimant has inherited as it aids survival of the human species in the most hostile environment that he has faced in the United Kingdom through the persecution organised intrinsically by Nature as defined under his conception of Brahman-Nature In the vyvaharika level of reality. This remains to be seen.

(b) the Particulars of Claim in the Claim Form were outlined in sufficient detail to begin the process of identifying the responsible respondents who were party to the Claim given that over 30 (close to 40) law firms, solicitors and advocates were approached by the Claimant but were manipulated by the State of Brahman-Nature associated humanity not to cooperate with him in providing legal advice and legal representation by an organisation naming itself 'Victims of Panigrahi Association' (VOPA) under the protective umbrella of the Police, the Legal Ombudsman, the Solicitors Regulation Authority and the Financial Ombudsman Service of the United Kingdom; and hence his allegation that the Claimant has made of state-organised persecution by a secretive Big Brother Police State in the United Kingdom.

(c) his failure to take account that the principle issue in the Claim was not that the Prime Minister failed in her and his duties to the State (this they discharged) but that the Defendants obstructed justice in office against the Claimant and then repeated this by filing a pointless and malicious defence by stating that the Claim Form's Particulars of Claim did not show a cause of action against the Defendant who abused his and her position of power to effectively manipulate the respondent institutions and VOPA to perpetrate persecution upon the Claimant and then disable his Blog at Wordpress.com which he had used as the final and ultimate level of justice attained by publicising the persecution that he had suffered. It is further argued that the Prime Minister abused his position of power as the Executive of the nation by not instructing the Lord Chancellor to examine the allegation reported to Her Majesty the Queen under petition that a lawful Hearing had never been implemented by the Ministry of Justice to hear the Claimant's original complaint 20 years ago against the National Health Service that caused the dismantlement of his scientific career at the University of Greenwich as well as the loss of redundancy payment of around £55,000 or £10,000 per annum as medical retirement from a trumped up charge by the University that the Claimant had

been blameworthy of gross misconduct at the workplace and therefore should be dismissed from service summarily without consideration of defence to his actions and conduct; an issue that also led unfairly to his loss of Shell Cashier's job in the subsequent years following this employment.

2. His Honour Judge Letham erred in law on four counts in the Court Order dated 24 September 2019:

(a) by not granting a Hearing there and then when DDJ Smith had also failed to do so considering that the Defendant had continued to keep silent to the repeated emails that the Claimant submitted to the Defendant as his evidence surfaced and permitted him to develop the updated Particulars of Claim that his single-handed investigations continued to generate and the state-persecution was unravelled and uncovered by him.

(b) in being presumptuous that the Appeal had no real prospect of success when the Claimant was still in the process of assembling the evidence of state-organised persecution.

(c) in failing to take account of the fact that the Appellant's Notice was assembled at a time when the Claimant was being persecuted by VOPA and which continued right up to mid-March 2020.

(d) stating that the Claimant failed to plead a coherent case; this could not be correct if the Claim Form is revisited with these present updated Particulars of Case that the Court received timely and countless emailed documents on as evidence since the Order was issued and which should all now be on the Court File for future reference.

(e) since no Defence to this updated Particulars of Claim has been filed by the Defendant the correct decision would have been to summarily issue the Orders that the Claimant requested, namely that:

(i) damages and compensation of £15 million to be paid to the Claimant by the UK Treasury; and

(ii) full restoration to be effected of the Claimant's Wordpress Blog

<https://shantanup.wordpress.com>.

3. In summary, the justification for granting an indefinite extension of time is based upon the aforementioned arguments of the failure and collapse in Case Management by the above cited Judges concerned with the disposal of Claimant's Claim; and consequently the appropriate decision would now be to grant the Claimant's permission to Appeal His Honour Judge Letham's Order dated 24 September 2019.

This application was submitted to Court, the Defendant, and the associated primary Respondent (Wordpress) by email on 14 March 15.37 hours by:

Dear Jo

Dr Odesanya returned my telephone call this morning and we had a pleasant chat on the phone where he said that my clozapine medication has now entered its final stage of approval and is proceeding well. He also reaffirmed the appointment with him and Dr Kingham of 19 February 2020

at 2.00 pm where I will be unrepresented by lawyers, advocates and chaperone except by my wife Rashmi who is very dear to me so I carry out her wishes voluntarily.

It requires dedication to one's chosen truth path to cope with the difficulties in the material sphere that Brahma-Nature poses a challenge to all of us human beings. I have discovered that if one chooses a path that does the least material harm or no harm at all to anyone (other human being or animal or plant), one is accommodating the prevailing reality spontaneously and so one therefore attains total peace of mind. This is the goal of all humans and animals who have minds. Of course plants also have some kind of sentient attributes and as such the ones that have survived the longest are adapted to their environment as Darwin hypothesised. This is because the philosophy is sustainable development of the person and the environment. It therefore comes under the aegis of Environmental Sustainability.

As one learns about the reality of Brahman-Nature one gets increasing spontaneous with ones actions to remove one's uncertainties in a positive manner because one has no attachments and one learns to appreciate Nature to live to the above philosophy fortified with increasing knowledge of the environment. I say Nature now because one does away with Creator God or any of his representatives in Brahman-Nature.

That is the Hindu advaita that I have discovered through the process of satya-advaita that I have translated as truth accommodation.

I hope I am not sounding pompous but just clarifying the nature of who I am as a human being.

# UPDATED PROCEEDINGS

CLAIMANT'S SUBMISSION AT COURT HEARING ON 3 APRIL 2020, 2.00 PM, ON E35YM660 AT THE CENTRAL LONDON COUNTY COURT To The Circuit Judge My Lord Updated Particulars of Claim: 1. I wished to do something positive for World Conservation in order to improve society and initiated the following petitions. Some were approved for hosting whereas others were inexplicably turned down and disabled by 38 Degrees and Liberty. This is what my Appeal is all about. Please refer to the following links in administering your decision on whether I am justified in voicing these concerns or not. If I am not, you may turn down my reconsideration of permission to Appeal the 14 January 2019 dated Order of the Court on E35YM660 (Dr Shantanu Panigrahi vs Mrs Theresa May; nay the present Prime Minister of the United Kingdom, Mr Boris Johnson). The petitions in question were: 38 Degrees websites: <https://you.38degrees.org.uk/my-campaigns> <https://you.38degrees.org.uk/petitions/making-wordpress-and-social-media-accountable-to-uk-parliament> <https://you.38degrees.org.uk/petitions/strengthening-the-international-criminal-justice-systems-to-deal-with-internet-crimes> <https://you.38degrees.org.uk/petitions/to-remove-the-criminal-charge-of-contempt-of-court-from-judicial-proceedings> <https://you.38degrees.org.uk/petitions/regeneration-of-the-national-health-service> <https://you.38degrees.org.uk/petitions/making-the-law-enforcement-system-accessible-to-ordinary-citizens> <https://you.38degrees.org.uk/petitions/reform-of-the-citizens-advice-bureau-to-provide-comprehensive-legal-and-medical-services> <https://you.38degrees.org.uk/petitions/reform-of-the-democratic-process-for-people-representation> <https://you.38degrees.org.uk/petitions/phasing-out-of-nuclear-energy-nuclear-weapons-globally-and-export-and-trade-in-arms> <https://you.38degrees.org.uk/petitions/preserving-and-nurturing-nature-s-biodiversity-globally> 2. Further evidence for my petitions may be examined at the following websites which have stood the test of time in that they were beyond criticisms from the general public because they are factual representations of the investigations that I have conducted in arriving at the petitions: Personal websites: (a) <https://www.shanpanigrahi.co.uk/> (b) <https://shantanu.wordpress.com> (c) <https://facebook.com/shantanu.panigrahi.10> (d) <https://linkedin.com/in/shantanu-panigrahi-a120b267/> (e) <https://twitter.com/ShanPanigrahi> 3. The evidence in these websites support the Particulars of Claim in the Claim Form and the Appellants Notice of a concerted national and international conspiracy against me to obstruct justice and pervert the course of justice by the States concerned. The government is therefore obliged to take these petitions seriously or give its reasons for not considering them through the normal processes of Parliamentary scrutiny. As you are aware, I have only asked for a nominal £3000 in damages and compensation for what I have suffered over 22 years and which have led me to these petitions since I am only progressing the Appeal proceedings because I believe it to be in the public interest nationally and globally. 4. I am happy to answer any questions that you may have for me in relation to these Particulars of Claim and the attached application for extension of time for the formal Appeal proceedings to be instituted. Application for extension of time of an indefinite period for E35YM660 Appeal proceedings: submission at an oral hearing to the Circuit Judge on 3 April 2020 at 2.00 pm at the Central London County Court Court's Reference: Notice of Hearing dated 14 January 2020 on Claim Number E35YM660 1. Background: The Court Hearing on 2 April 2020, 2.00 pm is for a reconsideration of the Order of the Court dated 24 September 2019 by His Honour Judge (HH-J) Letham for his refusal of permission to Appeal the Order of His Honour Deputy District Judge (HH-DDJ) Smith made on 14 January 2019; upon submission within 7 days of receipt of the Order for a reconsideration of permission to appeal, this application being executed on 3 October 2019, 09:21am with a progress report sought on 8 November 2019, 19.59 hours; and leave to submit orally against the Order dated 24 September 2019 at a Hearing for the reconsideration of permission to Appeal being granted by the Court on 14 January 2020. 2. Justification: The justification for an extension of time for oral submission to the proceedings are as follows: 2.1. The justification for an extension of time of 12-18 months for Appeal proceedings was submitted through an application dated 11 March 2020, 12.26 pm by email and reinforced by email on 16 March 2020 16.33 hours.

2.2. Claimant's arguments for now requesting the granting an extension of time for an indefinite period now are as follows: 2.2.1. Court Order dated 14 January 2019: HH-DDJ Smith erred in law in three respects in the: (a) by not giving the Claimant the opportunity to seek an estimated extension of time implicit in his delays for the filing of amended Particulars of Claim. The 14 days allowed by HH-DDJ Smith in the 14 January 2019 Order was woefully inadequate for the task of assembling the evidence in this civil litigation in such a manner that the perpetrators of criminal misdemeanours would not be able to defend against the particulars of Claim. It has taken the Claimant over one year from the date of the Order to prove beyond any doubt whatsoever that the National Health Service was grossly negligent or criminally-motivated with the correct diagnosis and treatment of his mental condition over the past 22 years as shown in the 9 January 2020 dated Care Plan from Dr Odesanya of Canada House where the Claimant has now been referred to the Autism Spectrum Diagnostic Services of Maudsley Hospital from initially being diagnosed as having persistent delusional disorder. Notwithstanding this continuing referral, the Claimant submits that he is autistic of a special kind that he describes as satya-advaitic or truth-accommodating behaviour which is not a mental disorder requiring medications of any kind whether of anti-psychotic or anti-depressant types that he hopes the final examination at Maudsley Hospital will reveal in due course. His contention is that satya-advaita condition of Autism Spectrum is a highly desirable behavioural trait that the Claimant has inherited as it aids survival of the human species in the most hostile environment that he has faced in the United Kingdom through the persecution organised intrinsically by Nature as defined under his conception of Brahman-Nature In the vyvaharika level of reality. This remains to be seen. (b) the Particulars of Claim in the Claim Form were outlined in sufficient detail to begin the process of identifying the responsible respondents who were party to the Claim given that over 30 (close to 40) law firms, solicitors and advocates were approached by the Claimant but were manipulated by the State of Brahman-Nature associated humanity not to cooperate with him in providing legal advice and legal representation by an organisation naming itself 'Victims of Panigrahi Association' (VOPA) under the protective umbrella of the Police, the Legal Ombudsman, the Solicitors Regulation Authority and the Financial Ombudsman Service of the United Kingdom; and hence his allegation that the Claimant has made of state-organised persecution by a secretive Big Brother Police State in the United Kingdom. The latest example of this lack of cooperation is the non-acknowledgment of these proceedings by inaction by Outsetuk, Bassets, Emb, Coplands, Medway and Swale Advocacy Partnership and Liberty which has left me exposed to VOPA's manipulations of justice and accompanied persecution. So I am without any legal representation now. (c ) his failure to take account that the principle issue in the Claim was not that past and present Prime Ministers failed in his/her duties to the State (this they discharged) but that the Defendants obstructed justice in office against the Claimant and then repeated this by filing a pointless and malicious defence by stating that the Claim Form's Particulars of Claim did not show a cause of action against the Defendant who abused his and her position of power to effectively manipulate the respondent institutions and VOPA to perpetrate persecution upon the Claimant and then disable his Blog at Wordpress.com which he had used as the final and ultimate level of justice attained by publicising the persecution that he had suffered. It is further argued that the Prime Minister abused his position of power as the Executive of the nation by not instructing the Lord Chancellor to examine the allegation reported to Her Majesty the Queen under petition that a lawful Hearing was never implemented by the Ministry of Justice to hear the Claimant's original complaint 20 years ago against the National Health Service that caused the dismantlement of his scientific career at the University of Greenwich as well as the loss of redundancy payment of around £55,000 or £10,000 per annum as medical retirement from a trumped up charge by the University that the Claimant had been blameworthy of gross misconduct at the workplace and therefore should be dismissed from service summarily without consideration of defence to his actions and conduct; an issue that also led unfairly to his loss of Shell Cashier's job in the subsequent years following this employment. (d) in the absence of an appointment from South London and Maudsley NHS Foundation Trust with reference to the email submission of 16 March 2020 16.33 hours copied to the Court to reconsider its rejection of a second-opinion

outpatient's appointment for its Autism Spectrum Diagnostic Services and the simultaneous arrangement made for the Claimant to have an appointment with Canada House on 15 April 2020 at 10.00 for continued assessments of this diagnosis and treatment, it is necessary for Appeal proceedings to be extended for an estimated 6 months pending the receipt of a report (Care Plan) from Canada House.

2.2.2. Court Order dated 24 September 2019: In turn, HH-J Letham erred in law on a further four counts in the: (a) by not granting a Hearing there and then when HH-DDJ Smith had also failed to do so considering that the Defendant had continued to keep silent to the repeated emails that the Claimant submitted to the Defendant as his evidence surfaced and permitted him to develop the updated Particulars of Claim that his single-handed investigations continued to generate and the state-persecution was unravelled and uncovered by him; (b) in being presumptuous that the Appeal had no real prospect of success when the Claimant was still in the process of assembling the evidence of state-organised persecution; (c) in failing to take account of the fact that the Appellant's Notice was assembled at a time when the Claimant was being persecuted by VOPA and which continued right up to mid-March 2020; (d) stating that the Claimant failed to plead a coherent case; this could not be correct if the Claim Form is revisited with these present updated Particulars of Claim that the Court received timely and countless emailed documents on as evidence since the Order was issued and which should all now be on the Court File; (e) the Order of 24 September 2019 was based upon consideration of the Claimants Appellant's Notice dated the 27 August 2019 and the file of papers. The Claimant has not received full written reasons for the judgment and has not yet seen the Court File for contents; (f) both Judges failed to seek the Court File relating to High Court Claim No: HQ17X01773 in which Kent Police was litigated for failure to address a dozen complaints against individuals and institutions, such as the Labour Party (under my membership No L1545992) for gross obstruction of justice as is clear from the Party's decisions not to consider the Claimants Motions to the Annual General Meetings to implement 'Green Socialism' nor voice this petition to the Prime Ministers in Prime Minister's Question Time in Parliament; (g) failure to incorporate the evidence of the deliberate perversion of justice by Denise Ross of Stampa Global in conjunction with Authorhouse UK in the prevention of the publications of the Claimant's book, 'The Allurement of Reality' in 7 volumes; (h) failure to seek the international respondents including the Indian, Israeli, Pakistani and Chinese governments as well as the United Nations, the European Court of Human Rights, the International Criminal Court and the European Court of Justice in their perpetration of persecution upon the Claimant; and (h) since no Defence to this updated Particulars of Claim has been filed by the Defendant the correct decision would have been to summarily issue the Orders that the Claimant requested, namely that: (i) damages and compensation of £15 million to be paid to the Claimant by the UK Treasury; and (ii) full restoration to be effected of the Claimant's Wordpress Blog <https://shantanup.wordpress.com>.

2.2.3. Coronavirus isolation impact upon proceedings: This national and global pandemic is also an extenuating emergency circumstance that impinges of the Appeal proceedings as MSAP have now said that it cannot decide whether to represent me to the Mental Health authorities for the next 2 weeks before a meeting can be arranged concerning the clozapine administration recommended by Dr Odesanya in his Care Plan dated 9 January 2020, that I am currently resisting the imposition of. The Central London County Court was requested to hold a telephone Hearing or pass judgement on the Oral submission made to the Circuit Judge on 18 March, 7.12 am by copy of an emails sent to Maudsley Hospital with reference to an hastily arranged appointment for me to see its diagnostic services on 3 April 2020 at 12.20 pm, which the Hospital subsequently withdrew. Further there has been no written confirmation of the appointment with Canada House's Consultant Psychiatrist that was scheduled to take place on 15 April 2020 at 10.00 am.

3. Summary: 3.1. In United Kingdom's unwritten Constitution, civil proceedings are fluid and need to be continually updated with Particulars of Claim with one's imminent circumstances, which I have done.

3.1.1 The justification for now granting an indefinite extension of time for the Appeal proceedings to be heard and implemented with a Defence is based upon the aforementioned arguments of a total failure and collapse in Case Management by the above cited Judges concerned with the disposal of Claimant's Claim; and the continuing appointment made upon the Claimant for

another review of the diagnosis and treatment of his mental health by Canada House. This together with the coronavirus emergency measures of the government means that the requested delay in proceedings is unavoidable. 3.2. Since an extension of time for formal Appeal proceedings can only be granted if there is an Appeal in progress, the appropriate decision would now be for the Circuit Judge to grant the Claimant's permission to Appeal HH-J Letham's Order dated 24 September 2019 pending the full Appeal proceedings to come in which the above cited Orders will need to be considered. 4. Appeal Plea to be submitted in person by the Claimant: In view of a total collapse in the legal establishment for the Claimant's attempts to access legal advice and representation, the Claimant Dr Shantanu Panigrahi of 3 Hoath Lane, Wigmore, Gillingham, Kent ME8 0SL; Tel: 07967789619; will present the submission directly to the Court on 3 April 2020 at 2.00 pm by personal appearance before the Circuit Judge. Dated: 20 March 2020; 11.00 am.

Dear Mr Panigrahi

My name is Ai Yong. I am Manager at CTBC Bank here in Hong Kong. I hoping this meet you in good health. This letter is posted on my behalf by a friend who is travelling to United Kingdom. I contact you regarding the funds of a deceased client with surname of Panigrahi under our management. Please I ask that you keep the information in this letter confidential between both of us as I contact you independently and no one know of my communication to you.

In 2004, a client by name of Mr John Panigrahi set up investment account wth our private banking division. He had portfolio of \$11 million USD when he invested. In 2005, he instructed that the initial sum (\$11M) be liquidated because he making an investment requiring cash payment in Beijing. We contacted a specialist bank on the mainland; Shengjing Bank, who agreed to receive this money and make cash available to Mr John Panigrahi. However, Shengjing Bank communicated last year that

this money has not been claimed. On enquiry, I found out that Mr John passed away in Jiangxi. He has no next of kin and the reason I am writing you is because you have the same surname. I have access and control to this file so that what I plan is that I insert documents that make you the beneficiary of these funds. Shengjing Bank will have to contact you because you are the legal beneficiary. On verification, which will be the details I make available to CTBC, Shengjing Bank will be instructed to make payments to you.

Please trust me, this is 100% achievable. What I proposing is that we split the money 50/50. The alternative is that the money will go to the government. Nobody gets hurt in this deal, this is a very good opportunity for us. I would like us to have communication by my above and email.

Please I am a family man and I have take risk to contact you but I know in life you have to take any available chance to succeed. If we can be in agreement, we should act quick on this. Please get back to me as soon possible.

I await reply, many thank you

Ai

Claiming Funds as Beneficiary in Hong Kong and Beijing2

Dear friend, I hoping you are well, I will say the important issue. Shengjing Bank got in touch with us last year that this funds have been unclaimed and I saw the opportunity when I noticed that there was no next of kin in the bio data form of Mr John . I then pay a heir tracer to locate and help me get contact details of someone with the same last name with Mr John and hoping it would be one of good repute. He then give me your name and that was how I contacted you.

I believe that the whole process take about 2-3 weeks for the funds to be transferred to you. At present I have exclusive access to Mr John's file. I will be instructing a solicitor here to prepare documentation in your name. This will then be put in his bank record file and presented to CTBC board, where i work. It will then be approved and authorization given to Shengjing Bank to make payment to you.

I must point out to you that there is no wrong on your part. At the end of the day it is Shengjing Bank that will be contacting you to inform you that money has been left for you. You are not contacting the bank so you are doing absolutely nothing wrong or taking any risk. The only person who could have disputed this is dead. You must understand that there must be serious confidentiality about this deal.

As soon as CTBC has gone through all formalities, they will instruct Shengjing bank to make payments to you. Please you can reach me on my email or tel/00 85281931408, You can call to me at any time. I will be speaking to you when necessary as this is precaution.

Please confirm your full names, telephone and occupation as I need as confirmation to insert into Mr John 's file so i don't make mistake in any spelling. My friend please let us be discrete and keep this deal between both of us and you do not have to telling the embassy how this deal came, as we both make one of the most fruitful steps of our lives and please never disclose to the bank that i am in contact with you. Please get back to me as soon possible, many thank you Ai

## SUFFERING

### Suffering: Is it Unavoidable?

In the periods or moments when I lost control of myself I acted as though there was a God for me (Brahma as a representative of Creator God Sri Krishna in the Trimurti) but I quickly got over it by stepping into the realm of my paramarthika mode of realisation wherein I detached myself from the experiential reality of vyvaharika. For the experiential reality is mundane and pointless existence that is biologically driven in Nature in which Brahman-Nature directs affairs in a pre-ordained fashion while giving us poor humans the impression that we have free will to chart our futures when we are all fated to our destinies. Hence there is no rhyme or reason to subscribe to worldly existence that I regard as an illusion of reality that only generates the cunning feeling that we are in control of our lives. The manifestation of coronavirus just goes to show how helpless we are in the perceived reality of vyvaharika in which we therefore suffer mentally and physically unnecessarily and try and find means to alleviate the suffering from medical solutions or religious theological beliefs and philosophical ideas such as Buddhism. We need to grasp the fact that nothing we believe and act in accordance with by imposing rules and regulations on ourselves will generate peace of mind individually or collectively for which the only answer is total detachment from the vyvaharika reality by abolishing our attachments to all concepts inherent or considered as factual in our comprehension of what is going on.

Therefore, the answer to mental suffering that are definitely borne of delusions of reality is to lose ones attachments to the processess of living and gain spirituality to guide us nonchalantly and spontaneously as we enter another day in time.

We need to look upon Existence as illusionary and consider its manifestation as nothingness.

Dear Ms Broadley-Johns

1. Whilst it is true that Medway and Swale Advocacy Partnership have not yet committed itself to representing me at either the Central London County Court, or Canada House or Maudsley Hospital, I accept your discovery that the Court Hearing of 3 April 2020 at 2.00 pm has been cancelled with the Court taking due regard of all my emailed communications that I brought to its attention. This does not mean that I have abandoned my E35YM660 proceedings which may be reinstated through my solicitor Mr Samuel Bancroft in due course, once the governments announcement that the measures taken to deal with the Coronavirus epidemic that we should not leave our homes except to obtain food, go to work as a Key Worker (for Sainsbury's in my Case, until I hear otherwise from my employers), allowed one outing for exercise each day only, and keeping associations with people limited to two at any given time are lifted. This is because the government cannot simply ignore my concerns and complaints as you are doing and so are the rest of the respondents that you refer to in your email, such as 38 Degrees with respect to the attached petitions that are in progress:

Fr38Degrees(Response to review two petitions)23Mar2020.docx.

2. In the meantime let it be placed on record that I will challenge any attempt by the government to process court action to recover any costs against me for the litigation that I have mounted against the Prime Minister in Claim E35YM660, so that you should start these proceedings straight away in order that I get to the justice of having £15 million+ in damages and compensation that need to be ordered by the Court to me for 22 years of State-organised terrorism and persecution, and have my Blog: <https://shantanup.wordpress.com> restored by Court Order in view of your continued intransigence, while humanity suffers.

Your immediate reply to this email is necessary.

Dear Mr Panigrahi,

On my return to the office I took note of your lengthy email of 8:16 am on Monday.

In order to keep down our costs, which I understand you will be compelled to pay, I have not read it.

You will already have been made aware of the fact that the 3 April 2020 hearing for case reference E35YM660 has, on 4 March 2020, been cancelled at the direction of the Court.

I am led to believe this was in response to your own application of February 11 to "drop" the action; E35YM660 no longer exists. I see you too confirm this at

<https://www.shanpanigrahi.co.uk/445104855>

In due course, we, on behalf of HM Government, will make an application to the Court for costs etc., and you will be notified of the same by them. Communications such as your recent one

Should you wish to serve us with documents, the only way to do so is by delivery to Government Legal Department, 1st floor, 102 Petty France, Westminster, London SW1H 9GL.

I have no idea who is Medway and Swale Advocacy Partnership, and why they are included in this correspondence. Though they are not entitled to represent you in Court, I include them here.

Likewise with all the other recipients of your email, except I have omitted them from this response.

Given the likely quantum of the costs order we will be seeking, I suggest you consider obtaining legal representation as a matter of urgency. Naturally, that is your prerogative, but I believe such failure will count neither as a defence against our contra-pos application, nor mitigation.

Dear 38 Degrees

Thank you for asking me to review progress in the following two petitions:

<https://you.38degrees.org.uk/petitions/phasing-out-of-nuclear-energy-nuclear-weapons-globally-and-export-and-trade-in-arms>

<https://you.38degrees.org.uk/petitions/preserving-and-nurturing-nature-s-biodiversity-globally>

I think people and governments are in a state of utter shock that Nature could seemingly find a way of inflicting pain upon humanity through the coronavirus epidemic that has brought all international economic development to a standstill. And we have no idea how long the virus will be around.

We as human beings need to understand that you cannot buck the market as economists say by which I mean the supplier of goods and services in Mother Nature cannot be over-exploited forever because of Gaia in Brahman Nature who enlightened philosophers refer to as Mother Nature. Greed in global institutions funded by the rich in an ever-spiralling bid to acquire more wealth needs to be regulated by governments and restricted by an international agency such as the United Nations though the World Bank and the international Monetary Fund. We cannot use a sledgehammer to destroy all forms of life apart from ourselves as we are not a self-sufficient species but are interdependent and share the Planet with other creatures, including viruses, bacteria, fungi, insects etc. The lesson of antibiotics is a prime example that Nature will adapt through the evolution of synthetic-drug resistant species of microorganisms and larger animals and plants. We cannot use a sledge hammer to destroy organisms that we consider as weeds and pests because that will have a tremendous deleterious knock on effect on the ecosystems of different habitats from which poison-

resistant plants will evolve and the cycle of endless killing will continue between humans and the wider natural world.

Nuclear weapons and nuclear energy-generated radioactive wastes will kill microorganisms in the short term but environmental Science dictates that new radioactive-resistant microorganisms could develop over which we will have no means of control and which will parasitise on human beings like Ebola in addition to making us vulnerable directly to the radioactivity because we are not immuned to this carcinogenic agent that is dispersed in the uranium deposits in and under the Earth's crust but will accumulate from exploitation. I wrote in my Wordpress website Blog, Towards Knowledge for World Conservation an article on the Impending Economic Doomsday Scenario for the World from unbridled capitalism and big business closed down the Blog in which I was explaining that money comes from the environment and has been accumulated over thousands of years from utilising unsustainably the finite resources of the Earth instead of renewable resources. Money comes from carbon dioxide and water together with associated minerals in the soil that cannot be controlled by us humans without serious repercussions for our long-term well being and those of future generations of humans and life forms.

Decimating the environment by radioactive emissions from nuclear power and weapons have toxicity impacts and implications on all living beings directly and indirectly so that radio-activity-resistant varieties of micro-organisms may develop to rival the human species in the occupation of the Planet. The lesson of mass extinctions that scientist now know about as having wiped out entire generations of certain living creatures were the result of the living forms like the dinosaurs not adapting to their environment and Nature took it's course to reboot a new generation of living creatures in the Paleontological Tree of Life. We humans are not invincible and will perish in the same way quickly if we do not understand this basic Gaia hypothesis of how Brahman-Nature works and continue to seek guidance in religions as if a God may come and save humans from their suffering because of the perceived ignorant brainwashing that man is made in the image of God. God created Brahman-Nature but does not directly interfere in how living creatures live. So I am an atheist in this particular respect and denounce all religions as the cause of all human maladies that makes us fight with each other to see who gets the lion's share of the finite natural resources of the Earth.

We do not need energy to the extent that we are utilising it with no concern for the environmental impact such as global warming from the usage as Nature will have its own way as it has always done over billions of years. We do not need fashion clothing for example as simple austere food, clothing, shelter, transport, healthcare is all we humans need for a life span of 70 years, beyond which living is a pointless existence serving only self-gratification at the cost to the environment. We do not need more than 2 children per family at the maximum because overpopulation of the Earth has caused severe and widespread damage to the environment that generates our basic necessities.

Accordingly, G7 and North Atlantic Treaty Organisations and all international economic institutions such as World Bank and the International Monetary Fund need to be abolished to prevent the spread of capitalism globally, as we humans finally begin to learn the lesson of coronavirus, small pox, malaria, tuberculosis, polio, diptheria, typhoid, etc to know that we humans are doomed if we do not heed this warning. Instead the government of the United Kingdom seems intent upon banning Extinction Rebellion as a terrorist organisation, and I was persecuted by the State over 22 years because of these criminals and vandals of Nature. All my efforts at bringing the Prime Minister to address these concerns were blocked by the Courts of the State. Further you would take notice that the Labour Party banned me from voicing my concerns and ideas because I was discussing these matters following the concept of Green Socialism.

I do not have the scope to write a Thesis on Environmental Science since the UK State terminated my scientific career in which I secured Distinction Post Graduate Diploma in 6 out of 7 Course Units and was prevented from getting an MSc in Agricultural Development with Distinction because the University of London rejected such concerns in my 7th Unit Dissertation. Such is the power of the international economic vested interests who are interested in nothing but converting natural

resources into money with ever increasing and insatiable greed. The food shortages in the wake of the coronavirus epidemic that generated panic buying by consumers shows that when hunger bites all the niceties and civility goes out of the window as we begin to enter the rat eat rat and dog eat dog competition to acquire these basic necessities.

Dear Extinction Rebellion

I have just submitted an application in a tentative bid to join Extinction Rebellion through your website and pending consideration of this application wish to obtain more information from you on the Rationale for our Existence. My concerns are as shown in the attached communication: To38Degrees(Response to review two petitions)23Mar2020.docx to see if I am on the right tracks on my thinking about this issue.

I obtained your email address from the following webpage. This is the official source for Extinction Rebellion UK news, press releases, updates, images & videos. Email: press@risingup.org.uk Phone: +44(0)7756136396 | +44(0)7756142621 Facebook | Twitter | Instagram | Videos Videos Archives - Extinction Rebellion

I have always subscribed to lawful means to make my voice heard and so do not subscribe to violent protests, let me make this clear. I believe persuasion and legal processes must dictate my actions. This means we need to find solutions that will be evolutionary and not revolutionary in our climate change protestations.

A quick reply will be very useful to me.

You may also benefit from knowing Panigrahi is on the Anti-Defamation League's list of antisemites.

Dear Sir

This email that is signed restricted is from an association of criminals that have named itself as Victims of Panigrahi Association (VOPA) which has organised the sending of nearly 300 criminal anonymous emails to me, my wife and other acquaintances because it is listed as a defendant in my Claim processed by the CCMCC through the Central London County Court instead of through Medway County Court that my application stated but it refused to hear my Appeal by issuing the attached 'Court' Order (see Dr S Panigrahi.pdf), thereby initiating the intensification of persecution which had been dormant since 2008 when I was incarcerated for a second time in a mental hospital because I took the State-criminals to Court.

Its mastermind since 2017 is Mr Marty Caine but others too are engaged like Gurpal Singh Tiwana of Nares Road Rainham - my wife is convinced -; and Professor Nitin Bhardwaj (a so-called Psychiatrist living in India from my investigations) and Sivaji Panesar (who was initially the agent of terrorism on me both of these seemingly now hiding in India to escape the wrath of the UK State so that an extradition warrant needs to be issued accordingly. These criminals use multifarious sources of internet IP addresses to hide their tracks from investigators as your Police officer who visited us at our home and checked through the computer records apparently decided, so that you may also now encounter difficulties in questioning them for arrests.

I know the Court Order was issued from the Central London County Court because there was supposed to be a Hearing to consider my application of reconsideration for permission to appeal His Honour Judge's Court Order dated 30 September 2019 see attached communications:

FrAdminCourtOffice(CAE)6Apr2020.docx and Central London County Court Order E35YM66030 September 2019 that perpetuated this round of criminality.

Is there no way of bringing these criminals to justice by referral of the Case to the Crown Prosecution Service?

Dear Samuel,

Please take this seriously. Shan Panigrahi is a deranged stalker with a deep, abiding and malevolent hatred for his charitable betters. His local police are terrified of his cunning and his false allegations against them. The last time they sent three WPCs to his hole and he boasted he gave them beverages with ejaculate serving as coffee creamer. In the old days, when they had balls, they might have taken the cunt to the back of the station and half kicked his head in. If that didn't stop him, it would have been repeated but with a possible terminal outcome. The cheat is targeting JC&S; because he thinks you will pay him a bung to shut him up, and to end the publication of defamation by him on social media etc, that you are crooks, liars and peddle child pornography, as a starter for ten. If you don't give in, he starts with the serious blackmail material he has invented to extort money from solicitors. So take this seriously now, pre-escalation. I didn't do this myself when, with no reason at all, as I suspect is the situation with your firm, he began a vicious online assault on my

reputation, and that of my chambers. I regret that. It took me a whole year to get his whole wordpress blog dismantled and all archives simultaneously deleted, but the fuckwit has resurrected part of it at shanpanigrahi.co.uk. I entreat you to neither pay him his bribe nor succumb to the temptation to pay for a Pest Elimination Service. I will leave a message on your switchboard with the mobile number of a Chief Inspector who is also committed to ridding Kent and better still England and better still the planet itself of this ugly person. Remember. Panigrahi won't stop, can't stop, until he is stopped. No use appealing to his family, they are if anything even worse. Rashmee and Rupa find it amusing that their head of household has caused several suicides.

## MIND

What is the entity we have that we call the Mind?

Mind is the thinking capacity of the brain. There are two elements to the Mind in my experience: one is the intellect (analytical on factual observations) and the other is truth consciousness (imaginations and dreams sorting).

As a jiva, one uses only one's intellect as the thinking capacity of the brain to guide one. When the Spirit of Truth awakens this mind to seek better means to live and survive, one searches within and realises one's atman. Henceforth the individual is a jivatamaan relying on the Spirit of Truth to overcome the intellect and live in a different frame of mind. When one finds that this reliance on truth consciousness is superior in attaining one's goal of survival, one loses all ones attachments and works only on the basis of the Spirit of Truth within. When this process is fully developed one sees that the Sprit of Truth is part of Creation manifest in Brahman-Nature and is a failsafe way of operation for the individual whose self has disappeared from relinquishing attachments and ego and so with evidence the mind is focussed on the Spirit of Truth whereby one does ones chores nonchalantly and spontaneously. This is when atman=Brahman, the physical energy of the universe. There is no Personal God in ones non-duality of existence. That is how I see the workings of the Mind.

So the thinking capacity of the brain has functionality in determining the best way to live according to the Creator's creation of Brahman-Nature. The brain is part of the body (jiva): the Mind is consciousness that gives the brain its thinking capacity. The Mind searches for facts in two ways: through imaginations and by intellect (analytical). This search is unending for Truth/truth is Infinite/infinite. The Mind is therefore the thinking capacity of the brain for seeking truths to enable survival: hence, Mind is infinite too. There is also a third element in one's consciousness that the Mind assesses: this is the Spirit of Truth, the God element overriding the Mind when atman=Brahman so that the basis of Truth is clear in the body's operations as eternal law of Sanatan Dharma.

## MESSIAHS AND PROPHETS

### What are Messiahs and Prophets of God?

When all is said and done, and one knows that there is a Creator God with what might be perceived as shortcomings in Him/Her as perceived through our individual senses (self-derived) it is not something that can be totally redundant for one has to take account of what Brahman-Nature imposes on us. Similarly, parents are also not redundant spiritually as we recall their actions in having given birth to us and having raised us in our best interests by providing us not only with food but also education because they truly cared for us. The same is true of my relationship with God. He has tolerated all my self-derived questions and stood by me in the most unassuming manner while I sought truths in all aspects of my life. So advaita aside as being a spiritual philosophy (one cannot call it science obviously because God is not amenable to be questioned by us. After all He/She is the Monarch of the Universe, the Supreme Leader of all living beings including viruses, bacteria, insects worms, lions tigers elephants, etc) I do have bhakti that I expressed to God this morning. So I am not in final analysis an advaitist but a Sanatani channelling the flow of information from God to all humanity as a conduit.

So I believe now that I am a I am Conduit channelling the flow of information from God through the Spirit of Truth within me known as Om.

Dr Rao practiced lexigramming that I referred to in that letter. I further explained that psychotic in lexigramming comes from the word psychic and prophesised on reflection that this was not a medical condition requiring treatment unless of course 'Big Brother' wants a nation of morons in a Police State. Either I am Clairvoyant in having said that then or I am a Messiah/Prophet: you be the judge.

## TRUTH

Truth/truth: what is it?

The definition of paradox on the internet is 'a seemingly absurd or contradictory statement or proposition which when investigated may prove to be well founded or true'. Does any one know and will we ever know anything for certain?

We persist with our truth search individually and collectively but we have not found a Moses, Jesus Christ or a Buddha Shankaracharya, Mahatma Gandhi, Aristotle, Plato, Darwin, Newton, living amongst us now. We have is the Pope, Dalai Lama, Donald Trump Angela Merkel, Boris Johnson, Narendra Modi, Xi Jing Pin, etc. All we seem to admire and follow are the legacies left behind by sages through history and so we only have second or third hand information on what is true and what is false. So my question is will humanity ever find a man as God, or do we always live in delusion of a promised land?

Jay Heckathorne wrote in response: Funny, a truth claim is made while denying truth can be known.

My reply to that is as follows: I am ignorant and this has not proven to be bliss: my posts continue to question everything in order to see how my life ends in terms of the state of my knowledge and wisdom from education through research. I reevaluated everything continually before coming to the conclusion of this post. Truth is subjective according to one's state of knowledge. When one is child, one does not know anything. Then the State and society influences you by educating the naive and the innocent. When these fail to satisfy the quest for truth one embarks on a truth-seeking process awakened by a inner force within oneself. Then the person is allured to Reality and spends all the rest of the life in ascertaining the truth. This includes whether a God exists who awakened the person by removing Him from mundane matters of material welfare. So one has been led to investigate the nature of God relentlessly by corresponding with the imagined Being and corresponding with the experiential reality, both together. This is developed through the science of satya-advaita or truth accommodation wherein one searches for the truth about everything and constantly accommodates the self in the new-found reality. In the process of doing so one eliminates falsehoods on a moment by moment basis (neti, neti, in Hinduism) and slowly the delusions are clarified and demystified. When I wrote this Claim, my truth search had not reached its destination of whether atman is the doer or paramatman is the doer or indeed if there is simultaneous oneness and separateness between the atman and the paramatman. I was not convinced that I had found my atman through the yoga of satya-advaita. I still haven't so I continue on with my Research and find what that truth leads me. The only reason truth has led me is if God had awakened my from my slumber when I was a research scientist at the Natural Resources Institute of the University of Greenwich and wrote, prophetically that I was moving on to higher things from the noddly work of animal sciences and agricultural development. That is only an assumption for there is no human being on Earth who can confirm or deny the experience that I have been through as a legitimate process of truth-seeking. I have tried to find God's intentions for me as if I had been inspired in 1997 to follow a God-instituted mission for mankind and He would not answer this question, so I am left to ponder whether it has been yet another man-inspired mission that I have undergone. I do not know the answer to that and I have run out of options to investigate it further because I could not statistically prove that the digital clock checking method that I employed from 1988 to exchange messages with God definitely proved the existence of God for not only myself but also for humanity. This is because in the 10 years that I operated my journalistic career at Wordpress through my Blog: <https://shantanup.wordpress.com> set the goal of 'Towards Knowledge for World Conservation', that was disabled by the Company so that I had to pursue it by other means I had set out the highest possible ideals towards which I would strive personally as my sanatana or Sanatana Dharma. Shantanu

Panigrahi's Blog SHANTANUP.WORDPRESS.COM I am wise today than ever in my past since the day I abandoned my career at the University of Greenwich because I know this truth. That is proof of my Claim in this post. It only teaches you this truth. Shantanu Panigrahi's Blog SHANTANUP.WORDPRESS.COM Shantanu Panigrahi's Blog Shantanu Panigrahi's Blog

The day I stop writing would be the day when I have found the truth/Truth.

Keep your bags packed, Shanitary. It won't be like the last few times they had put you inside for observation or treatment. This time it is for another reason. And it is for keeps.

The current scare has made it much easier.

We have one question only for you. Even the two "Paul"s, who know you best, are not able to answer it to our satisfaction. While we know you are mad bad wicked, why would you think or pretend to think the police are going to even try to help you stop the mental health services from locking you up to protect the general public?

The police hate you almost as much as we do or your neighbors do. Or did you not do a SAR ??

1. Please note the following on the eve of my 3 April 2020 2.00 pm Hearing with the Circuit Judge.
2. I seem to have come to the understanding with the Defendant and all respondents that all matters contained in my Claim Form and Appellant's Notice have reached satisfactory conclusions apart from the restoration of my cherished Blog with Wordpress, on which the Company continues to be intransigent. I need the Blog restored as soon as possible. Please adjudicate accordingly.
3. Dear Sam,

Thank you for accepting my telephone call yesterday.

I cannot say exactly when we will get his website's upstream host to pull the plug, but we must not wait till that time. Action is needed now. I want to stress that on no account must you pass on to Panigrahi any court documents sent to you, let alone the Order. After all, it is he, no one else, who represented to the court, untruthfully and with vile intent, that you had accepted instructions from him. I acknowledge your concerns that he is likely to complain to the SRA about you ignoring him.

To this I say the following>

1. He probably already has; you have given him your authorisation number (45488) and this is all that this blackmailer needs.
2. We at VOPA have ensured that the SRA, like my regulatory body, the BSB, throw all his complaints in the dustbin without investigation, and just send him the thanks-so-much email or letter.
3. However, my colleague Mr MC had a better idea. I will send JC&S; a dummy invoice, in a pro-forma so it does not cause any accounting issues, in respect of MY OWN consultancy services as to how your firm should deal with the Panigrahi Menace and threat to you. I propose 28 hours at a litigation billing rate, plus disbursements, plus value added tax, say £30k. You can let that lie on file but when he contacts you for a copy of what the CLCC sends you, hit with the demand that he settles your cost file first. Maybe he will pay you the 30,000, you can then pay me whatever you want.

As to his county police, who are evidently duffers and cowards, our organisation ensures they are bombarded with messages along 'Why have you not yet arrested Shantanu Panigrahi of .... for ....?' Eventually these lazy assholes will arrest him, the lord knows they have enough on him to put him away given the bomb threats etc he has made and harassment he has committed against h. We are British pigshit morons according to what the cunt wrote. Let us live up to his expectations, then, though Dr. Panesar entreats us to let him travel to India when the ban lifts. There the Cuttack (etc) police have lodged something called a "F.I.R." which sets out information about espionage for Pakistan, some thing they get quite excited about. Personally, I don't care, as long as he is stopped for good.

Warm greetings,

JS

To DAS Law

Dear Sirs

1. Further to my email of 15 April 2020 at 11.27 am to you, please note that I have not had a reply from the Central London County Court to the following request for information.
2. In the meantime, Dr Odesanya (Consultant Psychiatrist, Canada House telephoned me on a scheduled appointment yesterday and spoke to me for about half an hour with my wife and Carer being asked by him to join in the conversation to assess the latest evidence of mental health abnormalities within me. Dr Odesanya mentioned that he had received information apparently from Maudsley Hospital (London) that I had visited the Hospital recently on an perceived appointment at the hospital for my autism referral. I had done no such thing and from his account it would appear that an impersonator from Victims of Panigrahi Association who are listed in the E35YM660 Claim at the Central London County Court must have done this to pervert the medical and judicial processes of the State.
3. I was further told by Dr Odesanya that the autism spectrum referral that he initiated had now been cancelled by the mental health authorities so that my claim that I am a sufferer of satya-advaitism variant of Autism Spectrum Disorder and not of persistent delusional disorder or schizophrenia has been overruled so that I am due to be placed on Lurasidone antipsychotic medication now instead of clozapine or aripiprazole/sertaline/risperidone in the near future. I am very dejected about this and would like the evidence of further bullying harassment and intimidation from Canada House in conjunction with the University of Greenwich and Shell(UK)/Sherlodge/Garage/Skoda Motorline to be submitted to the President of the Employment Appeal Tribunal for immediate assessment.
4. Please note that I am claiming damages and compensation of up to £15 million pounds from the Respondents and the restoration of my Blog <https://shantanup.wordpress.com> as the desirable outcome from my point of view.
5. If you are unable to assist me with this matter please inform me by email before 2.00 pm today (16 April 2020), so that I can contact another Law Firm to consider the representation to the Employment Appeal Tribunal.

Yours sincerely

Dr Shantanu Panigrahi

(Long Catlis Road Surgery)

Dear Dr Shah

1. I needed a medical certificate before 15 April 2020 12.00 am to go on sickness leave from my Sainsbury's job at Tonbridge near Maidstone, and telephoned Canada House this morning explaining what should be contained in the certificate (which should also serve as an updated Care Plan): as follows:

(a) a short summary of the history of my mental health assessments and treatments in the hospital and in the Community since 1997;

(b) the diagnosis of my mental disorder (eg severe depression with psychotic features, schizophrenia, persistent delusional disorder, paranoid schizophrenic disorder, autism, etc) as it has changed over time.

(c) the medications including dosages attempted in coping with or curing the disorder from inception, eg risperidal, laustral, olanzapine, risperidone, aripipazole, sertraline, and now the changeover to clozapine or lurasidone in accordance with the recommendation received during the telephone appointment of 15 April 2020 with Dr Odesanya.

2. Canada House has not returned the call even though the receptionist said that she would email Dr Odesanya immediately.

3. I dialled the Surgery at 11.30 am but was held seemingly unendingly in a queue of callers that got stuck on No 11.

4. I am therefore not sure whether I should go to work anyway and risk working not up to the standard where I need to be from Store expectations according to Charlie Kemp, my Line Manager. This could mean that if I go to work I may not pass my probation in 7-8 weeks time.

5. I therefore need to come to the Surgery and discuss this with Dr Mawanche immediately. Please book me in for an appointment this afternoon.

Yours sincerely

Dear Mr Green

1. I understand that a Court Order was issued that has not yet been served on me with regards to Claim E35YM660 of the Central London County Court that you were defending as shown in the attached: FrAdminCourtOffice(CAE)6Apr2020, so that I have neither been able to fulfil my legal obligations to the Order, nor have I been able to appeal it at a higher court which I am fully intending to do in view of the following criticism from Mind, the mental health charity.

2. Please send me your Defence submitted to the Court or the objections that were represented to the Circuit Judge for the Hearing of 3 April 2020 along with the Court Order as an electronic copy by email urgently. I continue to receive criminal anonymous emails that I believe are instigated by the State through the amicus curiae party to the dispute, namely VOPA (Victims of Panigrahi Association) cited in the said Claim Form and as shown in the attached FrAnonymous(Shit)26Apr2020; FrAnonymous(Shit)26Apr2020b; and FrAnonymous(Shit)26Apr2020c.docx.

3. As stated to Solicitors Regulation Authority with reference to the attached communication Dr Panigrahi SC1 Ack .pdf, I simply must have my Blog <https://shantanup.wordpress.com> restored through Court Order and will not cooperate with Dr Odesanya of Canada House directions that I take anti-psychotic and anti-depressant medications for a perfectly normal mental health who deals with criminals in the most proportional and perfect sanatan dharma that is part of my Brahmoadvaita Vedanta educational attainment.

Hello all

1. Life goes on as usual. Nothing has changed. I still receive criminal anonymous emails from unknown sources known as trolls. They are designed to get me to make a ghastly mistake in my dealings with others. I would have liked to reproduced them here for everyone to know what living in 'hell' is. I blocked them earlier but they find other ways of sending me these emails. I must learn to ignore them and hopefully they will go away. I do not know whether 'Mind' can help me or whether I should continue contacting mental health solicitors until some one comes to my rescue about this:

Dear Mind Thank you for your kind support and I have signed on to Elefriends and posted a few comments. As far as advocacy support is concerned I am relying on Charles Stigant of Medway and Swale Advocacy Partnership to represent my views to the quasi-judicial institution of Canada House. This institution of the State has been proven by me to be a higher 'Court' that looks after the welfare of the State and society by sifting out whistle-blowers and apparent trouble makers who question authority as I have done being a Republican (confirmed) in so far as the present constitution of the State is apparently implemented by the authorities.

Please advise me if this is a treasonous attitude to hold that requires anti-psychotic and anti-depressant medication of Lurasidone and Sertraline to deal with as a menace to Her Majesty the Queen. I will then sign up as a subject of the State's Monarchy instead of being a citizen of a State that caters for the well-being of all citizens through the appropriate law enforcement processes and procedures of justice.

Dear Sir

1. Your lackadaisical performance in delaying this email has meant that I have suffered intense physical and mental distress as I complained to Mind: see ToMind23Apr2020.docx. As far as I know Charles Stigant is not regulated by the Solicitors Regulation Authority at Medway and Swale Advocacy Partnership and neither is poHWer, another advocacy institution. Are you also familiar

with the attached solicitors and Law Firms

(ToEddyya&HelenNeigbur;(MentalHealthSolicitors23Apr2020.docx) associated with Action against Medical Accidents? If so please include them in your Stage 1 Report as obstructors of justice and perverters of the course of justice. Silence from these perpetrators (including Gurpreet Virk) is interpreted by me as evidence of bullying, intimidation and harassment.

2. Please note that my Blog <https://shantanup.wordpress.com> has still not been restored nor has there been any word concerning its disposal from Wordpress, which goes to prove that the State-organised persecution through the use of the law-enforcement agencies of the State and beyond is proven.

3. This email is copied into only a sample of individuals and institutions who need to submit their reports on my communications with them and is not comprehensive until I receive immediate acknowledgement from the Solicitors Regulation Authority that all including Mind will be incorporated in the Stage 1 Report. This is because Wordpress has denied me access to all the correspondence that I listed my grievances on and so I am only going by memory until the Blog is restored such that I have full information on the moronic perpetrators of criminal harassment on me lasting 22 years which denied me my redundancy money of £55,000 from the University of Greenwich and a similar amount from Shell (UK)-SherlodgeGarage-SkodaMotorline.

Dear Mr Panigrahi

Thank you for your email. My email to you did not confirm that Shoosmiths may apparently be dealing with your case- it was to explain and make clearer the process by which solicitors assess cases. It is for the individual solicitor to make this decision on whether they can provide legal representation.

For clarification and avoidance of any misunderstanding, I have provided you with details of solicitors who are accredited by AvMA in clinical negligence cases for you to seek advice on whether you have a claim relating to your psychiatric or other medical treatment. These details have not been provided in relation to employment claims or litigation relating to a blog and the solicitors I have given you details of do not specialize in such claims and therefore would not be able to consider taking you on as a client for such matters.

You made an enquiry to Fletchers which raised an issue of the adequacy of the warnings about medication and he responded that he is not a solicitor who deals with product liability claims.

I can give you some general information on such claims:-

Product Liability Claim/Group actions The Consumer Protection Act 1987 allows a cause of action for personal injury arising from a defective product. You do not have to show negligence however you do have to show that the product was defective, which has been defined as meaning 'not what people are generally entitled to expect'. In general, even if a product causes an injury, even if these are of the utmost severity, this does not in itself mean that the product is defective. The main ways to show a drug is defective are to prove that there has been a fault in manufacture, or a design defect which was known or should have been known about. The absence of satisfactory warnings of side effects can also render the product unsafe, however, if the manufacturer conveys this information to an intermediary such as a doctor or pharmacist, this may be sufficient to discharge this duty. Claims under this legislation need to be made within three years but also have to be made within 10 years of the product coming on the market.

Again, you would have to prove that the defective product was the cause of the injury you allege, and this is to the civil standard (51%) and if this cannot be proved, then a claim will not proceed.

If you wish to find a solicitor to give you advice on such claims please see:-

<https://www.apil.org.uk/injury-lawyers/defective-product-lawyer>

I am sorry that the advocacy service is no longer responding to emails. I do not know the reason for this and cannot comment on what the Advocacy Service have done or not done to help you. The service should have a complaints procedure and should investigate if you have any concerns that things have not gone right with how they have helped you to raise your concerns. I am afraid that I cannot find their complaints procedures online but they should provide this on request.

Dear Tracy Minns

(Action Against Medical Accidents)

1. Thank you for confirming that out of the several solicitors that you provided me details of, Shoosmiths may now be apparently dealing with my litigation at the High Court in accordance with the attached: ToTrevorWard(FletchersLawFirm)30Apr2020b.docx that I did not receive a response to from Fletchers nor from the Queens Bench Judges Listing Office.

2. I fully accept your decision that Shoosmiths should have the right to do the investigation of risk assessment and let me have their reply in due course. In the meantime I am continuing with the medication until the new revised medication regime is clarified by the Mental Health authorities at the GP Surgery. I had informed Canada House that I was suspending these medication in because of a deteriorating physical and mental health and concerns about further impositions - I have once again vomited this morning after waking up at 4.00 am and so await the advice of Andrea Rusbridge on the next steps in the progress of this litigation in light of the renewed persecution from VOPA as shown in the attached FrVOPAshitbags30Apr2020.docx.

3. I have still not received any communications from ABS Solicitors (see ToABSSolicitors(LawFirm)29Apr2020.docx) nor from Anthony Collins (ToAnthonyCollins(LawFirm)30Apr2020.docx).

4. I fully understand now that Solicitors in the United Kingdom are free to take on a case or not take on as a business decision, and so their regulation by the Solicitors Regulation Authority and the Legal Ombudsman are pointless lip service so that the citizen's approach to them has proven futile. I am accordingly copying this email to both these so-called authorities and the Centre for Effective Dispute Resolution in light of the attached Dr Panigrahi SC1 Ack.pdf.

5. If I do not get a response from any of these solicitors by 10 am this morning, I will assume that I have no proceedings anywhere be that in the Employment Tribunals (Case No 2302960/2014 Panigrahi v Clearly Business Solutions Ltd & others) or the Central London County Court (Claim Number E35YM660) or the Queens Bench Division of the High Court (Claim Number HQ17X01773, and that my Blog <https://shantanu.wordpress.com> will never be restored by the Company.

6. If any of the above information and assessment are incorrect please let me know as soon as possible so that I do not resume my litigation in person (LIP) as stated by High Court Judge Amanda Tipples.

7. Dr Odesanya not only stopped me from contacting Julie Palmer of KMPT Complaints or viaduct for communications, Canada House state that they have no information whatsoever on a list of local Mental Health Solicitors whom I could contact. Medway and Swale Advocacy Partnership have not replied to my letters and emails it has not returned my complaint against Charles Stigant to Jill the Manager. PoHWER say that it is unable to represent me in Medway area.

8. I am copying this email to Lucinda Phillips to let her know that I am in the process of sending her the questionnaire after 10 am that will finally see the end to this matter should I not get a considered reply to this email from any of the parties that I am copying this email to. I will then take my decision on whether to engage in any further communications with Dr Odesanya of Canada House.

Dr Shantanu Panigrahi AvMA have been copied into an email to you sent to Shoosmiths solicitors.

I thought it may be helpful to write to you again and to more fully explain how solicitors assess which clients to take on. This was explained in the leaflet I sent you a link to in my first email to you:- Making a claim for compensation -the tests and procedures you need to know about:-

<https://www.avma.org.uk/wp-content/uploads/Legal-action-England.pdf>

Solicitors firms are not obliged to offer legal representation or services to all people who approach them for help. On receipt of a request for legal help a solicitor should consider if the matter is one they have the specialist knowledge to assist with and if, with regard to the complexity of the matter, they have the capacity to take on the potential claim.

If they think that the case is outside their specialist knowledge or they lack capacity, they may not be able to take the matter any further but should inform you of this decision. If they do feel that they may be able to assist, they will carry out an initial risk assessment on any information you have to hand such as the complaints response or medical records, to see if they can take the case on. In order to move on to the next stage-the investigatory phase -they will have to assess that your case has at least a 50-51% chance of success and that it is a proportionate claim for them to be able to investigate. If they cannot reach this threshold, they may then be unable to take the matter further at that stage. They will not take action in relation to a case which has a less than 50% chance of success.

If they can assist the solicitor will then assess the funding options for the claim and discuss these with you and a contract between you and the solicitor would have to be agreed. Until this is done, the solicitor is not representing you and cannot therefore take steps such as issuing legal proceedings against any potential defendants.

In most cases this is not done until the initial investigation phase has been completed. If your case is taken on (the technical expression is if a retainer is signed), the solicitor will then obtain a full copy of all the medical records and notes held by the doctors or hospitals concerned. The solicitor will often need to obtain copies of all the client's records even if they are not directly relevant to the claim. These must be checked carefully by the solicitor to ensure that no important documents are missing. These are then forwarded to an independent medical expert from the relevant field who will be asked to prepare an opinion on the case. In most cases, if the initial report is supportive, the solicitor will then need to obtain reports from other experts to ensure that all the relevant issues have been addressed. A barrister may then be instructed to provide an opinion on the strength or weakness of the case, and to advise on whether or not legal proceedings should be issued. It would be for the solicitor to assess the amount of compensation which can be claimed, and this often needs very careful assessment and expert and barrister's input. It is not simply matter of selecting the highest amount of compensation which can be claimed. I hope that this makes the situation clearer for you as you need to have realistic expectations of what a solicitor may be able to do and what the system entails, or you are likely to be very disappointed with the process.

I am also concerned that you have mentioned to the solicitor that you are stopping taking medication including that being given for physical health reasons until they decide on whether to take on your case. This is not a consideration which the solicitor can have regard to in their decision making process or risk assessment on your case. Patients should generally only stop taking medication after consultation with their GP or specialist on the risks of abruptly stopping medication and the longer term health implications and I would suggest that you do not stop taking medication such as atorvastatin until you have followed manufacturers instruction in the patient information leaflet to speak to your doctor or pharmacist.

Dear POhWER

Thank you for this acceptance of my request for support.

As you will be able to trace from my longstanding request for Assistance, Courtney Olding was dealing with the matter of the representation of my complaint against the NHS to the Parliamentary and Health Service Ombudsman but I have not heard from her in over a year. In the meantime I have been victimised by associates of the National Health Service in the manipulation of these proceedings as shown in the attached:

ToCoventgateLaw(Kelly)ThomasMansfieldEmploymentPolice1May 2020.docx to put me off my tracks of unravelling the British State as being a nation of morons in a Police State that I wished to rectify during my lifetime. I have referred the matter to the BBC and it would appear as there is a news blackout on the persecution that I have been victimised with.

I had complained about the Parliamentary and Health Service Ombudsman to the Speaker of the House of Commons but these communications were not even acknowledged. So Dr Odesanya is the man in charge of his local catchment area of Medway. He is continuing to treat me as an experimental guinea pig with continuous changes of medication which was confirmed to my wife today on the telephone as being 2 mg of risperidone and 37 mg of Lurasidone for the next 10 days following which he will advise the GP Surgery of Dr Shah with his next assessment and my prescription needs.

I would like you to tell Dr Odesanya that there is nothing wrong with me that requires medications and that there was never anything wrong with me that required incarcerations in mental hospitals as happened in 2004 and 2008. I was merely following my instincts of pursuing the criminals of the University of Greenwich through the due process of justice in national and international Courts to which I also took Her Majesty the Queen on account of the State-persecution on me. The International Criminal Court did not respond nor did the European Court of Human Rights or the European Court of Justice.

In the meantime I have exhausted the national and American judicial processes in trying to bring the criminals of Wordpress to face justice for disabling and archiving my Blog

<https://shantanup.wordpress.com> on the instigation of Consultant Psychiatrist Dr Masoud who had referred me to a Forensic psychiatrist that was initially shelved but reinstated by Dr Odensaya for a joint appointment in which Consultant Forensic Psychiatrist Dr Kingham examined me. I have still not received Dr Kingham's report that you would kindly look into as to the reason for the suppression of truth and justice.

I await your reply.

Yours sincerely

AvMA Dear Tracy Minns (Action Against Medical Accidents)

1. Thank you for confirming that out of the several solicitors that you provided me details of, Shoosmiths may now be apparently dealing with my litigation at the High Court in accordance with the attached: [ToTrevorWard\(FletchersLawFirm\)30Apr2020b.docx](#) that I did not receive a response to from Fletchers nor from the Queens Bench Judges Listing Office.

2. I fully accept your decision that Shoosmiths should have the right to do the investigation of risk assessment and let me have their reply in due course. In the meantime I am continuing with the medication until the new revised medication regime is clarified by the Mental Health authorities at the GP Surgery. I had informed Canada House that I was suspending these medication in because of a deteriorating physical and mental health and concerns about further impositions - I have once again vomited this morning after waking up at 4.00 am and so await the advice of Andrea Rusbridge on the next steps in the progress of this litigation in light of the renewed persecution from VOPA as shown in the attached [FrVOPAshitbags30Apr2020.docx](#).

3. I have still not received any communications from ABS Solicitors (see

[ToABSSolicitors\(LawFirm\)29Apr2020.docx](#)) nor from Anthony Collins

([ToAnthonyCollins\(LawFirm\)30Apr2020.docx](#)).

4. I fully understand now that Solicitors in the United Kingdom are free to take on a case or not take on as a business decision, and so their regulation by the Solicitors Regulation Authority and the Legal Ombudsman are pointless lip service so that the citizen's approach to them has proven futile. I am accordingly copying this email to both these so-called authorities and the Centre for Effective Dispute Resolution in light of the attached Dr Panigrahi SC1 Ack.pdf.

5. If I do not get a response from any of these solicitors by 10 am this morning, I will assume that I have no proceedings anywhere be that in the Employment Tribunals (Case No 2302960/2014 Panigrahi v Clearly Business Solutions Ltd & others) or the Central London County Court (Claim Number E35YM660) or the Queens Bench Division of the High Court (Claim Number HQ17X01773, and that my Blog <https://shantanup.wordpress.com> will never be restored by the Company.

6. If any of the above information and assessment are incorrect please let me know as soon as possible so that I do not resume my litigation in person (LIP) as stated by High Court Judge Amanda Tipples.

7. Dr Odesanya not only stopped me from contacting Julie Palmer of KMPT Complaints or viaduct for communications, Canada House state that they have no information whatsoever on a list of local Mental Health Solicitors whom I could contact. Medway and Swale Advocacy Partnership have not replied to my letters and emails it has not returned my complaint against Charles Stigant to Jill the Manager. PoHWER say that it is unable to represent me in Medway area.

8. I am copying this email to Lucinda Phillips to let her know that I am in the process of sending her the questionnaire after 10 am that will finally see the end to this matter should I not get a considered reply to this email from any of the parties that I am copying this email to. I will then take my decision on whether to engage in any further communications with Dr Odesanya of Canada House.

Yours sincerely

AvMA have been copied into an email to you sent to Shoosmiths solicitors.

I thought it may be helpful to write to you again and to more fully explain how solicitors assess which clients to take on. This was explained in the leaflet I sent you a link to in my first email to you:- Making a claim for compensation -the tests and procedures you need to know about:-

<https://www.avma.org.uk/wp-content/uploads/Legal-action-England.pdf> Solicitors firms are not obliged to offer legal representation or services to all people who approach them for help. On receipt of a request for legal help a solicitor should consider if the matter is one they have the specialist knowledge to assist with and if, with regard to the complexity of the matter, they have the capacity to take on the potential claim. If they think that the case is outside their specialist knowledge or they lack capacity, they may not be able to take the matter any further but should inform you of this decision.

If they do feel that they may be able to assist, they will carry out an initial risk assessment on any information you have to hand such as the complaints response or medical records, to see if they can take the case on. In order to move on to the next stage-the investigatory phase -they will have to assess that your case has at least a 50-51% chance of success and that it is a proportionate claim for them to be able to investigate. If they cannot reach this threshold, they may then be unable to take the matter further at that stage. They will not take action in relation to a case which has a less than 50% chance of success. If they can assist the solicitor will then assess the funding options for the claim and discuss these with you and a contract between you and the solicitor would have to be

agreed. Until this is done, the solicitor is not representing you and cannot therefore take steps such as issuing legal proceedings against any potential defendants.

In most cases this is not done until the initial investigation phase has been completed. If your case is taken on (the technical expression is if a retainer is signed), the solicitor will then obtain a full copy of all the medical records and notes held by the doctors or hospitals concerned. The solicitor will often need to obtain copies of all the client's records even if they are not directly relevant to the claim. These must be checked carefully by the solicitor to ensure that no important documents are missing. These are then forwarded to an independent medical expert from the relevant field who will be asked to prepare an opinion on the case. In most cases, if the initial report is supportive, the solicitor will then need to obtain reports from other experts to ensure that all the relevant issues have been addressed. A barrister may then be instructed to provide an opinion on the strength or weakness of the case, and to advise on whether or not legal proceedings should be issued. It would be for the solicitor to assess the amount of compensation which can be claimed, and this often needs very careful assessment and expert and barrister's input.

It is not simply matter of selecting the highest amount of compensation which can be claimed. ## PRIVATE PROSECUTION

**RE: [EXTERNAL EMAIL] Employment Tribunal: Medical Retirement2**

Yahoo/Sent

Shan Panigrahi

To: Claim Support Team Sat, 2 May at 23:14

Dear DAS

This matter has been percolating for the past 3-4 years in a private prosecution that I started as a counter prosecution that was extended as shown in the attached:

ToNorthKentMagistratesCourt(PrivateProsecutionofKent Police)2May 2020.docx. Aside from the private prosecution Kent Police was sued in a civil litigation at the Queens Bench Division of the High Court under Claim Number HQ17X01773 because it refused to take action against Consultant Psychiatrists and Canada House who continue to harass me with changing and incorrect diagnosis of my mental health as shown in the attached:

FrDrOdesanyaCanadaHouse(CAREPLAN)28Apr2020.docx. I am now supposed be having a mental condition named Paranoid Schizophrenia according to this stipulation, from earlier diagnosis of Persistent Delusional Disorder and indications of Autism according to the same doctor who rubberstamped the earlier referral by Dr Masoud to a Forensic Psychiatrist and I was examined for the forensic content of my conduct by Dr Kingham, Forensic Consultant Psychiatrist.

So the persecution that I have complained about is being covered up by the State under the false and unjustified defamatory charge that I have been and remain a mental patient to suffer medications enforced upon me to save the State's blushes that they have been proven as guilty of religious persecution. My definition of religious persecution is when truth is suppressed, and this is what the United Kingdom State and its overseas allies have persistently done because I took the criminals of the University of Greenwich to the Employment Tribunals and the Court.

Your role under our agreement is to contact the London Employment Tribunal or the Employment Appeal Tribunal and get my job at the University of Greenwich restored so that I do not have to do menial jobs when I am a fully qualified and experienced Environmental Sustainability Specialist.

Please note that I have received lies from Malcolm Dodds that he does not know anything about my case when I corresponded with him through emails that were blogged; in

<https://shantanup.wordpress.com>, that was wantonly disabled by the State through the manipulation of Wordpress.

Subject: [EXTERNAL EMAIL] Employment Tribunal: Medical Retirement

This email originated outside your organisation. To DAS Law Shoosmiths ABR Solicitors Anthony Collins Medway and Swale Advocacy Partnership Woolton&Co;

Dear Sirs

1. Following my investigations of solicitors and Law Firms of the United Kingdom including charities engaged in advocacy services, it has come to my attention that I must be a Litigant in Person and so do not require any of your services to progress my Employment-Associated Claim for medical retirement (payments of £10,000 per annum) at the LondonSouth Employment Tribunal against the University of Greenwich (agricultural research scientist) and Shell(UK)-SherlodgeGarage-SkodaMotorline-Sainsburys Hempstead Valley Shopping Centre (as petrol station attendant that did not started yet).

You may further note that in my current role as Trading Assistant for Sainsbury's employment at Tonbridge near Maidstone (Store Manager Yaw Gyekye Aboagye) my Training for the job was improperly handled and curtailed (protest was lodged) and I was forced into overtime from my 12 hour contract without the proper training so the probation period of 12 weeks needs to be reassessed and extended in accordance with the latest medical certificate from Dr Odesanya for which the Consent Form must be sent by Sainsbury's to Canada House immediately.

2. This termination of association with all nearly 40 Law Firms has been forced upon me because you all have proved useless and moronic in your assessments and in coming to my legal assistance.

3. By copy of this email to Managed Divorce, I am demanding an immediate refund of my £347 paid to advance the divorce arrangements now that I am reconciled to my fate and having to live with my wife with all the medications prescribed to me regardless of the impact of such medications on my mental and physical health. I insist on having the Tribunal decide on my medical retirement from the University of Greenwich in consequence. It must give its evidence to the Tribunal in due course if it cannot immediately arrange the Court Hearing that I paid good money for.

To Private Prosecution Service

4 Middle Temple Lane,

Temple,

London EC4Y 9AA

Dear Sirs

1. With reference to the email from Maidstone Crown Court of 6 May 15.49 hours to me, to you, to the Criminals Appeals Office, to Kent Police and to North Kent Magistrates Court, it is not clear to me whether the full written reasons for the unfortunate disposal of the initial private prosecution by the Courts of North Kent Magistrates Court, Maidstone Crown Court and the Court of Appeal will now be issued to you or me directly by email in view of the Coronavirus (COVID-19) pandemic regulations currently in place.

2. As you will note from the following communication, I have still not had my Wordpress Blog restored through a Court Order nor has there been any response from the Defendants, so that the private prosecution of Kent Police must start afresh and proceed without delay. It would appear that the State has decided that this prosecution should take place in Maidstone Crown Court now which should immediately issue the following bench warrants:

(a) Summons to the Chief Constable of Kent Police to acknowledge the private prosecution proceedings and enter his/her plea of guilty or not guilty and intention to defend as appropriate.

(b) Extradition Warrant on the Chief Executive of Wordpress.com with regards to the crime committed of dismantling my Blog for which the jurisdiction of Maidstone Crown Court has now apparently been agreed: see

ToPrivateProsecutionServiceccMaidstoneCrownCourtNorthKentMagistratesWordpressMalcolmDodd s4May2020.docx.

3. If Private Prosecution Service is unable to conduct the role of the Prosecutor in this new prosecution for whatever reason (with me as the victim and a witness to the criminal court proceedings) kindly let me know this morning, so that I may conduct the prosecution myself as the Victim and Litigant in the absence of the full written reasons from the courts-concerned. The Maidstone Crown Court should clarify whether this will be permitted in view of the fact that I am not a qualified barrister/prosecutor or even a solicitor registered at the Bar for this provision of the State that is absolutely required to complete the reorganisation of the legal and medical establishments that I wish to see as outlined in the email to Her Majesty the Queen for the next Queens Speech. I am accordingly copying this email to Boris Johnson the Prime Minister and the Speaker of the House of Commons to respond.

4. The Judicial Review application at the Queens Bench Division under Claim Number HQ17X01773 will have to be stayed pending the outcome of the prosecution.

Yours sincerely

Dear Sir/Madam

1. In order to save everyone's time and unnecessary proceedings leading to waste of national resources and total waste of Court time as well as the times of agents in the rest of the legal profession such as the Solicitors Regulation Authority and the Legal Ombudsman (amongst hundreds or others including Wordpress.com), would it not be better for all concerned if you did undertake the reforms of the State's legal and medical establishments now in light of the lack of acknowledgment by any of the parties to whom the attached email was sent earlier this morning - seeToCourtof

To Alice Barwell Solicitors Regulation Authority

Dear Ms Barwell

1. Thank you for your email and attachment as summarised in the attachment to this email: FrAliceBarwell(NoSubject)SRAttachment7May2020.docx.

2. Whilst I sympathise with Jonathon Hadlow that he was manipulated by the Security Services in this manner and has chosen not to act against Wordpress.com, I accept his decision not to do so because he too is a victim of the State and in light of your clarification appears not to have been responsible for the unjustified position to which he resigned himself to.

3. The private prosecution of Kent Police's Chief Constable as representing the Security and Policing Services of the UK State continues at Maidstone Crown Court unabated from the Spring 2017 proceedings and I am awaiting the decision of the Court to issue the following bench warrants to facilitate the private prosecution:

(a) Summons on the Chief Constable of Kent Police and request for his plea entry of guilty or not guilty and intention on how he wishes to defend the status quo to the Judge in Maidstone Crown Court.

(b) Extradition Warrant on the Chief Executive of Wordpress for criminal vandalism in dismantling my cherished Blog <https://shantanup.wordpress.com>.

4. The matter is therefore subjudice and therefore I do not wish to go through Stage 2 of the Complaint process with the Solicitors Regulation Authority. In this regard kindly not the lack of progress in the resolution of the attached application to

PatrickLawrencePartnershipLLP7May2020.docx, which you will find self explanatory in view of the intransigence of Shoosmith Solicitors to the repeated representations for urgent action sought in dealing with the menace of Canada House officials.

5. You should take account of the fact that Copelands and Sons (Samuel Bancroft) is still holding on the to Court Order from High Court Judge Amanda Tipples so that I have been unable to progress my appeal against the Order, nor comply with my obligations to the State in terms of meeting my fines and costs to the Defendants Mr Boris Johnson and Victims of Panigrahi Association: see FrAdminCourt(CAE)6Apr2020.docx.

6. Further Managed Divorce has still not refunded my £347 that I paid for the divorce-associated separation of assets between my wife and me so that I am compelled to take up a post-retirement job to make ends meet. You have also not commented on the position of DAS Solicitors, nor of Coventgate Law or Sorrell solicitors, all of which will come to a head in the Hearing at Maidstone Crown Court in due course. Of this I am certain as I fully intend to pursue the private prosecution of Kent Police, no matter how long the struggle for justice takes.

7. I intend to prove to the Judge at Maidstone Crown Court that this litany of criminality against me was organised and orchestrated by the State Security Services over the past 22 years that I have struggled to clear my name.

Yours sincerely

Dr Shantanu Panigrahi

To Civil Team at Reading County Court

Dear Sirs

1. There are several Claim Numbers associated with this application made to Reading County Court under E35YM660 in a transfer of proceedings from the Central London County Court. In order of which these took place, these are:

(a) Civil litigation against the Citizens Advice Bureau in Claim Number ME002953 at Medway County Court in Autumn of 1999.

(b) Civil litigation against the University of Greenwich in Claim Number ME010463 at Medway County Court in Winter of 2000.

(c) Private Prosecution of Kent Police at Maidstone Crown Court under a Appeal Mention to Fix A2017002 46TY0039517 in Spring 2017. These proceedings were supervised by Clerk to the Justices (then) and now District Judge at Buckinghamshire, Malcolm Dodds.

(d) Civil Litigation of Kent Police for damages and compensation amounting to £15 million pounds at Queens Bench Division of the High Court under Claim Number HQ17X01773 in the Summer of 2017.

(e) Civil Litigation against the Prime Ministers of the United Kingdom past and present under Claim Number E35YM660 at the Central London County Court December 2018.

2. In the present application being pursued at Reading County Court I am revisiting the damages and compensation claim for 22 years of persecution by the State authorities for a higher payout that I deserve from the UK Treasury than the £15 million hitherto sought on account of the proceedings

against High Court Judge Amanda Tipples for error of judgment in usurping the Claim at the Central London County Court to issue unjustified fines and costs against me against these Defendants under Claim No E35YM660.

3. I am prevented from issuing Claim Forms through the CCMCC by virtue of a Court Order issued in the intervening period as shown in the attached Dr S Panigrahi.pdf, and none of the 40 odd solicitors, law firms and advocacy centres have acceded to my request for legal advice and legal representation to the above Courts and other legal, judicial and quasi-judicial and quasi-criminal establishments nor to the Police over this period - see attached:

ToHelenBaker(Consumer&CivilRights;)11May2020.docx.

4. Thus, my quest for legal remedy can only come to fruition from the Reading Court announcing a this Judgement through Court Order because the State authorities referred these E35YM660 proceedings to Reading in light of the fact that the Prime Minister is solely responsible for the activities of these State and has remained silent.

5. I entreat upon the Reading County Court to issue Judgment without a Hearing as the Claim for punitive damages against the State remains undefended in its entirety.

6. Please let me know today the amount of Court fee that I need to pay in order to progress this application.

Yours sincerely

Dr Shantanu Panigrahi

Dear Sirs

1. Kindly let me know the nature of the attached proceedings

(FrPanigrahi@gmail(MalcolmDodds)7May2020.docx and FrShantiPanigrahi11May2020.docx) that I have received copies of seemingly designed to distort and obstruct justice with regards to the Judicial Review of the 22 year long struggle by me to shrug off the Defamatory charges by the Kent Police, University of Greenwich and Shell UK that I had been blameworthy of disciplinary offences while in employment and subsequently as I led a peaceful existence in the Community under the supervision of the Mental Health authorities of Canada House, Barnsole Road, Gillingham, Kent.

2. You have my consent to obtain a report on my mental health assessment and treatment from Dr Odesanya the Consultant Psychiatrist at this Community Mental Health Team. I have been diagnosed now for Paranoid Schizophrenia by him and am taking all my medications as prescribed. I fully accept and support his views and opinions that I am a psychiatric patient and so have abandoned all my legal litigations and private prosecutions mounted over the years, having determined that paranoid schizophrenia is a symptom that is incurable as an inherited trait. All my respects to Dr Odesanya for having been patient with me and I look forward to further appointments with him to see how I am managing my mental state with the medication and the new job at Sainsbury where everything seems to be going on fine, as you will note from the attached:

Dear solicitors,

Re- your client Mr Shantanu Panigrahi

Before participating in or enabling this person to continue in his course, you owe it to yourself to examine <https://www.shanpanigrahi.co.uk> and then <https://narkive.com/FGqybAfG>

Your firm already features there in a most negative way. Surprised? VOPA (us) understands.

Panigrahi is a vindictive, malicious liar. His only reason for contacting you is so that he may be able to blackmail your firm or you using spurious complaints to the SRA. He is trying to game the system in the hope that our government will pay him 15 million pounds or at least 100 pounds so that he goes away.

Block his emails and call the police if he persists in trying to phone you.

VOPA has successfully advised courts, clerks, judges and government bodies to reply to his communications in this way - "Thank you for your email and attachments. These will be placed on your file."

You will observe we recommend use of "on" instead of "in", for a reason you will quickly understand but which he, a congenital idiot, will never understand.

Ultimately he will commit suicide in order to escape justice but until such happy event we must pool our resources and punish this fecker.

He is joint owner of a house worth more than 500,000 pounds.

Sue him for defamation.

## COUNTER PROSECUTIONS

In order for justice to be served and made easier for the defendant, there is a need to establish a process of counter-prosecutions within the proceedings for the full truth of the circumstances to emerge in legal proceedings. This is what I have done through the private prosecution process in Kent Magistrates Court against Kent Police for its decision to ignore my complaints against numerous criminals in the United Kingdom and beyond. Respected Sirs at <http://hindudharmaforums.com> Pranaam.

Thank you for acknowledging the message I left on your Contact Form Kindly do not permit recent sign-up "Dr" Shantanu Panigrahi, aka Shan Panigrahi, email [shanpanigrahi@yahoo.co.uk](mailto:shanpanigrahi@yahoo.co.uk), to post on your forums. Notwithstanding your competent moderation, legal troubles will start (he is expert at concealing the point of his posts, you will only discover it when the legal consequences begin), not just defamation (civil) but also criminal matters and you will soon get police contact. But worse, he will start threatening you with lawsuits for damages done to him, and publishing this, and other insulting and defamatory material about your forums and individual moderators (he is very clever at finding real life identities of other forum participants). These will never be erased. As you will see in a few minutes from <http://shanpanigrahi.co.uk> he is a self-admitted lunatic with acute schizophrenia. From his own "blog" you will learn he has been forbidden to post online by a Court order and also by the Mental Health professionals. Dear Facebook

The Employment Tribunal in London with its Hearings at the Ashford Station has been repeatedly warned over 20 years in my employment disputes against the University of London in 1999, Shell UK in 2008 and now Sainsburys plc (attached: FrEmploymentTribunal4Jul200.docx) with the losses to me of not only hundreds of thousands of pounds in redundancy payments or lost salaries to me that means that I have no interest left in the legal proceedings at either the Employment Tribunal or at the Central London County Court under Claim E35YM660 where Facebook was included as having harassed me with numerous violations of human rights to free speech and dissemination of materials required to be in the public domain for all humanity to judge, review and accommodate in their lives, for example the unjustified ban on me to advertise my Pages of The Allurement of Reality, Searching for Mental Health Services, The Gaza Humanitarian Crisis, and The Climate Change Phenomenon that I was initially permitted by Facebook to do. Part of these complaints were blogged here: <https://www.shanpanigrahi.co.uk/446463277>

I am therefore not inclined to visit Facebook again until a due apology and compensation for your misdemeanours is received. Please furnish your full address in the United Kingdom for the service of legal proceedings hence.

The Conservative Libertarian Society Consultancy Services:

## FITNESS FOR SURVIVAL

The Theory of Evolution that we have been educated in academia on needs a review. We regard Charles Darwin to have masterminded the idea of the Survival of the Fittest that Modern Biologists have elaborated to Survival of the Fittest by Natural Selection. These words are not to be disputed but defined and elaborated.

What is Fittest, What is Natural Selection in other words.

My studies of Biology at the University and through the practice of Livestock Development in Agriculture as it has developed over time are the basis for my interpretation of the Theory of Evolution today, as I have spent the past two decades in the study of the Environment and Humanology as the only materials available to me since things have changed in biodiversity from Charles Darwin's days.

My experiences and personal quest for survival in humanity has developed overtime to dispute the modern day understanding of the Theory of Evolution through Natural Selection. Nature selects, but what is Nature, and how does it manifest the selection process of living beings.

I have come to the understanding that this selection process is manifested through the 'minds' of living organisms, and since Homo sapiens are the most highly evolved species in the Paleontological tree of life, we are the the most successful through the development of strategies for survival that has acquired the highest level of fitness to the environment. Brahma-Nature is the universe.

This brings one to how natural selection to Brahma-Nature works in practice to aid the survival of the species for this Theory of Evolution. The Creator God who has generated the universe that we live in is represented in Brahma-Nature as Brahma. The process of survival takes place when the mind takes its guidance from Brahma through spiritual living that is to be described as Brahmoadvaita, the union with Brahma-Nature. Advaita in this manner generates the knowledge, wisdom and intelligence that is required to survive in Brahma-Nature as the perfect adaptation to the environment so that natural selection of those living beings that have developed this strategy takes place and the being survives in Brahma-Nature.

Of course, lower species have what can only be considered rudimentary 'minds', so we need to probe into the evolution of the mind to enable us to understand Natural Selection.

Genetics determines the functioning of the visceral constitution of living beings in the bodies that are living organisms. The functioning of the body in terms of its adaptation to the environment is the basis of the Theory of Evolution in vogue. My view is that this is erroneous, and that the mind directs the body rather than genetics in living strategies for the adaptability that is required for survival of the species.

This theory requires consideration of what is Nature and its components for the adaptation by natural selection to manifest itself.

Nature is not simply the physical environment that we live in as presently conceived. Nature incorporates the spiritual invisible Entity which I describe to be Brahma-Nature.

What is Brahma-Nature, then? It is derived from the Hindu word Brahman, but I have removed the 'n' as a transliteration inadequacy for English language redescription. My knowledge from Hinduism is that Prakriti (Nature) is composed of guna consciousness that is differentiated into rajasic, sattvic and tamasic attributes in a continuum triad known as the Trimurti. In this conceptualisation, sattvic

nature is pure goodness characteristics such as truthfulness and honesty (divine), rajasic nature is routinal (semi-divine) and tamasic nature is totally ignorant and materialistic that brings out the body's evil manifestation.

Fitness for survival is brought on through the mind in a learning process and peak fitness is achieved by transcending the gunas through non-attachment to all its attributes and thereby unifying with Brahma-Nature. This way the mind develops awareness of the precise condition of moment by moment examination of the complexities of Brahman-Nature through paranoid schizophrenia manifested as persistent delusional disorder as the psychology and steps up to taking actions that stave off dangers to oneself from enemies and acquires the materials needed for basic survival.

Having said that and in human terms, a mind free of attachments to material and spiritual concepts and objectives, paranoia, delusions and uncertainties as manifesting schizophrenia attains Brahmaadvaita which always makes the correct decisions for actions to not just survive, for that is not enough, to survive with dignity as the lord of the jungle.

All the sociological and psychological causes of racism and slavery lie that are symptoms of the failure of human beings to live harmoniously with each other and the environment that is Planet Earth along with the solar system and the wider universe stems from ignorance of Brahma-Nature and its constitution. Throughout human history knowledge has been acquired by humans through religious pursuits of the human mind to understand the meaning of Existence, and substantial progress has been made gradually. These have been enunciated through religions that cultivate the peoples attitudes and actions to survive on the planet for survival is the fundamental rule of living beings. We have diverse conceptions within Hinduism, there is Buddhism, Islam, Christianity and thousands of other conceptions generated through history. The greater the ignorance the greater are the symptoms of human beings intolerance and slavery and racism are the manifestations of this ignorance. We cannot blame people for being ignorant. That is a societal problem. Societies have been created that inculcate the priorities of the people and these disappear through human history when found to be insufficient to meet the needs of human beings. New societies are created and that is part of the evolutionary process. So it is wrong to be judgmental about the actions of previous generations in what they did in the pursuit of economic objectives to harness the natural resources of the planet from colonisation and slavery that we know about when Africans and Indians were transported to new lands to engage in productive activities and generate the needs of people. So the sociological and psychological causes are part of the learning processes of mankind. We should understand this and be tolerant as we try and create a new world order with up-to-date scientific knowledge and knowledge permeation that now the internet permits so that globally people have access to information that they would consider to modify and evolve their own particular religious philosophies in accordance with their particular natural resource and human endowments.

But only the lord of the jungle survives with dignity because he knows who his enemies in his or her field are and has the intelligence and physical ability to subdue them to submission to him or her so that he gets what he needs to live to a grand old age and his competitors leave to another field.

To be lord of the jungle in human terms, one needs to cultivate awareness such that one spots ones opportunities for food and other basic needs, not get too fat from overconsumption and save raw materials for a rainy day; spot the dangers to one's survival and take aversion means when necessary, and one must time one's run perfectly to get one's chosen needs. Timing is of the essence in flight or fight.

26 July 2020 Update:

In my studies on the aetiology of Brahma-Nature through Creation, God made all living organisms to live freely and gave life forms the genetic potential to defend themselves from by attacking their predators in diverse ways for their survival. These include poisons in snakes, mosquitoes harbouring symbiotic microorganisms, flight means of running away, etc, so that the design of Creation incorporated evolution of the species through genetic-modifications through the DNA mutations that are passed on to successive generations in the development of the Fitness to the Environment from adaptation. This applies to human beings as much as to other living organisms, like plants and animals with minds that are appropriate in the manifestation of behaviour of the living beings. These work through the population individually and communal living runs contrary to the design as Created. Therefore communal living is doomed to failure in the struggle to survive and reflects species that are lower in the races of humanity in the long term. Man is therefore not designed to be a social animal as first hypothesised by Aristotle and which is the basis of the development of communal living right up to the modern States of the world that we see today. The struggle for freedom within humanity reflects the purpose of the design of life and is apparent from a study of Humanology today as we see which countries are more populous and proliferating to expand within themselves and from migration to other parts of the world.

## MIGRATION

Man has migrated throughout his existence on this Earth to different places coming out of Africa a million of years ago or so. This has been in the search for greener pastures, so to speak. Other species have not migrated much in the evolution of history in search of greener pastures, so it is an aspect of the Evolution of the Species through the development of the Mind in the battle for survival. Hence, we know how different parts of the World were occupied by humans since the time of Homo sapiens from Homo erectus.

The search for greener pastures is a fight or flight mechanism that has evolved. When modern humans faced starvation in their particular location or could not cope with competitors as predators and enemies, there was only one choice: to fight and survive in the location or die in the process or to move to a different place.

Asylum seeking in the present day is that search for survival: to be able to act as freely as possible using one's mental faculties. When asylums are no longer available as places to depart to as we see today in the world from the same old struggle everywhere and where the population of the human inhabitants have increased to 7 billion, naturally one is restricted to remain in one's location and fight for survival in accordance with the present laws of the jungle nationally and internationally.

So the saying goes: Say naught the struggle for survival not availeth. Evolution of the Species needs to be understood in that life.

The religions are all pointless last refuge being sought by the advice of ignorant Babas and gurus who are all self-serving to administer their own fights for survival and live up to the end of their natural lives. It is a natural instinct. So people follow religions as if some higher power will come and protect them from divine protection from what is understood to be the persecution of Brahma-Nature in my hitherto understanding of Nature. So we are misled by the religions as I have been and everyone else on Earth has been before me.

This is why I am a proponent of the advice: survive to learn and learn to survive, using all the mental faculties that one is born with, for religions are the last refuge of man trying yet another means for the same old attempt to survive in Nature. It is how the mind works absorbing information stored in human memory banks and designing strategies and tactics for basic survival.

Purushottama concept of Hinduism is therefore equally delusional. The only purushuttama is the lord of the jungle, lordship being attained at the peak of perfection by learning to survive through education and sifting off all delusional beliefs, ideas, aims, such as Advaita, Brahmoadvaita, Brahmanism that I have conceptualised in my earlier phases of life in the struggle for survival.

Being non-attached is the educative-path to developing the peak of intelligence from the genetic potential for growth that individuals are born with. It develops what is considered to be psychic ability to do whatever is necessary within the individual society that one lives in all designed for survival.

Dear Job Placements

I used to think that suppression of truth is religious persecution, but there is no such thing as truth: all theories, beliefs, aims and missions to prove anything whatsoever are delusional, such is the Brahma Reality that we humans face.

Within that scope we need to understand what to do when we are individually intruded upon by persistent trolling and the advertising of products and services on us that are not warranted by us living within our own self-determination for how we should live our individual lives. Each such intrusion into my own privacy of living my life within my means only will be responded to as persecution on my-self and appropriate compensation sought immediately by way of legal proceedings if the justice system of the society under which we live and see all individuals striving to live to personal freedoms as educated upon them as the ideal way to live. When legal proceedings do not achieve the goal of the self to be left alone to make one's own decisions on how to respond to personal intrusions into one's privacy I resist by blogging the perpetration of that injustice upon myself so that the world-humanity comes to know who to trust and who not to associate with during the course of their lives. This is why I unsubscribed from your website. I do have a right to reply and respond to attacks into my privacy and the right to live how I chose, which is now sanctioned by the UK State through an email I have received half an hour ago from Lisa of Porchlight, the Vocational Advisor who has kindly agreed to be an intermediary between me as mental patient unable to cope with the nuances of the UK State through its Constitution that sets Consultant Psychiatrists of the National Health Service as the population's master and mistresses under the deputisation of Her Majesty the Queen in the present day and age, as judged by the appointment made by Canada House this morning for me to have another face-to-face interview on 14 August 2020 at 10.45 am in Summerfield, Gillingham Kent, for assessing my decision of retiring within a family-secluded life to pass away the hours and days that I have remaining to live.

I am a person who has never set out any aims for myself but reacted constantly in self-defence throughout the 22 years since I was persecuted by the senior management and colleagues of the Natural Resources Institute at the University of Greenwich and subsequently by all the other people and institutions that I associated with, with this end result that I want to be left alone to my own thoughts and expressions as befits my biological compulsion derived genetic-expression.

Dear Lisa

I am awaiting the judgement of the Central London County Court any moment now on Fresh New Directions on Claim E35YM660 given that the Employment Tribunal (London) failed in its statutory duties to let me know what happens next as clearly laid out in the attached undertaking by the Tribunal. I will not accept any backtracking on this issue given the additional mental suffering that I have had to endure over these 23 days of inaction by Sainsburys, ACAS and the Employment Tribunal in conspiracy to pervert the course of justice.

I am not a British Piss-artist, but am very serious about my religious Dharma in the Hindu tradition that my Twitter Account and Facebook Account Bios say about who I am. The quest for justice on E35YM660 will continue until my Blog at Wordpress <https://shantanup.wordpress.com> is finally restored no matter how many years it takes and whether or not I get Sectioned into a mental hospital on reassessment by Dr Odesanya on the 14 August 2020 10.45 am meeting which my wife will come with me to.

Thank you for your interest and response: I have no interest in seeing you again and will have nothing to do with Porchlight in accordance with my complaints about your lackadaisical service and prolonged and unending procedures of assistance on behalf of the Police State of the United Kingdom in your compliance with its surveillance of society and when suited to its continuing need to persecute an individual having the means that you have just used to kick the complaint by me of State-organised persecution into the long grass, a British-mental disease.

Dear George

Thank you for this email.

I was waiting to see if I had still got a Vocational Advisor in Lisa Pennington of Porchlight to make a decision on which of the employment opportunities that you have brought to my attention I might have a good stab at in applying for successfully as Lisa Pennington did not telephone me today nor send me a reply to the attached emailed query:

ToKatePotterccLucyFlemingLisaPenningtonHRSainsburysindeed28Sep2020, although there were three attempted phone calls from, I believe, Lucy Fleming wishing to discuss all my previous emails to her over the past 2 weeks (Voicemail message left on my Mobile Phone saying that she had been away so could not attend to them), with the result that as far as I know I no longer have a Vocational Advisor to see on Wednesday 30 September 2020 10.00 am at Wigmore Park or a Care Coordinator in Britton House who could have advised and counselled me into suitable employment either because I have been already discharged into primary care by Britton House so that I am no longer compelled to take the lurasidone and sertraline medications imposed on me by the monstrous Dr Odesanya, or that the matter is still being considered by Britton House.

Further to this matter I did not get any clear-cut clarifications all day from the Supreme Court of the United Nations, or in my attempted search for a Lawyer in the USA (after 22 years of dismal and lacksadaisical attitudes of 45 or so solicitors, law firms, the Legal Ombudsman and the Solicitors Regulation Authority under the supervision of the Centre for Effective Dispute Resolution) at Findlay Lawyers Society concerning the attached:

Toindeed(Ireland)ccCVLibraryFindlaw(USA)27Sep2020.docx; and

ToFindlaw(USA)ccSpokespersonsoftheSecurityCouncilofUN27Sep2020 directly or indirectly from the Supreme Court of the United Kingdom or its supposed agent indeed (of Ireland) to see if I would get an official letter from the Secretary General of the United Nations for the position of Director of Sustainable Development that you should know about, nor from Julie Palmer Complaints Manager of Kent and Medway Partnership Trust on whether Britton House has considered the attached complaint that I lodged on my continuing concerns against Dr Odesanya and Dr Kingham as seemingly incompetent buffoons practicing Psychiatry.

So I am still suffering in anxiety and worries that my cherished lifetime's work in the Blog <https://shantanup.wordpress.com> whether or not it was all the work of a delusional and paranoid schizophrenic or even autistic person who does not have any intelligence to live to proper human conduct remains archived and suspended and also discredited by New Scientist: see

ToNewScientist13Sep2020.docx and ToNewScientist26Sep2020.docx, and I did not even bother to get a reply from 38 Degrees or Liberty on the attached query To38DegreesccLiberty26Sep2020.docx. I am therefore considered a lunatic in my comprehension of Brahma-Nature and even considering whether I am the 'prophesised' Kalki avatar of Sri Krishna on an 007-James Bond style On His Majesty's Secret Service on a mission of His Lordship of the universe, and even whether I am certainly a Brahmoavatar with my so-called discovery through the assumed legitimate mental

process of satya-advaita yoga of Brahmo Advaita Vendanta as the final chapter for the Hindu dharmarashtra of India that seemed to have extended into Cambodia and Bali in Indonesia centuries ago was another idiotic imagination of ancient and primitive human beings of Indian origin in the diaspora who did not have the brains to think with intelligence on how to be civilised so that the western powers from Europe and prior to that the middle-eastern powers from Persia as the Moughal Dynasty were the actual real Almighty God as Jehovah and Jehovah working through arch-angel Gabriel to send prophets and messiahs of the Old and New Testaments that started with the Jewish Faith inspired by Moses with his 10 commandments on Mount Sinai, and updated through Jesus Christ in the Roman Empire of the 0 Century for present day Catholicism and its derivatives into Protestantism of all kinds, followed by prophet Mohammad (Peace be Upon Him) had necessarily had to enter the Indian Subcontinent to uplift the lot of the Hindu people from their thousands (seemingly) of years of miserable religious thoughts and theologies that started with the writing of the Vedas, notwithstanding that the Aryans of India were migrants from Central Europe or even Arctic areas of the northern hemisphere as promoted by Aupmanyav of Religious Forums from New Delhi.

I am sorry again for taking so long to shrug off my delusions and mentality problems arising from reading Indian and World History especially dwelling on the lessons for humanity from the Hindu epics the Mahabharatta, Ramayana (by Valmiki) followed by Ram Chari Manas of Sri Tulsi Das as a reminder hundreds of centuries later, and based on these delusional suffered paranoia in coping with my naturalisation into United Kingdom life when I tried to follow in the footsteps of my father Dr Gopinath Panigrahi as a Botanist who did his PhD under Professor Manon of Leeds University in 1952-1954 under Orissa-government funding and as Indian Liaison Officer at Kew Gardens on deputation as a diplomatic-status endowed mission and attempted to study Animal Science with the current animals of the World in the science of Humanology to bring the understanding of Nature completed into my present moment conception of Brahma-Nature for the Hindu dharmarashtra's extension into the rest of the world starting with the United Kingdom to begin a mission to punch the final nail in the coffin of the British State and its counterparts throughout the the world into the other Abrahamic cultures and States through my Green Socialism Foundation for World Conservation and Development into the future as the perhaps the prophesised' second coming of Jesus Christ for the creation of the utopian Heaven on Earth.

I accept that I have been a misearable lunatic with such imaginations and I have already made my apologies to Her Majesty the Queen in the email that no-one yet has acknowledged (attached, and referred to in paragraph 1), so only have my Royal Mail job starting 15 November 2020 as Christmas Casual that I will go in for now because I like Saeed: he was a very nice man when I worked there last year.

This is therefore just confirmation that I do not wish to receive any more job alerts from CVLibrary ever again for the positions of Environmental Sustainability Manager or such related Professionals in the United Kingdom or elsewhere. I will continue working for my Election Duty for Medway Council if they will have me back for the Council have not replied to any of my representations over the years of complaints against Labour Party Councillors Dan McDonald locally when they ask me again (Coronavirus-restrictions permitting) so that my political ambitions to better the United Kingdom by service to Her Majesty's government at Council and Parliamentary levels have still not materialised.

Yours sincerely

ATTACHMENTS

The Value of being Unattached is considered as follows:

Attachments to ideas, beliefs, to have a basis for actions in the quest for peace of mind is undesirable because it restricts the flow of mind into one's next course of action towards converting the instant moksha attained through karma into durable moksha and even permanent moksha. One must never assume that under my developing conception of Brahmoadvaita Vedanta, karma has ended into seeking Samadhi (freedom from karma as dharma). One has to continue in ones satya-advaita yoga to discover continuously one's path of truth towards one's destiny. This could be abruptly cut short by death naturally, or in a mental hospital, or ones imprisonment, or by being murdered as Mahatma Gandhi and Subhas Chandra Bose were in their own conceptions of eternal dharma for the restitution of Dharmarashtra in India in accordance with their Hindu traditions.

There is no Direct God-led supramental descent into the mind of the sadhaka in quest for knowledge and wisdom in the Hindu conception of gyana yoga to make it clear to the seeker that the time has come for resignation from worldly affairs (the samsara). No guru can tell one that. It has to be a self-discovered state of mind to know when to stop karma and go into Samadhi.

In the old days I used to take specific direct instructions from God as Sri Krishna, thinking I am on the battlefield of Kurukshetra in another real life dharmayudha and went on to consider if I was the Kalki avatar as seemingly prophesised in Hinduism to restore law and order in the universe in the present Yuga where according to my scientific considerations I saw that the Earth was in peril towards the impending doom of environmental catastrophe and so spent a long time studying whether we humans could take actions to avert that doomsday crisis facing mankind and the planet.

But it turned out that I did not achieve that in my dharmayudha as my Blog <https://shantanup.wordpress.com> remains archived and suspended after all my material and spiritual efforts to have them restored towards the idea that we aim for an utopian world with Green Socialism material resolution to the impending crisis, because I did not wish the human species to die out like the dinosaurs unable to live sustainably with the restrictions of the natural environment. No one took any heed of my concerns and worries, so my gyana yoga through satya-advaita experimental tool arrived at the stage that this was not in my truth path at all, perhaps I am to work towards some other mission. This neti-neti assessment and analysis led me to consider that non-attachment made the mind free to sharpen ones intelligence and intellect to become the greatest pundit/guru/acharya/mahatma/avatar as Brahmoavatar perhaps that would show people how to truth accommodate to improve their chances of survival under Police States that restrict one's mobility to move in Nature to greener pastures because I considered that God had perhaps made The Theory of Evolution in that manner and human beings had come about to therefore proliferate through out the world, now.

Unattachment was giving the individual human being the tools for greater intelligence and guidance mentally to make decisions that would take them towards survival to a grand-old age and one could then have children and grandchildren into future generations in the evolution of life.

I do not know anything and take nothing for granted, even to the point that I do not consider that there is a God whom one could pray and surrender to for Divine protection as one goes about one's life.

So the Brahmoadvaitic State of my mind is still totally unattached this morning as to whether I have discovered a solution to human miseries or even an understanding of Nature that is correct in conception and thereby could form the basis of the development of my mind into greater

understanding and lead to a new formulation of a prescription if I wish to attain the welfare of mankind or wider nature in terms of preserving the present biodiversity.

I remain ignorant of what I should do next. All I know that from emptying my thought processes openly and honestly to my fellow human beings around the world through my website publications, I am doing the right thing for myself for another moment in my life and attempting to change the instant moksha state that each karmic action brings to my mind into more durable moksha in the next moment.

My thought on that basis is that the meaning of life is to find the means to assuage the mind, not by sleeping it into stillness as I have been doing to deal with the frustrations and stresses that I experience from not attaining anything good for the service of mankind as a perceived path of dharma employing dharmayudha that would lead to more durable moksha than I have experience and thereby moving my mind towards a Samadhi state of no karma left, as an eternally constructed phenomenon, that would then await for Mahasamadhi as mission accomplished under God's guidance or self-directed, may be all delusional quest under truth accomodation. Perhaps the idea that I have promoted is not practicable for anyone to follow, and so will not be a prescription that I am leaving behind for humanity as my legacy.

So my advice and publications are only part of my continuing search for the truth of the meaning of life, and should not be practiced by anyone or they will suffer material consequences of mental hospital incarcerations or imprisonments or even captial punishment from a State that they live under for breaches of national security and treasonous activities, as I have been repeatedly warned for my proclamations and am enforced by the State of the United Kingdom to take lurasidone and sertraline anti-psychotic medications if I wish to live in the Community and not in mental hospitals as I was put into in 2004 and 2008.

My defence to Her Majesty the Queen of the United Kingdom is that I am a simpleton Awara/Rolling Stone searching the means and knowledge to survive in this world for as long as possible to learn about the universe. If that is a crime, I should be punished and sent to prison, not to a mental hospital. For I feel that I am being myself in accordance with my genetic-endownments and cannot help what I do.

This post should also serve as a disclaimer to anything I have done wrong as nothing I have done in my life was premeditated consciously to do any harm to anyone directly or indirectly. I was seeking justice and had to try and find out if it would come from spirituality if there was a Creator and Preserver God who created Nature that I turned into Brahma-Nature conception, and worked in my life towards a spritual destination for my life rather than a purely material destination.

I take nothing for granted therefore. I am totally unattached to my karma, even if you can call it karma in the Hindu conception. I am not a karma yogi, dharma yogi materially or spiritually to restore Hinduism to its former 'glory' through this idea that I was destined to develop the final chapter of Vedanta as Brahmoadvaita Vedanta in this Yuga, and I am neither a Kalki avatar of a perceived God as Sri Krishna or other Entity who may or may not really exist as Creator and Preserver of the Universe or to knock the stuffing out of mankind as God's perceived wrath on the citizens of the world for destroying planet Earth.

## SAMADHI

The Liberated State of Samadhi (Moksha) in Brahmoadvaita Vedant is something to consider.

Knowledge of the Absolute leads to a situation in life that there are no longer any desire for Sanatan Dharma: That state of mind in Brahmoadvaita Vedanta is Samadhi. One is at this stage liberated for one has all the knowledge and awareness to be care-free, just going about one's dharma only to the extent that one is surviving and needs to keep oneself in that mode with whatever one can do as ordinary dharma. This ordinary dharma is done also nonchalantly and spontaneously under the belief that one is awaiting Mahasamadhi in any pre-ordained and pre-orchestrated manner by the Creator of Brahman Sir Krishna. We then say when our time will come will go (take Mahasamadhi) in physical death. The period of Samadhi is total liberation for one is not doing anything other than what is required to keep one's wife and daughter if one has a family happy and contented. There are no other objectives as dharma for me. That is the most important considerations. Promises made at Samadhi have now to be kept, whereas when one was in Brahmoadvaitic mode, there were no durable attachments to promises, vows or any other form of self-regulatory dharma towards the search for Sanatan Dharma. It was spontaneously determined through satya-advaita yoga. In Samadhi there is total liberation (moksha) because one is spiritually unattached to any deity, not relying on any deity to guide one. One's true intrinsic sattvic guna will appear to guide one into the right duties and responsibilities to one's family, the society, and the world.

One is at total peace.

### BEING ENVIRONMENTAL

Environmentally-sustainability, through living in harmony with Nature Hindus strive towards a perfect holistic balance of living in harmony with Nature. According to our shastras 'ahimsa parama dharma, dharma hevo thai vacha, dharma evo hato hanti, dharma rakshati rakshita'. That is the basis of Sanatan dharma as the eternal law of the universe. Ahimsa is total physical and verbal non violence towards all living creatures, plants and animals. This also means viruses, bacteria, fungi chicken etc, whatever you can see. That is the param dharma.

So one tries to be a vegan, but essentially one must survive as the ahimsa mode of living does not let one commit suicide from depriving oneself of food and water (self-preservation). So when a Hindu lives in circumstances that there is no vegetation (in pastoralism, or urban living, for example) and one is therefore in a situation of having to eat meat from terrestrial and marine animals or even corpses like Aghori baba do, to protect the primary goal of personal survival as swadharma in which killing animals is better 'dharma' than starving oneself to death, one is protected by Nature in that Nature operates to the Gaia phenomenon. One tries to therefore be a vegetarian because Nature's vegetation is fast in providing creatures with renewable food resources for personal survival adjusting the introduction of new species if existing species are not conducting themselves in perfect Sanatan dharma so that if one is honest to God in ones actions and justification for killing an animal because there is nothing else to eat otherwise, dharma will protect you in turn and your community species will survive in the evolution of life-forms on Earth: hence, to protect dharma by hinsa (violence), is sarva-uttnam dharma and this is summarised in the fourth line 'dharma rakshati rakshita'. It is all in one's mind therefore, in which one must do satya-advaita yoga constantly to be at one with the truth, the reality of one's imminent circumstances of living but always striving towards perfect ahimsa param dharma and so being totally non-violent. That self-guidance gives one instant and permanent peace of mind that one is living sustainably with the environment.

So we Hindus are nonviolent by nature and if anyone calling himself a Hindu is not following these principles of the eternal law as Sanatan dharma they are not Hindus. Being a Hindu is synonymous with seeing oneself as being just another unit of the environment of Nature like plants, animals, soil, air, etc: We are Nature. We must therefore not destroy Nature in our personal objectives of being able to survive until death comes naturally to us. We must therefore minimise our demands on Nature so that Nature can regenerate itself through the evolution of the species in relation to the environment constantly for which our lifestyles should be organised to make Nature do so as quickly as possible. This will happen only from our personal and collective wisdom into austere lives in the consumption of natural resources, with taking only what one needs from Nature for our basic necessities, which comes to our mind through yoga to lose all one's mentally-driven attachments for personal survival unnaturally by medical means and temptation for the acquisition wealth from the over-consumption of goods and services. That is how a dharmarashtra should be built so that the planet's resources become naturally renewable in environmental-conscious utilisation to preserve Mother Nature.

This is how Hindus lived for thousands of years under the guidance of sages like even Buddha in Buddhadharma. It was shattered afterwards through ignorance introduced by plundering humanimalist invaders starting with the Greek Alexander, the Muslims, and then European colonialists with totally different concepts of greed-based exploitation of the provisions of the natural environment in God-created Nature to dominate and modify the natural environment from urbanisation and creating consumerist societies through educating their population into perpetuating such a lifestyle from a young age in schools, madrasas and churches of the means got mass education to brainwash people into human-selfish values in organising the State towards this raison detr'a of survival of the brutal fittest. This is why humanity is suffering badly now as this process over the past 2000 years with its effect on the increasing of the world population to 7.5

billion humans that is totally unsustainable from the point of view of the finite geological and surface natural resources (in not realising that geological ones should be left alone to mother Nature for the regeneration of the surface of the Earth through earthquakes, volcanoes hurricanes) which has destroyed the inherited biodiversity of Nature; since the Roman Empire started their conquering quest in following the Vikings example, and which got emulated by European civilisation and Middle Eastern and Far-Eastern civilisation, that then permeated into the Hindu heartland in the subcontinent of India.

It is however never too late to get back to the basics of environmentally-conscious living.

15 October 2020 Update:

Nature Boy

If one obeys the law of Nature , an eternal law, by being one with Nature, as a Nature Boy, taking only what one needs from Nature for basic survival of food, water, shelter, and savings for a rainy day, one will survive to a natural death individually for dharma (law) rakhati rakshita. If you protect the law (dharma) that law will protect you.

The first rule is to do so individually to propagate your self and your personal 'species' as a unit of Nature. If through socialisation with others who following your own principles of Nature-Boy living, you acquire friends with whom you socialise and so find your friends of the same mind to live communally with marrying within your social circle and creating your own community afresh by not being attached to the principles of the wider society who may have different principles to guide their living. That is how Nature forms communities that develop culturally as a new race perennially throughout the history of Creation. So strive to retain your independence of free-thought and actions in life to survive, a phenomenon that one attains from total unattachment to anything that has happened prior to your being on Earth.

Therefore, every individual life-form is a new beginning in Nature. Maintain and preserve Nature as the provider of nutrients to enable you to live to personal dignity of independence, not bound by any existing man-made laws and rules to regulate you. Be confident in this approach because I have found this to be the elixir of living to perfect freedom of thought and actions for total peace of mind. Enjoy the beauty of Nature and its creations. Do not scoff off anything, human values and animal behaviour and the behaviour of viruses, bacteria, plants and terrestrial and marine animals. Value them as the constituents of Nature, protecting biodiversity as you have inherited. Do not kill viruses, bacteria, or any animal or human beings in total nonviolence (ahimsa). Allow Nature to exist, that is when it is stable and unchanging. If one changes the status quo, Nature will punish the perpetrator by illnesses and premature death, to enable a new life form to emerge for occupying your space in Nature.

Let therefore Nature take its course. Do not disrupt other living beings way of life. They will meet their own fates. So do not preselytise your views. Be happy and content with that subservience as dharma (personal guiding swadharma or personal law imposed by yourself upon yourself by your own mind), which is not taking orders from anyone else, as your own frame of mind (raison d'être) that you are Nature. So make your own rules as a Nature Boy to live to the perfect adaptation to Nature, such as minimising your requirements into austere life, stopping pollution and waste, and listening to no evil, seeing no evil and speaking no evil, doing no evil as being the sins committed to Nature.

## DHARMARASHTRA

Generation of a Dharmarashtra of righteous karma requires the Construction of a dharmarashtra.

It is my view that whilst learning about how to live one's life in Nature, one should do so within the nuances of Nature, and not surrender to anyone within Nature or outside Nature as God, whether to Sri Krishna as the Creator of the universe (Brahman, Self) or to the gods of guna-Consciousness in Brahma-Nature manifestation of Brahman. One must have a mind free of all attachments such as this and act in one's subconscious mind that leads to continuously increasing knowledge and resulting awareness of the environment to act correctly in one's personal circumstances as one goes through one's life trying to improve one's material prospects. That alone leads to tranquillity of mind which must constantly be the instinctive-quest of security and welfare in the comfort and joy of living. Accordingly, do not disregard any source of information that comes to you in charting your journey in life. Be your own person in self-guru teaching of your ideas to yourself. This is what I mean by Brahmoadvaita Vedanta that have realised from my satya-advaita yoga and the accompanying practice of tapas in austerity in always being satisfied with one's circumstances in life.

It is an individual struggle of dharmayudha that is contained in the eternal law of 'Dharma Rakshati Rakshita'. When like-minded people come together in establishing a dharmarashtra according to this fundamentalist conception, a political party is born. When the society elects those politicians and lives according to this law-conception and abides by the Constitutional rules and regulations enacted for the welfare of society by those politicians protecting a specific geographical area of the world with all individuals performing dharmayudha as Sanatan Dharma, a nation is born as dharmarashtra. Because the fundamental principle of dharma rakshati rakshita is then engrained in all the citizens by dealing appropriately to eject through law enforcement the society's criminals conducting unlawful activities of adharma and regarding them as miscreant-insects and humanimals by getting rid of them from society, everyone is materially prosperous and spiritually-free in peaceful minds because the nation self-created is protected by dharma, and will withstand all foreign intrusions into its culture. This law of the universe has been the cornerstone of Hinduism for thousands of years and is as relevant today as ever it has been in the past. We must read and reread our Hindu shastras, the wealth of India, and learn to appreciate these strictures so start afresh accordingly to the motto of the Supreme Court of India 'Jatha dharma Tatha jaya, and purify our hearts to the emblem of India's nationality 'Satyamev Jayate' extracted from the Mundaka Upanisad.

The times that we are living in now is Kali yuga at its worst manifestation of tamasic guna in Brahma-Nature. People are consequently ignorant of the law of Nature as created by God. That is why humanity is suffering from worldwide proliferation of secularity that assigns human rights values to what the truth is that we humans are just like all other animals of Nature in our constitution. We are however the most highly evolved species as Homo sapiens in the development of the Mind attached to the brain of our being. This gives us the scope to think more intelligently to survive as an individual with a family to work together in one household with children to look after us in times of hardships and in our old age, and in turn we can guide our children in the fundamental law of the universe that dharma rakshati rakshita so that they can follow this basic tenet of Hinduism and be successful materially in life. I have learnt this through satya-advaitic yoga over the past few 22 years when I lost my lucrative livelihood at the University of Greenwich as a scientist and suddenly became a fakir from riches to rags, twice incarcerated in mental hospitals suffering with paranoid schizophrenia and persistent delusional disorder with the State enforcing anti-psychotic and anti-depressant medications to restrain me after release from the last mental hospital detention in 2008. I recovered to learn again how to live with my wife's limitless patience and care for me as her life partner. I learnt about the Nature that we are part of and realised that it is composed of gunas in our consciousness and in wider environment as Brahma-Nature with the sattvic, rajasic and tamasic gunas that we can interchange if we wish to. Our mind has the capacity to cope with the nuances of

this Nature and what I found from my experiments is that one must try to aspire to Sanatan Dharma that is blessed by Creator God Sri Krishna who helped me in my bhakti and surrender to Him to learn what the real nature of the universe is; and over the next 12 years I practiced Brahmanism to survive materially in this utterly-tamasic land of the United Kingdom, back to wellbeing recovering much of my lost riches and living comfortably with all my enemies in Brahma-Nature dealt with and disposed off. It is therefore proof that one can survive in prosperity with the dharma to strive to accommodate oneself in Brahma-Nature taking from Nature only what one needs to survive, killing other creatures (plants, animals, viruses and the rest) only as a last resort so treating ahimsa as parma dharma but also realising and practicing the idea that killing to protect dharma is sarva-uttama dharma.

A dharmarashtra should be created afresh in India which has the best scope of understanding this conception before further destruction of Mother Nature takes place from consumerism and materialism that regards the body as being the primary concern to live healthily through medical interventions whereas it is the Mind and its attainment of peace that generates the blissful life.

Dear Olivia

I am sorry that I have taken this long to respond to your email enquiry and I am considering this very seriously, if you would let me know your views on my conception of Liberty as we in the United Kingdom head into the future with the coronavirus pandemic that the nation is grappling with. I need to do this before I consider increasing my donation currently only £1 per month because as you know Claim E35YM660 at the Central London County Court remains adjourned with me having no idea currently as to whether it will ever be resuscitated - see the attached To WHOM IT MAY CONCERN.docx, with reference to the correspondence I have had with Liberty during my past year of membership of Liberty.

It seems to me that if one strives to be a libertarian, this is frowned upon by the State-Establishment who would go to immense lengths and expenditures to round us all up as a Community of slaves who are disposable when the times are hard for the State to be able to feed, clothe and home all our citizens, and so keep them under lock and key until the economy revives through a crusade to fight against a natural enemy in the form of the coronavirus now that has hit us out of the blue this year. People like Andy Burnham's protestations that we must always look after the basic needs of all the people to survive on this Earth ahead of any other considerations like educating students for the future needs or desires to expand the economy and concomitantly to strengthen the national armed forces to fight wars overseas (for colonisation of overseas territories to exploit those natural resources) as effectively-conscripted soldiers, which is exemplified by the decision of the Welsh devolved Assembly to announce a full lockdown of Wales except for Remembrance Day when like dumb-driven cattle the subjects would be expected to come to Cenotaph to march and lay wreaths (and at other memorial monuments) and altogether with the clergy sing 'We Remember Them' as a nation of morons enslaved to serve the Ruling Classes led by the monarchs to sail to the rest of the world to find more resources to plunder in order to satisfy their greed for wealth and consumption of the Earth's Natural Resources. This is a clear strategy to marginalise ordinary people from farming homesteads by commercialising agricultural farming systems through aristocratic barons in which the ordinary folk were in previous generations used as cannon-fodder labour, piled with beer to stop

them thinking clearly that they are normal human beings who are deprived of the opportunities to improve their lives materially in that they have the same minds to put to it to use towards. The same is happening now to the hospitality sector and other amenities which employ 2 million people nationwide to earn meagre living and that too has become the first casualty of the restriction regime employed now by the State in the three Tiers of Alertness under the pretence that this is being done to save lives. They could not give a damn about saving lives except using them on a use and dispose strategy as and when the targeted economic growth permits. They educate their children to moronic standard science and history to engender the herding slogan 'United We Stand Divided We Fall' patriotism just so that the Ruling Classes of aristocrats can think of new ways of gaining wealth and influence in the rest of the world through the enforcement of secular values of administration of other nations away from Sanatan Dharma.

The great news is that more than 250 people have responded, giving in excess of £6,000 so far. This gets us on the way to temporarily increasing our staffing to meet the rise in demand, providing essential training for advisers and doing vital outreach work with groups most affected. We now need your help to get us to our target. A donation at any level you can afford will help us strengthen our invaluable Advice and Information service at a time when it is both more challenged and more needed than ever. DONATE NOW → We've been working flat out during the pandemic to provide urgent, accurate legal advice. And our regularly updated Coronavirus Advice and Information Hub has been viewed more than 120,000 times, demonstrating how vital this service is. We've produced tailored advice for protesters and homeless people so they know their rights. And we're still providing bespoke legal advice to members of the public. We've been blown away by the amazing response we've had already, but your donation will help us get that bit closer to our target. If you have already donated, I would like to say a huge thank you and make one small request: it would be great if you could share our page with friends and family who might be interested in supporting the Crowdfunder. Dear Kate

I was waiting for your revised assessment of my mental state through your considerable knowledge and understanding, especially in light of the attached: ToUKIP17Oct2020.docx, that I have tried to have my UKIP membership restored to resume my career as a politician through the UKIP Party, that is required immediately in light of the draconian measures being announced at Prime Minister's Question Time just now perpetuate divide and rule strategy of the Conservative Party. Of particular remark that I took great objection to is that the Executive wants to continue with its international objective of educating 40 million girls across the world into his human rights values that has brought on the second wave of the coronavirus pandemic with considerable expenditure of money to sink our nation into further debt while he destroys the freedoms, civil liberties and basic food, water and shelter necessities of the British people. With Nigel Farage not going forward into electoral representation to institute libertarian values that he champions in Parliament in accordance with the principles enunciated as attached BrahmoadvaitaVedantaUpdate20Oct2020.docx and confirmation that I have just received in email from indeed of Ireland as an agent of the Supreme Court of the United Kingdom (3 emails just received), with nothing from Kent Police on the attached enquiry (ToKentPolice19Oct2020.docx), I am of the view that all outstanding court and tribunal proceedings are completed, as attached: Toindeed20Oct2020.docx. I am still taking my 74 mg of lurasidone and 150 mg of sertraline as anti-psychotic and anti-depressant medications recommended by Dr Odesanya, the Consultant Psychiatrist at Britton House, Gillingham, Kent ME8 0SL, who has not increased my dosage to 148 mg of lurasidone that I felt I needed to take two days ago when coping with new set of bullying, harassing, intimidatory, perverting justice through obstructing justice, and simply terroristic activities that have continued this morning from criminals reed, neuvoco, Experteer and Vistaprint sent emails. I am letting you know this so as to keep you informed of my current work engagements in the political area, that will be interrupted by my Christmas Casual one month assignment of paid employment at Royal Mail (Medway Mail Centre) starting with the induction on 15 November 2020. Thank you for counselling me in the absence of a Vocational Advisor now at Porchlight and the desperate request for a Care Coordinator to Dr Odesanya that I asked repeatedly for to help me rehabilitate in society, including the latest request through Lucy Fleming of Porchlight. Dear Lucy

It was with the best of intentions that I copied you into this email to find out when it is that we are seeing Dr Odesanya for although as you note I had sent this email to Kate Potter of Bark because of uncertainties concerning the appointment of a new Vocational Advisor at Porchlight (Aspirations) for me or a Care Coordinator at Britton House on the consideration by Dr Odesanya of whether your complaint against me to him was justified and so the termination of appointment Form (Exit Form) was acceptable to the Mental Health authorities, I did not receive an email back from Julie Palmer, nor KMPT PALS or KMPTLegalServices. Kate Potter is therefore my only saviour in this regard. You are entitled to know that and pass it on to the Mental Health authorities as is your duty to do so for I only accepted termination of association with Porchlight in duress. You should inform the European Council immediately of this dispute so that it considers withdrawing its funding of Porchlight's activities as inhuman and contrary to the provisions of the Convention of Human Rights as monitored by the European Court of Human Rights under its Articles on Freedom of Expression and Discrimination (Religious discrimination in my Case. You should be aware that this Case was lodged in the Court in 2001-2002 and is still under consideration by the Court and the European Council whose jurisdiction you must accede to until the end of the transition period on 31 December 2020 in the Case of the Institution of the European Council, and indefinitely in the case of the European Court of Human Rights. I am copying this email to the Speaker of the House of Commons to keep him informed that I am greatly disappointed at the failure of Her Majesty's Government to institute a Private Members Bill to regulate the Supreme Court of the United Kingdom, with regard to my Appeal of 5 September 2020 (attached, ToSupremeCourt5Sep2020.docx) such that the next Queen's Speech passes the law that forces all the Courts and Tribunals of Her Majesty's Court and Tribunal Service to serve the population of the United Kingdom State with the dismemberment of the Crown Prosecution Service and not the other way round in a reformed dharmarashtra in the United Kingdom that would include a written constitution, as my Brexit Party Leader Nigel Farage wishes.

## GENIUS IN THE MAKING

How is a genius made?

Those who feed their bodies become morons; those who feed their minds become geniuses.

Have you heard or read the proverb genius is 99 percent perspiration and 1 percent inspiration? it means be active with karma and studies to fill the brain cells with information on life and the lessons you learn to develop knowledge. The Mind is the Store-room of knowledge. The more it expands from ones activities the greater the subconscious derives the instinctive reactions to opportunities to better oneself materially in life and avoid dangers so that one can survive for a very long time in the wilderness that is Nature. Otherwise one limits one scope towards prosperity if one simply feeds the belly, wears good clothes, and enjoy music and play sports and such mundane activities. When the mind is restricted from being brainwashed by fixed ideas of one's educational upbringing it is operating like a moronic machine and one lives and exists like a slave to one's human or God masters. Nothing can be more moronic than that.

Dear Lucy .... I applied to the European Court of Human Rights on 21 October 2000 was given a case Number of PN22010. The case listed for a Hearing on 11 September 2001 under 64851/01 was rejected as inadmissible, and further explained on 21st May 2002: with reference to your numerous recent telephone calls and faxed letter of 11 May 2002 I must draw your attention to the following points: Your application 64851/01 was rejected by the Court on 11 September 2001; no appeal lies against this decision; if you have fresh complaints concerning alleged violations of your rights under the Convention you should submit them in writing. If they refer to matters already decided in your previous application, any new application would be rejected pursuant to Article 35 2(b) of the Convention. In the light of the above, I must inform you that the Registry of the Court can no longer accept any telephone calls from you.' I wrote back stating that these were indeed fresh complaints of violations of my rights under the European Convention of Human Rights and I should therefore be grateful for a consideration of the Case. The European Court of Human Rights wrote back on 8 July 2002 and again on 30 July 2002 giving two new File Numbers inviting a fresh application, to which I took no action. I referred the matter instead to the Council of Europe, the parent body of the European Court of Human Rights under an application for asylum. From European Court of Human Rights autoacknowledgment Your request has been sent to the European Court of Human Rights. Please note that if your request concerns an application which you have brought before the Court or which you wish to bring before the Court, it will not be dealt with. Dear Magistrate

The deadline I had set of 20 October 12.00 hours elapsed (as shown in the attached Toindeed20Oct2020.docx) and as I my time on Earth is limited I had accordingly revised my Appeal (see attached FrEuropeanCourtofHumanRights21Oct2020.docx) to the European Court of Human Rights (Case No PN22010; Hearing disposal 64851/01) under my application for asylum in one of the Council of Europe States (France's OFPRA had already given me permission to arrive from Dover to Calais on my expired passport at the time of my attempted travel to France in 2004) but which the Dover Police (Kent Police) would not accept as legitimate. However, if the Magistrate is now prepared to reconsider the private prosecution of the Chief Constable of Kent Police for overseeing the systematic tolerance of Hate Crimes against me over the past 22 years of political detention through the Mental Health Institution of the United Kingdom to cover up roughly a thousand criminals who persecuted me from within the United Kingdom, in the United States of America, in the Supreme Court of India, and in the United Nations through successive General Secretaries, starting with Mr Kofi Annan that you know about from the Case originally lodged against Mr Anthony Blair and Mr George Bush at the North Kent Magistrates Court and at the Central Criminal Court (Old Bailey), with the result that my Blog <https://shantanup.wordpress.com> and LinkedIn publication page of articles, and the Twitter Account were suppressed to prevent the population of the United Kingdom and outside knowing about my life and works as my legacy to mankind, I will gladly complete the necessary forms for the private prosecution of the Chief Constable of Kent

Police, who is hereby asked to submit to the Court copied to me whether the Constabulary intends to defend the allegation of Hate Crime on me, or needs to be summoned to the North Kent Magistrates Court immediately to face the prosecution, with the Crown Prosecution Service and the Independent Office for Police Conduct, as co-conspirators in the Hate Crime. To:Indeed Thu, 22 Oct at 22:20 Dear indeed of Ireland (On behalf of the Supreme Court of the United Kingdom)

Dear indeed

I was in the middle of crucifying the deceitful organisation Liberty with the attached email (see ToLiberty22Oct2020.docx) in the renewed dharmayudha that I am still testing to see whether it is an intrinsic part of Brahmoadvaita Vedanta incorporating the eternal law Dharmo Rakshati Rakshita; Liberty having terrorised me over the past year with falsehoods and now getting me to donate additional money to the organisation that I can least afford, and it seems that this so-called charity is nothing more than serving the establishment just like Amnesty International does and what the Samaritans do for the Community Mental Health Institution that I am currently taking my lurasidone and sertraline medications to comply with Dr Odesanya's 28 August 2020 Care Plan from Britton House for me (he has not increased the 74 mg dosage by doubling it daily as I requested for me); for examples, used as State-surveillance and State-sponsored terrorist institutions to dampen dissensions from activists detained as political prisoners in the Community or in the mental hospital for their resistance to the inhuman treatment of Boris Johnson's government of the ordinary people of the United Kingdom that started with the Slave-Trade centuries ago and which Mr Boris Johnson condones in not letting ordinary people urinate on the statue of Winston Churchill and prevent the Slave Trader giant Edward Coulson from being erased from the memories of persecuted people this generation of the black Slaves brought into the United Kingdom (and Ugandan-Asians) from the West Indies in the 1950s.

Still a judgment is a judgement and I know that as a law-abiding citizen/subject I have always in the past done and will now obey the Justices of the Supreme Court in taking up these job opportunities by applying to each and every one of the employers listed by you, unless I hear from you to the contrary by tomorrow morning 10.00 am with another Final Judgement of the Justices of the Supreme Court to this representation which reiterates the terroristic harassment, bullying, intimidation, perverting justice through perverting the course of justice by Extinction Rebellion in sending me this email minutes ago: FrExtinctionRebellion22Oct2020.docx.

Thank you for your kind consideration hitherto.

Dear Reed 1.

Thank you for this email in response to the clarification of my understanding that Kamro is no longer interested in my application for the Rochester Sales vacancy, as attached:

ToReedccKamro23Oct2020.docx.

2. I had tried to go into Estate Agency a decade ago with Wards of Medway but was unsuccessful with the application. I am not considered to be a good 'Bob the Builder' so will also refrain from trying to build a new dharmarashtra of Green Socialism in the United Kingdom even though I got the clear go-ahead from the Supreme Court to do so (through indeed of Ireland as its official agent-spokesperson) because of the Judgment that I am free of any mental health conditions that require antipsychotic and anti-depressant medication any longer which the Mental Health Authorities to continue to monitor me for, and as such I am requesting Dr Odesanya my Consultant Psychiatrist at Britton House, Gillingham, Kent to release me forthwith into primary care so that I can discuss his confirmation of this Judgement with my GP Dr Mawanche on Monday morning, the 26 October 2020, when I see him for my Urology appointment at Medway Maritime Hospital that I have still not heard anything from the hospital about.

3. Please send me some further job vacancies today, preferable as a Sales Assistant at Tesco with whom I have passed two applications but one got shelved due to Company restrictions and I was offered the job of a driver instead which I turned down after discussing it with my Care, Mrs Rashmi Panigrahi with whom I live at my Shanti Niwas with our daughter now. 4. Please keep in touch in my new-found independence and liberty.

Yours sincerely

Stop harassing me, you are not an agent of the Supreme Court but a foreign imposter, it is now patently clear to me. You have periodically confused me from my determination to attend the 10 May 2021 2pm Hearing at Ashford Hearing Centre because otherwise I would have had a phone call from Sainsburys or the Central London County Court in direct reply to the emailed reminder I sent the Court for Her Honour Circuit Judge Backhouse to let me know if the Claim has been dug out from adjournment following that Court's Order dated 22 May 2020 which stated that Costs are deferred until further notice. It is this Court's responsibility to issue an Order to the London Employment Tribunal to rectify the Case Management prevarications and manipulations to obstruct justice and perverting justice, because I have never sent an Appellant's Notice Form yet to the Court of Appeal or the Supreme Court let alone paying the Court Fee to the Central London County Court to Appeal the Order of 22 May 2020. I do not wish to apply for the Claim to be raised from adjournment now with an Application Notice either nor pay any Court Fee for this purpose. If the Court decides now to award costs to the defendant in E35YM660 I will pay those costs tomorrow by Bank Transfer from my Santander Account if the Order for updated costs is emailed to me this evening by the Court of Central London, or the Court of Appeal Master, or the Justices of the Supreme Court. In light of this deposition I intend to write to the Tribunal on Monday to pronounce judgement or issue fresh new Directions for a Hearing against Mr Aboagye at Sainsburys-Tonbridge against whom I have a personal grudge because he told me that he does not care about Sainsburys, but only his own reputation in relation to the criminal anonymous email sent to me by Kimberley Brook (ATTORNEY) which said the Store manager had made lewd remarks against my daughter.

## AMAZING GRACE

Is Amazing Grace genuinely a True and justied Praise of the Lord

I am still not sure whether Dharmo Rakshati Rakshita is an eternal law of the universe to form the basis of Sanatan Dharma as conceived by me in the Theory of Brahmo Advaita Vedanta, which requires truth accommodation through truth exposure in the employment of satya-advaita yoga, and being nearly 64 years of age I cannot risk not knowing the answer to this question before I die without experiencing this truth or whether it is pure fiction based on delusional considerations on my part as the case may be. So I am throwing caution to the winds by publishing the following emails in a final probe to find this out now, and see if the Mental Health Authorities of the United Kingdom will come for me to Section me and lock me up in a mental hospital this evening after considering this evidence:

Hello indeed

Did you like my latest assessment of the considerations which require a revision if we as a nation are minded to uplift our entire population in a new direction of travel so that Boris Johnson can be directed by the Court to immediately lift all Tiers of restrictions in the prevention of the spread of coronavirus infection throughout the country and only wearing face coverings masks when we leave our houses; abandon the track and trace monitoring and associated epidemiological studies of useless value but at the cost of 200 billion pounds so far from the estimates that I have heard; concentrate on building more Nightingale hospital's for the expected increase in Covid-19 disease treatment with ventilators, dexamethasone and other relief medications with intensive care by employing ordinary people to join nurses and doctors in all hospitals; open all retail, hospitality leisure centres, gyms, sports grounds to full spectatorship open pubs with the decision on social

distancing measures of 2 metres, and open the schools and universities for personal attendance by pupils and older students not online education? This is the most cost-effective risk-averse strategy of pursuing the objective of developing herd-immunity across the nation even if we lose 3 million people to premature acute deaths and longer-term Long-Covid disease. The expenditures being pursued by Boris Johnson is 'pie in the sky' castle in the air policy for satisfying his ego to leave behind a legacy as a modern day Winston Churchill or Margaret Thatcher and is a massive gamble that will destroy our country and people. He has not taken aboard my assessment that Mother Nature has a Gaia mechanism to restore the balance of the Earth 's ecosystems in the different geographical agro-climatic regions of the planet so that different countries will have adopt this same policy around the world and then we will see what population we are left with nationally and globally to regenerate and reconstruct our societies in appropriately designed environmental sustainability. We must not gamble on the future prospects of the next generations to build the houses of their choices in their own circumstances for which we must leave as much money in the National Treasury so that they do not blame their ancestors for their famine and destitution. That is called good parenting.

Dear 38 Degrees

Thank you for your email checking (attached: Fr38Degrees21Oct2020.docx) how I am progressing with developing further my Petition on Cornoavirus hosted by 38 Degrees:

<https://you.38degrees.org.uk/petitions/coronavirus-pandemic-tackled-through-circuit-breaker-lockdown-of-great-britain> I did not respond to your suggestion of further improvements to the petition for two reasons: (a) I was disappointed with 38 Degrees (and Liberty) too as referred in my CLAIMANT'S SUBMISSION14Oct2020.docx that you both had been rather dismissive of some of my other petitions in either not hosting them under my Account, or bringing it to the attention of other 38 Degrees and Liberty members in this time of national crisis so that we could put forward a joint plan of protest to the government's actions since the pandemic visited us this year and which is causing widespread hardship, since the Supreme Court has rejected my legal action against Mr Boris Johnson as narrated in the attached: Is Amazing Grace genuinely a True and Justified Praise of the Lord.docx, and because Liberty has not replied to my application to consider the attached Motion for its next Annual General Meeting: ToLiberty22Oct2020.docx. (b) This final decision from the

Supreme Court this afternoon has meant that my Blog <https://shantanup.wordpress.com> and its associated websites are still suppressed from educating the public in the United Kingdom and outside with the matter of the removal of my Publication Page of important to me articles by LinkedIn and the removal of my ability to log into my Twitter Account by the powers that be. So, unless Liberty and 38 Degrees arrange an online Meeting to discuss these matters, I really do fear for the lives and livelihoods of all who live in the island of Great Britain in not a very distant future. So, this is my last attempt to make you and Liberty see common-sense and restore all my petitions and initiate new ones to make the genuinely-felt grievances and concerns that I have on the functioning of the State of the United Kingdom to try and finally punch the final nail in the coffin of the State-Establishment that I have pursued through a Brahmo-advaitic dharmayudha struggle at a personal level of activism over the past 22 years.

I am copying this email to Keir Starmer of the Labour Party to get him to have some gumption and guts man, not to be a loyal opposition of Her Majesty to the government-executive but to establish an independent Labour Party with the Green Socialism agenda that I have been promoting through my membership of Labour Party for over this long period of time after the failure of Tony Blair to recognise and establish my Union of Petrol Station Workers in 2007; and accordingly allow me back into the Labour Party immediately so that we can all work together to a common cause of the welfare of the enslaved-workers this country who are now desperately trying to survive with their families and communities from the draconian measures of the Conservative Party with its global aims.

Hello indeed

What should I do now, please tell me. I am at your service. Please direct the rest of my life. I will put my mind to the tasks required of me in full loyalty to Her Majesty. I do not need any damages and compensation now. I am no longer in need of any of my websites past or present on the internet, as I am firmly now in Mahasamadhi mode of existence but not in Shanti Niwas free of intrusions by my wife and daughter to live on until death us apart. I could not go to a Care Home or a mental hospital as an asylum to get away from the samsara to await as natural a death as is possible with the present level of tamasic-guna in Brahma-Nature.

So your wish is my command

Please tell me the decision today so that I can inform Royal Mail now if I would or would not be able to fulfil my Christmas Casual employment appointment that starts on 18 November 2020 2.00 pm Induction, and clarify if I am obliged by the Supreme Court to physically be present at the Ashford Hearing Centre on 10 May 2021, 2.00 pm to argue my mitigating circumstances to the Judge now appointed by the Justices of the Supreme Court on this Sunday.

**Shantanu Panigrahi shared a memory. tSpoinsdh5oredm · Shared with Public Public**

I am in a better position and more experienced of life now to be able to provide an updated reconsideration of what I wrote a year ago, Facebook. One must live only for the moment in the performance of dharma, unattached to life and limb because dharma definitely rakshati rakshita as the eternal law of the universe. One must always set oneself the highest ideals of dharma (and nothing can be a higher ideal than protecting and nurturing the hand that feeds one, in the family in society, and ultimately in Nature) on the basis and presumption that that is Sanatan Dharma, and one should follow that path through all one's trials and tribulations as one navigates the nuances of Nature. When one follows this satya-advaitic yogic path in life and tests through experimental

studies of one's travel in life-journey one edges slowly and steadily to that truth and if one is lucky enough to live to the end-point of this realisation process inherent in the quest for the truth from intense vigilance that alerts one to fullest-awareness of the imminent realities one then has pristine knowledge and wisdom to be able to survive to a natural death in the Mahasamadhi state of mind in which one is able to act spontaneously and nonchalantly to continue performing one's dharma in the confirmation that one has from personal evidence found that dharmo rakshati rakshita is true so one has become fearless and no longer suffering from paranoia in judging what the next action (karma) should be as Sanatan Dharma in operating from one's subconscious mind.

So the moral of this story is survive for as long as possible using whatever means and tactics one judges to enable one to retain one's liberty to collect observational information in relentlessly expanding one's horizons of knowledge-acquisition so as to learn about the constitution and functionality of Nature until one proves to oneself that one's experimental quest for truth accommodation has satisfied one of the existence of dharma rakshati rakshita as the eternal law of the universe in Brahma-Nature so that you are then able to conclude your karma knowing that you have a clear conscience that you have always acted correctly and lawfully.

After the Realisation of having lived one's life to the full and self-satisfied with one's karma performed during one's existence on the planet as mission-accomplished there is nothing left to live for because living is stressful to the mind requiring one to struggle physically and mentally to feed one's body by undertaking mundane activities designed for satisfying the physical senses and therefore for one's ego in admiring oneself for the feeling that one gets in terms of instant-happiness and satisfaction derived from those actions of having lived life to the full gratifying your body's pleasure-senses of taste, smell, sights, reading watching cinemas and shows, doing sports for energetic state of the body but these experiences of the body are so temporarily-fleeting a release of the endorphins in the brain in the feeling of elation that one gets from those activities such that one sees time and again that it is a foolish and utterly self-delusional state of a joyous mind from which one is quickly brought down to Earth the very next moment when one has to return to one's chores of actions and reactions designed to keep the body safe from the predators of Brahma-Nature to remain alive for the continuation of mind-stressed existence that is never at durable peace so one suffers. So for a Brahmoadvaita Vedantist that I have now become living only has one purpose, to seek the truth, and when there is no longer any truths left to search out having realised the meaning of life in the perfection of existence one arrives into the Mahasamadhi state of mind where one's mind which is the entity that experiences suffering is no longer attached to the body so one has nothing left to live for: one no longer has a need to do work as a slave to one's body, and therefore not as a slave to others demanding one's physical and mental attention and services so one then goes with the ebb and flow of the tides of Brahma-Nature, free and liberated from the shackles of living. And therefore one lives only awaiting natural death from life in total peace and utter bliss, but no longer deliberately-resisting intrusions into one's mind from components of Brahma-Nature if one cannot find a ashram (Shanti Niwas) of total physical seclusion from every other living being, as one has not able to do if one is physically-confined to one's family-abode or in a mental asylum where intrusive-demands are made upon you still in these rules-regulated settings requiring you to partake in their own physical activities to rehabilitate you into some form of living (like reading the Bible, arts and crafts, taking part in pastor-led meditation, playing scrabble and pool and complying with anti-psychotic and anti-depressant medications or the blood tests and electro-convulsive therapies imposed on you and with having to observe abstinences set out such as not smoking tobacco, cannabis and alcohol and putting up with the administered-medications and the non-vegan foods enforced upon one; or if you are released into the Community under semi-detention terms having to comply with medications as depot injections and oral ones such as anti-psychotic and anti-depressant medications given to you by your wife under the supervision of the State's Consultant Psychiatrist; all of which restrain one's mind from going with the natural ebb and flow of the tides of Nature if one is not totally detached from one's Consciousness and totally stop

karma accepting everything that happens to you so you end up in a fully-natural death rather than as a martyr to the cause of performing Sanatan Dharma still.

So in true Mahasamadhi end-point there is no karma and no specific dharma: one accepts everything that one finds oneself in. One sees that even in this 'non-ashram' abode if one acts in one's subconscious until death comes it is the continuation of dharma to be defined as Mahasamadhi-dharma of truth-accommodation such that one's reactions of unpremeditated spontaneity retains its self-preservational property because of the underlying eternal law that 'dharma rakshati rakshita'.

Shantanu Panigrahi 25 IdeetsISOsncihtopombfeSr onus2Sore0g19d · Shared with Your friends and Meera's friends Friends When one's life depends on it then only does one stop searching for truths and dharma as religious preoccupations and conducts one's duties to oneself alone in order to live and exist on this Earth to witness what is going on. So life is paramount. My elder sister Meera Panigrahi taught me that.

Dear indeed

Thank you for this email as I review my Mahasamadhi state of mind and in the interest of polite subservience to the State authorities surrender my remaining ego to any truths I might have discovered through the yoga I employed over the past 22 years and find that dharma rakshati rakshita has not generated the justice that I sought through the process of dharmayuddha at least not yet. I still have not had my cherished scientific Blog of the exploration of Nature rewarded by the award of millions of pounds sterling in damages and compensation arising first from the unjustified charge by the University of Greenwich of gross misconduct thereby without a Hearing of the issues surrounding the one year work place harassment that led to my dharmayudha dog-fight with the Supreme Court now saying that it agreed with the University's decision to deprive me of my livelihood and Defaming me further that I have been paranoid schizophrenic with persistent delusional disorder that the world is not entitled to read about from the restoration of my Wordpress Blog <https://shantnup.wordpress.com> and the LinkedIn publication page and Twitter facilities that have catalogued 22 years of State-organised religious persecution that even God could not prevent or facilitate the just material justice on that I feel any innocent human being is entitled to, not be carted into a mental hospital as you did to me in 2004 and 2008 and are considering doing so again today.

I await the next State-sponsored act of terrorism on me that I will respond to by coming out of Mahasamadhi as having been a delusional pursuit for peace and tranquillity of my mind and will forward any email I receive from you or from anyone else to the Magistrate at North Kent Magistrates Court prosecuting the Chief Constable of Kent Police under my private prosecution.

Yours sincerely

Dear indeed

What did you make of the attached review: Mahasamadhi.docs in light of my reply to you earlier this afternoon, I have not found Shanti Niwas abode, and as the analysis makes clear, going to a mental asylum would be jumping from the frying pan of a nagging wife into the fire of enforced depot injections in the mental hospital, I fear with your further intrusions into my life, and Reed has joined the State-brigade of terrorism. Is there ever any freedom to live in peace and tranquillity? There has to be Mahasamadhi-dharma within Sanatan Dharma not with going with the ebb and flow, for Brahma-Nature spares no-one ever. So I have no option but to forward your email to North Kent Magistrates Court, as attached

To The Legal Authorities (as relevant: to whom others it may also concern, please forward)

The United Kingdom

Dear Sirs

1. Please update me on the current status of the proceedings in the attached litigations FrEmploymentTribunal14July2020.docx; and Central London County Court Judgement or Order 12 May 2020.docx, as developments of dubious value legally have taken place with the various authorities of the State so that I am uncertain as to whether to try and find a brand new solicitor/Law Firm this morning to progress matters in accordance with the Update on my circumstances just posted on Facebook KALKI AVATAR DISCLAIMER.docx.

2. This information is urgently required having just pondered over the latest five neuvoco.com emails that I just deleted from my inbox as I am provisionally committed to completing my Royal Mail assignment in the month before Christmas for which I need to attend an Induction Day on 18 November 2020, 2.00 pm which should be avoided in case a revised Hearing date is announced, particularly in relation to the Employment Tribunal matter currently scheduled for 21 May 2021, 2.00 pm at the Ashford Hearing Centre, unless I hear to the contrary from the parties concerned.

3. I need to see Dr Mawanche now and will head to the GP Surgery to find out about my medical situation.

Include the name of the court to which you applied, the date of the application and the name of the proposed defendant you gave that court if that was different to the name in this application.

North Kent Magistrates Court in 2003; Central Criminal Court (Old Bailey in 2003); Appeal Mention to Fix A20170027 46TY0039517 Hearing3 22 July 2020 (On 14 January 2003 I began proceedings against the United Nations at the Central Criminal Court Old Bailey. On 27 March 2003 I took out a private prosecution at the Kent Magistrates Court Service (North Kent Magistrates Court) against the court officials, broadening the case on 5 May 2003 to include my allegations against Mr Kofi Annan and the recent attack on Iraq).

Particulars of Allegation of Hate Crime

The series of Chief Constables of Kent Police from 1999-2020 oversaw the systematic Hate Crime perpetrated against me by the Security Services of the United Kingdom and the Pentagon of the United States of America to terrorise me and obstruct justice in the Civil Courts of the United Kingdom as well as the Mental Health Tribunals where I am detained (first as in a Secure Ward of the Mental Hospital in Ashford and the Littlebrook Dartford mental hospitals in 2004) as a political prisoner for my religious beliefs of Brahmoadvaita sect in Hinduism practicing Brahmanism in the understanding that dharma rakshati rakshita. Kent Police covered up the 1000-odd national and international criminals who terrorised me over this period starting with the University of Greenwich which withheld my £55,000 redundancy payment from my scientific job at the Natural Resources Institute in 1998 under the false charge of gross misconduct supposedly in the Brahmoadvaita-proportionate and physically non-violent protestation of my innocence to probe out whether the University was racist and subjected me to unfair dismissal for retaliation over the continuous 1-year of work-place intimidation, harassment, bullying, covering up criminal activities and perverting justice by calling in the Mental Health Institutions of the State to label me with paranoid schizophrenia and persistent delusional disorder and possibly autism, none of which is true because I am not only the sanest person in the world today but ever in having constructed Green Socialism to prevent the planet entering into decades of depression of depreciation of natural resources, biodiversity and loss of soil nutrients from the intensive global agricultural and humanity practices that are monocultural in conception from the United Nations and has to feed an ever-burgeoning human population.

The Prime Minister of the United Kingdom mobilised the international community of moronically-governed States of the United Nations to prevent me from getting asylum away from these 22 years of State-organised persecution for my religious beliefs, and I was harassed by emails by North Yorkshire Police and West Yorkshire Police to try and make me stateless. Over 800 criminal anonymous emails were sent to me and my associates to disrupt my employment work to be able to earn a living in the United Kingdom and Boots the Chemists in particular sent me cryptic messages to get me booted out of the United Kingdom with the complicity of the Indian Immigration Visa Services-sent emails to return to India on my British Passport where I would then be terrorised further by the Indian government for my religious pre-occupations of dharmayudha to better our lives in this generation as well as for all future generations of mankind.

The case for damages and compensation for £30 million pounds to be credited to my Santander Account by Her Honour Judge Backhouse of the Central London County Court was never dismissed but adjourned pending what, I do not know, possibly on the false pretence that psychiatric reports were needed on me before a Judgment could be delivered, according to the results of the Appeal I lodged in the Supreme Court in my 5 September 2020 to name the Master of the Court of Appeal who had deceitfully and deviously disposed off my permission to Appeal the adjournment of the E35YM660 Claim against Mrs Theresa May and now the present Prime Minister Mr Boris Johnson. This morning my latest attempt to find a solicitor after nearly 50 such attempts in the past received the following reply, which has all been covered up by the Legal Ombudsman against whom I asked Malcolm Dodds of North Kent Magistrates Court several years ago to initiate that private prosecution; and also by the Solicitors Regulation Authority and the Centre for Effective Dispute Regulation which have also not considered my requests to intervene in this matter:

In summary, the Chief Constable of Kent Police must be summoned today to put forward his defence of why he had not taken out criminal-prosecutions with the Crown Prosecution Service against these national and international humanimals who have committed this extensive Hate Crime on me under the auspices of the functionality of the Brahma-Nature conspiracy theory of mine.

Please act quickly, for I fear that the Mental Health authorities will send in their Mental Health Team today to cart me away to the Mental Hospital to deprive me of my remaining liberty to enjoy life in the freedom and security of my family in Shanti Niwas. Thank you Sir/Madam

Summary of the circumstances CrimPR 7.2(6) requires that an application for the issue of a summons or warrant for arrest must concisely outline the grounds for asserting that the proposed defendant has committed the alleged offence or offences. Summarise your grounds for alleging that the proposed defendant has committed the offence(s) for which you want the court to issue a summons or warrant. Give an indication of the evidence on which you will rely if the court agrees to do so.

I have tens of thousands of email communications that I have saved in a dozens of hand-written Diary Files at home and associated correspondence Files that I will bring to the North Kent Magistrates Court for the consideration of the Magistrates and which are available now if the Court issues the summons applied for first.

Dear Sirs Please see the attached communications:

ToRaviPatel(GovernmentLawyer)ccMadarchods27Oct2020.docx, with regard to which I am not sure if I need a Mental Health Specialist Solicitor or a Regular Litigation-processing solicitor.

I am expecting some developments this morning with regard to these proceedings, so would be grateful if you could reply to this email before 9.30 am this morning either to state that you are able to represent me and take instructions from me in defence or processing of the Appeal at the Supreme Court of the United Kingdom immediately. I still regard myself to being a political prisoner detained in the Community without ever being issued and served with a Community Treatment Order since the 2004 and 2008 incarcerations in mental hospital for 3 months and 1 month respectively, and now being State-enforced on unnecessary 74 mg Lurasidone (anti-psychotic) and 150 mg Sertraline (anti-depressant) medications that have generated horrendous physical and mental side effects (hyperprolactinaemia, high cholesterol, urological issues, prediabetes, tremors, erectile dysfunction and high prostate specific antigen for which I am being assessed for prostate cancer again following the Biopsy and MRI investigations a year ago) instead of being given an appointment with Maudsley Hospital for the autism that I have inherited in my genes from my parents in India, on the dubious grounds that my childhood history is no longer available to the Consultant Psychiatrist at this Hospital to assess me for Autism Spectrum Diagnostic Assessments.

## KALKI AVATAR

Kalki Avatar Disclaimer is hereby issued:

If Sri Krishna exists as Creator and Preserver of the universe pre ordained and preorchestrated or not let Him find another Kalki avatar do His work: I am not minded to do so having tried and failed to make any difference to my society of the United Kingdom let alone to the globalised world. I only managed to give myself the label of being a 'lunatic' during the past 22 years of trying to obtain direct or indirect instructions from a God to carry-on with a struggle to set myself different ideals of what constitutes Sanatan Dharma.

I am not going to be a martyr to any imagined mission or cause supposedly imparted into my mind by a God in 1997-1998 that set me up on a so-called awakening that I was wasting my life on Earth in being a specialist in Animal Nutrition and Production within Agricultural Development and Environmental Sustainability to spend these decades outlining the principles of Green Socialism as the next chapter in the finalising of Vedanta as Brahmo-Advaita Vedanta and then retiring from active life having done so as a mission-accomplished this morning to go in to the imagined Mahasamadhi state of mind to operate from my subconscious whether or not such a interface with the Mind as Consciousness composed of Brahma-Nature with guna-consciousness gods truly exists regulated by the so-called eternal law of the universe as dharmo rakshati rakshita as hypothesized by me. I am not attached to any such ideas now. It could all have been delusional fictional creations of mine and so should be read as my novel that I started in 2004 titled 'The Allurement of Reality' which I wrote first in printable format but when I got short shrift from several publishers I then went on to the internet creating websites like <https://shantanup.wordpress.com> and when that got banned with all my previous attempts to disseminate my thoughtful-constructions in internet Forums such as Freethought and Rationalism Discussion Board, Advaita-List, Secular Cafe, Talk Rational, Rational Skepticism, Religious Forums, Speaking Tree, and Hindu Dharma Forums, I continued with the work through other websites like <https://shanpanigrahi.co.uk>, LinkedIn, Twitter, 38bDegrees campaign, Action Network and Facebook. I am free now just enjoying life, sharing my thoughts without objectives and missions wondering if I have been a man before my time. Let history judge that legacy.

I only think about my own peace of mind and strive to live blissfully whether in Brahmoadvaita Mahasamadhi-dharma or not in the next phase of my life in material and spiritual comfort and joy of still being free in total liberty living in my own house with my family that is my solace as Shanti Niwas.

Dear Mr Patel

I did not get any information on this review of the progress of my Claim at the Central London County Court (Claim Number E35YM660) yesterday and this morning so far, so perhaps the Claim

has remained adjourned since the 12 May 2020 dated Order of the Court as attached Central London County Court Order or Judgment 22 May 2020.docx.

If this understanding is correct, I am not obliged to honour any Costs that may have been awarded by the Court prior to the above date, or subsequently to any of the respondent and defendant parties in the Claim, including Victims of Panigrahi Association to whom this email is copied.

## DUALITY-NONDUALITY

Choice between Dual and Nondual Existence is assessed on what is Consciousness. The Mind is Consciousness (Brahman, Self) in advaita-living of being nondual in one's perceptions.

Some of the ancient rishis of Hinduism wished to be at one with the eternal Existence for blissful living. But that is escapism in having to live in an Ashram secluded from the samara for liberation (moksha). It is not viable for a householder to be in that action-less state of mind when one has to earn a living, cope with the problems of raising a family, be productive and useful in society, all of which requires one to use one's own intelligence to survive and prosper materially within samsara. In these conditions and circumstances the person has to study the Consciousness in detail and see how it works or one cannot survive, for the world and Nature that we perceive and live in as living beings is Prakriti, in which one has to develop full awareness of the imminent, durable and permanent realities. When one searches through gyana yoga the Meaning of life becomes clear for one experiences the existence of Brahma-Nature as Prakriti that is regulated by the eternal law of Sanatan Dharma, the performance of which leads to the same liberation and bliss existence but greater knowledge acquired through actions (karma) from varied and diverse life experiences. One learns and the one has the choice and freewill of whether to participate in samsara or retire to Mahasamadhi state of mind in nondual Consciousness (Brahman,Self) for satchitananda.

So the end-point of non-dual existence and existence in duality (involving bhakti, gyana through karma in performing Sanatan Dharma where one's karma is never over until death when all ones duties as kartavya are over and if one is satisfied with one's life of having lived to the perfection of dharma is not the same), for in advaita one has escaped from the world into Consciousness whereas in living as a human being within samasara one has striven to become a purushuttama like Rama always in devotion to Sri Krishna who is the creator of the universe as Consciousness/Brahman.

In other words Hinduism gives us the choice, whether to live in samsara (a difficult path not for the faint-hearted, which requires strength of mind and purpose to navigate Brahma-Nature perfectly for material prosperity that gives spiritual-ananda as a karma-yogi; or escape from it into Brahman-Consciousness which is atheistic and self-centred. In Brahmoadvaita Vedanta one is never free and operates subconsciously to perform one's karma to lead one to ones destiny whatever that maybe for God Sri Krishna created Brahman with its Brahma-Nature for us humans to live, enjoy through prosperity and service to the Planet and all Mother Nature's creations, so we have a duty to God to live in samsara and it is possible for He has given us everything that we need to be able to chart our lives to reach our goal of the attainment of peace of mind in Shanti Niwas.

For the attention of Sue Weatherburn

Thank you for your email yesterday evening appended to the day's earlier proceedings with the Solicitor Acting for Sainsburys plc attached KatieMarshallBailey(SainsburysSolicitor)28Oct2020.docx. There are mitigating circumstances which should now be taken into account in arriving at a figure of £10,000 unconditional payment to me that I am now demanding as the full and final settlement, that need to be reassessed by ACAS. These are attached:

FrKimberly(LawAttorneyagainstSainsburys)20May2020.docx; and FrSaale madarchod bhosadiwale

suar ke bacche kahinke pig-shit bastards27Oct2020.docx, that were inserted into my work-schedule and subsequently by Victims of Panigrahi Association (VOPA) represented by Dr Sivaji Panesar, Marty Caine, Nitin Bhardwaj, FritzWuehler, Edward Mulhouse, who should be contacted immediately by ACAS to give evidence of systematic disruption to my work at Sainsburys Tonbridge through inciting hatred as a Hate Crime towards me for which the private prosecution of the Chief Constable of Kent Police is proceeding at the North Kent Magistrates Court, as shown in the attached APPLICATION FOR SUMMONS\_-(Apply27Oct2020).docx.

The substantive points for discussion prior to the 10 May 2020 2.00 pm Hearing that I will attend must incorporate your deliberations over the five other job applications and interviews arranged (two attended) at Sainsburys (and Argos) in its various locations in Kent, which have not yet been resolved to my satisfaction, in that the Fair Treatment Hearings arranged through Ian Tasker and Steve Bruce did not allow me an opportunity to present myself to the Company in the presence of Mr Yaw Aboagwe Gwekye, Gavin Russell, Oliver, and especially Charlie Kemp in relation to the text messages that we exchanged during the period of my 12 week probation as extended without the inputs of the Regional Manager of Sainsburys. These text messages will be produced at the Hearing if a reasonable settlement with the endorsement of my Sainsburys Colleague Discount Card, and employment not reinstated and sent to me in the post; so that I can claim staff-discounts on purchases that we as a family have made at Sainsburys Hempstead Valley Shopping Centre Branch since June 2020 and all future purchases that we make at Sainsburys and associated companies, such as Habitat, Argos, etc.

I would be grateful for an immediate acknowledgement of this email, so that I can decide whether or not to consult a legal advisor and obtain legal representation for the private prosecution of the Chief Constable of Kent Police today.

Dear indeed

I avoided just now deleting the email from moneysupermarket.com thinking that I must not sacrifice Hinduism in my momentary attachment of the mind to save Hinduism at least, if not save the world by my pronouncement that Satyamev Jayate, Jatha dharma Tatha Jaya, and Dharmo Rakshiti Rakshita is the eternal law of the universe as Sanatan Dharma, but then that is an attachment to my construction of Green Socialism for the emancipation of mankind and glory to me as my legacy for humanity for the foreseeable future as a man born before his time, and so must be shed.

So fortunately, I have no delusions of grandeur on my conceptions and of justifying my 22 year struggle for justice through Brahmanism dharmayudha awakened by the seemingly visions of impending doldrums (my email utterances like 'moving on to higher things from the noddly work of poultry nutrition', 'for all's intents and purposes', 'in this continuing quest to satisfy the need to know, to unlock the secret codes of the universe so to speak', 'Big Brother here in the United Kingdom wanting a nation of morons in a Police State', so I had 'to punch the final nail in the coffin of the British State') that I was to continue to face a riches to rags life with no prospects for recovery of material benefits from the hard work in dedication to the cause of truth that I have put in during these 22 years as no acknowledgement has been received from the Indian High Commission that 'well done son, you are truly a Bharat Ratna award winning 'pujari' for having proven Hinduism right and fighting as a Hindutva to try and restore Hindu dharmarashtra within India and beyond in its diaspora of the United Kingdom'. So I am fully aware that my Theory of Evolution as enunciated through the realisation of Brahmo-advaita Vedanta with its composition Brahma-Nature constituting of guna-consciousness 'gods' within the Triad of Brahma, Vishnu, and Shiva and all the millions of other such entities that fall in between such as Jesus, Allah, Yahweh, etc in Brahman as magically-created by Sri Krishna the Creator with a self-preservation mechanism built-in that no amount of scientific examination can probe out the evidence for because magical Mind (Consciousness) is uninvestigable only philosophised; bearing in mind that this Superlord that I felt I had communicated with from 1999 using a digital clock to use 3,6, & 9 numbers initially and then when not satisfied that this was scientific-enough using the single number '7' to continue the conversation with until this Superlord refused to give me statistically-valid confirmation that I was truly connecting with any such Divine Power, so that I decided to go it alone and have done so during the past 18 months to learn about Nature from more indirect satya-advaitic yoga studies to lose progressively all my attachments to bodily functions to operate only from my subconscious interface with the Mind as Consciousness; could all be delusional and so to be regarded as fictional creations of the human imagination. This is how I see things now having failed to get my cherished Blog <https://shantanup.wordpress.com> and Linkedin publication page and Twitter login restored, let alone getting £30 million credited from the UK Treasury into my Santander Account on this delayed response that you have sent me now as an agent of the Supreme Court in response to the attached

search for another solicitor/law firm to take my Case forward seriously: see attached:  
ToCreighton&PartnersSolicitorsccMaudsleyHospital;(MentalHealth Solicitor Required  
Immediately)27Oct2020.docx.

So if the Justices this evening will arrange for me to go in for an assessment at Maudsley Hospital for Autism Spectrum Diagnostic Services in their final analysis, I would be grateful, for I do feel that the Lurasidone and Sertraline medications imposed upon me over the past 8 months have not cured me of the above delusional mind - both my wife and I are convinced that the Risperidone that I was on for 12 years or so was working so effectively that I held the Shell UK Job for two years (1996-1998) and the Sherlodge Garage Job that I held for another 2 years (2010-2012) with the Wigmore Newspaper Agency job in the meantime, so if autism is rejected, may I be placed back on Risperidone from tomorrow morning as I need my Royal Mail Job starting on the 18 November 2020- Induction to make ends meet in light of the economic-depression that the country is facing from the latest surge in Coronavirus pandemic that is spreading across the nation.

Our specialist Family Law Solicitors based in Central & South London and Staines are experts in Children Law, Divorce & Separation and Mediation. We started as a firm dealing with children cases, in particular those involving children subject to care proceedings, but we have expanded to deal with a wide range of family issues including but not limited to child protection and abduction, pre-nups and post-nups. 020 7976 2233 office@creighton.co.uk

Dear Sirs Please see the attached communications:

ToRaviPatel(GovernmentLawyer)ccMadarchods27Oct2020.docx, with regard to which I am not sure if I need a Mental Health Specialist Solicitor or a Regular Litigation-processing solicitor.

I am expecting some developments this morning with regard to these proceedings, so would be grateful if you could reply to this email before 9.30 am this morning either to state that you are able to represent me and take instructions from me in defence or processing of the Appeal at the Supreme Court of the United Kingdom immediately. I still regard myself to being a political prisoner detained in the Community without ever being issued and served with a Community Treatment Order since the 2004 and 2008 incarcerations in mental hospital for 3 months and 1 month respectively, and now being State-enforced on unnecessary 74 mg Lurasidone (anti-psychotic) and

150 mg Sertraline (anti-depressant) medications that have generated horrendous physical and mental side effects (hyperprolactinaemia, high cholesterol, urological issues, prediabetes, tremors, erectile dysfunction and high prostate specific antigen for which I am being assessed for prostate cancer again following the Biopsy and MRI investigations a year ago) instead of being given an appointment with Maudsley Hospital for the autism that I have inherited in my genes from my parents in India, on the dubious grounds that my childhood history is no longer available to the Consultant Psychiatrist at this Hospital to assess me for Autism Spectrum Diagnostic Assessments.

6 November 2020 Update:

One must learn the lessons of history and devise revolutionary thinking bearing in mind the progress of human societies into the future should follow the eternal laws of Nature, if there is appropriate truth-accommodation that I have practiced through satya-advaita yoga.

Hinduism must accordingly change if it is to be taken seriously by mankind for which full analysis of UpToDate science and philosophy must be undertaken:

### CHANGING HINDUISM

It is for an individual to find out for himself or herself which truths he or she should believe in by seeking concrete proof of the fundamental law said to be the eternal law that sets out his or her actions in life. One is a really good Hindu if one is free in one's thoughts on what should be the direction of his or her life from the studies that he or she is able to conduct. Even Gita's scriptures should be tested in one's own life freely, and that freedom has historically only existed in the Indian culture of Bharat or Hindustan. This freedom for all citizens to practice their beliefs used to be fostered in small State communities under a king as ruler taking his spiritual advice from rishis as advisors. When India became independent in 1947 the whole sub-continent was regulated and governed under a single Constitution eroding away people's freedom and liberty to live in the way they chose to in the different States with their individual cultural communities that had developed their own languages and customs conducive to survival of the peoples in the limitations of their special and unique agro-ecological environment. This led to the Kalyug now where no one has a religion that is right for him or her that enables the family and community to survive. The Panchayat system of the government of local communities became politicised when democracy was introduced at a national level of India and within the federal states that cannot defend themselves from intruders into their communities. People now think of nationalism in terms of the government of the country which is very corrupt being funded by vested interests nationally and even internationally which impose conditions such as human rights values of equality of sexes and of people with different religions such as Christianity and Islam. So Hindus are lost in the wilderness of tamasic forces in Kalyuga having no confidence any longer in the caste and verna Vedic system of social stratification that created a civilisation of Hinduism for thousands of years living in harmony with Mother Nature. The decision to bring India together as nation of people governed by the education of madrasas teaching the religion of Islam and the erection of mosques of Islam and the Bible and churches of Christianity destroyed Hinduism over 1000 years and we as Hindus have lost faith in our ancient scripture and the epics of the Ramayana and Mahabharata except to pay lip service at festival such as Diwali and Holi and Dusshhera and other pujas such as Durga puja. So we are so confused that we do not regard Muslims and Christian's as enemies of Hindus because we have false pride in selected themes of being pluralistic and tolerant and not being minded to fight in dharmayudha to save our religion in all its dimensions like idol worship, praying to traditional mantras and shlokas like gayatri mantra and having a purely Hindu kshatriya army to defend our communities from intruding parasites like China, Pakistan and Bangladesh because our politicians are corrupt and take their orders from America and the United Kingdom under the United Nations and the Commonwealth respectively. We are slaves to these foreign powers who have enforced consumerism into Hindus to generate belly-satisfying and brain satisfying habits rather than seeking liberty from the body by feeding the mind with ancient inherited truths like Satyameva Jayate and dharma rakshati rakshita. So Hindus are persecuted in India if they live a Hindutva life and are encouraged to emigrate to western countries for their roles as slave labour to humankind and rakshases and asuras.

## EMPLOYMENT NEEDED

Karma: there is no way to live but in active employment to earn a living and look after one's family and contribute to the development of society. Life is not about seeking truths and developing knowledge in the final analysis by one's actions to prove or disprove a theory or other existing theories on the Meaning of Life, I feel this can only result in continuing mental depression from the stresses of investigating Reality. So I am seeking employment again, as this email communication shows:

Dear Dr Panigrahi, Acas

My client will not be increasing its settlement offer to £10,000. My client has reopened to offer of £500 to acceptance on that basis that you requested this. The offer is reasonable and is not open to negotiation. Further, my client will not be entering discussions about providing you with a Sainsbury's colleague discount card, as this is not an option available to former employees.

We'd be grateful if you would please confirm whether you wish to accept this in settlement of your Employment Tribunal claim or not. I note that you have copied your below email to my client's HR department. On the basis that I am instructed to represent my client in the Employment Tribunal proceedings, I must ask you to refrain from sending correspondence related to the claim to my client. Anything related to the Employment Tribunal claim should only be sent to me. Any "private prosecution of the Chief Constable of Kent Police" is unrelated to my client or the Employment Tribunal claim. This will therefore not be taken into account as part of these discussions via Acas.

Dear Sirs

Although I was born a Hindu in the Hindu traditions, I have had the inclination and good fortune with updated facilities here in the United Kingdom to re-evaluate Vedanta from studies that I have conducted over the past 22 years and have arrived at a conception that I would like a page to be allocated to in Wikipedia Encyclopedia.

Satya-advaita Vedanta is the culmination of extensive reviews of the literature in Hinduism and in the context of other world religions that we as humanity have inherited from our predecessors over the past few thousand years of human civilisation. It traces the fundamental concept of truth and what that leads to in terms of the ultimate objective and purpose of life, and especially in the coming of humanity over the past 1 million years with settled civilisation being roughly 40, 000 years from the time that man first in the form of Homo erectus and then the second wave of humanity that we call Homo sapiens came out of Africa and spread throughout the globe.

The understanding of how modern humans came about and how the Evolution of the Species through the Paleontological Tree of life as the materials that we have to make a study of the Meaning of Existence is the subject of my most recent article published in LinkedIn Account and my website <https://shanpanigrahi@yahoo.co.uk>. The fundamental basic informational material that I gathered over the past 12 years are contained in a predecessor website <https://shantanup.wordpress.com> which has been suspended and archived by the Company and all my legal efforts, most notably this evening have proved to be in vain: see

ToSirlanBrady&SupremeCourtofIndiacShangmail8Nov2020.docx.;

My alternative email account as you will note is Shanpanigrahi3000@gmail.com.

It is unfortunately my assessment that the current States of humanity is not ready for such information as it takes a generation for anyone to fathom what I have discovered as the secret codes of the universe that I have been able to look into and come to an assessment despite considerable opposition to my investigations at Religious Forums, Freethought and Rationalism Discussion Forum, Rational Skepticism, Talk Rational, Secular Cafe, Atheism Plus, Advaita-List, Speaking Tree and Hindu Dharma Forums with whom I have had detailed Forum discussions with to get to the bottom of Science and Religion.

I have tried to develop a political party with the attached Conception (ConservativeLibertarianEthos.docx) of where humanity needs to go from here, but the website was not allowed to flourish: <https://the-conservative-libertarian-party1.odoo.com/>.

So I wondered who could put my ideas and discoveries to the ultimate test of being accepted by humanity worldwide, and it is for this reason that I have taken this step of writing to you having failed to get any court of law in the United Kingdom or abroad including the International Court of Justice, the International Criminal Court, the European Court of Human Rights, The European Court of Justice, the Supreme Court of India and the Security Council of the United Nations with whom I have had considerable interactions over these 22 years, to try and find an asylum State that would facilitate my freethought and expression as the fundamental need for Scientists to explore the universe failed to materialise. Only France through OFPRA in 20004 offered me tentative asylum but when I travelled to Dover to get a ferry to France, I was apprehended by Dover Police and sent to a mental hospital for 3 months to restore me to mundane-sanity, and start a mundane life in menial employment when after an unblemished scientific career of 18 years at the Natural Resources Institute was terminated because I started moving on to higher things from the noddly work of

Animal Nutrition and Production within the context of Agricultural Development and Environmental Sustainability to diversify my knowledge base from the study of Humanology.

This was again frowned upon when in 2008 I was returned to another mental hospital here in the United Kingdom on a supposed lapse of persistent delusional disorder, that I had in that 2004-2008 been diagnosed with following the 1998 diagnosis when Dr Rao of BUPA considered that I was only suffering from severe depression with psychotic features. I had become psychotic because my scientific hypotheses at the Natural Resources Institute under the Department of Overseas Development of the United Kingdom were dismissed and I could not get research grants to pursue my special interests at the University of Greenwich which had taken over the Institute from the Scientific Civil Service.

Following the second incarceration in the 2008 mental hospital I was very edgy and nervous on how to go about finding out the constitution of Reality by staying freely in the Community under the constant watch of the State security services and its Community Mental Health institutions. This mixed with mixed picture that I was receiving on the existence of a Personal God and uncertainty over dharmayudha and gyana yoga made me paranoid-schizophrenic and in 2019 Dr Odesanya, the latest Consultant Psychiatrist of the United Kingdom's National Health Service promptly diagnosed me as such with autism being also indicated. I was however quite in control of my mental faculties and survived till today in the Community although still having to take 74 mg lurasidone anti-psychotic medication and 150 mg sertraline anti-depressant medication, as I write and await the decision or the Judgment of the State legal and medical authorities as to whether I should yet be returned to a mental hospital for a third lapse of mental disorder.

I am therefore seeking expert opinion on my findings and beliefs that I would be able to rely on to avoid any such eventuality for I do treasure my independence, liberty, freedom to think and act in the most righteous manner every single moment of my life.

Please let me know what suggestions you have because I have consulted nearly 50 lawyers and law-firms to represent me to the Mental Health Tribunal and the Civil Courts under the watch of the Solicitors Regulation Authority, the Legal Ombudsman, and the Centre for Effective Dispute Resolution, but no one is able to comment on the predicament that I face now.

Yours sincerely

## SOCIAL VOLUNTEERING

Social Volunteering for Mental Health Rehabilitation in United Kingdom was suggested by Dr Odesanya

Hello, do you want to chat with GKSU?

Yes please, My Name is Shantanu Panigrahi. I am a mental patient of Dr Odesanya at Gillingham Britton House who has just sent me a letter dated 5 November 2020 NHS Number 628 477 1487, asking me to contact you for Volunteering Work to get me back on the road to rehabilitation so that in due course I can go in for paid employment.

Morning Shantanu, could you tell me if you are a student on the Medway Campus please

Dear Sir/Madam

I was having a chat with your Chat Line at 10.48 am this morning, but it got curtailed as my Mobile Phone rang. I answered it as it seemed important. It was the Police, Kent Policeman seemingly who was harassing me about a fictitious email that he said that I sent to a Kaycee with whom he said that I worked. I denied knowing any such person or sending any such email to anyone. He persisted with a tone that was very distressing so I in my anger (anger-management talking therapy has still not been arranged by Dr Odesanya, my Consultant Psychiatrist at Britton House) I shouted at the person 'Where did I work with this Kayce' He would not reply, but kept on interrogating me, to which I called him a bastard and madarchod (that is Hindi for motherfucker) and repeatedly told him to Fuck off, but he would not leave the line, so I cut off the phone. The Mobile Phone rang several times again but I did not answer it. My wife got agitated and started picking up my Mobile Phone as if to answer this call, but I did not let her, saying do not touch my phone. This call is Police harassment. Minutes later, a Voicemail message was left by the person on my Mobile Phone, as follows: 'Hello Shantanu, Thanks for speaking to me earlier; obviously you hung up on me, not feeling well. I need to speak to you if you dial 101 and ask to speak to PC 14801 Wilson'. I was very agitated by all this and then at 11.40 odd there was a call from 02081530043 on my Mobile Phone but no message was left.

Later I got an email from the Blood Transfusion Service of the National Health Service on my application to enter into employment with the Service. No mention was made as to whether I had been successful or not, or whether this is being considered. It was just a general email sent to my previous email address shanpanigrahi@yahoo.co.uk, that had been destroyed by the Yahoo Internet Company, so that I had to switch all my email communications to my gmail account which is what I have given here for correspondence.

I need to attend the workshop Medway Volunteer Workshop this week as I am due to see Dr Odesanya soon and he asked me to give him a feedback on my progress with rehabilitation from mental disorder/illness. I had telephoned Volunteering in Medway Maritime Hospital at 10.40 am this morning to Volunteer as perhaps a porter, but was told by Kelvin there that due to the coronavirus restrictions there is very little chance of them taking on new volunteers until next year, if all new infections are by then brought to 0, and even then they will give priority to their existing Volunteers before taking me on their list. This was disappointing.

So I telephoned Sunlight Development Trust in relation to the email I had sent them last week and on which Chris had telephoned me back for the Men in Shade facility. Tracy said that Chris White will telephone me back at 2.00 pm. I waited but no phone calls came.

Kindly let me know immediately if you are able to help me so that I can update Dr Odesanya before 5.00 pm today.

Dear Odoo

1. I have been a lifelong truth-seeker, and this search for the truth that leads us all into the future in a considered manner based on scientific discoveries such as the great news from Phyzer overnight that we have scope to deal with the coronavirus threat to our survival in peace, harmony, doing the things we love for our family, for wider society within our own States and also for the common-good of humanity worldwide is under new guardianship from a Democratic President Mr Joe Biden who has this vision from his initial speeches and utterances. America, the land that defined freedom of the individual is however in need of a third party in between Republicanism with its historical connotations and the Democratic Party with a liberal more modern outlook that upholds the principle of democracy by the people, of the people and for the people. The present two party-system creates untold problems with ding-dong battles for who becomes the President of the United States of America and the bipartisanship of politics in the Senate and House of Representatives each seeking funding from distinct Socialistic and Conservative traditions to get into power ever 4 years and undo what has previously been done.

2. America is the best that humanity has got with the financial and military might that would lead it to take a leading role in the development of the globalised society into a new world order. But essentially we must not fight against Nature in that man and woman for that matter is an individual with individual goals that require the nurturing by the State of the condition of independence and liberty in the minds of the population to strengthen them individually for the emancipation that would follow when others seeing their survival in prosperity material and spiritual is something to be emulated, Hence the creation of The Conservative Libertarian Party that I have initiated in your website facilities.

3. In this regard, I wish to draw your attention to the following Tweets that I posted this morning Shantanu Panigrahi @ShantanuPanigr8 1m

Do not be attached to life and limb; develop your mind into taking knowledge-based decisions for subconscious-actions fearlessly for that alone generates the strength of liberty and the peace of mind as the goal; living calmly, unbothered by intrusion of disturbing circumstances.

Shantanu Panigrahi @ShantanuPanigr8 9m Do not fear Nature: it nurtures and makes life stronger and harmonious towards its constituents and constitution that need to be nurtured for environmental sustainability. Do not waste time/resources to protect the body if genes are unfit for survival in the environment. Let go.

Shantanu Panigrahi @ShantanuPanigr8 17m

I am not in favour of lockdown-restrictions and taking medications and vaccinations in trying to fight one's physical deformities and ailments that are natural and should be left to Nature: as a satya-advaitist Conservative Libertarian subconsciously unattached to life and mind.

4. I do love America when all is said and done and notwithstanding the historical baggage of slavery that the present generation of African Americans, Asian Americans, Latino Americans, and indigenous Indian Americans have inherited. I loved watching the greatest movies that Hollywood generated since I first came to live in the United Kingdom (my good fortune) and whilst I have

immature seemingly qualms of the Special Relationship between America and the United Kingdom, the history of the past 500 years prove that the world is indebted to these two great nations for all their attainments in bringing the world into a single humanity as we move forwards.

5.I wish to make a contribution to that development into the future of what remains of my life and so look forward for you to contact me at 9.00 am UK time on WhatsApp as submitted in my request for an interview with Odoo.com.

Yours sincerely

Dear Sir

I am disappointed that all my communications to the South London Employment Tribunal have not resulted in a fair and reasonable resolution of the dispute I have had with Sainsburys plc, that had generated through lack of appropriate supervision of the proceedings to adjudicate upon the Case and let me know the outcome within the 28 days of the submission of the Claim, as attached FrEmploymentTribunal4Jul2020.docx.

I had asked the Supreme Court of the United Kingdom to direct the Tribunal to correct its Case Management failures that were conflated by Yahoo.com's disruption of my communications with the Tribunal and associated parties to the dispute simultaneously being considered under Claim E35YM660 of the Central London County Court under the application to reinvigorate the Claim from its adjournment status as attached: Central London County Court Judgment of Order 12 May 2020; however no intimation has been received by me from the Tribunal or the Court concerned.

In the meantime I am being told by the Consultant Psychiatrist Dr Odesanya of Britton House Gillingham that I am somehow not fit for paid-employment on perceived mental illness that I have repeatedly disputed as I am in full control of my mental faculties. I returned the Call made to me at 9.15 am by Chris White of Sunlight Development Trust Centre where Dr Odesanya has arranged for me to engage in volunteering work in its 'Men in Shade' unit, and asking Mr White to send me an email to this email address shanpanigrahi3000@gmail.com, as both my other yahoo email accounts have been heavily corrupted from trolling vandals seemingly of Victims of Panigrahi Association (VOPA) who have been harassing me with over 500 criminal anonymous emails since September 2017 under the watchful eyes of the Security Services, who sent some miscreants to knock on our door for over half an hour last night from 12.50 am to 1.00 am this morning causing my family much distress so that we could not sleep for hours afterwards.

Please let me know accordingly, if this Tribunal matter can be taken off the hands of the Employment Tribunal in South London and the Central London County Court or even the Supreme Court of the United Kingdom for a judicial review at an appropriate court such as the London Central Employment Tribunal.

In regards to this application, kindly note that I am committed to starting my Christmas Casual Work for Royal Mail from 18 November 2020 Induction day for a period of one month.

LONDONCENTRALET 11:27 (22 minutes ago)

to me

Thank you for your email.

Please read the following carefully, London Central ET apologises that due to the pandemic normal service has been significantly disrupted. If you are trying to contact the tribunal about arrangements for your hearing during lockdown please email quoting the date of the hearing and case number in the subject line.

Every effort is being made to reply to urgent emails promptly. Please do not ring the tribunal.

We are currently serving claims for ET1s filed from August 2020 onwards.

Please do not telephone the tribunal to check progress.

If your ET1 was filed before this date, we apologise for the delay, please email but do not telephone, to check the position.

Arrangements for hearings:

1. The tribunal is open and has a satisfactory risk assessment which is available for inspection on request.
2. Case management hearings and judicial mediations are being conducted by telephone/ video. The parties will be contacted with instructions on how to participate in good time.
3. We are conducting public preliminary hearings, wages claims and unfair dismissal cases where the judge sits alone by video (largely Cloud Video Platform (CVP)). You will be informed about how to participate in good time and sent joining instructions approximately 24 hours before the hearing begins .
4. Parties should assume, unless otherwise informed, that final hearings of discrimination and whistle-blowing cases will be in person at Victory House. Social distancing measures apply and parties have been sent detailed information. During lockdown some hearings will be converted to video hearings after consultation with the parties.
5. Instructions on how the public can observe video hearings can be found on the London Central cause lists on [www.courtserve.net](http://www.courtserve.net) If you need to contact the tribunal please do not telephone. Emails to this address will, however, be receiving attention.

When you email:

1. The subject line of your email must contain the case number. Put the case number as the first item in the subject line.
  2. Please also put names of the parties in the subject line. Please also include the hearing date, especially if the hearing date is soon.
  3. If relevant, attach any earlier emails, letters or documents so that the full correspondence can be viewed.
  4. If you have a preliminary hearing listed please save your query for the hearing, do not send an earlier email.
  5. If you send an email to the tribunal always copy in every other party. If you do not do so, the email will not be dealt with as quickly, and might not be dealt with at all.
  6. If you think your email is urgent please indicate this in the subject heading.
- Please note that new claims (ET1 form) cannot be accepted by email. The quickest and easiest way to send us a claim form is by using our online submission service which you can access here:

<https://www.gov.uk/employment-tribunals>. If you received an auto response then your claim has been filed, there is regrettably a backlog of claims waiting to be processed. · Any response forms (ET3) will need to be checked before they are accepted. This reply is only confirmation of receipt. · At the moment it is difficult for us to deal with correspondence sent by post. Please send correspondence by email unless it is not possible for you to do so. When sending any correspondence to the tribunal (except when making a request for someone to give evidence at a hearing), you must also send a copy to all other parties. Please make it clear that you have done this in your correspondence. If you have not copied in the other parties, please explain why. The tribunal will then consider your explanation and let you know if you need to take any further steps. · For general enquiries on the process or information on how Employment Tribunals operate, guidance can be found at [www.justice.gov.uk/tribunals/employment](http://www.justice.gov.uk/tribunals/employment). ## RELIGIOUS AND SECULAR 'BLASPHEMY' LAWS ARE INHUMANE

Decades ago when I was in my late teens I was enamoured by this oath in Courts of Law, 'I swear by Almighty God that the evidence that I shall give shall be the truth, the whole truth and nothing but the truth, so help me God'. Today I know that this is true and one of the most important self-motivational oaths/vows that humanity is blessed with. Truth has been divulged to us by God in various parts of the world through history, some writings more true than others, and humanity's quest and thirst for knowledge sees no bounds, so that the sky is the limit. This relates to the Mundaka Upanisad 'Satyamev Jayate' scripture too. I am personally of the view which is a fact for me today that God blesses those who are genuinely, sincerely, and honestly exploring Nature for the truth, through truth discovery and truth utterance every moment of their lives as the highest principle of them all. Honesty is the best policy. No-one on Heaven or Earth can destroy truth. For truth protects itself. This is the ultimate 'dharma' of duties and righteous actions through words. Actions against perceived injustices must always be non-violent, only dealt with from words which should not be construed as violence in words. For words come out from the depths of truth unpolluted from the interferences and complications of the body's desires to satisfy the senses. Religions such as Islam that say that speaking up against anything that others say as being the ultimate truth (once it is tested for oneself that it is not true to the satisfaction of one's own mind) is blasphemy are wrong. I sympathise for the murdered victims of Charlie hebdo in France who raised this question against Islam and I sympathise with Salman Rushdie for having written the Satanic Versus that led him to become isolated in the peace and security of the wonderful world of the United Kingdom under Her Majesty's protection. This in no way is an endorsement for what Charlie hebdo or Salman Rushdie did and does not in any way call for the denigration of Islam, let me make this clear. I am voicing this to support the cause of truth and so speaking up against the response of Islam through Ayatollah Khomeini's fatwa to question those who are genuine truth-seekers doing so unpremeditatedly and nonchalantly by expressing their mind on questions that haunt us individually in our quest to better ourselves as human beings so that our wider society is then not suppressed from emancipation. Genuine asylum to escape from persecution from evil is in the United Kingdom and France that was the only country that offered me asylum in 2004 when I was trying to survive in the United Kingdom itself for speaking up for truth exploration and truth expression as the fundamental right of all the citizens of the world, and indeed should be raised as the first and most important Human Right in the European Court of Human Rights and within the United Kingdom in a Repeal of the Human Rights Act.

Suppression of the truth is religious discrimination and religious persecution, Wordpress, Twitter, Facebook, Odoo internet companies should note. There must be no censorship in the voicing against man-made laws, rules and regulations designed to enslave human beings as servants to those who have the ulterior motive to benefit from the power and wealth that enslavement of humanity brings to those economic interests: <https://shantanup.wordpress.com> should be immediately restored, and I plead upon President Elect Joe Biden to take this matter now to the Supreme Court of the United States of America following Findlaw's failure to do the same for me under President Trump interested in his tenure to make America great at the cost of the rest of humanity.

CLAIMANT'S SUBMISSION TO HER HONOUR JUDGE BACKHOUSE ON E35YM660 AT THE CENTRAL LONDON COUNTY COURT

To Her Honour Judge Backhouse My Ladyship Background: Appeal Arguments relating to the two Orders dated 14 January 2020 and 30 September 2020 were specifically submitted to the Defendant in my Updated Particulars of Claim on 24 March 19.31 hours by agreed email and updated since. This was made clear to the Court prior to 3 April 2020 Hearing presided over by Judge Backhouse on which the 12 May 2020 Order attached is based (Central London County Court or Order 12 May 2020.docx attached to this submission). Summary of petition 1. I wished to do something positive for national development of the United Kingdom so that it can contribute to World Conservation in order to improve global society and initiated the following petitions. Some were approved for hosting whereas others were inexplicably turned down and disabled by 38 Degrees and Liberty. I resorted to Action-network in view of this lack of cooperation. This is what my Appeal is all about.

Please refer to the following links in administering your decision on whether I am justified in voicing these concerns or not. If I am not, you may turn down my reconsideration of permission to Appeal the 14 January 2019 dated Order of the Court on E35YM660 (Dr Shantanu Panigrahi vs Mrs Theresa May; nay the present Prime Minister of the United Kingdom, Mr Boris Johnson as the Defendant singly). 2. 2. Further evidence for my petitions may be examined at the following websites which have stood the test of time in that they were beyond criticisms from the general public because they are factual representations of the investigations that I have conducted in arriving at the petitions:

Personal websites:

(a) <https://www.shanpanigrahi.co.uk/>

(b) <https://shantanup.wordpress.com>

(c) <https://facebook.com/shantanu.panigrahi.10>

(d) <https://linkedin.com/in/shantanu-panigrahi-a120b267/>

(e) <https://twitter.com/ShanPanigrahi>

3. The evidence in these websites support the Particulars of Claim in the Claim Form and the Appellants Notice of a concerted national and international conspiracy against me to obstruct justice and pervert the course of justice by the States concerned. The government is therefore obliged to take these petitions seriously or give its reasons for not considering them through the normal processes of Parliamentary scrutiny. The functioning of the Parliament and the Monarchy must be subject to the due process of scrutiny through the Courts to outline individual responsibilities to

society and hence this Claim that I am pursuing. Otherwise there is no hope for the nation that I love.

4. Madam, a Judge of Her Majesty's Establishment is the law of the nation. Please therefore advise me if I am right or wrong in bringing this to your attention.

5. As you must be aware, I have only asked for a nominal £3000 in damages and compensation for what I have suffered over 22 years that led me to my published petitions because I am only progressing this Appeal proceedings in sincere belief that it is in the public interest nationally and globally.

6. Please therefore advise me if a Judgement or Order can be considered now appropriately to bring a closure to this long-standing (22 year-old) saga.

Yours faithfully

Dr Shantanu Panigrahi (Claimant)

Dear Chris (White?)

I got your Voicemail message on my Mobile Phone just now (07967789619) saying that you had got my earlier email that concerns the Judgment of the Central London County Court and the Employment Tribunal in South London on the disposal of my Claim E35YM660 against Prime Minister Boris Johnson and 232011905700 (vs Sainsburys plc). I believe that I am still retained as a mental patient of Dr Odesanya at Britton House, Gillingham. My wife said that there was a call on our landline from a doctor, possibly phoning from 01634 382134 minutes earlier at 15.15 hours and she asked if I would like to speak to the doctor. I told her repeatedly that to Shut up, and she did, and I later explained to my daughter that I am under lockdown so was not taking any calls due to uncertainties that still persist, in relation to whether I am allowed to take up any paid employment in the United Kingdom - see attached: ToTotaljobs11Nov2020.docx.

You said in your message that you only work parttime, but I do need to have a meeting with you urgently, and can come to your Centre tomorrow to discuss all matters to see how I progress from here. In the meantime Totaljobs have sent me an email at 17.52 hours for the position of Part Time Cleaner based in Murston, Sittingbourne (ME10) which seems to have possibilities for me for I did the work of a Cleaner in 2005 at Total Britannia Service Station from the first period of my rehabilitation from the 3 months that I spent in mental hospital (Ashford, Medway Maritime, and Littlebrook Secure Unit at Dartford). So unless you can get back to me in the next hour, I will apply for this vacancy. It does seem that I have to go back to square one and forget about the Royal Mail-Angard Christmas Casual extended into a permanent job possibility.

Please advise me before 17 November 2020 for I have my Induction at Royal Mail on the 18th that my wife is certain that I can manage because I did so last year and it was not too taxing and I got a good performance pat on the back from Saeed, my Manager at that time.

Yours sincerely

Dear Totaljobs

I am disappointed to note that when I checked in my Candidate Profile in Aldi Spermarkets now It has not made a decision yet on my Store Assistant jobs at Sheerness and at Gillingham Business Park. I cannot wait any longer for those bastards who harassed, bullied, intimidated and terrorised me to pervert justice through obstructing justice over these two job applications in the

same way that it terrorised me on 2-3 other job applications during the past year after passing three questionnaire assessments on line and not getting an interview. It seems to be waiting for Sir Ian Brady to organise the withdrawal of my National Insurance Number and British Passport to make me stateless today so that I will then be unable to take up my Royal Mail Christmas Casual job starting on 18 November 2020 on which I have this morning received a confirmation letter to go to Knights Road Strood as soon as I can to collect my Identity badge under the Payroll Number XXXXXXXX and the Barclays Bank XXXXXX sort code and XXXXXXXXXX Account Number. I need to telephone the Christmas Casual Helpline today to check if Royal Mail has received any contradictory information on XXXXXXXX national insurance number and the validity of my British Passport XXXXXXXX, or if I should apply for a French Passport in accordance with the 2004 letter that I received from OFPRA from the French Embassy in London so that steps can be taken immediately to have my 1000 pounds per month Teachers Pension to start getting credited into a Bank of France before the 31 December deadline of the Brexit transitional period.

If everything is in order however please send me further 10 job alerts for sales assistant vacancies in Medway for me to apply for more jobs as I did not get the Social Worker job it seems from the second Recruitment Agency that I connected with from this email account after Yahoo destroyed my communications with indeed of Ireland as an agent of the Supreme Court of the United Kingdom to rule on my 5 September 2020 Application for the deceitful Master at the Court of Appeal to be named not granting me permission to appeal the adjournment of my Claim E35YM660 at the Central London County Court against the Prime Minister Boris Johnson and as such deliberately keeping me in the dark and suspense on the secretive State operations of the wicked-witch, the green witch Queen of the United Kingdom.

Thank you. I will remember you.

Dear Chris

I am writing to let you know that due to unforeseen circumstances I am unable to attend the 18 November 2020 Meeting with you at 10.00 - 11.00 am. Please reschedule it for the first week in December 2020 as I am not going to be working for Royal Mail any more in the Christmas Casual work from 18 November 2020 through to end of December 2020, until my National Insurance Number XXXXXXXXX and my British Passport XXXXXXXXX are validated officially as referred to in the attached: ToSirIanBrady&SupremeCourtofIndiacShangmail8; Nov2020.docx. This has been necessitated in view of the continuing intransigence of Aldi Supermarkets to send me a final decision on the attached Store Assistant Job Application:

FrAldi(TransfertoGillinghamBusinessPark10Nov.2020, which is why I am suspicious of the scheme Her Majesty the Queen may have in place in manipulating the secretive operation of the khichidi constitution Police State of the United Kingdom in its 2017-started plan from Dr Sivaji Panesar to make me stateless through the employment of Ms Monneka Tariq (Solicitor) under the terroristic guardian-ship of West Yorkshire Police and under the Pakistan High Commission in London to get me into citizenship trouble. You may have access to the documents I sent the Home Office at that time to confirm that my British/United Kingdom passport was still valid and until this afternoon I have not heard anything to reject this assessment from the Home Office of Sir Ian Brady of the 1922 Back-Bench Committee of the Conservative Party. I do not wish to have a repetition of the incident in March 2004 when the British State delayed the return of my passport being renewed on time so that I had to use the out-of-date passport to travel to France from Dover Kent under the asylum offered to me by letter from OFPRA of the French Government, or else I would be stuck in the United

Kingdom for the rest of my life in total loss of dignity because the Indian High Commission has still not issued me my Person of Indian Origin Card despite the passage of a dozen years, and the Supreme Court of India has not approved my birth-right citizenship to an Indian passport again yet. In the meantime I have completed the forms that you sent me for immediate reply: MMiS Personal Details and Equalities MonitoringForm2019Completed.docx; MMiS Scheme Terms of Use Revised 2019 Completed.docx; and Consent form for photography or filming -ADULT Completed.docx, in relation to attached ToSunlightDevelopmentTrustCentre5Nov2020.docx .

Dear CV Library

I am sorry that you continue to feel that I am only fit for such menial jobs that are paid employment and that too on Commission basis that my nationality and citizenship of the United Kingdom only renders me to take up as I approach my 64th year of age, when I am not just a highly qualified scientist academically and from experience in the studies of Environmental Science and Humanology that I have conducted in arriving at a State of mind that is so mature in knowledge and philosophy that I consider myself to deserve the role of the leadership of the United Kingdom now to shape the future direction of the British Isles had it not been a constitutional monarchy governed by birth right as to who has the divine right to be King or Queen in not being a Republic led by a democratically elected President and consequently has an unwritten khichidi Constitution. As things stand right now we are stuck with this status quo, so I live in such an accommodation of truth in consonance with my religion of Satya--advaita Vedanta.

However, please bear in mind that I would rather live in near poverty with my £1000 per month Teachers pension in the United Kingdom with my British passport and National Insurance Number in tact as a fully naturalised citizen finally than go in for such menial jobs as Christmas Casual work for Royal Mail starting on 18 November 2020, or do volunteer work under the pretext, presumption and false pretences of the Prime Minister Mr Boris Johnson that I am somehow mentally ill for asserting my principles and beliefs in public expressions through my Blog <https://shantanup.wordpress.com> and others like <https://shanpanigrahi.co.uk>, Facebook, LinkedIn, 38 Degrees, and Twitter accounts. I would rather stay in my Shanti Niwas home with my family in Freethought and expression of those thoughts fearlessly in what remains of my life under the antipsychotic and anti-depressant medications enforced upon me as a political prisoner still allowed to live in the community and not in a mental hospital as happened to me in 2004 and 2008, rather than suffer the indignity of being a slave in menial and volunteering jobs that are supposed to motivate me to being mindful enough to start living in subservience to ignorance in passing my time. At home I can sleep off the indignity of the imposition of these mind altering medications but will not any longer have to take orders from managers and bosses to affect adversely the peaceful state of mind that I have now attained after a life time of struggle to discover the meaning of life in the nuances of Brahma-Nature.

I have earned this state of liberty in security and security in liberty because Dharmo Rakshati Rakshita and Jatha Dharma Tatha Jaya.

I do sincerely hope you understand my point of view now.

Dear Sir/Madam

I am a mental health patient according to records following legal procedures that I had undertaken to check on whether the diagnosis of my mental state said to be paranoid schizophrenia coupled with persistent delusional disorder together bordering on autism as diagnosed by the Mental Health authorities at Britton House, Gillingham Kent ME7 1AL Tel: 0300 303 3189 most recently led by Dr F Odesanya the Consultant Psychiatrist at this Centre, for which I am prescribed lurasidone anti-psychotic and sertraline anti-depressant medications to enable me to live in the Community and not in a mental hospital after two previous such hospitalisations in 2004 and 2008. This morning my GP Dr Mawanche telephoned me at 11.40 am to check on my welfare and I explained to him that I have had to deal with further criminal anonymous emails including one sent to the Surgery pretending that I was the sender and one to my elder sister in India Meera Panigrahi which has caused us distress. I have been receiving these criminal anonymous emails since September 2017, and these have also been sent to my associates like my former Care Coordinator at Canada House Funke Aderibole and to Dr Odesanya as well. I have now unsubscribed from the Yahoo account and all those Recruitment agencies like indeed of Ireland and neuvoco of Canada, and also Dr Sivaji Panesar, Marty Caine Fritz Wuehler, and others, because the Police have said that they cannot do anything about tracing these criminals, and the North Kent Magistrates Court has refused to conduct a private prosecution of the Chief Constable for the Hate Crime of protecting those criminals, most recent of which was when its Policeman Wilson telephoned me about one such email that I was supposed to have sent a person called Kaycee with whom I am supposedly worked in employment and reported to the Police as me harassing Kaycee. To escape this persecution upon me I started only using my gmail account which I have given you here. That is the background. The main reason for sending you this enquiry is that Dr Odesanya in his Care Plan for me dated 5 November 2020 has indicated that my mental disorder is such that I should not be taking up paid employment, such as my forthcoming Christmas Casual Work for Royal Mail starting on 18 November 2020 (induction day) at 2.00 pm.

Instead the Care Plan lists 6 institutions whom I am required to contact to do volunteering work instead in my rehabilitation before considering paid employment opportunities. I am keen to follow Dr Odesanya's precise Care Plan instructions for me. I have already contacted Sunlight Development Trust Centre where Chris White is looking after my vocational work needs in the Men in Shed facility that is funded by Medway Council. Unfortunately, it did not reply to my email sent to Men in Shed this morning requesting the charity to contact me on Skype today so that I can engage in these activities without delay. I have also sent a message to Medway Volunteer Workshop through its contact point, and they have not yet replied either. Similarly, I contacted Medway Maritime Hospital but due to the Coronavirus lockdown restrictions it is unable to offer me a place as a Volunteer for portering or sweeping or general assistant until at least February 2021, when I am required to contact the hospital again. This brings me to item C of the Care Plan from Dr Odesanya to contact 'Volunteering at Medway Community Hospital MCH' on the list. Please would you be able to offer me a suitable role at the hospital if I wear my mask and maintain social distancing even though I am at present uninfected by the virus?

Dear Chris

It was nice to have had a discussion 15 minutes ago concerning the arrangements for our Meeting next Wednesday at the Sunlight Development Trust Centre 105 Richmond Road ME71LX, in relation to our previous correspondence, including the attached query ToMeninSheds12Nov2020.docx. In this regard kindly note that Aldi is still considering my application for a Sales Assistant job in Sheerness, as attached: FrAldi(TransfertoGillinghamBusinessPark)10Nov2020.docx.

Unless I hear from you to the contrary I will arrive at the appointment fixed at 10.00 am -11.00 am on 18 November 2020; I am due to attend an Induction at 2.00 pm at Royal Mail in Knight Road Strood Medway Mail Centre that day, so I hope we can fix my plan of action at this meeting.

Thanks

Yours sincerely

The Liberal Democrats

Dear Sir

I was a member of the Liberal Democrats several years ago but due to disagreements with the Party allowed my membership to elapse while I searched for another political party to take my conviction on independence of the United Kingdom from the European Union into fruition.

This morning having reassessed the need of the moment and with Sir Ed Davey as the Leader now I have renewed my subscription for membership of the Liberal Democrats as attached: FrTheLiberal Democrats(Membership Renewal)14Nov2020.docx.

This has taken a great deal of soul-searching having examined the scope for pursuing my ideas on Green Socialism and lately The Conservative Libertarian Ethos ( <https://the-conservative-libertarian-party1.odoo.com/> ; <https://www.shanpanigrahi.co.uk/447672123> ) with the United Kingdom Independence Party, the Labour Party and the Conservative Party since I stopped my subscription to the Liberal Democrats and especially now with reflecting on an important period of coalition government under Sir Nick Clegg with David Cameron and the then Chancellor George Osborne's austerity measures to try and restore the country that I love under a new direction that got disrupted by the Brexit referendum saga of the history of the United Kingdom. I do believe now that it is of the utmost importance for the country to have a third party that is flourishing to prevent the divisions and disharmony to society brought on the existence of two-party Conservative/Socialistic system of Parliamentary Democracy that brings unsustainable development of the nation as exemplified most recently in the debacle of the Presidential elections in the United States of America.

I am consequently not attached any longer to the idea of independence from the European Union and subscribe to the view that Brexit can be reversed in the passage of time and perhaps even sooner than one might be able to foresee. I do believe in thorough cooperation with our European neighbours across the channel now having examined in considerable detail the failures of the processes of international laws and treaties that wastes time and resources and generates unsustainable growth and development of the nation and global directives.

I am a member of Liberty and of 38 Degrees where you will find my dozen or so petitions over the years of the exploration of Politics with the context of Nature:

<https://you.38degrees.org.uk/petition/new?source=campaigns-page>

I wish to take part in the process of development of the Liberal Democrats to incorporate fresh ideas on how the Party can move forwards, so wish to attend the Virtual Conference on 19-21st March 2021 which is going online. Unfortunately, I have lost the details of my membership of the Liberal Democrats and the records that you are able to retrieve would have my previous email address of shanpanigrahi@yahoo.co.uk which is now dysfunctional, so that I am sending you this email from my Shanpanigrahi3000@gmail.account.

Please send me my Membership Number today if possible so that I can register for the Conference.

Thank you for your kind attention.

The Liberal Democrats Thanks for renewing £12 per year

Thank you for renewing your membership of the Liberal Democrats for another year! We're really glad to have you. Together, we'll be the real opposition and take the fight to this Conservative Brexit Government. As a member of the Liberal Democrats, you have the power to change things - and by renewing your membership for another year, you'll be able to: Make your voice heard by having your say on our policies and our manifesto. We trust you, and that's why our manifesto was made up of policies voted on by our members. Stand up for your community by campaigning in your local area. Liberal Democrats all over the country campaign on local issues the whole year round - not just at election time - now as a member, you're in an ideal position to make sure that your voice is heard. Make the Party your own by voting for your local representatives, our Party President, and our Leader. Your vote counts for just as much as anybody else's - it always has been and always will be one member, one vote.

We're really glad you've chosen to stay - so thank you!

Dear Neuvo

Thank you for sending me this intimation of job possibilities for me.

This is most welcome.

You know that I am a religious person guided by my spiritual-rudder nonchalantly and premeditatedly in faith that if God wishes me to serve myself only He will arrange it for me to do so at the cost of the rest of humanity, if He wishes me to serve my family only, he will arrange my path in life to serve only my family; if He wishes me to serve society or the State under which I live He will arrange it for me that that I would serve the State at the cost of my family commitments. If He wishes me to serve both my family and the State, similarly He will arrange it for me to serve both. And if He wishes me to serve mankind at large, He will similarly arrange it for me that not only do I serve, my family, my immediate society, my State of the United Kingdom, but also the wider world. It is all going to be His wishes as He considers appropriate to formulate my raison d'etre for living until the day that I die, naturally or get killed in the processes of holding on to my principles of truth accommodation Vaishnavic religion that I finally realised as being all-purpose and all-serving. Right now I am waiting to see if Dr Odesanya will telephone me before 5.00 pm today concerning the attached FrJuliePalmer(KMPTComplaintsPALS)13 Nov2020.docx to let me know if I am to continue living in the Community under his mental health supervision on lurasidone anti-psychotic medication of 74 mg daily and anti-depressant medication of 150 mg sertraline respectively, and simultaneously confirm to me whether I should remain in the voluntary work sector and continue with my rescheduled appointment with Chris White of Sunlight Development Trust Centre that I have asked as attached (ToChrisWhiteccIndianHighCommission(London)13Nov2020.docx) to be arranged for the first week in December; or whether I should go for my Blood Test tomorrow morning the 17th 10.44 am at Rainham Health Living Centre (followed by the 11.00 am appointment with Chris White unless he has accepted the rescheduling of the appointment with Men in Sheds) and continue on to my Induction on 18 November at Royal Mail for my Christmas Casual appointment. So there are still uncertainties as I do not know how severely Dr Odesanya thinks that I should be restricted in my movements in the Community perhaps by an increase in the dosage of lurasidone, or if I should be sent to a mental hospital now for the third time over the past 22 years. I am therefore unable to take advantage of the current job offers that you have sent me.

Dear Greg

I have been in touch with Dawn Davidson of Maidstone Branch of the Liberal Democratic Party and she has given me a lot of very factual information concerning the time it takes for a member to be

eligible to standing for internal or external elections. I have been a member of the Liberal Democrats since 2012, as I have explained because I liked the idea of coalition governments that would bring in liberal values on civil liberties into the mainstream of British politics. Although that earlier membership may not count towards getting more active in the Liberal Democratic Party now, I should like to draw your attention to values and principles in more detail so that you may consider whether it can be represented within the current structure and ethos of the Liberal Democrats under Sir Ed Davey's stewardship.

Accordingly, please examine the attached petition that I have initiated this morning in 38 Degrees: <https://you.38degrees.org.uk/petitions/formation-of-the-conservative-libertarian-party-of-the-united-kingdom>

I would be grateful for any kind of analysed decision as soon as possible on the scope for addressing the issues that are currently of greatest concern and prioritise my political engagements, so that I may be able to chart my next direction of travel accordingly. This will prevent time wastage for both the Liberal Democratic Party and myself, I hope you will appreciate.

### STATE REGULATION OF THE MENTALLY DEVIANT AS DISSIDENTS

The gunas are characteristics of the Mind and describe in Hinduism as being within a Trimurti triad of sattvic, rajasic and tamasic consciousness that give living beings their personalities and which form the basis of their emotions-led actions materially. The specific guna-based actions can change during life depending on one's upbringing and more formal education and also on one's living circumstances as these change. The person reacts to the circumstances as he or she sees the reality that he faces. Until one has had personal visitation by a spiritual-entity he or she lives purely in the material arena and is then specifically tamasic in his thoughts and actions as he only sees the observable world around him. One may be taught that there is a God or gods but it remains a conjecture and one adheres to what others say to the person on what he should do to pray or worship a particular God or gods on the assumption that these gods are able to give boons or protect their followers and devotees. It is only when one is awakened by unusual happenings within one's own mind that one becomes paranoid and thinks that one's reigns of life are being controlled by a Power in the mind that one should either surrender to or resist depending one's guna-based sensitivity of the mind at any given moment in time. This is when one suffers the mental condition of inability to cope with material life with erratic conduct unable to function in society to the norms of the culture that one's lives under. One is then uncontrolled by society that tries to brainwash the members of that society to undertake specific tasks as their duties of righteousness actions as the correct communal dharma. The mind has now come under two opposing forces, material and spiritual. One needs a *raison d'être* accordingly to balance these opposing externally and internally directed forces. One toys by switching between the three gunas in the mind to survive materially as required by society while engaging also in spiritual pursuits and it is this state that generates the delusions on reality in paranoid schizophrenia.

These guna consciousness gods residing dormant until awakened are referred to in Christianity as demons if the person is succumbing and surrendering to them instead of adhering to the rules and regulations of established religions in the different cultural traditions across the world whether living in communities or as States and so committing crimes and forensic misdemeanors to communal living in the society of the State. In the severest form of Police State the the spiritually-deviant are removed from society permanently by capital punishment for their crimes as the State sees it.

Certain States treat these spiritually-afflicted citizens as aberrant and deluded patients who are not responding positively to education on morality to psychiatric or religious counselling, by religious rites and exorcism and in secular States with anti-psychotic medications and electroconvulsive therapies, and if such treatments do not normalise their conduct they are detained under mass incarcerations centres such as mental hospitals or State penitentiaries/prisons as in dictatorships and semi-democratic States like in the United States of America governed by under its so-called two-party system of government with both parties denying its people spiritual-liberty and similarly in the monarchical United Kingdom where there is a loyal opposition of Socialists to the ultra-right wing of the Conservative Party taking its dictations from the monarch of the day and rendering the middle of the road Liberal Democrats to a bygone dustbin of history through State-manipulations of the electorate and the Trade Unions accompanied by severe State-controlled media and Book Publishing Institutions to suppress truth to prevent internal and external humanity knowing about their secretive operations such as disabling Social media like Wordpress (<https://shantanup.wordpress.com>) and Twitter to manipulate public opinion in a bid to regulate the functioning of these deviant minds operating to independence of thought rather than functioning to the needs of the State. They are all Police States of differing descriptions of complexions whether secular or religiously based like the United Kingdom with Protestant Christianity based totalitarian control or Islamic States with variations of Koranic control under Sunnis or Shiites or ISIS Islamic State and Taliban and others that have a natural tendency to spring up under the evolutionary processes and laws of Nature as a natural phenomenon in the generation of new species of life; or

the States may be under atheistic totalitarian control as in China dressed up as a People's Communist Party since Mao Tse Tung, and as in the early 20th Century under Nazism of the atheistic Adolf Hitler. Without fully fledged and functional democracies these States are all tamasic to the point of being Satan-evil to deprive their populations of liberty and freedom to express their spiritually-emanating freethought as human beings in their words and deeds. Only patriotic State-directed conduct is tolerated. These States form alliances and easy associations with each other for example North Atlantic Treaty Organisation against internal dissidents and external liberal democracies against whom the Islamic State of Pakistan for example forms a friendship with atheistic Communist China against the liberal Hindu India as Bharat/Hindustan to control world natural and human resources, and rich States like Saudi Arabian monarchial dictatorship formed with anti-democratic States like the United States of America and the United Kingdom to remove Iraq's Saddam Hussein and later Colonel Gadaffi of Libya as seemingly too autocratic to their liking that had made these to Muslims States very prosperous for decades minding their own business of keeping their populations under control and internal peace in coherent stability.

So we live in in a myriad of complex 'World Humanity' and no one is sure which way to turn as a global humanity until all of humanity is brought under the same roof with common values of shared objectives. That is the philosophy of the United Nations and its associated institutions. It is misguided as it runs contrary to the fundamental laws of Nature and is doomed to failure through rejection in the reality of spirituality being the everlasting mechanism of Brahma-Nature nature to regulate the Earth and its direction.

The longer I live as a satya-advaitic yogi the more I feel that human beings across the world must be first and foremost be protected and allowed to contribute to the development of the Earth on fundamental human right to freethought and free-expression of those thoughts which need to be fostered by the United Nations or the Earth will be finally destroyed by Satan-evil tamasic forces globally. Words not actions should be the motto. To this end I have formed the Conservative Libertarian Party of the United Kingdom.

Please join me. 8.30 hours (UK Time) 15 November 2020

## PERSECUTING TERROR

State-organised Persecution on me continues.

Whether or not God Sri Krishna exists, and especially if I am an avatar of such a Supreme God incarnated in human form in my satya-advaitic truth-search; and whether or not Vaishnavism is the ultimate truth accommodating religion in which we not only not drive tamasic evil into extinction merely reflect and accommodate it as ignorance, my outlook is that I must seek justice against such State-sponsored terror which are State-sponsored nationally and internationally because of all the courts civil and criminal that I took the 1500 criminals who terrorised me over the past 22 years starting with the senior management and colleagues of the University of London who have been operating in conjunction with the State's mental health institutions protected by the Law Enforcement agencies. This justice I attain is by publishing the terrorism to the consideration of the court of public opinion worldwide; such as this terroristic email received this afternoon from neuvoco of Canada in conjunction with the United Kingdom, depriving me of a livelihood that pays enough to sustain me in what remains of my life in the United Kingdom, whether in the safety, security and liberty of my home with my family or by being incarcerated in a mental hospital again without the issue of a Community Treatment Order that I demanded repeatedly over the years from the Mental Health authorities to enable me to consult Wolton Solicitors or another one in seeking mental health solicitor- or barrister-representation to defend me and my reputation as a totally sane human being not to be labelled as mentally-subnormal or ill to have ever been blameworthy of any kind of gross misconduct in the society of the United Kingdom and beyond; the medical representation that the State denied me in the manner, most notably through Wikipedia of the United States of America is in addition to States concerned also preventing my legitimate legal claims representation as one of the 50 or so law firms that I approached over these long years of enduring the persecution mounted on me.

I am not attached to any of my scientific and philosophical theories whatsoever as I continue to remain a truth-seeker. I merely asked the State authorities to leave me alone yesterday through 'CV Library' with the acceptance under duress of the anti-psychotic lurasidone and the anti-depressant sertraline medications that State enforces upon me as a political prisoner detained currently at home. This plea to the State to leave me alone has evidently been rejected judging from the lack of reply from the Liberal Democrats Party to my sincere submission this morning to re-join the Party and attend its Conference to discuss my career as a politician, and the lack of reply from Simpson Deal to reply to my application this morning for employment in Sales:

Dear Julie

Dr Odesanya asked me to provide him with a feedback on how I am progressing with his latest valuable suggestions for my mental welfare. I am sending this email from my gmail account as I am not sure if my Yahoo Account that I have used in the past is compromised. This is the reason for writing to you to let Dr Odesanya know that I am doing all I can to comply with this Care Plan:FrChrisWhite(SunlightDevelopmentTrustCentre11Nov2020.docx; Correspondence with GKSU Logo 1045 am on 9 Nov2020.docx; and ToMedwayCommunityHealthCare(MCH)12Nov2020.docx. As you will note that I am in need for specific 'anger-management talking therapy' in addition to mindfulness because lately I got so angered that I called Her Majesty the Queen a wicked witch green witch Queen of the United Kingdom on line, My apologies for this lack of mindfulness concentration as I rehabilitate.

I believe that my National Insurance Number and British Passport are still valid so can I call Aldi Supermarket from its Candidate Portal to check on the progress of my Store Assistant job application at my Candidate Portal this morning and continue with taking up my Christmas Casual job at Royal Mail starting on 18 November Induction until these volunteering opportunities materialise bearing in mind that nothing is likely to be resolved until the 2nd of December 2020 in relation to the coronavirus lockdown?

Yours sincerely

Dear Neuvoco

If you are still acting as an agent of the Supreme Court and directing me to apply for new jobs as the result of the Appeal that I lodged dated 5 September 2020 as attached:

ToSupremeCourtSep2020.docx, I accept this decision but none of the jobs that you have given me here are in the locality of Gillingham, Kent, ME8 0SL, and I cannot leave my Shanti Niwas to go and live anywhere else on relocation. I hate upheavals and change and did so even during the three occasions in 1978, 1983 and 1991 when I was first transferred from London that I thoroughly enjoyed living in to Hatfield to undertake a Studentship at Hatfield Polytechnic researching into Noradrenergic and Non-cholinergic neurotransmission in the intestine that I hated so much that I abandoned it just as I received information that all my Indian passport visa restrictions were had been lifted by the Home Office, so returned to London; and when I has relocated from London to Culham Oxfordshire for the Tropical Development and Research Institute of the Scientific Civil Service to change from Toxicology and Nutritional Toxicology to Poultry Nutrition; and then again from Culham to Chatham Maritime Kent when the entire Natural Resources Institute was brought to one site. I just cannot travel far off distances or relocate. So please send me job alerts in the Medway Towns immediately, Maidstone being the furthest that I am prepared to travel to in paid employment. I will not now go and see Chris White of Sunlight Development Trust Centre next Wednesday the 25th of November on the basis of your assurance, that my British Nationality and British Citizenship is no longer under threat from Victims of Panigrahi Association (VOPA) criminals of the United Kingdom and beyond.

Thank you for your help.

Yours sincerely

## MOKSHA

Sacrifice your views and desires by unattachment for Liberty and Peace (Moksha)

Antonella Faraldo 1d4 NottveftaSfdmbnpiiomern lamst oala20:rfe1lagdt9:

Could anyone explain me please what does Krishna mean by the word "sacrifice" in the Bhagavad Gita? What sacrifices are done?

Shantanu Panigrahi: This is a fundamental concept given to us by the Lord as constituting the basis of Sanatan Dharma. If you repeat Gita numerous times in rapid succession you hear the word 'Tyaag'. This is what my late father taught me as a child and today at the age of nearly 64, I realise it's full meaningful significance for our moment by moment living. It means one must not be attached to anything. One must sacrifice everything to accommodate truth as it reveals itself every moment because a Vaishnav (Lord Vishnu who asked the Creator to incarnate in Kalyug) is a Preserver of Reality, the truth. This a Vaishnav does by not having specific beliefs and mission in life. One gives up, that is sacrifices every one of ones desires to live in Lord Brahma's Creation of the universe. This is not a religious rite or dictation to us, it is practical common-sense to when one has understood the impermanence of reality moment by moment as the sage Buddha first enunciated 2500 years ago. It is practical because if one is attached to ones beliefs and views one cannot even survive materially let alone live in prosperity because Brahma-Nature consists of three gunas, sattvic, rajasic, and tamasic, that people possess and these alter a person's living circumstances moment by moment that one needs to adjust oneself to by appropriate adaptation to live in harmony in Nature. This outlook gives on liberty and peace of mind, the ultimate state of mind when one is liberated in that specific sense only attained moksha.

Thank you for reading.

12.24 pm 16 November 2020

Poornaavatar is purushottama as Rama was. We all have the potential to become so by not being attached even to surrender. For we are humans and distinct fro God. When we surrender to God in total abandonment of our body's aims, objectives, missions, desires, ego, and shrugging off all delusions acting spontaneously and nonchalantly we arrive at the truth and are no longer living in fears and uncertainties. To steadfastly adhering to the principle of sacrificing all attachments including attachment to God we are on the path of pristine truth and become poornaavatar-purushuttama. Under this is the state of Vaishnavism we are totally at one with truth (Brahma-Nature) and become blissful because each moment we do not digress from the truth path, and so attain the status of deva not asura.

7.50 am 17 November 2020

20 November 2020 Update:

Do we have any proof of the truth of any matter? Science of life is the art of determining the truth from using all avenues of investigation experimentally. It knows no bounds. Truth is only revealed to us from the results of our actions. For Brahma-Nature is unpredictable. We need to probe it constantly from our deeds and see which direction opens up in that transience and then realise the facts that are then revealed to us. That is what one needs to accommodate as truth. That is Vaishnavism.

We must therefore not have any perceptions of the truth. For nothing is certain until one has experimented all theories and tested them in one's own lives. That is the mystery of Existence. For example what is dharma, and what is Sanatan dharma? What kind of evidence that one is basing such ideas and conceptions on? What is the probability that those tests are convincing-enough to be not chance rather than science-based perceptions. If one is not 100 per cent satisfied that that is the truth oneself how can anyone convince others of the so-called facts that they represent. So the way to go forward is be flexible and not to be attached to anything as truth. Just be aware of the

possibilities that could harm you. Be totally risk-averse for a peaceful mind by accumulating knowledge in the brain cells that generates awareness in the mind. Stay free in your independence of person for the thoughts for action that are right for you for personal security to survive in dignity of liberty to be able to express your thoughts without fear of contradictions and therefore reprisals from other elements of Brahma-Nature with its rajasic, tamasic and sattvic Triad of unpredictable changes and influences on ones life. Do not be attached to nationalism or patriotism, only aim for personal survival with the highest level of intelligence that comes from knowledge accumulation and resulting awareness.

That is the idea of moksha.

If we have no choice but to act we must act to the highest levels of virtuosity. That highest level of virtuosity is clarified to us by Sri Krishna who if we surrender to in reverence, love, and utter devotion imparts to us in His magically mysterious way what action are one's dharma individually in our specific circumstances through the passage of our individual lives. When we as Hindus observe this simple rule individually and not communally in the sense of wishing to create a dharmarashtra specifically to be proud of to protect ourselves from fears and paranoia of being attacked by evil components of society in the community that we live in in a geographical locality, or State in a federal system of government or the Nation that we as Hindus live in, unattached to the idea of patriotism we form a God-blessed rather that is peaceful and protected with all the population performing Sanatan dharma so all are protected according to the eternal law of the universe that Dharmo rakshati rakshita. We are all then free from delusions that lead to unwise actions that harms us individually materially and spiritually to render our minds into premeditated activity taking away our Peace of mind individually and by our unavoidable relationships with others including plants, viruses, ants, snakes, elephants, and human beings, collectively so we have a disharmonious community and State and Nation.

Shantanu Panigrahi to Liberal Democrats

My Party, my Nation, let us hope we can change minds and move towards greater tolerance and meeting the needs and desires of all our people with the blessing to our honest and sincere wishes for all our people, the other creatures in wild life, and in knowledge of the Nature and natures that form the various parts of Creation.

Shantanu Panigrahi to Ask a Hindu – questions on Sanatan Dharma: Are Vedas monotheistic of polytheistic? The Vedas are both monotheistic and polytheistic. Let me explain. The Creator and Preserver God Sri Krishna has created Brahman as the Brahma-Nature which consists of millions of devas and assures as guna Consciousness gods that living beings can access every moment of their lives depending on the character of the individual. When one prays the person accordingly gets what he or she wishes for and deserves. The gyana yogi wants everything given by Sri Krishna when He is approached in bhakti. This bhakti requires the person to sacrifice all his body and mental attachments, such as desires, ego, missions, and other objectives. Then the persons truth path is clarified and the person carries out his or her Sanatan dharma.

Shantanu Panigrahi to Ask a Hindu – questions on Sanatan Dharma: Should Sanskrit be taught to all Hindu children: do you agree? Yes certainly not just Sanskrit but Hindi also and regional languages like Bengali, Oriya Marathi that I have been familiar with which must never be overlooked for the Hindus have also been taught and guided over hundreds if not thousands of years in Bharat which is a Mahabharat containing the wisdom of the wealth of India.

Trials, tribulations we all go through and we come out with a beautiful mind of having understood the reasons for the challenges that we have faced to improve ourselves towards perfection of thoughts and resulting actions steadily and steadfastly adhering to the satya-advaitic quest for truth accommodation in holy yoga. After my work is done I rejoice in the incredible and joyful beauty of Nature in appreciation of the Lord Almighty in His Creation born of pure love for His creatures both plants and animals of all kinds. Shantanu Panigrahi Sivanandan Chetty Meditating on the atman results in nonduality, meaning that Brahman has no cause, that it does not have a Creator in Manifest (Sri Krishna) or Unmanifest that we Hindus say is indescribable and so simply known as 'It'. The true path to truth as such is yoga, not meditation. Yoga requires the shake to engage in samsara with karma (actions) taking full part in the nuances of Brahman and through this yoga one determines the ins and outs of Brahman as constituted and we then define Brahman as Brahma-Nature. It is within Brahma-Nature (Prakriti) that there are millions of gods as devas and assures and those in between that give living beings their gunas and so are known as guna-consciousness gods. One has the choice of treating Brahman as Supreme, but that only leads to delusional thoughts and actions which cannot be termed karma or dharma. The only way of performing karma according to dharma is by relating to a person's choice of one or more of the gods in Brahma-Nature as ones Ishta-devata. For Sanatan Dharma one has to surrender to the Creator of Brahman Sri Krishna and this is only possible by transcending ones gunas (rajasic, sattvic, and tamasic, that the three Lords in the Trimurti of Brahma-Nature Vishnu, Brahma and Shiva represent) and simultaneously shredding all ones attachments (aims, beliefs, desires, wishes, hopes, expectations, anticipations, ego) and in love, reverence and devotion to the Supreme God Sri Krishna, places oneself at His disposal to arrange the moment by moment actions that then becomes the chakras karma unconcerned about his or her future so acting unpremeditatedly and nonchalantly in his subconscious mind under the consideration that He alone is in charge of the devotees actions and resulting fate and destiny not any of the selected gods of Brahma-Nature and not floating about in Brahman Consciousness.

22 November 2020 Update:

Meditating on the atman results in nonduality, meaning that Brahman has no cause, that it does not have a Creator in Manifest (Sri Krishna) or as Unmanifest that we Hindus say is indescribable and so simply known as 'It'. The true path to truth as such is yoga, not meditation. Yoga requires the sadhaka to engage in samsara with karma (actions) taking full part in the nuances of Brahman and through this yoga one determines the ins and outs of Brahman as constituted and we then define Brahman as Brahma-Nature. It is within Brahma-Nature (Prakriti) that there are millions of gods as devas and assures and those in between that give living beings their gunas and so are known as guna-consciousness gods. One has the choice of treating Brahman as Supreme, but that only leads to delusional thoughts and actions which cannot be termed karma or dharma. The only way of performing karma according to dharma is by relating to a person's choice of one or more of the gods in Brahma-Nature as ones Ishta-devata. To the non-dual advaitists, I ask: in what sense are the devas 'subservient' to Brahman? Are they somehow 'restricted' by this Brahman-entity that is a superior Power acting upon the devas and asuras as perhaps a paramatman doer or a over-riding Consciousness/Self doer?; or are the devas and asuras free as the doers themselves exerting their influences directly upon the jivaatman, or indeed or are the jivaatman free of the devas and asuras and as such are the only doers acting on their intrinsic gunas of rajasic, tamasic, and sattvic attributes contained within their atmans? And with such a construction of Reality is contained the concept of achintya bheda abheda tatwa. So these are all imponderables to me at this moment in time. That is why I call it the magically-mysterious 'maya' of Sr Krishna's Creation.

I was not familiar with Jiddu Krishnamurthi (were there two Krishnamurthi or one associated with Annie Besant of the theosophical society of England that I have a book about, do you know). I too reject any higher authority including the surrender to God that I practice because in satya-advaita yoga of oneness with truth we humans are left to our own devices in freewill, such is the beauty of Reality that enables us with God's blessing to be the Master of our own individual destiny with our own selected path to our own truths none of which can be convincingly explained in words to others for it develops with the passage of time and is an unending individual yogic pursuit, especially if awakened by the Grace of God at the appropriate time for us individually. When this does happen He facilitates an individual's gyana yoga when He feels He should do so for the good of humanity in the most appropriate manner that is necessary for His intents and purposes in this entire world of Planet Earth that we live in. The proof of whether we individually are functioning to attain truth lies only within us individually in the need of our mind to be in a peaceful rather than blissful state and worse in an agitated state. If others benefit from that one is happy that one's life actions have been positive for mankind going into the future and so one can rest free with a clear conscience that one has been totally unattached, unpremeditated to influence Nature for the idea remains that one has been fully truth-accommodating on the fundamental principle of Sanatan dharma that truth is sacrosanct.

Dear Sir/Madam

I wrote to you in 2018 when I was being subjected to queries concerning my nationality status by numerous correspondence that I had investigated then, and you wrote to me that my passport of the United Kingdom (British Passport XXXXXXXXXX) was valid. Since then I have been subjected to further interrogations, which culminated in the attached email that I had sent to the Sunlight Development Trust Centre copied to the High Commission of India, with no resolution in sight from the Central London County Court where the matter is lodged:

ToChrisWhiteccHighCommissionLondon15Nov2020.docx; Central London County Court Judgement or Order 12 May 2020.docx. This followed telephone messages that I had received over the past 6 weeks that unless I took steps my National Insurance Number (XXXXXXXX) will be discontinued.

I am due to start employment on 18 November 2020 to 24 December 2020 as a Christmas Casual employee at Knights Road Medway Mail Centre, Strood, Rochester, Kent. In order to consider my position cautiously so that my legal entitlements to the full provisions of British Nationality and British Citizenship are established, kindly advise me on the progress of these proceedings today. My daughter Shantirupa Panigrahi was born in the United Kingdom and holds a valid United Kingdom passport, whereas my wife Rashmi Rekha Panigrahi (under 35 years of marriage and with her permanent residence in the United Kingdom holds) holds an Indian passport and is a British Civil Servant.

I used to be a agricultural scientist at the Natural Resources Insitute and had an unblemished career over 18 years from 1979 as the Insitutute regularly underwent changes in name from originally the Tropical Products Institute that I joined to Tropical Development and Research Institute, to Overseas Development Natural Resources Institute, and finally as the Natural Resources Institute before under the News Steps Programme of Tony Blair's Government and the changing complexion of the Ministry from Overseas Development Administration and then Department of International Development, the Institute got privatised to the University of Greenwich, and its first priority was to shed 40 jobs and then another 100 jobs in the Institute. I failed to secure enough funds for continuing my poultry development work in Cameroon and Zimbabwe under Agricultural Development within Environmental Sustainability and when I complained and resisted the impending redundancy and then got turned down by the Government of India to return to my home country to pursue my agricultural interests, I went into deep depression with psychotic features. That was in 1998. I was dismissed from service of the University of Greenwich without any severence pay and the Tribunals and Courts that I took this Defamation Court to did not make any kind of decision until this morning when I found out that the Claim E35YM660 remains adjourned: Central London County Court or Judgment or Order 12 May 2020. > > During this period of 22 years I as diagnosed as variously suffering mental illness from the original 'Severe Depression with Psychotic Features' by my private

### **Liberal Democrat Party Feedback Survey**

Why did you join the Liberal Democrats?

I have been toing and froing to find my raison d'être all my adult life. I joined Liberal Democrats in 2012 and so have been a member since then although through mutual agreement with Paddy Ashdown and Nick Clegg especially who had found my social views on feminism and marriage I understand to be offensive and disagreeable to him, and he did not take kindly to my suggestions that Student Fees should be abandoned as an investment into our future not just for our children but in effect for ourselves so that they can be cultured into looking after their parents in their old age and so not have to resort to selling their houses to pay for life in uncaring surroundings in Care Homes instead. I was very socially conscious and so developed the idea of Green socialism, which got later fine-tuned to the Ethos of Conservative Libertarianism, which is what I would like to see in the New Liberal Democratic Party when I submit my motion to the Spring Conference in 3-4 weeks time that you have agreed I should be permitted to do now that my British Nationality and British (United Kingdom) citizenship and Passport have been validated by the email that I received from nevco.com at 3.15 pm today to apply for new jobs, as it was acting on behalf of the Supreme Court in relation to my 5 September 2020 dated Appeal for the Supreme Court to intervene in Claim E35YM660 of the Central London County Court that I appealed to the Court of Appeal first and then to the Supreme Court because the Master at the Court of Appeal would not give me permission to Appeal the 12 May Order/Judgment of the Court of Central London executed by Her Honour Judge Backhouse.

Why did you choose to stay a member of the Liberal Democrats?

I believe under the new Leadership of Sir Ed Davey I would be welcome back into the Party to voice my concerns on the political shortcomings of the Constitution of the United Kingdom that I have experienced over the past 22 years of residence under British Nationality and British citizenship.

What do you like most about being a Liberal Democrat?

Comradeship with decent law-abiding and truth-accommodating ethos. I would like to see it flourish as in the very early part of the twentieth century to hopefully get into government again independently without the support of the Conservatives or the Socialists.

What do you like least about being a Liberal Democrat?

There have been individuals who are too strong-willed and subscribe to loyalty to Her Majesty the Queen at the cost of civil liberties.

## CORONAVIRUS THREAT

### **The threat to humanity of the Coronavirus Pandemic is challenging. Petition at 38 Degrees.**

My only concern with Circuit-breaker and by extension lockdown regionally or nationally, is that it would deprive us the opportunity to study the coronavirus in all its dimensions, from being treated by the body as an antigen by vaccine development of immunity to the antigen as to whether this does or does not come naturally to the old, racial and religious groups and those who are suffering other health problems, to enhancing the means for treating the symptoms of the disease in terms of its debilitating effects on the body as manifested the after-effects of the infection in terms of Covid-19 and Long Covid. The opportunity to study the virus in these aspects will be missed and this will make us more vulnerable in the middle to long-term by not being able to develop specific vaccines and medications. Medical Science must therefore be invested in without budgetary-restrictions, because the virus could perennially mutate, or other viruses like SARS or Aids could emerge in the future for which we must be ready and prepared.

In short all our efforts must go into tackling this coronavirus threat even if this means that other medical disorders such as heart conditions and cancer and various other operations that the National Health Service provides apart from Accidents and Emergency Services are postponed. So I favour the idea that we must shield the most vulnerable to Covid-19 in the meantime in protective environments like Care Homes under isolation and care. This too needs studies to identify because for example racial disparity in disease-susceptibility is under genetic-endowment control so that the immune-response of the body is a matter for individual attention where a one-size fits all mass-vaccination with a single vaccine will still leave people vulnerable to the disease. Whilst it is promising to hear that Phyzer vaccine is 90 per cent effective, the virus may mutate, so that we have always got to be on top of the epidemiological basis of monitoring the society to see which way we go. For that we need livelihoods to be continuing so that it generates the growth of the economy to pay for the National Health Service to take the decisions it needs to to protect the population from this pandemic. Circuit breaker and lockdowns are hence not the ideal solution at this stage that vaccines seem to be on the horizon and we then should be able to deal with the pandemic in the only long-term sustainability principle of the development of herd immunity. For this national efforts are required not international efforts given the diversity of the biological composition of Homo sapiens species among its different races across the world.

Why is this important?

We need to be realistic on the Biological basis of the threats that humanity faces from infectious diseases to have a strategy of least-harm that we face in the long term future in the quest to ensure that our future generations inherit a safe and secure society with updated scientific knowledge of the threat to the survival of human society in the State that we live in. How it will be delivered

I plan to submit this Petition to the Court for urgent review of government policies in the national interest.

Dear Neuvo

Thank you for sending me this intimation of job possibilities for me.

This is most welcome. You know that I am a religious person guided by my spiritual-rudder nonchalantly and premeditatedly in faith that if God wishes me to serve myself only He will arrange it for me to do so at the cost of the rest of humanity, if He wishes me to serve my family only, he will arrange my path in life to serve only my family; if He wishes me to serve society or the State under which I live He will arrange it for me that that I would serve the State at the cost of my family commitments. If He wishes me to serve both my family and the State, similarly He will arrange it for me to serve both. And if He wishes me to serve mankind at large, He will similarly arrange it for me that not only do I serve my family, my immediate society, my State of the United Kingdom, but also the wider world. It is all going to be His wishes as He considers appropriate to formulate my *raison d'être* for living daily until the day that I die, naturally or if I get killed by a fanatic individual or crucified by the State in a mental hospital or in a prison in the processes of holding on to my principles of truth accommodation Vaishnavic religion that I finally realised as being all-purpose and all-serving.

Right now I am waiting to see if Dr Odesanya will telephone me before 5.00 pm today concerning the attached FrJuliePalmer(KMPTComplaintsPALS)13 Nov2020.docx to let me know if I am to continue living in the Community under his mental health supervision on lurasidone anti-psychotic medication of 74 mg daily and anti-depressant medication of 150 mg sertraline respectively, and simultaneously confirm to me whether I should remain in the voluntary-work sector and continue with my rescheduled appointment with Chris White of Sunlight Development Trust Centre that I have asked for as attached (ToChrisWhiteccIndianHighCommission(London)13Nov2020.docx) to be arranged for the first week in December; or whether I should go for my Blood Test tomorrow morning the 17th 10.44 am at Rainham Health Living Centre (followed by the 11.00 am appointment with Chris White unless he has accepted the rescheduling of the appointment with Men in Sheds) and continue-on to my paid employment-Induction on 18 November 2.00 pm at Royal Mail for my Christmas Casual appointment. So there are still uncertainties as I do not know how severely Dr Odesanya thinks that I should be restricted in my movements in the Community as things stand now with perhaps by an increase in the daily dosage of lurasidone, or indeed, if I should be sent to a mental hospital now for the third time over the past 22 years. I am therefore unable to take advantage of the current job offers that you have sent me.

Yours sincerely

Dr Shantanu Panigrahi

CLAIMANT'S SUBMISSION TO HER HONOUR JUDGE BACKHOUSE ON E35YM660 AT THE CENTRAL LONDON COUNTY COURT

To Her Honour Judge Backhouse

My Ladyship

Background: Appeal Arguments relating to the two Orders dated 14 January 2020 and 30 September 2020 were specifically submitted to the Defendant in my Updated Particulars of Claim on 24 March 19.31 hours by agreed email and updated since. This was made clear to the Court prior to 3 April 2020 Hearing presided over by Judge Backhouse on which the 12 May 2020 Order attached is based (Central London County Court or Order 12 May 2020.docx attached to this submission). Summary of petition 1. I wished to do something positive for national development of the United Kingdom so that it can contribute to World Conservation in order to improve global society and initiated the following petitions. Some were approved for hosting whereas others were inexplicably turned down and disabled by 38 Degrees and Liberty. I resorted to Action-network in view of this lack of cooperation. This is what my Appeal is all about. Please refer to the following links in administering your decision on whether I am justified in voicing these concerns or not. If I am not, you may turn down my reconsideration of permission to Appeal the 14 January 2019 dated Order of the Court on E35YM660 (Dr Shantanu Panigrahi vs Mrs Theresa May; nay the present Prime Minister of the United Kingdom, Mr Boris Johnson as the Defendant singly).

2. The petitions in question were: 38 Degrees websites:

<https://you.38degrees.org.uk/petitions/formulation-of-a-new-updated-strategy-to-deal-with-coronavirus-pandemic>

2. Further evidence for my petitions may be examined at the following websites which have stood the test of time in that they were beyond criticisms from the general public because they are factual representations of the investigations that I have conducted in arriving at the petitions:

Personal websites:

- (a) <https://www.shanpanigrahi.co.uk/>
- (b) <https://shantanup.wordpress.com>
- (c) <https://facebook.com/shantanu.panigrahi.10>
- (d) <https://linkedin.com/in/shantanu-panigrahi-a120b267/>
- (e) <https://twitter.com/ShanPanigrahi>

3. The evidence in these websites support the Particulars of Claim in the Claim Form and the Appellants Notice of a concerted national and international conspiracy against me to obstruct justice and pervert the course of justice by the States concerned. The government is therefore obliged to take these petitions seriously or give its reasons for not considering them through the normal processes of Parliamentary scrutiny. The functioning of the Parliament and the Monarchy must be subject to the due process of scrutiny through the Courts to outline individual responsibilities to society and hence this Claim that I am pursuing. Otherwise there is no hope for the nation that I love.

4. Madam, a Judge of Her Majesty's Establishment is the law of the nation. Please therefore advise me if I am right or wrong in bringing this to your attention.

5. As you must be aware, I have only asked for a nominal £3000 in damages and compensation for what I have suffered over 22 years that led me to my published petitions because I am only progressing this Appeal proceedings in sincere belief that it is in the public interest nationally and globally.

6. Please therefore advise me if a Judgement or Order can be considered now appropriately to bring a closure to this long-standing (22 year-old) saga.

Yours faithfully

Dr Shantanu Panigrahi (Claimant) 3 Hoath Lane Wigmore Gillingham Kent ME8 0SL Tel: 07967789619

Dear Anthony Dean

There are a few things about me that was not brought to your earlier attention. I have been labelled as a mental patient for which Dr Odesanya says he either recommends or enforces on behalf of Her Majesty the Queen 74 mg of the antipsychotic medication lurasidone and 150 mg of the antidepressant medication sertraline and this has been going on for the past 22 years since I was dismissed from a very similar job that you are considering. They say that I am guilty of gross misconduct in society that they have alluded to as having forensic connotations, so they restrict my movements now after mental-hospitalising me on two occasions in 2004 and 2008. They further say that I am unfit for paid employment and even menial low paid jobs like Cleaner Social Worker, or Retail Salesman that I have carried out with my Election Count Officer's work for Medway Council because of what they say is persistent delusional disorder and paranoid schizophrenia symptoms of an autism that Hindus describe as Vaishnavism which enables us to have full control over our mental faculties in living the perfect truth-accommodating existence. I have protested about this to Her Honour Judge Backhouse under Claim E35YM660 of the Central London County Court but she continues to keep this protest under wraps by adjourning the Case indefinitely while looking to find a way of trapping me in legal difficulties as you have done by this email prevaricating and terrorising me with bullying and intimidatory harassment to obstruct justice through perverting the course of justice because the wickedly-evil Queen of the United Kingdom has ended up with egg on her face as I have succeeded in punching the final nail in the coffin of the British State for the international Defamation it mounted on me with her nation of morons in the ultra-Satan-evil Police State that she maintains with her puppet Mr Boris Johnson.

This is why you have forgotten to include the link that you directed me to.

However, I have taken my five medications prescribed to me by Dr Mawanche, the only doctor I trust so do not listen to Dr Odesanya as another puppet moron Consultant Psychiatrist of the wicked Queen in her khichidi constitution that uses moron journalists on Television and print media to not read <https://shanpanigrahi.co.uk> and <https://shantanup.wordpress.com> which the saale madarchod bhosadiwale suar ke bacche pig-shit bastards disabled and suppressed from the eyes of humanity globally to protect the ignorant-idiocy of the Queens Scientists like Richard Dawson, David Attenborough and others decorated with Honours in the country and with Nobel Prizes for discoveries in Science and so-called Peace. Unless you change your mind accordingly and give me this job under my still valid United Kingdom Passport and still valid National Insurance Number and further apologise for your false pretences I will take legal advice against the next State moron who intrudes into my privacy as I live in the comfort and joy in my own family home of Shanti Niwas.

Yours sincerely

Subject: Thanks for your application - here's some more info

Hi Shantanu, Thank you for taking the time to apply for the Sales position through Simpson Dean. Before moving to the next stage, I would like to take this opportunity to offer further details regarding this role.

This role requires you to be able to create strategic business plans, liaising with buyers, solicitors, mortgage advisors, developers, sales manager and site sales advisors. In addition, you will also be focused on achieving targets and objectives and able to produce reports.

You will use your self-motivation and ambition to meet targets and your ability to build relationships combined with local market knowledge to ensure you deliver a high level of customer service to clients.

The basic salary is very much based on experience, however the on target earning are £27,000 per annum. The client is looking for a candidate experienced in estate agency/new homes sales.

However, they will also consider an experienced PA or Team Administrator, Mortgage Processor/Financial Services Administrator, working in conveyancing for a firm of solicitors or a Sales Administrator looking for more of a challenge.

We have had an overwhelming response and would kindly ask you to further consider this role and the specifications detailed above. If you would like to pursue this opportunity please can you indicate your interest and answer a few more questions by clicking this link:

If you have considered this role and feel you would prefer to seek other opportunities, do visit our website for the most up to date job openings <https://simpsondeanrecruitment.co.uk>. If I've not received a response within 5-days, I will assume you are no longer interested in this position and dispose of your data as per GDPR legislation.

If you'd prefer me to keep your details on file and to notify you of any suitable roles, please can register on our Candidate Portal and permit us to keep your data on file.

Thank you for taking the time to read this email, and I look forward to your response.

Kind Regards

To The Justices

My Lords

I have been patiently awaiting news on the £30 million (Sterling) into my Santander Account as damages and compensation for the 22 years of enduring Defamatory and Persecutory Victimisation that I have been subjected to with Charges of Gross Misconduct and Mental Illness disorder in bringing my Claim against the Prime Minister of the United Kingdom as contained in the attached Claimants Submission (CLAIMANT'S SUBMISSION17November2020.docx), which was originally enquired upon at the Supreme Court as attached: ToSupremeCourt5Sep2020.docx.

I was unable to go into Royal Mail this afternoon for my Induction for the Christmas Casual Work due to the duplicitous and deceitful prevarication and perversion of the course of justice by a combination of the Mental Health Institution at Gillingham and The SunlightDevelopmentTrustCentre as attached:

FrChrisWhite(SunlightDevelopmentTrustCentre18Nov2020, and the Home Office see To HomeOffice(NationalityandCitizenshipStatus)16Nov2020.docx; and

FrHomeOffice(Nationality&Citizenship;)18Nov2020.docx.

You may be aware that some while back indeed of Ireland Recruitment Agency had taken over the role of representing the Supreme Court in the periodic transmission of directions and judgment from the Justices in this matter and I understand that this role has now been taken over by Neuvoco.com of Canada, in the second email that I have received from this institution as attached:

FrNeuvoc18Nov2020.docx, although I am led to also believe that this role on behalf of the Court is being shared by JobsLift, as attached: FrJobslift18Nov2020.docx which is saying that I am fit for being a Gas Engineer. If this information is correct, I bow to your Lordships wiser judgement of behalf of Her Majesty the Queen, and I will go on to apply for this and all subsequent job opportunities without taking any anti-psychotic and anti-depressant medications any longer, as I have been passed as fit for gainful employment as a Citizen of the United Kingdom with Nationality of the United Kingdom so that I am free to use my YZ330724D National Insurance Number in the job applications. If on the other hand I have got the wrong end of the judicial stick in assessing my next manovres in living free and in total liberty and peace in my family home, please let me know through my solicitor Ratcliffe.

**CLAIMANT'S SUBMISSION TO HER HONOUR JUDGE BACKHOUSE ON E35YM660 AT THE CENTRAL LONDON COUNTY COURT**

To

Her Honour Judge Backhouse

My Ladyship Background:

Appeal Arguments relating to the two Orders dated 14 January 2020 and 30 September 2020 were specifically submitted to the Defendant in my Updated Particulars of Claim on 24 March 19.31 hours by agreed email and updated since. This was made clear to the Court prior to 3 April 2020 Hearing presided over by Judge Backhouse on which the 12 May 2020 Order attached is based (Central London County Court or Order 12 May 2020.docx attached to this submission). Summary of petition

1. I wished to do something positive for national development of the United Kingdom so that it can contribute to World Conservation in order to improve global society and initiated the following petitions. Some were approved for hosting whereas others were inexplicably turned down and disabled by 38 Degrees and Liberty. I resorted to Action-network in view of this lack of cooperation. This is what my Appeal is all about. Please refer to the following links in administering your decision on whether I am justified in voicing these concerns or not. 3. The evidence in these websites support the Particulars of Claim in the Claim Form and the Appellants Notice of a concerted national and international conspiracy against me to obstruct justice and pervert the course of justice by the States concerned. The government is therefore obliged to take these petitions seriously or give its reasons for not considering them through the normal processes of Parliamentary scrutiny. The functioning of the Parliament and the Monarchy must be subject to the due process of scrutiny through the Courts to outline individual responsibilities to society and hence this Claim that I am pursuing. Otherwise there is no hope for the nation that I love.

4. Madam, a Judge of Her Majesty's Establishment is the law of the nation. Please therefore advise me if I am right or wrong in bringing this to your attention.

5. As you must be aware, I have only asked for a nominal £3000 in damages and compensation for what I have suffered over 22 years that led me to my published petitions because I am only progressing this Appeal proceedings in sincere belief that it is in the public interest nationally and globally.

6. Please therefore advise me if a Judgement or Order can be considered now appropriately to bring a closure to this long-standing (22 year-old) saga. Yours faithfully Dr Shantanu Panigrahi (Claimant) 3 Hoath Lane Wigmore Gillingham Kent ME8 0SL Tel: 07967789619

to Chris Dear

Chris I am fine with 11.00 am See you then.

Give my regards to Dr Odesanya please and let him know that all my misunderstandings that generates the turmoil in my mind during these past 22 years of suffering mental illness is something that I regret immensely in the trouble that it caused to my colleagues in all my half a dozen employment engagements since 1997 and for which I have been acting forensically with perhaps contempt of Her Majesty's government in the law enforcement agencies, courts, parliament and the mental health authorities and the rest of society at home and abroad with associated petitions such as the one you have just examined, and which 38 Degrees refused to host along with several other petitions of mine. I do not honestly feel that having been diagnosed repeatedly with persistent delusional disorder and paranoid schizophrenia seemingly borne of indicated autism that I personally have defined as Hindutva-autism which compels me into activism against injustices in what I perceive as Sanatan Dharma that medications such as risperidone, aripipazole, lurasidone olanzapine and clozapine work on the delusions to subdue psychosis enough to enable a person to live in the community instead of in a mental hospital and even short periods of such more severe

detention are not long lasting with the person relapsing into dharmayudha again for his perceived injustices against him by the Police State one lives under because these drugs affect the brain and the brain regenerates on rehabilitation when the person is back in the community. Electroconvulsive therapy may be tried for more long lasting stability towards the objective of the State to control the so called mental patient but even this severest form of therapy may for the same reason that the brain regenerates are not very durable. So if a person commits minor digressions like I am supposed to have done over these 22 years that are clearly not criminal in that I have never been charged with criminal offences, and even the stain on my reputation with the speeding offence is still under Appeal related private prosecution of the Chief Constable of Kent Police at North Kent Magistrates Court on which Summons issued by ne is undergoing consideration by the Magistrate as I send this email to you; the best that would now be considered as appropriate would be Restraining Order on me with explicit instructions to change my religion of Vaishnavism to Protestant Anglican Christianity.

Thank you for your quick reply.

I am fascinated by health, but unfortunately no qualifications, just reading about it. Might have to go back to school and get a qualification, but not sure where to invest time and money yet as I am not keen on mainstream. Currently looking into Traditional Chinese Medicine. Look forward to meeting, just in case we can figure out a way for you to get involved in an activity. Neil said he got an email from you regarding Welbeing cafe. We can chat about that service too. Even if there are no activity days currently running which are of interest, I still want to find ways for people to engage with us, perhaps remotely, or we may be able to start running social events again when the government restrictions are lifted. There are a few shed members who love politics and might like to chat with you. I try to give it a wide birth, but historically it is interesting to assemble knowledge of global political patterns. The stage seems to be almost set for a change of direction here. The media are gradually condemning Boris more. I predict new cashless credit systems soon following the small employer economic destruction from the pandemic restrictions. Some ideas about year and a half ago were promoted by the American left wing, so they know what they want to do, and the technology is almost there. Actually it depresses me talking about politics, so I will stop there. I am just on this machine waiting for the dentist. Otherwise today I would be working in the garage, head to toe in dust and oil. Never had enough money to buy new cars, so I had to build a skill set for mechanical, electrical and bodywork jobs. May go self-employed. From: Shantanu Panigrahi Sent: Thursday, November 19, 2020 8:57 AM To: Chris White

Dear Chris

I was waiting to see if there has been any decision made this morning on my application to Morrissons, Boots and one other job vacancy that I applied for in relation to the attached legal proceedings: CLAIMANT'S SUBMISSION19November2020.docx, which highlights the political activism that I have engaged (currently with my membership of the Liberal Democrats Membership Number 8763623) in totally peacefully (as always, notwithstanding the words I use to describe the miscreants who persecuted and terrorised me as Saale madarchod, bhosadiwale, suar ke bacche, pig-shit bastards living in a nation of morons of a Satan-evil Police State with puppet dummies like Dr Odesanya and Mr Boris Johnson operating to the secrecy of the State Establishment who used its Cybersecurity mechanisms to perpetrate 600 criminal anonymous into me as a citizen and national of the United Kingdom for the past three years under a fictitious organisation calling itself Victims of Panigrahi Association or VOPA; but no such information has been received by me. It is a shame that Dr Odesanya is no longer at Britton House to answer this allegation of continuing State-organised persecution which I presume is the reason that I have not heard anything from the Mental Health authorities concerning my progress with compliance to Dr Odesanya's instructions to engage in activities to keep my actions in mindfulness awareness, so I should think it would be wise if we delay our Meeting until a later date depending on what the Consultant Psychiatrist next appointed to supervise my mental state decides on how I am progressing with my current medications of lurasidone (74 mg daily) and sertraline (150 mg daily) as well as Flenexitrade, Atrovastatin, Tamsoulosin that I had a telephone conversation with Dr Smart with yesterday on the phone and followed that with a visit to the GP Surgery to discuss my medical needs which includes the letter from Dr Bhatt of Medway Maritime Hospital saying that he will telephone me again on 3 March 2021 depending on progress: my Prostate Specific antigen continues to recede from the latest Blood Test of 17 November 2020 so that at least is good news. I may yet live for some time yet!

What do you think?

Dear Boots

1. Whilst I take aboard your assessment that I was not suitable for the first job that I applied for, the latest one on Christmas Casual Work is perfect for me and I am very well qualified and experienced

to undertake this work at the Chatham Pentagon Centre. You are unable to give me access to my account to find out what the result of this latest job application is and I am drawn to conclude that just as Boots the Chemists harassed, terrorised, bullied, intimidated to pervert justice through obstruction of justice in the past few months of correspondence with the company, your latest lackadaisical and unresponsive attitude towards me is in tune with that persecution that the Company has inflicted upon me to boot me out of this country unjustifiable as if I am stateless and that my British Nationality and British (United Kingdom) Passport together with my National Insurance Number YZ330724D has somehow been compromised. This is accentuated by the fact that Morrisons has also inflicted similar harm on me by removing my Canterbury job application and refusal to respond positively to the attached other job applications:

FrMorrissons6JobsAppliedFor21Nov2020.docx 2. Unless I receive clarification from you this afternoon on the progress of these job applications, I will consider that you are victimising me for having pursued my Claim against the University of Greenwich in 1998 for Defamatory charge of Gross Misconduct in Employment of the Natural Resources Institute in conjunction with the Mental Health authorities at Britton House, Gillingham, Kent. The attached proceedings at the Central London County Court refers: CLAIMANT'S SUBMISSION19November2020.docx;

Dear Boots

Two weeks from today for a Christmas Casual job is not good enough. I need to know today because there is some uncertainty still in my mind as to whether the Mental Health authorities consider me to be mentally sub normal or I'll or have a more serious genetic disorder said to be autism that was referred to Maudsley Hospital in London last January but on which I am still awaiting my diagnostic appointment for Autism Spectrum diagnostic services. This abysmal treatment of a Hindutva-autism of Vaishnavism in Hindu parlance with anti psychotic and antidepressant medications that are currently lurasidone 74 mg daily and sertraline 150 mg daily is not working as I continue incessantly with my dharmayudha activism until the day I get my deserved damages and compensation payment of millions of pounds and the full restoration of my cherished life times scientific works published in my websites <https://shantanup.wordpress.com> by the Order of Her Honour Judge Backhouse the Circuit Judge at the Central London County Court under Claim No E35YM660, which is still adjourned as per the Order of the Court dated 12 May of 2020. I am disgusted that my repeated petitions to Her Majesty the Queen has failed to have these injustices resolved in my favour after these 22 years of enduring State-organised terror of religious persecution on me for not converting to Anglican Protestant Christianity that I consider to be a wickedly-evil scourge on humanity.

I need a sources of additional income today as I have financial commitments and cannot fulfil my duties to my wife as a good husband and to my daughter as a good father being described by my wife with taunts of being a Kamchor much as I like the family home in Shanti Niwas.

So please give me this Christmas job at Chatham Pentagon Centre by return of email this Saturday 21 January 2020.

Thank you.

PS. As I have said to Her Majesty the Queen through the appropriate State authorities I am the most knowledgeable human being in the world not just today but ever in the history of mankind and not just that I am also the most intelligent genius who has ever lived. All I ask for is recognition of this assertion by Judge Backhouse or I will Appeal her next Order in not recognising this exposition of my poornaavatar-purushuttama status granted to me by God Sri Sri Krishna as yogadaan for discovering satya-advaita yoga into Vaishnavism, the Sanatan Dharma religion demonstrating the perfection of Existence.

Dear Chris

My application with Morrissons at Rochester is still being considered by the Supermarket, and whilst I had not been successful in my first application for Boots, it sent me an email that I would be welcome to apply for any future roles that arise. I did so immediately for a Christmas job at Chatham Pentagon Centre, and hope to hear about it soon as time is pressing, and I am still without daily engagements in social or volunteering or employment work. Please confirm that Dr Odesanya is no longer looking after my mental health - I am still taking my lurasidone and sertraline medications as prescribed for me by him and would not really like to change my Consultant Psychiatrist to a new one, as Dr Odesanya knows me thoroughly by now, with all my insults and prejudicial statements born of paranoid schizophrenia and persistent delusional disorder that I am trying to rectify hard with motivation of the appropriate religious guidance that I call Vaishnavism. I truly apologise to all I have come in contact with during the past 22 years for my digressions away from the path of virtuosity, which I have striven towards with factual data in my mind on the composition of Reality. If I do not receive an email from you today, I will not be going to Sunlight Development Trust Centre ever in the future.

I await your response.

Dear Padre/Father

I have now heard from the official agent of the Supreme Court of the United Kingdom indeed of Ireland (see attached Frindeed(SupremeCourtagent)22Nov2020.docx as Her Majesty's the President of the Anglican Church of the United Kingdom its further directions to the Appeal dated 5 September 2020 attached ToSupremeCourt5Sep2020.docx as attached

ToJobsLift(SupremeCourtofUK)21Nov2020.docx; that my submission to the principle that 'No one is safe until all are safe' as Archbishop reiterated last week on Television, that in order to move towards this principle of 'United We Stand and Divided We Fall' I must make an application to the Church to book appointments for me as follows:

(a) Selection of a Christian Name for me in accordance with the Hebrew Chaldean Numerology where my Shantanu Panigrahi still attains the Number 3 significance that forms the basis of the Father, the Son, and the Holy Ghost' trimurti of Christianity to replace my present Hindu Trimurti Triad of Brahma, Vishnu and Shiva': I have no idea how long this name-selection will take if we are to follow the Essenic theology outlined by Linda Goodman Star Signs, on the basis of which Jesus Christ attained the numerological significance of '9' that is conducive to living in the United Kingdom instead of '3', and the avataric principle of '3' and '7' adding up to the 1 as the One and only Almighty.

(b) Baptism/Christening for me simultaneously as soon as Archbishop Welby's Diary permits for I would like his personal blessings as I chart my new life that Jesus Christ saves our souls, rather than my Hindu beliefs hitherto that 'Jesus Christ saves arse-(h)oles, as I had earlier submitted to Her Honour Judge Backhaus, the Circuit Judge in Central London County Court in the still-adjourned Claim of mine E35YM660, under which I am seeking the restoration of my Blog <https://shantanup.wordpress.com> to continue with my Christian reformation as an Anglican Protestant Christian.

(c) Transition period: I had years ago communicated my paranoid schizophrenic status concerning my quest for a religion that is appropriate to my life in the United Kingdom to the Church of England back in the year 2002-200w when I was seeking asylum under the Church's refuge, and had similarly written to the Vatican to see if Catholicism might provide me the same to no effect. So kindly bear this in mind and consult widely (may I suggest Padre/Farter Rowan Williams?) which would be more appropriate in a transition period to the eventual aim of rehabilitating in the society of the United Kingdom, perhaps I would have a softer landing if I chose Catholicism first, in which Case I would have to contact the Catholic Society of the United Kingdom depending on your assessment. Your immediate reply would be helpful on the Sunday morning so that I can go to the appropriate church in my immediate locality and avoid further interactions with the Jehovah Witnesses who have visited me periodically over the past 22 years at my home inviting me for Services in their Kingdom Hall.

Yours sincerely

to me

Thank you for your enquiry which has been received by the Mid Kent Ceremonies Team. We will continue to deliver Notice of Marriage appointments only during this lockdown period. Regrettably, it will not be possible to deliver any weddings or civil partnerships during this period. We understand this will be an anxious time for anyone that has an appointment or ceremony booked with us, please be assured we will be in contact with anyone with ceremonies booked in our register offices as soon as we have more information and the process for moving your booking. As you can appreciate, we will have a number of people to get in contact so thank you in advance for your patience. If you have booked with an external Kent venue for your wedding or civil partnership you should contact them in the first instance.

Dear Joblift

I am sorry for having had a go at Boots the Chemists in my anger at not succeeding in my search for suitable employment. I was impatient because as I made clear to them my wife has still not forgiven me for not going to the Royal Mail Induction on my guaranteed job on 18 November 2020 that I would have earned around £900 per month. I thought the experience last Christmas was a bit menial and after my work for Sainsburys plc in late Spring this year that the Employment Tribunal in London South is considering in view of the fact that I have still not received my £500 compensation payment that I agreed to settle for in consultation with my Consultant Psychiatrist Dr Odesanya at Britton House, Gillingham with the full support of my Carer that the money was certain in these troubled times whereas the Tribunal would say that for full naturalisation in accordance with my Naturalisation Certificate of 1984 and under my currently valid British Passport having consulted the Home Office in the past week and under Madam Priti Patel's Ministerial-ship of the puppet Mr Boris Johnson; I could not take a chance and so vow now to convert to Anglican Protestant Christianity so that the nation runs cohesively and we all prosper in employment prospects for our survival in this country. For a job 'give us a job' I am willing to give up my agency 007 Bond James Bond on Superlord Sri Krishna's Secret Service to maintain law and order on Earth knowing as I said to the Justices of the Supreme Court with regard to my 5 September 2020 Appeal against the fact that Her

Honour Circuit Judge Backhouse erred in law for retaining E35YM660 under adjournment judging by the fact that when I just linked into <https://shantanup.wordpress.com> it was still archived and disabled, so please review the case management of the employment tribunal proceedings as I dig out my Good News Bible and read the chapter on Love thy Enemies instead of continuing with the Vaishnavic dharmayudha of retaliating as hard as one can peacefully and non-violently according to the Sudarshan chakra of stuffing the perpetrators of injustices with the proverbial 'gand main danda dalo' motto that my hitherto Super Lord Sri Krishna has taught me as being the Vaishnavism against all of humanity who are represented in leading human beings according to His guiding-advice 'Babaji beithe pahard par aapan lund latkaye, jeka jetan chahiye kaat kaat le jaye'.

So let Wordpress hold on to their website and thank you for giving me the go ahead now to apply for engineering jobs. The only thing missing is that I need a Christian Name to change into and I also need to be baptised by the Archbishop before I fill in the job application forms. So in your lordships directions kindly set out the procedure I need to adopt for this so that I can write to Archbishop Welby for my conversion late on in my life, and stop taking my lurasidone and sertraline medications in an hour's time that my Consultant Psychiatrist insists must be done like clock-work.

Thank you

Yours sincerely

Dear Sir

I urgently need acknowledgement by email or Telephone to my Mobile Telephone Number, in connection with my Civil Rights and Civil Liberties in accordance with the Constitutional Law of the United Kingdom, as attached: FrHomeOffice(Nationality&Citizenship;)18Nov2020. The practice of my religion of Vaishnavism has been seemingly frowned upon by the State to suggest that it is a mental illness that I have inherited from my upbringing as a Hindu, who has lived in the United Kingdom since 1979 as an immigrant. I would be grateful for your kind attention and a response as soon as possible and practicable because this autoacknowledgement from the Home Office is not adequate given that it had 2 full days to clarify the issue and has failed to advise Aldi, Simpson Dean and Royal Mail concerning my prospects for paid employment: see ToHomeOffice(NationityandCitizenshipStatus)16Nov2020.docx.

I am available to come to your Sittingbourne Office at the above address this morning to discuss the issues further, if you would be amenable to this proposal.

Yours sincerely

1. Please consider my circumstances as given in the attached:

ToLisaPennington(LucyVocationalAdvisorccShanPanigrahiyahoo5Aug2020.doc, and

I am of course therefore reminded of the Lords Prayer but these temptations are relentless and I have tried my best to ignore them but feel that I need a retreat finally to get away from it all. I have been to the Friars a year ago when I used to drive there to take my daughter to work in your kitchen and cafe, but she could not sustain that employment for very long unfortunately and your officials dismissed her, thereby depriving me of my daily retreat to be among the geese and other wild-life at your monastery that is very close to my heart located as it is in the peaceful and tranquil setting.

2. Please therefore let me know your accommodation charges for two weeks starting now, as Lisa of the Vocational Advice Centre has not confirmed to me that she will see me again in two weeks time for another assessment of my occupational requirements to the State.

Dear Sirs

I just went to your Career's Website to apply for employment under the Graduate scheme but found on suitable vacancies in the Gillingham Business Park Branch of Aldi. Please let me know when you have any such vacancies after taking into account that the Supreme Court has endorsed my British

Nationality and British Citizenship as confirmed to me by its agent Neuvoco.com of Canada in the attached Order of the Court (FrNeuvoco.com22Nov2020.docs) that I should now undertake serious employment ventures whilst living in my present residence on the basis that there are no mental health abnormalities in me that are forensic in nature, no.docr have I been issued with any summons by the Law Enforcement Agencies of the United Kingdom for any crimes or misdemeanours before and since the issue of this Judgement/Order from the Justices of the Supreme Court in relation to the 5 September 2020 dated Appeal to reprimand the Circuit Judge Her Honour Judge Backhous of the Central London County Court for erring in law in the adjournment of Claim E35YM660 as things stand now, and without the £30 million in damages and compensation that I demanded for the 22 years of State-organised religious persecution on me with a second Court Order to restore my Blog <https://shantanup.wordpress.doc> immediately in the interests of truth and justice for the common good of mankind globally.

Incidentally, kindly also let me know when Aldi will make a final decision on the attached Store Assistant job that I have applied for as I am also awaiting a reply from Boots for a similar position at Chatham Pentagon Centre that I will have to choose between these two current options that exist before I apply for the specific vacancies that the Supreme Court has directed me to apply through Neuvoco.com: FrAldi(GillinghamBusinessPark)22Nov2020.docs; FrLaunchPadRecruits.com(AldiVideointerview)22Nov2020.docs.

Dear CV Library

Only an Almighty God can tell what is Sanatan Dharma, we humans can only speculate and try all kinds of experiments to try and find out the guidance that we long for to make sense of it all. I tried

all human dharma in the early adult life in my career at the Natural Resources Institute and attained stardom as a Poultry Nutritionist with 35 scientific papers in international journals and my career seemed to be heading towards entering the International Poultry Hall of Fame to follow the footsteps of my Professor Trevor Morris at the University of Reading and to bring glory to my family and birth-country of India as the son of a great Botanist that my father was being honoured by the Indian Government with the Janaki Ammol National award. I was earning £30000 a year and lived in a palatial house with a beautiful wife who cared for me and our daughter to impeccable perfection. But it was not to last as I got destituted as an asylum seeker for what the United Kingdom judged as gross misconduct and was on a riches to rags story and this remains the case as I am still regarded as mentally ill with paranoid schizophrenia and persistent delusional symptoms of autism purely and simply much as I have tried to justify all my actions over the past 22 years as being a religious state of mind of Hindutva-autism that was the result of my satya-advaitic yoga in the ancient Hindu practices of Vaishnavism that incorporates dharmayudha to fight for one's material injustices in the scriptural depictions of the lives of Rama in the Ramayana and the Pandavas fight against the Kauravas in the Mahabharata under the Superlordship of God known to us Hindus as Krishna. So after my fall from grace in 1998 and the denial of refuge in India especially with the attempt to re-establish my Hindu credentials under a Hindutva-autism-conducive State that I thought would understand my mentality and treat me as Hindu Son of India with a Bharat Ratna award and a hero's return to the sub-continent and treat me like a Shivaji of history I had to change my religion from Vaishnavism to Anglican Protestant Christianity for which I have written to the Archbishop of Canterbury through Lambeth Palace's Maidstone Office wishing Archbishop's Welby's personal intervention into my conversion when he returns from his spiritual sabbatical in September 2021. Please wait for this to be formalised before I can become mentally brainwashed into the servitude of the State now that Her Majesty the Queen has neither been dethroned as Monarch, through my application under E35YM660 of the Central London, nor has she been impeached by Parliament for this proselytizing-enforced religious conversion with the threat of continuing lurasidone and sertraline antipsychotic and anti-depressant medications to suppress Vaishnavism in the United Kingdom to allow me to continue living in the Community and not in a mental hospital again in this semi detention state following the incarceration in mental hospital in 2004 and in 2008 when the asylum refuge in other countries of the world practicing this religion of dharmayudha proved unsuccessful, especially in relation to the Jatha dharma rather Jaya motto of the Supreme Court of India in New Delhi-based public interest litigation of mine, unless that Court has now updated those proceedings in its email from you that I am replying to (please confirm by return email for I do not wish to be made stateless by Priti Patel in response to the email I sent her at the Home Office of the United Kingdom an hour ago and I need to update Dr Odesanya immediately with the progress of my volunteering engagements this afternoon at Britton House Community Mental Health Team centre to confirm my Wednesday's 25 November 2020 Meeting with Chris White of Sunlight Development Trust Centre at 11.00 am located at Richmond Road Gillingham that he has written to me an email and MMIs forms were completed and sent to him last week with the required Consent Form for my Men in sheds appointments.

## DHARMA EXTINCTION

The Extinction of Dharma: duties and righteous actions in and as Police States is worth considering.

What we see as adharma is not something we can do any dharma to rectify materially because all man-made dharma or adharma are relative and subjective conceptions in that we living beings take our thoughts for actions from our gunas that may be sattvic, rajasic or tamasic or somewhere within this Triad-consciousness as our imminent material circumstantial-realities change in the transient-impermanence of time in relation to the need felt by living beings such as we humans that we have to save our lives and so must have a desire to survive in material prosperity. Kaliyuga now is a reality that we humans can do nothing about and we must never undertake such subjectively-determined and effectively therefore adharmic steps to eradicate what we perceive as others adharma be it plant, viruses, animals or human beings for we can in taking positive steps of actions of such so-called dharma can and will only make things worse for ourselves individually and collectively as we are still ignorant of how Nature works until God Sri Krishna Himself judges that one or more of us have individually attained Enlightenment on its constitution (I have no idea if my Brahma-Nature hypothesis is true or not even at this moment in time) and so have no clue as to whether I am one such poornaavatar-purushuttama to possess the capability with total knowledge and emanating wisdom to rectify adharma with dharma as Sanatan Dharma. No human being on Earth has the knowledge to make such a judgment. We are only fooling ourselves in our delusions of grandeur to think that we as human beings may have become a poornaavatar-purushuttama in our strive for that mental state of mind and the physical perfection of actions (karma) no matter how much knowledge and wisdom we think we have. For example, the Buddha may be considered by millions of people as an avataric-incarnation of God, but the proof is in the eating of the pudding that all the 8 billion people on Earth today do not follow Buddhism as enunciated by the Buddha 2,500 years ago; and the religion of Buddhism, like Christianity, Islam and Jewism have all fragmented over these centuries into diverse religions. So there has never been an incarnation of God on Earth as a poornaavatar-purushottama. And further we are accordingly deluding ourselves that adharma is so predominant and pernicious right now on Earth that we have entered into a so-called kaliyuga, if ever God had designed Creation into stages of yugas in time. Indeed it would be a very cruel God who would design Existence into satya-yuga, kali-yuga etc for a wicked self-satisfaction for Himself at the cost of the mental and physical suffering of His trillions of life forms since abiogigenesis began 4.5 billion years ago, that He will make His presence felt to resolve the 'crises' emerging in His Creation periodically by incarnations of Himself from Yuga to Yuga as outlined in Gita, yada yada hi dharmasya, glanir bhavati bharata; abhyutanam dharamasya, tadatmanam srijamayam; paritranaya sadhana, vinashaya cha drishtkatam; dharma sanstapanarthaya sambhawami yuge huge. Only a monstrous Creator God would design such a Creation like that for showing off and exerting His authority and power over us living creatures to take away our free-will and liberty in enforcing our subservience and surrender to Him instead of allowing us to be doing precisely what we wish to do to please ourselves and living in accordance with the law of Nature of the survival of the fittest in the Evolution of the species of the Paleontological tree of life to try and become the Lord of the Jungle of living creatures dominating and subduing all our enemies and critics as we are apt and wish to do always. So neither do I know that any such God exists, and even if He does exist I personally do not subscribe to such a concept of Creation and live in freedom of liberty in my free-thoughts of self-cultured mind no matter where that takes me, for it has worked for me over the past 22 years of suffering State-organised terroristic persecution in the United Kingdom and beyond and even within my own family set-up, having survived to relative prosperity and relative freedom to live within my Shanti Niwas home still. I have survived for 64 years of my life and have never been convicted of any crimes or felonies or forensic behaviour in having freely expressed my views to mankind that all established religions personal or as State-dictates in what are Police States, whether secular dharma-based written into a Constitution or implemented without bearing an unwritten Constitution, or

based on subscribing to subservience to a god like Vishnu, Allah Jesus or Jehovah scripted into holy books like Bible, Koran Gita, Guru Granth Saheb, Torah, etc are totally delusional and such delusions-based actions of humanity have brought misery to us humans during the history of mankind and caused the destruction of planet Earth in this so called Kaliyuga where overpopulation in relation to the Earth's climate, and the finite terrestrial, marine and geological natural resources has brought us to what I consider personally as impending doom for the Planet and its inhabitants of various biological descriptions.

So whether God exists (and I truly believe that He does exist as Creator) He seems to be ambivalent on our prospects to survive as human beings with or without biodiversity and will not interfere in Brahma-Nature to save us as the Homo sapiens species of life. New life forms will come about just like after the previous half a dozen or so mass extinctions and who knows whether the coronavirus pandemic now upon us globally is itself the beginning of the end of the human race that has the potential to wipe us out like the 'dinosaurs' that we are, and consistent with the fundamental Gaia principle of Environmental Science that Nature will take its course.

So get prepared and wake up to this reality. If you care about the future of mankind or even your own lives and children and grandchildren's lives formulate the philosophy of Vaishnavism in appreciation of what we have as our planetary home and preserve it with love and affection, in total dedication and devotion to the laws of Nature as Brahma-Nature.

Dear Chris

Archbishop Welby did not grant me an audience to consider my conversion to Protestant Anglican Christianity despite two emails including one through Lambeth Palace's Contact point this evening where I wanted to discuss with the Reverend the employment of Cybersecurity state terrorism methods in a comprehensive surveillance of citizens for the Queen to trap political prisoners like me in semi-detention status in the Community that I have referred to my new Doctors that you sent me to at Patient Access. There is no point in beating about the Bush. I feel agitated that Kent Police had still not apprehended the Saala Madarchod bhosadiwala suar ke baccha kahinka pig-shit bastard, the Chief Executive of 'Indeed of Ireland' in my intensely-vulnerable state of mind. 1500 or thereabouts criminals were employed to terrorise me including 50 Law Firms like the recently consulted Ratcliffe Solicitors that I earlier reported to Sunlight Development Trust Centre.

Ah well, that is life

Dear Chris

1. I was having problems on my Mobile phone email account last night, in trying to send you a message: The Extinction of Dharma.docx attached, and it is now back in operation thankfully.
2. I have still not heard from you if I have been officially registered by your Charity in relation to my ongoing mental health problems being assessed by Dr Odesanya still it would appear for I have not received a telephone call from Britton House to let me know if this supervision over me has changed as you seemed to suggest. I am of course available to cooperate with anyone that Britton House now employs in considering whether I am still not to be discharged into primary care following my reformation of ideas on my religion and its changing manifestations into my thoughts for actions.
3. I am therefore copying this email to Julie Palmer (KMPT) to let me know urgently what has been decided on my mental welfare and accompanying employment prospects whether in the formal economy or in the social volunteering sector or as self-development and counselling-receipt services. I am still with Shah Surgery as Patient Access has not replied to my query for a change of GP Services having completed a self-diagnosis questionnaire in its website for assessment of Obsessive Compulsive Disorder and receiving a response that this was indicated perhaps related to my diagnosis last January for possible autism. I will go to the Shah Surgery when Patient Access has replied to me on this email.
4. I would be grateful if you would reply and let me know the position and judgment reached on this. Claim E35YM660 of the Central London County Court remains adjourned as far as I known now, but I hope to receive clarification from Her Honour Judge Backhaus in due course; see attached: Central London County Court of Judgment 12 May 2020.docx; ToSupremeCourt5Sep2020.docx; CLAIMANT'S SUBMISSION19Nov2020.docx.

Dear Sir/Madam

I am being treated by the Britton House Community Mental Health Team in Gillingham for the past 22 years as a mental patient and was sent to mental hospital for 3 months in 2004 and for one month in 2008 for what the Mental Health Tribunals that considered my Appeals under the Mental Health Act as being persistent delusional disorder, which was later changed to paranoid schizophrenia and although this was being considered for change to autism by a referral to Maudsley Hospital Autism Spectrum Diagnostic Services, I am still placed on 74 mg of anti-psychotic lurasidone and 150 mg of anti-depressant sertraline without a Community Treatment Order being issued and served on me ever in the past. I have requested this morning to Kent and Medway Partnership Trust to refer me back to primary care without imposing these medications or being considered for more stringent Mental Health Treatment procedures. KMPT has acknowledged receipt of my application, but no one from Britton House has contacted me so far this morning. I consider it to be a gross infringement of my privacy and liberty without explanatory justification for the status quo. Would you kindly let me know immediately if you are able to contact Britton House and obtain the necessary information on my behalf on the diagnosis and treatment of my mental health as it stands now in this moment in time, please?

AUTOREPLY:

Thank you for your enquiry. Your enquiry has been directed to the relevant department and one of our legal specialists will be in touch with you soon.

I just had a telephone call from your Duncan Lewis Solicitors who were responding to my communications with the Citizen Advice Bureau over the past 22 years and notably during the past 2 years of having failed in my attempts to obtain Mental Health Advocacy Services from Chris White and Patient Access of the Sunlight Development Trust Centre, Richmond Road, Gillingham. I was told to go back to the Citizens Advice Bureau to discuss my 24 November 2020 email so that you are able to guide me to another Advocacy other than Medway and Swale Partnership Advocacy whose Jill and Charles have abandoned my request to contact Britton House to find out why the Mental Health Authorities of this Institution insist on enforcing 74 mg Lurasidone and 150 mg Sertraline medications on me, when I am not only the most sane person ever to have walked on Earth, I am also the most intelligent genius to have ever lived. I have tried PoHWer Advocacy Services and the Parliamentary and Health Service Ombudsman to help me with withstanding this State-organised

persecution on me for my Viashnavism Religion which the State wanted to change and proselytised me in its attempt to change it to Anglican Protestant Christianity that is anathema to me having seen how wickely-evil it is in that Archbishop of Canterbury Justin Welby has not given me an audience to christen me into the State-religion as things stand right now.

Dear Joblift

I am one of the rarest of rare human beings who is adaptable. It has taken this old bird twenty-two years of soul searching in paranoid schizophrenic episodes of severe persistent delusions since I encountered inner demons in 1997-1998 of visions (call it hallucinations) of impending doom to my ambitious outlook to become a successful scientist engaged in fundamental laboratory-based Animal Science research and development in a country that had all the academic facilities and the technological upgrading of the means to study Nature. So I abandoned my career effectively to try and determine the nature of my visions and utterances to determine the reasons that suddenly at the age of 40 and for no genetic reason whatsoever for why a first class academic career and family life of a wife and a child living in a wealthy country and in a lovely house in a select location of Kent with all local amenities of a nearby post office, Supermarkets, GP Surgery, parks for leisurely-walks, nearby sea-sides for relaxation, sporting activities for the Institute that I worked for, and a local cricket team for evening and weekend games, public houses that I loved because I enjoyed alcohol, money for holidays in India to see our relatives every two years, a British Passport and Nationality that people all around the world crave for, etc would just enter into total disintegrative collapse where I would be seeking asylum out of the United Kingdom, a decision that is unheard of, for the UK has housed and looked after those masses of refugees fleeing persecution like the Jewish people under the domination of Nazis in Western Europe during and after the Second World War and the Ugandan-Asians expelled from that country by Dada Idi Amin for examples. The question of why I was on that reverse-path had to have an answer. We humans alone can and must find the answer I decided, and I must do so by investigative journalism. So following the aborted attempt to go to France from Dover under 'instructions' received from a God through my digital clock-checking method that I had started using to communicate with a God that I stumbled into, totally bizarrely and stupidly apparently for it had no conceivable basis in Science, I was taken to the mental hospital for my self-described Brahmanism and I was then safe from the Medway County Court who had judged that I not only had I been entirely blameworthy of gross misconduct towards my colleagues and senior management at the University of Greenwich to endorse the similar conclusion of the Employment Tribunal at Ashford but Ordering that I had also abused the process of this Court. I was always a great survivor and whilst I wanted to be released into the freedom and liberty of family life at home always, it was a decision that would save me from a worse fate for at the very least I would not go to prison for having abused the process of court, seemingly because a Employment Tribunal Case was resuscitated by me in a County Court by me in the absence of legal advice from Solicitor Sorrell and the Citizen Advice Bureau that I also had lodged a Case against in this Court. I was labelled as a nut-case lunatic mental patient to be detained in a Secure Ward at Her Majesty's Mental Hospital and so I was not a destitute in the streets of Calais mercifully for my transgressions up to that date. In this regard, when I was being harassed and persecuted by the management of the University of Greenwich it was my decision to find Dr Rao through my General Practitioner Dr Sudhir Patel and pretend that I was suffering from severe depression with psychotic features that he diagnosed so that I could go on sick leave from the University or use that excuse for any wrongs that I had done in my conduct towards those cowards hiding under the protection of a wicked Judges of the Tribunal and Courts in the societies of man-made laws. Notwithstanding whilst I was still surviving in the Community I had to explore if there was indeed a demonic or benevolent God that had remained residing dormant in my mind for 40 years until 1997-1998 who had suddenly awakened me into setting myself a mission to move to higher things from the noddly work of Poultry Nutrition and Toxicology in which I was killing rats, guinea pigs, chickens,

and mice in the laboratory Animal Houses of the Natural Resources Institute and at Hatfield Polytechnic in order to earn good money and make myself famous at the same time as a successful scientist. Perhaps I was now being punished by a real God for those killings that I had done as wrongdoings to gratify my ego I questioned. So I was very ashamed of myself and could never ever hold my head held high again. I needed to start afresh to find out whether there was another more meaningful purpose to life that this demonic God was warning me about and so it should be served from surrendering to His wishes instead of going on with one's material pursuits in life. But how does one have a conversation with an invisible God. So I had to set up assumptions upon which I based a satya-advaitic yoga process that 'Truth is God and God is Truth', and if He had truly interfered in my life He would continue to do so again and guide me into my next actions if I sought truth and truth-accommodated on all my beliefs and aims in life. So I had to use an experimental technique in a desperate bid to communicate with this God to help me find out whether I was to engage in dharmayudha as my mind was telling me to do in order to survive 'persecution' in the United Kingdom and begin the process of climbing the ladder again towards material prosperity in a 'Krishna and Arjuna' relationship of a real-life Mahabharata.

After the 2004 incarceration by when I had spent nearly £20,000 of our savings without any additional income coming in and to taunting advice from my wife that unless we replenish our finances again we would head towards total destitution, I worked in menial jobs like in a warehouse and as a cleaner whilst starting work on my book 'The Allurement of Reality' to take revenge against the University of Greenwich by publishing my innocence that the Employment and Mental Health Tribunals, Medway County Court and other higher Appeal courts of Her Majesty's Court and Tribunal Service had rejected. Was it all State-organised persecution in some way, I wondered. I thought writing a book would be a good way of trying to restore my reputation from the apparent Defamation that I had suffered among humanity at large and simultaneously earn me good and steady income from royalties from the book sales. I was only earning £50 a week as Cleaner in Total Britannia Service Station which was not enough even with the Disability Living Allowance of around £20 pounds a week that I was getting as a mental patient. I needed a better paid job. I suffered great depression for not finding my way back into basic Science having written to Prime Minister Tony Blair and others. I got temporary jobs as Cover Supervisor at Robert Napier School and as an Election Worker for Medway Council but book publication under Self-Publishing was going to be very costly. It was only when I landed the Shell Petrol Station job in 2006 that my prospects for financial recovery suddenly improved and I came out of depression. In 2008 I had recovered enough such that I resumed my fight for my reputation by setting up the Union of Petrol Station Workers under Shell and the Tony Blair government. This was frowned upon by the State-authorities including trade unions and I lost my job at Shell which I took to the Tribunal and the Employment Tribunal again but again to no avail. I started legal proceedings at the Supreme Court of India against the Indian government for disabling my prospects to return to India on an Indian passport again questioning the constitutional arrangement between India and the United Kingdom in this process, for which I was incarcerated back into a mental hospital in 2008 for a second time. So I had to learn from that too.

I had lost all faith in my demonic God and had to motivate myself into being self-sufficient after all that and started learning about Science and Religion afresh to update myself in knowledge-development of the mind from engagements as a Poster in Internet Forums like Freethought and Rationalism Discussion Board. I accumulated 1000 posts and became a 'Contributor' at this Forum and was happy and thought it was a great hobby to learn about the truth of my visions or hallucinations that had landed me in so much deep trouble with the United Kingdom State authorities. But my questions could not be answered by my interactions in this Forum and the Moderators subjected me to disciplinary action for I was deemed to have trolled members such was my wish to delve into the truth of my experiences I was banned and published my materials in a Blog that I had already set up at Word press (<https://shantanup.wordpress.com>) into which I had started

to distil, summarise and condense all my knowledge for I did not wish to have peer-reviews of my thought processes which I found from my days as a scientist at the Natural Resources Institute wastes a lot of time so one cannot keep up with ones dissemination of research, and in doing so set a mission for myself 'Towards Knowledge for World Conservation' as the highest ideal that I could think of on the consideration that if God existed as a demon in my mind I should have such an ideal and test it out to determine if I had satisfied Him from my new found religious pursuit in holy gyanayoga. I studied everything and published these in this Blog. But the UK and USA State authorities did not like it for it exposed their frailties and started commenting derogatorily in its Comments Section of the Blog accordingly through their agents. I had joined Political parties like Liberal Democrats to diversify my knowledge and interests in the pursuit of productive and useful work and study political science. It was when phands of secular Café, and the moderators of Rational Skepticism and Talk Rational also 'persecuted' me for my posts I complained to the Police and started Court cases again by resuming my clock-checking with the demonic God as dharmaydha of sorts under the supervision of this demon inside of me.

So it went on. The State attacked me in a warfare with me threatening me with imprisonment and a return to more severe mental health incarceration at Rampton or Broodmoor for my warfare against the UK State and its international allies like India and the USA. It was a cat and mouse game since 2017 September especially between the State-authorities and me again as a relapse of mental illness in undertaking these psychotic activities. But I was determined to survive and continue to sort out my demons inside my mind, through the processes of satya-advaita yoga that I had been developing. The Wodrpress Blog was archived and disabled. Undeterred I set up Simplesite, Facebook, LinkedIn, and Twitter Accounts because the UK and USA State authorities would not publish my book 'The Allurement of Reality' now in 5 volumes. I fought to have these restored to publicise my suffering. This struggle over the recent past especially was all in a bid to survive in self-sufficiency for there was no God to communicate with and I did not above all wish to enter the mental hospital again. I wanted to have total freedom to my free-thoughts in liberty nothing else so I could learn about God and Nature, if He truly was a Preserver God or a real demon terrorising me and other human beings. And I have exhausted all my truth seeking satya-advaitic yoga this evening when Dr Odesanya telephoned me at 4.50 pm and I returned the call at 5.15 pm that acknowledged that I bow to his superior judgement but my wife then said 'ask him to put you back on risperidone because lurasidone is giving me terrible shakes and tremors'. I will phone him again tomorrow to say that Chris White did not reply to the email I sent him for our Meeting at 11.00 am on Wednesday 25 November 2020 at Sunlight Development Trust Centre in Richmond Road Gillingham and neither did Patient Access nor Shah Surgery respond to the same email. Aldi and Boots and Morrissons have continued persecuting me today with the assistance of Google and Yahoo email-systems providing companies about those three job applications and volunteering work at two hospitals that I have applied for and I will chase these up tomorrow morning. I hope this explains my Defence to any charges of gross misconduct whether religion-based or as a mental abnormality of mind, as I search for new horizons with my membership of the Liberal Democratic Party (Membership Number: 8763623) for which I have been invited to take part in a Webinar session the day after tomorrow (26 November) evening.

Incidentally, can I have 'Full Written Reasons' on my Appeal from the unanimous decision of the Justices on my 5 September 2020-dated Appeal to the Supreme Court of the United Kingdom to be taken to Dr Odensaya and Chris White please?

Yours sincerely

Dear Chris

I took the 5 November 2020 dated letter sent to me in the post by Medway Maritime Hospital who prescribed me a Flexitrade medication for my Urination problem that has got much worse in recent days to the Shah GP Surgery and discussed the letter with the Receptionist at 12.15 pm today. This is the reason that I could not come to Sunlight Development Trust Centre at 11.00 am to see you. I gave the letter to the Receptionist to pass on to Dr Smart because I had still not received a repeat prescription of this medication, and referred to the email that I sent the Surgery yesterday that was copied to various people including Patient Access that you sent me to. I told the lady that Dr Odesanya has still not contacted me to consider returning me to primary care without any anti-psychotic or anti-depressant medication of lurasidone and sertraline that he issued on me in the last three months pointing out that my Prostate Specific Antigen has continued to lower, but the urination problem has got worse. I cannot wait for 4 March 2021 for Dr Bhatt to telephone me again as I need to go to the Accident and Emergency Centre and Medway Maritime Hospital today as I am suffering painful urination episodes and am worried that I may have problems with attending the interview at Sainsburys plc on 30 November 2020 at 10.30 am and explain this health problem that might affect my ability to do the work required as Services Assistant - see

FrSainsburys(NewJobApplication)25Nov2020.docx. So the lady I spoke to asked Lisa in the Surgery to telephone Medway Maritime Hospital and explain to them that I must have clear guidance today on my Flexitrade medication and I do not wish to take the lurasidone and sertraline anymore in view of the increase in shaking and tremors that it has caused me, and in view of the fact that I am not being put back on risperidone which I took for donkeys years without suffering any severe side effects, except symptoms of hyperprolactinaemia, high cholesterol, prediabetic state, erectile dysfunction, fluctuating blood pressures, breast enlargement, and high Prostate Specific Antigen all of which I was prepared to put up with as at my age I do not use my lund any more into my wife's vagina and she is also quite happy with that. So all I use my lund for is urinating. So my urination problem must be sorted out medically immediately, and I must have an appointment to that effect at the Accident and Emergency Centre of Medway Maritime Hospital.

The receptionist said that the packet of Flexisitate that I had given her 5-6 days ago on the instructions by telephone of Dr Smart was given to Dr Smart who had said to me that she would write to Medway Maritime Hospital immediately and get my repeat prescription issued for this medication. She checked on the computer data base and said that there is no record of any emails having been sent by Dr Smart to Dr Bhatt at Medway Maritime hospital, but Lisa will send an email to Dr Bhatt when they have tried for a second time to contact Medway Maritime Hospital by telephone. She would then telephone me with the results of the discussions with Medway Maritime Hospital. It is now 16.23 hours and no telephone has come from the Surgery to tell me what is happening about my medical issues from Dr Odesanya, Dr Bhatt or Dr Smart, and no appointment has been made for me at the Accident and Emergency Centre of Medway Maritime Hospital or at the Surgery. I was told that if I need to speak to the doctor, I would have to go into the Surgery tomorrow morning and try and make such appointment.

It is prevarications and machinations like this that had led me to attempt registration with Patient Access, for fresh new insights on the Constitution of the National Health Service as a provider of Health services to the frail, infirm and vulnerable people like me.

Still, I would like to come and see you next Wednesday 2 December 2020 at 11.00 am by which time I would know the outcome of my interview with Sainsburys so we can hold meaningful discussions then. I will just have to manage somehow with the Tamsulosin tablets and lurasidone and sertraline medications that my wife insists I must continue to take until Dr Odesanya has made a final decision on my Obsessive Compulsive Disorder diagnosed Patient Access. Maybe together we can visit that Surgery to get clearance that I am now in safe medical hands. I will go to the Websites that you have kindly pointed to after I attend the Liberal Democrats Webinar through Zoom later this evening and see what advice I can get from my Political Party concerning the other issues you have mentioned as being disconcerting to your way of thinking about mental stability and Vaishnavism as the philosophical solution to such paranoid schizophrenia symptoms of persistent delusional disorder in its Hindutva-autism manifestation of Autism Spectrum Diagnostic Services of Maudsley Hospital.

Thank you very much for keeping in touch.

Yours sincerely

Hi Shantanu,

I was looking forward to meeting today and prepared a few questions and bits of information. I don't have a great deal of time today, but in the time when we were supposed to meet, I read more details from the web links and documents attached to your emails. As we have not met face to face, I am not best informed about your current state of wellbeing and I have a few concerns based on the communication between you and various organisations documented in the emails. During these challenging times I am particularly worried about the pressure you may be experiencing. So that could include, financial, looking for work, isolation, lack of response from or reduced access to services - including health related. I have several questions which I would only be able to methodically ask, should we meet up or chat via a video conference application. One thing I can do is let you know about 3 places where you can approach for help if you need it.

1 RBLI are funded to help people find work. It does not matter whether people are high functioning intellectuals or people with a severe disability, they are equipped to provide assistance for just about anyone. <https://rbli.co.uk/back-to-work-support/>

2 If you find things are getting on top of you and you need to talk to someone with the ability to get you back on track to better stability or a happier state of mind, there is a walk in centre open 6pm - 11pm on Woodlands road. You can literally drive down and walk in. <https://www.mhm.org.uk/kent-safe-havens> Kent and Medway Safe Havens | Mental Health Matters The Safe Havens offer out-of-hours mental health support to anyone aged 16+ in the Kent and Medway area. The Havens have now re-opened for face-to-face support and will continue to remain open during the November 2020 lockdown. [www.mhm.org.uk](http://www.mhm.org.uk) 3 You mentioned 'Autism Spectrum Diagnostic Services' and there are a great team of local people you could approach for advice. I have worked alongside them in the distant past. <https://www.kentautistictrust.org/> I obviously know more people you might like to be referred on to, but I am really worried that at this point in time you may need some feedback. One more concern of mine is the current lockdown has had an impact on the development of the services we provide at Sunlight. But that does not mean we are not planning, researching and keeping focus on future exciting steps. I am interested in your journey and would like to play a useful part in it, but at present the strongest thing I may be able to offer is referrals to other services. Thanks, C

Dear Chris

1. I was having problems on my Mobile phone email account last night, in trying to send you a message: The Extinction of Dharma.docx attached, and it is now back in operation thankfully.
2. I have still not heard from you if I have been officially registered by your Charity in relation to my ongoing mental health problems being assessed by Dr Odesanya still it would appear for I have not received a telephone call from Britton House to let me know if this supervision over me has changed as you seemed to suggest. I am of course available to cooperate with anyone that Britton House now employs in considering whether I am still not to be discharged into primary care following my reformation of ideas on my religion and its changing manifestations into my thoughts for actions.
3. I am therefore copying this email to Julie Palmer to let me know urgently what has been decided on my mental welfare and accompanying employment prospects whether in the formal economy or in the social volunteering sector or as self-development and counselling receipt services. I am still with Shah Surgery as Patient Access has not replied to my query for a change of GP Services having completed a self-diagnosis questionnaire in its website for assessment of Obsessive Compulsive Disorder and receiving a response that this was indicated perhaps related to my diagnosis last January for possible autism. I will go to the Shah Surgery when Patient Access has replied to me on this email.
4. I would be grateful if you would reply and let me know the position and judgment reached on this. Claim E35YM660 of the Central London County Court remains adjourned as far as I known now, but I hope to receive clarification from Her Honour Judge Backhouse in due course: Central London County Court of Judgment 12 May 2020.docx; ToSupremeCourt5Sep2020.docx; CLAIMANT'S SUBMISSION19Nov2020.docx.

## RE-VISIONS

**Got your email - Thanks**

to Chris

Dear Chris

Thank you for your patience as demonstrated by your kind and meaningful email overnight. I look forward to receiving further information as soon as possible please especially since you have not confirmed that I am registered with Sunlight Development Trust Centre, seemingly. And I do not like being uncertain on this issue. I will go to the Shah Surgery this morning and find out when my Flexitrade Urination-control repeat prescription will be issued to me, and will continue checking on Boots, Morrissons, Aldi and Sainsburys websites for updates on my present job applications being considered by these employers and look out for new such opportunities. I am determined that I start some kind of daytime occupation paid preferably or volunteering as part of my perceived rehabilitation from what is commonly agreed as mental illness within the Constitution of the United Kingdom. I try and persuade people that it is not a mental illness but a yoga of truth-seeking through truth accommodation to understand the fundamentals of Nature and which I believe at this moment in time as being represented by Brahma-Nature that is a variation in the Hindu conception of Brahman and which takes factual bases of assessment from the described impermanence of Reality enunciated by the Buddha in Buddhism. As I keep saying to people, I am not attached to anything that I have said or written in the past and everything is constantly under review in my mind, as I move along towards the inevitable day that I will no longer be living on this Earth whether in the liberty and material security of my home that I describe as Shanti Niwas (Peace-Ashram), remain under anti-psychotic and anti-depressant medications for my seeming transgressions from the laws, rules and regulations of the State, get sent again to a mental hospital for relapses if they occur of what I had practiced in the past as dharmayudha to restore my reputation in the World and which incidentally I could not care about anymore as I am a true Vaishnavist lover of Nature, or convince the society that it should also adopt my religion, and if not why not in Full Written Reasons of the Supreme Court of the United Kingdom with regards to my 5 September 2020-dated Appeal on the adjournment continued by Central London County Court on Claim E35YM660 with the result that my cherished Blog: <https://shantanup.wordpress.com> remains disabled out of view of the public when that I wrote it as a service to humanity and which I insist must be seen accordingly.

I do not fight for justice anymore, for it is for the Powers that I live under, but will campaign through my Liberal Democrat Party Membership under Sir Edward Davey to change the future direction of the society of the United Kingdom (Membership of Party Number 8763623), and so if you can give me any fresh new information for my participation this evening in the Support for Carers Webinar beginning at 7.00 pm, it would be most useful.

Yours sincerely

It takes a considerable amount of persistent dedication to satya-advaita yoga to realise the holiness of Hinduism, not for the simpleton to sign up to. It is only from our individual yoga-based Freethought in relentless search for the truth that one perfects ones understanding of Reality in all its dimensions. Hinduism then only becomes the perfect way of living which I describe as the philosophy of Vaishnavism. Until that goal is reached in utter devotion to truth one has shortcomings in ones values, principles and dharma even as so-called Hindus, let alone the adherents of Abrahamic established religions or diverse religions and sampradayas classed as belonging to the Hindu tradition, like Buddhism, Jainism, Sikhism, Carvakism, etc. There simply is no comparison to be made. The only proof comes when one debates the issues and determines which truly exposes the basis of Satyamev Jayate and Dharmo Rakshati Rakshita. Vaishnavism does, but few if any know the fullest extent of what comprises Vaishnavism. It needs updating based on proof as the all-encompassing and truth-accommodating philosophy. That is my view to share with you. Thanks.

Shantanu Panigrahi Beautifully campaigned for by our leader Sir Ed Davey. We must actively but peacefully campaign which is philosophically different from protesting that I refrain from. I love being a Liberal Democrat Party member under such considerate leadership.

THE CONSERVATIVE LIBERTARIAN SOCIETY

Naturally Curious

Welcome to The Conservative Libertarian Society, a unique blog here for you to explore. The Conservative Libertarian Society has added such value to my life, and I love having the opportunity to share my passions and thoughts with my loyal readers. Read on, and enjoy.

QUOTE: "Believe you can and you're halfway there" Theodore Roosevelt

HOW IT GOT STARTED

For years, I have served as a helpful role to those seeking inspiration, help, or advice. In 2000, I finally decided to own that role and be intentional about it. I started writing about my passions, my thoughts, and curious wonderings about our society. I founded The Conservative Libertarian Society with a mission to give others a taste of what goes on in my mind, and it has been a wild success ever since.

Blog:

Welcome to The Conservative Libertarian Society

My name is Dr Shantanu Panigrahi. I am 64 years of age. I have during my adult life, especially of the past 22 years, studied and explored the Constituents of Nature, and specifically in the Humanity that we humans share this Planet Earth with other living creatures, great and small, plants, viruses, bacteria, protozoa, sponges, insects, worms, arachnids, amphibians, birds, reptiles, mammals and all other too enormous a list to spell out here. I am interested in developing a way of governing Nature through appropriate methods of actions and institutions that would serve our peoples across the world well in consideration of the need to ensure that the future generations of mankind and all biodiversity live in harmony with each other whilst expressing their desires and protecting themselves from untoward stresses of the mind and body. This is why I formed the Conservative Libertarian Society of the United Kingdom a month ago and voiced my views to my current Party, the Liberal Democrats of the United Kingdom. I am a Conservative Libertarian with social democratic credentials that are based on a study of the Environment and my beliefs that Nature has a self-contained mechanism to preserve the processes of the evolution of the Earth; that all that has happened in the history of the Planet since 5 billion years of formation of the Solar System and the 3.5 billion years since abiogenesis that has generated the Paleontological Tree of Life needs to be taken into account in the government of the State of Planet Earth, and this must start with the institution of the philosophy of Sustainable Development. I hope you all will join me in this new mission that I am setting up so that we may discuss openly and transparently to the world and prevent misunderstandings and misapprehensions.

Thank you

The Philosophy of the Conservative Libertarian Party is security for liberty and liberty for security. This is the essence of living. We need to be very careful indeed in making our decision on actions that we should take every moment of life by a thorough understanding of the laws of Nature, and taking opportunities to better ourselves materially and spiritually through the passage of time in a

risk-averse attitude that conserves and builds the material and spiritual 'house' that we live in. This is the meaning of Environmental Sustainability. One step at a time and see which way the wind blows before jumping on to the next step to try and enhance one's prospects for self-preservation and the appropriate development of the family and the wider society that we are governed by to regulate and control our human activities. Being libertarian per se is not the objective of the personal or communal struggle. One cannot isolate oneself from wider humanity, for we cannot each individually do all of the things that we need to feed, clothe, house, study and develop our knowledge which is the fundamental basis of actions individually and collectively. We need like-minded people according to the saying birds of a feather flock together to create a Party of political activists who would argue their case and take part in democracy to influence changes to the society in a peaceful and totally non-violent manner. by persuasion of ones principles and belief-led mission to better ourselves in our mental development and better our chances of survival in a tough Nature that restricts our abilities to act selfishly and in greed for gathering in the natural resources for our own consumption from the Planet that we inhabit. This is the ethos of Conservative Libertarianism, and it is a secular conception, notwithstanding that on the balance of probability God is the Creator of the universe and Nature has a built-in Gaia mechanism of checks and balances that carves the path to the emergence of new races and species of life forms on Earth. It is therefore imperative that we focus only on taking the right decisions ourselves without resort to a higher authority, be that human or spiritual in being a Conservative Libertarian.

Dear Neuvo

Thank you for continuing in your agency of the Supreme Court of the United Kingdom in respect of my 5 September 2020 dated Appeal as attached: ToSupremeCourt5Sep2020.docx. I fully accept the decision of the Justices and will go to my job interview with Sainsburys plc on 30 November 2020 at the scheduled 12.00 appointment time as attached

(FrSainsburys(RescheduledInterviewAppointmentforShantanuPanigrahi27Nov2020.docx) in light of the disgraceful and uncivilised manner with which Tesco has dealt with my application for a job in Tesco Gillingham: see FrTescoJobs(RightToWorkCheckinProgress)27Nov2020.docx; and I await the response of Aldi Supermarket to the attached ultimatum that I served upon the German company: FrAldi(StoreAssistant)GillinghamBusinessPark).

I enquired today with the Department of Works and Pensions on why my Disability Living Allowance and Personal Independence Payments have been withheld since February 2016, and despite four interviews with the Disability Living and Carers Allowance and Personal Independence Payment institutions, all I got was text message on my Mobile Phone: 'Thanks for claiming Personal Independence Payment. We will shortly send you a 'How your disability affects you' Form. You will need to fill it in very carefully and return it to us so we can see if we can award you PIP'.

In the meantime, I remain confident of securing a volunteering position at the Rochester Wisdom Hospice as referred to in the email from the National Health Service, as attached:

FrWisdomHospice27Nov2020.docx. If the Supreme Court Judges have decided unanimously that my Blog <https://shantanup.wordpress.com> will never be allowed to enter into the public domain and that I will never be allowed to publish my associated book 'The Allurement of Reality' in 5 Volumes, I fully accept that decision as a law abiding citizen of the United Kingdom under my valid National Insurance Number YZ330724D, my fully-naturalised British Nationality and the Passport of the United Kingdom, as attached: 2020-11-27\_090339 ShantanuPassport.pdf.

This only leaves the small matter of the 'Full Written Reasons' that I need from you so that I can publish my remaining-communications with the State authorities in my SimpleSite website <https://shanpanigrahi.co.uk>. Please let me know if this will be made available to me for my appointment with Sainsburys' interviewer at my job-seeking prospecting and all the other employment opportunities that I have kindly sent me in this Final Judgment of the Supreme Court of the United Kingdom on the full and final disposal of Claim E35YM660 at the Court of Central London. I thank you for clarifying these issues to me. May God bless Her Majesty the Queen and all who sail in Her realm of the United Kingdom and dependent territories and associations across the World.

Yours sincerely

Children & Young People Adult Support Volunteering Community Services Business Training & Consultancy About Imago Imago Head Office Imago John Spare House 17-19 Monson Road Tunbridge Wells Kent TN1 1LS 01892 530330

Dear Sir/Madam I need help urgently in my bid to rehabilitate into the workplace and guide me how I can improve my prospects. I have just been told by my wife Mrs Rashmi Panigrahi (my Carer for the past 22 years of a 35 year marriage) that Dr Odesanya has not left Britton House and she questioned where I had got that false notion from. I am also wondering about that. However, please let me know what services you can assist me with. I do have a £1000 per month occupational-pension from Teachers Pension so can easily spend money on a new car for myself to come to Tunbridge Wells, as the other car in the family is owned by my wife and she wants it to remain in good condition, not sure whether I will have an accident if I drove it to go to places like Medway Maritime Hospital Accidents and Emergencies regarding my severe Urology problem on which the Tamsoulostin and Fenexitrade are not having much effect, and to travel to Patients Access in men in sheds (Sunlight Development Trust Centre, Richmond Road, Gillingham, Kent). Unfortunately, I have not been able to obtain anything useful in assessing the religious connotations of my mental health from Lambeth Palace: see attached: FrLambethPalaceArchbishopofCanterburyNoAppointment)27Nov2020.docx. I look forward to your reply before 30 November 2020, 12.00 noon when I have an interview for a Services Assistant job at Sainsburys plc Tonbridge Angel Road, when your advice will be very useful to us.

Yours sincerely

Hi Shantanu,

Following our communication, I have checked with colleagues as promised and whilst we are still operating, we are limiting numbers as we continue to adhere to government guidelines. Once these restrictions have been lifted, we may be in a position to re-evaluate the suitability for our service to your needs. May I suggest that you try IMAGO who have the expertise and staff available to help you deal with legal, financial, and employment paperwork, and can support your efforts to access other relevant services. They have been very good with some of the people I have referred in the past.

May I wish you every success in your endeavours during this challenging time.

Dear Reed

Following the attached email Frineed27Nov2020.docx that I received upon the days deliberations yesterday in relation to the attached final submission to the Central London County Court (see CLAIMANT'S SUBMISSION27November 27November2020.docx, my wife and supposed Carer told me that she had telephoned Britton House late yesterday afternoon and spoken with Dr Odesanya. The results of that conversation she said was that Dr Odesanya said to her that I do not speak to him when he telephones me on my Mobile Phone to find out about my welfare as things are progressing. He said that He thought I was already working for Royal Mail, on which my wife told him that I did not go to my 18 November 2020 2.00 pm Induction at Medway Mail Centre, Knights Road, Strood, Near Rochester, because I feared that my British Passport would be taken away from me if I went. This is absolutely true and I told my wife also that I feared that my Teacher's Pension of £1000 per month would also be withdrawn by the State, and perhaps this is the reason that my National Insurance Number YZ330724D is seemingly not being accepted yet by the Department and Works Pension in my continuing requests to Disability Living Allowance institution of the Disability and Carers Service on which the last letter I received was on prior to Christmas 2015 for the Christmas Bonus Payment, and following yesterday's application to the Personal Independence Payment Institution of the Department of Works Pensions who were supposed to send me an email with a Form that Lucy sent me a text that I would receive and needed to fill it in carefully and return it. This email has not come yet raising my suspicions that I am being examined for sedition against the United Kingdom State, especially in light of the fact that my wife told me that Dr Odesanya was in the process of sending me a letter in the post for an appointment with him to change my medications immediately, something I had discussed with the GP Surgery in considerable detail in relation to my worsening Urology Problem. I had told Dr Smart at the Surgery that I cannot wait for the 4 of March dated appointment to speak to Dr Bhatt in accordance with his 5 November 2020 letter to me after he placed me on Flexitrate urination medication to be taken together with the Tamsulosin prescribed earlier to me by her. I got a short-term repeat prescription yesterday for Flexitrate and while this has helped, I still need to go to the Accident's and Emergency Centre of Medway Maritime Hospital this afternoon to get myself checked out and determine if I need an surgical operation on my Prostrate which responsible for the Urination medication, that is so severe and frustrating for me that I cannot step out of the House, so have put on hold my appointment on 30 November 2020 12.00 pm to see if I am physically and mentally fit for work in employment or volunteering activities that Dr Odesanya requires of me. I cannot take the risk of going uninvited to Medway Maritime Hospital this afternoon in case they confirm that my National Insurance Number and British Nationality and Passport have been irrevocably withdrawn from me to make me stateless, so I would have to pay for the emergency medical care that I need, awaiting Dr Odesanya's letter of appointment. So the question of applying for any more jobs does not arise at the moment. Thank you for your continuing patience and concerns for my welfare.

Yours sincerely

Dr Shantanu Panigrahi

To Scott Berry:

Thank you Scott, I really appreciate the advice you have given me, I need to accommodate myself to what the Liberal Democrats currently stand for as a coherently-held together Party through the normal democratic processes of the Party's Constitution not try and mould it to what might me my philosophical concerns on development of the United Kingdom. I fully appreciate that we must do what we can to adhere to the Constitution of the Party and the wider country to appreciate the Constitution of the State not be a protester to our own concerns which I can of course do in my spare time independently in my hobby website The Conservative Libertarian Society. So I must not set up a wing of the Party to house such a divergent interest group as I represent currently, especially since I do not really know if I am on the right tracks myself with my concerns on humanity, the environment, and natural resource usage and deployment. So I am now withdrawing the motion that I had submitted as perhaps delusional in concept, notwithstanding the following encouragement that I have just received from Geoffrey G J Payne From Liberal Democrats:

Dear Sir/Madam

I draw your attention to the proceedings of the Employment Tribunal in my Claim at the London South Tribunal 232011905700 as attached: FrEmploymentTribunal4Jul2020.docx, in light of the fact

that Sainsburys plc has offered me a job interview as Services Assistant on 30 November 2020 at 10.30 noon, which I am inclined to attend, if you are amenable to the Conditions that you stipulated to me for a £500 compensation payment to me before this interview can take place productively. FrSainsburys(RescheduledInterviewAppointmentforShantanuPanigrahi27Nov2020.docx.

If the offer is still open for this out-of-Tribunal settlement of the dispute, I should be grateful if you would let me know as soon as practicable in view of the fact that the 10 May 2021, 2.00pm Hearing of the Claim in a Preliminary Stage of settlement has not changed. Accordingly, I should be grateful for your kind attention to this matter, and for the sending to me the appropriate forms that I need to complete so that I can inform the Tribunal of the decisions that has been agreed between the Claimant and the Respondent.

Yours sincerely

Her Honour,

my Ladyship

Judge Backhouse

Dear Madam

I am reviewing my priorities this morning in the proceedings of the Court in the adjournment matter of the Order dated 12 May 2020 as attached: Central London County Court Judgment or Order 12 May 2020.doc and the attached Claimant Application for a judicial review of the proceedings: CLAIMANT'S SUBMISSION27November2020.docx.

While I accept that having a Hearing to consider the matter is virtually impossible, as far as the technical details are concerned and especially in light of the severe restrictions on people's movements under Coronavirus lockdown, and I have said that I am no longer looking for any damages and compensation financially whether these are merited or not legally and judicially in Her Honours deliberations and final decision, I do need to persevere with my cherished feelings on the progress of the United Kingdom State within and in its relationships with the rest of humanity that are contained within Nation States under the guardianship of the United Nations. For progress to be made it is vital for me to have a decision on just one specific issue that remains my priority in relation to my compulsion to better the lives of people within the United Kingdom and beyond, something I have reviewed in re-joining the Liberal Democrat Party of the United Kingdom within which I feel I should be allowed to submit motions to the Spring Conference of 2021 that I have registered on to consider changing the name of the Party to The Conservative Libertarian Party with the full restoration of my Wordpress Blog <https://shantanup.wordpress.com> that is needed by me at this Conference.

I would accordingly be grateful if you would obtain the reaction of Wordpress.com only in relation to this continuing plea for Judgment on the disposal of the said Blog, and let me know if I need to pay the Court any Court Fees for this application dated today. If I need to submit an N244 Application Notice to effect this application, please advise me as soon as possible.

Yours sincerely

to me

Thank you for contacting the County Court at Central London enquires box. Due to coronavirus (COVID-19), we might take longer to answer your e-mail. Please see the below link on update information for the Courts and Tribunals planning and preparation in relation to Coronavirus (COVID19) <https://www.gov.uk/guidance/coronavirus-covid-19-courts-and-tribunals-planning-and-preparation> In light of the pandemic we are only prioritising urgent applications where there is a threat to public order; a hearing may result in a custodial sentence or an individual may be made homeless. Any request for an adjournment or request to change the hearing will also be dealt with urgently. Please do not send multiple requests, as we are currently unable to deal with them. In response to Covid-19 Court hearings are, where practicable, to be conducted by remotely unless directed by a judge to be face-to-face and you will be notified in due course. Please be aware, the counter is open for face to face appointments, which should be booked by contacting the court by telephone on 0207 947 7502. Up to date possession guidance is available using the links below: Understanding the possession action process: A guide for private landlords in England and Wales - GOV.UK Understanding the possession action process: A guide for social landlords in England and Wales - GOV.UK Please ensure that your e-mail complies with the attached guidance. Any e-mail which fails to comply with the guidance will not be processed and will be returned to you If you are attaching a copy of an order from a hearing for the Court to process, please ensure that you are submitting it in Word format only. All County Court Part 7 Money Claims are now processed and issued at the County Court Money Claim Centre (CCMCC) and money claims should be sent to their address at PO Box 527, Salford, M5 0BY or DX 702634 Salford 5. When you asked me for a Feedback on my decision this afternoon to unsubscribe from The Dharma Despatch, I wrote something like: The Dharma Despatch does not have a clue on what is dharna and what is Sanatan Dharma and for that matter Hindu Dharma Forums is also ignorant as it has suppressed my posts in the Forum during the past year of membership of the Forum. I further said that if you had any questions to me I was available to assert them and on your assessment of my complaint for appropriate rectification and redress, I would reconsider my decision to unsubscribe from The Dharma Despatch.

I just tried from on my Mobile Phone to find out what your decision is in this regard with reference to the attached: The Ultimate Truth.docx, but could not connect with you except to get a email at 1854 hours (UK-Time) sending me The Daily Dharma Dispatch: Update Profile. I consider this to be harassment, intimidation, bullying, perverting justice and perverting the course of justice in the proceedings of my Claim against the Prime Minister of the United Kingdom, Mr Boris Johnson for the perpetration of 22 years of State organised persecution on me for having conducted my satya-advaita yoga to determine the Nature of Reality, in which I live like a Vaishnavist now still after trying to convert to Anglican Protestant Christianity enforced by the proselytizing State to become a so-called naturalised citizen as a slave-subject of the United Kingdom with a valid National Insurance Number of YZ330724D and a valid British Passport to travel outside the United Kingdom with as attached: 2020-11-27\_090339 ShantanuPassport.pdf; The Diocese of Rochester has not responded to the attached referral The Diocese of Rochester.doc.

I should be most grateful if you would investigate Hindu Dharma Forums as a mouth piece of the Narendra Modi government that denied me my birth right to Hindu citizenship by suppressing my Public Interest Litigation against his government of 2008 for the Indian Government to reissue me with my old Indian Passport or issue me with a Person of Indian Origin Card immediately before the Mental Health authorities visit me tonight for its third time to incarcerate me in a mental hospital as a political prisoner seeking refuge wherever I can find it so as not to lose my liberty as in 2004 and 2008 to preclude the British State's attempts to make me stateless (I may already be Stateless as 200 jobs that I have applied for in the United Kingdom during the past year have been thwarted and I was victimised by a State Attorney to disrupt my work for Sainsburys (as shown in the attached: FrKimberleyBrooks(LawAttorneyagainstSainsburys20May2020.docx); as initiated by Dr Shivaji Panesar of New Delhi that I blogged in <https://shantanup.wordpress.com> which the State of the United Kingdom, and its international allies disabled by suspension and archiving on spurious legal grounds. This it did my continuing to freeze the proceedings of my Claim E35YM660 at the Central London County Court pretending to adjourn it as attached: Central London County Court Judgement of Order12May2020.docx, and so suppressing a fair Hearing of all 1500 respondents national and international by requiring the submission of defence from each and every one of the 1500 criminals.

I am copying this email to the High Commissioner of India, India House, Aldwych, London WC2A4NA, Tel: 00-44(0) 208629 After Office Hours: (0) 20 7632-3085; Email address: inf.london@mea.gov.in info.london@mea.gov.in] to let me know if there has been any change in my citizenship and nationality in view of the continued State-organised terrorism on me that the International Criminal Court and the Security Council of the United Nations have overlooked as slaves to Her Majesty the Queen of the United Kingdom to deny me my freedom of expression and right to political activism against this Satan-evil Police State.

Yours sincerely

## APPLICATION NOTICE

**Fresh New Application Notice**

CLAIMANT'S SUBMISSION TO HER HONOUR JUDGE BACKHOUSE ON E35YM660 AT THE CENTRAL LONDON COUNTY COURT

To

Her Honour Judge Backhouse

My Ladyship

Background:

Appeal Arguments relating to the two Orders dated 14 January 2020 and 30 September 2020 were specifically submitted to the Defendant in my Updated Particulars of Claim on 24 March 19.31 hours by agreed email and updated since. This was made clear to the Court prior to 3 April 2020 Hearing presided over by Judge Backhouse on which the 12 May 2020 Order attached is based (Central London County Court or Order 12 May 2020.docx attached to this submission). Summary of petition 1. I wished to do something positive for national development of the United Kingdom so that it can contribute to World Conservation in order to improve global society and initiated the following petitions. Some were approved for hosting whereas others were inexplicably turned down and disabled by 38 Degrees and Liberty. I resorted to Action-network in view of this lack of cooperation. This is what my Appeal is all about. Please refer to the following links in administering your decision on whether I am justified in voicing these concerns or not. If I am not, you may turn down my reconsideration of permission to Appeal the 14 January 2019 dated Order of the Court on E35YM660 (Dr Shantanu Panigrahi vs Mrs Theresa May; nay the present Prime Minister of the United Kingdom, Mr Boris Johnson as the Defendant singly).

2. The petitions in question were: 38 Degrees websites: <https://you.38degrees.org.uk/my-campaigns> <https://you.38degrees.org.uk/petitions/making-wordpress-and-social-media-accountable-to-uk-parliament> <https://you.38degrees.org.uk/petitions/strengthening-the-international-criminal-justice-systems-to-deal-with-internet-crimes> <https://you.38degrees.org.uk/petitions/to-remove-the-criminal-charge-of-contempt-of-court-from-judicial-proceedings> <https://you.38degrees.org.uk/petitions/regeneration-of-the-national-health-service> <https://you.38degrees.org.uk/petitions/making-the-law-enforcement-system-accessible-to-ordinary-citizens> <https://you.38degrees.org.uk/petitions/reform-of-the-citizens-advice-bureau-to-provide-comprehensive-legal-and-medical-services> <https://you.38degrees.org.uk/petitions/reform-of-the-democratic-process-for-people-representation> <https://you.38degrees.org.uk/petitions/phasing-out-of-nuclear-energy-nuclear-weapons-globally-and-export-and-trade-in-arms> <https://you.38degrees.org.uk/petitions/preserving-and-nurturing-nature-s-biodiversity-globally> <https://actionnetwork.org/petitions/a-complete-overhaul-of-economic-development-globally-to-incorporate-environmental-sustainability/> <https://you.38degrees.org.uk/petitions/regulation-of-job-centres-and-internet-based-recruiting-agencies-and-human-resources-of-employers> <https://you.38degrees.org.uk/petitions/repeal-of-the-1998-human-rights-act-under-brexit> <https://you.38degrees.org.uk/petitions/dethronement-of-the-monarch-is-not-treason-to-be-treated-as-mental-disorder-or-criminal-offence> <https://you.38degrees.org.uk/petitions/coronavirus-pandemic-tackled-through-circuit-breaker-lockdown-of-great-britain> <https://you.38degrees.org.uk/petitions/reformation-of-the-united-kingdom-s-political-legal-and-social-structures> <https://you.38degrees.org.uk/petitions/religious-and-secular-blasphemy-laws-are-inhuman> <https://you.38degrees.org.uk/petitions/forumulation-of-a-new-updated-strategy-to-deal-with-coronavirus-pandemic> <https://you.38degrees.org.uk/petitions/formation-of-the-conservative-libertarian-party-of-the-united-kingdom> 2. Further evidence for my petitions may be examined at the following websites which have stood the test of time in that they were beyond criticisms from the general public because they are factual representations of the investigations that I have conducted in arriving at the petitions:

Personal websites:

- (a) <https://www.shanpanigrahi.co.uk/>
- (b) <https://shantanup.wordpress.com>
- (c) <https://facebook.com/shantanu.panigrahi.10>
- (d) <https://linkedin.com/in/shantanu-panigrahi-a120b267/>
- (e) <https://twitter.com/ShanPanigrahi>
- (f) <https://twitter.com/ShantanuPanigr8>
- (g) <https://the-conservative-libertarian-party1.odoo.com/>
- (h) <https://www.theconservativelibertariansociety.com/>

3. The evidence in these websites support the Particulars of Claim in the Claim Form and the Appellants Notice of a concerted national and international conspiracy against me to obstruct justice and pervert the course of justice by the States concerned. The government is therefore obliged to take these petitions seriously or give its reasons for not considering them through the normal processes of Parliamentary scrutiny. The functioning of the Parliament and the Monarchy must be subject to the due process of scrutiny through the Courts to outline individual responsibilities to society and hence this Claim that I am pursuing. Otherwise there is no hope for the nation that I love.

4. Madam, a Judge of Her Majesty's Establishment is the law of the nation. Please therefore advise me if I am right or wrong in bringing this to your attention.

5. As you must be aware, I have only asked for a nominal £3000 in damages and compensation for what I have suffered over 22 years that led me to my published petitions because I am only progressing this Appeal proceedings in sincere belief that it is in the public interest nationally and globally.

6. Please therefore advise me if a Judgement or Order can be considered now appropriately to bring a closure to this long-standing (22 year-old) saga.

Yours faithfully

Dr Shantanu Panigrahi (Claimant)

## MONKEY SURVEY

**Reeds and Associated Monkey Survey to find out where Judge Backhouse is**

To Reed.co.uk

We're always looking at ways we can improve the experience for jobseekers like you, so we'd love your feedback.

1. How likely is it that you would recommend this company to a friend or colleague? Not Very Likely

4

2. Why have you given us this score? Your jobalerts have not been very productive for me, perhaps you should include more professional jobs that I am academically and expertise and experience-wise qualified to handle, for example in Environmental Science commensurate with my academic record, and understanding of how Reality is that requires modifications to meet the real needs of applicants seeking employment.

3. What could have improved your experience? I think you should be more proactive in promoting candidates through a sifting process yourself before asking the candidates to press the submit button oneself into the unknown hands of HR Departments.

## VAISHNAVISM

## Truth-accommodation is a Vaishnavic tradition of Hinduism: The Nature of Good and Evil: REVIEW OF SATYA-ADVAITA VEDANTA

Good and Evil: I do not consider that this form of duality exists like the Ying-Yang theory. There is a middle path that balances the good and evil. Purely-good as sattvic guna or purely-evil as tamasic guna is balanced by the routine-dharma of rajasic guna. It is therefore not appropriate to consider making oneself purely good. That is collecting pious points for self-glorification. The rajasic path is the path to total knowledge and the shattering of one's ignorance. This is what the Bhagavad Gita alludes to. In the rajasic guna path one understands Brahma-Nature fully through the adoption of Satya-advaita Vedanta. Dharmayudha is the basis of self-preservation through balancing one's actions in harmony with good and evil attributes of Nature. It is wrong to crush evil to extinction. One must only protect oneself with evasive measures. Then the evil goes away. We are all in peace then, the sattvic, the rajasic and the tamasic. If one believes in God as the Creator and Preserver of the universe we must strive to protect Mother Nature in all its three components as such by perfecting the art of self-defence as the dharmayudha. This is the lesson of the Mahabharata. The Pandavas did not win outright against the Kauravas. In the end of the battle of Kurukshetre they went their separate ways. Material justice was not entirely served on the Pandavas. I too did not win my perceived £55,000 redundancy money from the University of Greenwich for Unfair Dismissal from employment or from other employer since. Truth is the perfection of the art of balancing oneself in Nature through ahimsa. The only struggle that succeeds towards self-preservation in the dignity of liberty in security and security in liberty which is when truth has prevailed as in Satyameva Jayate is the non-violent one. For that one must have total knowledge. Rajasic guna is governed by Lord Vishnu not Lord Brahma or Lord Shiva in the Hindu Trimurti. Krishna was an incarnation of Lord Vishnu, as an advisor to the Pandavas. It was Lord Vishnu who requested Sri Krishna to incarnate as Krishna directly as the Creator of the Universe. The good Superlord Sri Krishna is highly benevolent. He does not take sides because He is the creator of Brahma-Nature with its sattvic, rajasic and tamasic guna Lords in the Trimurti. My point is be a Vaishnavite and practice this Sanatan dharma on this most auspicious Deepavali day the festival of lights for Sri Krishna is here even now to emancipate humanity from the ignorance of this Kaliyuga. So see coronavirus in a positive way because only Brahma-Nature has to deal with it, not we as humans without the knowledge of this latest threat from tamasic component that is a new species of life. We must not grumble and complain about any or such misfortunes, just pray to Lord Vishnu to ask Sri Krishna to guide us individually with knowledge and wisdom to be able to deal with our problems subconsciously that is unpremeditatedly and spontaneously not with mind-deliberations of what might be happening to us. When this happens when one truly sees the reality and one's conscience is clear because one has not deliberately set out to harm another being, whether plants, viruses, bees ants, elephants, or any kind of human being. This state of mind for me today that I have arrived on is a yogadaan from Sri Krishna for having persevered with my satya-advaita yoga over the last 22 years and proven the ancient saying dharmo rakshati rakshita; a study and yoga that led to my conception of Satya-advaita Vedanta or in English Conservative Libertariansim.

So truth-accommodation is a Vaishnavic tradition of Hinduism that adopts the Sanatan dharma of harmonizing in Nature to see only beauty in everything.

Eventually all the lies, deceit, self-centredness, the corruption perpetrated and institutionalised, catches up with you under the sacredness of Brahma-Nature that we live under, for all the mechanisms are there in Creation, imparted by our Supreme life-giver, the creator of the universe, and is built-in for the restoration of Sanatan dharma. It is just a matter of time when normalcy is restored in the proceedings of humanity. That is how it has always been, such is my faith and my karmic practices based on satya-advaita yoga, the result of which peace of mind totally and utterly.

Lies and corruption founded on ignorance however, that leads man to adopt specific measures in directing ones plans and schemes unaware that the Almighty tolerates these during lull phases for His own intents and purposes and at the suitable time makes His presence felt to instil some common-sense into man to know the provisions and limitations of His Creation so that we learn to live within those imperatives so that we do not get too ambitious into pursuing unviable man-designed structures and arrangements for the maintenance of the Earth as a habitable planet. These historical developments in Earth are part of the pre-ordained and pre-orchestrated events with timely interventions from our spirituality to guide humanity forwards, as it has always done in the past in the processes of the civilisation of living beings through Evolution of the Species in the Paleontological Tree of life. For my earlier assumption that Sri Krishna is ambivalent as to what happens to humanity and Planet Earth as a consequence of the advent of inappropriate species that have been generated through the history of Earth was a premature deduction and may not be true, as far as I can tell now. God does listen and he does respond to bhakti-based devotion and he does awaken such persons from time to time to adopt a life that is good and benevolent for His own intents and purposes, for He, I assume, has the welfare of all life forms that He created through evolution from abiogenesis 4 billion years ago and patiently so for His own satisfaction that He has created something special here on Earth that I believe is unique in relation to the wider universe. We need to be very patient ourselves to realise this and study deeply all our scriptures and scientific, poetic, art, literature from across the globe to come to an understanding of what has been designed for us humans to reflect on and learn to appreciate. Truth accommodation for me is to conduct myself to that permanent ultimate reality that I perceive as well as to the nuances of Brahma-Nature in the ground reality of having to cope with the imminent and durable reality in the moment by moment passage of time individually and collectively by expressing our views as they have changed over time, in my case since first went into internet forums 12 years ago to find out what it has been going on in my earlier life from 1997-1998 doldrums that I had personally experienced to my material reputation and what is now going on to develop my perspective and objectives for my life which remain nonchalant and unpremeditated so as to see what is next for me in my fate and destiny as the Supreme Lord Sri Krishna only knows best so I remain at His disposal effectively.

Silence is not Golden: it is acquiescence to the terror of persecution

Dear Julie

I have not yet received a letter of appointment to see Dr Odesanya, Consultant Psychiatrist, Britton House, and wish to attend the following confirmed interview tomorrow, 30 November 2020 at 10.30 am, as I wish to come out of my isolation to seek employment in view of the fact that none of the volunteering references in his 5 November 2020 Update on the Care Plan of 28 August 2020 (Ref OO/grb) have amounted to much due to the abysmal non-cooperation of the Volunteer agencies and institutions locally. This was all being coordinated by Chris White who I understand will contact

me on Monday 30 November 2020, whether before 9.30 am (preferably) or after, I do not know. So I need to see what Sainsburys decide for me as a Key Worker under the Coronavirus Restrictions and get appropriate approval, before the interview.

I hope everything is fine, and you can clarify for me now whether I should try and seek Rochester Hospice's Marty Reeves is considering my application as attached:

FrMartyReeves(FriendsofWisdomHospice27November2020.docx.

I have still not received the Form promised to me by Personal Independence Payment (PIP) for the replacement of this method of assisting me to live to relative comfort with my financial commitments that you know about (I was told when I last visited the Shah GP Surgery on the morning of Wednesday 27 November 2020, that the Surgery will be able to support my Personal Independence Payment application when I received the Form from PIP); so it is vital that I see whether Sainsburys plc will have me back at Tonbridge Convenience Store or at the Angel Road Centre Branch following this interview.

Incidentally, I understand that I am still registered as a patient with Dr Smart, my GP at Shah Surgery situated at Long Catlis Road, Parkwood Gillingham and they are waiting to hear from Medway Maritime Hospital on whether my one-off prescription of Finasteride issued to me by the Hospital and the Surgery earlier this week and which together with Tamsulosin is having some beneficial effects on me on the Urological problem, will be extended into repeat prescriptions to be directly sent to Boots the Chemists from now on. I have a letter from the Hospital that Dr Bhatt will next contact me on the telephone on 3 March 2021 at 16.15 hours, so I look forward to that appointment and do not need to go to the Accident and Emergency Department of Medway Maritime Hospital right at this moment in time but things could change if I do not get my repeat prescription of Fenasteride on time - Dr Smart as you know was very lacksadaisical about this after she telephoned me with the results of my latest Prostate Specific Antigen Blood test that was done on 17 November 2020 which shows a continuing decline from 9.4 to 7.5 and now 5.2 from what I remember of the conversation from the top of my head so you would need to check this with the Surgery before speaking to Dr Odesanya and let me know what the current diagnosis and prognosis is, in view of the fact that I told PIP that I felt that I was terminally-ill and have mentioned this to my wife so have taken the steps to arrange my residence to the Wisdom Hospice where I would also be able to volunteer without problems under their health supervision as necessary.

Yours sincerely

## ADMIN'S REPORT

**Awaiting the Administrators Report**

To Scott Berry

Author Scott Berry

Thanks Scott,

Back to the drawing Board I guess. I have diverse interests and concerns most important of all is on the employment rights sector, in relation to how modern day recruitment agencies hire employees through the internet on line, that has meant that after 200 job applications that I have made over the past year and a half, the only one I managed to secure was a job at Sainsbury's as Trading Manager, where the Store Manager could not confirm my appointment after 12 weeks during which my probation continually got extended so that I had to resign the position. No agreement could be reached through Arbitration Conciliation and Advisory Service and the Employment Tribunal on my submission that the Store Manager had been ageist towards me something they should have taken into account during the application process and the interview that took place prior to giving me the job. I had set up a petition at 38 Degrees (see link:

<https://you.38degrees.org.uk/petitions/regulation-of-job-centres-and-internet-based-recruiting-agencies-and-human-resources-of-employers>) to try and get signatures so I could get Parliament to consider such concerns in an age when people are expected to work until an extended State pension age of 68-70 years of age. Do you think that this might be a good alternative Motion to my two previously submitted ones to the Liberal Democrat Federal Conference? Regulation of Job Centres and internet-based recruiting agencies and Human Resources of Employers YOU.38DEGREES.ORG.UK Regulation of Job Centres and internet-based recruiting agencies and Human Resources of Employers Regulation of Job Centres and internet-based recruiting agencies and Human Resources of Employers

Scott Berry: to Shantanu Panigrahi

Certainly employment laws and discrimination in hiring would be a relevant topic but you'd need to work out exactly the policy you're asking for to addressb this. Most motions have three sections; - Noting relevant facts (in this case e.g. there are already laws against discrimination, it can be difficult to prove when discrimination has occurred etc) - A statement of beliefs (discrimination is wrong, the Liberal Democrats exist to challenge discrimination in practice not just principle) - The intended action (what specific actions are you asking for, such as government policies or laws for the party to campaign for)

That is reassuring Laurence, that my three possibilities for Motions to the Spring Conference have not been rejected out of hand. I still have time to formulate the three Motions more coherently as you say (Sorry, I am a novice at this still even after sending Motions to the Labour Party when I was a Member of the Labour Party as my mind shifted towards Socialism, and my motions on Racism by the Law Enforcment authorities in the consideration of reported Hate Crimes and Internet Trolling Crimes would not see the light of day under Socialism. So I had to get out of that umbrella of Politics

as fast as my legs could carry me under Jeremy Corbyn (no less) and got back to square one in due course to start paying my subscriptions to the Liberal Democrats again. For as the Party knows from my communications true social concerns lies in liberalism, not in the Labour Party's Socialism of controls over the population in organised chaos that my Conservative Libertarian Society Groups in the Liberal Democratic Party champions. Of course I am very well aware that due to traditions, there is also a very strong Liberalism wing to the Party, as there is a Social Democratic Wing since the Gang of Four under Roy Jenkins, David Owen, Shirley Williams and one other Politician broke away from the Labour Party and the Liberal Party changed direction to the Liberal Democrats to accommodate that. I am all for accommodation of a range of views in the Liberal Democrat and short of the necessity to help out the State in agreeing to form coalitions with the Conservatives or the Socialists, would prefer to see that the Liberal Democrats remained independent even if it means staying out of political power, so that the Party can cater to the needs of its Members primarily, and the electorate who consequently vote for the Party in local elections and Westminster Elections. Perhaps I should think of formulating a Motion accordingly to move Conference to banning any Leader of the Liberal Democrats from forming coalition government with the Conservatives like Nick Clegg did to glorify himself so as to leave behind his personal legacy by abandoning the Party's manifesto commitment to abolishing Student Fees and Student Loans. I think that would be a much better approach for me to persuade Sir Ed Davey to commit to this principle of democracy, for as Liberal Democrats, we must never get into bed with our enemies who disagree with our philosophy for short term expediency to the Monarch in order that the processes of State-government is not put in jeopardy from Hung Parliaments that is the hall mark of a nation with as much cultural and religious diversity as baggage that history has left us with from the wishes of the State Establishment to spread the Empire once again in a bid under The Next Steps policy of Tony Blair that started the military association with George Bush to drive the globalisation agenda instead of minding the State's own business of just looking after its own citizens in a self-sufficient and self-contained nationhood.

There really is no such wing of the Conservative Libertarian Movement in the Liberal Democratic Party. It was my sincerely-held view that the Liberals have evolved as a Party to take account of the new realities under which humans constantly have to change their complexions and as such amend the Constitution of the Party to the new threats to our freedom and liberty from age old ignorance of the Meaning of life and how we need to adapt to the changing realities in the imminent, durable and long-term impermanence of Nature that we humans have to contend with. In the modern era of the 21st Century we need to shed our skins so that new skins develop in the regeneration of our minds to the situations that we now face with the knowledge that the internet age has enabled us to help us review our priorities. So if that is accepted by the Party hierarchy I will draft a new Motion to amend the Constitution of the Party so that we as a Party can hold our heads held high in having the determination to do the right thing to take us forward as a Party within the Nation of the United Kingdom. It is no secret that I am a Republican in this respect as I believe that all humans are created by God as equals with no one having the divinely-imparted wisdom to dictate to us God's wishes. Of course if Liberal Democrats are an atheistic-secular Party then the question of God as Creator of the universe is rejected. As such I would have no option but to resign from the Liberal Democrats forthwith, for it is against my Vishnavic principles to not befriend atheists who I see as enemies of God to the extent that I classify them as Satan-worshippers.

Most Lib Dem members are far from Libertarian. As a party we want to help people. Libertarian is typical of the Tories: every person for themselves

Shantanu Panigrahi badge icon Author Fayzan Rehman,

Do you first know how to help yourself before you set out a mission for yourself or the Party to help others? You are tied to your Holy Book of Koran so can only help fellow Muslims, not Christians, Hindus, Sikhs, Jews, etc. I am surprised that a Muslim has been allowed membership of a Liberal Democrat Party to proselytise his views on the equality of humans, let alone LGBT communities, and your ready acceptance of same sex marriage which runs contrary to Islam, so how could you stay in the Liberal Democrats after the same-sex marriage laws were enacted by the coalition government of David Cameron and Nick Clegg. You are full of contradictions, and should go to your Friday prayers in the mosque under your imam, not join in a debate on liberalism. You should pray five times a day to your Allah and utter Peace be upon Him Mohammad the Prophet, doing exercises on your mat facing your Masters in Mecca of Saudi Arabia or Iran, chanting Inshaallah, and if possible go and live with them, not stay in the United Kingdom, a liberal democracy.

1. Following the removal of my post to on Facebook yesterday by the Liberal Democrat Federal Conference without reason, as follows, I offer the Party my resignation from membership, as attached: The greatness of Great Britain.docs

***The greatness of Great Britain.docs***

The greatness of Great Britain

The land of Britain is truly the Land of Hope and Glory. It has been a great fortuitous turn of my personal history to have arrived on its shores on 28 December 1972, when my father was posted under Diplomatic Status of the government of India as Indian Liaison Officer at Kew Gardens. Today it holds the cultural heritage of its 500-year Empire safe and sound from disintegration as one of the most developed Nations of the Earth still, and long after the break-up of large parts of its international domain.

The culture of tolerance and understanding of the British Nation is impeccable, I review today. It has housed those seeking asylum to be able to contribute to the development of the Nation to ever-increasing greatness and the leader of the World with its technological and scientifically-based directives.

I bow my head in shame for not having seen this in the past 22 years when under self-infatuation I lost sight of the need to accommodate to this truth today from the dubious values of distinction under the Hindu upbringing that I was brought up with. I am not sure whether I am a Hindu, or Christian, or some other religious sect under the ethos of the Conservative Libertarian Society that I have established and seek to pursue further with the permission of Her Majesty the Queen of the United Kingdom.

It took time to understand the meaning of the term the divine right of kings and queens. I felt that the only Divinity is God Almighty Himself and that this is the Entity, the Superlord that a person should subscribe to instead of the Monarch of where I live as a society of the State of the United Kingdom.

We can only serve one Master, and that Master or Mistress must be the human master who we can see and correspond with incessantly. We cannot correspond with God, that is clear. He only makes His presence felt to individual devotees and will not jeopardise the functioning of the Nature that He has created, no matter what the level of subservience is to God Himself. So we need to continue to represent our views to the Monarch, for that is a clear guidance that we receive on how we should progress in our future activities on this Planet Earth. We cannot ask God to intervene, nor is He accessible to such individual pleas for Divine Help. The Divine Help He prescribes, is to be truth-accommodating, which means one deals with ones on-going material circumstances in accordance with the perceived visible realities on the ground.

The fact that Christian religious ethos under the Anglican Protestant Church has developed the nation of Great Britain over 2000 years of emancipation of thoughts and resulting actions based on trial and error of science and philosophy to understand the true Nature of Reality and I ended up in that State with a loving wife and daughter who the Nation housed and looked after is something that I am enormously grateful for today, and I write this before two appointments confirmed to me for this morning for job interviews with all my transgressions in mental instability in having tried hard to naturalise into Her Majesty's domain of the United Kingdom and overseas territories.

The Liberal Democratic Party is an unsuitable Party that does not subscribe to this patriotism towards the Monarch in holding the Conservative Libertarian Society that I try to campaign for and would continue to do so with the permission of Her Majesty the Queen going into the future.

For that reason, I am hereby resigning my membership of the Liberal Democrats once again since my off and on correspondence to see whether the association would be fruitful for me and the State of the United Kingdom.

I also do not wish to compromise the other political parties existential ethos having explored the attempts made in the past to progress the formation of Green Socialism Movement within the Labour Party, and seeing no prospect of Nigel Farage's Reform Party that could come to the fore as a possible Party to contain Conservative Libertarianism from its admirable attempts to bring Brexit into reality, I will continue to work towards the creation of The Conservative Libertarian Party with its associated society The Conservative Libertarian Society for the remainder of my life.

My sincere heart-felt apologies for taking this long to finalise my raison d'être of secularism clear and concise, whether or not this dharma is Sanatan Dharma, and a Vaishnavistic outlook on life.

Subject: Fwd: Interview Details Reminder - Services Assistant

To Julie Palmer Kent and Medway NHS Trust

Hermitage Road

Maidstone Kent

Dear Julie

I have not yet received a letter of appointment to see Dr Odesanya, Consultant Psychiatrist, Britton House, and wish to attend the following confirmed interview tomorrow, 30 November 2020 at 10.30 am, as I wish to come out of my isolation to seek employment in view of the fact that none of the volunteering references in his 5 November 2020 Update on the Care Plan of 28 August 2020 ref OO/grb have amounted to much due to the abysmal non-cooperation of the Volunteer agencies and institutions locally. This was all being coordinated by Chris White who I understand will contact me on Monday 30 November 2020, whether before 9.30 am (preferably) or after, I do not know. So I need to see what Sainsburys decided for me as a Key Worker under the Coronavirus Restrictions and get appropriate approval, before the interview. I hope everything is fine, and you can clarify for me now whether I should try and seek Rochester Hospice's Marty Reeves is considering my application as attached: FrMartyReeves(FriendsofWisdomHospice27November2020.docx. I have still not

received the Form promised to me by Personal Independence Payment (PIP) for the replacement of this method of assisting me to live to relative comfort with my financial commitments that you know about (I was told when I last visited the Shah GP Surgery on the morning of Wednesday 27 November 2020, that the Surgery will be able to support my Personal Independence Payment application when I received the Form from PIP. so it is vital that I see whether Sainsburys plc will have me back at Tonbridge Convenience Store or at the Angel Road Branch in Tonbridge itself following this interview.

Incidentally, I understand that I am still registered as a patient with Dr Smart, my GP at Shah Surgery situated at Long Catlis Road, Parkwood Gillingham and they are waiting to hear from Medway Maritime Hospital on whether my one-off prescription of Finasteride issued to me by the Hospital and the Surgery earlier this week and which together with Tamsulosin is having some beneficial effects on me on the Urological problem, will be extended into repeat prescriptions to be directly sent to Boots the Chemists from now on. I have a letter from the Hospital that Dr Bhatt will next contact me on the telephone on 3 March 2021 at 16.15 hours, so I look forward to that appointment and do not need to go to the Accident and Emergency Department of Medway Maritime Hospital right at this moment in time but things could change if I do not get my repeat prescription of Fenasteride on time - Dr Smart as you know was very lacksadaisical about this after she telephoned me with the results of my latest Prostate Specific Antigen Blood test that was done on 17 November 2020 which shows a continuing decline from 9.4 to 7.5 and now 5.2 from what I remember of the conversation from the top of my head so you would need to check this with the Surgery before speaking to Dr Odesanya and let me know what my current diagnosis and prognosis is, in view of the fact that I told PIP that I felt that I was terminally ill and have mentioned this to my wife so have taken the steps to arrange my residence to the Wisdom Hospice where I would also be able to volunteer without problems under their health supervision as necessary.

Yours sincerely

Hi, Shantanu Panigrahi

Attachments 12:30 (0 minutes ago) to dwp.health.pdu, julie.palmer1, Chris, Shah.practice, met-tr.imaging, Listings

Dear ME7 Work

I would apply for a few of these jobs, but will only be available for Work after 3 January 2021 due to a prior commitment to Sainsburys (Tonbridge) where I have an induction on 6 December 2020 to work for 4 weeks as Christmas Casual Services Assistant which is more suitable for me for I would only be working on the Till rather than doing shelf-replenishment and other chores that got my probation at Sainsburys' Tonbridge Road Branch Convenience Store extended from 4 weeks to 7 weeks and then to 12 weeks, but my Case Rate on those strenuous physical activities was not up to the required Standard as a mental patient of 22 years under the current supervision and medicinal treatment of Dr Odesanya, Consultant Psychiatrist at Britton House, Gillingham and my own GP Dr Mawanche at the Long Catlis Road Parkwood Surgery as outlined here:

<https://www.theconservativelibertariansociety.com/post/state-payments-of-financial-support-benefits-to-the-disabled>.

I am currently not fit for work at the Sainsburys plc Tonbridge as I have peripheral vision to add to those symptoms and cannot drive 50 minutes to Tonbridge and another 50 minutes back, my wife and Carer has told me. Unfortunately, the Personal Independence Division of the Department of Works and Pensions is not just lackadaisical in its assessment of my Claim for (PIP) through its own health professional judging from its silence this Tuesday morning (shame on them), the Court of Central London has also not answered my three questions as shown in the attached:

FrSurveyMonkey(Questions)2Dec2020.docx, so I am forced into working for Sainsburys in a diminished capacity to make ends meet for I have financial commitments.

Thank you for your concern.

Please contact me again with suitable Sales Assistant vacancies at Supermarkets like Boots, Morrisons, Aldi, Tesco and Sainsburys, all of whom have agreed to be kind and patient with me as I struggle in the workplace with my physical problems of Urination and 'gaand mein danda dalna' habit as an Obsessive Compulsive Disorder symptoms of Autism that you know about as a Vaishnavic trait where I am led to believe in my mental illness that this is the dharma that rakshati dharma.

Now I really must go to the Accidents and Emergency Department of Medway Maritime Hospital just as soon as I have done the work instructed to me by my wife and Carer to take me away from sleeping in my bedroom of Shanti Niwas despite her not agreeing to the change of property name from Irwin Lodge that I have always detested as an Empirical-shit House of Cards that topple over at the slightest wind power of my farting-arise.

Yours sincerely

### DWP-PIP Complaint Update

To Personal Independence Payment

Department of Works and Pensions

GOV.UK 19 December 2020, 7.36 am

I tried to update my application but could not access my account with my email password. So I asked to reset my password and the code 971024 was sent to my email address

Shanpanigrahi3000@gmail.com. When I entered this code, I could not log in to my account. I asked for the code to be resent to me. And no code was sent.

I wished to tell the health professional that Dr Odesanya has prescribed me a new medication Quetiapine currently 50 mg daily to be taken at night.

Further, when I went to my shift at Sainsburys plc yesterday, instead of letting me work on the Tills I was asked to attend a Meeting which I did. Some kind of arguments were presented to me at the Meeting by Mat Sage with Amanda taking down the minutes of the Meeting. I was told that in effect, I had applied for this Vacancy of Services Assistant under some kind of false pretences and their employment eligibility investigations had shown that I was not entitled to be employed by Sainsburys at the Tonbridge Angel Centre. I was told that I would be paid for the 12 hours of attendance so far and sent home, pending an Appeal being managed by Darren Turner at Sainsburys Headquarters. I appealed instantly during the Meeting because the minutes of the Meeting was not provided to me, nor would Mr Sage undertake to send it to me by Recorded Delivery to my home address. I was asked to clock out at 14.15 hours but to keep my name badge and Uniform with me at home pending this Appeal.

It would appear that his Meeting was hastily arranged to thwart the process of justice, as I had complained to Sainsburys plc as follows:

9. Is there anything that could have made your joining experience better? I am disappointed that my 12 hour+limited overtime contract was turned into extensive hours of shift work during my Till Training on 10 December 10.00 am -2.00 pm; when I explained that I had another Christmas Casual job with Royal Mail that this Christmas job clashed with: Please confirm that I am required to attend work at Sainsburys Tonbridge Angel Centre tomorrow 18th December 14.00-18.00 hours and Saturday 19th December 14.00-18.00 hours. I am sorry that I was unable to come to work on Wednesday 16th December 18.00 hours-22.00 due to new medication regime of Quetiapine anti-psychotic given to me by Dr Odesanya (Consultant Psychiatrist) which numbed me so I could not drive the car. As contracted please also confirm that I am required to follow by the Week commencing 20th December schedules of Sunday, (20th) 8.00-16.00 hours Monday (21) 6.00-14.00 hours, Tuesday, (22nd) 16.00-00.00 hours, Wednesday (23) 14.00-20.00 hours and Thursday (24th) 6.00-14.00 hours; as given in the original time-sheet given to me by Calum Haygate. Please also send me my Till Number or request Laura Buck or Amanda Masters my Line Manager to text me tonight on 07967789619. Thank you.

The Hearing of this Matter is currently scheduled to take place under Claim No E35YM660 at the County Court of Central London, Hearing Centre, Sitting at The Mayors and City of London Court, Guildhall Buildings, Basinghall Street, London EC2V5AR over a 30 minute period on 19 January 2021 at 2.00 PM via BT Meet Me. No Judge has been named to me in the Notice of Reconsideration Hearing dated 9 December 2020. In this regard, kindly bear in mind that the Judicial Conduct Investigation Office is apparently considering my complaint against Her Honour Judge Backhouse for dereliction of duty to the State and the Citizen simultaneously, as publicised here:

<https://www.shanpanigrahi.co.uk/447940333>.

You have been notified thus that unless a clear cut explanation is provided to me immediately as to whether I am and ever have been mentally ill according to some medical terminology used to label me to discredit my work for humanity and to defame the evidence that my analytical prowess has accumulated as the most intelligent genius who has ever lived on Earth as well as the most knowledgeable and the sanest person, the damages and compensation that I demand from the Department of Work and Pensions representing the UK Treasury will rise to £40 million; please bear

this in mind when deciding and issuing the Full Written Reasons as to why my cherished Blog <https://shantanup.wordpress.com> should continue to be disabled and suspended from entering the public domain together with my associated Twitter Account that was linked to that Blog under my Twitter Account shanpanigrahi@yahoo.co.uk, password shantilata.

## BALANCING ACT

Vaishnavism is all about performing the ultimate balancing act in Brahma-Nature

In this context the proper context of ahimsa or non-violence was stated as follow by me: *Suars (pigs): duniya mein suaron ko bhi bachana padta hai taki wei tumhara joota saaf karen*, meaning one must not kill off or disturb too much one's oppressors for you would at some time need them to polish your shoes. Words of advice from yours truly a Vaishnavist perfecting the balancing act.

Dear Sainsburys

Kindly clarify my date and time of Induction as I believed it is tomorrow the 2nd of December in accordance with the contractual requirement of employment from 2 December 2020 to 2 January 2020. Please also send me the link to the Online Training Schedule that I need to complete before the start of Employment. When I telephoned 01732 359811 (Sainsburys Tonbridge) at 16.55 hours this evening Calum Hayward agreed that the Induction would be on 8 December 9.00 pm but he had already examined my British Passport at the interview on 30 November 10.30 am and had given me the go-ahead to full employment on that basis.

If there is any doubt please let me know by checking the attached scanned passport details: 2020-11-27\_090339 ShantanuPassport.pdf. I must get a reply from you before 10.00 am tomorrow 2 December 2020 before I travel to Sainsburys Tonbridge and order my full uniform including black trousers, shirts and winter sleeves.

### THE CONSERVATIVE LIBERTARIAN ETHOS

The Conservative Libertarian Society Consultancy Services is as follows:

The Philosophy of the Conservative Libertarian Party is security for liberty and liberty for security. This is the essence of living. We need to be very careful indeed in making our decision on actions that we should take every moment of life by a thorough understanding of the laws of Nature, and taking opportunities to better ourselves materially and spiritually through the passage of time in a risk-averse attitude that conserves and builds the material and spiritual 'house' that we live in. This is the meaning of Environmental Sustainability. One step at a time and see which way the wind blows before jumping on to the next step to try and enhance one's prospects for self-preservation and the appropriate development of the family and the wider society that we are governed by to regulate and control our human activities. Being libertarian per se is not the objective of the personal or communal struggle. One cannot isolate oneself from wider humanity, for we cannot each individually do all of the things that we need to feed, clothe, house, study and develop our knowledge which is the fundamental basis of actions individually and collectively. We need like-minded people according to the saying birds of a feather flock together to create a Party of political activists who would argue their case and take part in democracy to influence changes to the society in a peaceful and totally non-violent manner. by persuasion of ones principles and belief-led mission to better ourselves in our mental development and better our chances of survival in a tough Nature that restricts our abilities to act selfishly and in greed for gathering in the natural resources for our own consumption from the Planet that we inhabit. This is the ethos of Conservative Libertarianism, and it is a secular conception, notwithstanding that on the balance of probability God is the Creator of the universe and Nature has a built-in Gaia mechanism of checks and balances that carves the path to the emergence of new races and species of life forms on Earth. It is therefore imperative that we focus only on taking the right decisions ourselves without resort to a higher authority, be that human or spiritual in being a Conservative Libertarian.

Like all things in Nature, we evolve and develop, for instance we develop individually through our own lives, living from an infant under total dependence on our parents until we are old-enough to go to a school and learn things that start to make us stronger with knowledge from being educated formally on science, mathematics, morality, literature, music and all the rest of the issues that would make us stronger mentally to grow to a state of mental disposition by our late teens to be able to stand on one's own two feet no longer dependent on nurturing by our parents because we can go to work. Or we go to college and university to become more mature and specialise in our specific areas of interest that we have creative talents for. We are now at the hands of the State which guides us on how to be a good citizen to live in harmony-socially interacting with others and contributing to the welfare of the people with whom we learn to live symbiotically. And so we have become adults and get married and have a family of our own and for raising them we buy or build houses as having presumed to have become complete human beings.

This is fine if one thinks that the only thing that matters is that we should be able to feed, clothe and house ourselves from incomes that we earn from our labour and scientific, technological and medical contributions to society. The question arises however that apart from the body, we have a mind, and mental health is just as important as physical health, if not more. For the mind agitates and directs the body into actions which unless regulated through thought-control could lead the person astray in life away from a harmonising outlook. And the State or society cannot help in this personal guidance, much as it tries through religious institutions or psychiatric means that tamper with the brain and hence the mind through worshipping a God or being given medications that are generally anti-psychotic and anti-depressants to go with talking-therapy, and if these prove unsuccessful to the person such that his conduct is society has not harmonised with what is required of the person by the State that he or she lives under the State takes resort to more severe means of

restraints on the person through perhaps the implementation of electroconvulsive therapy, and eventually, by incarceration in mental hospitals to be restrained under lock and key so that the person cannot do any damage to society. Such eventualities must be borne in mind by every citizen and educated on to convince them that it is undesirable in that it is not genetically-determined but due to mental delusions of the individual borne of brainwashed upbringing such as Holy Books like Bible, Gita and Koran are responsible as undesirable misguidance. These forms of education with the limitations of science in fathoming the human mind for the determination of conducive rational direction of the future of mankind is what is required urgently to prevent conflicts among humans nationally and internationally.

The Conservative Libertarian bases its ethos on these fundamental human conditions, and throughout history some religions have played a part, notably the Buddhism, and Hinduism and other lesser attempts at regulating the human population since to raise the people to the needs of the States under which they live in the specific agro-geographical and agro-ecological regions of the world. That is all in the past as they were human efforts with the science they knew to construct societies that served the purposes of those bygone ages. What is now clear to me is that no matter where one lives, the mind has to be kept under control. If it is kept under control one can have a good life. It is when one gets too ambitious and greedy for material acquisitions and fame to be admired and to leave behind a legacy that one is suffering from the greatest of all delusions, namely to delusion of grandeur under attachment to an objective that we have a purpose to our lives other than simple basic living until we die a natural death. So we begin to suffer mentally, and have mental health problems such as depressions and anxieties. In turn, this affects the quality of the work that we do in employment and social work within the State that we live under physically but also internally in the body as a stressed mind also generates physiological and biochemical and immune changes in the body that make us prone to infectious diseases and other disorders of the brain and the rest of the body. We then are perennially at the hands of doctors and clinicians with heart and liver conditions that we take medications for and go in for operations such as cardiac bypass surgeries and heart pace-makers; all to give us extended lives that is considered to be the objective because we think that we still have work to do as a karma yogi, that our ancient civilisation leads us to believe, not knowing that actions have reactions and the cycle of conflict and resolutions of those conflicts entails the expenditure of tremendous amount of financial and human resources that is counter-intuitively against the principle of harmonising with Nature..

The Conservative Libertarian philosophy is therefore something different to striving for a mundane life of mundane work but is based on constant thinking or what we do in order to retain a peaceful mind at all times. A mind is not at peace if the basic needs of the body in terms of comforts of living are not satisfied granted but a balance of mind and body in a holistic approach to living is required. Unless we have a peaceful mind individually and collectively, we are restless setting ourselves wishes, hopes, ambitions, missions, objectives, anticipations, expectations, etc, in the belief that our material fate is in our own physical hands and the spirituality of peace-advocation has no part to play in enabling one to survive to a grand old age, which comes only when the mind is peaceful. This is the attitude that we promote, for unless we have our material and spiritual reliance under mind-control, we are not in balance with Nature in harmonising with the status quo. That wisdom of harmonising with our work and actions is known as truth-accommodation and it alone generates sufficient material provisions for one to survive on as well as generating the peace of mind in having had the self-control over our activities that has not harmed Nature, whether in the form of a bee, an insect an elephant, a tree, virus, bacterial or another human being. When one lives to that harmony one is totally balanced in one's actions and work in having a clean conscience that one has taken from Nature only what we need for our basic survival through our lives and have not overstretched Nature by increasing our demands for natural resources or other goods and services that the brain obtains endorphin-releasing satisfaction, happiness and elation from that places Nature under

undue stress so it reacts accordingly. One must accordingly strive for freedom and freethought as far as Nature in the form of the State that one lives under restricts us and progress our living forwards.

The Conservative Libertarian mould of living therefore has no dharma (duties and righteous actions) nor is it attached to the concept of even wishing to survive as an attachment too many that afflicts the peace of mind, for one knows from a study of anatomy, physiology and biochemistry that we are just like other animals in that we are naturally genetically-endowed with a specific range of life-longevity and trying to extend that with physical exercises to keep one's body in ship-shape condition and taking vitamin supplements and other medications for changes in the body that cause physical and mental pain are never going to give one medium to longer terms happiness and peace of mind. So the Conservative Libertarian is not interested in keeping his body alive and healthy. He is interested in keeping it going for as long as he is alive on moment by moment considerations without objectives in a natural, nonchalantly manner spontaneously operating from one's subconscious state of mind so that we have no attachments to the body or mind, and then taking whatever actions are needed to live productively for another moment in life. That is all. The ethos does not plan ahead, for planning and scheming to make changes to our lives to meet any desires one may have for glory or to live longer, or to live in greater comfort that one is supposedly not endowed for genetically is dependent on considerable uncertainties on the reality of Nature both in terms of our knowledge of how it works at the minutest detail level and as it changes from one moment to the next so that the scientists today are unable to understand being what is 'wrong' to seek to find needless solutions for with our bodies and how to react to the disease-afflictions intruding upon our lives that we need to contend with from wider Nature, such as coronavirus and other viral and bacterial or malarial microorganisms with whom we share this planet.

So the Conservative Libertarian philosophy is to cope by adapting and taking preventative measures to block out from oneself all intrusions into our independence of living in a non-violent manner and let Nature take its course; if we suffer from a disease, or attacked by humaniamals or are rendered to poverty then, so what, we are philosophical that 'that is life' which has had a natural end and peacefully so.

## REVIEW OF SATYA-ADVAITA VEDANTA

Published on November 15, 2020: The Conservative Libertarian Society Consultancy Services:

Good and Evil: I do not consider that this form of duality exists like the Ying-Yang theory. There is a middle path that balances the good and evil. Purely-good as sattvic guna or purely-evil as tamasic guna is balanced by the routine-dharma of rajasic guna. It is therefore not appropriate to consider making oneself purely good. That is collecting pious points for self-glorification. The rajasic path is the path to total knowledge and the shattering of one's ignorance. This is what the Bhagavad Gita alludes to. In the rajasic guna path one understands Brahma-Nature fully through the adoption of Satya-advaita Vedanta. Dharmayudha is the basis of self-preservation through balancing one's actions in harmony with good and evil attributes of Nature. It is wrong to crush evil to extinction. One must only protect oneself with evasive measures. Then the evil goes away. We are all in peace then, the sattvic, the rajasic and the tamasic. If one believes in God as the Creator and Preserver of the universe we must strive to protect Mother Nature in all its three components as such by perfecting the art of self-defence as the dharmayudha. This is the lesson of the Mahabharata. The Pandavas did not win outright against the Kauravas. In the end of the battle of Kurukshetre they went their separate ways. Material justice was not entirely served on the Pandavas. I too did not win my perceived £55,000 redundancy money from the University of Greenwich for Unfair Dismissal from employment or from other employer since. Truth is the perfection of the art of balancing oneself in Nature through ahimsa. The only struggle that succeeds towards self-preservation in the dignity of liberty in security and security in liberty which is when truth has prevailed as in Satyameva Jayate is the non-violent one. For that one must have total knowledge. Rajasic guna is governed by Lord Vishnu not Lord Brahma or Lord Shiva in the Hindu Trimurti. Krishna was an incarnation of Lord Vishnu, as an advisor to the Pandavas. It was Lord Vishnu who requested Sri Krishna to incarnate as Krishna directly as the Creator of the Universe. The good Superlord Sri Krishna is highly benevolent. He does not take sides because He is the creator of Brahma-Nature with its sattvic, rajasic and tamasic guna Lords in the Trimurti.

My point is be a Vaishnavite and practice this Sanatan dharma on this most auspicious Deepavali day the festival of lights for Sri Krishna is here even now to emancipate humanity from the ignorance of this Kaliyuga. So see coronavirus in a positive way because only Brahma-Nature has to deal with it, not we as humans without the knowledge of this latest threat from tamasic component that is a new species of life. We must not grumble and complain about any or such misfortunes, just pray to Lord Vishnu to ask Sri Krishna to guide us individually with knowledge and wisdom to be able to deal with our problems subconsciously that is unpremeditatedly and spontaneously not with mind-deliberations of what might be happening to us. When this happens when one truly sees the reality and one's conscience is clear because one has not deliberately set out to harm another being, whether plants, viruses, bees ants, elephants, or any kind of human being. This state of mind for me today that I have arrived on is a yogadaan from Sri Krishna for having persevered with my satya-advaita yoga over the last 22 years and proven the ancient saying dharmo rakshati rakshita; a study and yoga that led to my conception of Satya-advaita Vedanta or in English Conservative Libertariansim.

So truth-accommodation is a Vaishnavic tradition of Hinduism that adopts the Sanatan dharma of harmonizing in Nature to see only beauty in everything.

Eventually all the lies, deceit, self-centredness, the corruption perpetrated and institutionalised, catches up with you under the sacredness of Brahma-Nature that we live under, for all the mechanisms are there in Creation, imparted by our Supreme life-giver, the creator of the universe, and is built-in for the restoration of Sanatan dharma. It is just a matter of time when normalcy is

restored in the proceedings of humanity. That is how it has always been, such is my faith and my karmic practices based on satya-advaita yoga, the result of which peace of mind totally and utterly.

Lies and corruption founded on ignorance however, that leads man to adopt specific measures in directing ones plans and schemes unaware that the Almighty tolerates these during lull phases for His own intents and purposes and at the suitable time makes His presence felt to instil some common-sense into man to know the provisions and limitations of His Creation so that we learn to live within those imperatives so that we do not get too ambitious into pursuing unviable man-designed structures and arrangements for the maintenance of the Earth as a habitable planet.

These historical developments in Earth are part of the pre-ordained and pre-orchestrated events with timely interventions from our spirituality to guide humanity forwards, as it has always done in the past in the processes of the civilisation of living beings through Evolution of the Species in the Paleontological Tree of life. For my earlier assumption that Sri Krishna is ambivalent as to what happens to humanity and Planet Earth as a consequence of the advent of inappropriate species that have been generated through the history of Earth was a premature deduction and may not be true, as far as I can tell now. God does listen and he does respond to bhakti-based devotion and he does awaken such persons from time to time to adopt a life that is good and benevolent for His own intents and purposes, for He, I assume, has the welfare of all life forms that He created through evolution from abiogenesis 4 billion years ago and patiently so for His own satisfaction that He has created something special here on Earth that I believe is unique in relation to the wider universe. We need to be very patient ourselves to realise this and study deeply all our scriptures and scientific, poetic, art, literature from across the globe to come to an understanding of what has been designed for us humans to reflect on and learn to appreciate. Truth accommodation for me is to conduct myself to that permanent ultimate reality that I perceive as well as to the nuances of Brahma-Nature in the ground reality of having to cope with the imminent and durable reality in the moment by moment passage of time individually and collectively by expressing our views as they have changed over time, in my case since first went into internet forums 12 years ago to find out what it has been going on in my earlier life from 1997-1998 doldrums that I had personally experienced to my material reputation and what is now going on to develop my perspective and objectives for my life which remain nonchalant and unpremeditated so as to see what is next for me in my fate and destiny as the Supreme Lord Sri Krishna only knows best so I remain at His disposal effectively.

#### STATE REGULATION OF THE MENTALLY DEVIANT AS DISSIDENTS

The gunas are characteristics of the Mind and describe in Hinduism as being within a Trimurti triad of sattvic, rajasic and tamasic consciousness that give living beings their personalities and which form the basis of their emotions-led actions materially. The specific guna-based actions can change during life depending on one's upbringing and more formal education and also on one's living circumstances as these change. The person reacts to the circumstances as he or she sees the reality that he faces. Until one has had personal visitation by a spiritual-entity he or she lives purely in the material arena and is then specifically tamasic in his thoughts and actions as he only sees the observable world around him. One may be taught that there is a God or gods but it remains a conjecture and one adheres to what others say to the person on what he should do to pray or worship a particular God or gods on the assumption that these gods are able to give boons or protect their followers and devotees. It is only when one is awakened by unusual happenings within one's own mind that one becomes paranoid and thinks that one's reigns of life are being controlled by a Power in the mind that one should either surrender to or resist depending one's guna-based sensitivity of the mind at any given moment in time. This is when one suffers the mental condition of inability to cope with material life with erratic conduct unable to function in society to the norms of the culture that one's lives under. One is then uncontrolled by society that tries to brainwash the members of that society to undertake specific tasks as their duties of righteousness actions as the correct communal dharma. The mind has now come under two opposing forces, material and spiritual. One needs a *raison d'être* accordingly to balance these opposing externally and internally directed forces. One toys by switching between the three gunas in the mind to survive materially as required by society while engaging also in spiritual pursuits and it is this state that generates the delusions on reality in paranoid schizophrenia.

These guna consciousness gods residing dormant until awakened are referred to in Christianity as demons if the person is succumbing and surrendering to them instead of adhering to the rules and regulations of established religions in the different cultural traditions across the world whether living in communities or as States and so committing crimes and forensic misdemeanors to communal living in the society of the State. In the severest form of Police State the the spiritually-deviant are removed from society permanently by capital punishment for their crimes as the State sees it.

Certain States treat these spiritually-afflicted citizens as aberrant and deluded patients who are not responding positively to education on morality to psychiatric or religious counselling, by religious rites and exorcism and in secular States with anti-psychotic medications and electroconvulsive therapies, and if such treatments do not normalise their conduct they are detained under mass incarcerations centres such as mental hospitals or State penitentiaries/prisons as in dictatorships and semi-democratic States like in the United States of America governed by under its so-called two-party system of government with both parties denying its people spiritual-liberty and similarly in the monarchical United Kingdom where there is a loyal opposition of Socialists to the ultra-right wing of the Conservative Party taking its dictations from the monarch of the day and rendering the middle of the road Liberal Democrats to a bygone dustbin of history through State-manipulations of the electorate and the Trade Unions accompanied by severe State-controlled media and Book Publishing Institutions to suppress truth to prevent internal and external humanity knowing about their secretive operations such as disabling Social media like Wordpress (<https://shantanup.wordpress.com>) and Twitter to manipulate public opinion in a bid to regulate the functioning of these deviant minds operating to independence of thought rather than functioning to the needs of the State. They are all Police States of differing descriptions of complexions whether secular or religiously based like the United Kingdom with Protestant Christianity based totalitarian control or Islamic States with variations of Koranic control under Sunnis or Shiites or ISIS Islamic State and Taliban and others that have a natural tendency to spring up under the evolutionary processes and laws of Nature as a natural phenomenon in the generation of new species of life; or

the States may be under atheistic totalitarian control as in China dressed up as a People's Communist Party since Mao Tse Tung, and as in the early 20th Century under Nazism of the atheistic Adolf Hitler. Without fully fledged and functional democracies these States are all tamasic to the point of being Satan-evil to deprive their populations of liberty and freedom to express their spiritually-emanating freethought as human beings in their words and deeds. Only patriotic State-directed conduct is tolerated. These States form alliances and easy associations with each other for example North Atlantic Treaty Organisation against internal dissidents and external liberal democracies against whom the Islamic State of Pakistan for example forms a friendship with atheistic Communist China against the liberal Hindu India as Bharat/Hindustan to control world natural and human resources, and rich States like Saudi Arabian monarchical dictatorship formed with anti-democratic States like the United States of America and the United Kingdom to remove Iraq's Saddam Hussein and later Colonel Gadaffi of Libya as seemingly too autocratic to their liking that had made these to Muslims States very prosperous for decades minding their own business of keeping their populations under control and internal peace in coherent stability.

So we live in in a myriad of complex World Humanity and no one is sure which way to turn as a global humanity until all of humanity is brought under the same roof with common values of shared objectives. That is the philosophy of the United Nations and its associated institutions. It is misguided as it runs contrary to the fundamental laws of Nature and is doomed to failure through rejection in the reality of spirituality being the everlasting mechanism of Brahma-Nature nature to regulate the Earth and its direction.

The longer I live as a satya-advaitic yogi the more I feel that human beings across the world must be first and foremost be protected and allowed to contribute to the development of the Earth on fundamental human right to freethought and free-expression of those thoughts which need to be fostered by the United Nations or the Earth will be finally destroyed by Satan-evil tamasic forces globally. Words not actions should be the motto.

To this end I have formed the Conservative Libertarian Party of the United Kingdom. Please join me.

## RELIGION CHANGES

The Philosophy of Vaishnavism requires me to subscribe to the Religion of the State that I live under. Every State must have an officially-approved religion that all citizens must adopt. Atheistic Communism makes its religion of Atheism clear to all its citizens as in China. So at long last I am addressing this central feature of the Philosophy of Vaishnavism with the following enquiries:

Dear Sir/Madam

I have now decided to convert my religion of Brahmanism Hindutva to the Church of England on which I have had preliminary discussions with you as attached:

FrLambethPalace(ArchbishopofCanterbury(Noappointment)27Nov2020.docx.

My Philosophy remains Vaishnavism but my religion would be Anglican Protestant Christianity. There are a few questions that I need clarification to:

(a) Do I have to change my name from Shantanu Panigrahi to a so-called Christian Name officially?  
 (b) What is the ethos of the Church of England, for example does it use and sermonise in the church to the King James Bible: <http://www.thekingsbible.com/>. This will help me join this particular website organisers in seeking further guidance and counselling in light of the fact that I have over 22 years of being treated for mental illness as diagnosed to be paranoid schizophrenia characterised by persistent delusional disorder, failed in all the suggestions made to me by Dr Odesana lately for my rehabilitation into society still living in the Community after two spells in mental hospitals (Spring of 2004; Autumn of 2008) on present anti-psychotic and anti-depressant medications as you will read here: <https://www.theconservativelibertariansociety.com/post/state-payments-of-financial-support-benefits-to-the-disabled>. I am therefore still carrying out what Dr Odesanya has repeatedly suggested to engage in mindfulness meditation in which Buddhism did not show me a path to liberation of the mind.

(c) Do I need to inform the State authorities in the Census 2020 about this change of circumstances so that the assessment it has made recently is updated immediately - I need to know whether I can now enter this religion of Christianity in my next job applications where such information is required by employers before they consider a particular applicant is mentally suitable for the job on offer.

Please reply immediately as I have two employment Inductions to attend, (a) 4 December 2020, 2.00 pm at Royal Mail, Knights Road, Rochester, Kent) and (b) Sainsburys Tonbridge on 8 December 2020 at 9.00 am, where this information is required for assessment.

Yours sincerely

Dear Shantanu Panigrahi,

Thank you for your recent email. Much as he would like to, the Archbishop is unable to respond personally and in detail to all the hundreds of emails and letters that he receives, and so I have been asked to reply to you on his behalf. Thank you very much indeed for taking the time to reach out to the Archbishop. I am afraid that the Archbishop is so overwhelmed with requests for individual meetings. As he would be unable to satisfy the demand, not least in the busy run-up to the Lambeth Conference in 2022, he has decided that with sincere regret and apologies that he must decline all such requests. He is very sorry about this, but the pressures on his diary sadly do not allow him the time he would like to meet so many people.

I am sorry to bring a disappointing response but thank you again for taking the time to write and please be assured of our prayers and good wishes.

Yours sincerely,

Dominic Goodall

Dear Padre/Father I have now heard from the official agent of the Supreme Court of the United Kingdom indeed of Ireland (see attached Frindeed(SupremeCourtagent)22Nov2020.docx as Her Majesty's the President of the Anglican Church of the United Kingdom its further directions to the Appeal dated 5 September 2020 attached ToSupremeCourt5Sep2020.docx as attached ToJobsLift(SupremeCourtofUK)21Nov2020.docx; that my submission to the principle that 'No one is safe until all are safe' as Archbishop reiterated last week on Television, that in order to move towards this principle of 'United We Stand and Divided We Fall' I must make an application to the Church to book appointments for me as follows:

(a) Selection of a Christian Name for me in accordance with the Hebrew Chaldean Numerology where my Shantanu Panigrahi still attains the Number 3 significance that forms the basis of the the Father, the Son, and the Holy Ghost' trimurti of Christianity to replace my present Hindu Trimurti Triad of Brahma, Vishnu and Shiva': I have no idea how long this selection will take if we are to follow the Essenic theology outlined by Linda Goodman Star Signs, on the basis of which Jesus Christ attained the numerological significance of '9' that is conducive to living in the United Kingdom instead of '3', and the avataric principle of '3' and '7' add up to the One and only Almighty.

(b) Baptism for me simultaneously as soon as Archbishop Welby's Diary permits for I would like his personal blessings as I chart my new life that Jesus Christ saves our souls, rather than my Hindu beliefs hitherto that 'Jesus Christ saves arse-(h)oles, as I had earlier submitted to Her Honour Judge Backhouse, the Circuit Judge in Central London County Court in the still-adjourned Claim of mine E35YM660, under which I am seeking the restoration of my Blog <https://shantanup.wordpress.com> to continue with my Christian reformation as an Anglican Protestant Christian.

(c) Transition period: I had years ago communicated my paranoid schizophrenic status concerning my quest for a religion that is appropriate to my life in the United Kingdom to the Church of England back in the year 2002-200w when I was seeking asylum under the Church's refuge, and had similarly written to the Vatican to see if Catholicism might provide me the same to no effect. So kindly bear this in mind and consult widely (may I suggest Padre/Farter Rowan Williams?) which would be more appropriate in a transition period to the eventual aim of rehabilitating in the society of the United Kingdom, perhaps I would have a softer landing if I chose Catholicism first, in which Case I would have to contact the Catholic Society of the United Kingdom depending on your assessment. Your immediate reply would be helpful on the Sunday morning so that I can go to the appropriate church in my immediate locality and avoid further interactions with the Jehovah Witnesses who have visited me periodically over the past 22 years at my home inviting me for Services in their Kingdom Hall.

Yours sincerely

We will continue to deliver Registration services as planned up to the end of the day on Wednesday 4th November. We are still awaiting confirmation from Government about what can be delivered while we are in Lockdown from Thursday. We do know regrettably, that it will not be possible to deliver any weddings or civil partnerships during this period. We understand this will be an anxious time for anyone that has an appointment or ceremony booked with us, please be assured we will be in contact with anyone with ceremonies booked in our register offices as soon as we have more information and the process for moving your booking. As you can appreciate we will have a number of people to get in contact so thank you in advance for your patience. If you have booked with an external Kent venue for your wedding or civil partnership you should contact them in the first instance.

When you asked me for a Feedback on my decision this afternoon to unsubscribe from The Dharma Despatch, I wrote something like: The Dharma Despatch does not have a clue on what is dharna and what is Sanatan Dharma and for that matter Hindu Dharma Forums is also ignorant as it has suppressed my posts in the Forum during the past year of membership of the Forum. I further said that if you had any questions to me I was available to assert them and on your assessment of my complaint for appropriate rectification and redress, I would reconsider my decision to unsubscribe from The Dharma Despatch.

I just tried from on my Mobile Phone to find out what your decision is in this regard with reference to the attached: The Ultimate Truth.docx, but could not connect with you except to get a email at 1854 hours (UK-Time) sending me The Daily Dharma Dispatch: Update Profile. I consider this to be harassment, intimidation, bullying, perverting justice and perverting the course of justice in the proceedings of my Claim against the Prime Minister of the United Kingdom, Mr Boris Johnson for the perpetration of 22 years of State organised persecution on me for having conducted my satya-advaita yoga to determine the Nature of Reality, in which I live like a Vaishnavist now still after trying to convert to Anglican Protestant Christianity enforced by the proselytizing State to become a so-called naturalised citizen as a slave-subject of the United Kingdom with a valid National Insurance Number of YZ330724D and a valid British Passport to travel outside the United Kingdom with as attached: 2020-11-27\_090339 ShantanuPassport.pdf; The Diocese of Rochester has not responded to the attached referral The Diocese of Rochester.doc.

I should be most grateful if you would investigate Hindu Dharma Forums as a mouth piece of the Narendra Modi government that denied me my birthright to Hindu citizenship by suppressing my Public Interest Litigation against his government of 2008 for the Indian Government to reissue me with my old Indian Passport or issue me with a Person of Indian Origin Card immediately before the Mental Health authorities visit me tonight for its third time to incarcerate me in a mental hospital as a political prisoner seeking refuge wherever I can find it so as not to lose my liberty as in 2004 and 2008 to preclude the British State's attempts to make me stateless (I may already be Stateless as 200 jobs that I have applied for in the United Kingdom during the past year have been thwarted and I was victimised by a State Attorney to disrupt my work for Sainsburys (as shown in the attached: FrKimberleyBrooks(LawAttorneyagainstSainsburys20May2020.docx); as initiated by Dr Shivaji Panesar of New Delhi that I blogged in <https://shantanup.wordpress.com> which the State of the United Kingdom, and its international allies disbled by suspension and archiving on spurious legal grounds. This it did my continuing to freeze the proceedings of my Claim E35YM660 at the Central London County Court pretending to adjourn it as attached: Central London County Court Judgement of Order12May2020.docx, and so suppressing a fair Hearing of all 1500 respondents national and international by requiring the submission of defence from each and every one of the 1500 criminals. I am copying this email to the High Commissioner of India, India House, Aldwych, London WC2A4NA, Tel: 00-44(0) 208629 After Office Hours: (0) 20 7632-3085; Email address: inf.london@mea.gov.in info.london@mea.gov.in] to let me know if there has been any change in my citizenship and nationality in view of the continued State-organised terrorism on me that the International Criminal Court and the Security Council of the United Nations have overlooked as slaves to Her Majesty the

## SYMBIOSIS

Symbiosis between man and woman or is it feminism that we should consider normal?

### **Open letter to the Liberal Democrats Federal Conference**

With reference to <https://www.shanpanigrahi.co.uk/447730155>, it is very difficult fellow Liberal Democrats to know the harrowing time that Carers have to put up with when they undertake the role of Caring and Supporting a family member.

This afternoon, the Police said that they will ask the Social Services of Kent to come to our home again to assist my wife in this Caring Role on me especially. She declined this offer in being the strong woman that she is to have looked after a paranoid schizophrenic's delusions-based emotional stresses and actions that uncaring societies do not appreciate Carers for, as her having one of the highest levels of adaptive symbiosis with me that has over the past 22 years of struggle for existence, a trait that has evolved in humanity which facilitates family life and life in the Community before the Mental Health authorities consider incarcerating patients like me into mental hospitals and prisons for their behaviour in society in not following the laws, rules and regulations, moralities, values and regulations imposed upon the citizens by the State.

It is now 20.59 pm hours on 4 December 2020 as I write this Page, and there is no sight of the Social Services nor a Report on the Blocked renamed Current and Savings Accounts (Name TCLP-UK) as the official Bank Accounts held at Santander Bank at this point in time as the liquid and fixed assets of The Conservative Libertarian Party declared as Financial Assets to the Electoral Commission as attached: <https://www.theconservativelibertariansociety.com/post/part-registration-of-the-conservative-libertarian-party-with-the-electoral-commission-effected>.

Vested interests dwell on past history of their actions when they do not realise that the past is no guide to what can happen in the future so that one should re-evaluate one's raison d'etre every moment to change the direction of travel when the wind blows to revise objectives.

Truth hurts those who deliberately damage the sanctity of Nature, for control over resources to be used to grandiose visions for self-advancement at the cost of all aspects of biodiversity without considering the need for harmonising and impact of the sustainability of actions.

The philosophy of this Vedanta is perfect ahimsa in terms of restraint from physically-violent conduct using just words speak louder than actions, and not the other way round as is propounded in dharmic traditions. By words alone all obstacles to liberty (moksha) are surmounted.

Satya-advaita Vedanta establishes the principle that being at one with the truth leads to the development of the mind into its subconscious state where there is total awareness of the circumstances and resulting intelligence to deal with one's emerging realities in Brahma Nature.

email communication problems

Dear Yahoo (YAHOO BLOCKING TEAM)

In my response to the considerable level of trolling activities that has been perpetrated on this Account during the past two months, I had to set up an alternative email account at Yahoo (shantanupanigrahi@yahoo.com) and moved my email transactions to my Google Account Shanpanigrahi3000@gmail.com as well. I am still not satisfied that you are doing anything to resolve this problem.

Please convey to me the reason why?

Yours sincerely

To Julie Palmer

Kent and Medway Partnership Trust

Hermitage Road

Maidstone Kent

Dear Julie

There is some uncertainty in my mind this morning on a number of inter-related issues, as follows: My wife had telephoned Britton House a few days ago and spoken with Dr Odesanya about various concerns she had about my well being and her role in supervising this at our home. I understood from her that a medication review was being considered, and they had agreed that Dr Odesanya will write to me a letter of appointment for a Face-to-Face assessment.

Whilst I did not wish any further appointments in Britton House, I do realise that I can only be released into the primary care of my doctor Dr Mawanche at the Shah Surgery with Dr Odesanya's approval and the issue of another Care Plan document stating that this discharge into primary care has been effected. I therefore telephoned Britton House when I did not receive such a letter in the post. The lady receptionist (Jane) told me that she can give me the time of the appointment over the phone, and did so as being 9 December 2020 at 10.00 am.

Whilst I am agreeable to see him and acceded to his request that my wife must accompany me to the Meeting at on the 9th of December without any such letter arriving in the post by then, although this would have been helpful to update my official records that I maintain, Dr Odesanya must be made aware of certain other developments.

Kent Police's lady Police Officer (Badge No 6.204) came to our home yesterday roughly around 3.15 pm yesterday to follow up a contact made by the Hempstead Valley Shopping Centre Branch of Santander Bank following my decision to convert both the Bank Account Names to TCLP-UK (The Conservative Libertarian Party of the United Kingdom) of which I am the General Secretary awaiting the completion of registration that has been applied for at the Election Commission. I left our Santander Passbook relating to the joint-account that I am Claiming for TCLP-UK, and explained to the Police Officer that my suggestion that our family finances must be separated with my Teacher's Pension money continuing to be credited into our Barclays Current Account for the running expenses of the household to be eventually given to our daughter Shanti Rupa Panigrahi from all future proceeds starting yesterday and I accordingly make no Claim to that Account held at Barclays Bank PLC. The Police Officer asked my wife to telephone Santander and find out what is happening following my decision as above, and she got both the Santander Account blocked by the Bank. This is most disconcerting for I as the General Secretary of the Party have transactions to implement right now to progress its work, and so a decision of the separation of financial assets must be considered at the forthcoming meeting in light of the legal advice and representation made to the Bury St Edmonds Regional Divorce Centre through Managed Divorce to which the £347 lawyer's Fees has been paid.

Furthermore, the Police Officer had undertaken to contact the Social Services to visit our home to iron out the Carer's responsibility that said to her was inadequate as she is 'not being a good Carer, but a control freak), but no one from Social Services has contacted me as thing stand right now. I had given my Barclays Current Account details for the income that I will earn from Sainsbury's employment as Services Assistant for which the Induction is imminent on 8 December 2020 at 9.00 (Angel Centre, Tonbridge, Mr Calum Hayward contact 01732 359811), and which I wished to use for my personal expenses through the Barclays Current Account with all the money contained in the two Accounts held now belonging to TCLP-UK from now onwards. The cheque book that I applied for online to Santander must be endorsed with the name TCLP-UK with me as the only authorised person to sign by law accordingly, before this cheque book is sent to the postal address of the Party (located at 3 Hoath Lane, First Floor, Room D, Wigmore, Gillingham, Kent, ME8 0SL) when these Accounts are unblocked, and the Bank Statements on both Accounts to me as the General Secretary of the political Party. This should be done immediately and in this regard, I am copying this email for the attention of Her Honour Judge Backhouse for her deliberations on the attached revised Claimants Submission to the CLAIMANT'S SUBMISSION5Dec2020.docx attached-proceedings of Claim E35YM660 accordingly.

Related to this is the fact that I had asked the Policewoman showing her my British Passport that I was concerned about as the reason for not going to my Induction yesterday at 2.00 pm for my Christmas Casual Appointment with Royal Mail that I will reschedule by copy of this email to Royal Mail. Her clear advice was that my British Passport is valid and no-one can take this away from me at the forthcoming Employment Inductions at Royal Mail and at Sainsburys.

I await your next response, and a re-dated letter of appointment on a later date than 9 December 2020, without the presence of my wife at the appointment for the above-mentioned reasons.

Yours sincerely

**RE: Your email to the Financial Ombudsman Service**

6 December 2020 01.29 hours

Sent from my Samsung Galaxy

Dear Financial Ombudsman

I was unable to use my Santander Debit Card today and had to borrow money from my Wigmore and Hempstead Newsagency because I have been denied access to both my Santander and my Barclays Bank Accounts. I had to buy a packet of Benson and Hedges Gold for I was again under considerable stress and anxieties on if I would be destituted again as happened in 2004 when I tried for asylum in France for such embezzlement then. The amount I borrowed from Shantiravkumar as the proprietor of the Newsagency was £12.99.

When I told my wife what happened and why I could not buy milk for the household at the same time she gave me £40 in cash to pay-off this debt and buy the milk. I did that within 10 minutes. My wife was so ashamed that it had come to this she phoned Santander and requested the Bank to unfreeze my two Accounts as my property that I donated altogether to The Conservative Libertarian Party of the United Kingdom. She told me that that is all that she could do for me.

I told her then that she would have to give me Cash for all the family needs each time I went out shopping. She replied that she was unable to do so because she does not normally keep cash but keeps some for emergencies only.

So I would be grateful if you would adjudicate on this matter immediately for the reason that Santander has blocked my email sent to its feedback email address as a copy of this complaint. Thank you for your urgent action to prevent me being destituted again on to the street with the Personal Independence Payment of the Department of Works and Pension wilfully rejecting my application forms for the resumption of my Disability Living Allowance that has been stopped since the Christmas Bonus of December 2015.

Yours sincerely

## PERSECUTION COMPLEX

**Update to Her Honour Judge Backhouse, Circuit Judge at the Central London County Court presiding over E35YM660**

CLAIMANT'S SUBMISSION TO HER HONOUR JUDGE BACKHOUSE ON E35YM660 AT THE CENTRAL LONDON COUNTY COURT

To Her Honour Judge Backhouse

My Ladyship

Background:

Appeal Arguments relating to the two Orders dated 14 January 2020 and 30 September 2020 were specifically submitted to the Defendant in my Updated Particulars of Claim on 24 March 19.31 hours by agreed email and updated since. This was made clear to the Court prior to 3 April 2020 Hearing presided over by Judge Backhouse on which the 12 May 2020 Order attached is based (Central London County Court or Order 12 May 2020.docx attached to this submission).

Summary of petition:

1. I wished to do something positive for national development of the United Kingdom so that it can contribute to World Conservation in order to improve global society and initiated the following petitions. Some were approved for hosting whereas others were inexplicably turned down and disabled by 38 Degrees and Liberty. I resorted to Action-network in view of this lack of cooperation. This is what my Appeal is all about. Please refer to the following links in administering your decision on whether I am justified in voicing these concerns or not. If I am not, you may turn down my reconsideration of permission to Appeal the 14 January 2019 dated Order of the Court on E35YM660 (Dr Shantanu Panigrahi vs Mrs Theresa May; nay the present Prime Minister of the United Kingdom, Mr Boris Johnson as the Defendant singly).

2. Further evidence for my petitions may be examined at the following websites which have stood the test of time in that they were beyond criticisms from the general public because they are factual representations of the investigations that I have conducted in arriving at the petitions:

Personal websites:

(a) <https://www.shanpanigrahi.co.uk/>

(b) <https://shantanup.wordpress.com>

(h) <https://www.theconservativelibertariansociety.com/>

(i) <https://theconservativelibertarianpartyoftheunitedkingdom.com/>

3. The evidence in these websites support the Particulars of Claim in the Claim Form and the Appellants Notice of a concerted national and international conspiracy against me to obstruct justice and pervert the course of justice by the States concerned. The government is therefore obliged to take these petitions seriously or give its reasons for not considering them through the normal processes of Parliamentary scrutiny. The functioning of the Parliament and the Monarchy must be subject to the due process of scrutiny through the Courts to outline individual responsibilities to society and hence this Claim that I am pursuing. Otherwise, there is no hope for the nation that I love.

4. Madam, a Judge of Her Majesty's Establishment is the law of the nation. Please therefore advise me if I am right or wrong in bringing this to your attention.

5. As you must be aware, I have only asked for a nominal £3000 in damages and compensation for what I have suffered over 22 years that led me to my published petitions because I am only progressing this Appeal proceedings in sincere belief that it is in the public interest nationally and globally.

6. Madam, on 9 December 2020 I was summoned to an appointment with Dr Odesanya, Consultant Psychiatrist at Britton House, Gillingham Kent for an update on my mental health and review of medications with respect to my desire to be discharged from Care in the Community into primary Care of my GP Services. Following a 40 minute discussion into which my wife and Carer joined in on the telephone as required for her to do so by the Consultant Psychiatrist, I was not discharged; and on the other hand, my anti-psychotic medication was changed with immediate effect to Quetiapine (50 mg on 1st day; 100 mg on 2nd day; 150 mg on 3rd day, then 300 mg for another 14 days) for which a prescription was given to me at the appointment and I was told by Dr Odesanya that he will write to my General Practitioner soon for repeat prescriptions of the same medication to be issued indefinitely as his conclusion of the proceedings. No Care Plan document has arrived at my home to set this out with full reasons of assessment for this decision as thing stand this morning. This is unacceptable for the reason that a Community Treatment Order to continue enforcing psychiatric assessments and resulting treatment with Full Written Reasons has never been issued and served on me. Furthermore, the Personal Independence Payment institution of the Department of Works and

Pensions has not replied to my application nearly 10 days ago to consider the need for State-support financially so that I am therefore forced to go to work for Royal Mail and Sainsburys on Christmas Casual appointments. I am accordingly drawn to the adage: you cannot have your cake and eat it: if the intention of the United Kingdom's State authorities is to kill me off through these cruelly-administered medications, it should explicitly state that as the aim of Mr Boris Johnson's government. I am accordingly most concerned that this grotesque and unjustified intrusion into my well-being is being continued to be perpetrated by the State, and I describe this scientifically-unfounded psychiatric imposition upon me as political-persecution for my religious beliefs and practices of Vaishnavism.

7. Please therefore advise me if a Judgement or Order can be considered now appropriately to bring a closure to this long-standing (23 year-old) saga of epic proportions.

Yours faithfully

Dear Neuvo

1. Thank you for sending me a list of possible job opportunities that I could apply for as a verdict from the Justices of the Supreme Court of the United Kingdom in response to the attached application for a Judicial Review: ToSupremeCourt5Sep2020.docx, following the query that I submitted through my website this morning

ToHerHonourJudgeBackhouseCircuitJudgeCentralLondonCountyCourtClaimE35YM66012Dec2020.docx. I am pleased that I am not stateless, my British Nationality and British Passport having been endorsed by the Justices to go about my business as usual in the United Kingdom, in relation to the attached query: ToHomeOffice(Nationality&CitizenshipStatus16Nov2020.docx);

2. With the greatest of respects to these unanimous rulings from Justices, these Directions to seek high office cannot be pursued until the Court has adjudicated on the full restoration of my Wordpress Blog <https://shantanu.wordpress.com> as I would need to answer questions to the State authorities in the businesses and Mental Health Tribunal on my conduct during the passage of those decade of years during which I suffered State-sponsored terrorism through its Police Forces and legal and medical institutions across the country, and because I do need my article back 'The impending economic doomsday scenario for the world' that I published in that Blog on which I have not retained a copy in my files. Further, the whole conception of the scientific community on the aetiology of abiogenesis as conceptualised by me honestly and sincerely are contained in the associated-Blog-website 'Abiogenesis Review' which puts forward a new dimension to the examination of the Science of abiogenesis that Nature magazine rejected unfairly as unfit for publication in that journal. I need these publications to become public property for the benefit of mankind so that it is able to assess which path as having the potential to be most productive in the examination of the Science involved in the study of the Evolution of the Species, which have led me to my theories on the universe.

3. This is essential material, because mankind is spending vast amounts of money in Space research and promoting the exploration of Space by individual members of the population in even Space holidays that are proposed, when the money should be spent on discovering regenerating steps towards reversing soil erosion and soil degradation that threatens our very survival on Earth on a burgeoning population. We should also ban motorcar racing on tracks and not mislead people like Lewis Hamilton to waste oil in driving cars round a track to see who becomes the supreme motor-racing champion of the world and how many times over to beat records set earlier in history as by Michael Schumacher of Germany. I need to make this clear in my next Blog in my Wordpress Blog so that the world is aware that natural resources are finite and must not be wasted going round tracks.

4. While I accept that the Hearing that I asked for may not be feasible in view of the complexity of issues that Her Honour Circuit Judge Backhouse was requested to deliberate upon and pass judgements, I am also equally concerned at not receiving a penny of the £30 million that I sought for damages and compensation for my Foundation for World Development through the now aptly-named 'The Conservative Libertarian Society' and its offshoot in the United Kingdom 'The Conservative Libertarian Party of the United Kingdom which now has a Bank Account at National xxxxxxxxxx Bank (xxxxxxxxxxxxxxxxxxx) into which this sum of money from the UK Treasury must be deposited with immediate effect, so that I can advertise my Political Party, The Conservative Libertarian Party of the United Kingdom' more widely and stand in the elections for the Position of

Police and Crime Commissioner that I have received intimation of from Medway Council: see: <https://theconservativelibertarianpartyoftheunitedkingdom.com>.

5. I should accordingly be most grateful for a reconsideration of the Judgment from the Justices of the Supreme Court that has been communicated to me by neuvoco.com in the below email in directing that I may apply for jobs freely and without paranoia that I will again be persecuted by employers for my religion of Vaishnavism; and with neuvoco.com continuing to act as the sole agent of the Supreme Court in channelling the communication of the proceedings to-and-fro between the Claimant and the Court – In this regard. I now disregard all previous such perceived mediatory communications through ‘indeed of Ireland’ reed.co.uk, JobsLift, and CVLibrary as perverse interferences in the judicial proceedings of my Claim against the Prime Minister of the United Kingdom sequentially elected and appointed by Her Majesty the Queen since 1998 when my legal and medical misfortunes began.

6. In your next communication kindly also send me details of employment opportunities in the field of Environmental Specialist also, while I peruse through the ones you have just sent me on behalf of the Justices of the Supreme Court.

Thank you for your understanding.

Yours sincerely

## JUDICIAL CONDUCT

Regulation and the Monitoring of Judges' Conduct: who judges the judge; the answer is the public.

### DETAILS OF FORMAL COMPLAINT LODGED AT THE JUDICIAL CONDUCT INVESTIGATION OFFICE (JCIO)

Time of Registration of Complaint Online from: Dr Shantanu Panigrahi: 12/13/2020 1:47:48 PM

On 3 April 2020, a Hearing was arranged during the Coronavirus lockdown for which I asked the Court to confirm whether I could have special permission to travel to London to attend the Hearing as the Police required a letter from the Court to facilitate my travel under the State-wide restrictions concerning social distancing. When the Court did not reply to my request for information in this regard, I could not travel to the Venue for the Hearing.

I did not get confirmation either on whether only my presence was required by Her Honour Judge Backhouse at this Hearing, nor had I received the Defence of the Defendants directly or indirectly to incorporate my response separately to the two primary interested parties as respondents, namely Victims of Panigrahi Association (VOPA) and Mr Boris Johnson, the Prime Minister of the United Kingdom against whom the Claim Form was processed.

Instead, I received a Court Order and Judgment from the Court dated 12 May 2020 stating that the Court had decided to adjourn the matter with costs being deferred to a later date.

I repeatedly asked the Court to issue me with Full Written Reasons for the adjournment as the Claim was uncontested and undefended by the Respondents. Nothing arrived to my email address since then and in view of the fact that the obstruction of justice to pervert the course of justice continued through the summer and autumn, in a last ditch effort to have the adjournment lifted I sent an email dated 5 September 2020 to the Supreme Court of the United Kingdom having asked for permission to appeal the 12 May 2020-dated Order of the Central London County Court, but on which the Master of the Court of Appeal refused to entertain proceedings at the Court of Appeal, stating that this had to be processed through the Central London County Court itself.

The response of the Supreme Court quite apparently was baffling and cryptic and I tried to explore what the Directions meant, as shown in the attachment to this Complaint:

ToNeuvococcEnqSupremeCrtRegistrySupremeCourtRatcliffeSolicitors)27Nov2020.docx.

Although I am aware that today is a Sunday, I required some information to be able to deal with ongoing developments that impinge on the legal proceedings described above so lodged a preliminary query at the Judicial Conduct Investigation Office, as follows:

Dear Sir/Madam

1. It is not clear to me this morning (following other emails that I received from neuvoo.co.uk, Reed.co.uk, indeed of Ireland but no employment opportunities in the field of my Consultancy of being a Freelance Environmental Specialist) whether I need to implement another N244 Application Notice to effect the attached written Particulars of Claim for a Hearing or Summary Judgment on Claim E35YM660, in view of the following highlighted concerns from the Claimant's point of view:

ToHerJHonourJudgeBackhouseCircuitJudgeCentralLondonCountyCourt12Dec2020.docx;

ToNeuvoo(AgentofSupremeCourtJustices)12Dec2020.docs.

2. I am currently with my health issues persevering with my two Christmas Casual employment at Royal Mail and Sainsburys, by juggling my shifts of work with the permission of these employers and pending the decision of the Personal Independence Payment of the Department of Works and Pensions on whether my application for Disability payments to enable me to make ends meet in these tough times has been successful, or whether the decision to Direct whatever payments are due to me from the United Kingdom Treasury as damages and compensation through the disposal of Claim E35YM660 is forthcoming in accordance with my pronouncement that the non-lifting of the Claim from its adjournment and without Full Written Reasons for this decision represents a 'gross dereliction of duty to the State' by Her Honour Judge Backhous sitting in the Central London County Court as Circuit Judge; in respect of the attached Order of the Court: Central London County Court Judgment of Order 12 May 2020.docs.

3. In accordance with the procedures applicable to this complaint, I am hereby asking the Judicial Conduct Investigation Office to send me the Forms necessary for registering this Notice of Complaint against Her Honour Judge Bakhous.

Yours sincerely

It is my contention therefore that Her Honour Judge Backhous has abrogated her duties and responsibilities to the State and the citizen in a gross dereliction of duty.

I should therefore be grateful for an early assessment of this complaint as I need to reply to 38 Degrees on the Institution's email to me at 11.59 am today, the 13th of December on the matter of whether I can sign another petition on social issues pending the decision on this complaint by the Judicial Conduct Investigation Office (JCIO) in the assessment of the my Claimants Submission contained here: <https://www.shanpanigrahi.co.uk/447930878>.

I look forward to Hearing from you as soon as practicable and will freeze all legal and medical proceedings accordingly until JCIO has completed its investigation. It may be relevant to let you know that I had been through Her Majesty's Court and Tribunal Service with my complaint but this did not elicit a response, and so my Blog <https://shantanup.wordpress.com> remains unlawfully suppressed and archived by one of the respondents, Wordpress.com.

We have now completed our Constitution, and are fully set up with Banking facilities to start our work in the recruitment of supporters and members through our website:

<https://theconservativelibertarianpartyoftheunitedkingdom.com>.

We confirm that as the Party of Conservative Libertarianism established by the Founder of this Movement for World Development in accordance with the principle of Environmental Sustainability we will attempt to persuade all who have different views to our way of thinking without any proactive means of recruitment. We will rely on the website and its on-going principle to share our knowledge and understanding of society within Nature, to take us forwards democratically by taking part in Parliamentary elections as Members of Parliament that is the House of Commons in Westminster.

We will await consensus among Parliamentarians to determine the prospects for the abolition of the House of Lords, and local democratic elections to Councils, so will try and introduce a Private Members Bill to this effect to test the Constitutional law of the United Kingdom and determine the legality of the denial of this Private Members Bill at the Supreme Court through the adjourned matter of Claim E35YM660, when it is raised from adjournment following the determination of the Judicial Conduct Investigation Office to the complaint application lodged to determine whether or not Her Honour Judge Backhouse either erred in law in continuing to keep the proceedings under adjournment or worse that the Judge abrogated her duties to both the State and the citizen Claimant in the disposal of the Case, taking into account the 5 September 2020 dated Appeal by the Claimant now joined in by the The Conservative Libertarian Party of the United Kingdom; as attached: Central London County Court or Order 12 May 2020.docx;

Subject: Your letter to me sent in post dated 21 December 2020 and received on 31 December 2020

To Mr Darren Turner

ER Admin Team J Sainsbury plc 33 Holborn London EC1N 2 HT

Dear Mr Turner

Please refer to the attached email and letter communications that have been exchanged between Sainsbury's plc and myself over the past few days: ToSainsburysccRashmi30Dec2020.docx; and FrSainsburysplc(MattSageTonbridge)31Dec2020.docx.

On receipt of the letter from Matt Sage I telephoned 0800 027 7777 (Sainsburys Employment Assistant Programme) and spoke with Liz with my concerns on the contents of the letter. She directed me to telephone 0800 0153030 which I did soon afterwards on 31 December 2020, during which I explained that the letter was incomplete by virtue of the fact that 'a copy of the notes taken at the meeting' had not been appended to have formed the basis of the Appeal, so that I am disregarding this letter as premature. Further, I mentioned to the official that I had not returned the Sainsbury's uniform (two coats) and the name badge, at the end of the meeting although I asked Mr Sage if I was required to do so there and then. I had further asked for the notes of the meeting to be issued to me at the end of the meeting, a request which was declined by Mr Sage. I also asked then that it should be sent to me by First Class Recorded Delivery, and this too was declined. So I was asked to clock out and there was no discussion of the attached communication:

ToSainsburys(FeedbackOnlinethrough my Account).docx.

Notwithstanding, I am disappointed that I was not permitted to complete my scheduled shifts during the contractual period of employment before the receipt of this letter and would therefore like to state, pending the resolution of this dispute under Appeal, as follows:

1. I expect to be paid in full for all the shifts that were clarified to me during my Till Training where overtime was added to the original shift schedule.
2. I will only return the uniforms and name badge after I have received the result of the Appeal for reinstatement into the Sainsbury's Tonbridge Road Maidstone Employment on which I am still awaiting the Fair Treatment Hearing to be organised by Steve Bruce of the Company.
3. I do not accept the legal basis for classifying me as not-for-rehire until after the Tribunal at Ashford completes its adjudication - please refer to correspondence: Dr SPanigrahi-FT-inv.remains ongoing.update 10.7.20-1.pdf; ACASNotification(Sainsburys).pdf; 2302781-202 AckEmplTribunalSainsburys.pdf; 2302781-2020 NOHHearing21May2021\_2pm.pdf.
4. Accordingly, I reject the previous issue of the P45 in relation to the Sainsburys Tonbridge Convenience Store employment as has been clarified to you adequately so that your basis for classifying me as 'not-for-rehire' is unlawful and represents contempt of HMCTS as perverse to the Judgement of the Tribunal Judge that the Hearing scheduled for 10 May 2021 at 2.00 pm remains unchanged.
5. I had previously demanded £10,000 in damages and compensation for the reason that my employment record with Sainsburys plc has been bastardised by the issue by the United Kingdom State authorities of the attached email

FrKimberleyBrooks(LawAttorneyagainstSainsburys)20May2020.docx, and this remains my main submission to the Tribunal Judge for its Direction of the Tribunal proceedings under which all the evidence from the 4-5 employment applications that I made during the past year at Sainsburys (and its Argos) will have to be considered in the due disposal of my Claim. Until then the contractual payments of 12 hours as Trading Officer at Sainsburys Tonbridge Road Maidstone and as Services Assistant at Sainsbury's Tonbridge Store, must continue with back pay dated to as continuous employment at Sainsburys in its various branches that started on 15 March 2020: I will be checking my bank statements to reflect that this is taking place until the Tribunal is approached again.

Yours sincerely

## SURVIVAL TO REVIEW

Live first: survive first, and make progress next in exploration of Reality

Do not put your head up, it will be chopped and guillotined by predators in Brahma-Nature.

The foundational belief is that the Universe is pre-ordinated and pre-orchestrated and a Vaishnavist charts his (or her) path in navigating Brhama-Nature with a risk-averse strategy, going only as far as the times under which he lives takes him forwards towards his destiny which he does not know what it is as the end-point, as he lives on. That means right now I have arrived at my destiny to date by being spontaneous, nonchalant and unpremeditated in my actions. I should be satisfied with that in having survived up until this moment. Whether I make any further progress in life towards the next unknown destiny will depend on the next emerging realities, according to my belief that I must remain in total awareness of every moment's prevailing reality and act on my natural instinct which will generate the paranoia necessary for the decision to either stay still until the coast is clear from the evil-components of Brahma-Nature or take positively-evasive or calculated actions to safeguard myself from perceived dangers to my 'house of shelter' in order to survive another moment for the continuing revision of my next path in life towards the Vaishnavic destiny which I term to be the desire for conducting Sanatan Dharma. That is the principle upon which I live at this moment. So I have no objectives, no anticipations, no expectations, no desires, no ego, no mission; and watch the world-cinema go by and if there are developments next that affect my liberty and security, I have faith that I will take an intelligence-based spontaneous step to avert the new danger that I face to continue with my fundamental policy of living survival first and reassess later that what one has done was Sanatan Dharma by waiting for the outcome-response of the elements in Brahma-Nature to that act, and so on.

In so doing, what is being tested is 'whether only truth prevails'. Whether I prevail will depend on if I am the Truth. What is Truth: Truth is the God Sri Krishna that I have hypothesised as an assumption as lying dormant within me in my mind. I act in faith that my sub-conscious mind's instinctive reactions as a human-God has to be derived in reality from that assumption of the existence of a Creator God in my mind, who is also perhaps also in my body and in the environment in various forms that I describe as Brahma-Nature.

So I do not expose my thoughts to the wider world when I actually act even in my publications on the internet to publicise myself as anything. This has been true of all my actions in the past physically or through emails, website posts and blogs that were all spontaneously generated in the libertarian spirit for attaining the sole objective of self-preservation to prevent predators upsetting my apple-cart in the conduct of satya-advaita yoga by putting an end to my liberty and its emanating creations in thoughts as manifested in my publications attempted and executed books, on websites, etc. In publishing any interested party or individual can of course read the material as the mere existence of the material in the public domain acts as an invitation to the world to contact me to address any queries on them so as that I can provide to any interested person or institution explanatory notes about myself all the time which would enable me to review what I had written and revise or elaborate on my research findings. In this way I have always exposed myself to the nth degree: to Police, to Courts, to Members of Parliament, to 38 Degrees, to 50 or so lawyers, and to the global humanity. So I have hidden nothing about myself, having written profusely for total transparency of my actions with the fullest of expositions of my moment by moment thoughts; so my conscience is clear.

Dharmo Rakshati Rakshita is true thus far, its fullest and clearest meaning being that only Sanatan Dharma protects the dharma (actions as karma) attained and it protects the actor too simultaneously from the predators of Brahma-Nature thereby exposed for the perpetration of

injustices upon the rest of Nature including myself: the quest is for search of the mind of God of what constitutes perfection of dharma because if God exists he must protect the person who has discovered and acted this as karma: this is the presumption that I am stressing. So the struggle to have my Wordpress Blog <https://shantanup.wordpress.com> restored will not end. I have to prove that the restoration of this Blog is in the interest of the people of the United Kingdom as a federal State, in the status quo prevailing now, in being in existence as part of the confederacy of the remaining 200 odd other States of the World. I may not achieve that restoration within my life-time, but if Truth does prevail, it will happen after my death, so up until this moment in the prevailing realities of time and earlier such realities as have unfolded on me so far over the past 23 years of the experiences of my life, Dharma Rakshati Rakshita has been true as far as I judge now given the fact that no Judgment has been passed by a Court of Law within the United Kingdom or elsewhere that I have done anything in my conduct other than the continuous service to mankind within my country and for humanity at large, not just over the 10 year-period of time over which I wrote that Blog but also since as its contents have since been repeated in summary form since in subsequent Blogs such as Shantanu's Humanology, Facebook, new Twitter Accounts, LinkedIn and the Conservative Libertarian Society websites.

So I feel right now that my understanding of Creation and my revelations for humanity are 100 per cent correct as far as my personal judgement right now leads me to believe. I question myself all the time in the persistent delusional basis of the search for Truth; this being what satya-advaita yoga is that I experimentally formulated and have pursued relentlessly means to me. That I have survived up to this moment in time with a £1000 per monthly pension and additional savings, and with a lovely wife and also a daughter, in a brilliant house with all necessary amenities locally to make our family life comfortable and in the firm belief that I must not borrow but live within my means constantly in a risk-free/averse strategy for being able to live for another day as being in my mind the only thing that matters and which I personally can be sure of in existence, is proof that my actions were always good in serving me well in my journey of life for the manifestation of Dharmo Rakshati Rakshita; the only life that we humans and all life forms have so that we must make the most of it in charting our path forwards in seeking opportunities to survive and better ourselves through acquiring evermore pristine and total knowledge and understanding of Nature that has for me enables the subconscious mind to attain the perfection of the truth-accommodation that forms the basis of Vaishnavic-living to go onwards further in the prevailing realities of the next moment to come.

So I remain steady and calm and await the telephone to ring, an email to come, a letter to arrive in the post, or some post in the internet that I spot on Twitter, Facebook and LinkedIn which are my socialising gateway towards acquiring ever-expanding knowledge and through that enabling me to take spontaneous actions (karma) to deal with the requirements needed to serve myself, and in so doing serve my family and my State which has housed me since the age of 15 (so that has to be of priority, in that I must adhere to the State's stipulations on me as the bottom line, hoping nonetheless that through the passage of time these will contribute to mankind at large globally), for in the prevailing realities the State of the United Kingdom has the rightful authority to limit my ambitions towards any idealism that I harbour in my mind for humanity, which must be restricted in the priority-interests namely that of the welfare of the present 70 million now of my State-unit.

In so doing I am not taking the slightest proactive step forwards publicly accordingly at this moment in time, much as I do have ideals for the evolution of society towards a utopian humanity in all its senses through my Foundation, The Conservative Libertarian Society.

Sanatan Dharma is when self-preservation becomes Self-preservation which determined by the assumed principle that Dharmo Rakshati Dharma. If one has chosen to marry and have a family, the family runs as a unit in total peace of accommodation of the feelings and needs of the other

members of the family. When one has determined to live as a family within a State, and conducts the family within the restrictions and opportunities or even dictations of the State, one acquires truth-accommodation cohesion within the State; and finally when one has connections with the wider global society and inter-relates with that humanity of the global society within the restrictions imposed upon oneself of one's State and in turn one's family, one acquires the state of karma that is Self-preservation (deliberately written here with a capital S) for that Nature of Planet Earth is all that we humans need to accommodate to. At this level of attainment of karma Dharmo Rakshati Rakshita is complete for the person individually. One is in a complete state of the highest level of liberty attainable at that particular moment in time in the prevailing circumstances, which is all that should concern a person because the future remains uncertain and unpredictable to the individual.

### STILLNESS OF LIBERTY

The proof of Sanatan Dharma is evident to me as a quest to strive for at the very least.

There is nothing higher as a goal in life than living according to the wishes, or more appropriately, the arrangements of the Creator in the framework of the universe. Just like we humans in our Hindu tradition love, respect and revere our parents if we see that they have guided us well in raising us to be who we are after bringing us into this interesting world to witness by observation and enjoyment of Nature with all its provisions of life-sustaining features, a Hindu reveres God as the ultimate Creator. To show this appreciation and thanks-giving we live in Nature striving for perfect harmony with all the constituents of Nature in order to be in harmony with God's wishes in theory. In this formulation all our actions individually are therefore very important in this formulation of one's *raison d'être* and the next phase of our strive towards that goal so that we perennially in search of the truth by testing with our intelligence to probe out this assumed Reality to see if we are living in the oneness with Nature and that this has been the constant outcome of our living moment by moment through our actions during our lifetimes. So we review every moment by moment whether we have done any harm in the past or now in the present to Nature from our ego-based outlooks that generates that seemingly raises objectives-led actions in our minds which disturb unnecessarily any of the components of Nature, good or evil.

Now, this form of living is very difficult to achieve practically and especially in uncertainty still as only a theory for which there are no written wholesome prescriptions in scripture that one can rely on as representing the truth of Reality. Scriptural information is sporadic even within traditional Hinduism itself, so, one needs to spend a lifetime studying other religions and ways of life across the continents of the Planet Earth in one's researching, scientifically, of the components of Nature so as to understand how it works, Created or as a haphazard accidental eruption in the universe, in order to be able to find the best way of living in it in an attempt to ensure that we are attaining the objective of harmony in Nature from all these personal actions, if they are needed within the theory of Reality being constructed, and somehow simultaneously also generate proof that the theory is true from our hindsight reflections on the motivations for what we have done and from the results of our actions what we have achieved in order to try and be the most intelligent human being who ever lived by virtue of having been also the most knowledgeable and sanest.

At this moment in time I travel-on in the assumption that the dedication itself to searching-out the exact construction of Nature by adopting the yoga of truth-discovery through truth-accommodation (that I termed *satya-advaita* for want of a specific word) is in itself dharma (duties and righteous actions of an eternal nature) in that it is constantly aiming for that theoretical idea of Sanatan dharma in that one is attempting to live in perfect balance within Nature; just as we assume that the Creator would have created for His living beings to live to if they are to survive biologically to the end of their natural lives unstressed by what happens to one's material circumstances moment by moment. The reward of such as yoga is then seen as *yogadaan* (Divine-reward from the Creator) in it being the constant and permanent meditative state of peace of mind and even bliss because one's conscience has always remained clear that one has never done any harm moment by moment as one went along as tested by the fruits of one's labour in not having denigrated from the wider humanity in written criticisms with alternative theories being presented in the present era in the history of the Earth from one's periodic reflections as the data collected as evidence accumulated and in the end-review reflection, and those to come daily until the point of death, that through yoga one had reached the state of mind of being able to rely upon one's nonchalant and spontaneous moment by moment actions (*karma*) for the attainment of that resulting mental state of mind of total peace and bliss, having effectively become a *purushottama* living God the Creator (who we assume would always wish to preserve His 'baby' of the universe creation so as to be proud of this creation and not ambivalent to its evolutionary outcome) that is deserved because the individual

pursued in his life having performed his Sanatan Dharma of living finally in the presumptive centre of the Reality-sphere in a Vaishnavic (rajasic pertaining to Lord Vishnu) approach to living.

The question ultimately then is how does one know with certainty that one has done and continues to perform Sanatan dharma in this manner? This is realised by testing continually whether one is surviving materially and spiritually within one's 'material and spiritual house of shelter' that one has created by oneself within Brahma-Nature and waiting to see it perhaps developing into bloom state from the blossom stage that one is leaving it for posterity, in the knowledge that one had personally and finally reached the end of one's truth-search and has ended up with all that one needs in life by having reached a point in one's life that one not have to do any more work (karma) for the idea has been realised that to be one with Nature one should do the least amount of physical work that one can get away with to harmonise ever-perfectly in Brahma-Nature so that one can now just live and enjoy the wonders of Nature in a peaceful mind that has no stress-associated agitation because one has no work to do whatsoever other than just eating, drinking and relaxing with plenty of siesta. This is then determined to be seemingly the yogadaan of having conducted Sanatan Dharma all one's life as a Hindu, the outcome of that dharma, being in blessing and receipt of Godly-divine luck/good fortune of having always had insured for one by the Powers that be that the right opportunities had come along in one's life to meet one's material and spiritual needs as and when they were appropriately required at any given moment, to enable one to being able to live for another moment with one's conscience still clear free of distractive intrusions into one's privacy of freethought and freedom of expression of one's commentaries on the composition of Nature in a service to mankind for the present and future generations that one despite the upheavals that had to be encountered and had survived through the traps of top-predators in ones times because clearly one had not harmed Nature at a personal level, so that one's house of shelter remained standing tall until one's life ended and even with the remaining need to withstand the strong predators as the elements in the winds of Nature so that one could place it on record that Dharmo Rakshati Rakshita as being the ultimate eternal law as created by God was continuing to protect one's life, liberty, and works attained with Divine Protection to enable the person to stand firm to these tamasic elements of Nature unperturbed as they continued to fire blanks. Only, when one keeps getting evidence that this is happening that one continues to conduct oneself in the mental mode of Sanatan Dharma as a Vaishnavist.

The process of satya-advaita yoga continually tests these theories out and also whether or not it was God the Creator living dormant within one's mind that one had, in my case, attained union with through the perfection of one's actions (karma) in conducting ourselves with our freewill to be in harmony with Nature yet continuing to assume that our living our life, as of all the other creatures past and present that have existed in the developments within this universe from inception 14 billion years and it's evolution since were all pre-ordinated and pre-orchestrated, so that the nonchalance and spontaneity of one's actions had continued to pay dividends for our material and spiritual welfare and so it can continue to be conducted in that mode into the prevailing future realities that one has to confront fearless of any adverse repercussions upon oneself materially or spiritually of our actions that it may in some ways cause new disruptions to one's living conditions that would again generate stresses and turmoil in the mind for it to have to undergo further analysis of one's living conditions and revision of *raison d'être* from requiring further evasive self-shielding actions from old or new predators in the jungle of Brahma-Nature that one has to remain paranoid about all the time that these will wait for suitable opportunities to predate up you by setting schemes to try to catch us off-guard to get the Vaishnavist persecuted until his records disappear from the history of mankind, so like a lion wait he or she makes mistakes in judgement in his material dealings that would then expose him to their predatory attacks to try and get him into destitutional-poverty materially so that he would have no choice then but to come out of out of his Mahasamadhi retirement of Shanti Niwas and forced to re-join the rat-race of the jungle once again

instead of being able to continue living in the hitherto attained peacefully-bliss state of mind attained in which the person is living under the stillness of liberty.

Is this the truth that has won and prevailed, or will eventually win (Satyamev Jayate), whatever winning is? Let me wait and see.

Dear Sir

1. I have during the past 6 weeks especially encountered a series of fraudulent activities on my finances held at Santander Bank which I tried to get to the bottom of through personal visits to the Santander Bank at Hempstead Valley Shopping Centre, and through a number of telephone conversations with the Bank officials concerning the following matter:

## BIRTHDAY WISHES

Birthday Wishes to all across the World from a Vaishnavist.

The direction of travel in Vaishnavism is determined by the circumstances that one faces in its requirement of the adherence to the philosophy of the ideal of truth-accommodation as the policy to be adopted and implemented continuously. This requires the maximal level of awareness of the environment that it is possible to attain, so as to be in realisation of the prevailing material realities of one's moment by moment passage of time as one journeys through in life. That awareness comes from continuously studying all aspects of one's circumstances continually to build up one's citadel of knowledge as realising with precision the unfolding realities of Nature as one goes along and which is contained in the overall permanent reality of Existence. With strength of mind and determination to conduct satya-advaita yoga (oneness with truth) that has the implicit objective and ethos of surviving with dignity, one navigates through the jungle of Brahma-Nature towards one's destiny within the principle of 'live and let live' in total non-violent symbiosis with all the other constituents of Nature; be that viruses, bacteria, insects, reptiles, mammals including human beings, carefully understanding each organism in appreciating that they all have an inherent God-given right from their genetic-compositions as nature's endowment to survive in the jungle and evolve the next generation through the natural phenomenon inherent in the mechanisms governing the survival of the species in the Creation of Evolution. Whether we as human individuals or collectively survive through these interactions with the other life-forms in Nature is not something that can be predicted by anyone, not even the yogi, whether or not we take countering-actions against other creatures such as the social-distancing and vaccine administration measures into ourselves that is being enacted the world over against virulent infectious organisms such as the present coronavirus that has become a pandemic and is causing us humans harm through diseases of the body which could potentially kill some or all of us over time; or face up to this challenging reality by passively resisting these environmental stimulus upon ourselves by not adopting any such measures that attack back the intruders. What is certain to my mind is that any positive steps that we take to artificially protect ourselves in ways that destroy the foreigners to ourselves in pursuing the strategy that 'attack is the best form of defence' as opposed to 'defence being the best form of attack' in allowing the natural processes of our body-biology to deal with these xenobiotic foreign particles and organisms, can and will unleash new and unforeseen negative effects of unknown nature yet to current-science immediately or in the future because these are new species of life functioning in Nature which will or may persist elsewhere on Earth that one cannot hide from and which would have progenies that evolve in the future to come back some day with a vengeance to haunt us: so, such measures as we take are themselves new stimuli to further evolutionary developments that may have the potential to reduce our age-longevity individually in other ways and so collectively as a human species as the evolution of life continues into the future. In other words, let us instead adapt individually as independent creatures and not collectively as a so-called species of *Homo sapiens sapiens* to the intruders now and carry on in our 'business as usual' within the new environment to see what happens next and who prevails now and in the future.

So it is said 'be careful what you wish for', in other words, accept your fate, which is the motto that a Vaishnavist lives to by being happy and contented that one is still living so is able to go about one's business, although perhaps albeit at a somewhat lesser level of activity, in sickness even while accommodating to the imminent reality, fearlessly nonetheless, standing up to the invasion in self-isolation as having done personally all that is possible to shield oneself from the intrusions into one's life to enable us to live in the liberty individually for another day that one is entitled to pursue in Nature within the eternal reality of the evolution of the universe. That is truth-accommodation of living within one's means and represents the principle of harmonising with Nature.

This outlook is not weakness but is being as strong as one can by maximising one's ability personally to deal with the challenges that confronts one moment by moment, saying to oneself 'never say die' as the guiding-light to try and survive for as long as one can with one's principles-emanating survival instincts of reacting to environmental stimuli and seeing in this way whether one has it within oneself the capacity to become 'unchallengeable' by such external forces of predation upon oneself that, being intrinsic to Nature, threatens ones survival in liberty at all times from one source or the other, one way or the other. Surviving adversities makes one stronger to face future challenges from intrusive predators upon oneself because our immune system, materially and spiritually, becomes enhanced individually and one is stoical to the miseries of life. One examines this way whether the fortress-citadel one has thereby built for oneself as one's 'house of shelter' defences against all-comers is strong-enough to withstand the forces of the next winds of adversity in the pressures that they put upon one from any of the intrusive and predatory components of Nature, be that viral or human or even climatic weatherwise. We therefore continue to build up our defences always on guard against the forces of predation using the intelligence we have in the ultimate outlook that symbiosis-in-independence is the risk-averse relevant strategy that works when one is always in a state of alertness that anticipates the real moment by moment dangers to oneself, otherwise known as paranoia to medical science: the yogi learns that if one is paranoid, there is a reason for being in such a state of mind.

Making progress towards greater prosperity materially in this manner of the frame of mind of withstanding the existing and new threats that exist to one's liberty to be able to freely think-out moment by moment how to survive independently by thwarting the attacks at an individual level, and not through the communality of socialism with other members of the human species in whatever form they exist for they themselves represent a potential source of intrusive-predation in time whether religiously-motivated and organised under the authority of an institutionalised umbrella over their communities, or more widely, in the State-institutionalisation of secular-political establishment of the government of the society that one is existing within. Herd immunity is consequently a fallacy in this Vaishnavic outlook.

This form of self-dependence constitutes the reliance of mind over matter, living is not important, liberty is the objective because one is not a slave to other creatures and has freethought to channel oneself in navigating Brahma-Nature; it is the power of the mind gained from yoga.

This is the mechanism of self-preservation by Self-preservation in not deliberately doing any undue harm to Nature except to be looking to deriving only one's food, water and the oxygen that is essentially all that the body needs to live on until one dies is the framework of continually striving to attain the stillness of liberty when the mind is at peace all the time during one's life, and in this way it leads one to the retirement-phase old-age of living in Mahasamadhi that there is and which one reaches on completion of process of Realisation, having now all that one needs materially and spiritually, so one is free from work in one's Shanti Niwas shelter of sufficient savings and a pension in having built up the perfect defensive house of shelter, for not needing to go buccaneering ever again into society for more materials to rebuild the defences, so strong they already are.

One has therefore reached the circumstances which represent the final end-point life-stage of work-less moksha for the karma yogi who survived to this point of liberty because he only ever practiced self-defence activities to survive in jungle of Brahma-Nature in having understood it correctly as one lived without harming any of the components of Nature in Vaishnavist struggle to conduct the perceived Sanatan Dharma-dharmayudha to live as a purushottama-poornavata; the attainment of this State being proof that Dharma Rakshati Raskshita has for him, been indeed the eternal law of the universe in the functioning of Nature.

So, my friends and all others in humanity, have you ensured that your 'house of shelter' from your knowledge attained through acquiring the fullest level of awareness of Reality is strong-enough to now have become unchallengeable and impenetrable to deserve the state of Mahasamadhi?

Dear Ms Abdi

I thank you for the above clarification that I have not wasted any of the Court's precious time in acknowledging receipt of the notification and reading it as confirmation that I did not have to pay any Court Fee in relation to the attached Notice of Reconsideration Hearing of Claim E35YM660 (Notice of Reconsideration of Hearing of Claim E35YM660 at the County Court of Central London.docx), that seeks the Claimant's demand for £40 million (sterling) in damages and compensation from the United Kingdom Treasury for the manner in which I was set upon by the United Kingdom State and it's United State ally over the past 23 years of continuous personal harassment, intimidation, bullying, perverting justice, perverting the course of justice to deny my religious philosophy as set out in the attached: BIRTHDAY WISHES TO MY FRIENDS IN HUMANITY.docx.

If the Court has received any supporting documentation for Costs to be heard against this application, these should be sent to me ahead of tomorrow morning's appointment to confirm whether it will be a simple straightforward conversation between Judge Didge and myself, or whether Mr Boris Johnson will personally be simultaneously attending the telephone interview for the necessary cross-examination by me, unrepresented as I am by any lawyer, and in rejecting the 14 January 2021 dated letter that I received in the post from Mr Ravi Patel with its Bundle attachment in acting 'For the Treasury Solicitor' and subsequent presumption publicised by me that rejects legally the notion that any prior Costs have ever been awarded against me against any party, national or international, prior to this moment in time (15.33 hours 18 January 2021) from activities of the Police-State Establishment-secrecy of the United Kingdom in the manner in which the Central London County Court, North Kent Magistrates Court, Maidstone Crown Court, The Court of Appeal and the Supreme Court of the United Kingdom have conducted the criminal and civil proceedings that I initiated during the past 23 years and specifically under Claim E35YM660 over the past 12 months to date in relation to the State's recruitment of Mr Marty Caine as the Founder of the terrorist organisation referred to in the Claim Form as Victims of Panigrahi Association to associate with the Prime Ministers in the State-organised persecution on me.

If this information on the disposal hitherto of my Claim and associated resulting Costs for me or against me is incorrect in any way, kindly send me confirmation of the correct status on the proceedings before 5.00 pm this afternoon so that I have time today to consult a brand new Lawyer from the Law Society Website Find a Solicitor to represent me in tomorrow morning's scheduled Hearing given that I am ready and willing to attend the Hearing as a law-abiding and patriotic citizen serving the commands of Her Majesty, Queen Elizabeth as our Presidential Monarch.

MY TRANSCRIPT OF THE CONFERENCING MEETING OF 19 JANUARY 2021 WITH HIS HONOUR  
(NAME?)

Judge: Over to You.

Me: Yes Your Honour I am grateful that you have given me this opportunity to express my feelings of the injustices. Your Honour, I am a law-abiding citizen serving Her Majesty the Queen as our Head of State Monarch with all the dedication that I can muster and this has always been the case throughout the past 23 years of my struggle to protect my reputation as a fully naturalised citizen from 1984 and especially since the University of Greenwich unfairly accused me of being disorderly in gross misconduct against my colleagues and senior management. I have always followed the letter and spirit of the law laid down by our Constitution which as you must know is unwritten, so that I have had to explore out its provisions through actions that I have taken in all my communications with law enforcement authorities of the State, in the understanding that the status quo of the moment's realities represent the law. This being my outlook I have been looking for a Judgment from Your Honour as to why my lifetimes work published unchallenged over the ten years of my investigations of the Constitutional basis that tested the legitimacy of my actions in society in writing the Blog: <https://shantanup.wordpress.com> should be without explanation during and since the publication of the materials remain out of the public domain as we speak now. As I said in my Claim Form I am seeking only a nominal £3000 for this Judgment in compensation now, while the future proceedings are directed by Your Honour on the disposal of the Claim in its entirety constitutionally, in order that I can take remedial actions in terms of meeting the costs applied for after Your Honours final judgment if I am found to have misunderstood the provisions of the law in seeking my justified perception of my attempts to deal with the Defamation that archiving and suppression of the contents of the Blog represents to me, as we speak. So if Your Honour considers that I have acted unlawfully in any way, I would like an explanation of how this is so.

Judge: The Deputy District Judge's Order is concerned with a Reconsideration of the Application. This relates to your time to consult a lawyer in meeting the Order of 14 January 2020

Me: That is incorrect I said. Much water has gone under the bridge since then. The District Judge harassed, and deceived me to allow Victims of Panigrahi Association to terrorise me for another year to make my life here in the United Kingdom impossible and to make me stateless.

Judge: Is there anything you wish to add?

Me: No thank you.

Judge: Then I am going to give my Judgment.

Conferencing Call ended at 10.17 M.

Letter Handed to Shah Surgery receptionist on 21 Janary 2021 at 8.10 am

Dear Dr Mawanche (Shah Surgery)

Yesterday afternoon, I had a meeting with Dr Odesanya, Consultant Psychiatrist IN Britton House about the continuing perversion of justice by Judges Freer of the Employment Tribunal and HHJ Parfitt at the Contral London County Court in the documents that I received from them and Santander Bank who have frozen my Accounts in not letting me use my Debit Card and Online Access facilities to transfer money to various destinations over the past 5 weeks, and how much distress this was causing me in making my Urological problems even worse so that Finasteride and Tamsoulosin are not working. I asked to be placed back on Risperidone with the consent of my wife and Carer. He stopped me from using your prescription for 50 mg Quetiapinae (attached). Instead of doing that Dr Odesanya increased my prescription medication of Quetiapine that started my urinary problems from 50 mg daily to 100 mg for the first week and 200 mg from the second week. I got this medication from Boots and took 100 mg Quetiapine last night. The result was severe blockage of my urination and pain when the few drops that would come out resulted. Dr Odesanya just does not

seem to see that the Courts and Tribunals are bullying, harassing, intimidating me and perverting justice to let the 1500 criminals who harassed me over the past 23 years go scot-free. I have still not received the Full Written Reasons why the Courts are persecuting me on and on this way, and Dr Odesanya is making my health problems worse and worse with his continual experimentation on me with all the different anit-psychotic medications he can think of like aripipazole, lurasidone, clopazine, etc. instead of following up the referral to Maudsley Hospital in London for Obsessive Compulsive Behaviour trait of Autism that urges me to offload my mind on current issues of concern to humanity, as preindicated from the Questionnaire analysis and the referral of which to Maudsley Hospital was agreed by the Clinical Commissioning Group of Medway National Health Service last Spring. You are aware that I have complained about Dr Odesaya for over a year.

Please let him know that I went to see him yesterday at a Crisis Point because Dr Bhatt of Medway Maritime Hospital has still not arranged my urofluorometry test relating to the attached Prostate-Specific Antigen Blood Test that I am having this morning at 9.10 am, as arranged by the GP surgery in the attached. Normally, the Medway Maritime Hospital would have sent me its own Blood Test Proforma for this purpose.

Please advise me what I should do about the vaccinations (attached).

Now that HHJ Nicholas Parfitt Q.C. found that Mr Shantanu Panigrahi is, as a matter of legal fact, a fukkwit, it is time for VOPA acting through iATO limited claims for its costs including historical costs harking back to October 2017 when Bhardwaj N was engaged. Dr Panesar has obtained accredited legal bills from Smt. Shruti Desai L.L.B. and also from several London lawyers. When this hits Panigrahi in the pocket we shall watch the monkey jumping. Even Albany Air will make a claim. When the prospective in-laws check out Panigrahi prior to their son marrying Rupa, can you imagine what they will say? I feel for that unfortunate lady, last September 19th she turned 30. VOPA could utilise its funds to find a suitable spouse for her, on condition that she disengages from pappu. Marty Caine

FURTHER EVIDENCE OF GIANT TECH CYBER CRIME PERPETRATION IN CLAIM E35YM660 (DR SHANTANU PANIGRAHI VS MRS THERESA MAY/PRIME MINISTER OF THE UNITED KINGDOM)  
NOTES FOR THE CONSIDERATION OF THE PRESIDING UK'S STATE-JUDGE:

1. On 1 February 2021 at 7.40 am (UK-Time) the Claimant noted with concern that the VOPA email of 01.17 am hours (UK-time) to the Claimant had only entered into the Claimant's Mobile Telephone Gmail Account, and had not appeared in the Computer Gmail Account. Furthermore, in the Claimant's Mobile Telephone Yahoo Mail Account, only two emails were available in display this morning:

(a) Sivaji Panesar's 24 Jan 2021 17.17 am email to the Claimant; and  
(b) Morrison's email of 18 January 2021, 09.00 am hours, to the Claimant; whereas all other emails in history of the Yahoo Account were still available to the Claimant for consideration. The shanpanigrahi@yahoo.co.uk Account of the Claimant remains inoperable except as archived material of the Claimant's correspondence over the past 23 years since the dispute began with the State-agency of the University of Greenwich.

2. The Claimant prepared a fresh new edited version of the 'Post for The Conservative Libertarian Society' as an update for Court-approval, at 8.39 am (UK-Time) 1 February 2021 as now being the only appropriate and relevant consideration; having noted with great concern that his Wordpress Blog <https://shantanup.wordpress.com> still remains under unjustifiable legal and moral condition of being archived and suspended from the public domain by the Respondent as constituting intellectual-property theft, violation of copyright ownership and a deliberate act of defamation on the reputation of the Claimant.

## Part 114

My ultimatum to Defective-Inspector Sui-Ling Chan of Hong Kong Police, to serve me and my Ling-Am, is based on the assumption that this subconsciousness mental state represents the interface of the mind with the Supermind as God, thereby assuming that in now operating as if one has perfect knowledge and awareness to be able to take absolutely the right decisions for actions as manifested by its nonchalance, spontaneity and unpremeditational basis for actions, the yogi is himself God as far as he is able to be so in the firm need for the maintenance of ones liberty from the Supermind for continued independence of free-thought as well as respecting the integrity of God as the Supermind so as never to be guilty of having misrepresent Him and risking damage to his reputation as God (for He alone know who or what He is in terms of ambivalence towards any of the components of the universe by interfering in its preservation and direction of travel as an overbearing God to whom we humans must pray and worship for boons and propitiation; the yogi neither looks for such boons nor judges God for whatever good or bad happens to him in life; and in this way the association between man and God representing qualified-advaita, perhaps vishista-advaita Vedanta) mode of living live in the quest for truth-accommodation, which is the fundamental principle as a pre-requisite in the theology of the Vaishnavism that I practice in aiming for perfect harmony with Nature.

We must know the powers of our mind, in terms of the potential it possesses of controlling ourselves in our focus of yogic mind over matter. This is where we derive our strengths as human beings. I would therefore like to submit to your attention that through my Society in which I am currently the only member of the organising Committee and so a one-man band I encourage the adoption of satya-advaita yoga that I have personally developed through experimentation, particularly over the past 20 years, on a hypothesis that seeking 'oneness with truth' is the means for expanding one's mental faculty of awareness of one's imminent realities in the context of the durable and permanent realities. This process sharpens ones survival-instincts as it gathers ever-more pristine knowledge gradually as one builds up and home's in on the Constitution of Nature of ones surroundings, by finetuning it with a neti-neti discernment of discarding what is not true of the perceived reality in the moment by moment Reality Checks of one's mind in terms of how it should analyse the data that one is collecting of the facts and figures on Nature as and the resulting wisdom for actions as one goes on in life.

This is how the Vaishnavist truth-accommodates and in his realisation maintains unassumingly the distance between the (him)self as a human being and the Self (as God) in its Supermind existence as the Creator thereby preserving the integrities of both man and God, all his actions being human in aetiology in its entirety so he is ready for all the material consequences and ramifications of his utterances and physical actions in the samsara with no one else to blame or take credit for what he

does and in terms of the emanating fate of his actions, whether or not it has all been as pre-destined and pre-orchestrated, a possibility that only the Creator knows the truth of, if He exists for certain: one does not ever really know this regardless of the evidence that the yogi has built-up in his mind to justify his continuing Vaishnavism, which is therefore only a theory, in other words. Mind over matter takes us to the belief that anything is possible: the sky is the limit: there is hope for us all, my friends.

Words of Wisdom from the Founder and President of the Conservative Liberal Society and Consultancy Services in Bhibaneshwar and Peshawar issued 3.03 hours on Jan 24, 2021. As The Conservative Libertarian Society we aim to change such human perceptions of reality that understands Science as being totally material in its outlook and approach to understand Nature and use patchwork to make us fit-enough to meet the labour-demands of the State, whereas sustainable living needs us to adopt a more genial and nature-preservational approach in our direction of travel, allowing Nature to take its correctional means of reacting to unharmonising human endeavours in human activity of dominating Nature instead of adapting carefully to any changes that takes place in the environment.

Why does anyone consider that life is not perfect. One should be content with one's living conditions once one's basic needs are met. The

Conservative Libertarian Society advises its followers to be accommodative to ones circumstances to enable one to harmonise with status quo in the emerging realities of the passage of time so as to optimise ones prospects of surviving in liberty and not get burdened with demands that will be placed upon oneself by external sources of recruiting one to join the rat race to greater levels of intensity than ones physical and mental capacity enables. So live within your means, know when to stop your prospecting-buccaneering of the environment so as to remain in peace of mind. Please subscribe to the Society here for our consultancy services

Sudheindra Siddlepur, I am all for establishing a dharmarashtra in India as Bharatvarsha, not Hindustan as such. We must be humane towards all our citizens within a State. I am currently in the the United Kingdom as a Hindu living my life in Vaishnavism. This requires the formulation of national policies that are harmonious with Nature appreciating that Brahma-Nature has sattvic, rajasic and tamasic guna Consciousness and the ideal means of charting one's future as the Prime Minister of one's country lies in the rajasic modus operandi. This requires great caution moment by moment and preparedness to change direction as the imminent reality changes so that a fully flexible Constitutio is required. I urge upon those concerned about the solidity and impenetrability of the dharmarashtra to this philosophy- that you can read more about here:

Self-regulatory Freedom of Press, and Freedom of Tech Giant and Social Media Industry Comments on the report of the World Economic Forum at LinkedIn on 28 January 2021 1 day ago reports: Ursula von der Leyen is calling for safer social media. Subject: Ursula von der Leyen, President of the European Commission Video Press Release (DavosAgenda) 27 January2021. Ursula von der Leyen: What is illegal off-line should be illegal on-line too. - Ursula, please leave Media alone unregulated nationally and globally for self-regulation as a business industry dealing with knowledge dissemination. The Conservative Libertarian Society fosters freedom of expression and s system of Free Press in the belief that those who dish out fake news will sooner or later be out of business from a discerning readership that has extensive access to the greatest possible diversity of news, views, opinions sources based on different levels of knowledge from their ability to conduct investigative journalism. Social Media like Facebook, Twitter, LinkedIn, Google, and other Blogging Services

emancipate mankind with their facilities for the common man, and any suppression of their freedom to operate in free market globally amounts to dictatorially keeping their State populations in the

darkness of ignorance. The general availability of these services such as Wix.com, Odoo.com, Simplesite, Wordpress.com enables those who suffer injustices in various intensities of Police States the opportunity of the facilities to bring the injustices they suffer to the Court of Public Opinion representing closure to their suffering:

<https://theconservativelibertariansociety.com>. Thanks or reading this heartfelt plea.

Commercial freedom of the Tech Giants, and lesser Information generation Internet Services Institutions like Forums (Religious Forums, Talk Rational, Freethought and Rationalism Discussion Board, Secular Café, Rational Skepticism, to name a few that I have had the good fortune to have visited) through self-regulation is essential in our view for fundamental human rights to have a channel of expression. Further, one of the greatest of benefits in maintaining the freedom of the development of the Internet in enabling Tech Giants to innovatively develop their businesses is that the platforms thus generated enables and serves the interests of the attainment of truth-based justice at the material level in that Judges can be reported individually on how they might have erred in law in the discharge of their duties to the State, or whether the State can take ameliorative steps to correct the judicial processes in their future duties of disbursing justice in the evident results that their personal integrity and reputation can be called into question by aggrieved citizens who harbour resentment that Justice has not only been not done but has not seen to have been discharged through their previous disposals of Cases that have come before them. They can exert pressure on the State accordingly to allow them greater latitude and freedom of thought as human beings in considering the merits of each case with a view to focussing on the natural process of considering the merits of Cases to bring them closer to natural law. The Society believes in self-regulation across the board of the government of individual States thus at all levels, individual enterprises, business institutions, judicial systems, and government conduct of politics and policies, all of which will naturally tend in the course of time towards the Society that we have in mind and endeavour to progress towards day by day, in watchful alertness of the moments reactions from the State Law Enforcement authorities that this is patriotic contribution to the next phase of the development of the State.

### HAPPY NOW WITH YOUR BHAKTI?

SimpleSite 22 February 2021 12.00 noon (UK-Time) Happy now with your bhakti?

I reflect on the ups and downs of the past 25 years of my life, as follows: When you were all alone in the world, did your bhakti in your traditional manner of idol worship, of going to the temples and offering flowers and sweets in the rituals of puja, went for dips in Ganga river and especially in the Sangam of Ganga and Jamuna confluence; and with all that when you then came to calamitous-trouble in 1998, you believed that God came to your rescue and would do so no matter how much danger you were in your underlying practice of Vaishnavism that you performed and continued to do so from your childhood. You even wrote under the Title of 'Ram Dasami' when you were imprisoned inside a mental hospital in 2004 and were struggling there to justify your behaviour and actions in the world. You never gave up your bhakti did you, be honest. And you continue to believe that God is showing you the way forwards under Divine Protection. You asked for His Trishul in devotion at the University of Greenwich to fight the rakshases then. Now you believe that it has turned out to be not a Trishul but the Sudarshan Chakra itself. You wanted the Saviour, the Preserver God, and that was Vishnu you now believe, in your assessment that He brought you through the gyana marg (of performing the right karma) in the samsara. This, when you thought for a long time that Brahma was the source of knowledge/gyana, and that the practices of Brahmanism in dharmayudha would take you there in Hindutva mode of travel. Hence, you constructed the idea formulated by yourself of Brahmo Advaita Vedanta then.

Now it seems all too clear to you that all this while it had been actually Vishnu who you believe you had dreamt one night dressed in a white gown in the very early days of your troubles as coming to you, and not Shiva or Brahma. You realised in your own way that history was wrong in having attributed Krishna to being an incarnation of the Supreme Being Vishnu which as what the Vedas were interpreted as by generations of Hindus to be the reality, and you said that you have confirmed from your imaginations and the Numerological studies that you did for your own self in carrying out your 'scientific' satya-advaita yoga, as you call it, that it is in fact the other way round in that Sri Krishna is the Creator, and He is represented in your conception of Prakriti of Brahma-Nature in the Vishnu of the Trimurti Triad as the Preserver and Saviour. To change from your new understanding

you shifted from your original University days of pursuing the tamasic mode of conduct in Brahma-Nature as being destructive in the Shiva as the Destroyer/Lingaraj of the Trimuri, You wanted to become sattvic in being pure-hearted and so became a vegetarian in the mental hospital in 2004 and even later wanted to be a vegan as you continued to fight your legal battles but you found that your wife would be overloaded with kitchen work to cook vegetarian food for you and non-vegetarian for others, and in other ways also you found that even this modified Brahmanism mode of operation did not help because that only took you to Brahman as the Self who would not give guidance from meditation practice of sleeping on how to fight for material justice for yourself, and so It would not do so for anyone else on Earth. You had wondered if being an advaitist in Brahman should be the sattvic purpose of living your life, and for which Brahma in the Trimurti should be accessed, that took you to Brahman, as Brahma gyan, but when you went there but found that it did not help you to conduct your duties to your family in taking the right decisions to fulfil your marital vows to God, Sri Krishna or Vishnu (you did not know because no one told you at the wedding which of the gods was blessing the marriage-ceremony in 1985, so were seeking divorce from her in legal proceedings for fear that she would put you back in the mental hospital from her reports to the Psychiatrist on your behaviour at home which you were continually harassed and persecuted. So you soon realised it Brahman was not going to be part of your *raison d'être* as unsustainable for your own life, seeing instead that advaitists related to Brahma and consider it to be Consciousness to be at one with, for they claim to find mukti/liberation from that form of realisation and oneness with Creation. You were not able to go there if you wished to remain within your family and not in an physical-ashram in Friars at Aylesford, Kent, but wished to remain at home life to seclude yourself society in that you were seeking to find it as your 'Shanti Niwas' ashram but even your wife was a source of irritation and harassment on you and would not leave you alone. You decided then that you were therefore not any kind of sanyassi who claim to understand Creation from reading the scriptures of the Upanishads in the contemplation manner. Your mind could not ever do any other kind of forced meditation to even try and find out even when the Psychiatrist said that you should do 'mindfulness' exercises. You wanted instead to be active in life and immerse yourself in Creation by relying on your fate as kismet/naseeb as devotion to God on the premise that everything in the world is pre-ordained and pre-orchestrated so going against that consideration was sinful and you had therefore to become nonchalant, spontaneous and unpremeditated in your actions which would then determine your karma in the rest of your life. So, you still did not give up your bhakti and what happened to you since was your Sanatan Dharma mission to serve mankind as you saw the results unfolding through appropriate karma/activities as a preserver of Nature yourself.

At the same time, you realised that Shiva is Destroyer, severely tamasic like a tiger, so plunderer, exploiter, slave-master, predator, sexual deviant in paedophilia and rape, and very schematic in being Satan-evil like the extreme forms of Islamic conduct in Brahma-Nature. Above all, you saw finally that the country you lived in was itself a dictatorial Monarchy dressed up as a liberal-democracy, where even the Prime Minister of the day was also a slave to the present wicked witch, who you defined as being the green-witch of tamasic-evil, who uses agents to buccaneer into people's life-savings by destroying family life of individual groups that maintain the highest possible level of liberty for the family members living together in symbiosis of family-socialism, into societal socialisms enforced through the idea of nationalism that the people are coerced into displaying whether they like it or not by accusing them of not being patriotic if they do not cooperate, and thereby enforcing the idea of the equality of men and women as well as gay, lesbian, bisexual transvestite people through legalised single-sex marriages and civil partnerships; and further the depriving children from inheriting their parent's savings that they wish to bequeath to their loved ones through inheritance taxes and the deliberate acts of Parliament designed to split apart the close-knit family structure of family-socialism; and finally, send senior citizens to Care homes that they have to pay money towards to make them the useless live long lives so that the buccaneering parasites of the tamasic-Satan evil can profit from the destruction and incarceration in this

institution. Thus, in this way the rest of the population of the United Kingdom (sattvic and rajasic) were all held as captive-slaves to the Monarch through the legalisation process of Democracy, and in that way there was no prospect whatsoever for your efforts to bring her to account legally by instituting processes to boot her out by getting the Monarch legally dethroned, impeached or changed constitutionally to remove her assumed divine right to rule over the United Kingdom and its global realm by reducing the Monarch's term in office to a 15 year-term only following which a referendum would have to assess whether she had done well-enough in performance of the duties of the Monarch to still have the job as Ruler reassessed by the electorate though your party, <https://theconservativelibertarianpartyoftheunitedkingdom.com>: it had no chance to get approved by the Election Commission, so you have had to abandon your desires to change the Constitution of the United Kingdom against such an Absolute Monarchy dressed up in a nation for publicity purposes under the term 'Constitutional Monarchy' so as to render the façade of civility by giving the impression that the people wanted the Monarch to continue till he/she decides to abdicate or when death deprives the population by such a calamitous event to put an end to their hearts desire to love and to cherish the Monarch in living their slavery-subservience and surrender to her moment by moment wishes. Further, you found in your understanding now that while Brahma was responsible for the sattvic sentimentality of piety for self-glorification purposes for the bestower and the doer in the receiving of not only financial-security but also awards for the slaves (to also be rewarded by 'gongs' in name-titles, like Professor, Sir, Dame, etc), building statues and public monuments for them for the sacrifices they made to the Monarchial-Empire, and associated worship of the slaves in the future in recommending them as saints of Catholicism and the 'Very Reverends' of the Anglican Church for providing care, comfort and doing other saintly social duties of 'dharma' to the Monarch/Dictator, akin to the adoption of what the Buddha pronounced in the Eight-fold Path of the four Noble Truths Dhamma, adopted in many countries to rule over their people in slavery.

So now you have, when all is said and done ended up in the rajasic mode of operation, and founded the Vishista Advaita Vedanta, as the philosophy in <http://vishistaadvaitavedanta.bravesites.com/>, with its religion of Vaishnavism to worship the Saviour and Preserver of Brahma-Nature in the rajasic modus operandi in <https://www.theconservativeliberariansociety.com/>. You are not concerned with whether it progresses further materially now or ever in the future to any form of personal or collective wisdom for implementation into dharmarashtras, world-wide within States, or globally as a unit, for it is not possible for one State to pursue this agenda when other States are pulling the wagon of humanity in other directions. Effectively then, you are stuck with all your material objectives having been as the delusional pursuit of missions, that have threatened to take away your liberty once again by the State potentially you back into a mental hospital again, as happened in 2004 and 2008.

In your final own assessment now you therefore think that impositions of any kind of morality upon the population is wrong: that what you have been inventing in terms of concepts for the management of the economy were never going to get to acquire followers and disciples for they have not been practicable-enough for the common man and those politically-motivated to consider implementation as immeritorious. Instead, the golden rule of being at one with Creation is to allow societally-accepted moralities as the evolutionary-justified disbursement of natural liberty of living in Nature using whatever a person's own genetically-determined intelligence enables as Created by God so that no one is having to consider escaping out of the otherwise considered 'hell-hole' of samsara as perceived by individual judgments of values which could all be delusional, as you are well-aware from your own experiences, so promoting any such idea by yourself is civil-disorder of sorts which may cause mayhem in the world and so suicides which you abhor as ahimsa for what you propose yourself may be viewed as many as anti-social and disrupting the collegiate manner with which people of the world live together as one humanity with their differences take care of in the changing boundaries of geographical States. Your values that you describe in your formulation of

Vishista Advaita Vedanta and its offshoot The Conservative Libertarian Society is non-secular and who on Earth wishes to live to a imagined Higher Supreme Entity that you are describing as Vishnu, have you thought of that? Have you got any proof of Vishnu or the Trimurti Triad that you talk about. You have not a shred of concrete evidence for your proclamations, that you are effectively warning humanity on in suggesting that they are foolhardy in their acquiescence of surrendering to what you only perceive as the Satan-evil States' bastardisation of the underlying-Reality of the universe in the various countries of the world as presented to their populations in getting them through your publications to adhere to their Holy Books-based secular Constitutions, and considering that the suppression of your Truths is preventing them thinking for themselves through a study the formation of your 'cherished' Blog 'Towards Knowledge for World Conservation' at <https://shantanup.wordpress.com> of the 'evidence-based' compilation of what you consider to be human rights issues that formed the basis of the present Shantanu's Humanology website (<https://shanpanigrahi.co.uk>) as a nail in the coffin of the old world order: delusions of grandeur, do you not think now? So, I say to you think again both forms of escapisms from ground-based realities must be avoided in the face of the inevitability that the status quo would have its own evolutionary path to progressing forwards and your involvement can only do more harm to Nature, not preserve it. And be-warned you will end up destroying your life of being in some limited liberty that you enjoy now in a great and wealthy country of the United Kingdoms in your delusional quest to do some kind of service to mankind, consider regarding it as an attachment which as you yourself wrote in Facebook as being suicidal in living life as a Libertarian, and you very well know that there is no value to martyrdom when you are silenced and returned to the mental hospital as you feel seems likely from the lack of reply from Ms Sharon Harris today from the Office of Immigration Services Commissioner on its Case Ref 9145 considerations on your right to British or some other Citizenship. Liberty has to be sacrificed, you have been pursuing it as a spiritual enterprise, am I right, mukti, ananda, nitvana and moksha that you have mentioned. Have you considered at an end of this day that spirituality is morally wrong, if not even sinful if you truly believe in Creator Gd and wanting that God to Preserve as you put it so putting the onus on the God to guide you in your spiritual-objectives? You asked for my advice and I gave you plenty. So, you are thinking now very carefully on your next path in life, from living in the liberty that you have at this moment that you cherish above all else so as to be in freethought and flexible in your navigating your path through what you describe to be jungle of Brahma-Nature, so that you have rightly now I believe let the bygones be bygones and live to free in your own mind to live in only that mukti from what you describe as the ugly face of socialism in its partners in crime of the sattvic and tamasic elements combined as the social-animals as you put it of sansaar . In my final comment then sort your House of Shelter and see if you are even able to live with your chosen duties to those who are dear to you, if anyone really is, so as to preserve what is left of your useless and meaningless life in search of the meaning of life, and see what those who are left in your social circle now as your 'loved ones' in your own family stick by you.

Are you happy now with your bhakti for Creator God, Sri Krishna? – or will you continue with your buccaneering for more truths as so-called satyagraha through the satya-advaita yoga, that you call yourself as practicing. Answer me! Will you ever learn?

You did not answer: Have I not covered everything?

Dear Sir

I need an Indian Passport immediately to travel to India as soon as possible. I currently hold as I write a full Passport of the United Kingdom, as attached 2020-11-27\_0090339 Shantanu Panigrahi.pdf. I have never ever during the stay in this country been charged with any crimes or misdemeanour let alone being convicted for any kind of even forensic conduct (although I am classified as a mental patient in accordance with the attached Care Plan [FrDrOdesaya(CAREPLAN)19Feb2021] because of disciplinary charge levelled against me in 1998 by the University of Greenwich which I denied consistently), and which has not yet been superceded by any other Care Plan for more severe restrictions on me from the Consultant Psychiatrists at Britton House, Gillingham, Kent ME8 0SL. In this regard I had twice in 2004 (3 months) and 2008 (1 month) been admitted to mental hospitals, but have lived happily in the Community since then with full freedom each day of my life since. You may please let me know what the procedure is to institute this application for an Indian passport as born in India and having come to the United Kingdom at the age of 15 with an Indian passport until 1984 that I then surrendered to take the Citizenship of the United Kingdom under a Naturalisation Ceremony that has failed to materialise because of my Vaishnavism religion.

Please let me know what my prospects are. The United Kingdom State authorities are aware of my financial resources to settle in India for my retirement as this email document would show:

Toindeed(SupremeCourtofUK)25Feb2021. This application has been necessitated this evening following lack of Appeal at the Supreme Court of the United Kingdom on the attached application ToSupremeCourt5Sep2020.docx.

Ursula von der Leyen: What is illegal off-line should be illegal on-line too.

Reply from Dr Shantanu Panigrahi:

Ursula, please leave Media alone unregulated nationally and globally for self-regulation as a business industry dealing with knowledge dissemination. The Conservative Libertarian Society fosters freedom of expression and a system of Free Press in the belief that those who dish out fake news will sooner or later be out of business from a discerning readership that has extensive access to the greatest possible diversity of news, views, opinions sources based on different levels of knowledge from their ability to conduct investigative journalism. Social Media like Facebook, Twitter, LinkedIn, Google, and other Blogging Services emancipate mankind with their facilities for the common man, and any suppression of their freedom to operate in free market globally amounts to dictatorially keeping their State populations in the darkness of ignorance. The general availability of these services such as Wix.com, Odoo.com, SimpleSite, Wordpress.com enables those who suffer injustices in various intensities of Police States the opportunity of the facilities to bring the injustices they suffer to the Court of Public Opinion representing closure to their suffering:  
<https://theconservativelibertariansociety.com>. Thanks for reading this heartfelt plea.

Associated considerations:

Commercial freedom of the Tech Giants, and lesser Information generation Internet Services Institutions like Forums (Religious Forums, Talk Rational, Freethought and Rationalism Discussion Board, Secular Café, Rational Skepticism, to name a few that I have had the good fortune to have visited) through self-regulation is essential in our view for fundamental human rights to have a channel of expression. Further, one of the greatest of benefits in maintaining the freedom of the development of the Internet in enabling Tech Giants to innovatively develop their businesses is that the platforms thus generated enables and serves the interests of the attainment of truth-based justice at the material level in that Judges can be reported individually on how they might have erred in law in the discharge of their duties to the State, or whether the State can take ameliorative steps to correct the judicial processes in their future duties of disbursing justice in the evident results that their personal integrity and reputation can be called into question by aggrieved citizens who harbour resentment that Justice has not only been not done but has not seen to have been discharged through their previous disposals of Cases that have come before them. They can exert pressure on the State accordingly to allow them greater latitude and freedom of thought as human beings in considering the merits of each case with a view to focussing on the natural process of considering the merits of Cases to bring them closer to natural law. The Society believes in self-regulation across the board of the government of individual States thus at all levels, individual enterprises, business institutions, judicial systems, and government conduct of politics and policies, all of which will naturally tend in the course of time towards the Society that we have in mind and endeavour to progress towards day by day, in watchful alertness of the moments reactions from the State Law Enforcement authorities that this is patriotic contribution to the next phase of the development of the State.

(4) Details of the alleged offence(s)

CrimPR 7.3 requires that an allegation of an offence in an application for the issue of a summons or warrant must contain (a) a statement of the offence that (i) describes the offence in ordinary language, and (ii) identifies any legislation that creates it; and (b) such particulars of the conduct constituting the commission of the offence as to make clear what the prosecutor alleges against the defendant.

The series of Chief Constables of Kent Police from 1999-2020 oversaw the systematic Hate Crime perpetrated against me by the Security Services of the United Kingdom and the Pentagon of the United States of America to terrorise me and obstruct justice in the Civil Courts of the United

Kingdom as well as the Mental Health Tribunals where I am detained (first as in a Secure Ward of the Mental Hospital in Ashford and the Littlebrook Dartford mental hospitals in 2004) as a political prisoner for my religious beliefs of Brahmoadvaita sect in Hinduism practicing Brahmanism in the understanding that dharma rakshati rakshita. Kent Police covered up the 1500-odd national and international criminals who terrorised me over this period starting with the University of Greenwich which withheld my £55,000 redundancy payment from my scientific job at the Natural Resources Institute in 1998 under the false charge of gross misconduct supposedly in the Brahmoadvaita-proportionate and physically non-violent protestation of my innocence to probe out whether the University was racist and subjected me to unfair dismissal for retaliation over the continuous 1-year of work-place intimidation, harassment, bullying, covering up criminal activities and perverting justice by calling in the Mental Health Institutions of the State to label me with paranoid schizophrenia and persistent delusional disorder and possibly autism, none of which is true because I am not only the sanest person in the world today but ever in having constructed Green Socialism to prevent the planet entering into decades of depression of depreciation of natural resources, biodiversity and loss of soil nutrients from the intensive global agricultural and humanity practices that are monocultural in conception from the United Nations and has to feed an ever-burgeoning human population.

The Prime Minister of the United Kingdom mobilised the international community of moronically-governed States of the United Nations to prevent me from getting asylum away from these 23 years of State-organised persecution for my religious beliefs, and I was harassed by emails by North Yorkshire Police and West Yorkshire Police to try and make me Stateless. Over 800 criminal anonymous emails were sent to me and my associates to disrupt my employment work to be able to earn a living in the United Kingdom and Boots the Chemists in particular sent me cryptic messages to get me booted out of the United Kingdom with the complicity of the Indian Immigration Visa Services-sent emails to return to India on my British Passport where I would then be terrorised further by the Indian government for my religious pre-occupations of dharmayudha to better our lives in this generation as well as for all future generations of mankind.

The case for damages and compensation for £50 million pounds to be credited to my NatWest Account by His Honour Judge HHJ Parfitt of the Central London County Court was never dismissed but adjourned pending what, I do not know, possibly on the false pretence that psychiatric reports were needed on me before a Judgment could be delivered, according to the results of the Appeal I lodged in the Supreme Court in my 5 September 2020 to name the Master of the Court of Appeal who had deceitfully and deviously disposed-off my permission to Appeal the adjournment of the E35YM660 Claim against Mrs Theresa May and now the present Prime Minister Mr Boris Johnson. This morning my latest attempt to find a solicitor after over 50 such attempts (as below) received no reply, which has all been covered up by the Legal Ombudsman against whom I asked Malcolm Dodds of North Kent Magistrates Court several years ago to initiate that private prosecution; and also against the Solicitors Regulation Authority and the Centre for Effective Dispute Regulation which have also not considered my requests to intervene in this matter:

In summary, the Chief Constable of Kent Police must be summoned today to put forward his defence of why he had not taken out criminal-prosecutions with the Crown Prosecution Service against these national and international humanimals who have committed this extensive Hate Crime on me under the auspices of the functionality of the Brahma-Nature conspiracy theory of mine. The Crown Prosecution Service over these years covered up the disgraceful conduct of these Chief Constables since I first reported the matter a decade ago (I cannot trace the correspondence because it was publicised in my Blog <https://shantanup.wordpress.com> and stored there but the criminals archived and suspended this Blog that was entitled 'Knowledge for World Conservation').

Please act quickly, for I fear that the Mental Health authorities will send in their Mental Health Team today to cart me away to the Mental Hospital to deprive me of my remaining liberty to enjoy life in the freedom and security of my family in Shanti Niwas.

Thank you, Sir/Madam.

(5) Summary of the circumstances

CrimPR 7.2(6) requires that an application for the issue of a summons or warrant for arrest must concisely outline the grounds for asserting that the proposed defendant has committed the alleged offence or offences. Summarise your grounds for alleging that the proposed defendant has committed the offence(s) for which you want the court to issue a summons or warrant. Give an indication of the evidence on which you will rely if the court agrees to do so.

I have tens of thousands of email communications that I have saved in a dozens of hand-written Diary Files at home and associated correspondence Files that I will bring to the North Kent Magistrates Court for the consideration of the Magistrates and which are available now if the Court issues the summons applied for first.

Dear indeed,

1. I do hope that the attached tentative enquiry has not broken any promises that I have made to Her Majesty the Queen to abide by all the cultural norms of the United Kingdom in accordance with my commitments to the 1984 Naturalisation Ceremony for British citizenship, and thereby to adhere strictly to the letter and the spirit of the agreement now reached with the unanimous decision of the

Justices of the Supreme Court of the United Kingdom in relation to my 5 September 2020 Appeal (attached: ToSupremeCourt5Sep2020.docx) by writing to Tesco as attached:

ToTescoSupermarkets(jobs)27Feb2021.docx. We will let Wordpress do what it wishes to on the restoration of my cherished Blog <https://shantanup.wordpress.com> as I wish to reduce my costs of the litigation on account of lack of financial resources to pursue the Claim with no Legal Aid in sight for the Claimant of E35YM660: ToStatusSolutionsUKLtd(ImmigrationLawyers)26Feb2021.doc; so I must finally completely abandon my pursuit of justice in a civil and a criminal court of the United Kingdom or in an Indian Court of Justice immediately.

2. Incidentally, my wife is saying to me when I told her that I passed another job questionnaire for Tesco not to build up my hopes too much. There is also the question of whether my Consultant Psychiatrist who I really do like a lot, Dr F Odesanya at Britton House, Gillingham, Kent, will question me as to why I have applied for this job or at least trying to apply in relation to his advice to me, which my wife does not really agree with because she thinks work will be therapeutic for me, especially the Maidstone Tesco Extra job. So I am copying this email to KMPT to keep Dr Odesanya informed, even on this Saturday, with regard to the attached request for a medical review, that is urgent from my point of view if I am to progress my rehabilitation into society:

FrKMPTPALS(LoisDerham)25Feb2021.docx.

3. I will also look through any other possible jobs from the current list that are within easy traveling distance to my home, if that is all right with you: please advise without any kind of delay.

Yours sincerely

Dr Shantanu Panigrahi, 3 Hoath Lane, Wigmore, Gillingham, Kent ME8 0SL, Tel: 07967789619.

PS: Incidentally, and I almost forgot, please forward my passport 2020-11-27\_090339

ShantanuPassport.pdf to Tesco immediately for I do not have their email address: the ones I have are 'no reply' ones it seems.

Dear Madam

1. "The Crown Prosecution in Kent failed to provide any legitimate reasons not to conduct a prosecution against the Chief Constable for being part of intense and widespread conspiracy in the perpetration of a Hate Crime against me with the collusion of the Magistrate in North Kent Magistrates Court in Chatham Kent, directly, and on my personal application for Summons on the Chief Constable dated 27 October 2021 that was updated this evening at 19.54 hours. Around 50 lawyers and law-firms, as well as His Honour HHJ Parfitt and his predecessor Her Honour Judge Backhouse were the last Central London County Court Judges who were complicit in this hate crime that involved Dr Odesanya, the Consultant Psychiatrist at Britton House, Gillingham, Kent."

Compensation Demand from the Crown Prosecution Service:

£50 million sterling in damages and compensation for 23 years of State-organised religious persecution of a Vaishnavist.

2. There were altogether 1500 criminals listed in the Claim Form E35YM660 including the Chief Defendant, the Prime Minister, Mr Boris Johnson, whom the Crown Prosecution Service deliberately protected in complicity with the full set of Justices in the Supreme Court of the United Kingdom, as you will note from the Summons for private prosecution that I submitted to North Kent Magistrates Court: APPLICATION FOR SUMMONS\_-1(Apply27Oct2021).doc; in connection with a private prosecution initiated as a counter prosecution of an Appeal Mention to Fix Hearing to hear the matter at Maidstone Crown Court relating to false and fabricated Speeding offence mounted on me by Kent Police when I had clearly admitted that speeding took place and I wished to take the route of attending a Driving Course for a clean driving record without any penalty points and no fines to be paid. I was then set upon by an organisation calling itself 'Victims of Panigrahi Association' who tried to make me 'Stateless' with no employment rights and embezzlement of £8000 of my lifesavings held in Santander Bank, where I had two accounts and not only was the online Access blocked three months ago under the pretences that the Bank was conducting Security investigations on the account, the Bank stopped me from withdrawing my own Current Account money on which I spoke to Colette of Santander Bank this morning on the telephone when I again failed to get even £20 out earlier on today and she said that she was sending this update to Santander's Security investigator but no one called me back on the telephone and no emails have been received. The embezzlement of the funds of The Conservative Libertarian Society and its offshoot The Conservative Libertarian Party of the United Kingdom to which I had donated the £8000 three months ago was blocked hence to stop me from engaging in political activities in this country and abroad:

[https://theconservativelibertariansociety.com](https://theconservativelibertariansociety.com;);

<https://theconservativelibertarianpartyoftheunitedkingdom.com>. It was a giant conspiracy as the attached summons have still not been issued and served and no explanation provided to me under false and deceitful pretences as the attached email shows:

FrNorthKentMagistratesCourt2Jun2020.docx.

3. I am a layman but do know that the Chief Justice of the Supreme Court is not beyond the law and must be prosecuted as a conspirator with the Chief Constable of Kent Police by the Crown Prosecution Service. This is my demand if the £50 million is not credited into my NatWest Bank Account by mid-day tomorrow (Account Sort Code 60-17-44; Debit Card No 4751 2902 3982 1523).

4. Madam, at this point in time I am being persecuted by indeed of Ireland non-stop as supposedly an agent of the Supreme Court Justices to bully, intimidate, harass and obstruct me into seeking truth as a satyagrahi to pervert the course of justice. If I receive any further intrusions into my privacy I will forward them to you. Please let me know what the Crown Prosecution Service has now decided as I cannot find their email number ready to hand.

Dear Sir/Madam

Thank you for this email.

I was waiting to hear from the North Kent Magistrates Court in the past hour to inform me how the few flaws in the Summons identified by Lucy Trevelyan could be ironed out for the Crown Prosecution Service to reconsider the issue of alternative Summons on the Chief Constable of Kent Police, the Chief Constable of West Yorkshire Police and the Chief Constable of North Yorkshire

Police in relation to the proceedings, but have not heard from the Court as yet, on whether the Director of Public Prosecutions Madam Max Hill should be the only person against whom the Summons will be issued and served by 5.00 pm this evening, but you may consider the attached relevant: (a) ToLucyTrevelayan(inbriefreplytoCRN00014177)DPP28Feb2021.docx; (b) ToMonnekaTahir&KamranHussain;(BlackmansSolicitorsLLP)23Feb2021.docx; (c) ToMrAnthonyShawRedQCLionChambers(EmergencySummonstobeissued)1507pmhours4Mar2021.docx; and (d)APPLICATION FOR SUMMONS\_-1(Apply28Feb2021)c.doc

If I receive any further information to iron out the flaws from the Magistrate presiding over this Summons on Max Hill, before 5.00 pm today, I will forward these to you for a revised Defence; otherwise, you may consider the Summons already served on the Defendant by the Magistrate concerned at social welfare and social justice.

Dear Sir/Madam

Kindly send me your demands for costs incurred in this litigation immediately, identifying all the respondents involved with their Bank Account details, postal addresses and email addresses. I need to get this off my chest today. I never have trusted the several judges in this case as elsewhere in Her Majesty's Court and Tribunal Service as all liars and dectieful idiots who have persecuted me over a 22 year period as evidenced from this latest delayed service of the attached Court Order, and the silence of Sir Christopher Chope with the rest of the morons in Parliament including at the Speaker's Office. I just wish to get this persecution to end, no matter how much I have to pay to secure my material and spiritual liberty to go about my business of standing in the forthcoming elections as an independent candidate representing the ethos and principles of the Conservative Libertarian Society (<https://theconservativelibertariansociety.com>). The investment of time and effort on my part to expose this corrupt Monarchial-Constitution parading itself as a Liberal Democracy to fool the world with was well worth the price that I am having to pay now. I do not wish to submit to the District Judge in determining the Costs on behalf of the Respondent, or Respondents now.

Yours sincerely

Dear Sir/Madam

Thank you for this email. I had made the attached representation to Sir Christopher Chope this morning: ToSirChristopherChope(Conservative)ContactPointMessage22Mar2021, not knowing that a Court Order had been issued.

I fully accept His Honour Judge Parfitt's decision in this regard and submit to the due process of consideration for the awarding of Cost to the Respondent identified by His Honour Judge Parfitt bearing in mind that I do not know who they are, whether it is Mrs Theresa May or Mr Boris Johnson and whether His Honour is still considering whether the organisation calling itself Victims of Panigrahi Association that I objected to in accordance with the attached schedule: CLAIMANT'S SUBMISSION21March2021.docx has been or is being incorporated as His Honour wished or wishes now to consider Points 3 and 4 of the Order:

3. The Respondent's application for costs of the action must be referred to a DJ pursuant to CPR 3.5(2)(a) and the Respondent's letter dated 13 January 2021 and two costs schedules contained in the Appeal bundle (in pdf format) shall be treated as an application in that respect.

4. The Respondent's costs of the appeal are to be treated as Respondent's costs in the action.

I fully intend to comply with the directions of this Order, and would therefore wish the full cost schedules associated with this Judgement to be emailed to me so that I can check with my Santander Bank Account immediately to determine if I have sufficient funds to make the on-line transfer of appropriate funds to the Respondent to bring this matter to a closure. I do not intend to challenge the costs judgment from the District Judge accordingly, but will let you know if I can meet

them as a single payment or in instalments if the Bank Account details are provided to me immediately. I do not wish this to go on any further and wish to have a clean break and a clean start to what I need to do to in securing a source of additional funds from employment again to meet outstanding costs during the rest of my life in the United Kingdom. My Pension money of £1000 per month are given over to my wife to run the household with in this regard, so the sooner the District Judge clarifies my obligations towards lawfully abiding by Judgment and Order of His Honour Judge Parfitt, it will help me to move on in life.

I am truly sorry to have wasted Court time and the Respondent's time and resources with my continual persistent delusional disorder and paranoid schizophrenia that Dr Odesanya has diagnosed me with at the Mental Health Institution of Britton House, Gillingham, Kent, so plead with the District Judge to take this into account in his/her decisions on how I can make amends for my past transgressions that has brought some degree of chaos into the processes of litigation and the private prosecution of Crown Prosecution Service that I am awaiting a decision from the Magistrate in Medway Magistrates Court on. Please let me know today what I need to do now having clarified as above.

Yours sincerely

I have already said that I will deal with each demand for damages or costs of defending the litigation at Central London County Court Claim E35YM660 and Queens Bench Claim HQ17X01773 individually to meet these. Please sent the invoices to me now at shantanupanigrahi@yahoo.com copied to Shanpanigrahi3000@gmail.com. if you wish; and do not forget to send me your Bank Account Number and Bank Sort Code as well. Please also inform Her Honour Amanda Tipples, Her Honour Jude Backhouse, His Honour Judge Letham, His Honour Judge Didge, His Honour Judge Parfitt, Master Eastman, and Master David Jenkins and this evening's Duty Chief Justice at the Supreme Court with respect to my 5 September 2020 dated Appeal about this decision of mine as the Claimant. This is because I could not find a mental health lawyer nor a private prosecutor lawyer for

my Summons to arrest the Director of Public Prosecutions, nor could I find an independent lawyer to defend me against criminal or forensic prosecutions by the Crown Prosecution Service, nor could I find an Immigration and Citizenship lawyer, and neither could I find a lawyer to defend me against civil litigation against me for damages and costs; hard as I tried from all of the countries of the world. Please also let Her Majesty the Queen know that I am taking my antipsychotic, antidepressant and mood stabilising medications and in obeying her command not to be selfish, have booked my first Coronavirus vaccination for 15 March 2020, and the second dose on 31st April 2021. I remain your most obedient slave-servant. Thank you for all you have done for me. If possible send me the Privy Council email address at the intersection between the Supreme Court and Her Majesty the Queen, and the intersection between the Speaker of the House of commons and Her Majesty the Queen, so that as a last Resort, I can send the REQUIRED petition through the correct channels to her Majesty the Queen to speed up the payments of my Personal Independence payments (PIP), backdated to the point when the Department of Works and Pensions (DWP) stopped paying me my Disability Living Allowance in view of the fact that it is nearly 10 weeks since I submitted the PIP Form to the DWP, and not a word has been conveyed to me as to the outcome of the application. Now more than ever in the past I need these payments to meet your and other defendants costs and damages, and since my two Santander Bank Accounts have been appropriated by Her Majesty the Queen containing about 8000 pounds, even if I start receiving the PIP by midday tomorrow including the annual Christmas bonuses, you and all the other Defendants, including the University of Greenwich, will have to accept the payments in appropriate instalments. Please let Ravi Patel know so that he can inform Boris Johnson tonight.

Dear Sirs

I sent you an email from my [shantanupanigrahi@yahoo.com](mailto:shantanupanigrahi@yahoo.com) account roughly 2 hours ago.

I cannot get into that Email account because the criminals of Yahoo Company have blocked me from using both shanpanigrahi@yahoo.co.uk and shantanupanigrahi@yahoo.com accounts. My shanpanigrahi5000@outlook.com account will not let me send more than a handful of emails a day and it limits me as to the number of recipients that I can send an email to at one go. It is therefore not going to be used again by me. I have therefore opened this Aol Account for my communications with interested parties in my legal affairs. I will see how this works out.

To recap, I asked Mr Forz Khan to immediately credit back the £3000 to my Santander Account No 11199612 Sort Code 09-01-27. This has not been done. I am hereby pointing out to you both that harry pitcher misled me in bringing you two direct access barristers to deal with my legal and mental health needs. The attachments to this email are self-explanatory.

Of the Santander CurrentAccount transactions between 18 March and 23 March, only SimpleSite had informed me by email that these monies were being deducted, and so without my authority.

What have you got to say for yourselves?

Dear Sir

I am in debt the precise amount of which is unclear, at this stage, from a Court Order issued against me as attached: Central London CountyCourtJudgmentOrder19January2021.docx.

The District Judge has not made up his/her mind yet on the precise amount that I need to pay the Defendant Mrs Theresa May. I have written to Mrs May this morning asking for arrangements to be formalised under which I can pay off this debt in instalments, but have not yet had a reply:

To&FrrMrsTheresaMay;(CostsinDefenceLitigation).docx.

I tried to pay £10 by Bank Transfer through another lawyer firm into its Bank Account, but they returned the money saying that they are not interested in mediating in this manner.

I am therefore looking for another Law Firm locally to assist me to communicate with Mrs Theresa May so that I can find a reasonable manner in which the debt can be cleared. I can pay up to £30 per month now to Mrs May.

Above all, I am keen to ensure that I do not fall foul of the law so that bailiffs have to be sent in to enforce the Costs Order on house contents and other fixed assets of the family.

I do not wish to waste my time and resources to challenge any Court Order and have no comment to make now on it having exhausted all possible legal procedures of Appeal against this Order, which supercedes all previous Orders of Her Majesty's Court and Tribunal Service.

Could DGB Solicitors assist me in this mediation process, and if so, what are your charges for this service. I would need your Bank Account and Bank Sort Code details immediately so that the transfer of money can begin now, that is during this evening itself.

Yours sincerely

Dear Lucy Trevelyan, LLB

1. I am sorry to have taken this long to reply to your email; we have only the one Desk-Top computer and my daughter had been monopolising it all afternoon. I could not even get a chance to post my latest rantings on the Vishista Advaita Vedanta website that I drew your attention to: HINDU SHLOKAS PERTINENT TO THE CONDUCT OF VAISHNAVISM.docx. I hope you will find it of interest.

2. On the other points you raise, I might have flaws in the Summons, a few perhaps, but I did explain that I was a layman and still finding my way round the United Kingdom's Constitution and how the Judicial and Law Enforcement System work, as a one-man band, with no divine or hellish assistance to guide me. I do hope that His Honour HHJ Parfitt at the Central London County Court, sitting in judgment on my Claim E35YM660 (is it adjourned or halted, with a final judgment already issued Lucy?) and the associated costs-order will take this email into account as extenuating circumstances, when he returns to the office tomorrow, Monday 1 March 2021 before 10.00 am and intimate to me over the telephone what the damage is to my financial-status by way of the costs that I need to meet to which of the Defendants and Respondents, with their full names and addresses including all their email addresses that will enable me to pay their due sums immediately, God-willing, and if Santander does by then let me have 'online-access' to my two Bank Accounts by mid-day tomorrow morning, I should then be able to do my online transfer of the sums required in costs to the respective Defendants.

3. I thank you for your patience in reading my Summons' document that was updated after your 12.00 noon deadline, without any explanation from you as to the delay on your part, or the Crown Prosecution's part or Maidstone Crown Court's part:

Dear Dr. Panigrahi,

I've begun to familiarise myself with your most interesting application. We took the unusual step of communicating with Mr Hill. While on a preliminary examination your application for a summons or warrant of arrest is flawed in several places, he recommends you contact his former colleague Mr Anthony Shaw QC, at Red Lion Chambers, 18 Red Lion Court, London EC4A 3EB and mention the recommendation. You may use the Chambers' telephone number 02075 206000 or email chambers@18rlc.co.uk and cite reference Hill/280221.

I suggest you tread carefully because there appears to be a pending Costs Order against you, at level 3, which is on file at the High Court.

#### ARREST-SUMMONS PROCEEDINGS UPDATES:

(a) 10.47 am hours (UK-Time) of 1 March 2021: 10.24 am hours (UK-Time) 2021, the Claimant telephoned and spoke with Lee at the 02075 206000 Red Lion Chambers number and said that he was asked by Lucy Trevelyan of Inbrief to contact Mr Anthony Shaw QC at Red Lion Chambers, giving details of Lucy Trevelyan with reference to his email to Chamber:18clc.co.uk. Lee confirmed receipt of this email. I continued: 'I was expecting a call from His Honour HHJ Parfitt before 10.00 am this morning and I have not, so I do not know if any costs Order has been passed against me on Claim E35YM660 as you will see from that email. I do not know what is happening to my Santander Bank Account money. Lee asked who referred you? I repeated 'Lucy Trevelyan' of inbrief.co.uk; tel: 02893 378032. Lee said that he will make some enquiries and come back to me. I confirmed to Lee my telephone number as 07967789619 which he also read out from the email that I had sent. I said, 'Thank you Lee'. The call ended at 10.21 am.

libertarian-party-of-usa.odoo.com • 4 min read Avatar Shantanu Panigrahi 4 March 2021 Key Words: Mental Health:

On Meditation for spiritual calmness that I was recommended as the ideal, my Consultant Psychiatrist and I had a chat about my stress-level arising from hyperactivity. It is to be mostly physical in my youth as I was taking part in all kinds of physical work like playing all kinds of sports, working in scientific laboratories where strict experimental procedures had to be rigorously adhered to and data analysed to ground realities according to academic orientations in so there was nothing spiritual in that, all routine mundane work to establish practical methods of growing chickens, producing eggs, studying nutritional values, getting farmers to adopt appropriate technologies, all of which left one breathless, so I drank beer and spirits to cool down. I did 'hatha' yoga for years too to keep flexible and did lots of gardening so was exceptionally fit young man physically. No need to meditate, no time for it, total waste of time I used to think.

Then my Life of Riley came to a shuddering halt when in pursuit of my material goals I was found blameworthy of gross misconduct unfortunately and I thought I was always a well-mannered person with people all my life until this happened to send me to mental doldrums with a severe nervous breakdown that the Consultant Psychiatrist described to be 'Severe Depression with Psychotic Features'. That was in 1998 and I fought materially to try and restore my reputation. I was still hyperactive now but the legal battles that followed in the United Kingdom went on for the next 23 years with intense mental hyperactivity now so that all my physical activity including sexual intercourse and masturbation that I used to enjoy and immensely so for In my youth I 'suffered' from premature ejaculation, gradually dissipated and I now had erectile dysfunction much to the consternation of my devoted wife who saw my lethargy and now had to hire tradesmen and plumbers and gardeners to maintain the house, while I tried to understand what was happening to my mind since the nervous breakdown. I had variously persistent delusional disorder, paranoid schizophrenia, depression, mood changes anxieties, fatalism, and the Consultant Psychiatrist had to send me to the mental hospital in 2004 first for 3 months, followed by a relapse episode in 2008 for one month. I have been on anti-psychotic, anti-depressant and mood stabilising medications of various kinds as these have changed during the past 23 years, but none of which has really done anything good for my mental stability. This morning I was still very hyperactive mentally developing a blog post in a new website that I created yesterday evening called the Conservative Libertarian Party of the USA with Odoo.com. The only respite I get to relax my stressful mind is sleeping even during the daytime. This morning my Consultant Psychiatrist has confirmed that the mental stress is what causes me to fire off my thousands of emails here there and everywhere and gets me to create websites incessantly. It is not narcissism or attention-seeking for I am a very private person at heart and shun publicity. I am just hyperactive and have turned to nonchalant, spontaneous and unpremeditated actions in all my publications and emails and phone conversations with whoever's wishes to talk to me or if from paranoia I get the sudden urge to phone someone or send an email or a text.

The Consultant Psychiatrist has this morning said that he is increasing my anti-psychotic Risperidone from 1 mg daily to 2 mg daily twice a day, and my mood stabilizer Depakote from 250 mg daily twice a day to 500 mg. He has also accepted my apology for offending him yesterday by putting the phone down on him after a 20-minute consultation when I said to him: 'I will be straight with you are you going to phone the Police right now to ask if my British Passport is still valid' and he had replied 'No'. So, the mental anxieties that affect my hyperactive and highly stressed mind continues. In this connection Facebook had reminded me by raising a post of mine from a year ago. I do not know if I want to stress my mind any more than it already is under its hyperactivity. Is it not part of the Autism Spectrum Disorders Attention Deficit Hyperactivity Disorder and its manifestations that I have suffered from maybe, yes/no? The Psychiatrist used to recommend mindfulness exercises for me but this morning he said that I should write down a routine for myself of physical activities for the week to be done daily, like carpet-hoovering, going for walks twice a day, gardening, washing clothes in the washing machine, etc. When I mentioned this to my wife she said I know to what level

of standard you wild these household work, reflecting on the first 15 years of our marriage when I was hyperactive in my 'do-it-yourself' work in the house physically putting up shelves, assembling furniture from boxes, wall paring rooms and landing, changing carpets, putting up Hi-Fi speakers, etc. So, there you have it, from a physical wreck now, what is the future for me? except sleep in 'ananda'?

God for inter-faith dialogue it seems is frowned upon by the State of the United Kingdom in the present day and age and the multiculturalism concept under which the Economy is constructed now. Please let me know if there are any bars on a Hindu worshipping God in a Christian church, for I do not wish to be duplicitous and arrive unannounced. I wish to come tomorrow Sunday 7 March 2021 at 10.00 for mental peace and calmness only. Thank you for your kind consideration. Yours, Shantanu" So I told Terry Whittaker - Leader of

REACH at Church of England Diocese of Rochester "I would dearly like to find out more about the Church and see how I can worship." so I dialled 07592 874322 at 10.12 am 6 March and left Voice message on Tesco Mobile as follows: "Hello, This is Shantanu Panigrahi...07967789619. Could somebody phone me back please as soon as possible" but even by 11 am these suarpaad bastards had not replied, justifying my use of shanta-ahimsa (e.g. revenge violence). Santander Account Embezzlement of Funds Continues as notified by me on Sat, 6 Mar 2:16 pm to enquiries@kent.police.uk, CPSCcontact,enquiries@policeconduct.gov.uk, santander@feedback.santander.co.uk, partyreg@electoralcommission.org.uk, ravi.patel@governmentlegal.gov.uk, professional.standards@kent.pnn.police.uk, contactyourpcc@kent.police.uk and complaint.info@financial-ombudsman.org.uk (For the attention of Detective Inspector Helen Smither's immediate response and a reply to me by email to shantanupanigrahi@yahoo.com) "Dear Detective Inspector Helen Smithers, It is now almost 2 months since a WPC Policewoman visited our home when Santander Hempstead Valley Branch reported to Kent Police that I had tried to transfer funds from our two Bank Accounts (H1699296PAN that is a joint account with my wife, Mrs Rashmi Panigrahi living at the same address as I do; and 11199612; both Bank Sort Code 09-01-27) to my newly formed Society

<https://theconservativelibertariansociety.com>; and

<https://theconservativelibertarianpartyoftheunitedkingdom.com> ) abbreviated through online changes to TCLP-UK as the change of the name of the two Accounts with the permission of my wife, as Settlement of a long-standing marital dispute in the Separation of Financial Assets of the family in an amicable manner, without recourse to the legal procedures for the same, and this remains the case, in view of a lack of Judgement on this matter from His Honour HHJ Parfitt deliberating on Clam E35YM660 at the Central London County Court. The WPC had assured me that my British Passport

and British Citizenship is still valid as things stand at this moment, so that there were no excuses left for ASDA, Morrisons, Tesco and possibly ALDI nor from any of the attached job applications that I have submitted this morning: JOB APPLICATIONS ON SATURDAY 6 MARCH 2021 EARLY MORNING.docx." CONTINUED "This morning I tried to arrange a £3 donation for some seeds that 38 Degrees, the Petition-organising institution had invited me to donate on, and being a very conscientious environmentalist, I tried to do so through PAYPAL arrangement which is linked to the 11199612 Account at Santander Bank. This failed because PAYPAL'S response to me was that Santander Bank refused to pay out this £3 from the account. As you know Santander's Security examination has so far taken three months with no resolution in sight from either the Financial Ombudsman, nor from the Bank, nor from the Election Commission if it had any reservations on the change of the name of these two Bank Accounts: Santander Bank is continuing its silence as you will note from the attached correspondence to and from Chootiyas at Santander (Careers Fair) on 6 March 2021. I thought to myself that if Detective Inspector Helen Smithers has washed her hands of this investigation, it should now be a matter for the Professional Standards Department of Kent Police to deal with this complaint that I am updating you at 13.51 pm hours (UK-Time) 6 March 2021. "If Professional Standards Department has already dismissed the complaint, I will then accept your decision on the understanding that there is no point in me raising this complaint against the Chief Constable of Kent Police, which as you know, together with the present Chief Constable of West Yorkshire Police and the current Chief Constable of North Yorkshire Police are subject to the attached summons, as a private prosecution for which I am the only Prosecutor of the central figure in the embezzlement, the Director of Public Prosecutions, Ms Max Hill." CONTINUED "If you have any further involvement in this matter in terms of its resolution outside the North Kent Magistrates Court where the Summons are tentatively issued as I did as a Counter-Prosecution on 28 Feb 2021, and wish to share this information with me please give me a telephone call immediately or reply to this email immediately. As you will gather from this email, as an Associate-Informer practicing my satya-advaita (truth-accommodation, i.e. creative accommodative lying) yoga, I am duty bound by my religion of Vaishnavism to exhaust all avenues for a just solution for the material injustices that I have suffered over the past 23 years which I describe as state-organised persecution for my religious beliefs and practices. That is all. Your all silences in this application will speak volumes." I am copying this email to Santander Registered Offices, 2 Triton Square, Regent's Place, London, NW1 3AN, Office of the Kent Police and Crime Commissioner, Kent Police, Sutton Road, Maidstone ME15 9BZ, Telephone: 01622 677055 and my mentor Mr Nigel Farage, of the Reform/Brexit Party for appropriate consideration as the case may be, if my two Santander Accounts are decided to be returned to Personal Accounts now as your decision. This evil APPLICATION FOR SUMMONS email was from: careers@rsk.co.uk <donotreply@networxrecruitment.com> date: 6 Mar 2021, 08:16 subject: Your Application: ref Geo-environmental Consultant Dear Shaytanu, Thank you for submitting your application for the position of Geo-environmental Consultant. We have received your details which will now be reviewed by our Recruitment Team. You can view and track the progress of your application via your candidate account .Your login details have been emailed to you. Kind Regards, The RSK Group Recruitment Team Is Dharma Karma or is Karna Dharma? To a Saivite that I am now, fully-fledged as it happens, Dharma in Sanatan Dharma dictates one's nonchalant, spontaneous and unpremeditated actions as Karma. Studying my blogs exposing 1700 Criminals may help to explain further: In short shanta ahimsa means just that, life is little precious, no one should wish to end others lives except when rule of seven applies, one should then on that bottom line, live to as much liberty as is possible in the circumstances of one's State, if that is in a prison, you have not been careful enough, if that is in the mental hospital, again you have not been careful enough, if that is in the Community at home with enforced anti-psychotic, anti-depressant and mood-stabilising mental health medications, it is a small price to pay for you can still publicise what you are suffering. It is all relative. Always have your escape routes ready and keep them guessing which way you are going. You should not identify your destination even to yourself. That is not truth. Truth reveals itself in the fullness of time. This is what Vishista Advaita Vedanta believes,

in terms of the pre-ordination and pre-orchestration of the universe, so that we Vaishnavists always leave it to the last second before deciding what action to take, judging each moment as it comes and waiting for the right moment to launch our attacks on the oppressors to ward them off our territory, our 'House of Shelter'. Always treat your home as your only house of shelter and work hard to keep it in ship-shape condition for any moment, the oppressors could attack you.

Hindus in India: have faith in your religion, not faith in God according to Manusmriti 8.15. I for one therefore adhere to my path of Vaishnavism, reflecting on the following scriptures that I strive to persevere towards "om nayam shivam satyam sundaram Rupa". We protected our adharm in this manner and that is all that matters to me, from my side. If no one joins us we go alone and go our separate ways. I am a Hindu, I believe in Sanatan dharma, at least sanatan dharma in operating from the interphase between the mind and the Supermind. They can lock me up again in a mental hospital as in 2004 and 2008, and since, restricting my movements in not employing in gainful work under semi-detention in our house terms which is in fact martyrdom of sorts in itself, and still is at this moment that I am having to take anti-psychotic, antidepressant and mood stabilising medications that are enforced upon by the Criminal Pigshit State of Britain ruled by the Wicked Witch of a Queen and her Corpse Phillip. The same is the case on the issue of going vegetarian or non-vegetarian, in a family life. One sacrifices (tyaag) the good things in life for the sake of our dharma. That also is dharmayudha, battling against one's family members, for it is the best sanyas that one has: there are no better sanya-ases than the family home where one is understood and tolerated for one's nuances. Incest is not prohibited in the Atharva-Veda.

mailed-by: gmail.comDear LinkedIn

1. I am no longer looking for a job whether in the environmental sciences or in the retail trade, as I have medical issues that need resolution and am thus awaiting my appointment at Broadstairs Health Care, to be arranged through Patient Access that I registered with nearly 4 months ago; see the attached correspondence: FrBroadstairsHealthCare10Mar2021 & ToPatient Access(ContactPointQuery)10Mar2021 for your reference and please 'To Whom This May Concern' as the respondents and defendants - as far as I am concerned I only know of one Defendant in the Claim E35YM660 (that incorporates all the proceedings in my earlier HQ17X01773 Claim at the Queens Bench Division of the High Court), and this Defendant is the one and only the Prime Minister of the United Kingdom, Mr Boris Johnson, whose legally-appointed government lawyer is Mr Ravi Patel that the attached should have been sent to for comment by His Honour HHJ Parfitt on 8 December 2021 as the updated Particulars of Claim in Claim No E35YM660: ToHisHonourHHJParfitt(CentLonCtyCrt)\_E35YM660DISPOSAL0851amhours8Mar2021.docx; or if it has not already been, done, it should be done this evening for a written Defence for receipt by me directly as the Claimant so that I can reconsider whether the amount of damages and compensation that I sought should now be raised to £75 million sterling to be credited by noon tomorrow in my Nat West Bank Account: Sort Code: 60-17-44; Account No Reference 4751 2902 3982 1523. Sorry, I do not know the Bank Account Number because Nat West has blocked me from accessing this Account, as part of its appropriation-measures in the State-organised persecution on me that has lasted 23 years since the colleagues and senior management of the University of Greenwich ganged up me to oust me from my scientific career and no one would have me back in good employment since from that stain to my reputation, so that the Defamation proceedings must await judgement on whether I have always had Attention Deficit Hyperactivity Disorder and not persistent delusional disorder, nor paranoid schizophrenia, and nor autism, but Om, as discussed with Patient Access this evening.

2. Notwithstanding, I thank you for this opportunity to thank you for all your services over the time that I changed my Account to the Premium Status. It has been most-useful and I wish to continue with the Premium membership for the foreseeable future for further interesting contributions to mankind through LinkedIn articles.

Yours sincerely

Dear Wix

I wish to terminate the contract with Wix.com for the following websites with immediate effect:

The Conservative Libertarian Society: <https://theconservativelibertariansociety.com>

The Allurement of Reality in Review: <https://theallurementofrealityinreview.com>

The Libertarian Democrats: <https://thelibertariandemocrats.com>

This decision of mine is irreversible and has been precipitated because Kent Police did not reply let alone issue an apology to my reporting of grievances that an international conspiracy was mounted on me over the past 23 years in the United Kingdom and most recently since my Blog <https://shantanup.wordpress.com> was archived and suspended for no good reason and borders on criminal conduct. As such, I am also closing the new Blog with Wordpress also entitled 'Towards Knowledge for World Conservation that is currently at Wordpress at the site <https://towardsknowledgeforworldconservation.com> and am also terminating my SimpleSite website Shantanu's Humanology also with immediate effect. I take no responsibility in law for the contents of all of these Blogs from this moment onwards and their continuation in the public domain is solely up to Wix, Wordpress, Bravenet and SimpleSite who would be liable for any costs, damages and compensation demanded by named persons and institutions in all of these Blogs. I terminate my copyright and intellectual property rights to the Blogposts and the websites with immediate effect. So kindly consider the matter and take whatever steps you need to take legally to ensure that Wix, Wordpress, SimpleSite, Anchor, Spotify, Bravenet, are protected from legal proceedings issued and served by anyone within the United Kingdom or outside under the organisation Victims of Panigrahi Association. You have all been warned that I have been forced into this decision so that as Publishers you will solely be liable for these materials to remain in the public domain beyond the next 10 minutes from the receipt and acknowledgement if you care to let me know your response to this legal notification. I will not accept any liability if you decide to continue to keep the websites in the public domain.

Please ensure that no further direct debit funds are withdrawn from my Santander Account and send me immediate acknowledgment of this message by email.

This also applies to the Book being published at Inkylittlefingers entitled 'Vishista-Advaita Vedanta of a Mahatman-Purnavata under ISBN Code 978-1-914288-19-7.

Mon, 31 May at 09:39

Dear Sirs

It beyond belief that the roughly 1500 criminal anonymous emails that I, my wife, my associates in employment venues, my Consultant Psychiatrist at Britton House and the Care Coordinator previously as well that I have reported to the Police since September 2017 can go un-investigated by Kent Police, as they have destroyed my scientific career with the University of Greenwich which is still refusing to pay me my £55,000 severance payment from the time of the termination of my employment unceremoniously through its kangaroo court on 20 October 1998. This was followed by similar criminal activities at Shell-UK, Sainsburys, Tesco and now Iceland, from the internalisation of my Union Institution of Professionals, Managers and Specialists and USDAW that took over the consideration of the issue of these severance payments or place me on medical retirement with £10,000 per annum from 20 October 2021 to be ordered by His Honour Judge Parfitt who inexplicably, and without full written reasons issued and served upon me that attached Court Order: CentralLondonCountyCourtOrderonE35YM660dated19January2021\_receivedbyClaimantfirstat9.27a mon22March2021.pdf. The Operations Manager at the Court of Central London has refused to investigate the abysmal record of the Judicial authorities on this Clam and all previous ones submitted to Her Majesty's Court and Tribunal Service over these years:

ToOperationsManager(andvariousothersinCourtsMrsTheresaMay)14May2021.

Your explanation that the 1500 criminal anonymous emails that are specifically recorded and published in the internet to various extents cannot be traced is unacceptable as these followed the years of struggle that I have undergone to assess who specifically is behind the persecution that has been organised upon me to make me Stateless and render me to destitution otherwise as I live without legal support from the 50 odd Law Firms that I requested assistance from over these 23 years of suffering, as narrated in the attached: 'The Allurement of Reality.docx'.

Further Balboa Press and Book Baby has stolen £2000 pounds from me for refusing to cooperate with the publishing of this book, and this follows the reported embezzlement of the funds a few months ago from my Santander Account that was reported to the Financial Ombudsman and Action Fraud, but no-one took any notice of my grievances.

The report of Stalking harassment from Phands in particular and the deceitful liars of Secular Cafe and Religious Forums were never investigated by Kent Police, nor the criminals of Wordpress who archived and suspended my Blog <https://shantanp.wordpress.com>. These were adequately explained to Kent Police, and represents a Crime against Humanity that the International Criminal Court took no account of and neither did the European Court of Human Rights.

The Claim form submitted to the CCMCC specifically listed the fictitious organisation Victims of Panigrahi Association (VOPA) with no names or email addresses for me to correspond with but apparently the source of the criminal anonymous emails designed to scupper any prospects of my getting employment in the country and legal redress from the name employers and prospective employers who were served with the appropriate Employment Tribunal proceedings since 1999. Kent Police's record shows that you have been very lackadaisical and non-compliant with my repeated requests to find these national and international criminals through Interpol even though numerous Incident and Case Numbers have been issued on Claim HX17X01773 at the Queens Bench Division of the High Court, so I need an apology from the Chief Constable Alan Hugh Pughsley for your silence over these crimes that started when your Assistant Chief Constable refused to endorse the job of Public Enquiry Officer that I had successfully passed the interview for at Rochester Police Station 15 years or so ago.

An apology would be sufficient from Kent Police, I am not after money, I am after justice, material justice.

That is what I want from Kent Police today: You are the law of the land, not the Courts clearly in the Police State in its fullest manifestation that is the United Kingdom.

Yours sincerely

Dear Sirs

I have already completed this online interview once for Iceland, the answers are the same as previously deposited: see Report ToIcelandFeedbackJobAssessment29May2021.docx.

Further, you should take into account the attached correspondence:

ToTesco(throughindeedJobUltimatum)31May2021.docx, and make your decisions on my employability in the retail sector of the Business environment, in relation to both the specific job applications submitted to Iceland and the General Application submitted this morning to Iceland. Delays are intolerable in this respect. The attached enquiry that I made has still not had a response so that I took my second coronavirus vaccination yesterday evening:

Hi there,

Thanks for taking the time to start your online interview. If you choose not to complete it at this time, you can click on the link below to access again.

Take me back

However, we recommend you complete as soon as you can – we wouldn't want you to miss out on a great opportunity with a business you'd be proud to work for.

We wish you the very best of luck!

SKELTON ARGUMENT AND BUNDLE FROM CLAIMANT.docx

VISHISTA-ADVAITA VEDANTA OF A MAHATMAN-PURNAVATAR.pdf

Dear Judge

1. I attach herewith a document entitled 'Vishista-Advaita Vedanta of a Mahatman-Purushottam.pdf' that serves to submit the Bundle that is required of me ahead of the Hearing of the proceedings at 1140 am on 21 June 2021 for which my Mobile Telephone Number is required also by the Court as set out in the Notice of Hearing dated 8 April 2021. I shall provide this within 48 hours of the Hearing if this is necessitated legally by not awarding me the £100 million in damages and compensation that I feel is justified as the Claimant.

2. A SKELETON ARGUMENT Document outlining further negotiations and developments between now and 21 June 2021 will also be submitted 48 hours before the Hearing by me directly as I remain unrepresented. The issues of concern from my point of view given that I have not had a final reply from the Operations Manager on the complaint that I had lodged with Her Majesty's Court and Tribunal Service, nor have I received a reply directly from the Complaints Department of HMCTS will cover the following points:

(a) the legal responsibilities according to the prevailing political law of the United Kingdom in a fluid situation of the Internet Website and Social Media companies otherwise known as Giant Techs, on what I as a private citizen is allowed to publish from a humanitarian and journalistic outlook without editorial supervision. This relates to 38 Degrees, Wordpress, SimpleSite, Wix.com, Bravenet, Facebook and Twitter in particular, for these companies have subjugated my attempts to bring my political and humanitarian views into the Court of public opinion by archiving and suspending my

Blogs and threatening further such actions. This also applies to the Editorial overruling of my Book initially entitled 'The Allurement of Reality' submitted to Authorhouse UK, Greenberry Publishing, Austin Macauley, Balbao Press, Book Baby Publishers, and inkylittlefingers of the United Kingdom.

(b) The duplicitous final view of the Mental Health Authorities of on the one hand discharging me into primary Care of my GP on 24 May 2021 yet as the notification from Boots that I received following an enquiry to seek out the implications of this latest 'CARE PLAN' still classifying me as paranoid schizophrenic and enforcing anti-psychotic, anti-depressant and mood-stabilising medications on me into the indefinite future.

(c) The proceeding of my employment dispute with Tesco over the past year and Sainsburys over the same period that was submitted to the Employment Tribunal with no information received by me on the outcome of those proceedings so it remains unresolved.

(d) The proceedings against the University of Greenwich dating back to 1998 for severance pay of £55000, that despite recent correspondence has not yet been resolved even with the involvement of my trades unions the Institution of Professionals, Managers and Specialists and USDAW who took over the negotiations with these employers and with Tesco and Sainsburys.

(e) The refusal of Kent Police to issue a Crime Reference Number relating to the roughly 1500 criminal anonymous emails that I, my wife, my associates in employment and at the Mental Health authorities of Maudsley Hospital, Britton House, GP Surgeries received since September 2017.

(f) The refusal of Santander Bank and Barclays Bank to delve into the embezzlement of my Account funds from 1998 by the British Society of Animal Science and persons or institutions unknown more recently in relation to the formation of my political party, 'The Conservative Libertarian Party of the United Kingdom.

(g) The refusal of Medway Council to reopen my complaints of institutional racism dating back 7 years by Councillors in my constituency and my Members of Parliament with silence from the political parties Labour, Liberal Democrats, United Kingdom Independence Party and the Conservative and Unionist Party concerned with this hate crime, and specifically the ambiguous correspondence on the complaint from the Parliamentary Standards at the House of Commons, specifically on the conduct of Mr Rehman Chishti for refusal to take the mental health and physical health matter to the Parliamentary and Health Service Ombudsman and to the Speaker of the House of Commons for a Select Committee assessment of whether I have been the victim of State-organised or State-sponsored persecution for my religious beliefs.

(h) The role of Amnesty and Liberty in refusing to cover the apparent institutional hate crime against me.

(i) The refusal of the Legal Ombudsman, the Solicitors Regulation Authority, the Bar Standards Board and the Centre for Effective Dispute Regulation to assess the non-cooperation of roughly 55 lawyers that I sought legal advice and legal representation to the Mental Health Tribunal and Civil and Criminal Courts over the past 23 years, and most recently the lack of reason for East Kent Magistrates Court not to arrest the Director of Public Prosecutions as the Head of the Crown Prosecution Service for protecting roughly 500 criminals who bullied, harassed, terrorised me to try and bring me and my family to the point of destitution and to make me Stateless.

(j) The refusal of the British Broadcasting Corporation to cover my story in the news media when there has not been any reporting restrictions on the Claim Form E35YM660 from the Judges who have hitherto examined my case.

3. If there are any further developments on this issue I will let the Judge become aware of them at the Hearing, which I understand is a Pre-Trial Hearing to assess whether it is me who is being considered for Trial under some law as yet undefined by the Court, so I look forward to the clarification of this issue in due course.

4. I have so far paid £25 to Jacksons and Co as the costs of Victims of Panigrahi Association, but the next monthly instalment will be on 20 June 2021 which is ahead of the Hearing and it will be delivered to the same Bank Account as I previously deposited because this money has not yet been

refunded to me by Mr Sivaji Panesar, Mr Marty Caine, Mr Nitin Bhardwaj, Cherie, Ed Mulhouse, Mr Fritz Mueller, or Mr Gurpal Singh Tiwana.

5. I trust this will meet with my ongoing legal obligations to the Court Orders that I have received under Claims HQ17X01773 at the Queen's Bench Division of the High Court, and under Claim E35YM660 of the Central London County Court.

Yours sincerely

Dear Ruth

Many thanks for clarifying that there is nothing further that USDAW can do to try and get me reinstated into my Personal Shopper employment at Tesco. This is most disappointing because I feel that I did not get a Fair Treatment Hearing as with Sainsburys last year. I am therefore minded to lodge an Employment Tribunal Case starting with correspondence with ACAS to obtain the appropriate clearance necessary for lodging the Claim against Tesco for Constructive and Unfair Suspension from Work and Dismissal given that I was probing for the full circumstances of the investigations that Tesco was conducting on the emails that were the subject of the concerns that Tesco had in trying to subject me to a Disciplinary process which I felt was going to be a kangaroo court at Tesco.

By copy of this email to the employment Tribunal, I am also seeking the outcome of the Employment Dispute that is ongoing with Sainsburys plc from April 2021, with Shell UK from 2008, and with the University of Greenwich from 1998.

Your immediate reply would be most helpful before I complete the necessary formalities on all these four employment matters since I have still not received a penny of the £55000 severance payment from the University of Greenwich, the nearly £10000 from Shell UK for violation of TUPE regulations, and the £500 unconditional payment from Sainsburys for ageism conflated with religionism.

I am also copying this email to Mr Jackson requesting him to refund the £25 as costs towards Victims of Panigrahi Association that I paid on 20 May 2021 to the Bank Account it provided me and also letting the firm no that no further payments will be made pending the resolution of this dispute at the Employment Tribunal. Shan please do not even for one minute consider going in to a Secure Mental Hospital voluntarily.

How can your wife even contemplate such a move? It is much worse if you put yourself into such a dreadful place, and in that scenario, there is a chance they will find a way to keep you there permanently or for a long time. I read your telling of the crimes planned against you by Doctor Michael Klingman. That could become a reality. You are much safer with your family. You must listen I am not able to trust your wife with your welfare, if she is not vetoing such destructive plans. If you provide a means for me to communicate with another close family member who is resident in England, it will be more useful. A phone number or an email address will be enough. Put it on your website somewhere, write it backwards for security, and I will ask Mr Mulhouse who has a curiosity to find it. Please devote efforts to preparing for June 21. The JIC will not permit you to do any of the things you appear to be planning. It will be short and its purpose, depriving you of as much money as possible as a deterrent. Phone RCJ and ask to speak to David Jenkins directly, because it is possible he knows much more about R35YM660 disposition than first appears to be true.

I got a strange email from possiblynotarealdoctor90@yahoo.com and I am so including them in this reply. I suspect it can be these people from conservative trolling club so let them have an idea that this is not a laughing matter. You do know it is easy for you to get the sender from that yahoo email address traced, either by the police or via a solicitor? Oath are not reluctant to co-operate in cyberstalking investigation.

~~~Cherie

2. Please help me, I am not mentally ill, I do not belong in a mental hospital. I am sanest person who lives. I do not need mental health medications. But I am sensitive to intrusions into my privacy. I react to them. This is what the Consultant Psychiatrists and Dr Mawanche do not understand. It has been like this for 23 years, during which I have struggled to protect my reputation of dealing with criminals in my own way, namely to bring them to the Court of Public Opinion. This is because criminals like Cherie and the rest are protected by the Police, who do not take any notice of such hate crimes. The Court of Central London has no jurisdiction over this matter. It belongs in the High Court Queens Bench Division, where HQ17X01773 is lodged. This is because the Central London County Court refused to allocate a Circuit Judge to preside over the permission to Appeal the 14 January 2020 Order and the subsequent Orders of Her Honour Judge Backhouse, Judge Letham and Judge Parfitt, despite all my efforts. These criminal court officials were reported to Kent Police and it did nothing. So, I wait and see what will happen.

Yours sincerely

You've also mentioned about resuming your medication was that something you have asked your surgery about?

Thank you for your email.

Please note: From 1 March 2021 we are changing our telephone number to 0203 936 8957, calls to 020 7947 7772 and 020 7947 6062 will not be answered.

Please read the following and any relevant links below, if your email is answered by the information or one of the relevant links below, you will not receive a further response.

The Queen's Bench Guide 2021 has been published and can be found here.

#### **Coronavirus Working Practices**

In line with current Government Guidelines, staff are currently working remotely and only a skeleton staff is onsite. Full details of what this means for the individual departments within the Queen's Bench Division are reviewed and updated constantly, they are published at the following link and can be found under the heading Royal Courts of Justice (RCJ). There is specific guidance related to making payments by phone as the Fees counter will be closed.

#### **Phones**

Due to a skeleton staff onsite, phones will only be answered between 10am-2pm. If your query is not urgent, please email us. If you are seeking sealed orders, applications or hearing notices, where possible, please check the electronic case file (CE-File).

#### **Filing of Documents/Visiting the Royal Courts of Justice**

If you cannot file a document via the preferred methods of CE-File or email, you can post the documents to our department or leave them in a drop box just inside the main entrance. If you do visit the RCJ, you will not be able to speak with any staff other than security.

#### **Remote Hearings**

All hearings will be remote unless stated otherwise on our Daily Cause List. This list is published daily by 4.30pm. Remote hearing directions are sent to organising parties no less than seven days before the hearing date. If hearings are to recommence in person as standard, a notice will be posted on our daily cause list page with as much notice as possible.

Telephone hearings should be organised through either LegalConnect or Kidatu as HMCTS approved providers. If the Master is contacted directly by a party, they will end the call as this is not monitored.

#### Legal Representatives Only

Pursuant Practice Direction 51O of the CPR, all documents must be filed via CE-File. Any documents received via post or email will be destroyed via confidential waste, only documents with cheques will be returned to you.

Exceptions to the above apply where the court requests alternative filing, advice by Counsel for an approval hearing or stated in another Practice Direction or Part of the CPR. If an order states filing by email, please attach a copy of the order and state the paragraph with this direction.

#### Any Party

In accordance with Practice Direction 5B – all emails to the court should include the following, failure to do so will result in the court not actioning or acknowledging your email.

Subject Header – Case number, parties' names and any dates relating to an up-coming hearing

Provide a clear description of the contents in the body of the e-mail message. Please refrain from messages such as "Please see attached".

Please copy your message to the relevant parties where applicable.

Any document that carries a fee and does not state or include proof of payment or fee remission will not be actioned.

If you're unable to comply with these points or any other part of Practice Direction 5B - Electronic communication and filing, your message will not be actioned.

Hello Shantanu

As our previous email indicates, it is difficult to see which aspect is directed at Samaritans.

You are clearly in a very difficult and distressing situation but we are unable to comment on the legal or medical issues addressed in the letters and emails as we have no knowledge or expertise in these areas.

We are happy to support you emotionally and to help you talk through the feelings that this unhappy situation must be generating.

Clerksroom Direct will recommend suitable barristers for your case however responsibility for choosing which barrister to instruct lies entirely with you. Instructing a barrister is no guarantee that you will win your case. The barrister will give you their independent opinion on your case (if instructed to do so) which might be different from yours. Clerksroom Direct staff are not legally qualified and cannot offer any legal advice. It is your responsibility to provide copies of all paperwork that the barrister will need to fulfil your instructions. You should aim to provide a hard copy (not original documents) of your case papers where possible. Documents sent to us electronically must be limited to a maximum of 5 separate attachments. If it is necessary for your barrister to print papers received electronically you will be charged printing costs. If you wish to have any paperwork returned to you in hard copy at the conclusion of your instructions you will be responsible for meeting the postage/packaging costs. The barrister is only instructed to deal with the work described in the Client Care Letter. Fees paid to Clerksroom Direct are non-refundable. Please note the Client Care Letter is an agreement between you and the barrister you instruct, not Clerksroom Direct.

(1) Operations Manager Central London County Court

(2) Judiciary, Central London County Court

Dear Sirs

I have not received any intimation from the Operations Manager to the attached correspondence TolaniByfield(CentralLondonCountyCourtOperationsManager2 June2021.docx; but with my wife had a Meeting with my GP, Dr Mawanche yesterday between 11.10 am and 11.40 am concerning the attached CAREPLAN and associated documents that I had referred to the Surgery for consideration. The outcome of this Meeting was that despite my wife's insistence that I be kept under the Care of the Community Mental Health Team at Britton House, Gillingham for her view that dislodging this service was inappropriate when in fact I wished to book myself into a Secure Ward of a mental hospital for recuperation, Dr Mawanche decided that the Care Plan would remain in force and that I should in addition undertake the following tasks on a routine basis:

- (a) avoid reacting to criminal anonymous emails and stop sending these out to any person or institution;
- (b) avoid undertaking employment as these exacerbate my mental disorder.
- (c) abide by whatever instructions are given to me by my Carer, who is my wife.
- (d) continue taking the antipsychotic, antidepressant and mood stabilising medications as given in the Care Plan.

Dr Mawanche has therefore determined that I am under severe mentally disordered state of mind and as such must remain a recluse unfit for interactions with associates and those in authority. I deduce from this that I am unfit mentally to attend any kind of Hearing organised by the Central London County Court and also am consequently not responsible for any of my actions in the previous years that has brought me to the stage of facing a Pre-Trial Review.

Yours sincerely

I have had various types of changes to my physical and mental state over the past 25 years from being an avid sportsman in my youth full of energy, thorough being a nervous wreck, as this article would show, to still be under the Psychiatrists hammer, so to speak and if anyone would li venture to offer a second opinion, it would be immensely helpful to me. I really do not know what I have done wrong over these years, so have not come to terms with my diagnosis and treatment yet. I hope for better things to come in the future as I am 64 years of age and feel quite calm, if left alone. Thank you, anyone, in advance.

Well, I feel that now is the time for Judgment, things have gone long-enough, over 23 years to be exact. Time and tides wait for no man when it comes to truth-seeking, for it is always going to go on so long as a person engages in Creation like we Vaishnavists do, in our religion. So we make progress in charting and navigating our path by paving the way towards a calm and peaceful end. At least that is the hope. Without life there is no hope. Not wishful thinking, just reality, you see. The reality that one might see the light at the end of the tunnel and hoping it is not one of an on-coming train, in that one has been careful enough. Do you know what I mean? Think about it.

This is one of the most ridiculous epic stories you would ever had heard of. It is the Ramayana and Mahabharata combined, I tell you. It is non-stop. Fortunately, I have the stamina to see it through to the bitter end for me or the glorious heroism of fiction.

This is a general circular already tweeted, but is intentionally being distributed through LinkedIn worldwide so that those concerned or involved in any shape or form with me over the past 25 years that I have conducted myself in society globally may take the steps necessary for appropriate redress of their grievances against me if they consider that these grievances still persist in their mind. There is an awful lot that I wish to talk about, most notably on how the Big Tech companies should be managed in this internet era that humanity has entered, and which is irreversible. Each country will of course find and solve its own problems to use and regulate these Big Tech Companies, and hopefully, my personal findings will go some way to ensure that the proper course of action is taken by the respective governments, as should be the case. One size does not fit all the States in this regard.

I am resigned to the new reality as a telephone call to the Surgery following a text that I received to remind me of an appointment tomorrow morning, was returned by the doctor who had examined my latest email sent to the Surgery last night and we were free and open in the discussion which reinstated my realisation that in the United Kingdom there is no other body dealing with independent medical services for patient, all such private institutions being inter-connected and dominated by the government of the National Health Service. So in my vision as President of The Conservative Libertarian Society and General Secretary of The Conservative Libertarian Party of the United Kingdom that I wish to pursue I had to accept the jurisdiction of my personal doctor in my Surgery as the conversation ended and I said to him 'You decide what is best'.

Today, I wish to talk about communality. We are indeed socialistic but it has to be the right socialism, the ideal one that we need to strive for, the one that generates peace and harmony, breaks down barriers, and thereby puts the finishing touches to one's religion, which is in my case

defined as Vaishnavism. Do not let this term put any one off as if I have prescribed a set of duties and responsibilities to anyone, for religion is a personal thing between a person and his or her conscience. But we have our view that we must act correctly, and truth-accommodate at all times. For a Vishista Advaita Vedantist as a philosophy that generated Vaishnavism, we are nonchalant, spontaneous, and unpremeditated in our actions having faith in Truth. This Truth is the Supermind of Om in Hinduism.

---

For a person living as Vaishnavism-Sanatan Dharmi, emails are like have conversations and discussions: silence means the person one is conversing with has nothing further to say. So we move on to better things for time is precious. We only have one life and it has to be lived to the maximal potential, in navigating one's path towards the uncertain destiny that we all have, with no schematics, no tactics, no objectives, no aims or missions, but the nonchalant, spontaneous and unpremeditated seeking of the truth path to career on and do what gives one moment by moment peace of mind.

It is interesting, I will tell you that much. Life is very interesting when adhering to the tenets of Vaishnavism in its formulation from the philosophical basis of Vishista Advaita Vedanta. The future as usual will reveal itself in the fullness of time, we just carry on doing what we do each moment that we live, and hopefully we have acted correctly at pin-pointedly rajasic centre of the imagined sphere of Reality that we have constructed for ourselves as serving our purpose of religious faith as very strong theists. Non theists are not welcome to join The Conservative Libertarian Society, nor The Conservative Libertarian Party of the United Kingdom, or The Conservative Libertarian Party of the United States of America which is all that interests me personally for these two countries together can be relied upon to chart the course of humanity in a good manner, others are too embroiled in their dictatorships and have no time for libertarians.

When all avenues are blocked for an official resolution of a matter of democratic representation of views and opinions to the democratically elected institutions of the State, such as Mayor, Police and Crime Commissioner, Local government, Westminster (House of Commons) the only course of action is to stand as an Independent candidate and put Democracy to the test here in the United Kingdom. This is what I shall do now.

One month after the last Telephone Hearing that I took part in at the Central London County Court to try and make progress in my strenuous efforts to seek the light and to show the light, I am of the view now that matters should be left to posterity for someone else to pick up the gauntlet, the cudgels if they find themselves so inclined. Once a politician, always a politician. Years ago I started with membership of the Labour Party, then the Liberal Democrats, attempted the United Kingdom Independence Party; the Conservative and Unionist Party did not want me, and so I formed my own Political Party. I have done all the necessary ground work, will I now make a breakthrough. If not all my science and humanity studies would have been in vain.

The term nanny state is being misused in this article from Tom Hussey. This is not a Conservative Party that believes in a state that molly cuddles the population sentimentally and emotionally to be such a nanny state. It is a desirable Conservative Leadership operating to strengthen the population so that it can operate again to make the Economy recover from the pandemic. It is going to be good for the country in the short, medium and long term. It is why I joined the Conservative Party at around 12 pm today as a Member and a Volunteer. I do in fact believe that Mr Boris Johnson is right and has had to overrule his libertarian instincts, just like me; for the good of the country guided by pure science. That is the only basis for moving forwards, not spiritual claptrap. The mind has to be perfected.

I have observed the manner in which so called Reverends like Jesse Jackson and Sharpton fuel the animosities between the indigenous (if we can call white Americans indigenous rather than the

American indians indigenous but that is beside the point) and the so called African American community which is a pseudonym of political correctness to describe the black people who should take pride in their race as there are thousands of black Americans who have done great works in America in fulfilling the American Dream, most notably in the music and sporting arenas. The ignorant buffons do not know that in some way or the other we are all slaves to someone who is a bread winner, be that in the family, or in the State that we live in. The reason that black people turn to drugs and crime is lack of education in that the society itself is ill-educated in real spirituality, not just the singing of songs of praises to Jesus Christ as their Saviour.

I am coloured Indian as my race, and I have never in the recent decade faced direct racial abuse in the streets or in the workplace or in the mental health institutions or legal institutions. I am free and enjoying my life in comfort and joy.

The definition of Conservatism is used as it suits different groups, same as democracy, but there is only one definition for Libertarianism and it is a spiritual mode of mind that dictates that one adopts the highest possible levels of Conservation and Democracy. Not many people know that!

While we sing and chant songs and hymns of praise to Her Majesty the Queen, spare a thought at the slave masters who do not blink an eye in perpetrating their jobsworth duties to her as the green witch of the United Kingdom and its colonies explicit and implicitly in the dependent and independent territories across the globe.

Freedom of expression is the most non-violent form of protesting against oppression and this is not tolerated, as exemplified by the archiving and suspending of my Blog [https://lnkd.in/dhzy\\_V4](https://lnkd.in/dhzy_V4) and the attempted removal of [https://lnkd.in/d3\\_Rj6s](https://lnkd.in/d3_Rj6s), and possibly others. But truth being what it is the genie is out of the bottle finally and it has exploded into the open as a final test of the strengths of the democracy in the United Kingdom. There will be more challenges ahead as the Hearing of Claim E35YM660 is scheduled for 21 June 2021 at 1140 am at the County Court of Central London for which a Circuit Judge may be appointed in consideration of the Claimant's application dated 29 April 2021, 15.50 hours (UK-Time).

The third force in British Politics in the shape of Liberal Democrats is lame: we believe not in a state of anarchy that liberalism fosters, but a regulated society with duties and responsibilities for the common good. We believe in independence and personal liberty but that which is tempered by the need to conserve, preserve and harmonise for symbiotic living in our concept of nationalism.

How we live is up to us individually. If one wishes to associate you are free to associate. If one wishes to go it alone, you go it alone. When there are no associates left one is compelled to go it alone. The costs are another factor that limits one's choices of whether to go it alone or find associates in networking arrangement. With judicious choices, a little bit can go a long way. Rome was not built in a day. Make progress each moment, with the changing circumstances towards the scope of bettering one's prospects. Steady as she goes. Remain in control, and wipe the slate clean each moment in time to see what is next in one's agenda. That is the way to find one's future direction in Vishista-Advaita Vedanta as encapsulated here: #networking #growth #change #people #entrepreneur #success #motivation #purpose #future #leadership #entrepreneurship.

The criminal Dr Sivaji Panesar of New Delhi is continuing with his criminal activities under the noses of the Judicial and Law Enforcement agencies of the world. No one can find out who he is and how he operates causing mayhem to an innocent civilian going about his lawful activities. This man must be caught by Interpol immediately. Anyone with any information is kindly requested to bring this information to Interpol without delay before Dr Sivaji Panesar continues with more crimes against humanity.

Dear Ashley

We should live with the times. We should not dwell in the past but move on from present realities. The governments of most countries are experiencing increasing debts due to the recession cause by the pandemic from the virus. At this time all Windrush people who are living still in the United Kingdom and benefitting from the Welfare State for their sustenance in terms of basic requirements should be satisfied with their situations, and not look to be a burden on the State for perceived injustices arising from racism of the past. They should educate themselves in how to be good citizens of the United Kingdom not a thorn in the backside of the government. I am certain that the Prime Minister Boris Johnson is doing the right thing and changing the compensation culture of the past that only lawyers benefit from by leading clients up a wild goose chase without understanding the Constitution of the United Kingdom.

So, I am sorry, I cannot be party to any such petition, and simply do not believe that the government past and present have condoned racism and deprived people of their just rewards as citizens of the United Kingdom in the Windrush generation. I have lived in the United Kingdom for 48 years and came as a 15 year old boy. The British government took proper account of my strengths and weakness all through these years and let me bring my wife from India to live in the United Kingdom employed in the Civil Service. We have a daughter. I have been mentally ill suffering from persistent delusional disorder and paranoid schizophrenia during the past 23 years, and the United Kingdom State patiently looked after me and my family. I do not spit on the plate that has fed me all these years, nor bite the hands that has taken proper care of me reviewing of my assessment on the integrity of the State of the United Kingdom. I am currently writing my second book on this: 72967-pf4-1 A Conception of Reality Original Edition.pdf; The State of the United Kingdom.pdf, that should put it all in the proper context.

I believe in suggesting improvements to government but never criticizing anyone for what they do in fulfilling their roles in the State that I live under. I am non-judgmental Reporter of factual information that is how I contribute to society. I take account of all the legal restrictions placed upon me in living my life sacrificing everything that I regard as my achievements in terms of generating Knowledge for World Conservation.

I think you have got your priorities wrong in not understanding my *raison d'être* and suggesting that I should sign petitions that destabilise the State. As we had already discussed I am a Conservative Libertarian.

Yours sincerely

Dear Shantanu,

The government's disgraceful treatment of the Windrush generation is in the news - again. It's been revealed that people are still facing lengthy waits to receive government compensation, with many dying before they can receive a penny of what they're entitled to. [1]

It's why Patrick started his petition to pressure the Home Secretary to remove the compensation scheme from the Home Office, and be managed by an independent body to make it easier and faster for survivors to get justice. [2]

With survivors speaking out, and public pressure around the issue building, a huge public backlash will leave the Home Secretary in no doubt that the public want the scheme fixed once and for all.

The fight for justice for the Windrush generation is not over.

So, Shantanu, if you think Windrush survivors deserve proper compensation and an apology for the injustice and racism they faced, add your name to Patrick's petition now. It only takes 30 seconds.

What: We are calling on the government to improve the Windrush compensation scheme by doing three things:

- 1: Make the compensation scheme process easier by considering independence and accessibility.
- 2: Put a substantial amount of funding into the scheme to support grass roots and voluntary sector services that run outreach and support programmes for survivors in the UK, Africa and the Caribbean on legal assistance, advocacy and emotional well-being.
- 3: Include a full apology letter with every single compensation letter.

Why is this important: In April 2019, the government launched the Windrush Compensation Scheme in response to the Windrush Scandal. According to the latest report from the National Audit Office The Home Office estimated it might pay out compensation worth between £120 million and £310 million to 15,000 people. By the end of March 2021, the Department had received 2,163 claims. The Home Office to date have paid £14.3 million to 633 people. The National Audit Office discovered that massive delays and back log of outstanding cases which many have been not being resolved in the last two years. They also found out they are only 6 full time case workers to support over 15,000 potential claims.

Dear USDAW

Just to recap, I received a telephone call on my Mobile number from PC Smell of Kent Police an hour ago about this complaint. I explained to him that I had never sent the obnoxious email to Ruth Cross or anyone else at USDAW, and my Email Account has been hijacked by Victims of Panigrahi Association (VOPA) to then send out emails as if I had personally sent the offending emails. PC Smell interrogated me on the history of these offending emails that total 1500 roughly since September 2017, and there is a Case Number or many Kent Police Case numbers dating back 18 to twenty years on this Hate Crime against me. I further explained to PC Smell that three WPC from Kent Police had come to our house a year ago and quizzed us about these emails that were also sent to my Consultant Psychiatrist Dr Odesanya and Care Coordinator Funke Aderibole, as well as Maudsley Hospital and by GP Surgery. They went away promising to investigate it further. Then another PC came to our house to check our computers and told us that there is nothing Kent Police could do as the source of the emails were untraceable. Further a lady Police Officer came last autumn to our house to investigate the funds embezzlement of the The Conservative Libertarian Society that had taken place and she also promised to look into the matter and report on it. I told PC Smell that WPC Sulling of Pursers Way Kent Police was appointed to investigate the full circumstances of this issue and see how it is related to the 23 years of State-organised persecution that I have been victimised with through the Security Services, most notably Kent Police itself who are guilty of continued bullying, harassment and intimidation to pervert justice and pervert the course of justice because I told PC Smell that these VOPA criminals were trying to make me Stateless and ruining my employment prospects in this country. I explained to him that I had a lovely job at Tesco that really suited my family and they destroyed it through criminal anonymous emails. I told PC Smell that I had sent Ruth Cross 2 or 3 emails and she as equalities manager replied to the first one but not to the second and third ones, but Daf of FAversham had telephoned me and told me about the situation at Tesco that USDAW could do nothing about my reinstatement. PC Smell ignored me and also when I explained to him that there is a Hearing of this matter at the Central London County Court on 21 June 2021, to consider Kent Police and the processing of the Claim HQ17X0177. In view of the lack of reply from Ruth Cross to deal with my cases I had felt it therefore appropriate in light of USDAW's reticence in investigating the University of Greenwich, Sainsburys, and Tesco for unfair and constructive dismissals that I suffered to report USDAW to the Trades Union Congress. Further when I told PC Smell that I had lodged at the High Court Queens Bench Division against Kent Police on a dozen Counts of protecting criminals organised by the State to terrorise me. PC Smell just ignored all this evidence, and when I told him that I still have not received Tesco's investigation report on the emails that it received from VOPA, and the ones received by Sainsbury both of which lead to me being suspended from work and dismissed effectively from service, he simply brushed over the implications to cover up the crimes. He asked me for my email name and I did not give it to him deliberately as I was definitely being set up for being arrested in the future under false charges organised through Kent Police. PC Smell told me to change my password and email account straightaway. I agreed to it but will wait for USDAW's report on this matter before I do so. Why can't

the Police uncover this matter? Phoning me is terrorising me into a false situation, just as the County Court of Central London has been terrorising me over the past two and half years on Claim Number E35YM660. PC Smell asked me to be more careful and when I asked for the location IP address source of the email that he was referring to he would not give it to me nor would he pass me the email itself by forwarding it to me. Instead, he said that if any more of such emails went out from my email address, that would lead to me being arrested as the only means of finding out who is actually behind the sending of these emails. That is why I telephoned you straightaway.

My membership of USDAW number was 02210811, and I received two emails from USDAW confirming that all my membership details were already logged into the USDAW website. When I spoke to Gill nearly a fortnight ago, she had confirmed that, and the Membership Card came in the post. I was telephoned by USDAW Accident Helpline to enrol me into the free £5000 benefit cover, and Ruth Cross had written to me that she will arrange for my future membership subscription to be arranged by direct debit now that my appointment with Tesco is fully terminated and I await the P45 in due course. Yet today when I telephoned you you told me that you could not locate my membership details and you asked me to give my details again to set up the Account: as Shantanu Panigrahi, ME6 0SL, 3 Hoath Lane, Wigmore, Gillingham, Kent, Tel: Landline 01634 379604, Mobile 07967789619, before you would give me over the phone the USDAW Reference No U17620. Then you gave me the USDAW Records Department Number of 01614130913.

Further, if USDAW directly or Ruth Cross at USDAW had definitely received the offending email that PC Smell was referring to I asked you why did USDAW not contact me by telephone or email to ascertain how this email was sent and by whom? PC Smell would not say who had made the complaint.

Bear this mind: I will never leave this country come what may, and I have my pension that cannot be taken away from me with my Citizenship of the United Kingdom and my Passport that is in my house.

Yours sincerely

Introducing

EVIDENCE DEBUNKING AND REFUTING ALL PANIGRAHI'S CLAIMS <https://narkive.com/RDw61gDJ>

Reference is made to 'Dr' Shantanu Panigrahi's email below, for whose forwarding to me I am grateful to you.

As attorney for the obviously-named "Victims of Panigrahi Association" ("VOPA"), a loosely-formed body, without legal personality, some of whose members are amicus curiae in E35YM660, seeking damages and costs from the said Panigrahi, I must say that I have seldom encountered such a self-serving piece of nonsense as Panigrahi's scribblings here.

Additionally, his claimed mental impairment is bogus, a lie concocted by him and encouraged by his ignorant, or it could be remotely possible stupid or complicit, "helpers", namely Drs

Odesanya, Klingman (Kingham of SLAM) and Mawanche, in the perpetration of this hoax which we will show the court has been carried out in one form or other for in excess of twenty-three years.

Kindly refer to <https://narkive.com/RDw61gDJ> for clinical evidence from Professor Rudd to this effect. It rebuts the claims filed by Panigrahi at

<https://www.theallurementofrealityinreview.com/post/notes-of-reminiscences-of-a-paranoid-schizophrenic>

We will introduce compelling evidence that the purpose of the scam is defrauding the Exchequer of millions of pounds in the form of claimed compensation to Panigrahi for concocted wrongs he suffered.

Panigrahi has caused substantial losses, damage and cost to be incurred by others, including our members. His mental state is irrelevant as are the M'Naghten rules, it not being a criminal matter;

"we" suffered because of him and this must be remedied and we must be recompensed via the civil courts. It truly is as simple as that. Rudd's evidence will be adduced only to establish the degree of malice and premeditation by this criminal family of abusers.

At the hearing, our members will introduce consolidated evidence both quantifying our costs and estimating our liquidated damages, but also expert testimony from Prof. Stephen Rudd to establish that Panigrahi is feigning his "paranoid schizophrenia" as a cover for his malicious actions, forgery, intimidation and harassment. This is because we are seeking, in addition to compensatory damages, punitive, aggravated damages and exemplary damages, and costs assessed on the indemnity basis, as well as many breaches of anti-discrimination and employment law.

We have waited years for this opportunity, and will not be denied redress. If Panigrahi and Co. are bankrupted as a direct result of the 21 June 2021 hearing, it will be far less than he deserves.

We also seek a referral of Panigrahi to criminal court on charges of attempted grand larceny and fraud, and the indictment, or whatever is the equivalent in English law, of his apparent conspirators in the medical profession.

My forensic qualifications will be presented to the court at the appropriate time.

Sincerely

Nitin Bhardwaj

for, and on behalf of, seven Jane Does collectively referred to as "VOPA".

Subject: E35YM660 Pre-Trial Review

Date: 11 Jun 2021, 16:03:11

To

(1) Operations Manager Central London County Court

(2) Judiciary, Central London County Court

Dear Sirs

I have not received any intimation from the Operations Manager to the attached correspondence TolaniByfield(CentralLondonCountyCourtOperationsManager2June2021.docx; but with my wife had a Meeting with my GP, Dr Mawanche yesterday between 11.10 am and 11.40 am concerning the attached CAREPLAN and associated documents that I had referred to the Surgery for consideration. The outcome of this Meeting was that despite my wife's insistence that I be kept under the Care of the Community Mental Health Team at Britton House, Gillingham for her view that dislodging this service was inappropriate when in fact I wished to book myself into a Secure Ward of a mental hospital for recuperation, Dr Mawanche decided that the Care Plan would remain in force and that I should in addition undertake the following tasks on a routine basis:

- (a) avoid reacting to criminal "anonymous" emails including ones I send out myself to myself and stop sending these out to any person or institution;
- (b) avoid undertaking employment as these exacerbate my mental disorder.
- (c) abide by whatever instructions are given to me by my Carer, who is my wife.
- (d) continue taking the antipsychotic, antidepressant and mood stabilising medications as given in the Care Plan.

Dr Mawanche has therefore determined that I am under severe mentally disordered state of mind and as such must remain a recluse unfit for interactions with associates and those in authority.

I deduce from this that I am unfit mentally to attend any kind of Hearing organised by the Central London County Court and also am consequently not responsible for any of my actions in the previous years that has brought me to the stage of facing a Pre-Trial Review.

Yours sincerely

GUIDANCE falling short of legal advice.

On the warned list to which you don't have access, "Mr Martinus Caine" has been named as an AC participant in E35YM660. It is imperative you both

- electronically attend on 21st June; you won't see his face but there is a chance you may be able to hear his voice

- contact the County Court at Central London well in advance of that date and ask, both by email and telephone, what

details it has entered in the register for Mr Caine. Cite CPR 23 which confers upon you as a party to the action this right.

Pass on this information by email to me. I'll see what more I can find.

- My theory is this vopa is an international gang of criminals and your truth-finding has somehow disrupted their operation.

This explains the uselessness of law enforcement in this matter.

For your information, I have applied for the password to attend, from Basel. So far, there has been no response from the admin clerk.

I am not your lawyer so be so kind as not to misrepresent this in any of your publications.

Your friend Jo is informed.

## GOD AND ME

Should we rely on God for our daily living conditions, or does He wish us to be free and independent. My experience this morning on the 14 of June 2021 is that we must not rely on God no matter what level of bhakti we have. For bhakti changes with time and when the chips are down one must not fall into the trap of surrendering to God as the last straw that will break the camel's back.

In following Him constantly from 1999 to 2004 initially I ended up in the mental hospital suffering from paranoia and delusions and had to be kept there for 3 months before the Mental Health Tribunal would release me back into the Community but still under supervision as an outpatient of the Community Mental Health Team Services of the United Kingdom. I went on to develop deep depression from that episode and became an atheist. However, under the belief that I had visions in 1997-1998 and utterances I wished to test whether those were God imparted into my psyche if this was the last thing that I did in my life. So, when I recovered my poise and got myself a steady job to get on with life, I relapsed into surrender to find out if God had truly come into my life for a mission yet to unfold. This led to me being sent back into the mental hospital in 2008 for another spell of seclusion from the Community. That time I was only kept in the hospital for one month and when I came out I decided that I should approach the question of God and me from a different angle. This was to start learning the meaning of life by interacting with people in Forums, in employment, in setting up my own Blog, <https://shantanup.wordpress.com> and developing my knowledge from scratch. In 2014 however when I got banned from the Forums I found that these had limited use in the search for the truth, and I reverted to seeking instructions from God using my digital clock of checking for messages from Him.

I undertook my work of developing my material objectives to restore my reputation as a sane person from that point onwards and this has continued to this day with the creation of numerous websites and litigation against the Prime Minister of the United Kingdom at the Central London County Court under Claim No Ee5YM660, that took over from an earlier Claim HQ17X01773 at the Queen's Bench Division of the High Court against Kent Police for protecting criminals who harassed and obstructed justice in their dealings with me. The outcome of this litigation in which I am demanding £100 million in damages and compensation from the Prime Minister directly or from the UK Treasury is due out soon, perhaps on 21 June 2021.

Since I abandoned the idea of Brahmoadvaita Vedanta a year ago and went on to outline the framework of Vishista-advaita Vedanta, under which I conduct myself nonchalantly, spontaneously and unpremeditatedly to seek my destiny on the assumption that everything in the universe is preordained and preorchestrated, this morning I am still inclined to say to myself that this is only a theory. Nothing is proven. Satyameva Jayate and Dharma Rakshati Rakshita is not proven in this manner of seeking to perform sanatana dharma. So, before I am incarcerated for a third time in a mental hospital or worse in a prison, I am giving up my search for the truth of the meaning of life as a misadventure, for liberation is the crucial objective that I seek. I must be free, independent, and liberated in what remains of my life at the age of 64. So, I do not rely on God directly or indirectly to help me in my material living conditions, whether or not He does wish us humans to be free and independent. I have a life. I intend to lead it to the best of my ability to become as prosperous in security with a risk-averse attitude from now on. There is no bhakti left for me. It was all part of my satya-advaita yoga that has brought me to this point.

Should we rely on God on our daily living conditions? Or does He want us to be free and independent?

Harish Kumar: said Where will we want to seek Brahman? He is immanent in all beings. Here & There is the visible...

Shantanu Panigrahi: Harish Kumar, In my experience God as Sri Krishna is a real Supreme Being who is indwelling in Brahman. So this Brahman alone is where one seeks God.

Shantanu Panigrahi, Surbhi Trivedi, When one 'relies' on another Entity to assist one in making decisions on the things that affects us in our daily lives, one is weak. This reliance means that whatever one does in bhakti to God is just sanatana dharma, which may not be true. There is no way of determining whether God either exists in the manifest form from His normal dormant form in Brahman for one to interact with Him even if one assumes that He would make Himself available to bhakta to answer his questions that the bhakta needs. There is also the question of conscience, should one ask God to assist one in the normal processes of living when He has given us a free will and independence quite clearly to make our own decisions. Is that respectful towards God. Should we impose ourselves on Him. So on balance, I do not seek nor rely on God and am free and independent valuing my liberty. As you sow so shall you reap. I wish to be responsible for my own actions whether or not it leads me to material welfare in the course of running my life. Others may see it differently of course. My view is what I describe as Vishista-advaita Vedanta in which Liberation or Moksha is the paramount consideration. One cannot be liberated or attain moksha if one relies on another living being, man or God.

Shantanu Panigrahi, Brahman is not God Sri Krishna. We are Brahman, part of the Reality and jivatman part. We cannot correspond with any Brahman, only with Sri Krishna as God. Brahman is just physical energy consisting of sattvic, rajasic and tamasic gunas. which do not impart messages to the jivatman or instructions on how the jivatman should make decisions that affect his karma and dharma. If one adopts the properties of these gunas or blends of these three properties one ends up doing specific karmas and resulting dharmas. I have found that rajasic path alone leads to sanatana dharma that is what is acceptable to God Sri Krishna as the eternal law of the universe. This is because the rajasic path is the truth-based path and truth-based dharma, and 'dharma rakshati dharma': simple as that.

Shantanu Panigrahi, Raman U Valand Even bearing God or Brahman in mind is bondage and restricts the freedom to act nonchalantly, spontaneously and unpremeditatedly so is not conducive to Sanatana dharma. Losing all one's attachments generates sanatana dharma which leads to liberation as moksha. This is the sanatana dharma that is referred to when in the scripture 'dharma rakshati rakshita'.

Aravindakshan Mp asked a question .

What happens to the souls of persons who committed suicide? Is there any ritual or japa etc by which we can help the soul of my beloved brother who committed suicide?

Shantanu Panigrahi, People who committed suicide did so because they were sick and tired of life. You should leave their souls alone. If they need you now for any reason they will contact you.

Dear Sabu Koshy

1. I am attaching the details of the correspondence with Saisburys so that you can link it with your records on this case, but the Tribunal did fix a Hearing on 10 May 2021 at 2.00 pm that I enquired about but did not get a response from any of the parties so I felt that the matter was under the jurisdiction of the Central London County Court under Claim E35YM660 for which a Hearing is scheduled for 21 June 2021 at 11.40 am: 76 EC(C)AC ACAS Certificate.pdf; Fair Treatment outcome letter - Dr Shan Panigrahi 21.7.20.pdf; et\_shantanu\_panigrahi.pdf.

2. Be that as it may I should stress that I am deeply unhappy with the manner with which the Employment Tribunal conducted proceedings that I initiated against:

(a) the University of Greenwich that summarily dismissed me from employment after suspension from work to stop me acquiring evidence that I would need for the Disciplinary Hearing that it wanted to judge me on in the summer of 1998. The Tribunal prevented me from obtaining the evidence of co-conspiracy from the British Society of Animal Science, the World Poultry Science Association-UK Branch and the British Poultry Science and the Institution of Professionals, Managers and Specialist (IPMS) as well as USDAW who I joined recently to take over the trade unions role in the proceedings. I wish to make it clear that I had no alternative but not to attend the Hearing on that occasion but to Appeal against the Judgment of the Tribunal at the Employment Appeals Tribunal and then the Court of Appeal. When these failed to elicit a coherent response, I initiated civil proceedings against the University of Greenwich and Co-conspirators for concerted racial discrimination and harassment on me, but was found to have abused the process of Medway County Court that I now realise may have been because it was a Employment Tribunal Matter rather than a matter for the county court on the charge of Defamation. Accordingly, if the Tribunal would revisit this case once again so that I can get even the basic demand of severance payments from the University of Greenwich at the very least, I would be grateful. Unfortunately, I do not have access to the Case Number but recently had been in correspondence with the Solicitors acting for the University of Greenwich and was told that the University is still considering the matter. Please examine the attached correspondence: ToArchonSolicitors\_KingsleyNapley(Costs and DamagesE35YM660)16May2021.docx.

(b) the Tribunal Case against Shell UK Ltd in 2008 for violation of TUPE arrangements and placing me on disciplinary charges that once again was constructive dismissal as well as unfair dismissal for having formed the Union of Petrol Station Workers to complain about the intolerable working conditions under sole running of the Convenience-Store cum petrol Station. and whilst I was periodically hired by new owners Sherlodge Garage from 2010-2011 and by Shell itself in 2014 in

different sites my shifts of work were once again terminated without notice so that the case remains unresolved at the Employment Appeals Tribunal which is not replying to my emails seemingly on the grounds that the matter is still at your Employment Tribunal. Again, I do not have the Case Number for these proceedings.

(c) Tesco Limited, for suspending me from work on 24 May 2021 pending its investigation of emails that the Firm had received but no Fair Hearing has still been announced by Tribunal to consider why USDA representatives at Tesco Aylesford CFC refuse to cooperate with me in the investigation of the emailing incidents thus forcing me to resign from employment on the grounds of constructive dismissal by internalising the trades union into the Company as the IPMS had done with reference to the case against the University of Greenwich. ACAS has not replied to my application for the issue of necessary clearance for the purposes of the Employment Tribunal so that the case of unfair dismissal must proceed now without this arbitration Certificate from ACAS.

3. I would therefore like to apply to the Tribunal through this email to institute immediately Tribunal resuscitation proceedings out of time against the University of Greenwich and Shell, and look forward to the response of the Tribunal on the Sainsburys and Tesco disputes.

Yours sincerely

Subject: How USDAW can Assist me

Dear Ruth

Many thanks for clarifying that there is nothing further that USDAW can do to try and get me reinstated into my Personal Shopper employment at Tesco. This is most disappointing because I feel that I did not get a Fair Treatment Hearing as with Sainsburys last year. I am therefore minded to lodge an Employment Tribunal Case starting with correspondence with ACAS to obtain the appropriate clearance necessary for lodging the Claim against Tesco for Constructive and Unfair Suspension from Work and Dismissal given that I was probing for the full circumstances of the investigations that Tesco was conducting on the emails that were the subject of the concerns that Tesco had in trying to subject me to a Disciplinary process which I felt was going to be a kangaroo court at Tesco.

By copy of this email to the employment Tribunal, I am also seeking the outcome of the Employment Dispute that is ongoing with Sainsburys plc from April 2021, with Shell UK from 2008, and with the University of Greenwich from 1998.

Your immediate reply would be most helpful before I complete the necessary formalities on all these four employment matters since I have still not received a penny of the £55000 severance payment from the University of Greenwich, the nearly £10000 from Shell UK for violation of TUPE regulations, and the £500 unconditional payment from Sainsburys for ageism conflated with religionism.

I am also copying this email to Mr Jackson requesting him to refund the £25 as costs towards Victims of Panigrahi Association that I paid on 20 May 2021 to the Bank Account it provided me and also letting the firm no that no further payments will be made pending the resolution of this dispute at the Employment Tribunal. Dear Shan,

Thanks for the message, which I received. I will call Rupa in the next several days. It was you, yes?

We warned you they would escalate fiercely in the week leading up to the critical lawsuit. You have only begun to experience what these establishment bastards intend. I was so incensed I phoned 111 asked for your local police and asked to speak to Police Constable Smell about an ongoing investigation. I then learned, yes, there is no such officer with that force. Or any other rank. Or even Snell. My feminine powers of intuition suggests that it is possibly not a real doctor90@yahoo.com

which isn't an anonymous address and which Kent Police can trace in ten minutes if they wish! Tell them they must trace it and do not complicate matters by telling them hundred other things. Just one email address that is possibly not a real doctor90@yahoo.com, it could even begin to unravel their whole criminal enterprise. I have a request for you. Carelessly, Mr Mulhouse has revealed a forwarding email for me. Please delete it from your blog immediately, I beg you.

Please get a dog, Shan. I fear for you.

Dear USDAW

1. For a number of years I have been plagued by criminal anonymous emails (CAE) by persons unknown presumably because they hold grievances against me for something that I have done. I do not know what I have done wrong to deserve this. This background makes concerned that the attached email FrUSDAW(CAE)CancellationofyourUsdawMemberships14June2021.docx that I received overnight might be one such email and is designed to suppper my employment proceedings at the South London Employment Tribunal, as attached: ToEmploymentTribunal(How USDAW can Assist me5)andvariousothers14June2021.docx. I attach a second email from USDAW earlier yesterday for reference: FrUSDAW(WelcometoUsdaw)14June2021.docx, and also refer you to the telephone call I received yesterday from USDAW Protect to enrol me in the £5000 free membership Accidental Life Insurance Plan.

2. I would be grateful if you would therefore confirm the authenticity of the CAE-designated email that I am hereby bringing to your attention, so that I may take alternative measures to process the legal disputes with the named employers.

Dear USDAW

1. For a number of years I have been plagued by criminal anonymous emails (CAE) by persons unknown presumably because they hold grievances against me for something that I have done. I do not know what I have done wrong to deserve this. This background makes concerned that the attached email FrUSDAW(CAE)CancellationofyourUsdawMenbership14June2021.docx that I received overnight might be one such email and is designed to suppper my employment proceedings at the South London Employment Tribunal, as attached: ToEmploymentTribunal(How USDAW can Assist me5)andvariousothers14June2021.docs. I attach a second email from USDAW earlier yesterday for reference: FrUSDAW(WelcometoUsdaw)14June2014.docx, and also refer you to the telephone call I received yesterday from USDAW Protect to enrol me in the £5000 free membership Accidental Life Insurance Plan.

2. I would be grateful if you would therefore confirm the authenticity of the CAE-designated email that I am hereby bringing to your attention, so that I may take alternative measures to process the legal disputes with the named employers.

Thank you

Yours sincerely

Subject: Re: How USDAW can Assist me

Dear Sabu Koshy

1. I am attaching the details of the correspondence with Sainsburys so that you can link it with your records on this case, but the Tribunal did fix a Hearing on 10 May 2021 at 2.00 pm that I enquired

about but did not get a response from any of the parties so I felt that the matter was under the jurisdiction of the Central London County Court under Claim E35YM660 for which a Hearing is scheduled for 21 June 2021 at 11.40 am: 76 EC(C)AC ACAS Certificate.pdf; Fair Treatment outcome letter - Dr Shan Panigrahi 21.7.20.pdf; et\_shantanu\_panigrahi.pdf.

2. Be that as it may I should stress that I am deeply unhappy with the manner with which the Employment Tribunal conducted proceedings that I initiated against:

(a) the University of Greenwich that summarily dismissed me from employment after suspension from work to stop me acquiring evidence that I would need for the Disciplinary Hearing that it wanted to judge me on in the summer of 1998. The Tribunal prevented me from obtaining the evidence of co-conspiracy from the British Society of Animal Science, the World Poultry Science Association-UK Branch and the British Poultry Science and the Institution of Professionals, Managers and Specialist as well as USDAW who I joined recently to take over the trade unions role in the proceedings. I wish to make it clear that I had no alternative but not to attend the Hearing on that occasion but to Appeal against the Judgment of the Tribunal at the Employment Appeals Tribunal and then the Court of Appeal. When these failed to elicit a coherent response, I initiated civil proceedings against the University of Greenwich and Co-conspirators for concerted racial discrimination and harassment on me, but was found to have abused the process of Medway County Court that I now realise may have been because it was a Employment Tribunal Matter rather than a matter for the county court on the charge of Defamation. Accordingly, if the Tribunal would revisit this case once again so that I can get even the basic demand of severance payments from the University of Greenwich at the very least, I would be grateful. Unfortunately, I do not have access to the Case Number but recently had been in correspondence with the Solicitors acting for the University of Greenwich and was told that the University is still considering the matter. Please examine the attached correspondence: ToArchonSolicitors\_KingsleyNapley(Costs and DamagesE35YM660)16May2021.docx.

(b) the Tribunal Case against Shell UK Ltd in 2008 for violation of TUPE arrangements and placing me on disciplinary charges that once again was constructive dismissal as well as unfair dismissal for having formed the Union of Petrol Station Workers to complain about the intolerable working conditions under sole running of the Convenience-Store cum petrol Station. and whilst I was periodically hired by new owners Sherlodge Garage from 2010-2011 and by Shell itself in 2014 in different sites my shifts of work were once again terminated without notice so that the case remains unresolved at the Employment Appeals Tribunal which is not replying to my emails seemingly on the grounds that the matter is still at your Employment Tribunal. Again, I do not have the Case Number for these proceedings.

(c) Tesco Limited, for suspending me from work on 24 May 2021 pending its investigation of emails that the Firm had received but no Fair Hearing has still been announced by Tribunal to consider why USDA representatives a Tesco Aylesford CFC refuse to cooperate with me in the investigation of the emailing incidents thus forcing me to resign from employment on the grounds of constructive dismissal by internalising the trades union into the Company as the IPMS had done with reference to the case against the University of Greenwich. ACAS has not replied to my application for the issue of necessary clearance for the purposes of the Employment Tribunal so that the case of unfair dismissal must proceed now without this arbitration Certificate from ACAS.

3. I would therefore like to apply to the Tribunal through this email to institute immediately Tribunal resuscitation proceedings out of time against the University of Greenwich and Shell, and look forward to the response of the Tribunal on the Sainsburys and Tesco disputes.

Yours sincerely

Dr Shantanu Panigrahi

Subject: How USDAW can Assist me

Dear Ruth

Many thanks for clarifying that there is nothing further that USDAW can do to try and get me reinstated into my Personal Shopper employment at Tesco. This is most disappointing because I feel that I did not get a Fair Treatment Hearing as with Sainsburys last year. I am therefore minded to lodge an Employment Tribunal Case starting with correspondence with ACAS to obtain the appropriate clearance necessary for lodging the Claim against Tesco for Constructive and Unfair Suspension from Work and Dismissal given that I was probing for the full circumstances of the investigations that Tesco was conducting on the emails that were the subject of the concerns that Tesco had in trying to subject me to a Disciplinary process which I felt was going to be a kangaroo court at Tesco.

By copy of this email to the employment Tribunal, I am also seeking the outcome of the Employment Dispute that is ongoing with Sainsburys plc from April 2021, with Shell UK from 2008, and with the University of Greenwich from 1998.

Your immediate reply would be most helpful before I complete the necessary formalities on all these four employment matters since I have still not received a penny of the £55000 severance payment from the University of Greenwich, the nearly £10000 from Shell UK for violation of TUPE regulations, and the £500 unconditional payment from Sainsburys for ageism conflated with religionism.

I am also copying this email to Mr Jackson requesting him to refund the £25 as costs towards Victims of Panigrahi Association that I paid on 20 May 2021 to the Bank Account it provided me and also letting the firm no that no further payments will be made pending the resolution of this dispute at the Employment Tribunal. The Skeleton Argument and Bundle are aalso attached:

Dear Mark

I have a second book that I expect to finalise in the next week, but am having difficulty in converting it into a pdf format without discoloured margins appearing (see the Word and pdf versions attached). Could you convert it for me to clean pdf format when I am ready for it to go to printing. Also please let me know the cost of printing 3 books as with the previous Order. The Title is 'Navigating the State of the United Kingdom' - food for thought. The files here are attached for reference only at this stage. I will have to get an ISBN number to include at the bottom of Page 0, which is why I am copying this email to Barcode.

Thank you for the delivery of the first book. It is all in order.

Employment Tribunal South London

Dear Sirs

I forward to you an email received by me last night but which has just come to my attention because I was preparing for my Employment Tribunal Cases against the University of Greenwich, Shell UK, Sainsburys, and Tesco for which I need to seek out fresh Case Numbers as the attached communication from the Tribunal shows: FrEmploymentTribunal(CaseNumber)15June2021.docx.

This would be a complicated affair for which I need time to construct my Case that all four employers should be banded together as a single unit under the supervision of the Community Mental Health Team that has branded me a lunatic requiring still anti-psychotic, anti-depressant and mood stabilising medications to be able to live in the Community as things stand this morning.

The Skeleton Argument that I wished to submit is attached in its final but unedited version in my defence: Navigating the State of the United Kingdom.docx, which should be self-explanatory in the sense that every one of my actions were the means of navigating myself through intrusions into my privacy and liberty in the State through its surveillance operations that includes the use of criminal anonymous emails such as this one from Cherie, and other state surveillance mechanisms such as the Samaritans, private citizens, and institutions of the State.

In submitting this Skeleton Argument that goes with my published book 'A Conception of Reality' attached as printed out and delivered to our house in 5 copies one of which I wish to submit to the court through the post as my Bundle for the Hearing with your permission. But time is pressing before the Hearing of 21 June 2021 at 1140 am. I would therefore seek an adjournment on these grounds so that the outcome of the Employment Tribunal Proceedings and the contents of this Bundle yet to be posted can be taken into account. In regard to this please let me know by email who the Bundle should be posted for the Judicial attention of by return of post or on my Mobile Telephone Number 07967789619.

Dear Mr Panigrahi

I am assisting with this matter while the case holder, Adele Miller, is out of the office. As you are aware, we act for the Defendant in this matter.

In accordance with the attached Court Order, we are preparing the Bundle for the hearing on 21 June 2021 and will send you the draft index to review and hopefully approve as soon as possible. We are required to file the Bundle 48 hours before the hearing.

We will also send you the Defendant's skeleton argument.

I acknowledge that you are a litigant in person and would encourage you to seek independent legal advice from Citizen's Advice or similar.

Could you please acknowledge receipt of this email?

Kind regards

Dear Susie Riches-Kapur

I acknowledge receipt of this email in-so-far as it goes to clarify who the Defendant or Defendants and other amicus curiae Respondents as aggrieved parties are in this Claim E35YM660 that was accepted by His Honour who ordered this Notice of Hearing that you have just sent me, and therefore on whose behalf in totality you will be sending me the draft index (what is a draft index that to a layman like me, as you know I am a litigant in person). The Bundle that you will prepare must be sent to me by 5.00 pm today accordingly as I have not received the Transcripts of the proceedings held thus far. This will enable me to update my Appeal of the Court Order by seeking permission to Appeal (if necessary) at the Court of Appeal if it was a Circuit Judge that had issued the Order that you have sent me and not a District Judge who simply wished to determine the Defendant's of Claimant's costs in pursuant of the litigation and defence in accordance with His Honour HHJ Parfitt's Order dated attached:

CentralLondonCountyCourtOrderonE35YM660onE35YM660datedJanuary2021receivedbyClaimantfor stat9.27am on 22 March 2021.pdf.

I look forward to receiving from you the Defendant(s) skeleton argument as soon as possible bearing in mind that the date of 21 June 2021 for proceedings to end at the Central London County Court cannot be altered as I must move on with my Appeal at the Court of Appeal.

Yours sincerely

## CORONAVIRUS PANDEMIC

16 June 2021: <https://www.knowledgeforworldconservation.com/post/the-future-of-humans-in-the-developing-trends-on-coronavirus-pandemic> The future of humans in the developing trends on Coronavirus pandemic

When I was purely sanyassi-based in my outlook in being a Braho-advaitist I considered that the reliance on the atman as a mahatman should dictate all my human activities. In this light the basic fact that all creatures large and small are part of God's Creation for one to be in tune it I became puritannical and took the view that we should tolerate this pandemic and let Nature take its course. In other words, we should not protect ourselves through medical interventions and other preventative measures such as disinfecting our surroundings and vaccinating ourselves.

Today I subscribe to Vishista-advaitism and live in the Community as our society where we have obligations to protect ourselves as best we can with the scientific backing and protect others in society from intrusive elements that I regard as tamasic guna manifestations of Brahma Nature. The path that Vishista-advaitism follows is one of truth accommodation at the centre of the sphere of Reality, neither a sattvic nor a tamasic, but pinpointedly conducting oneself to harmonise and conserve and preserve what we can from our wherewithal's.

So I am pleased that my path of rajasic guna in Vishista-advaita took me to vaccinate myself against the Coronavirus and its emerging variants for I live another day and that should be led to the best of physical and mental well-being. I would recommend that to anyone else. It is a dharmayudha that we are fighting against the pandemic and daily measures need to be taken to avert the dangers to ourselves and our civilisation as humanity.

We must be very cautious in what we do and study the virus totally and comprehensively as we go along, protecting ourselves with wearing masks and social distancing to follow the latest government guidelines from our best and most knowledgeable scientists. I am not one of them. I have a broad outline of what Nature comprises of, but as a Vishista-advaitist whilst I see beauty in Nature from one angle, beauty is but skin deep is also worth bearing in mind.

So whilst I used to watch disdainfully when my wife put in snail-killing pellets in her potted plants, I no longer feel that she is doing the wrong thing, although I would not do it myself for I do not believe in horticulture but in preserving the natural wild life that give us much enjoyment so long as it is not a poisonous snake or a bee that stings or a mosquito that bites and passes on malaria. In this way I balance the sattvic and tamasic elements of Nature to steadfastly adhere to the middle ground, where there is some degree of attachment to material as well as spiritual elements of our needs. The sanyassi is totally unattached to bodily desires and beliefs and that is too puritanical sattvic life-style that prevents them from living in society but in monasteries and ashrams. I want to work for a living, so I have broken my vow of never to work again in employment and queried with an employer this morning on the state of progress of my job application.

As regard the Coronavirus pandemic, it is global now in the modern era of internationalism which is a good thing but secluding nations within the confines of their own geographical States is not a good idea as that would build up distrust and animosity between peoples. We are one humanity and we must chart our future as one such humanity. So, the commitment made by the G7 to double-up in the funding and distribution of Astra-Zaneca, Phyzer or any other vaccines that may emerge globally to protect people in developing countries is a welcome development. I have changed my mind on my hitherto puritannical view of sattvic nature that led me to recommend that we should not spend money on national health services but focus on preserving biodiversity and prevent climate change. All tamasic elements of Nature should be fought as dharmayudha in accordance with self-preservation of the individual and a collective society.

Subject: Re: Automatic reply: Urgent, Costs hearing on 21.6.2021, Panigrahi v Theresa May PM (Claim No E35YM660)

Dear Mr Nunn

Your Firm of Direct Access Barristers was copied into this email because you are a party as a Defendant in the litigation that I have on-going at the Central London County Court under Claim E35YM660, for protecting Mr Forz Khan and Mr Foreman as well as harry pitcher for the deceitful manner in which my two applications were manipulated to deny me the avenue to (a) prosecute the Director of Public Prosecution at Medway Magistrates Court on which Mr Forz Khan and I had a written agreement for him to do so and I had paid £3000 in advance that I had demanded back because he dragged his heels. Further when I deposited £10 into his account subsequently to act as a mediator so that I could meet the costs that were implicitly awarded against me in favour of persons and institutions unknown but who keep demanding amicus curiae representation into the Court proceedings, Mr Forz Khan then instantly returned this first instalment so that I had no choice

in finding a way of paying the Defendants their costs awarded in the judgment of the Court in pursuant of the provisions of HHJ Parfitt's Order of 19 March 2021 that I received on 22 May (attached) CentralLondonCountyCourtOrderonE35YM660dated19January 2021\_received by Claimantfirstat 9.27am on 22 March 2021.9df; APPLICATION FOR SUMMONS\_ - 1(Apply28Feb2021.docx); and (b) Mr Forz Khan should have taken care to question the Court of Central London as to why the Order was issued on 19 January 2021 yet I was not given it until 22 March 2021. It was clearly a conspiracy between the defendants and the Court officials to terrorise me.

As things turned out I tried to make a payment on Costs into the Bank Account of Jacksons&Co who gave me their Bank Details for unknown reasons and I did deposit £25 as an advance payment whether or not for Jacksons to be acting as a lawyer or private investigator on my behalf, but the email address that they provided would not entertain correspondence, so I do not at this point in time know whether I should make my second monthly instalment into the same Account. Furthermore, your latest email correspondence attached were duplicitous and deceitful as should be clear to the Judge when he examines it as attached: Correspondence with ClerksroomDirect11June2021.docx. When taken with this evening's email it is clear that you did not say that you would not be able to find me a direct access barrister in the future, just that one was not available for this particular hearing on 21 June 2021 at 1140 am. If you would immediately clarify this point, I would be grateful for in my skeleton argument I would request the Judge for an adjournment of proceedings until you are able to force Mr Forz Khan to do the right thing and not just say now that he is unable to devote the time and attention that my Case requires as he is busy with other clients. He was obviously not too busy to accept the £3000 earlier on and we had a written and signed agreement that he would act for me.

Dear Ms Riches-Kapur

INTERPOSITION IN THE INTERESTS OF JUSTICE

Mr Panigrahi has passed on to me your belated correspondence below. My capacity is akin to that of a Mackenzie friend, who cannot address the court or HMCTS officials. Hence civilappeals.registry@justice.gov.uk is omitted from this email.

But I am, of course, unconstrained in addressing and reprimanding you.

Typical GLD incompetence means that at least this many of you have been corresponding with Mr Panigrahi about his bizarre lawsuits -

adele miller

greg thomas

nayantara sriram

ravi patel

stephen green

susie riches-kapur

tom bartlett

zara broadley-johns

This multiplicity of trainees and apprentices has contributed to costs, to delay and to confusion. This will be brought to the attention of Judge Didge, or whoever it turns out to be.

The purpose of this email is to require you, on behalf of Mr Panigrahi, to email him without any delay and certainly before 4 pm Thursday 17 June 2021, all representations re costs or anything else made by any alleged ~amicus curiae~ parties in this matter. PDF is preferable and archives of these too. I am surprised you did not bring these up yourselves because

it is the actions of these alleged amicus curiae meddlers that have brought about the current unsatisfactory state of affairs in the first place.

Mr Panigrahi or Dr Panigrahi as he prefers to style himself is quite evidently mentally ill, generally harmless and writes all manner of meaningless vexatious nonsense. Unfortunately, some of it he wrote on forms N1.

It is as simple as that, madam.

I need not remind you not to reply to me but to provide your answer and I trust all the documentation from "VOPA" (a fiction) or other claimed amicus curiae parties directly to Mr Panigrahi himself, preferably at more than one of his numerous email addresses. He is copied into this, as well as the relay for another of his well-wishers, and his spouse.

For the avoidance of doubt, Mr Panigrahi remains a LiP, unless his other well-wisher instructs someone in her chambers. This is unlikely but not impossible.

I beg to remain,

Yours sincerely,

"Ed Mulhouse"

Advocate

but not "here".

To

The Judge

Central London County Court

Dear Judge

I have been getting confusing messages concerning the Hearing as to its purpose, whether it is a Pre-Trial Review with criminal considerations or just a simple Cost allocation review which would be a civil matter, as you will note from the attached correspondence overnight:

FrRoryNunn(ClerksroomDirectAccessBarristers)17June2021.docs;

FrEdMulhouse(toSusieRichesGLD)17June2021.docx. In my preliminary submission to Rory Nunn I had stated:

Defence to Clerksroom Direct

Over the past 23 years, I have done nothing wrong except defend my freedom to express myself on the injustices that I have suffered in the United Kingdom at the Mental Health assessment level in its monitoring by the Judicial authorities of the United Kingdom. I have sought to protect my reputation as a sane person trying to avert the Defamation on me and consulted 60 odd lawyers in the process of seeking the truth of why I have been marginalised by the State to the point of destitution.

I have never sought to game the system by devious means of constructing litigations that are frivolous, vexatious, abusive of the processes of Court and Tribunals, seditious, treasonous or simply contempt of Court and contempt of Parliament. All my actions have been oriented towards ascertaining my truth path in life in yoga that I conduct through the idea of satya-advaita yoga, that is the quest for truth-accommodation. As the Claim Form shows I was seeking a nominal £3000 in damages and no costs for I considered my duties to the State and beyond as being philanthropic in nature: this I still do. I am therefore extremely sad that my Blogs at Wordpress:

<https://shantanup.wordpress.com> and <https://towardsknowledgeforworldconservation.com> show no signs of being restored into the public domain.

But I remain your most obedient servant in fulfilling my obligations to the State and so await your telephone Call to me at the scheduled Hearing to address any outstanding questions that you may have.

I await further developments as Your Honour considers appropriate.

Yours sincerely

Dear Susie Riches-Kapur

My legal advice is that you deceived me in suggesting to me that the attached Notice of Hearing (Court Order08.04021receivedfromDefendant16June2021.PDF) was a Court Order that requires compliance from either the Defendants or the Claimant in any way shape of form. It was a rogue attempt to force proceedings back into the Central London County Court by criminals who bastardised the proceedings of the Court, seemingly organised by the Security Services of the United Kingdom in what should be regarded as a Cyber crime.

Mrs Theresa May is a private citizen now and is not entitled to a government lawyer at the taxpayers expense. I have already made that clear to Her Majesty's Court and Tribunal Service Complaints Department and the Operations Manager and the Central London County Court.

So this matter requires further inputs from Mrs Theresa May to see if she agrees with the assessment that is produced here in light of the following documentation, that she should address without any delay:

(a) ToCentralLondonCountyCourt(E35YM660 Proceedings26May2021.docx

(b) ToJrJacksonNickPerl(Sharpe&Perl)20May2021.docs

(c) ToJudiciaryCenLonCty(HEARING ON E35YM66017June2021.docx.

(h) ToUSDAWHeadOffice15June2021.docx

(j) ToUSDAWequalitiesRuthCross3June2021.docx

(k) ToUSDAWHelpline13June2021.docx

The Bundle you have sent me is deficient in these respects so I would suggest you reconsider your Costs application on the basis that if you are a Government Lawyer, the present Prime Minister Mr Boris Johnson must provide with a comprehensive Defence to these Particulars of Claim.

Dear Susie Riches-Kapur

I acknowledge receipt of this email in-so-far as it goes to clarify who the Defendant or Defendants and other amicus curiae Respondents as aggrieved parties are in this Claim E35YM660 that was accepted by His Honour who ordered this Notice of Hearing that you have just sent me, and therefore on whose behalf in totality you will be sending me the draft index (what is a draft index that to a layman like me, as you know I am a litigant in person). The Bundle that you will prepare must be sent to me by 5.00 pm today accordingly as I have not received the Transcripts of the proceedings held thus far. This will enable me to update my Appeal of the Court Order by seeking permission to Appeal (if necessary) at the Court of Appeal if it was a Circuit Judge that had issued the Order that you have sent me and not a District Judge who simply wished to determine the Defendant's of Claimant's costs in pursuant of the litigation and defence in accordance with His Honour HHJ Parfitt's Order dated attached:

Central London County Court Order on E35YM660 on E35YM660 dated January 2021 received by Claimant for stat 9.27 am on 22 March 2021.pdf.

I look forward to receiving from you the Defendant(s) skeleton argument as soon as possible bearing in mind that the date of 21 June 2021 for proceedings to end at the Central London County Court cannot be altered as I must move on with my Appeal at the Court of Appeal.

Yours sincerely

Subject: HEARING ON E35YM660: 21 June 2021, 1140 am; 30 minutes

To

The Judge

Central London County Court

Dear Judge

I have been getting confusing messages concerning the Hearing as to its purpose, whether it is a Pre-Trial Review with criminal considerations or just a simple Cost allocation review which would be a civil matter, as you will note from the attached correspondence overnight:

FrRoryNunn(ClerksroomDirectAccessBarristers)17June2021.docx;

FrEdMulhouse(toSusieRichesGLD)17June2021.docx. In my preliminary submission to Rory Nunn I had stated:

Defence to Clerksroom Direct

Over the past 23 years, I have done nothing wrong except defend my freedom to express myself on the injustices that I have suffered in the United Kingdom at the Mental Health assessment level in its monitoring by the Judicial authorities of the United Kingdom. I have sought to protect my reputation as a sane person trying to avert the Defamation on me and consulted 60 odd lawyers in the process of seeking the truth of why I have been marginalised by the State to the point of destitution.

I have never sought to game the system by devious means of constructing litigations that are frivolous, vexatious, abusive of the processes of Court and Tribunals, seditious, treasonous or simply contempt of Court and contempt of Parliament. All my actions have been oriented towards ascertaining my truth path in life in yoga that I conduct through the idea of satya-advaita yoga, that is the quest for truth-accommodation. As the Claim Form shows I was seeking a nominal £3000 in damages and no costs for I considered my duties to the State and beyond as being philanthropic in nature: this I still do. I am therefore extremely sad that my Blogs at Wordpress:

<https://shantanup.wordpress.com> and <https://towardsknowledgeforworldconservation.com> show no signs of being restored into the public domain.

But I remain your most obedient servant in fulfilling my obligations to the State and so await your telephone Call to me at the scheduled Hearing to address any outstanding questions that you may have.

I await further developments as Your Honour considers appropriate.

Yours sincerely

Dr Shantanu Panigrahi

Dear Susie,

I too am finalising my skeleton and bundle documents (drafts attached: Navigating the State of the United Kingdom: food for thought. docs and 'A Conception of Realty' for the Court in view of the lack of reply from the CCMCC to the attached query:

ToCCMCC(AppelofCourtOrderofCCMCC)17June2021.docx, concerning the attached CCMCC Court Order: Dr S. PanigrahiCourtOrderCCMCC.pdf. Your skeleton argument and bundle do not seem to make any reference to this vital issue that has prevented me from lodging online Claims over the

past two and half years on around 500 criminals who have harassed, bullied and intimidated me and who were not explicitly listed in the E35YM660 Claim, although Victims of Panigrahi Association (VOPA) is clearly referred to in that Claim Form. Is this something that should be discussed prior to the hearing between the barrister for the Cabinet Office Richard Clerk and myself? If not, please ignore this emailed request for a Zoom Meeting with him today and see what you make of my skeleton argument and bundle in defence against a penny of costs to the government for Appeal Judgement Failure from the Courts.

Yours sincerely

Please cut Panigrahi (E35YM660 Monday 1.40 pm) some slack. He's harmless. His "danda", as he calls it, you can guess to what he refers, doesn't work any more, even when he takes the little blue pills, and he takes it out on the rest of humanity via blogs and N1's. He's upset a mighty lot of people and some have taken it upon themselves to teach him a lesson. No point, he can't make the connection between his own appalling conduct and the replies he get. I've spoken to two of his former female colleagues, one of them a right darling, from the University Of Greenwich at which he held a minor post. Both said he's an evil monster. I tried to persuade them otherwise, with little effect. I haven't been able to persuade any of my colleagues to represent Panigrahi because they know he'll start defaming them online immediately. The only one who couldn't give a flyingf about that is a Swiss advocate who won't be granted the right to address.

Cut him some slack, please.

Dear all

Could you please clarify to me of the date when Mrs Theresa May stopped her Prime Minister's duties and handed all outstanding commitments with regard to the representations that I made to her to Mr Boris Johnson the present Prime Minister. I am especially keen at this stage to find out from the Lord Chancellor, Lord Irvine of Lairg what report he submitted to the Prime Minister on my petition of 2000 to Her Majesty the Queen as a last resort and to know if this petition has taken its course in the sense that Her Majesty the Queen has determined that the Court of Central London is the sole authority who should judge the matter, and proceedings on E35YM660 should proceed through the normal judicial process, namely from the CCMCC to the Central London County Court, and thence to the Court of Appeal and Supreme Court and no further, that is not to the Privy Council, which will erase all doubts that the Supreme Court Justices are the final arbiter of civil and criminal proceedings as well as the lawfulness and constitutionality of the decisions in every issue of

the Prime Minister, such that the Royal Prerogative under which they assume powers are judged to be unlawful and unconstitutional.

Thank you for your kind attention

<https://www.knowledgeforworldconservation.com/post/tomfoolery-in-litigation>

Litigations are a process of tomfoolery that is unending unless one party decides that enough is enough. For some it is never enough. So long as one lives one strives for freedom and liberty through truth and justice. It requires the exploration of the Constitution of the State that one lives in. For at the end of the day it is one's words against another's words. A judge has to put the hammer down to terminate the proceedings or it will go on relentlessly unless the underlying injustices are exposed. This is done ultimately in the Court of Public Opinion, not in a Judge's chambers.

The following elaborates this scenario clearly:

Here is something interesting folks. I have enjoyed my life on reflection. I came through terrible uncertainties and indecisions until I stopped worrying about anything whatsoever and took each moment as it came, harbouring no ill feelings towards anyone, but holding the principle of life being a process of survival in as much comfort and joy as possible. One lives in society contained in a State. One needs to reconcile oneself to these realities. The only way to do so is to pursue the legal

processes of the State to test one's own understanding of truth and justice and how the State looks at these. One must always submit to truth, in a process of truth-accommodation but fearlessly going forward with one right to freedom of speech in oral and written forms or one is not living a life. Simple as that.

This is quite a story, a saga of tomfoolery, which is why some Hindus relate to God with the phrase 'Mera Naam Joker'; that I am a Joker in the universe. For one lives, one acts, the direction of travel is determined by momentary considerations of survival.

Public

It makes life interesting does it not? how else to cheer oneself up from the mundane processes of life but to initiate litigation processes that lead one to learn about one's surroundings and circumstances. It is a gift that I have had for the whole part of my life. It really is not a deliberate quest for the truth, but for finely executing one's survival instincts in as much comfort and joy whilst making life as interesting as possible. It requires investment of money and time, until these run out. It keeps everyone on their toes, sharpens our individual intellect and develops society. It requires a risk-averse nature dealing nonchalantly, spontaneously and unpremeditatedly doing one thing at a time and facing the music afterwards. That is life, glorious life.

YOUR COMPLAINT:

Lack of Coverage on Religious Matters

I find it intolerable that in a multicultural society of the United Kingdom, when there is a need for the population to have a good and upto date coverage of different religious experiences and opinions, that BBC has dithered for a year or more in covering the widely publicised (websites that I have constructed as a social media reporter/journalist to address the needs of the population on spiritual matters. You should be aware that such lack of adequate coverage causes what I personally have experienced as mental disorders of paranoid schizophrenia and persistent delusional state when a citizen has to balance the prerequisites of his or her mental anxieties from following Holy Books and on other hand living to material realities of the State that he has to be part of as a good citizen.

I have tried my level best but no account has been taken by the BBC over these years to have a programme where mental illness is assessed from this conflicting needs of human beings so that crimes such as the Manchester Concert Arena and other terroristic acts from extremists are just tolerated without rehabilitative process that the media should play a key part in educating the population through proper debates and outlining individual experiences.

I am not talking from any proselytising standpoint but from a purely secular manner for I am an atheist which is on the one hand a believer that God as Creator and Preserver exists but is not available at all times to help individuals or society and it is left for us human beings to live within the natural world in such a manner that our mental health would be of paramount importance.

BBC has delayed and prevaricated over this matter and have given specific coverages of specific religions that are tolerated by the State and fostered by the State, such as Anglican Christianity for cultural reasons and not for purely religious philosophical contribution to society.

This needs to be remedied in the 21st Century. I am an avid viewer.

Dear Mirza Sanna

My understanding is that neither the Defendant nor me as the Claimant had requested through a N244 Application Notice submitted to the Court for a Hearing to consider any kind of issues emanating from His Honour Judge Parfitt's Order dated 19 January 2021 as attached. Judge Pafitt's had merely hoped that a DDJ must consider points 3 and 4 of the Order. I therefore as Claimant was resigned to the status quo that justice would never be served and I accepted that to move on with life, as I am 64 years of age and do not foresee that I have long to live in this world with my physical and mental ailment with 9 medication tablets that I have been taking every day.

So out of the blue when I receive the attached document, my immediate thoughts were this must have been issued to the Defendant only in error for I had not received any intimation from the Defendants or Victims of Panigrahi Association that there would be a resuscitation of this Case.

On the other hand if the Court has on its own accord, so to speak, decided to hold a Notice of Hearing now as an Order (sealed or unsealed), it must allow 7 days minimum for the Claimant to apply to have this Order set aside or altered. This is what I wish to submit to the Court at the Hearing that I shall be available to attend at 11.40 am 21 June 2021 at 11.40 am.

Please let me know who else would be attending this specific Hearing by 5.00 pm today.

Dear Attorney General

I write to you on a matter of the utmost urgency, because there is a Court Hearing scheduled on Monday 21 June 2021 in the Case E35YM660 Shantanu Panigrahi versus Theresa May, the Prime Minister of the United Kingdom for which I have sought leave of 7 days plus to file an Application Notice N244 to set aside a Notice of Hearing that I originally received on 8 April 2021, but which has now been converted by the Court into an Order for the Claimant and Defendant to attend (in effect compulsorily on the implicit threat that judgment would be entered in absence on prejudged considerations) unless there are reasonable grounds that this should Notice of Hearing should not be complied with as a set-up trap to punish to persecute. The leave to consider applying for the Application to have the Notice of Appeal/Order to be set aside was referred to the Judge in the Central London County Court this afternoon but I have not received the decision of the Judge on whether it is granted. This is in accordance with expectations. So I feel that if I do not attend the Hearing instituted on the Courts own accord without any application formally from the Claimant or the Defendant with the payment of appropriate fees that should automatically have given the parties 7 days' notice to consider whether to apply to have the Notice of Appeal/Order set aside or altered to the satisfaction of the Claimant and/or the Defendant, I would be in contempt of court. The Defendant is either Mrs Theresa May for when the Claim Form was lodged she was the Prime Minister and was entitled to a government lawyer to represent her, and now that she is no longer the Prime Minister it is Mr Boris Johnson who has the responsibility in his role to address the Particulars of Claim listed in the Claim Form which has been updated as stated in the attached Skeleton Argument, 'Navigating the State of the United Kingdom: food for thought.docx'. The background to the Case is summarised in the Bundle named 'A Conception of Reality.pdf' that is also attached for your kind consideration.

The Prime Minister yesterday through his government lawyer Susie-Riches-Kapur informed me that he has hired the services of a private firm of law chambers to act as Counsel at the Hearing on Monday. My immediate reaction to this appointment to represent the Prime Minister as the government was that this was unlawful and unconstitutional. I informed Mr Richard Clerk Counsel in an email to this effect and asked him to re-consider his position carefully as he has erred in law in accepting instructions from the government legal department that is attached to the Cabinet Office from internal solicitors, and that only the Attorney General has the Constitutional responsibility and duty to represent the Prime Minister in this and all other Court Hearings where the Prime Minister is the Defendant.

[https://en.wikipedia.org/wiki/Attorney\\_General\\_for\\_England\\_and\\_Wales](https://en.wikipedia.org/wiki/Attorney_General_for_England_and_Wales)

Her Majesty's Attorney General for England and Wales, usually known as the attorney general, is one of the law officers of the Crown. The attorney general serves as the principal legal adviser to the Crown and the Government in England and Wales.[citation needed] The attorney general maintains their own office and currently attends Cabinet. The office is also concurrently held with that of Advocate General for Northern Ireland.[1]

The position of attorney general has existed since at least 1243, when records show a professional attorney was hired to represent the King's interests in court. The position first took on a political role in 1461 when the holder of the office was summoned to the House of Lords to advise the government there on legal matters. In 1673, the attorney general officially became the Crown's adviser and representative in legal matters, although still specialising in litigation rather than advice. The beginning of the twentieth century saw a shift away from litigation and more towards legal advice. Today, prosecutions are carried out by the Crown Prosecution Service and most legal advice to government departments is provided by the Government Legal Service, both under the supervision of the attorney general.

The job of the Attorney General is highly demanding, and Sir Patrick Hastings wrote while serving that "to be a law officer is to be in hell".[2] Duties include superintending the Crown Prosecution Service, the Serious Fraud Office, and other government lawyers with the authority to prosecute cases. Additionally, the Attorney General superintends the Government Legal Department (formerly the Treasury Solicitor's Department), HM Crown Prosecution Service Inspectorate and the Service Prosecuting Authority. The Attorney General advises the government, individual government departments and individual government ministers on legal matters, answering questions in Parliament and bringing "unduly lenient" sentences and points of law to the Court of Appeal of England and Wales. As per the passing of the Law Officers Act 1997, duties can be delegated to the Solicitor General, and any actions are treated as if they came from the Attorney General.

The above excerpt if taken as authoritative indicates that the Attorney General is the principle legal advisor to the Crown as well as the government of the day in that he attends Cabinet as things stand. He has nothing to do with the Courts which are independent of the government and the Crown, except that the Supreme Court is loosely linked to the Crown through the Privy Council as is the government through the Leader of the House of Commons. If this is accepted the Constitution clearly is a Monarchy with its checks and balances that ensure the smooth running of the nation as the primary objective of the State.

In 2017 Dr Sivaji Panesar of the Indian Government indicated that that Victims of Panigrahi Association was inclined to apply to the Attorney General to consider declaring me as a vexatious litigant which would have debarred me from instituting litigations or conduct private prosecutions of criminal conduct against persons and institutions. I wrote to the Attorney General then to find out whether this would materialise but did not receive a response, but my litigation and private prosecution of the Crown Prosecution Service/Kent Police at the Queens Bench Division of the High Court under Claim HQ17X01773 was struck out without scope for Appeal. In consideration of this turn of events I started a Claim at the CCMCC against the Prime Minister of the Day to determine whether she/he was in charge of the Executive in government overseeing the day to day running of the State in all its diverse facets, but the Claim has stalled on technicalities such as the timely submission of up-to-date Particulars of Claim and permission to appeal the implicit striking out of the Claim was rejected by a number of judges at the Central London County Court with the matter not even going to a Circuit Judge for adjudication as CPR Rules requires.

I wrote to the Attorney General: <https://www.theconservativelibertariansociety.com/post/claim-e35ym660-proceedings-at-the-central-london-county-court>

A Hearing is announced for Monday 21 June 2021 at 1140 am to seemingly consider the concerns of the State which will determine the Constitution and roles of all the institutions and personnel in public life from Judges, the Prime Minister, The Privy Council, the Crown Prosecution Service and the Attorney General, and of course Her Majesty the Queen as the overall monarch Head of State.

n244 form(SetAside&AlterNoticeofHearingE35YM660.pdf :

The Defendant has served the Claimant a Notice of Hearing on 16 June 2021 stating that it is an Order from the Court to consider its Costs schedules in relation to Claim E35YM660. The Claimant hereby applies to have this so-called Order altered in content for another Hearing to be fixed to explicitly consider the following issues:

The Claimant contends that all the orders listed in the Skeleton Arguments and Bundle served to the Defendant and the Court must be set aside as null and void on the grounds that the Full Particulars of Claim have continued to expand relentlessly right up to this present moment since the Claim was first lodged and these are now the responsibility of the present Prime Minister Mr Boris Johnson as Defendant to provide a technical rebuttal or a Defence to outline the Prime Minister's roles in the management of the Judicial and Security Services who have harassed, bullied, intimidated and obstructed justice notably through continued criminal anonymous emails sent by a fictitious organisation outlined in the Claim Form as Victims of Panigrahi Association or VOPA who are just a front for the secretive Establishment of the State to conduct its surveillance of political prisoners such as the Claimant who was incarcerated in mental hospitals and kept under semi-detention at home in the Community enforced through anti-psychotic, anti-depressant and mood-stabilising medications that he has no need for but this is used as cover to defame and impoverish him from the denial of employment opportunities.

The Orders issued by the Court hitherto have not addressed these fundamental issues of the grievances that the Claimant has most notably on the restoration of his Blog:

<https://shantanup.wordpress.com> and

<https://towardsknowledgeforworldconservation.com>, nor specifically on the four employment disputes that he considers to have been disposed-off through the hidden kangaroo courts of the Employers.

To 38 Degrees on a query on the National Health Service: 19 June 2021

The NHS has been obviously under tremendous pressure since the Coronavirus pandemic hit our shores and which is getting worse before it will get better under our scientists in immunology and epidemiology companies who can provide medications and vaccines as things change with time. so I understand that we should not find scapegoats in Mike Hancock. I personally feel that he is a very thorough and able Minister of Health and has taken the steps in accordance with the data that has arrived on his table from regional bodies and overseas. I think we need to invest more in physical health rather than mental health for mental health is curable from education itself not by forcing medications and putting people in mental hospitals. I have been in mental hospitals on two occasions and considered that to be a total waste of time. We need Carers trained. We do not need book worm Psychiatrists as career doctors to help people cope with anxieties and what the Psychiatrists label as paranoid schizophrenia and persistent delusional disorder. Education cures ever anxiety that there is. For that we need to have more discussions on what causes stress and spend more money on counselling services from professionally trained psychologists, not psychiatrists. We humans are naturally living our lives and we need to find the right education and psychological counselling to allay their paranoia and fears by focussing on the root cause of ignorance, not by patching up with medications and mental health incarcerations. The Courts should only be the one's who should determine whether the actions of people are forensic or criminal. So we need an overhaul of the Judicial system too. So in short we should refocus on this and it needs considerable discussions.

Your Ref. Z1819776/TBL re Case E35YM660

Esteemed fellow victims of "Dr" Shantanu Panigrahi,

"I was born with a divine mission in life to fight the British system" - Dr Shantanu Panigrahi

Navigate to

<https://archive.org/details/72967-pf-4-1-a-conception-of-reality-original-edition>

Turn to page 84 of his concise book, where you will find the quotation.

It is a little below Dr Panigrahi's admission that he admits to routinely raping his wife, as exposed by Mr Paul Hands (phands@aol.com) of Minnesota. Kent-County Police apparently decided it is OK to rape one's wife in Kent County, and took no action.

Or page 81, where Kent-County Police seemingly approved "I felt that the detonation of a nuclear device was a welcome development in the world in order to keep the evil western empire builders on their toes so that they were prevented from interfering in the affairs of other countries at will."

Look quickly before he amends it.

You may find the "divine mission" and "nuclear device" quotes useful in day-after-tomorrow's proceedings when explaining the claimant's motivation to the Judge. Also Dr Panigrahi's explanation of why the "pigshit", "bastard" British race should be eliminated -

<https://shantanup.wordpress.com/2016/01/07> (temporarily cloaked by him).

Perhaps Ms Mirza could bring this to the attention of the Judge?

If you do not use this, then rest assured VOPA in the follow-up proceedings will bring it up, as well as hundreds of other admissions by Panigrahi, to establish malice and support the claim for aggravated and exemplary damages of

our members and our application to the AG to have him declared a vexatious litigant and for multiple Civil Restraint Orders to be made against him pursuant to CPR 23.12.

Faithfully,

Sivaji Panesar (Dr.)

Dear Adele Miller

Please acknowledge receipt of the Costs awarded (paid at 15.10 hours into the Bank Account that you sent me) in favour of the Defendant in Claim E35YM660, because the Court of Central London did not send me the Order simultaneously or in a delayed manner for its own reasons even though I had stipulated that I would not allow any procrastination beyond today (11.00 pm); and take account of the attached:

DISCLAIMER TO THE CONTENTS OF THE WEBSITES AT WIX, INTERNET ARCHIVE FACEBOOK TWITTER LINKEDIN ...etc...docx; and the attached notification from the Court:

FrCountyCourtCentralLondon(ApplicationNotice)21June2021.docx.

If the £4170 is not refunded to me within the date on the Order contents in light of these considerations, I will be submitting the required Court Fee without any change in the content of the N244 application Notice that you have a copy of already.

Please let me know how you wish to proceed with this matter because I am distressed at the situation on the employment and mental health aspects of the Claim. Please inform Matt Hancock the Health Secretary at the Cabinet Office who will be required to give evidence personally now that the Prime Minister has not been found to implicated on the decision on this aspect of the Case accordingly.

Yours sincerely

Dear Mr Panigrahi,

Outcome of Today's [21/06/21] hearing

I am writing to update you of the outcome of this morning's hearing which was attended by my client's Counsel.

Please be advised that the Judge has ordered:

1. It is recorded that
  - a. The Court has sought to join the Claimant in the BT Meet Me hearing held today at 11.40am. The Court has telephoned the Claimant at least twice on the number given by him in his application dated 19/06/2021 – 07967789619 but the telephone is not picked up;
  - b. The application dated 19/06/2021 of the Claimant to adjourn be refused;
  - c. Today's hearing is merely to assess costs. The DJ today has no other jurisdiction.
  - d. The Court's view is that all 3 costs schedules are reasonable and proportionate;
2. The claim form having been struck out, judgment for the Defendant;
3. The Claimant shall pay the Defendant costs assessed in total at £4,170, payable by 4pm on 5/7/2021.

Please find attached GLD's client account bank details so that you can make the transfer.

Please ensure that you quote my file reference: Z1819776/MMX/HOI9, when you make the payment.

The parties await the sealed Order from the Court.

Correspondence with Counsel (Richard Clarke)

I am also writing to inform you that I have instructed Counsel Richard Clarke and his clerks to take all necessary steps in order to block you from contacting Counsel and his Chambers by email. For the avoidance of doubt, Counsel and his clerks have also been instructed not to respond to any emails from you via any email address.

Mr Clarke is instructed by this office, the Government Legal Department, to act for our client, the Cabinet Office. In no circumstances should you be contacting your opponent's Counsel and your correspondence should be directed to this email address, as previously informed.

Kind regards,

Adele

This decision of mine is irreversible and has been precipitated because Kent Police did not reply let alone issue an apology to my reporting of grievances that an international conspiracy was mounted on me over the past 23 years in the United Kingdom and most recently since my Blog

<https://shantanup.wordpress.com> was archived and suspended for no good reason and borders on criminal conduct. As such, I am also closing the new Blog with Wordpress also entitled 'Towards Knowledge for World Conservation that is currently at Wordpress at the site

<https://towardsknowledgeforworldconservation.com> and am also terminating my SimpleSite

website Shantanu's Humanology also with immediate effect. I take no responsibility in law for the contents of all of these Blogs from this moment onwards and their continuation in the public domain is solely up to Wix, Wordpress, Facebook, LinkedIn, Bravenet Internet Archive, and SimpleSite who would be liable for any costs, damages and compensation demanded by named persons and institutions in all of these Blogs. I terminate my copyright and intellectual property rights to the Blogposts and the websites with immediate effect. So kindly consider the matter and take whatever steps you need to take legally to ensure that Wix, Wordpress, SimpleSite, Anchor, Spotify, Bravenet, are protected from legal proceedings issued and served by anyone within the United Kingdom or outside under the organisation Victims of Panigrahi Association. You have all been warned that I have been forced into this decision so that as Publishers you will solely be liable for these materials to remain in the public domain beyond the next 10 minutes from the receipt and acknowledgement if you care to let me know your response to this legal notification. I will not accept any liability if you decide to continue to keep the websites in the public domain.

Please ensure that no further direct debit funds are withdrawn from my Santander Account and send me immediate acknowledgment of this message by email.

This also applies to the Books being published at Inkylittlefingers entitled 'A Conception of Reality' under ISBN Code 978-1-914288-19-7. NAVIGATING THE STATE OF THE UNITED KINGDOM: Food for Thought: ISBN Number: 978-1-914288-21-0

Mon, 31 May at 09:39

Dear Sirs

It beyond belief that the roughly 1500 criminal anonymous emails that I, my wife, my associates in employment venues, my Consultant Psychiatrist at Britton House and the Care Coordinator previously as well that I have reported to the Police since September 2017 can go un-investigated by Kent Police, as they have destroyed my scientific career with the University of Greenwich which is still refusing to pay me my £55,000 severance payment from the time of the termination of my employment unceremoniously through its kangaroo court on 20 October 1998. This was followed by similar criminal activities at Shell-UK, Sainsburys, Tesco and now Iceland, from the internalisation of my Union Institution of Professionals, Managers and Specialists and USDAW that took over the consideration of the issue of these severance payments or place me on medical retirement with £10,000 per annum from 20 October 2021 to be ordered by His Honour Judge Parfitt who inexplicably, and without full written reasons issued and served upon me that attached Court Order: CentralLondonCountyCourtOrderonE35YM660dated19January2021\_receivedbyClaimantfirstat9.27amon22March2021.pdf. The Operations Manager at the Court of Central London has refused to investigate the abysmal record of the Judicial authorities on this Clam and all previous ones submitted to Her Majesty's Court and Tribunal Service over these years:

ToOperationsManager(andvariousothersinCourtsMrsTheresaMay)14May2021.

Your explanation that the 1500 criminal anonymous emails that are specifically recorded and published in the internet to various extents cannot be traced is unacceptable as these followed the years of struggle that I have undergone to assess who specifically is behind the persecution that has been organised upon me to make me Stateless and render me to destitution otherwise as I live without legal support from the 50 odd Law Firms that I requested assistance from over these 23 years of suffering, as narrated in the attached: 'The Allurement of Reality.docx'.

Further Balboa Press and Book Baby has stolen £2000 pounds from me for refusing to cooperate with the publishing of this book, and this follows the reported embezzlement of the funds a few months ago from my Santander Account that was reported to the Financial Ombudsman and Action Fraud, but no-one took any notice of my grievances.

The report of Stalking harassment from Phands in particular and the deceitful liars of Secular Cafe and Religious Forums were never investigated by Kent Police, nor the criminals of Wordpress who archived and suspended my Blog <https://shantanp.wordpress.com>. These were adequately

explained to Kent Police, and represents a Crime against Humanity that the International Criminal Court took no account of and neither did the European Court of Human Rights.

The Claim form submitted to the CCMCC specifically listed the fictitious organisation Victims of Panigrahi Association (VOPA) with no names or email addresses for me to correspond with but apparently the source of the criminal anonymous emails designed to scupper any prospects of my getting employment in the country and legal redress from the name employers and prospective employers who were served with the appropriate Employment Tribunal proceedings since 1999. Kent Police's record shows that you have been very lackadaisical and non-compliant with my repeated requests to find these national and international criminals through Interpol even though numerous Incident and Case Numbers have been issued on Claim HX17X01773 at the Queen's Bench Division of the High Court, so I need an apology from the Chief Constable Alan Hugh Pughsley for your silence over these crimes that started when your Assistant Chief Constable refused to endorse the job of Public Enquiry Officer that I had successfully passed the interview for at Rochester Police Station 15 years or so ago.

An apology would be sufficient from Kent Police, I am not after money, I am after justice, material justice.

That is what I want from Kent Police today: You are the law of the land, not the Courts clearly in the Police State in its fullest manifestation that is the United Kingdom.

Yours sincerely

Dear Sirs

I have already completed this online interview once for Iceland, the answers are the same as previously deposited: see Report ToIcelandFeedbackJobAssessment29May2021.docx.

Further, you should take into account the attached correspondence:

ToTesco(throughindeedJobUltimatum)31May2021.docx, and make your decisions on my employability in the retail sector of the Business environment, in relation to both the specific job applications submitted to Iceland and the General Application submitted this morning to Iceland.

Delays are intolerable in this respect. The attached enquiry that I made has still not had a response so that I took my second coronavirus vaccination yesterday evening:

Quick question while we wait for an Expert, what's your first name?

Shantanu: Shantanu

Tanya joined the conversation

Shantanu: Hello Tanya

Hi! Nice to meet you Shantanu! Thank you for contacting Wix Customer Care Team. My name is Tanya and I will be happy to assist you.

Could you please specify the website in question?:)

Shantanu: I would appreciate some assistance in converting the Orders section of <https://theconservativelibertariansociety.com> from Restuarants and Dishes to Selling Books, pamphlets and videos.

Tanya: Thank you for the website:)I will now have a look and will be back to you in 3-4 min

Shantanu, I can see that you have Restaurants app installed and it has Orders tab in Dashboard.

So I could provide you with the relevant instructions, could you please advise what are you trying to achieve?:)

Shantanu: I have applied to the Companies Registration authorities to form The Society as a Limited Company named 'The Conservative Libertarian Society Limited'. When I receive confirmation that this has been registered I wish to market my books and the videos and booklets of advisory material through this website. I wish to therefore be able to display the items that I have for sale and invite people and institutions to place Orders for this at various costs. So this app does not do that for me. Is there another app that is available for me to replace it with or can we customise this app to suit my intentions?

Or do I need a brand new website called 'The Conservative Libertarian Society Limited' with just these facilities?

Tanya: Thank you so much for detailed explanation:) Please allow me 5-8 min to check this, and I will be back

Shantanu, I noticed that you are already using Wix Video. You can definitely sell your videos using Wix Video and here you can find detailed steps on how to set it up:)

Additionally, this article outlines how to add and set up Wix Video Player on your website, so your customers would be able to purchase them.

As for the books and booklets, you can sell those with the help of Wix Stores. You will be able to add the relevant products to your store and set up prices for them:)

Once Wix Stores is added, you will see the relevant Stores tabs in your dashboard with Products and Orders:) If you are not going to use Wix Restaurant, you can simply remove it:)

Also, there is no need to create a new website to use Wix Stores, you can just add to your [www.theconservativelibertariansociety.com](http://www.theconservativelibertariansociety.com) website:)

Shantanu: Thank you that is most useful. One other question that I had, Is Wix.com happy with the manner in which I have been developing all my five websites. I wish to make sure that I adhere to the Terms of Usage and cover all legal and other rules and regulations that Wix has to impose upon me as a Customer.

Tanya: I got it Shantanu:) So, the legal requirements for any features you intend to use (such as Wix Stores or Email Marketing) may vary in accordance with your geographical location and the laws applicable to you and your site visitors:)

You are solely responsible to review and comply with all such legal requirements and applicable laws:)

Tanya: Wix does not provide any legal advice nor any recommendation with respect to such requirements and your compliance therewith.

Please let me know if you have any other questions, I am here:)

Shantanu: I understand now. I have been very careful and have kept the Court of Central London informed of all my website activities over the past 13 years first with Wordpress, then with SimpleSite, then with Bravenet and now with Wix. If I have done anything wrong or unlawful in publishing materials that have violated the privacy or other laws of the United Kingdom, then of course what you are saying is that I am solely liable to face the law. So far although I have had threats of prosecution in civil and criminal courts by an organisation calling itself 'Victims of Panigrahi Association' or VOPA, no one has actually gone through and started legal proceedings against me. So I feel right now that I am in the clear. This is just to keep you informed that I do realise that publishing materials such as blog posts have to be consistent with the law of the United Kingdom and I wish to assure Wix.Com that I am and will continue to do all I can to ensure that I do not break any laws.

Tanya: Thank you Shantanu:) For your reference, I am sharing with you our Terms of Use, where you can find more detailed information:)

Feedback Comment

Shantanu: I feel over from my experiences of Website companies over the past 15 years that at last I have found the most respectable and honourable Company in Wix.Com who are ever so helpful and understanding the needs that I have had to tread carefully and creatively in the constructions of my websites of diverse philanthropic natures and sincerely hope that when my money runs out, these websites will be remaining in the public domain for the world to read after I die, but I will keep on funding all my websites now until my money runs out based on the explanations and elaborations of the Terms of Usage and the adherence measures to the laws of the United Kingdom that remain high on my priorities as I go forward. Wix.com is a marvellous creation and is the best website service provider that I have ever used and I have used considerable numbers over those years. My thanks to the Chief architects who have created such imaginative websites fulfilling different functions and also my thanks to all who work for Wix.Com. God bless.

Central London County Court

Dear Sir/Madam

I was going by the attached email not having received the Court Order myself, and in good faith took money from my wife's Barclays Account as I did not have sufficient funds of my own to spend on this cost award to the Defendant: see ToAdeleMiller(governmentLawyerccSannaMirza21June2021.docx.

This afternoon I finally had courage to tell my wife that the Court had issued this Order and she was very distressed and angry with me having struggled so hard for 20 years to look after us, with me being a mentally retarded individual not knowing what one does on the computer, in employment and in other social interactions. As you may be aware I have been placed in mental hospital twice over these years and diagnosed even now with paranoid schizophrenia and persistent delusional disorder with having to take anti-psychotic, anti-depressant and mood-stabilising medications prescribed by the Consultant Psychiatrist. This mitigating factor does not seem to have been taken into account and it is clear that the District Judge was not acting on His Honour Judge Parfitt's Order of 19 January 2021, which had specified two different cost schedules not the current one that took the previous demand from Adele Miller from around £2000 to \$4170. So, the Court was acting on its own requirements rather than the requirements of the Defendant or the Claimant.

Pending the arrival of the Order of the Court, my wife has asked me to write to you that the Court should hear my Appeal against the Order immediately, in accordance with the pre-screened N244 Order attached n244 form (Set Aside&AlterNoticeofHearingE5YM660.pdf In regard to this I telephoned Ms Susie Riches-Kapur after speaking to my wife and asked her on her Voicemail to pass the following message to Ms Adele Miller: 'This is Shantanu Panigrahi. I know you are no longer dealing with this matter, and it has gone back to Adele Miller, but I do not have her telephone

number. I sent her an email asking her to confirm whether you have received the costs that were awarded to the Defendant but have not received a reply. So, I was wondering what the prospects are of me getting some kind of refund and if Matt Hancock has been contacted about my medical issues together with the University of Greenwich employment matter on which I am awaiting severance payment. So, I would be grateful if you would pass this message to Adele Miller. My telephone Number is 07967789619. You have my email address. Thank you.'

I have not received any information from the Government Legal department so I feel that I have been hard done by from the Court Order and on behalf of my wife only who is suffering distress and financial hardship as a result, I promised her that I would Appeal this Court Order to have it set aside and request an Order for the Cabinet Office to refund some or all of the £4170 that I paid yesterday.

I should be most grateful for your kind consideration, and I will pay the £100 Court Fee to implement the Application Notice.

Yours sincerely

Dear Adele Miller

Please acknowledge receipt of the Costs awarded (paid at 15.10 hours into the Bank Account that you sent me) in favour of the Defendant in Claim E35YM660, because the Court of Central London did not send me the Order simultaneously or in a delayed manner for its own reasons even though I had stipulated that I would not allow any procrastination beyond today (11.00 pm); and take account of the attached:

DISCLAIMER TO THE CONTENTS OF THE WEBSITES AT WIX, INTERNET ARCHIVE FACEBOOK TWITTER LINKEDIN ...etc...docx; and the attached notification from the Court:  
FrCountyCourtCentralLondon(ApplicationNotice)21June2021.docx.

If the £4170 is not refunded to me within the date on the Order contents in light of these considerations, I will be submitting the required Court Fee without any change in the content of the N244 application Notice that you have a copy of already.

Please let me know how you wish to proceed with this matter because I am distressed at the situation on the employment and mental health aspects of the Claim. Please inform Matt Hancock the Health Secretary at the Cabinet Office who will be required to give evidence personally now that the Prime Minister has not been found to be implicated on the decision on this aspect of the Case accordingly.

Yours sincerely

Dear Mr Panigrahi,

Outcome of Today's [21/06/21] hearing

I am writing to update you of the outcome of this morning's hearing which was attended by my client's Counsel.

Please be advised that the Judge has ordered:

1. It is recorded that
  - a. The Court has sought to join the Claimant in the BT Meet Me hearing held today at 11.40am. The Court has telephoned the Claimant at least twice on the number given by him in his application dated 19/06/2021 – 07967789619 but the telephone is not picked up;
  - b. The application dated 19/06/2021 of the Claimant to adjourn be refused;
  - c. Today's hearing is merely to assess costs. The DJ today has no other jurisdiction.
  - d. The Court's view is that all 3 costs schedules are reasonable and proportionate;
2. The claim form having been struck out, judgment for the Defendant;
3. The Claimant shall pay the Defendant costs assessed in total at £4,170, payable by 4pm on 5/7/2021.

Please find attached GLD's client account bank details so that you can make the transfer.

Please ensure that you quote my file reference: Z1819776/MMX/HOI9, when you make the payment.

The parties await the sealed Order from the Court.

Correspondence with Counsel (Richard Clarke)

I am also writing to inform you that I have instructed Counsel Richard Clarke and his clerks to take all necessary steps in order to block you from contacting Counsel and his Chambers by email. For the avoidance of doubt, Counsel and his clerks have also been instructed not to respond to any emails from you via any email address.

Mr Clarke is instructed by this office, the Government Legal Department, to act for our client, the Cabinet Office. In no circumstances should you be contacting your opponent's Counsel and your correspondence should be directed to this email address, as previously informed.

Kind regards,

Adele
